

The **co-operative** bank good with money

The Co-operative Bank's think credit card **Ethical partners' terms of use**

Full and up to date details of the partners and benefits can be found at co-operativebank.co.uk/think and by visiting the 'extras' page.

In addition to the lower interest rate applied when making purchases from the ethical partners using your credit card, further benefits such as discounts and redemption details will be provided upon opening your account.

Allocation of lower interest rate

The rate for standard balances (purchases) on the credit card is 12.9% APR. Purchases made from our ethical partners will attract a lower interest rate of 7% p.a. for six months following each purchase.

Details of promotional transactions (which includes purchases from our ethical partners or balance transfers) will be identified on your statement and will continue to appear on your statement each month until repaid in full, or the rate reverts to the standard rate six months following the date of the transaction.

There is a limit of 50 promotional transactions at the promotional rate on your account at any one time. If that limit is exceeded, subsequent transactions will attract the rate for standard balances. As items are paid off or revert to the rate for standard balances, new promotional transactions will attract the promotional rate.

Ethical partners' eligibility

The promotional rate of 7% p.a. (for 6 months following each purchase), is applied to each of the following partners. We're also offering you various additional discounts with our partners, where applicable please use the redemption codes as indicated:
