<b>Interest charging information</b>	<p>If you don't pay your balance in full, we will charge you interest from the date we add the transaction or charge to your account, taking into account any payments and/or refunds that have been received. So the longer it takes you to pay back the balance, the more interest you'll pay - until you've paid off your balance in full. The period over which the interest is charged will be as follows:</p> <table border="0" style="width: 100%;"> <tr> <td style="width: 33%;"></td> <td style="text-align: center;"><b>From</b></td> <td style="text-align: center;"><b>Until</b></td> </tr> <tr> <td>• Purchases</td> <td style="text-align: center;">Date the transaction is applied to your account</td> <td style="text-align: center;">Repaid in full</td> </tr> <tr> <td>• Cash transactions</td> <td style="text-align: center;">Date the transaction is applied to your account</td> <td style="text-align: center;">Repaid in full</td> </tr> <tr> <td>• Balance transfers*</td> <td style="text-align: center;">Date the transaction is applied to your account</td> <td style="text-align: center;">Repaid in full</td> </tr> </table> <p>No interest will be charged on default charges. <b>Allocation of payments</b>	<p>If you pay less than the total amount owing, we will use that payment to reduce your higher interest-rate balances first (such as cash withdrawals), before your lower interest-rate balances (such as purchases). If some amounts are charged at the same interest rate, we'll apply your payment to the oldest amounts first, unless you have more than one promotional offer at the same rate. In that case, we'll apply your payment to these balances in the order in which the offers started (so balances on the earlier offers will be paid first, even if you have older transactions on an offer that started later).</p>													
<b>Minimum repayment</b>	<p>Your monthly minimum payment will be one of the following, whichever is the highest amount:</p> <ul style="list-style-type: none"> <li>• 2% of the total balance on your statement (including interest and charges);</li> <li>• £5; or</li> <li>• the sum of (i) interest for the period from your last statement, (ii) any charges and (iii) 1% of the total balance on your statement (excluding interest and charges).</li> </ul> <p><b>If you only make the minimum payment each month it will take longer and cost more to clear your balance.</b></p>
