THIS DOCUMENT IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION.

THIS DOCUMENT COMPRISES AN EXPLANATORY STATEMENT IN COMPLIANCE WITH SECTION 897 OF THE COMPANIES ACT 2006 (the **Explanatory Statement**). It is being sent to persons who are believed to be Scheme Creditors at the date of this Explanatory Statement. If you have assigned, sold, or otherwise transferred, or assign, sell or otherwise transfer, your interests as a Scheme Creditor before the Record Date you must forward this Explanatory Statement and the accompanying documents at once to the person or persons to whom you have assigned, sold or otherwise transferred, or assign, sell or otherwise transfer, your interests as a Scheme Creditor.

If you are in any doubt as to the contents of this Explanatory Statement or the documents that accompany it or what action you should take, you are recommended to seek your own independent financial, legal and tax advice immediately from your financial, legal and/or tax adviser who, if you are taking advice in the United Kingdom, is authorised pursuant to the Financial Services and Markets Act 2000 (FSMA) or by an appropriate regulatory body, or from another appropriately authorised independent adviser if you are in a territory outside the United Kingdom.

This Explanatory Statement is accompanied by an Account Holder Letter. It is important that you read the Account Holder Letter carefully for information about the Scheme and that you complete and return it in accordance with the instructions contained in it.

Further copies of this Explanatory Statement can be obtained by contacting the Information Agent at via email to co-op@lucid-is.com or telephone on + 44 20 7704 0880.

Application has been made to the Financial Conduct Authority under Part VI of the Financial Services and Markets Act 2000 (the **UK Listing Authority**) for the Bank T2 Notes referred to in this Explanatory Statement to be admitted to the Official List of the UK Listing Authority and to the London Stock Exchange plc. (the **London Stock Exchange**) for the Bank T2 Notes to be admitted to trading on the London Stock Exchange's regulated market. The London Stock Exchange's regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2004/39/EC).

A document comprising a prospectus relating to the Company has been prepared in accordance with Article 5.4 of Directive 2003/71/EC as amended (which includes the amendments made by Directive 2010/73/EU to the extent that such amendments have been implemented in a relevant Member State of the European Economic Area) (the **Prospectus Directive**), and a copy of that prospectus <u>together with a related supplementary prospectus</u> (referred to in this Explanatory Statement as the Bank T2 Notes Prospectus) is appended to this Explanatory Statement at Appendix 9 (*Bank T2 Notes Prospectus*).

EXPLANATORY STATEMENT IN RELATION TO A SCHEME OF ARRANGEMENT

under Part 26 of the Companies Act 2006

between

THE CO-OPERATIVE BANK P.L.C.

and the

Scheme Creditors

(as defined in this Explanatory Statement)

DATE: 18 November 2013 (as amended on 4 December 2013)

VOLUME 1 OF 2

The Record Date for the Scheme will be 4.30 p.m. (London time) on 10-13 December 2013. The Scheme Meeting for the Scheme Creditors to consider and vote on the Scheme will be held at 10 a.m. (London time) on 11-16 December 2013. The notice convening the Scheme Meeting is set out in Appendix 4 (Notice of Scheme Meeting) of this Explanatory Statement. Instructions about actions to be taken by Scheme Creditors preceding the Scheme Meeting are set out in Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes) and summarised on pages 21 to 27 (Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes) of this Explanatory Statement. Whether or not you intend to attend the Scheme Meeting, you are requested to ensure that your Account Holder completes, executes and returns the Account Holder Letter which accompanies this Explanatory Statement in accordance with the instructions printed thereon as soon as possible.

Further important information is set out under the sections entitled *Important Notice* and *Important Securities Law Notice* on pages 5 to 12 (inclusive) of this Explanatory Statement.

IMPORTANT NOTICE

Unless the context otherwise requires, all capitalised terms used in this Explanatory Statement shall have the meanings set out in Appendix 1 (*Definitions and Interpretation*) of this Explanatory Statement. The appendices to this Explanatory Statement form an integral part of it and, unless expressly stated otherwise, references to this Explanatory Statement shall be construed as references to the Explanatory Statement including the appendices to it.

Information

This Explanatory Statement has been prepared in connection with a scheme of arrangement under Part 26 of the Companies Act 2006, namely a scheme between the Company and the Scheme Creditors and has been prepared solely for the purpose of providing information to Scheme Creditors in relation to the Scheme.

Nothing in this Explanatory Statement or any other document issued with or appended to it should be relied on for any purpose other than for Scheme Creditors to make a decision on the Scheme and Scheme Creditors may not reproduce or distribute this Explanatory Statement, in whole or in part, and may not disclose any of the contents of this Explanatory Statement or use any information herein for any purpose other than considering and/or making a decision in respect of the Scheme. In particular and without limitation, nothing in this Explanatory Statement should be relied on in connection with the purchase or acquisition of any Dated Notes or any other financial instruments or assets of the Company or any other member of the Group.

Nothing in this Important Notice and the Important Securities Law Notice sections of this Explanatory Statement shall be construed as amending, varying or waiving the notice set out in section 21 (Important Legal Information) on pages 471 to 476 of the Bank T2 Notes Prospectus and, in respect of the information set out in the Bank T2 Notes Prospectus, Scheme Creditors should read that section of the Bank T2 Notes Prospectus carefully. With respect to the Bank T2 Notes, Scheme Creditors should read the Bank T2 Notes Prospectus in full before making a decision in respect of the Scheme.

Without prejudice to the responsibility of the Company for the information contained in the Bank T2 Notes Prospectus (as expressly set out therein), nothing contained in this Explanatory Statement shall constitute a warranty, undertaking or guarantee of any kind, express or implied, and nothing contained in this Explanatory Statement shall constitute any admission of any fact or liability on the part of the Company, or any other member of the Group with respect to any asset to which it or they may be entitled or any claim against it or them. Without prejudice to the generality of the foregoing, nothing in this Explanatory Statement or the distribution thereof evidences to any person, or constitutes any admission by the Company or any other member of the Group, that a liability is owed to any person in respect of any claim (including without limitation any Scheme Claim) or that any person is or may be a Scheme Creditor. The failure to distribute this Explanatory Statement to any Scheme Creditor shall not constitute an admission by the Company that such person is not a Scheme Creditor.

No person has been authorised by the Company, the Dealer Managers or Lucid Issuer Services Limited as Information Agent to give any information or make any representations concerning the Scheme (including concerning the Company or any other member of the Group or the Scheme Consideration or the Additional New Ordinary Shares) which is inconsistent with this Explanatory Statement and, if made, such representations may not be relied upon as having been so authorised.

The information contained in this Explanatory Statement (with the exception of the Bank T2 Notes Prospectus appended hereto) has been prepared based upon information available to the Company prior to the date of this Explanatory Statement. The information contained in the Bank T2 Notes Prospectus has been prepared based upon the information available to the Company prior to the date the Bank T2 Notes Prospectus was published. The delivery of this Explanatory Statement does not imply that, unless expressly stated otherwise, (i) the information herein (other than in the Bank T2 Notes Prospectus appended hereto) is

correct as at any time subsequent to the date hereof; and (ii) the information contained in the Bank T2 Notes Prospectus, is correct as at any time subsequent to the date the Bank T2 Notes Prospectus was published. Save as otherwise agreed, or as required by law, the Company has no obligation whatsoever to update or revise any of the information, forward-looking statements or the conclusions contained herein or to reflect new events or circumstances or to correct any inaccuracies which may become apparent subsequent to the date hereof. To the best of the Company's knowledge, information and belief, the information relating to the Company contained in this Explanatory Statement other than the Bank T2 Notes Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. In addition, the Company accepts responsibility for the information contained in the Bank T2 Notes Prospectus as set out in the "Important Notices" on pages 2 to 4 of the Bank T2 Notes Prospectus. The Company has taken all reasonable steps to ensure that this Explanatory Statement contains the information reasonably necessary to enable Scheme Creditors to make an informed decision about the effect of the Scheme on them.

None of the Scheme Creditors nor their advisers have authorised the content of this Explanatory Statement or any part of it, nor do they accept any responsibility for the accuracy, completeness or reasonableness of the statements contained within it.

In making a decision in respect of the Scheme, each Scheme Creditor must rely on its own examination, analysis and enquiry of the Company and the terms of the Scheme including the merits and risks involved. None of the Company's advisers have verified that the information contained in this Explanatory Statement is in accordance with facts and does not omit anything likely to affect the import of such information and each of those persons expressly disclaims responsibility for such information. Each Scheme Creditor, by its participation in the Liability Management Exercise and receipt of any Scheme Consideration and/or Additional New Ordinary Shares and/or participation in the Sub-purchasing Offer pursuant to the Scheme acknowledges that:

- (i) it has not relied on HSBC Bank plc and UBS Limited (the **Dealer Managers**), Lucid Issuer Services Limited as Information Agent or any person affiliated with the Dealer Managers or the Information Agent in connection with any investigation of the accuracy of any information contained in this Explanatory Statement or their investment decision (including any decision in connection with the Scheme); and
- (ii) it has relied only on the information contained in this Explanatory Statement.

This Explanatory Statement has not been reviewed, verified or approved by any rating agency or any regulatory authority (other than the Bank T2 Notes Prospectus appended hereto which has been approved by the UK Listing Authority). Without prejudice to the representations and warranties given by the Company or any other member of the Group or any directors or officers of any member of the Group elsewhere, to the fullest extent permitted by law, neither the Company nor any other member of the Group nor any directors or officers of the Company or any other member of the Group will have any tortious, contractual or any other liability to any person in connection with the use of this Explanatory Statement and the Company and all other members of the Group do not accept any liability whatsoever to any person, regardless of the form of action, for any lost profits or lost opportunity, or for any indirect, special, consequential, incidental or punitive damages arising from any use of this Explanatory Statement, its contents or preparation or otherwise in connection with it, even if the Company or other member of the Group (as applicable) has been advised of the possibility of such damages.

Electronic Form

If this Explanatory Statement has been sent to you in an electronic form, you are reminded that documents transmitted via this medium may be altered or changed during the process of transmission and consequently none of the Company, the Dealer Managers, the Information Agent, the Registrars or any person who controls, or is a director, officer, employee, agent or any affiliate of any such person accepts any liability or responsibility whatsoever in respect of any difference between the Explanatory Statement distributed to you

in electronic format and the hard copy version available to you on request from the Information Agent and/or the Registrars.

You are reminded that the Explanatory Statement has been delivered to you on the basis that you are a person into whose possession it may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not nor are you authorised to deliver the Explanatory Statement or any part of it to any other person. If you are not the named addressee to which the Explanatory Statement has been delivered, please notify the sender immediately and destroy the Explanatory Statement.

Restrictions

The distribution of this Explanatory Statement and the offer or sale of Bank T2 Notes, New Ordinary Shares and/or Additional New Ordinary Shares may be restricted by law in certain jurisdictions. None of the Company or the Dealer Managers represent that this Explanatory Statement may be lawfully distributed in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating such distribution.

The distribution of this Explanatory Statement to or in certain jurisdictions may be restricted by law or regulation in certain jurisdictions and persons into whose possession this Explanatory Statement comes are requested to inform themselves about, and to observe, any such restrictions. Failure to comply with any such restrictions could result in a violation of the laws of such jurisdictions.

Lock-Up Arrangements may be sought from any person in the United Kingdom who is (a) a holder of any of the Existing Securities or (b) any other person also falling within Article 43(2) or within Article 49(2)(a) to (d) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the **Financial Promotion Order**) or falling within the definition of investment professionals (as defined in Article 19(5) of the Order). The Company may exercise its discretion not to enter into a Lock-Up Arrangement with any person in the United Kingdom other than as described in the previous sentence and no other person in the United Kingdom should rely on this Explanatory Statement for the purposes of entering into a Lock-Up Arrangement.

Summary Only

The summary of the principal provisions of the Scheme contained in this Explanatory Statement is qualified in its entirety by reference to the Scheme itself, the full text of which is set out in Part G (*The Scheme*) of this Explanatory Statement. Each Scheme Creditor is advised to read and consider carefully the text of the Scheme. This Explanatory Statement has been prepared solely to assist Scheme Creditors in respect of voting on the Scheme.

IN THE EVENT OF A CONFLICT BETWEEN THE INFORMATION AND TERMS DESCRIBED IN THIS EXPLANATORY STATEMENT AND THE SCHEME, THE TERMS OF THE SCHEME SHALL PREVAIL.

Prospectus

This Explanatory Statement is not a prospectus within the meaning of Article 5.4 of the Prospectus Directive, or a prospectus equivalent document. In connection with the Bank T2 Notes a document comprising a prospectus for the purposes of the Prospectus Directive has been prepared. A copy of the Bank T2 Notes Prospectus is appended to the Explanatory Statement and has been made available to the public in accordance with the Prospectus Rules.

Forward-looking statements

Nothing in this Explanatory Statement shall be deemed to be a forecast, projection or estimate of the future financial performance of the Company and/or any member of the Group except where otherwise specifically stated.

This Explanatory Statement contains statements, estimates, opinions and projections with respect to the Company and certain of its subsidiaries, and certain plans and objectives of the Company and certain of its subsidiaries. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements often use words such as "anticipate", "target", "expect", "estimate", "intend", "plan", "goal", "believe", "will", "may", "should", "would", "could" or other words of similar import. These statements are based on numerous assumptions and assessments made by the Company and/or any other member of the Group as appropriate in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors which they believe appropriate. Although the Company and/or any other member of the Group, as appropriate, believe that the expectations reflected in such statements are reasonable, no assurance can be given that such expectations will prove to be correct. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. Such forward-looking statements only speak as at the date of this Explanatory Statement 18 November 2013. A number of factors could cause actual results to necessarily differ materially from the results discussed in the forward looking statements, including, but not limited to, future collections being lower than expected, deterioration in general economic conditions, changes in the regulatory environment, fluctuations in interest and exchange rates, the outcome of litigation, government actions and the other factors set out or referred to in Part D (Risk Factors) of this Explanatory Statement. It is up to the recipient of this Explanatory Statement to make its own assessment of the validity of such forward-looking statements and assumptions and no liability is accepted by the Company or any other member of the Group in respect of the achievement of such forward-looking statements and assumptions. Should one or more of these risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary materially from those described in this Explanatory Statement.

Risk factors

SCHEME CREDITORS' ATTENTION IS DRAWN TO CERTAIN RISKS ASSOCIATED WITH THE LIABILITY MANAGEMENT EXERCISE (TO THE EXTENT RELATING TO THE SCHEME) THAT ARE SET OUT OR REFERRED TO IN PART D (RISK FACTORS) OF THIS EXPLANATORY STATEMENT.

Legal, tax and financial advice

Scheme Creditors should not construe the contents of this Explanatory Statement as legal, tax or financial advice.

This Explanatory Statement has been prepared without taking into account the objectives, financial situation or needs of any particular recipient of it, and consequently, the information contained in this Explanatory Statement may not be sufficient or appropriate for the purpose for which a recipient might use it. Any such recipients should conduct their own due diligence and consider the appropriateness of the information in this Explanatory Statement having regard to their own objectives, financial situations and needs. Scheme Creditors are recommended to consult their own professional advisers as to legal, tax, financial or other matters relevant to the action Scheme Creditors should take in relation to the Scheme, or the implications/consequences of those actions.

This Explanatory Statement is issued by the Company to the Scheme Creditors in the United Kingdom in reliance on Article 43 of the Financial Promotion Order. This Explanatory Statement is only addressed to Scheme Creditors and no other person (whether in the United Kingdom or otherwise) should rely on it.

Other jurisdictions

The implications of the Scheme for Scheme Creditors who are residents or citizens of jurisdictions other than the United Kingdom may be affected by the laws of the relevant jurisdictions. Such overseas Scheme Creditors should inform themselves about and observe any applicable legal requirements. Any person outside the United Kingdom who is resident in, or who has a registered address in, or is a citizen of, an overseas jurisdiction should consult independent professional advisers and satisfy themselves as to the full observance of the laws of the relevant jurisdiction in connection with the Scheme, including obtaining any requisite governmental or other consents, observing any other requisite formalities and paying any issue, transfer or other taxes due in such jurisdiction.

SCHEME CREDITORS SHOULD CONSULT THEIR OWN PROFESSIONAL ADVISERS WITH RESPECT TO THE MATTERS DESCRIBED IN THIS DOCUMENT, INCLUDING THE LEGAL, FINANCIAL AND TAX CONSEQUENCES OF THE SCHEME IN THEIR PARTICULAR CIRCUMSTANCES.

IMPORTANT SECURITIES LAW NOTICE

NONE OF THE SECURITIES REFERRED TO IN THIS EXPLANATORY STATEMENT SHALL BE SOLD, ISSUED OR TRANSFERRED IN ANY JURISDICTION IN CONTRAVENTION OF APPLICABLE LAW.

If the Scheme is implemented in accordance with its terms, the Scheme Consideration (being the New Ordinary Shares and the Bank T2 Notes) and the Additional New Ordinary Shares will be issued by the Company in accordance with the terms of the Scheme.

Information for United States and other overseas Scheme Creditors

Neither this Explanatory Statement nor any part hereof constitutes an offer to distribute, issue or sell, or a solicitation of an offer to subscribe for or purchase the Scheme Consideration and/or Additional New Ordinary Shares or any other securities in any jurisdiction in which such distribution, issue, sale or solicitation is not permitted and neither this Explanatory Statement nor any part hereof may be used for or in connection with an offer to, or the solicitation by, any person in any jurisdiction or in any circumstances in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation. Accordingly, neither the Scheme Consideration, Additional New Ordinary Shares nor any other securities may be offered or sold, directly or indirectly, and neither this Explanatory Statement nor any part hereof nor any prospectus, offering circular, form of application, advertisement, other offering materials nor other information may be issued, distributed or published in any country or jurisdiction except in circumstances that will result in compliance with all applicable laws, orders, rules and regulations.

The Scheme Consideration and Additional New Ordinary Shares to be issued pursuant to the Scheme, will not be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**), or under any relevant securities laws of any state or other jurisdiction of the United States or under the applicable securities laws of Australia, New Zealand, South Africa, Canada, Japan or Switzerland and other relevant jurisdictions. No public offering of securities will be made in Australia, New Zealand, South Africa, Canada, Japan or Switzerland.

The Scheme Consideration and Additional New Ordinary Shares will be issued in reliance upon the exemption from the registration requirements of the Securities Act provided by section 3(a)(10) thereof. For the purpose of qualifying for the exemption from the registration requirements of the Securities Act provided by section 3(a)(10) thereof with respect to such securities that may be issued pursuant to the Scheme, the Court has been advised that its sanctioning of the Scheme will be relied upon as an approval of the Scheme following a hearing on its fairness to security holders at which hearing all such security holders are entitled to attend in person, by proxy or through counsel to support or oppose the sanctioning of the Scheme and with respect to which notification has been given to all such security holders. Such transaction will not be approved or disapproved by the U.S. Securities and Exchange Commission (SEC), nor will the SEC or any U.S. state securities commission pass upon the merits or fairness of the transaction nor upon the adequacy or accuracy of the information contained in this Explanatory Statement. Accordingly, the Scheme Consideration and Additional New Ordinary Shares issued in connection with the Liability Management Exercise have not been recommended by any U.S. federal or state securities commission or regulatory authority. Any representation to the contrary is a criminal offence in the United States. The information disclosed in this Explanatory Statement is not the same as that which would have been disclosed if this Explanatory Statement had been prepared for the purpose of complying with the registration requirements of the Securities Act or in accordance with the laws and regulations of any state or other jurisdiction of the United States.

Holders of Dated Notes in the United States should note that the Scheme will relate to the securities of an English public limited company that is a "foreign private issuer" as defined under Rule 3b-4 of the U.S. Securities Exchange Act of 1934, as amended (the **Exchange Act**), and will be governed by English law.

Neither the proxy solicitation nor the tender offer rules under the Exchange Act will apply to the Scheme. Moreover, the Scheme will be subject to the disclosure requirements and practices applicable in the United Kingdom to schemes of arrangement, which differ from the requirements of the U.S. proxy solicitation rules and tender offer rules.

The Scheme Consideration and Additional New Ordinary Shares may generally be resold without restriction under the Securities Act by former holders of Dated Notes who are not affiliates of the Company or the Group and have not been affiliates of the Company or the Group within 90 days prior to the issuance of such Scheme Consideration and Additional New Ordinary Shares under the Scheme. Thereafter, a former holder of Dated Notes may resell without restriction under the Securities Act the respective Scheme Consideration and Additional New Ordinary Shares issued under the Scheme, unless such person is an affiliate of the Company or the Group at the time of such resale, or was an affiliate of the Company or the Group within 90 days prior to such resale.

Application has been made to the UK Listing Authority for the Bank T2 Notes to be admitted to the Official List of the UK Listing Authority and to the London Stock Exchange for the Bank T2 Notes to be admitted to trading on the London Stock Exchange's regulated market. The London Stock Exchange's regulated market is a regulated market for the purposes of the Markets in Financial Instruments Directive (Directive 2004/39/EC).

Scheme Consideration and Additional New Ordinary Shares will not be distributed pursuant to the Scheme to or to the order, or for the account or benefit, of any person where such distribution would be prohibited by any applicable law or regulation, or so prohibited except after compliance with conditions or requirements that are unduly onerous. To the extent that such a prohibition applies, the Scheme Consideration and Additional New Ordinary Shares that would otherwise have been distributed to any relevant person pursuant to the Scheme will be delivered to a holding period trustee and, subject to the terms of the Scheme and certain limited exceptions, sold and the net cash proceeds of such sale (after deduction of all applicable expenses and currency conversion costs) paid to that person in Sterling in full satisfaction of his rights in respect of such securities under the Scheme. For further information see clauses 18 to 31 of the Scheme and paragraphs 3.5 to 3.18 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Section 178 FSMA

Under section 178 of FSMA, if a person intends to acquire or increase its "control" of a UK authorised person (which includes the Company), it must first notify the appropriate regulator (in the case of the Company, this is the PRA). The PRA must then (after consulting with the FCA) decide whether to approve the acquisition or increase of control within 60 working days' of receipt of this notice (assuming it has been provided with a complete application). The PRA will not approve any new controller or any increase of control without being satisfied that the controller is financially sound and suitable to be a controller of, or acquire increased control of, the UK authorised person. Acquiring control for the purposes of FSMA includes where a person first holds 10% or more of the shares or voting power in a UK authorised person or its parent undertaking. A person will be treated as increasing his or her control over a UK authorised person, and therefore require further approval from the PRA, if the level of his or her shareholding or entitlement to voting power increases from a holding below certain thresholds to a holding above them. The thresholds are 10 per cent., 20 per cent., 30 per cent. or 50 per cent. of shares or voting power. When determining a person's level of control, that person's holding of shares or entitlement to voting power will be aggregated with the holdings or entitlements of any person with whom he or she is "acting in concert". Acquisition or increase of control without PRA approval is a criminal offence.

Takeover Regulation

The City Code on Takeovers and Mergers (the **City Code**) is issued and administered by The Panel on Takeovers and Mergers (the **Takeover Panel**). The Company is subject to the City Code and therefore its shareholders are entitled to the protections afforded by the City Code. Under rule 9 of the City Code when

(a) a person acquires an interest in shares which (taken together with shares he and persons acting in concert with him are interested) carry 30 per cent. or more of the voting rights of a company subject to the City Code, or (b) any person who, together with persons acting in concert with him, is interested in shares which in the aggregate carry not less than 30 per cent. of the voting rights of a company, but does not hold shares carrying more than 50 per cent. of the voting rights of the company subject to the City Code, and such person, or any persons acting in concert with him, acquires an interest in any other shares which increases the percentage of the shares carrying voting rights in which he is interested, then, in either case, that person, together with the person acting in concert with him, is normally required to extend offers in cash, at the highest price paid by him (or any persons acting in concert with him) for shares in the company within the preceding 12 months, to the holders of any class of equity share capital whether voting or non-voting and also to the holders of any other class of transferable securities carrying voting rights. Investors should be aware that any person who acquires 30 per cent. or more of the voting rights attached to the issued share capital of the Company may, pursuant to note 8 to rule 9.1 of the City Code, be required by the Takeover Panel to make an offer for the shares in the Company not owned or controlled by them at that time.

LETTER FROM THE CHAIRMAN OF THE COMPANY

18 November 2013

Dear Noteholders,

On 17 June 2013, following the conclusion of the Company's review of its capital position and discussions with the Prudential Regulation Authority (the **PRA**), the Company and Co-operative Group announced that the Company required additional aggregate Common Equity Tier 1 Capital of £1.5 billion (the **June Announcement**). In the June Announcement, the Company and Co-operative Group also announced the initial details of the Recapitalisation Plan, which was intended to address this capital requirement. At least £1 billion is expected to be contributed pursuant to the Liability Management Exercise by the end of 2013 and, conditional on completion of the Liability Management Exercise, £333 million of Common Equity Tier 1 Capital is expected to be contributed by CBGL during 2014.

The publication on 4 November 2013 of the various documents launching the Liability Management Exercise in relation to the Company's Existing Securities and describing the Recapitalisation Plan in the form that has developed since June represents a significant milestone in the Company's plan to address this shortfall.

I said in June that the announcement of the Recapitalisation Plan was an important turning point for the Company and the Company's board continues to believe that the completion of that plan will provide the foundations to support the long-term success of the Company in offering a real alternative to customers. If the initial details of the Recapitalisation Plan had not been announced in June, the Company believes it is likely that it would have been resolved almost immediately by the Bank of England or HM Treasury. The Recapitalisation Plan which was announced on 4 November 2013 is different from the initial plan announced in June but we believe it is much better for all stakeholders than the plan previously announced. The Liability Management Exercise that was launched on 4 November 2013 is the cornerstone of the Recapitalisation Plan. The support of Noteholders is critically important to the success of the Liability Management Exercise and the viability of the Company. It is only with the support of Noteholders that the Company will be able to move forward.

The Company believes that there are only two realistic outcomes for the Company following the launch of the Liability Management Exercise, which are either its recapitalisation following successful implementation of the Liability Management Exercise or a failure of the Liability Management Exercise resulting in the Company being subject to a resolution procedure under the Banking Act 2009 (the **Banking Act**). The Company believes that its recapitalisation through the Liability Management Exercise would be substantially more beneficial to Noteholders than resolution of the Company.

Part A (*Background to and Reasons for the Recapitalisation Plan*) and Appendix 7 (*Resolution Analysis*) of this Explanatory Statement set out a description of the hypothetical position that Noteholders would be likely to face if the Company were to be resolved. The purpose of the resolution analysis is to assist Noteholders in determining whether or not to vote in favour of the Scheme.

In summary, the Company believes that, if the Company were to be resolved and go into an insolvency proceeding as a result of that resolution, Noteholders would not receive any recovery in respect of their Existing Securities in any such insolvency proceeding and would not be entitled to any compensation under the resolution regime arising from their holding of Existing Securities. Further, the Company considers that there are fundamental uncertainties as to whether the Company could be successfully resolved such that the Company itself remained a going concern without the active participation of Co-operative Group and a substantial amount of additional capital.

Over the last few months, we have worked hard to bring the Company to the stage of announcing the Recapitalisation Plan. In developing the details of the Recapitalisation Plan we know we cannot please everyone but we have sought to balance the interests of a large number of stakeholders and we believe that the Recapitalisation Plan provides an outcome which is in the long-term interests for all stakeholders given the current circumstances of the Company.

The Company has listened carefully to the often competing demands of its various stakeholder groups as it has put together the revised Recapitalisation Plan. As a result, the Recapitalisation Plan which was announced on 4 November 2013 is different from the initial plan announced in June, but we believe that the revised Recapitalisation Plan is much better for all stakeholders.

Following discussions we have held with certain Noteholders and their representatives, these Noteholders (who as at 4 November 2013 represented approximately 48% of the nominal value of the Dated Notes) agreed on 4 November 2013 to lock-up their holdings and vote in favour of the Scheme (the **LT2 Group**) by entering into Lock-up Agreements. This is a significant vote of confidence by these Noteholders in the revised Recapitalisation Plan.

The LT2 Group has acknowledged that the Company is unique for its ethics, mission and heritage, which are essential components of the Company's differentiated approach and it is important to them that the Company maintains its unique characteristics and ethos.

On completion of the Recapitalisation Plan, 70 per cent. of the equity of the Company will be owned by former holders of Dated Notes, but it is not anticipated that any single holder will own 10% or more of the equity. Noteholders will also be entitled to receive the Bank T2 Notes as part of the Recapitalisation Plan. Co-operative Group, which will hold the remaining 30 per cent. of the equity of the Company, will be the Company's largest single shareholder by far, which will enable it to maintain significant influence over how the Company operates. Further, to ensure that the Company continues to have a clear ethical focus, co-operative values and ethics were, on 15 November 2013, for the first time, with the agreement of Co-operative Group and the LT2 Group whom we have held discussions with, embedded in the constitution of the Company and the Company will set up a values and ethics committee, with an independent director as its chair. The Company's values and ethics committee will be entrusted with ensuring that the Company conducts itself in a manner informed by the established values of the co-operative movement.

In the initial details of the Recapitalisation Plan published in June it was indicated that holders of the Company's more junior ranking subordinated securities were likely to be offered a substantially greater proportion of ordinary shares in the Company as opposed to debt instruments as part of the proposed recapitalisation. Many of the holders of these junior ranking securities are retail investors and a strong preference has been expressed by, or on behalf of, many of those investors to receive income producing debt instruments rather than ordinary shares. Accordingly, the Recapitalisation Plan provides for the issue to such holders of income producing debt instruments rather than ordinary shares.

The Recapitalisation Plan also provides for a contribution of £462 million from Co-operative Group, which has been consented to by bank creditors of Co-operative Group on terms which Co-operative Group believes not to be materially detrimental to the development of its other businesses.

As a result, I would urge you to read the rest of the documentation that has been published and which is applicable to the Dated Notes you hold and consider the actions to be taken by Noteholders set out in this Explanatory Statement. I would particularly draw your attention to the description of the risks relating to the Scheme, the Company and its business and the rights related to the features of the Bank T2 Notes, the New Ordinary Shares and the Additional New Ordinary Shares set out in Part D (*Risk Factors*) of this Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein).

In conclusion therefore, I present to you our Recapitalisation Plan, which has the benefit of the strong backing of both Co-operative Group and the LT2 Group, including strong support for the preservation of the

unique co-operative principles and ethics of the Company, whilst also being able to cater for the demands of the Company's retail investors. So, whilst the journey has been most unusual, what we are still trying to achieve is a more sustainable bank better placed to serve its customers in the future. I remain convinced that this is a worthwhile enterprise and that, with your support, we can rebuild our bank.

Your decision as to whether to vote in favour of the Scheme and elect to participate in the Additional New Ordinary Shares Offer (as described in Part B (*Overview of the Scheme*) of this Explanatory Statement) will depend on your individual circumstances. If you are in any doubt as to the action you should take, you are recommended to seek your own personal financial advice from an independent financial adviser authorised under the Financial Services and Markets Act 2000 (as amended) if you are in the UK or, if you are outside the UK, from an appropriately authorised independent financial adviser, without delay.

Yours faithfully

Richard Pym

Chairman

EXPECTED TIMETABLE OF PRINCIPAL EVENTS^{1,2}

Noteholders should observe any deadlines set by any institution or settlement system through which they hold interests in the Dated Notes to ensure that any voting instructions given by them are taken into account at the Scheme Meeting. The Company strongly urges each Noteholder to contact its relevant Account Holder or Intermediary as soon as possible to ensure they are aware of this Explanatory Statement and the process and timetable set out in it.

Event

Latest time for blocking Dated Notes in the Clearing Systems for the purposes of delivery of Account Holder Letters containing voting instructions for the purposes of the Scheme Meeting (the **Custody Instruction Deadline**)

Record Date³

Voting Instruction Deadline - latest time and date for receipt of Account Holder Letters by the Information Agent in order for Noteholders' voting instructions to be taken into account for the purposes of the Scheme Meeting, Noteholders to elect to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer, Noteholders' confirmations as to their eligibility to receive Scheme Consideration and Additional New Ordinary Shares to be taken into account for the purposes of distribution of the Scheme Consideration and Additional New Ordinary Shares on the Scheme Settlement Date, Noteholders to elect to participate in the Subpurchasing Offer and (although not a part of the Scheme, but included here for information purposes) Noteholders to vote for or against the appointment of any Nominated Directors (if applicable).4

Expected Time and date

5 p.m. (local time in the place of the relevant Clearing System) on 9-12 December 2013

4.30 p.m. on <u>10 13</u> December 2013

4.30 p.m. on $\frac{10}{13}$ December 2013

Scheme Meeting⁵

10 a.m on <u>11 16</u> December 2013

Unless otherwise stated, all references to time in this Explanatory Statement are to London time.

The dates in this timetable and mentioned throughout this Explanatory Statement assume that the Scheme Meeting is not adjourned. It is also possible that the drawing up of the order of the Court sanctioning the Scheme may be delayed if any person appeals the order.

All Scheme Claims are determined as at the Record Date. The Company will be entitled to exercise discretion as to whether it recognises any assignment or transfer of Scheme Claims after the Record Date.

Please see the section entitled Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes of this Explanatory Statement at page 21 to 27 and Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes). Account Holders are encouraged to obtain whatever information or instructions they may require from Noteholders in sufficient time to enable them to return their valid Account Holder Letters to the Information Agent as soon as possible, having considered this Explanatory Statement carefully. Voting instructions, elections to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer, elections to participate in the Sub-purchasing Offer and director nominations will not be taken into account in respect of Account Holder Letters received after the Voting Instruction Deadline, being 4.30 p.m. on 10–13 December 2013. Each Noteholder must ensure that an Account Holder Letter valid for the purposes of confirming eligibility to receive Scheme Consideration and, if applicable, Additional New Ordinary Shares is delivered to and received by the Information Agent before the Voting Instruction Deadline in order for it (or, if applicable, its Designated Recipient) to be entitled to receive the Scheme Consideration and, if applicable, Additional New Ordinary Shares to which it is entitled in accordance with the terms of the Scheme (if it is an Eligible Noteholder) on the Scheme Settlement Date. Account Holders requiring any assistance in completing Account Holder Letters should contact the Information Agent using the contact details in the Account Holder Letter set out in Appendix 3 (Form of Account Holder Letter). All relevant documentation can be accessed on the Scheme Website at http://www.co-operative.coop/Bondholders.

The Scheme Meeting will commence at the time stated. Noteholders that wish to attend the Scheme Meeting should produce a duplicate copy of the valid Account Holder Letter delivered on its behalf, evidence of corporate authority (in the case of a corporation) (for example,

Scheme Sanction Hearing⁶ 16-18 December 2013

Anticipated Scheme Effective Date 47–18 December 2013

Anticipated Scheme Settlement Date 18-20 December 2013

The Scheme Meeting will be held at the Holiday Inn London (Bloomsbury), Coram Street, London WC1N 1HT offices of Allen & Overy LLP, One Bishops Square, London E1 6AD

a valid power of attorney and/or board minutes) and evidence of personal identity (for example, a passport or other picture identification) at the registration desk by no later than one hour before the scheduled time of the Scheme Meeting.

The Court will be requested to sanction the Scheme. The date for that hearing has not yet been settled, although it is expected to be on or about 16-18 December 2013. If this date changes, the dates of all subsequent steps, including the Scheme Effective Date and Scheme Settlement Date, may be affected. In this event, the date of the hearing will be announced at the Scheme Meeting to the extent then known or otherwise notified to the Noteholders. A notice regarding the date and time of the hearing will be circulated once the hearing has been scheduled.

ARE YOU A SCHEME CREDITOR OR A PERSON WITH AN INTEREST IN THE DATED NOTES?

The following persons have interests in the Dated Notes:

- Account Holders: You are an Account Holder if you are recorded directly in the records of a Clearing System as holding an interest at the Record Date in any Dated Notes in an account with that Clearing System.
- Intermediaries: You are an Intermediary if you hold an interest at the Record Date in any Dated Notes on behalf of another person or other persons and you do not hold that interest as an Account Holder.
- Noteholders: You are a Noteholder if you are the beneficial owner of and/or the owner of the
 ultimate economic interest in any of the Dated Notes, whose interest in the relevant Dated Notes is
 held through and shown on records maintained in book entry form by a Clearing System at the
 Record Date. For the avoidance of doubt, an Account Holder may also be a Noteholder.
- The Common Depositaries and the Trustees.

Scheme Creditors are entitled to take, or direct the taking of, certain actions in respect of the Scheme.

For the purposes of the Scheme, the following persons are Scheme Creditors:

- 1. the Trustees;
- 2. the Common Depositaries, as holders of the Global Notes; and
- 3. the Noteholders, as contingent creditors.

Each of Bank of New York Mellon, London Branch and Citibank Europe PLC, in its capacity as a Common Depositary, and The Law Debenture Trust Corporation p.l.c., in its capacity as each of the Trustees, has confirmed to the Company that it will not vote in respect of the Dated Notes at the Scheme Meeting.

Account Holders are **not** Scheme Creditors unless and to the extent that they are Noteholders. However, as described in the section of this Explanatory Statement entitled *Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes* at pages 21 to 27 below and Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes), the assistance of Account Holders will be required, in accordance with their custodial duties, to deliver facsimile or e-mail versions of the completed Account Holder Letters in accordance with the instructions provided to them by the Noteholders and to arrange for the Dated Notes to be blocked in accordance with the instructions contained in this Explanatory Statement.

Account Holder Letters are required for the purposes of (i) voting on the Scheme and electing to enter into Lock-up Undertakings, (ii) electing to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer, (iii) electing to participate in the Sub-purchasing Offer in accordance with its terms and (iv) confirming eligibility to receive Scheme Consideration and, if applicable, Additional New Ordinary Shares distributed in accordance with the terms of the Scheme. Account Holder Letters also include elections for the purposes of voting for or against the appointment of any Nominated Directors (if applicable). Noteholders are referred to Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes) for more information.

In determining whether a particular person is the ultimate beneficial owner and therefore a Noteholder, entitled to a particular principal amount of Dated Notes as aforesaid, each of the Company and the Information Agent may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

If you are a Noteholder you should read this Explanatory Statement carefully. If you are a Noteholder that is not an Account Holder you should contact your Account Holder (through any Intermediaries, if applicable) to ensure that your Account Holder takes the appropriate action described in the section of this Explanatory Statement entitled Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes at pages 21 to 27 below and Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes).

The number of Noteholders voting and the votes cast by them will be taken into account for both value and numerosity purposes in relation to the Scheme. The value of the Dated Notes for the purposes of voting at the Scheme Meeting is described in Part B (*Overview of the Scheme*).

For further information on the action to be taken by Scheme Creditors and persons with an interest in the Dated Notes, see the section of this Explanatory Statement entitled *Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes* at pages 21 to 27 below and Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*).

The following diagram illustrates the relationship between certain persons with interests in the Dated Notes, which are held in global form through the Clearing Systems:

The Bank of New York Mellon. London Branch and Citibank Europe PLC

Each Common Depositary holds the relevant Global Note(s) as common depositary for the Clearing Systems

Clearing System

(Euroclear or Clearstream, Luxembourg)

Each Clearing System has a number of Account Holders who have accounts with Euroclear or Clearstream, Luxembourg

Account Holder

(For example, a bank or brokerage house)

Each Account Holder has interests in the Dated Notes either for its own account (in which case it is the Noteholder in respect of those interests) or on behalf of its client (in which case it is not the Noteholder in respect of those interests)

Intermediary

(For example a bank or brokerage house which does not have an account with a Clearing System)

There may be one or more Intermediaries between an Account Holder and a Noteholder

Noteholder

(The beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes)

Voting

Each Noteholder will be entitled to appoint a proxy to attend and vote at the Scheme Meeting (either the Chairman or another person selected by the Noteholder) or to attend and vote at the Scheme Meeting in person.

SUMMARY OF ACTIONS TO BE TAKEN BY SCHEME CREDITORS AND ANY PERSON WITH AN INTEREST IN THE DATED NOTES

Noteholders are invited to vote at the Scheme Meeting, elect to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer, elect to participate in the Sub-purchasing Offer in accordance with its terms, vote for or against the appointment of any Nominated Directors (if applicable) and confirm their eligibility to receive Scheme Consideration and, if applicable, Additional New Ordinary Shares by directing their Account Holder to complete and deliver to the Information Agent the Account Holder Letter set out in Appendix 3 (Form of Account Holder Letter).

Detailed instructions on the actions which Noteholders, Intermediaries and Account Holders should take are set out in this Explanatory Statement and are summarised below.

Scheme Creditors and any persons with an interest in the Dated Notes should read the full instructions set out in Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*).

- 1. You should read this Explanatory Statement as a whole, in conjunction with the documents that accompany it (including the Account Holder Letter which contains, amongst other things, the voting form relating to the Scheme Meeting and elections relating to the Lock-up Undertakings and eligibility to receive Scheme Consideration and, if applicable, Additional New Ordinary Shares).
- 2. An Account Holder may complete and submit an Account Holder Letter on behalf of a Noteholder if the Account Holder has the authority to do so.
- 3. A valid Account Holder Letter for the purposes of voting, electing to enter into Lock-up Undertakings, electing to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer, electing to participate in the Subpurchasing Offer in accordance with its terms, voting for or against the appointment of any Nominated Directors (if applicable) and confirming eligibility to receive Scheme Consideration and, if applicable, Additional New Ordinary Shares can be delivered as one Account Holder Letter, provided that the Account Holder Letter is delivered prior to the Voting Instruction Deadline.

Actions to be taken in relation to the Scheme for the purposes of voting at the Scheme Meeting

- 4. If you are a *Noteholder that is not an Account Holder* and wish to vote at the Scheme Meeting, you should direct your Account Holder to complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 5. If you are a *Noteholder that is an Account Holder* and wish to vote at the Scheme Meeting in accordance with the terms of the Scheme, you should complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10 13 December 2013.
- 6. Part 2 Section 3 (*Voting*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) includes elections pursuant to which the Noteholder is able (i) to attend and vote at the Scheme Meeting in person or by a duly appointed representative if a corporation, (ii) to instruct the Chairman as its proxy to cast its vote in accordance with the wishes of that

- Noteholder or (iii) to appoint another person as its proxy to attend and vote at the Scheme Meeting in person on its behalf.
- 7. Part 2 Section 2 (*Lock-up*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) enables a Noteholder to enter into a Lock-up Arrangement by confirming on its behalf its agreement to enter into the Lock-up Undertakings.
- 8. In connection with the Account Holder Letter, each Noteholder that wishes to vote at the Scheme Meeting will be required to ensure that its Account Holder instructs the relevant Clearing System in which the Dated Notes which are the subject of the Account Holder Letter are held to block those Dated Notes. This can be effected by giving Custody Instructions to that effect to the relevant Clearing System prior to the Custody Instruction Deadline. As the procedure for blocking Dated Notes may take a considerable period of time, Noteholders should ensure that Custody Instructions are given as early as possible so that the relevant Dated Notes may be blocked prior to the latest time for blocking Dated Notes as set out in the Expected Timetable of Principal Events at page 16 of this Explanatory Statement. The procedure for doing this is described in Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes).
- 9. Failure to deliver a valid Account Holder Letter on behalf of a Noteholder by the Voting Instruction Deadline will mean that the voting instructions contained in that Account Holder Letter will be disregarded for the purposes of voting at the Scheme Meeting and the Noteholder will not be entitled to vote at the Scheme Meeting.
- 10. The Scheme requires the approval of a majority in number representing at least 75% in value of the Noteholders present and voting (in person, by a duly authorised representative if a corporation, or by proxy) at the Scheme Meeting to be held at 10 a.m. (London time) on 11–16 December 2013.
- 11. It is important that as many votes as possible are cast at the Scheme Meeting so that the Court may be satisfied that there is a fair and reasonable representation of opinion of Noteholders. You are therefore strongly urged to complete and sign or direct your Account Holder to complete and sign the relevant parts of your Account Holder Letter.
- 12. The amount of the Scheme Claims of each Noteholder which submits a valid Account Holder Letter in respect of the Dated Notes will be calculated as at the Record Date based on information confidentially provided to the Company by the Information Agent. This information will be used by the Chairman to determine whether the Scheme is approved at the Scheme Meeting. Accordingly, Noteholders do not need to take any action in respect of confirming the amount of their Scheme Claims other than providing the details requested in the Account Holder Letter.
- 13. As the 2016 Notes are denominated in Euro and all the other series of the Dated Notes are denominated in Sterling, the Scheme Claims in respect of the 2016 Notes of each Noteholder which submits a valid Account Holder Letter shall be notionally converted into Sterling at the Scheme FX Rate for the purposes of calculating the value of those Scheme Claims in connection with voting at the Scheme Meeting.
- 14. Each of the Common Depositaries and the Trustees has confirmed that it will not exercise any voting rights to which it may be entitled as a Scheme Creditor at the Scheme Meeting.
- 15. Completed Account Holder Letters for the purposes of voting at the Scheme Meeting should be delivered to the Information Agent. Account Holder Letters should not in any circumstances be delivered to any of the Common Depositaries, the Trustees, the Company or Co-operative Group or any other person. None of the Common Depositaries, the Trustees, the Company or Co-operative Group and any of their respective affiliates, officers, directors or employees or any other person will be under any duty to give notification of any defects, irregularities or delays in

- any Account Holder Letter, nor will any of such entities or persons incur any liability for failure to give such notification.
- 16. A Noteholder on whose behalf a valid Account Holder Letter is delivered prior to the Scheme Meeting may still attend and vote for or against the Scheme at the Scheme Meeting.
- 17. Completed Account Holder Letters for the purposes of voting should be delivered to the Information Agent so as to be received by the Information Agent as soon as possible and in any event before the Voting Instruction Deadline being 4.30 p.m. (London time) on 10-13 December 2013.

Actions to be taken in relation to the Scheme for the purposes of confirming eligibility to receive Scheme Consideration

- 18. If you are a *Noteholder that is not an Account Holder* and wish to receive the Scheme Consideration to which you are entitled on the Scheme Settlement Date (or, to the extent you are not eligible to receive such Scheme Consideration and, if applicable, Additional New Ordinary Shares and have not appointed a Designated Recipient, in order to receive the net proceeds of the sale of such Scheme Consideration in accordance with the terms of the Scheme and the Distribution Agreement), you should direct your Account Holder to complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 19. If you are a *Noteholder that is an Account Holder* and wish to receive the Scheme Consideration and, if applicable, Additional New Ordinary Shares to which you are entitled on the Scheme Settlement Date (or, to the extent you are not eligible to receive such Scheme Consideration and, if applicable, Additional New Ordinary Shares and have not appointed a Designated Recipient, in order to receive the net proceeds of the sale of such Scheme Consideration in accordance with the terms of the Scheme and the Distribution Agreement), you should complete Part 4 (*Scheme Consideration, Eligibility and Delivery of the Additional New Ordinary Shares*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10–13 December 2013.
- 20. Part 4 (*Scheme Consideration, Eligibility and Delivery of the Additional New Ordinary Shares*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) enables a Noteholder to designate a Designated Recipient to receive the Scheme Consideration and, if applicable, Additional New Ordinary Shares to which that Noteholder will be entitled in accordance with the terms of the Scheme.
- 21. Part 4 (*Scheme Consideration, Eligibility and Delivery of the Additional New Ordinary Shares*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) includes an eligibility section in which the Account Holder is required to confirm on behalf of itself and the Noteholder (or, if the Noteholder has appointed a Designated Recipient, its Designated Recipient) certain statements relating to eligibility to receive the relevant Scheme Consideration to which that Noteholder is entitled in accordance with the terms of the Scheme.
- 22. Failure to deliver a valid Account Holder Letter on behalf of a Noteholder by the Voting Instruction Deadline will mean that the Noteholder (irrespective of whether it would otherwise be eligible to receive Scheme Consideration and, if applicable, Additional New Ordinary Shares) will not be entitled to receive any Scheme Consideration to which it would be entitled in accordance with the terms of the Scheme on the Scheme Settlement Date but will need to take certain additional steps described in Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes) following

the occurrence of the Scheme Settlement Date, including, without limitation, the delivery of a valid Account Holder Letter to the Information Agent.

23. Completed Account Holder Letters for the purposes of confirming eligibility to receive Scheme Consideration and, if applicable, Additional New Ordinary Shares should be delivered to the Information Agent. Account Holder Letters should not in any circumstances be delivered to any of the Common Depositaries, the Trustees, the Company or Co-operative Group or any other person. None of the Common Depositaries, the Trustees, the Company or Co-operative Group and any of their respective affiliates, officers, directors or employees or any other person will be under any duty to give notification of any defects, irregularities or delays in any Account Holder Letter, nor will any of such entities or persons incur any liability for failure to give such notification.

Actions to be taken in relation to the Scheme for the purposes of electing to subscribe for the Additional New Ordinary Shares

- 24. If you are a *Noteholder that is not an Account Holder* and wish to elect to subscribe for Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer, you should direct your Account Holder to complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10–13 December 2013.
- 25. If you are a *Noteholder that is an Account Holder* and wish to elect to subscribe for Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer, you should complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 26. Part 3 Section 1 (*Election to Subscribe*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) enables a Noteholder to elect to subscribe for Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer. The Additional New Ordinary Shares Offer is described in Part B (*Overview of the Scheme*) of this Explanatory Statement and the procedure for participating in the Additional New Ordinary Shares Offer is described in more detail in Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*).
- 27. Any Noteholder wishing to participate in the Additional New Ordinary Shares Offer should note that, in addition to instructing its Account Holder to make the appropriate elections in relation to the Additional New Ordinary Shares Offer in the Account Holder Letter, it must also ensure that its Account Holder confirms on its behalf in the Account Holder Letter that the Noteholder is an Eligible Person or, if it has appointed a Designated Recipient, that the Designated Recipient is an Eligible Person and that the duly completed and valid Account Holder Letter is delivered to and received by the Information Agent before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013. Failure to do so will result in that Noteholder not being entitled to participate in the Additional New Ordinary Shares Offer.
- 28. Failure to deliver a valid Account Holder Letter on behalf of a Noteholder by the Voting Instruction Deadline will mean that any election to subscribe for Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer in that Account Holder Letter will be disregarded for the purposes of the Additional New Ordinary Shares Offer.

- 29. Completed Account Holder Letters for the purposes of electing to subscribe for Additional New Ordinary Shares should be delivered to the Information Agent. Account Holder Letters should not in any circumstances be delivered to any of the Common Depositaries, the Trustees, the Company or Co-operative Group or any other person. None of the Common Depositaries, the Trustees, the Company or Co-operative Group and any of their respective affiliates, officers, directors or employees or any other person will be under any duty to give notification of any defects, irregularities or delays in any Account Holder Letter, nor will any of such entities or persons incur any liability for failure to give such notification.
- 30. Completed Account Holder Letters for the purposes of or electing to subscribe for Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer should be delivered to the Information Agent so as to be received by the Information Agent as soon as possible and in any event before the Voting Instruction Deadline being 4.30 p.m. (London time) on 10-13 December 2013.

Action to be taken in relation to the Scheme for the purposes of electing to participate in the Subpurchasing Offer.

- 31. If you are a *Noteholder that is not an Account Holder* and wish to elect to participate in the Subpurchasing Offer, you should direct your Account Holder to complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received by the Information Agent before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 32. If you are a *Noteholder that is an Account Holder* and wish to elect to participate in the Subpurchasing Offer in accordance with the terms of the Scheme, you should complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received by the Information Agent before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 33. Part 3 Section 2 (*Election to Sub-purchase*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) enables a Noteholder to elect to participate in the Sub-purchasing Offer. The Sub-purchasing Offer is described in Part B (*Overview of the Scheme*) of this Explanatory Statement and the procedure for participating in the Sub-purchasing Offer is described in more detail in Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*).
- 34. Any Noteholder wishing to participate in the Sub-purchasing Offer should note that, in addition to instructing its Account Holder to make the appropriate elections in relation to the Sub-purchasing Offer in the Account Holder Letter, it must also ensure that its Account Holder confirms on its behalf in the Account Holder Letter that the Noteholder is an Eligible Person or, if it has appointed a Designated Recipient, that the Designated Recipient is an Eligible Person and that the duly completed and valid Account Holder Letter is delivered to and received by the Information Agent before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013. Failure to do so will result in that Noteholder not being entitled to participate in the Sub-purchasing Offer.
- 35. Failure to deliver a valid Account Holder Letter on behalf of a Noteholder by the Voting Instruction Deadline will mean that any election to participate in the Sub-purchasing Offer in that Account Holder Letter will be disregarded for the purposes of the Sub-purchasing Offer.
- 36. Completed Account Holder Letters for the purposes of electing to participate in the Subpurchasing Offer should be delivered to the Information Agent. Account Holder Letters should not in any circumstances be delivered to any of the Common Depositaries, the Trustees, the

Company or Co-operative Group or any other person. None of the Common Depositaries, the Trustees, the Company or Co-operative Group and any of their respective affiliates, officers, directors or employees or any other person will be under any duty to give notification of any defects, irregularities or delays in any Account Holder Letter, nor will any of such entities or persons incur any liability for failure to give such notification.

Action to be taken in relation to the Noteholder resolutions to approve the appointment of any Nominated Directors

- 37. Although not a term of the Scheme, as described in more detail in Part B Paragraph 6 (*Director Nominations*) of this Explanatory Statement, Noteholders will be entitled to participate in a resolution to approve the appointment of the Nominated Directors to the extent they are nominated by the <u>Modified Scheme</u> Purchasers and notified to the Noteholders by the Company in advance of the Scheme Meeting.
- 38. If you are a *Noteholder that is not an Account Holder* and wish to vote for or against the appointment of any Nominated Director (if applicable), you should direct your Account Holder to complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 39. If you are a *Noteholder that is an Account Holder* and wish to vote for or against the appointment of any Nominated Director (if applicable), you should complete the appropriate parts of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) and deliver the completed Account Holder Letter as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 40. Part 5 (*Director Nominations*) of the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*) enables a Noteholder to vote for or against the appointment of any Nominated Director (if applicable). The details of the nomination of directors is described in Part B (*Overview of the Scheme*) of this Explanatory Statement and the procedure for voting for or against the appointment of any Nominated Directors is described in more detail in Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*).
- 41. Failure to deliver a valid Account Holder Letter on behalf of a Noteholder by the Voting Instruction Deadline will mean that any vote for or against the appointment of any Nominated Directors will be disregarded for the purposes of determining whether any such appointment has been approved by the requisite majority of Noteholders.
- 42. Completed Account Holder Letters for the purposes of voting for or against the appointment of any Nominated Directors should be delivered to the Information Agent. Account Holder Letters should not in any circumstances be delivered to any of the Common Depositaries, the Trustees, the Company or Co-operative Group or any other person. None of the Common Depositaries, the Trustees, the Company or Co-operative Group and any of their respective affiliates, officers, directors or employees or any other person will be under any duty to give notification of any defects, irregularities or delays in any Account Holder Letter, nor will any of such entities or persons incur any liability for failure to give such notification.

Crest

43. If you are a Noteholder that holds your interests in the Dated Notes in Crest and are not a Crest participant, contact your Crest participant and the Information Agent as soon as possible in connection with participation in the Scheme (and any part thereof). Crest participants should contact the Information Agent immediately. In either case, please refer to paragraph 37 of

Appendix 2 (Instructions and guidance for Scheme Creditors and any person with an interest in the Dated Notes) for more details.

43. If you are in any doubt as to what action you should take in connection with this Explanatory Statement, the proposals contained in it or the documents that accompany it, you are recommended to seek your own independent advice immediately from your legal, financial, tax or other independent adviser authorised under FSMA if you are resident in, have a registered address in, or are a citizen of the United Kingdom, or, if not, from another appropriately authorised independent financial adviser.

PART A

BACKGROUND TO AND REASONS FOR THE RECAPITALISATION PLAN

1. Introduction

On 17 June 2013, following the conclusion of the Company's review of its capital position and discussions with the PRA, the Company and Co-operative Group announced that the Company required additional aggregate Common Equity Tier 1 Capital of £1.5 billion. The Company and Co-operative Group also announced the initial details of the Recapitalisation Plan, which was intended to address this capital requirement. The Recapitalisation Plan consists of the Liability Management Exercise, the 2014 Commitment and any capital generated from interest savings on the Company's Existing Securities surrendered in the Liability Management Exercise. The Liability Management Exercise is expected to generate at least £1 billion of Common Equity Tier 1 Capital in 2013 and, conditional upon successful completion of the Liability Management Exercise, £333 million of Common Equity Tier 1 Capital is expected to be contributed by CBGL during 2014, under the 2014 Commitment, of which £170 million is to be contributed by 30 June 2014 (with £70 million of this contribution to be paid by 31 January 2014) and the remaining £163 million by 31 December 2014.

The purpose of this Part A (*Background to and reasons for the Recapitalisation Plan*) is to set out the background to, and the reasons for, the Recapitalisation Plan and the potential consequences of Noteholders failing to support the Liability Management Exercise.

The key objective of the Recapitalisation Plan is to strengthen significantly the Company's Common Equity Tier 1 Capital base and this can only be achieved with the support and participation of Noteholders in the Liability Management Exercise. The Company's board, having explored extensively (both before the June Announcement and since that time) various potential means of strengthening the Company's capital position, remains of the view that the Recapitalisation Plan (notwithstanding the revisions to the Recapitalisation Plan announced on 4 November 2013) and the Liability Management Exercise that forms the cornerstone of the Recapitalisation Plan, is the only viable means of recapitalising the Company in a manner outside of a resolution procedure under the Banking Act 2009 (the **Banking Act**). If the initial details of the Recapitalisation Plan had not been announced in June, the Company believes it is likely that it would have been resolved almost immediately by the Bank of England or HM Treasury. The Recapitalisation Plan which was announced on 4 November 2013 is different from the initial plan announced in June but the Company believes that the revised Recapitalisation Plan is much better for all stakeholders than the plan previously announced.

Further details of the background to and components of the Recapitalisation Plan are set out in paragraphs 2, 3 and 6 of this Part A (*Background to and Reasons for the Recapitalisation Plan*, Part B (*Overview of the Scheme*), Part C (*Overview of the Liability Management Exercise*) and Part D (*Risk Factors*) of this Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein), the Bank T2 Notes Prospectus and the Offer Memorandum.

The decision originally taken in June by Co-operative Group to support the Recapitalisation Plan was taken in the belief that the Recapitalisation Plan was in the long-term interest of all Co-operative Group's and the Company's respective stakeholders and of the Company itself. As explained in more detail in paragraph 5 below and Appendix 7 (*Resolution Analysis*) of this Explanatory Statement, absent the willingness of sufficient Noteholders to participate in and, where requested, to support the proposals being made in the Scheme and the Liability Management Exercise, the Company's board believes that the Company would be subject to a resolution procedure under the Banking Act. For a description of the resolution procedure under the Banking Act see paragraph 2.6 in section 17 (*Recovery and resolution regime*) at pages 402 and 403 of the Bank T2 Notes Prospectus.

In the event that the Company enters an insolvency procedure following action taken by the Resolution Authorities under the Banking Act, and as further described in Appendix 7 (*Resolution Analysis*) of this Explanatory Statement, the Company's board believes it likely that Noteholders would not receive any recovery in any such insolvency procedure and would not be entitled to any compensation as a result of a bank insolvency procedure of the Company). The Company also believes that there are fundamental uncertainties as to whether it is capable of being resolved as a going concern. The Company's board therefore believes that the Recapitalisation Plan represents the only realistic opportunity for Noteholders to recover any value in return for their investment in the Company.

The details of the Recapitalisation Plan have been discussed with the PRA, which announced on 29 August 2013 (and as reconfirmed to the Company on 21 October 2013) that its assessment remains that the Company has a capital shortfall of £1.5 billion relative to the requirement for 7 per cent. Common Equity Tier 1 Capital after adjustments.

The announcement of the Recapitalisation Plan in the June Announcement marked an important turning point for the Company and the Company's board continues to believe that the completion of the Recapitalisation Plan, as amended, will provide the foundations to support the long-term success of the Company in offering a real alternative to customers. The Company's strategy to achieve this goal is described in further detail in paragraphs 2 "Key Strengths" and 3 "Strategy" in section 8 (Description of the Bank) at pages 147 to 148 and 148 to 151 of the Bank T2 Notes Prospectus. Only following the implementation of the Liability Management Exercise and the other elements of the Recapitalisation Plan, will the Company be in a position to pursue this four to five year turnaround plan and seek to achieve the key targets described in paragraph 3 "Strategy" in section 8 (Description of the Bank) at pages 148 to 151 of the Bank T2 Notes Prospectus.

However, the support of Noteholders is critically important to the viability of the Company and it is only with their support that the Company will be able to move forward.

Further information on the Recapitalisation Plan (including a summary of the Liability Management Exercise) is set out in the Bank T2 Notes Prospectus. You should read the whole of this Explanatory Statement, including the Bank T2 Notes Prospectus (and its appendices) appended to this Explanatory Statement, and the documents (or parts thereof) incorporated therein by reference before taking any decision in connection with the Scheme.

2. Background to and reasons for the Recapitalisation Plan

The Company's capital shortfall

Common Equity Tier 1 Capital is a form of capital which banks and other financial institutions are required to maintain to help absorb losses in times of financial distress. As a direct result of the recent global financial crisis, the PRA, in line with banking regulators around the world, is requiring UK banks to bolster their capital resources so that the banks, and the UK banking system generally, are better able to withstand future asset write-downs and financial shocks.

In March 2013, a meeting of the then interim Financial Policy Committee (**FPC**), a part of the Bank of England responsible for macro-prudential regulation, voted unanimously that the PRA should take steps to ensure that, by the end of 2013, major UK banks and building societies, including the Company, hold capital resources equivalent to at least 7 per cent. of their risk-weighted assets assessed using the Basel III definition of equity capital but after:

(a) making deductions from currently-stated capital to reflect an assessment of expected future losses and a realistic assessment of future costs of conduct redress; and

(b) adjusting for a more prudent calculation of risk weightings. The FPC noted that, relative to that benchmark, major UK banks and building societies in aggregate had a shortfall in capital of around £25 billion. The PRA's calculation of capital adequacy was based on CRD IV definitions, applying them on a fully loaded basis with certain PRA adjustments (such adjustments to reflect the FPC's assessment of expected losses and future costs of conduct redress, and adjusting for a more prudent calculation of risk weights, amounting to £1.7 billion for the Company at that point in time).

Continuing losses in the first half of 2013 have reduced the Company's capital to a point where, if the Liability Management Exercise is not successfully completed, the Company will not remain a going concern. Following these losses, as at 30 June 2013 the Company's Core Tier 1 Capital ratio stands at 4.9 per cent. (2012: 8.8 per cent.) (i.e. which is the applicable test under Basel II) and at 3.0% on a Common Equity Tier 1 Capital basis (i.e. which is the applicable test under CRD IV). As a result, the Company has a significant capital shortfall against the PRA's target of a Common Equity Tier 1 Capital Ratio based on the Basel III/CRD IV definition of at least 7 per cent., and after any required adjustments. See section 13 (*Capital Adequacy*) at pages 232 to 243 of the Bank T2 Notes Prospectus for further details of the Company's capital position.

The Company remains dependent on the successful completion of the Recapitalisation Plan to return to compliance with its regulatory capital requirements.

For further details of CRD IV and its expected impact on the Company, please see Part D (*Risk Factors*) of this Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein) and section 17 (*Supervision and Regulation*) at pages 397 to 408 of the Bank T2 Notes Prospectus.

The launch of the Recapitalisation Plan

On 17 June 2013, following the conclusion of the Company's review of its capital position and discussions with the PRA, it was stated in the June Announcement that the Company required additional aggregate Common Equity Tier 1 Capital of £1.5 billion, of which at least £1 billion is expected to be contributed pursuant to the Liability Management Exercise in 2013 and, conditional on completion of the Liability Management Exercise, £333 million of Common Equity Tier 1 Capital is to be contributed by CBGL in 2014 pursuant to the 2014 Commitment (of which £170 million must be satisfied at the latest by 30 June 2014 (with £70 million of this contribution to be paid before 31 January 2014), and the remaining £163 million by 31 December 2014).

On 17 June 2013, the PRA made the following statement:

"The PRA's current assessment is that the Co-operative Bank needs to generate an additional £1.5 billion in Common Equity Tier One capital in order to absorb potential losses over coming years. We will hold the Co-operative Group to the delivery of its plans. In relation to the Co-operative Bank this action will deliver the Financial Policy Committee's recommendation to the PRA in March regarding the capital position of the banking system."

On 29 August 2013, the PRA reconfirmed its assessment of the Company's capital shortfall of £1.5 billion of Common Equity Tier 1 Capital following the announcement of the Company's interim results for the six month period ended 30 June 2013. The PRA also reconfirmed that this requirement remained unchanged following the announcement by the Company on 21 October 2013 of an expectation of an increase in its overall provisions of approximately £103 million relating to customer redress. The Liability Management Exercise is intended to generate at least £1 billion of the required £1.5 billion of Common Equity Tier 1 Capital by the end of 2013. Successful completion of the Liability Management Exercise is conditional upon the entire principal amount of all Existing Securities being exchanged or sold pursuant to the Liability Management Exercise.

The contributions that a successful Liability Management Exercise would provide by the end of 2013 would increase the Company's Common Equity Tier 1 Capital ratio towards the upper end of previously announced guidance, on 29 August 2013, of "below 9 per cent. but above the regulatory minimum requirement" by the end of 2013, including after taking into account the impact of the impairment charges of £496.0 million incurred for the six month period ended 30 June 2013 and potential impairment charges for the remainder of the Company's financial year ending 31 December 2013.

3. The Recapitalisation Plan

The key objective of the Recapitalisation Plan is to strengthen significantly the Company's Common Equity Tier 1 Capital base and to refocus the Company's strategy around its strength in core relationship retail banking providing current accounts, residential mortgages and savings products to retail customers and SMEs. The Liability Management Exercise forms a critical element of the Recapitalisation Plan. The Liability Management Exercise is intended to generate at least £1 billion of the £1.5 billion of Common Equity Tier 1 Capital required by the Company. The Liability Management Exercise will generate Common Equity Tier 1 Capital in two ways:

- first, to the extent that the Company exchanges Dated Notes for New Ordinary Shares and issues Additional New Ordinary Shares pursuant to the Scheme, the amount of such New Ordinary Shares and Additional New Ordinary Shares issued will constitute Common Equity Tier 1 Capital for the Company; and
- second, to the extent that Existing Securities are exchanged or sold for New Securities at a discount to the Company's book value of those Existing Securities (i.e. by imposing a discount on the Existing Securities through the Liability Management Exercise), the amount of that discount will also be recognisable as Common Equity Tier 1 Capital (on the basis that the Company will reduce a liability for less than the book value of that liability in the Company's accounts).

The offers in respect of the Preference Shares and Perpetual Subordinated Bonds are being conducted by way of the Exchange Offers and the Proposals. The offer in respect of the Dated Notes is being conducted by way of the Scheme. The Liability Management Exercise will only be successfully completed if the entire principal amounts of the Existing Securities are exchanged or sold pursuant to the Liability Management Exercise.

The Scheme also provides that 62,500,000-33,333,334 ordinary shares will be made available to Noteholders for subscription for an aggregate consideration equal to £125-million_000,002.50 on the terms of the Additional New Ordinary Shares Offer, as described in Part B (*Overview of the Scheme*) of this Explanatory Statement.

The Exchange Offers, the Proposals and the Scheme are collectively referred to in this Explanatory Statement as the Liability Management Exercise. In addition, as part of the Liability Management Exercise the Preference Shareholders and 13% Bondholders will have the option to either exchange their Existing Securities for Final Repayment Notes or sell their Existing Securities to Co-operative Group for cash consideration payable in instalments (represented by Instalment Repayment Notes). Each Preference Shareholder and 13% Bondholder will have the opportunity to choose whether it would prefer to receive Final Repayment Notes or Instalment Repayment Notes (if the Liability Management Exercise is successfully completed) each to be issued by Co-operative Group pursuant to the Group Notes Prospectus.

In addition, the Company expects that capital created through interest savings on the Existing Securities surrendered in the Liability Management Exercise net of any coupon payments on the New Securities should contribute an additional amount of Common Equity Tier 1 Capital towards the Recapitalisation Plan, beyond that created as a result of the Liability Management Exercise. The Company currently estimates that net interest savings should result in allowable Common Equity Tier 1 Capital in the region of £40 million during the course of 2014.

2014 Commitment

Under the Recapitalisation Plan, CBGL has agreed to contribute £333 million of Common Equity Tier 1 Capital during 2014 (the **2014 Commitment**). On 4 November 2013 (being the date of the launch of the Recapitalisation Plan), CBGL entered into a legally binding and irrevocable undertaking to pay (the **Undertaking to Pay**) in favour of the Company in consideration for the issuance of 54,058,442 New Ordinary Shares immediately prior to the completion of the Liability Management Exercise (the **2014 Commitment Agreement**). CBGL's obligations under the 2014 Commitment and the Undertaking to Pay are conditional only upon the successful completion of the Liability Management Exercise.

As announced on 17 June 2013, CBGL is expecting to satisfy the 2014 Commitment from the net proceeds of the sale by CBGL of Royal London (CIS) Limited (formerly known as Co-operative Insurance Society Limited) and Royal London Asset Management (CIS) Limited (formerly known as The Co-operative Asset Management Limited) (Co-operative Life Insurance and Asset Management) and the net proceeds of the proposed sale of CIS General Insurance Limited (CIS General Insurance) (together the Insurance Proceeds). The sale of Co-operative Life Insurance and Asset Management to The Royal London Mutual Insurance Society Limited (Royal London) completed on 31 July 2013. The total consideration for the sale is £219.0 million, of which £39.0 million has already been paid to CBGL in respect of the disposal of Royal London (CIS) Limited. Payment of the remaining £180 million (as deferred consideration) is subject to the approval of the court under a transfer of the life insurance fund of Co-operative Life Insurance Society Ltd (now named RL (CIS) Ltd) into Royal London under Part VII of FSMA. There is no certainty as to timing or outcome of the court process and therefore no certainty as to when the deferred consideration may be received by CBGL or if it will be received at all. In respect of the disposal of CIS General Insurance, the Company has been told that, whilst Co-operative Group is currently in discussions with various interested parties to sell CIS General Insurance, as at the date of this Explanatory Statement 18 November 2013, no legally binding agreement to sell CIS General Insurance has been entered into and any such agreement may, when entered into, be subject to various conditions precedent.

To provide support to CBGL's obligations under the Undertaking to Pay should the Insurance Proceeds not materialise or be insufficient to satisfy the Undertaking to Pay, CBGL has entered into an intra-group loan with Co-operative Group and the Company (the **Intra-group Loan**). The Intra-group Loan allows CBGL to draw down sufficient amounts to satisfy the Undertaking to Pay taking into account CBGL's existing cash resources and is intended to be unconditional before 2014 (see paragraph 20.6 "*Intra-group Loan*" in section 20 (*Additional Information*) at page 461 of the Bank T2 Notes Prospectus). CBGL, under the terms of the Intra-group Loan is obliged to pay any amounts drawn down under that loan to the Company in satisfaction of the Undertaking to Pay.

Co-operative Group has informed the Company that it has appropriate arrangements in place to satisfy the discharge of its obligations under the Intra-group Loan from alternative resources in the event that the Insurance Proceeds are not sufficient to satisfy the amount of the 2014 Commitment or otherwise not received in time to satisfy the PRA's required timing to satisfy the 2014 Commitment. For further details, see the risk factor titled "The commitment by Banking Group to contribute £333 million of Common Equity Tier 1 Capital during 2014, in addition to being solely conditional upon the successful completion of the Liability Management Exercise, is subject to the ability of Banking Group and/or Co-operative Group to fund the commitment, which is dependent on certain actions, some of which are partially outside the control of Cooperative Group" in section 2 (Risk Factors) at pages 55 to 57 of the Bank T2 Notes Prospectus.

The Liability Management Exercise, the 2014 Commitment and any capital generated from interest savings on the Company's Existing Securities are together referred to in this Explanatory Statement as the Recapitalisation Plan.

Structure of the 2014 Commitment

The 2014 Commitment has been structured as follows:

- (a) The 54,058,442 ordinary shares of the Company to be issued to CBGL against the Undertaking to Pay will be issued immediately following the implementation of the Scheme in accordance with its terms (including the issue of Additional New Ordinary Shares in accordance with the Scheme and the Additional New Ordinary Shares Offer). The ordinary shares of the Company issued in consideration for the Undertaking to Pay will be fully paid up for the purposes of the Companies Act and will be freely transferable (subject to the lock-up restrictions imposed under the 2014 Commitment Agreement, which are to be superseded by the lock-up restrictions imposed in the Relationship Agreement between CBGL, Co-operative Group and the Company once this comes into force (as described in paragraph 20.3 "Relationship Agreement" in section 20 (Additional Information) at pages 455 to 457 of the Bank T2 Notes Prospectus) and fungible with all other ordinary shares of the Company. The ordinary shares of the Company issued against the Undertaking to Pay, which will be issued in the same exchange ratio as the New Ordinary Shares to be issued to Holders of the Dated Notes pursuant to the Scheme, will represent 21.6 per cent. of the ordinary shares of the Company in issue at completion of the Liability Management Exercise.
- (b) The Undertaking to Pay does not generate Common Equity Tier 1 Capital of the Company until such time as the cash proceeds of the undertaking are received by the Company.
- (c) The 2014 Commitment requires CBGL to deliver the cash proceeds to discharge the relevant proportion of the Undertaking to Pay by such dates as to satisfy the PRA's timing requirements. The PRA has stipulated that the 2014 Commitment must be satisfied in two tranches, with £170 million payable by 30 June 2014 and £163 million payable after 30 June 2014 but not later than 31 December 2014. In the 2014 Commitment Agreement, CBGL has agreed to contribute the 2014 Commitment and satisfy the Undertaking to Pay in a number of tranches, with (i) £20 million payable by no later than 31 December 2013; (ii) £50 million by no later than 31 January 2014; (iii) £100 million by no later than 30 June 2014; and (iv) £163 million by no later than 31 December 2014. In addition, following receipt by CBGL of the Co-operative Life Insurance and Asset Management Deferred Consideration or the net proceeds of the disposal of CIS General Insurance, CBGL is required to apply such proceeds as soon as reasonably practicable following receipt of such proceeds in satisfaction of the Undertaking to Pay (in part or in full as the case may be).

See paragraph 20.4 "2014 Commitment Agreement" in section 20 (Additional Information) at pages 457 to 460 of the Bank T2 Notes Prospectus for more details of the 2014 Commitment.

(d) The Intra-group Loan allows CBGL to draw down sufficient amounts to satisfy the Undertaking to Pay taking into account CBGL's existing cash resources and is intended to be unconditional before 2014 (and is only subject to a small number of customary conditions precedent – see the paragraph number 20.6 "Intra-group Loan" in section 20 (Additional Information) at page 461 of the Bank T2 Notes Prospectus for further details). CBGL, under the terms of the Intra-group Loan is obliged to pay any amounts drawn down under that loan to the Company in satisfaction of the Undertaking to Pay.

4. Impact of the successful implementation of the Liability Management Exercise

The Liability Management Exercise, if successful, will generate at least £1 billion of Common Equity Tier 1 Capital for the Company being comprised of the Common Equity Tier 1 Capital generated pursuant to the Exchange Offers, the Proposals and the Scheme, together with £125

million ,000,002.50 in respect of the Additional New Ordinary Shares Offer under the Scheme. The completion of the Liability Management Exercise will, in turn, mean that the Undertaking to Pay will become unconditional and, when taking into account the allowable capital benefits from interest savings on Existing Securities surrendered as a result of the Liability Management Exercise, means the Company will be in a position to satisfy the requirement that the Company raise an additional £1.5 billion of Common Equity Tier 1 Capital by the end of 2014.

Assuming the Liability Management Exercise is completed and therefore at least £1 billion of Common Equity Tier 1 Capital is raised in respect of the Exchange Offers, the Proposals and the Scheme, and £125 million _,000,002.50 is in 2013 raised pursuant to the Additional New Ordinary Shares Offer under the Scheme, the Company expects to report, for the end of 2013, a Common Equity Tier 1 Capital ratio towards the upper end of previously announced guidance, on 29 August 2013, of "below 9 per cent. but above the regulatory minimum requirement". Taking into account the benefit of the additional Common Equity Tier 1 Capital to be provided by CBGL to satisfy the 2014 Commitment and a reduction in risk weighted assets, partially offset by expected losses in the Company in 2014, it is currently expected that the Company's Common Equity Tier 1 Capital ratio will remain broadly stable, improving only modestly from this level in the coming years. The Company expects to achieve a leverage ratio above the regulatory minimum by the end of 2014.

5. Consequences of a failure of the Liability Management Exercise

The Liability Management Exercise will only be successfully completed if the entire principal amount of all Existing Securities are exchanged or sold pursuant to the Liability Management Exercise. The Liability Management Exercise cannot succeed unless the Scheme is implemented.

As stated in the June Announcement, Co-operative Group and the Company continue to believe that the Recapitalisation Plan (including in its revised form), of which the Liability Management Exercise forms an integral part, is in the long-term interests of their respective stakeholders and of the Company itself.

Absent the support of sufficient Noteholders to participate in and, where requested, approve the proposals being made in the Scheme, the Scheme and therefore the Liability Management Exercise will fail.

The uncertainty around the implementation of the Recapitalisation Plan constitutes a material uncertainty which casts significant doubt on the Company's ability to continue as a going concern. The Company's Interim Financial Information, therefore, included an emphasis of matter statement as to the Company's ability to continue as a going concern (see note 2 to the Interim Financial Information for further details of the going concern position of the Company contained in part A in section 16 (*Financial Information*) at pages 278 to 396 of the Bank T2 Notes Prospectus).

Given the discretionary nature of the powers available to the Resolution Authorities under the Banking Act, the Company is unable to predict with certainty the precise outcome for Noteholders, if the Scheme and the Liability Management Exercise are not successfully implemented during 2013. However, the Company has no other source available to it to raise the required additional capital. As stated in the Company's Interim Financial Information, if the Liability Management Exercise is not successfully completed, the Company will cease to be a going concern and the Company considers that it is likely to fail to satisfy its threshold conditions for authorisation (within the meaning of Section 55B of FSMA). In such circumstances, the relevant Resolution Authority may then exercise a stabilisation power under the Banking Act. These threshold conditions include a requirement that the PRA is satisfied that the Company, in particular, has appropriate financial and non-financial resources, including that the Company has made appropriate provisions for its liabilities. In addition, the Resolution Authorities may also exercise their powers to resolve the Company even if it remains a going concern.

If the Scheme and the Liability Management Exercise are not successfully implemented on or before 31 December 2013, the Company therefore considers that the PRA would have a basis for determining that the Company is failing, or is likely to fail, to satisfy its threshold conditions; that the power of the Resolution Authorities to exercise stabilisation powers under the Banking Act had arisen; and the Company believes that it is likely that it would be subject to a resolution procedure under the Banking Act. The Company therefore believes that there are only two realistic outcomes for the Company, which are either its recapitalisation following successful implementation of the Liability Management Exercise or a failure of the Liability Management Exercise resulting in the Company becoming subject to a resolution procedure under the Banking Act.

For further details of the risks of the Scheme and the Liability Management Exercise, see Part D (*Risk Factors*) of this Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein). For further information on the consequences of a failure of the Scheme and therefore the Liability Management Exercise, see Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

6. Details of the Liability Management Exercise

The Liability Management Exercise being conducted by the Company and Co-operative Group involves inviting the Holders of the Existing Securities to exchange or sell their Existing Securities for New Securities to be issued by the Company and, in certain cases, Co-operative Group.

Details of the Liability Management Exercise can be found in Part C (*Overview of the Liability Management Exercise*) and in the Offer Memorandum which is appended to and forms part of the Bank T2 Notes Prospectus, which is appended to this Explanatory Statement at Appendix 9 (*Bank T2 Notes Prospectus*).

PART B

OVERVIEW OF THE SCHEME

This section contains a brief overview of the Scheme. The summary information contained herein does not purport to be complete and should be read in conjunction with, and is qualified in its entirety by references to, the more detailed information presented elsewhere in this Explanatory Statement and to the Scheme.

1. SCHEME OF ARRANGEMENT OVERVIEW

- 1.1 The proposed restructuring is proposed to be effected by way of a scheme of arrangement of the Company under the laws of England and Wales.
- 1.2 A scheme of arrangement is a formal procedure under Part 26 of the Companies Act 2006 which enables a company to agree a compromise or arrangement with its creditors or any class of its creditors in respect of its debts or obligations owed to those creditors. A scheme of arrangement requires the following to occur in order to become legally binding:
 - (a) the approval of a majority in number representing at least 75 per cent. in value of the creditors or class of creditors present in person or by proxy and voting at the meeting convened to approve the scheme of arrangement;
 - (b) the approval of the Court by the making of an order sanctioning the scheme of arrangement; and
 - (c) the delivery of the order sanctioning the scheme of arrangement to the Registrar of Companies.
- 1.3 If the scheme of arrangement is approved by the requisite majorities and sanctioned by the Court and the order sanctioning the scheme of arrangement is delivered to the Registrar of Companies, the scheme of arrangement will become effective in accordance with its terms and bind all the creditors subject to it, both those creditors who voted in favour of it and those creditors who voted against it or did not vote at all.
- 1.4 A scheme of arrangement cannot be sanctioned by the Court unless the Court is satisfied, among other things, that the relevant provisions of Part 26 of the Companies Act 2006 have been complied with and an intelligent and honest person, a member of the class concerned and acting in respect of his own interest, might reasonably approve the scheme of arrangement.
- 1.5 The role of the Scheme Creditors in the implementation of the Scheme is set out in detail in Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*) of this Explanatory Statement, to which Scheme Creditors should refer.
- 1.6 A summary of: (i) the identity of Scheme Creditors; (ii) the process for and voting at the Scheme Meeting; and (iii) when the Scheme will become effective, is set out below.

Identity of Scheme Creditors

- 1.7 The Scheme is being proposed by the Company in respect of the Scheme Claims of the Scheme Creditors. The Scheme Creditors consist of:
 - (a) the direct creditors in respect of the Scheme Claims the Common Depositaries as holders of the Global Notes and the Trustees solely as the beneficiaries of the covenants to repay principal and pay interest on the Dated Notes pursuant to the Trust Deeds; and

- (b) the contingent creditors in respect of the Scheme Claims the Noteholders as the beneficial owners of and/or the persons with the ultimate economic interest in the Dated Notes
- 1.8 The Noteholders, as the beneficial owners of and/or the persons with the ultimate economic interest in the Dated Notes, are the persons with the "real" interest in the Scheme Claims and accordingly they will be entitled to vote in respect of the Scheme. To avoid double counting in respect of the Scheme Claims, each of the Trustees and the Common Depositaries has confirmed in writing that it will not exercise any voting rights to which it may be entitled as a Scheme Creditor. This has been done to ensure an orderly voting procedure and is considered by the legal advisers to the Company to represent current market practice in this type of situation. For this reason, in certain instances in this Explanatory Statement the Noteholders are referred to rather than Scheme Creditors as the Noteholders will be the Scheme Creditors that vote at the Scheme Meeting.

Scheme Meeting – process and voting

General

1.9 The Company considers that:

- (a) as described in more detail in Part A (*Background to and Reasons for the Recapitalisation Plan*) there are only two realistic outcomes for the Company following the launch of the Liability Management Exercise, which are either its recapitalisation following successful implementation of the Liability Management Exercise or a failure of the Liability Management Exercise resulting in the Company being subject to a resolution procedure pursuant to one or more of the stabilisation options available to the Bank of England or HM Treasury under the Banking Act. The Company believes that its recapitalisation through the Liability Management Exercise would be substantially more beneficial to the Noteholders, the Preference Shareholders, the 5.5555% Bondholders and the 13% Bondholders than resolution of the Company; and
- (b) if the Company is resolved and goes into an insolvency proceeding as a result of that resolution, the Noteholders would not receive any recovery in respect of the Dated Notes in any such insolvency proceedings and would not be entitled to any compensation under the resolution arising from their holdings of the Dated Notes, as described in Appendix 7 (*Resolution Analysis*). Further, the Company considers that there are fundamental uncertainties as to whether the Company could be successfully resolved such that the Company itself remained a going concern without the active participation of Cooperative Group and a substantial amount of additional capital.
- 1.10 The Company considers that the rights of all the Scheme Creditors (including, without limitation, the right to participate in the Additional New Ordinary Shares Offer) are sufficiently similar so as to make it possible for them to consult together with a view to a common interest because:
 - (a) as unsecured creditors of the Company, subordinated to all unsecured unsubordinated creditors of the Company, and ranking *pari passu* as between themselves in the Company's capital structure, they have materially the same rights against the Company and, as described in paragraph 1.9 above, are unlikely to receive any recovery if the Company is subject to a resolution procedure and enters into an insolvency proceeding; and
 - (b) if the Scheme becomes effective in accordance with its terms, those rights will be compromised in materially the same way,

irrespective of the fact that some Scheme Creditors may hold different series of the Dated Notes.

- 1.11 Accordingly, the Company has concluded that it is appropriate for the Scheme Creditors (i.e. all Noteholders) to vote together as one class at the Scheme Meeting.
- 1.12 The Scheme Meeting for the purpose of considering and, if thought fit, approving the Scheme has been ordered to be convened by the Court.
- 1.13 A notice of the Scheme Meeting to be held on 11-16 December 2013 is set out in Appendix 4 (Notice of Scheme Meeting). For the avoidance of doubt and as the Scheme is subject to an order of the Court, the procedure for the Scheme Meeting is as set out in Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes) and not the procedures for convening noteholder meetings as set out in any of the Trust Deeds.

Voting

- 1.14 Noteholders should refer to the detailed instructions in relation to voting at the Scheme Meeting in the section entitled Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes at pages 21 to 27 above and Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes). Each Noteholder will be required to ensure that its Account Holder has completed and submitted to the Information Agent a valid Account Holder Letter so that it is received by the Information Agent before the Voting Instruction Deadline (being 4.30 p.m. (London time) on 10-13 December 2013) in order to vote at the Scheme Meeting. Noteholders may vote at the Scheme Meeting either in person or by proxy
- 1.15 If a Noteholder has not submitted a valid Account Holder Letter for the purposes of voting to the Information Agent before the Voting Instruction Deadline, that Noteholder will not be entitled to vote at the Scheme Meeting.

Voting Value

- 1.16 The 2016 Notes are denominated in Euro and the other series of the Dated Notes are denominated in Sterling. As the Noteholders will be voting in a single class, the Scheme Claims in respect of the 2016 Notes and the other series of the Dated Notes must be in a common currency in order to determine whether the Scheme has been approved at the Scheme Meeting by the statutory majorities of Scheme Creditors. Accordingly, the Scheme Claims in respect of the 2016 Notes of each Noteholder which is entitled to vote at the Scheme Meeting shall be notionally converted into Sterling at the Scheme FX Rate for the purposes of calculating the value of those Scheme Claims in connection with voting at the Scheme Meeting.
- 1.17 The Scheme FX Rate was determined by the Company on 30 October 2013 on the basis of the rate appearing on or derived from the Bloomberg service designated as the "FXC" page for the purpose of displaying the rate of exchange between Sterling and Euro as a rate of £0.85644 to €1.
- 1.18 The Scheme FX Rate has been fixed by the Company prior to the date of this Explanatory Statement in order to create transparency in relation to the treatment of the 2016 Notes under the terms of the Scheme and to assist Noteholders in determining what their entitlements to Scheme Consideration and will be if the Scheme is sanctioned by the Court and implemented and whether to elect to participate in the Additional New Ordinary Shares Offer, in particular given the nature of the Additional New Ordinary Shares Offer. The fixing of the Scheme FX Rate prior to the date of this Explanatory Statement is intended to ensure that these determinations are not affected by volatility in the exchange rate between Euro and Sterling.
- 1.19 As described in paragraphs 2.12 to 2.15 below, the Scheme FX Rate is also used for the purposes of determining entitlements to Scheme Consideration and the allocation of Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer in respect of the 2016 Notes.

The Lock-up Arrangements

- 1.20 In October 2013, the Company entered into confidentiality agreements with certain Noteholders in order to facilitate discussions relating to the Liability Management Exercise. As a result of these discussions, Noteholders in respect of approximately 48 per cent. of the principal amount outstanding of the Dated Notes in aggregate (with the principal amount outstanding of the 2016 Notes for the purposes of this calculation notionally converted from Euro into Sterling at the Scheme FX Rate) entered into Lock-Up Agreements (as defined in paragraph 1.21(a) below) with the Company and Co-operative Group on 4 November 2013.
- 1.21 As originally set out in the Offer Memorandum, each Noteholder who has not already done so is being given the opportunity to enter into a Lock-up Arrangement with the Company either by:
 - (a) entering into a bilateral agreement with the Company and Co-operative Group (referred to as **Lock-up Agreements**); or
 - (b) instructing its Account Holder in the Account Holder Letter delivered on behalf of that Noteholder to give undertakings on behalf of that Noteholder in that Account Holder Letter (referred to as **Lock-up Undertakings**),

in each case pursuant to which that Noteholder agrees, among other things and subject to certain conditions, to vote its Scheme Claim in favour of the Scheme.

- 1.22 The undertakings provided by each Noteholder who enters into a Lock-up Arrangement are substantially the same irrespective of whether a Noteholder locks-up by way of a Lock-up Agreement or a Lock-Up Undertaking. Both the form of Lock-up Agreement and Lock-Up Undertaking provide that a Noteholder will, amongst other things:
 - (a) attend the Scheme Meeting by proxy or in person and exercise and cast all of its votes in respect of its Dated Notes which are subject to the Lock-up Arrangement (the Locked-up Notes) in favour of the Scheme and any amendment or modification to the Scheme or adjournment to the Scheme Meeting, provided that they are proposed by the Company and that the terms of the Scheme as amended or modified are and remain consistent in all material respects with the terms of the Scheme without such amendments or modifications and are consistent with and do not include any additional material terms which are likely to adversely affect or conflict with the terms of the Proposed Restructuring or its implementation;
 - (b) except where the undertaking set out in paragraph 1.22(a) applies, exercise and cast all of its votes in respect of its Locked-up Notes against any amendment or modification to the Scheme or any proposal to adjourn the Scheme Meeting;
 - (c) not commence or request or instruct that any Trustee or any other person commence proceedings against the Company or take any other action in connection with any Note Event of Default or Potential Note Event of Default arising as a result of an application for or the making of the Scheme or the Proposed Restructuring;
 - (d) not commence, take, support or actively assist (or request, instruct or procure that any other person commence, take, support, or actively assist) any judicial, arbitration, regulatory proceedings or any other action inconsistent with the terms of the Lock-up Agreement or Lock-up Undertaking (as applicable) or the Scheme, that would reasonably be expected to impede, prevent or frustrate the implementation of the Scheme or the Proposed Restructuring;
 - (e) promptly notify the Company, by sending a written notice (a **Locked-up Notes Notice**) in the relevant form (in the case of a Noteholder who has entered into a Lock-up Agreement) or an additional Account Holder Letter (in the case of a Noteholder who has

entered into a Lock-up Undertaking, with Part 2 Section 2 (*Lock-up*) of that Account Holder Letter duly completed to provide the undertakings described in this paragraph 1.22) by email to the Company and/or the Information Agent of any change (whether an increase or decrease) to the aggregate principal at issue amount of its Locked-up Notes and upon actual receipt of a request in writing from the Company (or an agent acting on its behalf) provide such other information in relation to any Scheme Claim (to the extent such information cannot be obtained from any Locked-up Notes Notice (in the case of a Noteholder who has entered into a Lock-up Agreement) or an additional Account Holder Letter (in the case of a Noteholder who has entered into a Lock-up Undertaking)) as the Company (or an agent acting on its behalf) may reasonably require in order to enable it to calculate any Scheme Consideration; and

- (f) promptly provide to the Company (or an agent acting on its behalf), upon actual receipt of a request in writing from the Company (or an agent acting on its behalf), written confirmation of the aggregate principal amount of its Locked-up Notes.
- 1.23 In addition, each Lock-up Arrangement provides that the Noteholder agrees that it will not sell, transfer, assign or otherwise dispose of any interests in all or any part of its Locked-up Notes to any person unless that person has already executed and delivered to the Company a Lock-up Agreement or Lock-up Undertaking (as applicable) which Lock-up Arrangement has not terminated and provided that such Dated Notes shall constitute Locked-up Notes of that person pursuant to that Lock-up Arrangement.
- 1.24 In the form of Lock-up Agreement (but not in the Lock-up Undertaking), the Company and Cooperative Group undertake to the relevant Noteholder as follows:
 - (a) neither the Company nor Group shall, and Co-operative Group shall ensure that CBGL shall not, take, encourage or support (or procure that any other person takes, encourages or supports) any action which would be, or would be reasonably expected to be inconsistent with the Lock-up Agreement or the implementation of the Proposed Restructuring, or delay, impede or prevent the implementation of the Proposed Restructuring
 - (b) each of the Company and Group shall (and Group shall ensure that CBGL shall) cooperate with, actively assist and take all actions and steps to implement the Proposed Restructuring on or before the Longstop Date including, without limitation:
 - (i) taking all reasonable steps to obtain any necessary consents or authorisations required to implement the Proposed Restructuring;
 - (ii) executing and delivering (as applicable) any and all documents which may be necessary to give effect to the Proposed Restructuring (including, without limitation, the Proposed Restructuring Documents);
 - (iii) proposing and filing any legal process or proceedings contemplated by or required to implement the Proposed Restructuring;
 - (iv) calling all creditor meetings required to implement the Proposed Restructuring including, without limitation, any adjourned meetings;
 - (c) neither the Company nor Co-operative Group shall:
 - (i) assign, transfer or otherwise deal with any of its rights or obligations under the Lock-up Agreement; or
 - (ii) take or consent to the taking of any action which supports or favours any proposed composition, compromise, assignment or arrangement with any creditor

of the Company or Co-operative Group other than pursuant to the implementation and consummation of the Proposed Restructuring or the Lock-up Agreement excluding for these purposes any proposed amendment or variation to the Proposed Restructuring; and

- (d) Co-operative Group shall not sell, transfer, assign or otherwise dispose of any of its equity interest in the Company.
- 1.25 The undertakings described in paragraph 1.24 above do not apply to any action which is expressly contemplated by the Proposed Restructuring.
- 1.26 In addition to the above, the form of Lock-up Agreement (but not the Lock-up Undertaking) provides that the Company will, amongst other things:
 - (a) propose the Scheme and seek the approval of the Scheme Creditors and sanction of the Scheme by the English court and ensure the Scheme Settlement Date occurs as soon as reasonably practicable;
 - (b) use all reasonable endeavours to procure that the chairman of the Scheme Meeting admits the value of the Locked-up Notes of the relevant Noteholder as at the Record Date for the purposes of voting at the Scheme Meeting. It is acknowledged by the parties to the relevant Lock-up Agreement that any admission of claims by the chairman of the Scheme Meeting for the purposes of voting at the Scheme will not amount to an admission of such claim for any purpose other than voting at the Scheme Meeting; and
 - (c) procure that a public notice is issued on the Scheme Settlement Date (or failing which on the Business Day following the Scheme Settlement Date) on the London Stock Exchange, stating that the Scheme Settlement Date has occurred and the date on which it has occurred.
- 1.27 Each form of the Lock-up Arrangement provides that the Lock-up Arrangement will terminate immediately upon the occurrence of any of the following events:
 - (a) at a Scheme Meeting at which a vote takes place, the Scheme is not approved by the requisite majorities of the Scheme Creditors specified in section 899(1) of the Companies Act;
 - (b) on the earlier of the Scheme Settlement Date and the Longstop Date; and
 - (c) the Company gives the Noteholder who is party to the relevant Lock-up Arrangement or any other Noteholder written notice of an intention either:
 - (i) not to proceed with the Scheme; or
 - (ii) to proceed with a proposed scheme of arrangement on terms which are different to the Scheme in any material respect;
 - (d) the Noteholder who is party to the relevant Lock-up Arrangement sells, transfers, assigns or otherwise disposes of all of its Locked-up Notes in accordance with the terms of the relevant Lock-up Arrangement (as described in paragraph 1.23 above); and

- (e) if:
 - (i) the 5.5555% Bondholders vote against the proposals (to the extent related to the 5.5555% Bonds) contemplated in the relevant Proposed Restructuring Documents at the 5.5555% Bondholders Meeting;
 - (ii) the 13% Bondholders vote against the proposals (to the extent related to the 13% Bonds) contemplated in the relevant Proposed Restructuring Documents at the 13% Bondholders Meeting; or
 - (iii) the Preference Shareholders vote against the proposals (to the extent related to the Preference Shares) contemplated in the relevant Proposed Restructuring Documents at the Preference Shareholders Meeting.

The form of Lock-up Agreement (but not the Lock-up Undertaking) includes additional rights which permit the Company and the relevant Noteholder to terminate the relevant Lock-up Agreement in certain circumstances.

1.28 Any Noteholder that has not entered into a Lock-up Arrangement at the date of this Explanatory Statement and wishes to take steps to do so, may still do so by entering into a Lock-Up Arrangement prior to the Voting Instruction Deadline and performing its obligations thereunder. Any Noteholder wishing to enter into a Lock-up Arrangement should contact the Information Agent for assistance or in respect of any questions that Noteholder has in relation to what steps it needs to take in order to enter into a Lock-up Arrangement.

When will the Scheme be effective?

Scheme Sanction Hearing

- 1.29 Under Part 26 of the Companies Act 2006, a scheme of arrangement becomes effective in accordance with its terms and is binding on the company and creditors subject to it when the order of the Court sanctioning the scheme of arrangement is delivered to the Registrar of Companies. The Company expects that the Scheme Sanction Hearing will take place on or about 16-18 December 2013. Once the date of the Scheme Sanction Hearing is confirmed by the Court, the Company will give notice to the Scheme Creditors through the Clearing Systems and on the Scheme Website at http://www.co-operative.coop/Bondholders.
- 1.30 At the Scheme Sanction Hearing the Company may consent on behalf of all Scheme Creditors to any modification of the Scheme or any term or condition which the Court may think fit to approve or impose and which would not directly or indirectly have a material adverse effect on the interests of any Scheme Creditor under the Scheme.

The Scheme Effective Date

- 1.31 Pursuant to the Scheme, following:
 - (a) approval by a majority in number representing at least 75 per cent. in value of the Scheme Claims of the Scheme Creditors present and voting either in person or by proxy at the Scheme Meeting;
 - (b) the granting by the Court of an order sanctioning the Scheme; and
 - (c) the delivery of the order sanctioning the Scheme to the Registrar of Companies,

the Scheme Effective Date will occur and certain provisions of the Scheme (described below under the headings *Authority to execute documents on behalf of Scheme Creditors* and *Key Elements of the Scheme* at paragraphs 2.5 to 2.7 and 2.47) will become operative.

- 1.32 Following the occurrence of the Scheme Effective Date, certain authorisations, instructions and obligations take effect under the Scheme.
- 1.33 The occurrence of the Scheme Settlement Date is conditional upon: (i) an amount in cleared funds equal to or greater than £125,000,000 standing to the credit of the Subscription Escrow Account in connection with the Additional New Ordinary Shares Offer and (ii) the satisfaction of the Scheme Settlement Condition. The Additional New Ordinary Shares Offer is described in greater detail in paragraphs 2.22 to 2.30 below.
- 1.34 The Scheme Settlement Condition will be satisfied if, on the Scheme Settlement Condition Testing Date:
 - (a) the Scheme Effective Date has occurred;
 - (b) the Proposal in respect of the Preference Shares (i) has been approved by the requisite majority of the Preference Shareholders at the Preference Shareholders Meeting (and a resolution in similar terms must also be approved at a general meeting of the shareholders of the Company) and (ii) is capable of being implemented in accordance with the terms of that Proposal as set out in the Offer Memorandum;
 - (c) the Proposal in respect of the 5.5555% Bonds (i) has been approved by the requisite majority of the 5.5555% Bondholders at the 5.5555% Bondholders Meeting and (ii) is capable of being implemented in accordance with the terms of that Proposal as set out in the Offer Memorandum; and
 - (d) the Proposal in respect of the 13% Bonds (i) has been approved by the requisite majority of the 13% Bondholders at the 13% Bondholders Meeting and (ii) is capable of being implemented in accordance with the terms of that Proposal as set out in the Offer Memorandum.
- 1.35 As soon as reasonably practicable after determining that the Scheme Settlement Condition has been satisfied, the Company shall give the Noteholders notice by the issue of an announcement through the Clearing Systems and on the Scheme Website at http://www.co-operative.coop/Bondholders.
- 1.36 The Company shall procure that the Scheme Settlement Date occurs as soon as reasonably practicable following the satisfaction of the conditions referred to in paragraph 1.33 above. Once any steps required to take place prior to the Scheme Settlement Date have been completed in accordance with the terms of the Scheme, the Scheme Settlement Date will occur and the Scheme Consideration will be delivered.
- 1.37 If the Scheme Settlement Date does not occur on or before 31 December 2013 (referred to in the Scheme as the Longstop Date), the terms of and the obligation on the parties under or pursuant to the Scheme shall lapse and all the compromises and arrangements provided by the Scheme shall be of no effect.

2. WHAT WILL THIS SCHEME DO?

2.1 The Scheme is a compromise and arrangement between the Company and the Scheme Creditors. As the Scheme can only bind the Company and the Scheme Creditors, certain third parties which will be required to perform actions in accordance with the terms of the Scheme have entered, or are expected to enter prior to the date of the Scheme Sanction Hearing, into deeds of undertaking and/or have agreed, or are expected to agree prior to the date of the Scheme Sanction Hearing, to appear at Court to undertake to perform those actions and, where necessary, be bound by the terms of the Scheme. These undertakings are described at paragraph 5 below.

The Liability Management Exercise

- 2.2 The implementation of the Scheme, as part of the Liability Management Exercise which is described in Part C (*Overview of the Liability Management Exercise*), is dependent on participation by the Preference Shareholders, the 5.5555% Bondholders and the 13% Bondholders in the Liability Management Exercise in order to ensure that the Scheme Settlement Condition is satisfied.
- 2.3 Failure to achieve sufficient levels of participation by the Preference Shareholders, the 5.5555% Bondholders and the 13% Bondholders in the Liability Management Exercise to satisfy the Scheme Settlement Condition will mean that the conditions to the occurrence to the Scheme Settlement Date cannot be satisfied and the transfer and cancellation of the Dated Notes, the issuance of the Scheme Consideration and the issuance of the Additional Ordinary Shares as contemplated in the Scheme will not occur and the Scheme and the Liability Management Exercise will not be implemented.
- 2.4 Furthermore, as described in paragraph 1.37 above, if the Scheme Settlement Date does not occur on or before the Longstop Date, the Scheme shall lapse and the transfer and cancellation of the Dated Notes, the issuance of the Scheme Consideration and the issuance of the Additional Ordinary Shares as contemplated in the Scheme will not occur and the Scheme and the Liability Management Exercise will not be implemented.

Authority to execute documents on behalf of the Scheme Creditors

- 2.5 Pursuant to the Scheme, on and from the Scheme Effective Date each of the Scheme Creditors will irrevocably and unconditionally authorise the Company to issue, enter into, execute and (where applicable) deliver as a deed or otherwise each of the following on behalf of that Scheme Creditor (and any person to whom a Scheme Creditor has transferred its rights in respect of its Scheme Claim after the Record Date):
 - (a) directions to each relevant Clearing System and any other document in connection with the transfer and cancellation of the Dated Notes in accordance with the terms of the Scheme;
 - (b) the Deed of Waiver and Release;
 - (c) the Distribution Agreement; and
 - (d) any and all other documents that the Company reasonably considers necessary or desirable to give effect to the terms of the Scheme,

on the Scheme Settlement Date (in respect of the documents referred to in Subclauses (a) and (b) above) and on any day from (and including) the Scheme Effective Date (in respect of the documents referred to in Subclauses (c) and (d) above) for the purposes of giving effect to the terms of this Scheme.

- 2.6 Although the Scheme Creditors are party to the documents referred to in paragraph 2.5 above, the execution and delivery of those documents will be undertaken by the Company on behalf of the Scheme Creditors. Accordingly, no action is required by the Scheme Creditors in respect of the execution or delivery of those documents.
- 2.7 The terms of the Distribution Agreement and the Deed of Waiver and Release are summarised in paragraphs 3.5 and 4 below.

Scheme Consideration

- 2.8 The Scheme provides that, on the Scheme Settlement Date and subject to the terms of the Scheme, the Company shall issue the Scheme Consideration.
- 2.9 The Scheme Consideration to which Noteholders are entitled, subject to the terms of the Scheme, consists of the Bank T2 Notes and the New Ordinary Shares.
- 2.10 The Bank T2 Notes will be subordinated debt securities issued by the Company. The terms and conditions of the Bank T2 Notes are described in appendix B of the Bank T2 Notes Prospectus which is appended to this Explanatory Statement at Appendix 9 (*Bank T2 Notes Prospectus*). The Noteholders are advised to read and consider carefully the Bank T2 Notes Prospectus in addition to this Explanatory Statement in relation to the Bank T2 Notes.
- 2.11 The New Ordinary Shares will be ordinary shares issued by the Company. The rights attaching to the New Ordinary Shares and the articles of association of the Company are described in pages 420 to 430 of the Bank T2 Notes Prospectus and the terms of the Relationship Agreement are described in pages 455 to 457 of the Bank T2 Notes Prospectus. Further details of the corporate governance arrangements in respect of the Company are described in pages 191 to 195 and at page 430 (paragraph 2.22 entitled "Corporate Governance") of the Bank T2 Notes Prospectus. In addition, the Company has entered into an agreement with CBGL and Co-operative Group (the 2014 Commitment Agreement) pursuant to which CBGL will subscribe for ordinary shares to be issued by the Company on implementation of the Scheme. The terms of the 2014 Commitment Agreement are described in pages 457 to 460 of the Bank T2 Notes Prospectus. The Noteholders are advised to read and consider carefully the Bank T2 Notes Prospectus in addition to this Explanatory Statement in relation to the New Ordinary Shares.

Calculation of entitlements to Scheme Consideration

- 2.12 The entitlement of each Noteholder to Scheme Consideration will be calculated by the Company in accordance with the terms of the Scheme on the basis of the Scheme Consideration Calculation Amount with respect to that Noteholder, being the aggregate of:
 - (a) the aggregate principal amount outstanding of Dated Notes (other than 2016 Notes) held by that Noteholder (if any) and accrued but unpaid interest thereon up to (and including) the Record Date; and
 - (b) the Sterling-Equivalent of the aggregate principal amount outstanding of the 2016 Notes held by that Noteholder (if any) and accrued but unpaid interest thereon up to (and including) the Record Date.
- 2.13 As the 2016 Notes are denominated in Euro and the other series of the Dated Notes are denominated in Sterling, the principal amount outstanding and accrued but unpaid interest thereon up to (and including) the Record Date in respect of the 2016 Notes held by any Noteholder shall be notionally converted into Sterling at the Scheme FX Rate for the purposes of calculating entitlements to Scheme Consideration in accordance with the terms of the Scheme.
- 2.14 If the number of New Ordinary Shares resulting from any calculation of a Noteholder's entitlement to Scheme Consideration in accordance with the terms of the Scheme is not a whole number, that number shall be rounded down to the nearest whole number and that Noteholder shall have no entitlement to any resulting fractional amount.
- 2.15 If the principal amount of Bank T2 Notes resulting from any calculation of a Noteholder's entitlement to Scheme Consideration in accordance with the terms of the Scheme is not an integral multiple of £10, that amount shall be rounded down to the nearest integral multiple of £10 and that Noteholder shall have no entitlement to any resulting fractional amount.

Issuance of Scheme Consideration and Holding Period arrangements

- 2.16 In order to receive Scheme Consideration to which it is entitled in accordance with the terms of the Scheme, each Noteholder is required to comply with the procedures described in the section entitled Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes at pages 21 to 27 above and Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes) of this Explanatory Statement.
- 2.17 The Company will issue Scheme Consideration on the Scheme Settlement Date to Noteholders which have confirmed that they are Eligible Persons (or have appointed other persons to receive Scheme Consideration on their behalf and confirmed that those other persons are Eligible Persons) (such persons are referred to in the Scheme as Designated Recipients and such Noteholders are referred to in the Scheme as Eligible Noteholders) and on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline. As described in paragraph 2.18 below, Eligible Noteholders on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline may appoint Alternative Recipients to receive some or all of the Scheme Consideration and (if applicable) the Additional New Ordinary Shares to which they are entitled by complying with the steps described in paragraph 2.18 below.
- Any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the Voting Instruction Deadline, Sub-purchaser or Modified Scheme Purchaser may elect for some or all of the Scheme Consideration and (if applicable) the Additional New Ordinary Shares to which it is entitled under the terms of the Scheme and (if applicable) the Additional New Ordinary Shares Offer, the Sub-purchasing Offer or the Modified Scheme Purchase Agreement to be issued to another person who is an Eligible Person (such person, an Alternative Recipient) by notifying the Company of its election and providing to the Company and the Information Agent (i) confirmation that the Alternative Recipient is an Eligible Person and (ii) all details of the Alternative Recipient required by the Company and/or the Information Agent, in each case by no later than the Scheme Effective Date.
- 2.19 The Company may also issue Scheme Consideration on the Scheme Settlement Date to Eligible Noteholders (if any) on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date (or, to the extent applicable their Designated Recipients), in each case at the sole discretion of the Company.
- 2.20 A trustee (referred to in the Scheme as the Holding Period Trustee) will be appointed on or before the Scheme Settlement Date pursuant to the terms of the Distribution Agreement and the Scheme to hold Scheme Consideration on behalf of:
 - (a) Noteholders which have confirmed that they are not Eligible Persons and have not appointed Designated Recipients (such Noteholders are referred to in the Scheme as Ineligible Noteholders) and on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the date of the Voting Instruction Deadline; and
 - (b) Noteholders on whose behalf a valid Account Holder Letter has not been delivered to and received by the Information Agent before the Voting Instruction Deadline, other than any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date and to whom the Company issues Scheme Consideration on the Scheme Settlement Date as described in paragraph 2.19 above (referred to in the Scheme as Unadmitted Noteholders).

2.21 The Holding Period Trustee will hold Scheme Consideration on behalf of Ineligible Noteholders and Unadmitted Noteholders on bare trust in accordance with the terms of the Distribution Agreement and the Scheme, as described in paragraphs 3.5 to 3.18 below.

Additional New Ordinary Shares Offer

Overview

- 2.22 The Scheme provides that any Noteholder is entitled to elect to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer. A Noteholder wishing to elect to participate in the Additional New Ordinary Shares Offer will be entitled to elect to subscribe for between 50,000-26,667 (the Minimum Election) and 62,500,000 33,333,334 Additional New Ordinary Shares, irrespective of the size of the Noteholder's Scheme Claim.
- 2.23 Any Noteholder wishing to subscribe for Additional New Ordinary Shares in the Additional New Ordinary Shares Offer should instruct its Account Holder to make the appropriate elections in the Account Holder Letter delivered on its behalf, as described in *Summary of actions to be taken by Scheme Creditors and any person with an interest in the Dated Notes* at pages 21 to 27 above and Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*).
- 2.24 In order for a Noteholder to participate in the Additional New Ordinary Shares Offer, a valid Account Holder Letter in respect of that Noteholder must be delivered to and received by the Information Agent before the Voting Instruction Deadline. The Account Holder Letter must include (i) the amount of the Additional New Ordinary Shares for which that Noteholder wishes to subscribe in accordance with the terms of the Additional New Ordinary Shares Offer and (ii) confirmation that the Noteholder is an Eligible Person or, if that Noteholder has appointed a Designated Recipient, the Designated Recipient is an Eligible Person. The delivery and receipt of a valid Account Holder Letter will constitute an irrevocable offer by the relevant Noteholder to subscribe for up to its Subscription Amount, the acceptance of which by the Company will be effected and evidenced by notification of the number of Additional New Ordinary Shares allocated to that Noteholder as described in paragraph 2.27 below.

Subscribing Noteholder

- 2.25 Any Noteholder which complies with the above requirements will become a **Subscribing Noteholder** and will be entitled to receive Additional New Ordinary Shares in accordance with and subject to the terms of the Additional New Ordinary Shares Offer.
- 2.26 In summary, the allocation of Additional New Ordinary Shares to a Subscribing Noteholder in respect of its election to participate in the Additional New Ordinary Shares Offer will be *pro rata* based on the proportion of its Scheme Consideration Calculation Amount to the aggregate Scheme Consideration Calculation Amounts of all Subscribing Noteholders which have elected to participate in the Additional New Ordinary Shares Offer subject to:
 - (a) a minimum allocation for a Subscribing Noteholder of 50,000 26,667 Additional New Ordinary Shares; and
 - (b) a maximum allocation of Additional New Ordinary Shares equal to the number of Additional New Ordinary Shares subscribed for by that Noteholder,

provided always that the aggregate number of Additional New Ordinary Shares allocated to all Subscribing Noteholders under the Additional New Ordinary Shares Offer is no greater than 62,500,00033,333,3334.

- 2.27 On the date of the Scheme Meeting (or on the immediately following Business Day):
 - (a) the Company will undertake the calculation of allocations to Subscribing Noteholders in accordance with the terms of the Additional New Ordinary Shares Offer (a detailed description of the calculation methodology is set out at paragraph 2.30 below); and
 - (b) the Company (or the Information Agent on behalf of the Company) will notify each Subscribing Noteholder of (i) the number of Additional New Ordinary Shares allocated to that Subscribing Noteholder, (ii) the aggregate subscription price for such number of Additional New Ordinary Shares (the **Subscription Price**) and (iii) details of the Subscription Escrow Account into which the Subscription Price must be deposited.
- 2.28 In order to receive its allocation of Additional New Ordinary Shares, each Subscribing Noteholder must deposit into the Subscription Escrow Account an amount in cleared funds equal to the Subscription Price by no later than two Business Days after the date of the Scheme Meeting. Any Subscribing Noteholder that fails to fund the Subscription Escrow Account in the required amount by the deadline time of 4:30 p.m. (London time) on such date will not be entitled to receive Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer.

Allocation among Subscribing Noteholders

- 2.29 The information required to undertake the allocation calculations in respect of the Additional New Ordinary Shares Offer and calculate the Subscription Price for each Subscribing Noteholder will be derived from valid Account Holder Letters received by the Information Agent before the Voting Instruction Deadline. This information will include:
 - (a) the number of Subscribing Noteholders;
 - (b) the number of Additional New Ordinary Shares for which each Subscribing Noteholder wishes to subscribe (the **Subscription Amount**);
 - (c) the aggregate Subscription Amounts of all Subscribing Noteholders (the **Total Subscription Amount**);
 - (d) the Scheme Consideration Calculation Amount of each Subscribing Noteholder; and
 - (e) the aggregate Scheme Consideration Calculation Amounts of all Subscribing Noteholders.
- 2.30 This paragraph 2.30 describes the methodology the Company will use to calculate the number of Additional New Ordinary Shares to be allocated to each Subscribing Noteholder. The allocation methodology involves a number of allocation rounds. Noteholders may find the illustrative allocation model set out at Appendix 6 (*Illustrative Additional New Ordinary Shares Allocation Model*) of this Explanatory Statement useful when reviewing this paragraph 2.30. The Company will allocate the Additional New Ordinary Shares among Subscribing Noteholders as follows:
 - (a) First Round Allocation

Subscribing Noteholders that have made an election equal to the Minimum Election will be allocated a number of Additional New Ordinary Shares equal to the Minimum Election unless the aggregate Minimum Elections made by all Subscribing Noteholders exceeds 62,500,000–33,333,334 Additional New Ordinary Shares, in which case the Additional New Ordinary Shares shall be allocated to the first 1,25049 Subscribing Noteholders (for the avoidance of doubt, irrespective of whether they have elected the Minimum Election or some larger Subscription Amount) who validly elected to subscribe for Additional New Ordinary Shares pursuant to the terms of the Additional New

Ordinary Shares Offer (the First Round Exception and each such Subscribing Noteholder, the Early Subscribing Noteholder) by delivering a valid Account Holder Letter to the Information Agent such that each receives 50,000-26,667 Additional New Ordinary Shares (Account Holder Letters will be date and time stamped upon receipt by the Information Agent for this purpose). The balance of 26,251 Additional New Ordinary Shares that remains unallocated in the First Round Exception will be allocated amongst all Early Subscribing Noteholders that have elected to subscribe for an amount of Additional New Ordinary Shares in excess of the Minimum Election (the Unfilled Subscribing Noteholders) pro rata based on the proportion that an Unfilled Noteholder's Scheme Consideration Calculation Amount bears to the aggregate Scheme Consideration Calculation Amounts of all Unfilled Subscribing Noteholders subject to a maximum allocation of Additional New Ordinary Shares equal to the number of Additional New Ordinary Shares subscribed for by that Unfilled Subscribing Noteholder. For the avoidance of doubt, an Unfilled Subscribing Noteholder who, through this process, receives its Subscription Amount, will no longer be an Unfilled Subscribing Noteholder and will cease to be allocated further Additional New Ordinary Shares.

Subject to the First Round Exception, the number of Additional New Ordinary Shares that will be available to be allocated in the first round of allocations will be determined by multiplying the Minimum Election by the number of Subscribing Noteholders that have made an election equal to the Minimum Elections (the **Total First Round Allocation**) provided that the Total First Round Allocation shall not exceed 62,500,000 33,333,334 Additional New Ordinary Shares.

Any Subscribing Noteholder allocated Additional New Ordinary Shares in an allocation round in an amount that brings their total allocation of Additional New Ordinary Shares to an amount equal to their Subscription Amount shall, for the purpose of the allocation procedure, become an allocated noteholder (an **Allocated Noteholder**). All remaining Subscribing Noteholders that have not been allocated an amount of Additional New Ordinary Shares equal to their Subscription Amount shall, for the purpose of the allocation procedure, be unallocated Subscribing Noteholders (each an **Unallocated Subscribing Noteholder**).

Allocated Noteholders will be ignored for the purpose of determining allocations in all subsequent allocation rounds. Accordingly, the aggregate Scheme Consideration Calculation Amounts of all Allocated Noteholders will be ignored when determining allocations of Additional New Ordinary Shares in subsequent rounds.

For the purposes of determining priorities in the First Round Exception, if a valid Account Holder Letter is delivered to and received by the Information Agent in respect of a Noteholder (which has validly elected to participate in the Additional New Ordinary Shares Offer and/or the Sub-purchasing Offer) on whose behalf an Old Account Holder Letter has, prior to the delivery of that Account Holder Letter, been delivered to and received by the Information Agent (and not revoked), that Account Holder Letter will be deemed to have been received by the Information Agent on the date and at the time that the Old Account Holder Letter was received by the Information Agent.

An illustrative example:

Number of Subscribing Noteholders = 7

Number of Subscribing Noteholders that have made an election equal to the Minimum Election ($\frac{50,000 \cdot 26,667}{4}$ Additional New Ordinary Shares) = 2

Total Subscription Amount = 63,100,000-33,678,334 Additional New Ordinary Shares

Total First Round Allocation = $\frac{100,000-53,334}{100,000-53,334}$ Additional New Ordinary Shares

The first allocation round will result in:

- (i) 100,000 53,334 Additional New Ordinary Shares being allocated to 2 Subscribing Noteholders.
- (ii) The 2 Subscribing Noteholders referred to immediately above becoming Allocated Noteholders, and the remaining 5 Subscribing Noteholders becoming Unallocated Subscribing Noteholders.
- (iii) The individual aggregate Scheme Consideration Calculation Amounts of all Unallocated Subscribing Noteholders being used to determine the allocation of Additional New Ordinary Shares in the second round allocation.

(b) Second Round Allocation

Immediately following the first round allocation above, and provided that Additional New Ordinary Shares remain to be allocated, the Company will identify the Unallocated Subscribing Noteholder with the lowest Subscription Amount (the **Lowest Bidder** and the **Lowest Subscription Amount**). If the Lowest Subscription Amount is held by more than one Unallocated Subscribing Noteholder, the Lowest Bidder will be the Unallocated Subscribing Noteholder that has the highest Allocation Ratio (as defined below) (rounded down to the nearest whole number).

The Company will divide the Lowest Bidder's Subscription Amount by the Lowest Bidder's Allocation Ratio to determine the number of Additional New Ordinary Shares that will be available to be allocated to all Unallocated Subscribing Noteholders on a *pro rata* basis in the second round of allocations (the **Total Second Round Allocation**).

The allocation ratio (the **Allocation Ratio**) with respect to an Unallocated Subscribing Noteholder will be determined by dividing that Unallocated Subscribing Noteholder's Scheme Consideration Calculation Amount by the aggregate Scheme Consideration Calculation Amounts of all Unallocated Subscribing Noteholders.

Subject to the following paragraph, the Total Second Round Allocation will be allocated to all Unallocated Subscribing Noteholders *pro rata* by multiplying their respective Allocation Ratios by the Total Second Round Allocation (the **Second Round Allocations**) (rounded down to the nearest whole number) provided however that no Unallocated Subscribing Noteholder will be allocated more than its respective Subscription Amount.

If the remaining number of Additional New Ordinary Shares to be allocated in the second round of allocation is less than the Total Second Round Allocation, the remaining Additional New Ordinary Shares will be allocated to all Unallocated Subscribing Noteholders *pro rata* to their respective Second Round Allocations provided however that no Unallocated Subscribing Noteholder will be allocated more than its respective Subscription Amount.

An illustrative example:

Lowest Bidder's Subscription Amount = $\frac{8,000,000}{4,250,000}$ Additional New Ordinary Shares

Lowest Bidder's Scheme Consideration Calculation Amount = £53,840,410.96

Aggregate Scheme Consideration Calculation Amounts of all Unallocated Subscribing Noteholders = £203,686,9 $\frac{37.5}{5}$ 95.16

Lowest Bidder's Allocation Ratio = £53,840,410.96 / £203,686,9 $\underline{37.5}$ 95.16 = 0.264329 $\underline{153}$ 252796

Total Second Round Allocation = $\frac{8,000,000}{4,250,000}$ / 0.264329 $\frac{153}{252796}$ = $\frac{30,265,295}{16,078,433}$ Additional New Ordinary Shares

Second Round Allocations = 30,265,295 16,078,433 Additional New Ordinary Shares x each Unallocated Subscribing Noteholder's Allocation Ratio subject to a maximum aggregate allocation of Additional New Ordinary Shares equal to the Subscription Amount subscribed for by an Unallocated Subscribing Noteholder.

At the conclusion of the second round of allocation and provided that Additional New Ordinary Shares remain to be allocated to Unallocated Subscribing Noteholders in the subsequent round, the relevant Lowest Bidder(s) in the second round of allocation will become Allocated Noteholders, and will therefore be ignored for the purpose of determining allocations in all subsequent allocation rounds. If, due to rounding, a Subscribing Noteholder has been allocated one share less than its Subscription Amount, that Subscribing Noteholder will be allocated one additional Additional New Ordinary Share provided that there are sufficient unallocated Additional New Ordinary Shares.

(c) Third Allocation Round

The Company will repeat the allocation procedure described immediately above, save that when the Company identifies the Unallocated Subscribing Noteholder with the Lowest Subscription Amount for the purpose of calculating the third round of allocations, the Subscription Amount of the relevant Unallocated Subscribing Noteholder will be adjusted downwards to take into account any Additional New Ordinary Shares allocated to that Unallocated Subscribing Noteholder in earlier allocation rounds for the purpose of determining the number of Additional New Ordinary Shares that will be available to be allocated to all Unallocated Subscribing Noteholders on a *pro rata* basis in the third round of allocations (the **Total Third Round Allocation**).

An illustrative example:

Lowest Bidder's Subscription Amount = $\frac{11,500,000}{6,125,000}$ Additional New Ordinary Shares

Additional New Ordinary Shares allocated to the Lowest Bidder in earlier allocation rounds = 9,020,8584,792,330

Lowest Bidder's remaining or adjusted Subscription Amount = $\frac{2,479,142}{1,332,670}$ Additional New Ordinary Shares

Lowest Bidder's Scheme Consideration Calculation Amount = £60,710,842.54

Aggregate Scheme Consideration Calculation Amounts of all Unallocated Subscribing Noteholders = £149,846,5 $\frac{8426}{2063}$

Lowest Bidder's Allocation Ratio = £60,710,842.54 / £149,846,584 $\underline{26}$.20 $\underline{63}$ = 0.405153 $\underline{32974}$ 854

Total Third Round Allocation = $\frac{2,479,142}{1,332,670}$ / 0.405153 $\frac{32974}{854}$ = $\frac{6,119,021}{3,289,296}$ Additional New Ordinary Shares

Third Round Allocations = 6,119,021—3,289,296 Additional New Ordinary Shares x each Unallocated Subscribing Noteholder's Allocation Ratio subject to a maximum aggregate allocation of Additional New Ordinary Shares equal to the Subscription Amount subscribed for by each Unallocated Subscribing Noteholder.

(d) Subsequent Allocation Rounds

The Company will repeat the allocation procedure described immediately above as many times as is necessary until either:

(i) all Additional New Ordinary Shares have been allocated to Subscribing Noteholders; or

(ii) allocations have been made in an amount equal to the Total Subscription Amount, in which case the <u>Modified Scheme</u> Purchasers or, if applicable, the Sub-purchasers will be required to subscribe for the remaining Additional New Ordinary Shares in accordance with the terms of the <u>Modified Scheme</u> Purchase Agreement (as discussed in more detail in paragraphs 2.31 and 2.32) and the Sub-purchasing Offer.

In the final allocation round, if, as a result of rounding, there is a balance of unallocated Additional New Ordinary Shares, such balance will be allocated to the Unallocated Subscribing Noteholders in descending order starting with the Unallocated Subscribing Noteholder with the highest Allocation Ratio.

Modified Scheme Purchasers and the Modified Scheme Purchase Agreement

- 2.31 On 4 November 1 December 2013 the Company entered into an agreement (the Modified Scheme Purchase Agreement) with certain Noteholders (the Modified Scheme Purchasers) pursuant to which the Modified Scheme Purchasers agreed to back-stop the purchase of the Additional New Ordinary Shares Offer (as described in more detail in paragraph 20.9 titled "Purchase Agreement" in section 20 (Additional Information) of the Bank T2 Notes Prospectus at pages 462 to 464). The terms of the Modified Scheme Purchase Agreement provide that the Modified Scheme Purchasers will subscribe for any Additional New Ordinary Shares that are either (i) unallocated or (ii) not taken up under the Additional New Ordinary Shares Offer because a Subscribing Noteholder or, if applicable, a Sub-purchaser, fails to fund the Subscription Escrow Account with the required amount by the deadline described in paragraph 2.28 above.
- 2.32 The Modified Scheme Purchasers will, in aggregate, be entitled to a purchase premium of £5,000,000 (being an amount equal to 4 per cent. of the aggregate subscription price for the total amount of the Additional New Ordinary Shares) less any Sub-purchaser Premiums paid to the Sub-purchasers in accordance with the terms of the Sub-purchasing Offer (as described in more detail in paragraphs 2.33 to 2.44 below) (the Modified Scheme Purchaser Premium). A Modified Scheme Purchaser's share of the Modified Scheme Purchaser Premium shall not become payable unless that Modified Scheme Purchaser has performed all of its obligations under the Modified Scheme Purchase Agreement.

Sub-purchasers

Overview

- 2.33 Any Noteholder is entitled to participate in a sub-purchasing of the agreement by the Modified Scheme Purchasers to back-stop the purchase of Additional New Ordinary Shares as set out in the Modified Scheme Purchase Agreement (the Sub-purchasing Offer and each such Noteholder, a Sub-purchaser). The Sub-purchasing Offer will be available to all Noteholders who wish to participate (not only a Subscribing Noteholder), including the Modified Scheme Purchasers (provided that the Modified Scheme Purchasers are Noteholders at the time the relevant election is made and on the Record Date).
- A Noteholder wishing to elect to participate in the Sub-purchasing Offer will be entitled to elect to nominate a commitment under the Sub-purchasing Offer to back-stop the purchase of between (and including) 50,000 26,667 and 62,500,000 33,333,334 Additional New Ordinary Shares.
- 2.35 Any Noteholder wishing to participate in the Sub-purchasing Offer should instruct its Account Holder to make the appropriate elections in the Account Holder Letter delivered on its behalf, as described in Summary of actions to be taken by Scheme Creditors and any Person with an Interest in the Dated Notes at pages 21 to 27 above and Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes).

2.36 In order for a Noteholder to participate in the Sub-purchasing Offer, a valid Account Holder Letter in respect of that Noteholder must be delivered to and received by the Information Agent before the Voting Instruction Deadline. The Account Holder Letter must include (i) the maximum commitment that Noteholder is prepared to sub-purchase on a several basis in accordance with the terms of the Sub-purchasing Offer and (ii) confirmation that the Noteholder is an Eligible Person or, if that Noteholder has appointed a Designated Recipient, the Designated Recipient is an Eligible Person. The delivery and receipt of a valid Account Holder Letter will constitute an irrevocable offer by the relevant Noteholder to subscribe for up to the maximum commitment elected, the acceptance of which will be effected and evidenced by notification of the Sub-purchasing Commitment (as defined in paragraph 2.38 below) by the Company to the relevant Sub-purchaser.

Sub-purchaser

2.37 Any Noteholder which complies with the above requirements will become a Sub-purchaser and will be obliged to subscribe for Additional New Ordinary Shares in the circumstances and in accordance with the terms set out below.

Allocation of Sub-purchasing Commitments among Sub-purchasers

- 2.38 The methodology for allocating commitments among Sub-purchasers (the **Sub-purchasing Commitments**) will depend on the aggregate amount of Sub-purchasing Commitments nominated by all Sub-purchasers.
- 2.39 If the aggregate amount of Sub-purchasing Commitments nominated by all Sub-purchasers is less than 62,500,000-33,333,334 Additional New Ordinary Shares, the Sub-purchasing Commitment of a Sub-purchaser will be equal to that Sub-purchaser's maximum nominated commitment.
- 2.40 If the aggregate amount of the Sub-purchasing Commitments nominated by all Sub-purchasers is greater than 62,500,000-33,333,334 Additional New Ordinary Shares, the allocation of Sub-purchasing Commitment to a Sub-purchaser will be *pro rata* based on the proportion of its Scheme Consideration Calculation Amount to the aggregate Scheme Consideration Calculation Amount of all Noteholders who have elected to participate in the Sub-purchasing Offer subject to:
 - (a) a minimum Sub-purchasing Commitment of <u>50,000-26,667</u> Additional New Ordinary Shares; and
 - (b) a maximum Sub-purchasing Commitment equal to the maximum commitment elected for by that Noteholder,

provided always that the aggregate amount of all Sub-purchasing Commitments allocated to all the Sub-purchasers is no greater than 62,500,00-33,333,334 Additional New Ordinary Shares. In this regard, the allocation procedure for allocating Sub-purchasing Commitments will be substantially similar to the allocation procedure for the Additional New Ordinary Share Offer described in paragraphs 2.22 to 2.30 above save for references to 'Subscribing Noteholders' should be read as 'Sub-purchasers'.

2.41 To the extent that the number of Additional New Ordinary Shares subscribed for by the Subscribing Noteholders is less than 62,500,000-33,333,334 (such difference being the Subpurchasing Shares), the number of Sub-purchasing Shares allocated to a Sub-purchaser will be equal to that Sub-purchaser's *pro-rata* share of the Sub-purchasing Shares based on the proportion that its Sub-purchasing Commitment bears to the aggregate Sub-purchasing Commitments of all Sub-purchasers but provided that the amount to be so allocated to a Sub-purchaser will be subject to a minimum of 50,000 Additional New Ordinary Shares.26,667 Additional New Ordinary Shares and provided that, if the aggregate minimum allocations exceeds the aggregate number of Sub-purchasing Shares, the obligation to subscribe for Sub-purchasing Shares will be allocated to Sub-purchasers in the order that their Account Holder Letters were received by the Information

Agent (Account Holder Letters will be date and time stamped upon receipt by the Information Agent for this purpose).

- 2.42 On the date of the Scheme Meeting (or on the immediately following Business Day):
 - (a) the Company will undertake the calculation of allocations of commitment to Subpurchasers in accordance with the terms of the Sub-purchasing Offer; and
 - (b) the Company (or the Information Agent on behalf of the Company) will notify each Subpurchaser of:
 - (i) its allocated Sub-purchasing Commitment;
 - (ii) the amount, if any, by which the number of Additional New Ordinary Shares subscribed for by Subscribing Noteholders in the Additional New Ordinary Shares Offer is less than 62,500,00033,333,334; and
 - (iii) the number of Additional New Ordinary Shares (if any) allocated to that Subpurchaser in accordance with the terms of the Sub-purchasing Offer, the aggregate subscription price for such number of Additional New Ordinary Shares (the **Sub-purchase Amount**) and details of the Subscription Escrow Account into which the Sub-purchase Amount must be deposited.
- 2.43 If a Sub-purchaser fails to deposit an amount in cleared funds equal to the Sub-purchase Amount in the Subscription Escrow Account by no later than 4.30pm London time on the date falling two Business Days after the date of the Scheme Meeting in accordance with the terms of the Sub-purchasing Offer as set out above, the entitlement of that Sub-purchaser to the relevant Additional New Ordinary Shares on the date of the Scheme Settlement Date and to any Sub-purchaser Premium to which that Sub-purchaser would otherwise have been entitled (in respect of its entire Sub-purchasing Commitment) as described below will lapse and the Modified Scheme Purchasers will be required to subscribe for those Additional New Ordinary Shares in accordance with the terms of the Modified Scheme Purchase Agreement.
- 2.44 Each Sub-purchaser will be entitled to receive a purchase premium equal to 2 per cent. of its Sub-purchasing Commitment (the **Sub-purchaser Premium**), provided that it has performed all of its obligations in relation to the Sub-purchasing Offer including any requirement to fund the Subscription Escrow Account in accordance with any notice received by it as described in 2.42(b)(iii) above.

Subscription Escrow Account

- 2.45 The Subscription Escrow Account will be an interest bearing sterling cash account with the Subscription Escrow Bank in the name of Lucid Issuer Services Limited. Monies credited to the Subscription Escrow Account will be held to the order of all Subscribing Noteholders, Subpurchasers and Modified Scheme Purchasers who fund into the Subscription Escrow Account in accordance with the terms of the Additional New Ordinary Shares Offer, the Sub-purchasing Offer and the Purchase Agreement, the Sub-purchasing Offer and the Modified Scheme Purchase Agreement, as the case may be.
- 2.46 The monies standing to the credit of the Subscription Escrow Account will be held on trust for the Subscribers on terms that they will be paid to the Company on the satisfaction of the Scheme Settlement Condition. In the event that the Scheme Settlement Condition is not satisfied on the Scheme Settlement Condition Testing Date or the Scheme Settlement Date does not occur by the Longstop Date, all monies deposited with the Subscription Escrow Bank will be returned to the Subscriber who provided it together with any accrued interest thereon.

Key Elements of the Scheme

- 2.47 The key elements of the Scheme are as follows:
 - (a) Following the making by the Court of an order sanctioning the Scheme, a copy of the order will be delivered to the Registrar of Companies. The date of delivery of the order to the Registrar of Companies is the Scheme Effective Date.
 - (b) On the Scheme Effective Date:
 - (i) the Scheme Creditors will:
 - (A) direct each of the Trustees to execute and do, and to instruct any other person which it is entitled to instruct to execute and do, or otherwise procure to be executed and done, all documents, acts or things as may be necessary or desirable to be executed or done by it or such other person for the purposes of giving effect to the terms of the Scheme;
 - (B) authorise the Company to execute and do, and to instruct any other person which it is entitled to instruct to execute and do, or otherwise procure to be executed and done, all documents (including, without limitation, the New Transaction Documents), acts or things as may be necessary or desirable to be executed or done by it or such other person for the purposes of giving effect to the terms of the Scheme; and
 - (C) request and to the extent they are entitled to do so instruct the Company to perform each of its obligations arising under the Scheme and each New Transaction Document; and
 - (ii) if the Company reasonably considers it necessary or desirable to execute any document or documents to give effect to the terms of the Scheme on behalf of any of the Scheme Creditors on any day from (and including) the Scheme Effective Date, the Company may execute such document or documents on behalf of the relevant Scheme Creditor pursuant to the authority granted under the Scheme.
 - (c) On the Scheme Effective Date, or as soon as reasonably practicable thereafter, the Company for itself and on behalf of each Scheme Creditor pursuant to the authority granted under the Scheme and described in paragraph 2.5 above, the Holding Period Trustee, the Information Agent and the Selling Agent shall execute the Distribution Agreement and perform their obligations thereunder.
 - (d) On the Scheme Settlement Date, the following steps will happen and those steps will take effect in the order set out below:
 - (i) the Company for itself and/or on behalf of each relevant Scheme Creditor pursuant to the authority granted under the Scheme shall issue the directions described in paragraph 2.5(a) above and execute any document in connection with the transfer and cancellation of the Dated Notes in accordance with the terms of the Scheme;
 - (ii) the Company shall procure the transfer and cancellation of the Dated Notes in accordance with the terms of the Scheme;
 - (iii) the Company shall issue the Scheme Consideration in accordance with the terms of the Scheme;

- (iv) the Company shall issue the Additional New Ordinary Shares in accordance with the terms of the Scheme;
- (v) the Company shall pay the Sub-purchaser Premium and the <u>Modified Scheme</u> Purchaser Premium in accordance with the terms of the Scheme; and
- (vi) the Company shall execute the Deed of Waiver and Release on behalf of each Scheme Creditor pursuant to the authority granted under the Scheme.
- (e) On and from the Scheme Settlement Date (but subject to the other provisions of the Scheme), each Scheme Creditor will be entitled to the rights and benefits accruing to that Scheme Creditor under the Scheme and each of the New Transaction Documents (to the extent they are a party) and all of the existing rights and benefits of the Scheme Creditors in respect of the Scheme Claims shall be subject and limited to the compromises and arrangements provided by the Scheme, including without limitation the transfer and cancellation of the Dated Notes on the Scheme Settlement Date, the issuance of the Scheme Consideration and the Additional New Ordinary Shares and the releases and waivers under the Deed of Waiver and Release as described in this Part B (Overview of the Scheme).
- (f) As described in paragraph 1.37 above, if the Scheme Settlement Date does not occur on or before the Longstop Date, the Scheme shall lapse and the transfer and cancellation of the Dated Notes, the payment or issuance of the Scheme Consideration and the issuance of the Additional Ordinary Shares as contemplated in the Scheme will not occur and the Scheme and the Liability Management Exercise will not be implemented
- In order to receive any Scheme Consideration and, if applicable, Additional New (g) Ordinary Shares to which it is entitled in accordance with the terms of the Scheme on the Scheme Settlement Date, each Noteholder is required to comply with certain procedures described in Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes). Failure by a Noteholder to comply with such procedures before the relevant deadlines will mean that any entitlement of that Noteholder to Additional New Ordinary Shares will lapse in accordance with the terms of the Additional New Ordinary Shares Offer and the Scheme Consideration to which it is entitled in accordance with the terms of the Scheme will be delivered to the Holding Period Trustee on the Scheme Settlement Date in accordance with the arrangements described in Section 3 of Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes) and the description of the Distribution Agreement in paragraphs 3.5 to 3.18 below. Any such Noteholder will be required to take certain additional steps described in Appendix 2 (Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes) in order to receive such Scheme Consideration following the Scheme Settlement Date.

3. MECHANICAL SCHEME DOCUMENTS

3.1 The mechanics of the Scheme described in paragraph 2 above refer to certain documents which are described below.

Directions to the Clearing Systems

- 3.2 On the Scheme Settlement Date, the Company will issue directions for itself and/or on behalf of each Scheme Creditor pursuant to the authority granted under the Scheme to each relevant Clearing System in accordance with the rules and procedures of that Clearing System to:
 - (a) debit from the custody account of each Account Holder all the interests in the Dated Notes held by that Account Holder; and

- (b) credit to the Company Custody Account the interests in the Dated Notes debited pursuant to subparagraph (a) above.
- 3.3 Following the transfer of the interests in the Dated Notes to the Company Custody Account as described above, the Company shall procure the cancellation of the Dated Notes.
- 3.4 If necessary, the Company shall execute any document required in connection with the transfer and cancellation of the Dated Notes on behalf of each relevant Scheme Creditor pursuant to the authority granted under the Scheme.

Distribution Agreement

- 3.5 On the Scheme Effective Date, or as soon as reasonably practicable thereafter, the Company, the Holding Period Trustee, the Scheme Creditors, the Selling Agent and the Information Agent will execute the Distribution Agreement. As described in more detail in Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*) and the Distribution Agreement, the role of the Holding Period Trustee will be to hold Scheme Consideration on behalf of (i) Ineligible Noteholders on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline and (ii) Unadmitted Noteholders.
- 3.6 The Holding Period Trustee will hold Scheme Consideration on behalf of each Ineligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the Voting Instruction Deadline in accordance with the terms of the Scheme and the Distribution Agreement. By no later than 10 Business Days following receipt of the completed Account Holder Letter (provided that the Information Agent shall be under no obligation to deliver a Sale Instruction Certificate to the Holding Period Trustee prior to the Scheme Settlement Date), the Information Agent shall deliver a Sale Instruction Certificate to the Holding Period Trustee and, as soon as reasonably practicable following receipt thereof, the Holding Period Trustee shall instruct the Selling Agent to sell such Scheme Consideration in accordance with the terms of the Distribution Agreement.
- 3.7 Any sale of Scheme Consideration shall be effected in accordance with the terms of the Distribution Agreement. The Distribution Agreement provides that any such sale shall be effected upon the best terms available in the market at the time of the sale and none of the Holding Period Trustee, the Selling Agent, the Company, the Information Agent, the Bank T2 Notes Registrar, the New Ordinary Shares Registrar or any other person shall be responsible for any loss or alleged loss arising from the price, terms, manner or timing of any such sale or the failure to procure any purchaser for any of the New Ordinary Shares and/or Bank T2 Notes. The Distribution Agreement also provides that, without prejudice to the ability of the Holding Period Trustee to do so, the Holding Period Trustee shall be under no obligation to sell any New Ordinary Shares or distribute any interest, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee during the Holding Period in respect of such New Ordinary Shares until admission of the New Ordinary Shares to the Official List of the United Kingdom Listing Authority and admission to trading on the London Stock Exchange's market for listed securities.
- 3.8 As soon as reasonably practicable after the sale of any Scheme Consideration (or any part thereof) to which an Ineligible Noteholder is entitled in accordance with the terms of the Scheme, the Holding Period Trustee shall distribute:
 - (a) the proceeds of such sale (after deduction of any applicable expenses); and
 - (b) any interest, dividends, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee during the Holding Period prior to such sale in respect of such Scheme Consideration,

- (in each case net of any applicable taxes (including, without limitation, any withholding taxes)) to that Ineligible Noteholder.
- 3.9 The Holding Period Trustee will hold Scheme Consideration on behalf of each Unadmitted Noteholder during the Holding Period. The Holding Period will commence on the Scheme Settlement Date and end on the day that is three years after the Scheme Settlement Date.
- 3.10 An Unadmitted Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which includes a confirmation that such Noteholder (or, if such Noteholder has appointed a Designated Recipient, its Designated Recipient) is an Eligible Person will be an Eligible Noteholder for the purposes of the Scheme.
- 3.11 As soon as reasonably practicable following the date on which the Information Agent delivers a Distribution Instruction Certificate relating to any such Eligible Noteholder to the Holding Period Trustee (which, in accordance with the terms of the Distribution Agreement must be no later than 10 Business Days following the date on which the valid Account Holder Letter delivered in respect of any such Eligible Noteholder has been delivered to and received by the Information Agent (provided that the Information Agent shall be under no obligation to deliver an Instruction Certificate to the Holding Period Trustee prior to the Scheme Settlement Date)), the Holding Period Trustee shall deliver the Scheme Consideration to which that Eligible Noteholder is entitled in accordance with the terms of the Scheme (including any interest, dividends, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee in respect of such Scheme Consideration, in each case net of any applicable taxes (including, without limitation, any withholding taxes but excluding any stamp duty and/or stamp duty reserve tax payable upon the issue and/or allotment of New Ordinary Shares and Bank T2 Notes to that Eligible Noteholder which the Company will covenant to pay on behalf of that Eligible Noteholder under the terms of the Distribution Agreement)) to that Eligible Noteholder (or, to the extent applicable, its Designated Recipient).
- 3.12 An Unadmitted Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which includes a confirmation that such Noteholder is not an Eligible Person and has not appointed a Designated Recipient will be an Ineligible Noteholder for the purposes of the Scheme.
- 3.13 As soon as reasonably practicable following the date on which the Information Agent delivers a Sale Instruction Certificate relating to any such Ineligible Noteholder to the Holding Period Trustee (which, in accordance with the terms of the Distribution Agreement must be no later than 10 Business Days following the date on which the Account Holder Letter delivered in respect of that Ineligible Noteholder has been delivered to and received by the Information Agent (provided that the Information Agent shall be under no obligation to deliver an Instruction Certificate to the Holding Period Trustee prior to the Scheme Settlement Date)), the Holding Period Trustee shall instruct the Selling Agent to sell the Scheme Consideration to which that Ineligible Noteholder is entitled in accordance with the terms of the Distribution Agreement, as described in paragraph 3.8 above.
- 3.14 If, at the end of the Holding Period, the Holding Period Trustee is holding any Scheme Consideration on behalf of any Unadmitted Noteholders, the Holding Period Trustee shall instruct the Selling Agent to sell all such Scheme Consideration in accordance with the terms of the Distribution Agreement.
- 3.15 Following the sale of any such Scheme Consideration (or any part thereof), the Holding Period Trustee shall distribute:
 - (a) the proceeds of such sale (after deduction of any applicable expenses); and

(b) any interest, dividends, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee in respect of such Scheme Consideration,

(in each case net of any applicable taxes (including, without limitation, any withholding taxes)) to the Company in accordance with the terms of the Distribution Agreement and the Scheme.

- 3.16 If, having used reasonable efforts to sell the Scheme Consideration which the Holding Period Trustee is holding at the end of the Holding Period within three months of the end of the Holding Period and having consulted with the Company, the Holding Period Trustee (or the Selling Agent on behalf of the Holding Period Trustee) has been unable to sell any such Scheme Consideration, the Holding Period Trustee shall be entitled to transfer such Scheme Consideration by way of gift to Carers Trust (registered charity number 1145181) or to any other registered charity selected by the Company in writing for this purpose.
- 3.17 The Holding Period Trustee will undertake not to exercise any voting, conversion or other rights attaching to any Scheme Consideration which it is holding on behalf of any Noteholders.
- 3.18 The form of the Distribution Agreement is scheduled to the Scheme at schedule 2.

New Transaction Documents

3.19 In connection with the issuance of the Scheme Consideration, various transaction documents related to the Scheme Consideration including, without limitation, the New Transaction Documents will be entered into by the Company, and various administrative parties (including, without limitation, the New Administrative Parties). As set out on page 419 of the Bank T2 Notes Prospectus, copies of the New Transaction Documents are available for inspection at the registered office of the Company for a period of 12 months from the date of the Bank T2 Notes Prospectus.

4. DEED OF WAIVER AND RELEASE

- 4.1 The Deed of Waiver and Release is a deed pursuant to which the Scheme Creditors:
 - (a) waive, release and discharge fully and absolutely, to the fullest extent permitted by law, all Liabilities of the Released Parties to the Scheme Creditors in relation to or in connection with or in any way arising out of the Dated Notes and/or the preparation, negotiation or implementation of the Scheme, the Liability Management Exercise and/or the recapitalisation of the Company; and
 - (b) waive, to the fullest extent permitted by law, each and every claim which the Scheme Creditors (or any person to whom a Scheme Creditor may have transferred its Scheme Claim after the Record Date) may have in relation to or in connection with or in any way arising out of the Dated Notes and/or the preparation, negotiation or implementation of the Scheme, or the Liability Management Exercise and/or the recapitalisation of the Company against the Released Parties.
- 4.2 Each release, waiver and discharge described above does not extend to:
 - (a) any Liability of any Adviser Released Party arising under a duty of care to its client or to another person where such duty has been specifically and expressly accepted or acknowledged in writing by the Adviser Released Party;
 - (b) any Liability arising or resulting from gross negligence, wilful default or fraud;
 - (c) any Liability in any Lock-Up Arrangement; or

(d) any Liability of the Company to the Trustees in relation to or in connection with or in any way arising out of the Dated Notes, save to the extent such Liability comprises a Scheme Claim.

In addition, nothing in the Deed of Waiver and Release releases, waives or discharges any Liability of any person under the New Transaction Documents or the Restructuring Documents.

4.3 The form of the Deed of Waiver and Release is scheduled to the Scheme at schedule 1 and the forms of the Restructuring Documents were published on the Scheme Website on or around 4 November 2013.

5. THIRD PARTY INVOLVEMENT

- As set out above, the Scheme will require certain third parties (referred to as the Undertaking Transaction Parties) to perform actions in accordance with the terms of the Scheme.
- 5.2 The Undertaking Transaction Parties have each:
 - (a) agreed, or are expected to agree prior to the Scheme Sanction Hearing, to appear by counsel on the petition to sanction the Scheme and to undertake to the Court; and/or
 - (b) executed, or are expected to execute prior to the Scheme Sanction Hearing, a deed of undertaking in favour of the Court and the Company pursuant to which they undertake and agree:

amongst other matters, to perform those actions which they are required to perform in accordance with the terms of the Scheme and, where necessary, be bound by the terms of the Scheme as sanctioned by the Court.

5.3 The undertakings granted or to be granted by each of the Undertaking Transaction Parties differ slightly in order to reflect their differing roles in the implementation of the Scheme.

6. DIRECTOR NOMINATIONS

- Although not a term of the Scheme, pursuant to the terms of the Relationship Agreement, the terms of which are described in pages 455 to 457 of the Bank T2 Notes Prospectus, the Company has agreed to procure the appointment of up to two directors of the Company to be nominated by the Modified Scheme Purchasers subject to the approval of such nominations by the Noteholders by a separate vote to take place immediately following the vote in respect of the Scheme at the Scheme Meeting.
- The Modified Scheme Purchasers may identify in writing to the Company, no later than 7 Business Days prior to the Scheme Meeting, up to two persons to be nominated as directors of the Company (the Nominated Directors) at a vote of all the Noteholders. The written notice identifying the Nominated Directors will contain reasonable details of the identity (including name, occupation, residential address and date of birth), credentials and experience of each Nominated Director. The Company has agreed to notify the Noteholders of the nominations at least 2 Business Days thereafter by the issue of an announcement through the Clearing Systems and on the Scheme Website at http://www.co-operative.coop/Bondholders and will propose each nomination (if any) to a separate resolution of the Noteholders. The notice sent by the Company to the Noteholders will be in the form set out in Appendix 5 (Notice of Director Nomination Resolution) of this Explanatory Statement and will include the information about the nominees provided by the Modified Scheme Purchaser.
- 6.3 Provided that a nomination is approved by a majority in number representing at least 75 per cent. in value of the Noteholders present and voting in person or by proxy at the Scheme Meeting, the Company agrees to procure the appointment of the relevant Nominated Director who has been

approved as soon as reasonably practicable following the Scheme Meeting (subject to the completion of certain procedural requirements). The vote on each of these separate resolutions (if any) will take place at the Scheme Meeting following and independently of the vote in respect of the Scheme.

- 6.4 The Scheme may be approved by the requisite majorities of Scheme Creditors at the Scheme Meeting and be sanctioned by the Court at the Scheme Sanction Hearing and become effective in accordance with its terms, irrespective of whether either resolution to appoint the Nominated Directors is passed.
- In the event that the Noteholders approve the appointment of one or more of the Nominated Directors, the appointment(s) will take effect only if:
 - (a) the Company has obtained such regulatory approvals required for the appointment of each such Nominated Director as a director of the Company including receipt of approval from the PRA for that Nominated Director to perform controlled functions at the Company under the approved persons regime; and
 - (b) each such Nominated Director has executed and delivered to the Company a letter of appointment in a form satisfactory to the Company (acting reasonably and having regard, amongst other things, to the terms of any letters of appointment executed by other directors of the Company),

except that, if conditions (a) and (b) are not satisfied within four months of the satisfaction of the conditions to the occurrence of the Scheme Settlement Date in the Scheme (as described in paragraph 1.33 above), the Company shall not be required to take further steps to appoint any Nominated Director.

PART C

OVERVIEW OF THE LIABILITY MANAGEMENT EXERCISE

Details of the Liability Management Exercise to the extent it relates to the 13% Bonds, 5.5555% Bonds and Preference Shares are included below to provide background information to Scheme Creditors. 13% Bondholders, 5.5555% Bondholders and/or Preference Shareholders are referred to the Offer Memorandum and the documents to which they are referred therein.

1. THE LIABILITY MANAGEMENT EXERCISE

1.1 Existing Securities

- (a) The Liability Management Exercise is being conducted in respect of the Dated Notes and the securities listed below:
 - (i) The Preference Shares (ISIN: GB0002224516)
 - (ii) The 13% Bonds* (ISIN: GB00B3VH4201)
 - (iii) The 5.5555% Bonds* (ISIN: GB00B3VMBW45) (the 5.5555% Bonds together with the 13% Bonds, the **Perpetual Subordinated Bonds**)

(together with the Dated Notes, the **Existing Securities**):

- * Issued by the Company in replacement of Britannia Building Society permanent interest bearing shares upon the Company's acquisition of Britannia Building Society on 1 August 2009
- ** Originally issued by Britannia Building Society and assumed by the Company upon the Company's acquisition of Britannia Building Society on 1 August 2009.

1.2 Component parts of the Liability Management Exercise

- (a) The Preference Shareholders, 13% Bondholders, 5.5555% Bondholders and the Noteholders are being invited, subject to applicable securities laws, to participate in the Liability Management Exercise in the following manner:
 - (i) Eligible Preference Shareholders and Eligible 13% Bondholders are being invited to either:
 - (A) offer to exchange their Preference Shares and 13% Bonds for new 11 per cent. Final Repayment Subordinated Notes due 2025 (the **Final Repayment Notes**) to be issued by Co-operative Group and guaranteed (on a subordinated basis) by certain subsidiaries of Co-operative Group; or
 - (B) offer to sell their Preference Shares and 13% Bonds to Co-operative Group and receive cash consideration payable in twelve equal instalments over twelve years (up to and including 2025) and represented by new Instalment Repayment Subordinated Notes (the **Instalment Repayment Notes** and, together with the Final Repayment Notes, the **Group Notes**) to be issued by Co-operative Group and guaranteed (on a subordinated basis) by certain subsidiaries of Co-operative Group;
 - (ii) Eligible 5.5555% Bondholders are being invited to offer to exchange their 5.5555% Bonds for the Exchange Offer Bank T2 Notes to be issued by the Company; and
 - (iii) the Noteholders are being invited to vote on the Scheme, the terms of which are described in more detail in Part B (*Overview of the Scheme*), to authorise the Company to exchange

all the Dated Notes for a combination of the Bank T2 Notes and New Ordinary Shares to be issued by the Company. The Scheme will also provide that Noteholders may elect to subscribe for Additional New Ordinary Shares in accordance with and subject to the terms of the Additional New Ordinary Shares Offer.

- (b) The offers in respect of the Preference Shares and the Perpetual Subordinated Bonds are being conducted by way of exchange offers (the **Exchange Offers**).
- (c) In addition, the Company is convening meetings of the Preference Shareholders, 13% Bondholders and 5.5555% Bondholders, respectively, to vote on resolutions which, if passed, will (amongst other things) (i) enable the Company to mandatorily effect the exchange or sale to Co-operative Group of those Preference Shares, 13% Bonds and 5.5555% Bonds (as applicable), which are not exchanged or sold to Co-operative Group (as the case may be) pursuant to the Exchange Offers, on the same economic terms as those upon which Preference Shares, 13% Bonds and 5.5555% Bonds, respectively, are exchanged or sold pursuant to the Exchange Offers (the **Proposals** and each a **Proposal**) and (ii) result in the Holders agreeing to certain waivers and releases in favour of the Company, Co-operative Group, their respective directors and certain other persons.
- (d) The Exchange Offers, the Proposals and the Scheme are collectively referred to as the **Liability Management Exercise**.

1.3 Conditionality

- (a) The Liability Management Exercise will only be successfully completed if the entire principal amount of all Existing Securities is exchanged or sold pursuant to the Liability Management Exercise. The last date on which the Liability Management Exercise may successfully complete is 31 December 2013.
- (b) In order for the entire principal amount of all Existing Securities to be exchanged or sold pursuant to the Liability Management Exercise (i) each of the Proposals in respect of the Preference Shares, 13% Bonds and 5.5555% Bonds must be approved by the Preference Shareholders, 13% Bondholders and 5.5555% Bondholders at meetings convened for the purposes of voting on such Proposals and the Proposals must be capable of being implemented in accordance with their terms (and, in the case of the Preference Shares, a resolution in similar terms must also be approved at a general meeting of the shareholders of the Company) and (ii) the Scheme Effective Date must have occurred and the conditions to the occurrence of the Scheme Settlement Date described in paragraphs 1.33 to 1.34 of Part B (*Overview of the Scheme*) must have been satisfied (together referred to as the **Settlement Condition**).
- (c) Successful completion of the Liability Management Exercise is conditional upon satisfaction of the Settlement Condition. **The Settlement Condition is not capable of being waived.** Accordingly, if the Settlement Condition is not satisfied, the Liability Management Exercise will not be implemented, and no Existing Securities will be exchanged or sold pursuant to the Liability Management Exercise.

1.4 Early Participation Incentive

(a) If the Early Participation Threshold is achieved by 4.30 p.m. (London time) on 29 November 2013 (the **Early Participation Deadline**), the amount of consideration which all Preference Shareholders, 13% Bondholders and 5.5555% Bondholders will be eligible to receive upon the exchange or sale of their Preference Shares, 13% Bonds and 5.5555% Bonds in the Liability Management Exercise (if the Liability Management Exercise is successfully completed) will be higher than if the Early Participation Threshold is not achieved by the Early Participation Deadline.

- (b) The Early Participation Threshold will be achieved by the Early Participation Deadline only if, by that time, at least 75 per cent. of the aggregate nominal amount outstanding of each of the Preference Shares, the 13% Bonds and the 5.5555% Bonds has been validly offered for exchange or sale and/or otherwise validly voted in favour of the Proposals (and not revoked).
- (c) The number of the New Ordinary Shares and principal amount of the Bank T2 Notes which a Noteholder will be entitled to receive as Scheme Consideration on the basis of its Scheme Consideration Calculation Amount in accordance with the terms of the Scheme will be the same irrespective of whether or not the Early Participation Threshold is achieved by the Early Participation Deadline.

1.5 Offer restrictions

The Exchange Offers are subject to certain offer restrictions, and applicable securities laws as discussed in the Offer Memorandum.

1.6 Further details

The separate offers in respect of the Preference Shares, the 13% Bonds and the 5.5555% Bonds are summarised briefly below, but these descriptions are subject to the more detailed offer terms and conditions which are set out in the Offer Memorandum and the Bank T2 Notes Prospectus.

2. SUMMARY OFFERING TABLES

2.1 Preference Shares and 13% Bonds

The following table summarises the consideration that Preference Shareholders and 13% Bondholders will be eligible to receive if their Preference Shares and 13% Bonds (as applicable) are exchanged or sold pursuant to the Liability Management Exercise:

Offers in respect of the Preference Shares and the 13% Bonds

Existing Securities	ISIN	Early Consideration Amount ¹ (per £1,000 nominal of Existing Securities)			Late Consideration Amount ¹ (per £1,000 nominal of Existing Securities)			
		Final Repayment Notes ²	OR ⁴	Instalment Repayment Notes ³	Final Repaymen t Notes ²	OR ⁴	Instalment Repayment Notes ³	
Preference Shares ⁵	GB0002224516	£601		£1,110	£551		£1,060	
13% Bonds	GB00B3VH4201	£844		£1,560	£794		£1,510	

Notes:

- If the Early Participation Threshold is achieved by the Early Participation Deadline (4.30 p.m. (London time) on 29 November 2013) and the Liability Management Exercise successfully completes, all Preference Shares and 13% Bonds will be exchanged or sold at the Early Consideration Amount. If the Early Participation Threshold is not achieved by the Early Participation Deadline and the Liability Management Exercise successfully completes, all Preference Shares and 13% Bonds will be exchanged or sold at the Late Consideration Amount.
- 2 New sterling-denominated 11 per cent. Final Repayment Notes due 2025 (ISIN: GB00BFXW0630) to be issued by Co-operative Group and guaranteed (on a subordinated basis) by certain subsidiaries of Co-operative Group.
- 3 New sterling-denominated Instalment Repayment Notes (ISIN: GB00BFXWHQ29) (having their last instalment payment date in 2025) to be issued by Co-operative Group and guaranteed (on a subordinated basis) by certain subsidiaries of Co-operative Group. The Instalment Repayment Notes represent the instalments of consideration to be received by Holders whose Preference Shares or 13% Bonds are sold to Co-operative Group in the Liability Management Exercise.
- 4 The amounts of Final Repayment Notes and Instalment Repayment Notes specified in the table above are alternative options. A Holder will not receive both of these amounts. Holders will be able to elect (in accordance with the procedures set out in this document) either the Final Repayment Notes option or the Instalment Repayment Notes option only.
- 5 The Early Consideration Amount and Late Consideration Amount for the Preference Shares are presented in this table on a "per £1,000 in nominal amount" basis for ease of comparison with the 13% Bonds. Preference Shares can be offered for exchange or sale in any whole multiple of £1 (subject to a minimum of £2 if a holder elects the Final Repayment Notes option (which is the minimum amount required, based on the Late Consideration Amount, in order to receive the minimum denomination of Final Repayment Notes, being £1). There is no minimum offer amount if a Holder elects the Instalment Repayment Notes option).

2.2 5.5555% Bonds

The following table summarises the consideration that 5.5555% Bondholders will be eligible to receive if their 5.5555% Bonds are exchanged pursuant to the Liability Management Exercise:

Offer in respect of the 5.5555% Bonds

Existing Securities	ISIN	Early Consideration Amount ¹ (per £1,000 nominal of Existing Securities)				Late Consideration Amount ¹ (per £1,000 nominal of Existing Securities)			
		Exchange Notes2	Offer	Bank	Т2	Exchange Notes2	Offer	Bank	T2
5.5555% Bonds	GB00B3VMBW45		£530				£480		

Notes:

2.3 Dated Notes

The following table summarises the Scheme Consideration that Noteholders will be eligible to receive pursuant to the terms of the Scheme:

Scheme in respect of the Dated Notes

Existing Securities	ISIN	Considerati (per £1,000 of Sch Calculation	New Ordinary Shares			
	Bank T2 Notes ² New Ordinar Shares ³		New Ordinary Shares ³	Conversion Price ⁵		
2016 Notes	XS0254625998	£102.63£102.57	£897.37£897.43			
2019 Notes	XS0189539942	£102.63£102.57	£897.37£897.43			
April 2021 Notes	XS0620315902	£102.63£102.57	£897.37£897.43			
November 2021 Notes	XS0274155984	£102.63£102.57	£897.37£897.43	£ 7.7718276 6.17566631 per share		
2022 Notes	XS0864253868	£102.63£102.57	£897.37£897.43			
2024 Notes	XS0188218183	£102.63£102.57	£897.37£897.43			
2033 Notes	XS0145065602	£102.63£102.57	£897.37£897.43			

¹ If the Early Participation Threshold is achieved by the Early Participation Deadline (4.30 p.m. (London time) on 29 November 2013) and the Liability Management Exercise successfully completes, all 5.5555% Bonds will be exchanged at the Early Consideration Amount. If the Early Participation Threshold is not achieved by the Early Participation Deadline and the Liability Management Exercise successfully completes, all 5.5555% Bonds will be exchanged at the Late Consideration Amount.

² New sterling-denominated 11 per cent. Subordinated Notes due 2023 (ISIN: GB00BFXW0853) to be issued by the Company.

Notes:

- 1 The number of New Ordinary Shares and principal amount of Bank T2 Notes which a Noteholder will be eligible to receive in respect of its Scheme Consideration Calculation Amount will be the same irrespective of whether or not the Early Participation Threshold is achieved by the Early Participation Deadline.
- 2 New sterling-denominated 11 per cent. Subordinated Notes due 2023 (ISIN: GB00BFXW0853) to be issued by the Company.
- 3 New Ordinary Shares to be issued by the Company. If the Liability Management Exercise is successfully completed, Cooperative Group's existing equity stake in the Company will be converted into deferred shares and effectively reduced to nil and a total of 250,000,000 ordinary shares in the Company will be issued at that time, of which:
 - (i) 75,000,000 (representing 30 per cent. of the total) will be issued to Co-operative Group in consideration for its fresh injection of capital into the Company through the Liability Management Exercise and the 2014 Commitment (representing an effective subscription price of £6.16 per share);
 - (ii) 112,500,000-141,666,666 (representing 45-approximately 56.67 per cent. of the total) will be issued to Noteholders in the Scheme in exchange for the Dated Notes, to be distributed in the Scheme pro rata amongst the Noteholders based on their respective Scheme Consideration Calculation Amounts (representing, based on the total value of Scheme Consideration Calculation Amounts and the number of New Ordinary Shares issued in the Scheme to Noteholders, an implied subscription price equal to the New Ordinary Shares Conversion Price). The New Ordinary Shares referred to in the table above are these 112,500,000-141,666,666 New Ordinary Shares; and
 - (iii) 62,500,000-33,333,334 (representing the balance of 25 approximately 13.33 per cent. of the total) will be available for subscription by Noteholders pursuant to, and on the terms of, the Additional New Ordinary Shares Offer for an aggregate consideration equal to £125-million_000,002.50 (representing an effective subscription price of £2.00-3.75 per share).

The Scheme also provides that 62,500,000 33,333,334 Additional New Ordinary Shares will be made available to Noteholders for subscription for an aggregate consideration equal to £125 million,000,002.50, all pursuant to, and on the terms of, the Scheme, as set out in Part B (*Overview of the Scheme*) of this Explanatory Statement.

3. PREFERENCE SHARES OFFER

- 3.1 Preference Shareholders are being offered a choice of two options:
 - (a) to offer to transfer their Preference Shares to Co-operative Group in exchange for Final Repayment Notes; or
 - (b) to offer to sell their Preference Shares to Co-operative Group in consideration for a cash amount which will be paid in twelve equal instalments over twelve years up to (and including) 2025, and which will be represented by Instalment Repayment Notes.

3.2 Final Repayment Notes

The Final Repayment Notes will pay a fixed rate of interest of 11 per cent. per year on their principal amount, and interest will be paid annually in arrear on each anniversary of the issue date of the Final Repayment Notes up to (and including) the twelfth anniversary. Co-operative Group will be obliged to repay the principal amount of the Final Repayment Notes in full on the twelfth anniversary of their issue date.

3.3 Instalment Repayment Notes

The Instalment Repayment Notes will not bear interest. However, the principal amount of such Instalment Repayment Notes (representing instalments of the cash purchase price for the Preference Shares) will be repaid in twelve equal instalments over twelve years. Those payments will be made on each anniversary of the issue date of the Instalment Repayment Notes, with the final payment falling on the twelfth anniversary of that issue date. If the Early Participation Threshold is achieved by the Early Participation Deadline, the principal amount of Instalment Repayment Notes which a Preference Shareholder will receive upon the sale of its Preference

Shares to Co-operative Group will be equal to twelve times the annual dividend on those Preference Shares (rounded down to the nearest £0.12 (12 pence), which is the minimum denomination of the Instalment Repayment Notes). Accordingly, (in circumstances where the Early Participation Threshold is achieved by the Early Participation Deadline), by repaying those Instalment Repayment Notes in twelve equal instalments over twelve years, Co-operative Group will pay to the Preference Shareholder, in each of those twelve years, an amount which is broadly equivalent to the amount of dividends which such Preference Shareholder would have received had it continued to hold those Preference Shares which it sells to Co-operative Group in the Liability Management Exercise.

3.4 Preference Shareholder election

Each Preference Shareholder will have the opportunity to choose one of the two options available.

Since Co-operative Group will repay the principal of the Instalment Repayment Notes in equal instalments over twelve years, the amount payable to a Preference Shareholder in each year, if it elects the Instalment Repayment Notes option, will be higher than the annual interest payment to such Preference Shareholder if it elects the Final Repayment Notes option. However, the final payment on the Instalment Repayment Notes in 2025 will be significantly lower than the final payment under the Final Repayment Notes in 2025 (reflecting the fact that the principal on the Final Repayment Notes is repayable in a single payment in that twelfth year).

After the twelfth and final payment, both the Final Repayment Notes and the Instalment Repayment Notes will have been fully repaid, and Preference Shareholders will have no further entitlement to any amounts under whichever of those securities it elected to receive.

If a Preference Shareholder intends to hold its Final Repayment Notes or Instalment Repayment Notes for the full twelve years, an important point of distinction for such Preference Shareholder will be whether it wishes to receive (i) the higher amount payable each year (except the twelfth) under the Instalment Repayment Notes, or (ii) the lower annual payments of interest under the Final Repayment Notes but a larger one-off payment in twelve years' time, in which latter case it should elect to receive the Final Repayment Notes.

3.5 Principal amount of Group Notes to be delivered upon exchange or sale of Preference Shares

The principal amount of Group Notes which a Preference Shareholder will (if the Liability Management Exercise is successfully completed) receive for each £1,000 in nominal amount of Preference Shares (excluding the Additional Preference Shares referred to below) exchanged or sold to Co-operative Group will depend upon (i) whether it elects the Final Repayment Notes option or the Instalment Repayment Notes option; and (ii) whether or not the Early Participation Threshold is achieved by the Early Participation Deadline:

(a) **Final Repayment Notes**

An Eligible Preference Shareholder who validly offers to exchange its Preference Shares in the Exchange Offer for Final Repayment Notes will, if the Liability Management Exercise is successfully completed, be eligible to receive on the Settlement Date, either:

- (i) if the Early Participation Threshold is achieved by the Early Participation Deadline, an amount equivalent to £601 in principal amount of Final Repayment Notes for every £1,000 in nominal amount of Preference Shares (excluding Additional Preference Shares) exchanged (subject to rounding); or
- (ii) if the Early Participation Threshold is not achieved by the Early Participation Deadline, an amount equivalent to £551 in principal amount of Final Repayment

Notes for every £1,000 in nominal amount of Preference Shares (excluding Additional Preference Shares) exchanged (subject to rounding).

(b) **Instalment Repayment Notes**

An Eligible Preference Shareholder who validly offers to sell its Preference Shares to Cooperative Group in the Exchange Offer for cash consideration payable in instalments under the Instalment Repayment Notes option will, if the Liability Management Exercise is successfully completed, be eligible to receive on the Settlement Date, either:

- (i) if the Early Participation Threshold is achieved by the Early Participation Deadline, an amount equivalent to £1,110 in principal amount of Instalment Repayment Notes for every £1,000 in nominal amount of Preference Shares (excluding Additional Preference Shares) sold to Co-operative Group (subject to rounding); or
- (ii) if the Early Participation Threshold is not achieved by the Early Participation Deadline, an amount equivalent to £1,060 in principal amount of Instalment Repayment Notes for every £1,000 in nominal amount of Preference Shares (excluding Additional Preference Shares) sold to Co-operative Group (subject to rounding).

3.6 Accrued dividends

A Preference Shareholder whose Preference Shares are exchanged or sold in the Liability Management Exercise will also be eligible to receive a cash amount (paid in pounds sterling) equal to the accrued and unpaid dividends on its Preference Shares (other than Additional Preference Shares) from (and including) 30 November 2013 to (but excluding) the Settlement Date.

3.7 Preference Share dividend instalment scheduled for 30 November/Additional Preference Shares

The next instalment of the Preference Share dividend is, under the terms of the Preference Shares, scheduled to be paid on 30 November 2013 (which is during the offer period for the Liability Management Exercise).

Under the terms of the Preference Shares, the Company will not be permitted to pay the dividend in cash, but will instead be required to allot additional Preference Shares to each Preference Shareholder in lieu of cash payment (**Additional Preference Shares**). The Company expects to allot such Additional Preference Shares on 29 November 2013 (since 30 November is a Saturday).

However, if the Liability Management Exercise successfully completes, then upon exchange or sale to Co-operative Group of those Additional Preference Shares, Preference Shareholders will not receive Final Repayment Notes or Instalment Repayment Notes in respect thereof but rather will receive an amount in cash (in pounds sterling) equal to the cash dividend which the Company would have paid on 29 November 2013 had it been able to do so under the terms of the Preference Shares.

3.8 Proposal

A meeting of the Preference Shareholders is being convened in order for those Preference Shareholders to vote on a proposed resolution which, if passed and implemented, would enable the Company:

- (a) to purchase and cancel any share capital of the Company (which would include, without limitation, Preference Shares) from time to time, without the need for the further consent of the Preference Shareholders; and
- (b) to mandatorily effect, at the Company's option, the transfer to Co-operative Group of all (but not some only) of the Preference Shares, which are not offered for exchange or sale in the Exchange Offer, either (1) in exchange for Final Repayment Notes, or (2) in return for the cash consideration to be paid over twelve years and represented by the Instalment Repayment Notes, in either case on the same economic terms as those upon which Preference Shares are exchanged or sold in the Exchange Offer.

The proposed resolution also contains, on behalf of all Preference Shareholders (i) a release, in favour of certain persons (including, amongst others, the Company, Co-operative Group and their respective directors), from all liabilities in connection with the Liability Management Exercise and (ii) a waiver of all rights and entitlement which such Preference Shareholders may otherwise have or acquire to bring, participate in or enforce legal proceedings of any nature against any such persons in connection with the Liability Management Exercise or their Preference Shares; provided, however, that nothing in that resolution shall release the Company or Co-operative Group from their respective obligations or liabilities as the persons responsible for the Bank T2 Notes Prospectus and the Group Notes Prospectus, respectively.

The submission of a valid Exchange Instruction pursuant to the Exchange Offer will also constitute the relevant Preference Shareholder's instructions to appoint the chairman of the meeting as proxy to vote on behalf of the relevant Preference Shareholder in favour of the resolution proposed.

4. 13% BONDS OFFER

4.1 Exchange Offer

13% Bondholders are being offered a choice of two options:

- (a) to offer to transfer their 13% Bonds to Co-operative Group in exchange for Final Repayment Notes; or
- (b) to offer to sell their 13% Bonds to Co-operative Group in consideration for a cash amount which will be paid in twelve equal instalments over twelve years up to (and including) 2025, and which will be represented by Instalment Repayment Notes.

4.2 Final Repayment Notes

The Final Repayment Notes will pay a fixed rate of interest of 11 per cent. per year on their principal amount, and interest will be paid annually in arrear on each anniversary of the issue date up to (and including) the twelfth anniversary. Co-operative Group will be obliged to repay the principal amount of the Final Repayment Notes in full on the twelfth anniversary of their issue date.

4.3 Instalment Repayment Notes

The Instalment Repayment Notes will not bear interest. However, the principal amount of such Instalment Repayment Notes (representing instalments of the cash purchase price for the 13% Bonds) will be repaid in twelve equal instalments over twelve years. Those payments will be made on each anniversary of the issue date of the Instalment Repayment Notes, with the final payment falling on the twelfth anniversary of that issue date. If the Early Participation Threshold is achieved by the Early Participation Deadline, the principal amount of Instalment Repayment Notes which a 13% Bondholder will receive upon sale of its 13% Bonds to Co-operative Group will be equal to twelve times the annual interest on those 13% Bonds (rounded down to the

nearest £0.12 (12 pence), which is the minimum denomination of the Instalment Repayment Notes). Accordingly, (in circumstances where the Early Participation Threshold is achieved by the Early Participation Deadline), by repaying those Instalment Repayment Notes in twelve equal instalments over twelve years, Co-operative Group will pay to a 13% Bondholder, in each of those twelve years, an amount which is broadly equivalent to the amount of interest which such 13% Bondholder would have received had it continued to hold those 13% Bonds which it sells to Co-operative Group in the Liability Management Exercise.

4.4 13% Bondholder election

Each 13% Bondholder will have the opportunity to choose one of the two options available. Since Co-operative Group will repay the principal of the Instalment Repayment Notes in equal instalments over twelve years, the amount payable to a 13% Bondholder in each year if it elects the Instalment Repayment Notes option will be higher than the annual interest payment to such 13% Bondholder if it elects the Final Repayment Notes option. However, the final payment on the Instalment Repayment Notes in 2025 will be significantly lower than the final payment under the Final Repayment Notes in 2025 (reflecting the fact that the principal on the Final Repayment Notes is repayable in a single payment in that twelfth year).

After the twelfth and final payment, both the Final Repayment Notes and the Instalment Repayment Notes will have been fully repaid, and 13% Bondholders will have no further entitlement to any amounts under whichever of those securities it elected to receive.

If a 13% Bondholder intends to hold its Final Repayment Notes or Instalment Repayment Notes for the full twelve years, an important point of distinction for such 13% Bondholders will be whether it wishes to receive (i) the higher amount payable each year (except the twelfth year) under the Instalment Repayment Notes, or (ii) the lower annual payments of interest under the Final Repayment Notes but a larger one-off payment in twelve years' time, in which latter case it should elect to receive the Final Repayment Notes.

4.5 Principal amount of Group Notes to be delivered upon exchange or sale of 13% Bonds

The principal amount of Group Notes which a 13% Bondholder will (if the Liability Management Exercise is successfully completed) receive for each £1,000 in nominal amount of 13% Bonds exchanged or sold to Co-operative Group will depend upon (i) whether it elects the Final Repayment Notes option or the Instalment Repayment Notes option; and (ii) whether or not the Early Participation Threshold is achieved by the Early Participation Deadline:

(a) Final Repayment Notes

An Eligible 13% Bondholder who validly offers to exchange its 13% Bonds in the Exchange Offer for Final Repayment Notes will, if the Liability Management Exercise is successfully completed, be eligible to receive on the Settlement Date, either:

- (i) if the Early Participation Threshold is achieved by the Early Participation Deadline, an amount equivalent to £844 in principal amount of Final Repayment Notes for every £1,000 in nominal amount of 13% Bonds exchanged (subject to rounding); or
- (ii) if the Early Participation Threshold is not achieved by the Early Participation Deadline, an amount equivalent to £794 in principal amount of Final Repayment Notes for every £1,000 in nominal amount of 13% Bonds exchanged (subject to rounding).

(b) **Instalment Repayment Notes**

An Eligible 13% Bondholder who validly offers to sell its 13% Bonds to Co-operative Group in the Exchange Offer for cash consideration payable in instalments under the Instalment Repayment Notes option will, if the Liability Management Exercise is successfully completed, be eligible to receive on the Settlement Date, either:

- (i) if the Early Participation Threshold is achieved by the Early Participation Deadline, an amount equivalent to £1,560 in principal amount of Instalment Repayment Notes for every £1,000 in nominal amount of 13% Bonds sold to Cooperative Group (subject to rounding); or
- (ii) if the Early Participation Threshold is not achieved by the Early Participation Deadline, an amount equivalent to £1,510 in principal amount of Instalment Repayment Notes for every £1,000 in nominal amount of 13% Bonds sold to Cooperative Group (subject to rounding).

4.6 Accrued interest

A 13% Bondholder whose 13% Bonds are exchanged or sold in the Liability Management Exercise will also be eligible to receive a cash amount (paid in pounds sterling) equal to the accrued and unpaid interest on its 13% Bonds from (and including) 31 July 2013 to (but excluding) the Settlement Date.

4.7 Deferred interest payment originally scheduled for 31 July 2013

In addition, as announced by the Company on 12 July 2013, upon successful completion of the Exchange Offer the Company will pay to all 13% Bondholders the deferred interest payment originally scheduled for 31 July 2013. Such payment will be made in cash on the Settlement Date.

4.8 Proposal

A meeting of the 13% Bondholders is being convened in order for those 13% Bondholders to vote on a proposed resolution which, if passed and implemented, would result in amendments to the terms of the 13% Bonds to enable the Company to mandatorily effect, at the Company's option, the transfer to Co-operative Group of all (but not some only) of the 13% Bonds, which are not offered for exchange or sale in the Exchange Offer, either (1) in exchange for Final Repayment Notes, or (2) in return for the cash consideration to be paid over 12 years and represented by the Instalment Repayment Notes, in either case on the same economic terms as those upon which 13% Bonds are exchanged or sold in the Exchange Offer.

The proposed resolution also contains, on behalf of all 13% Bondholders (i) a release, in favour of certain persons (including, amongst others, the Company, Co-operative Group and their respective directors), from all liabilities in connection with the Liability Management Exercise and (ii) a waiver of all rights and entitlement which such 13% Bondholders may otherwise have or acquire to bring, participate in or enforce legal proceedings of any nature against any such persons in connection with the Liability Management Exercise or their 13% Bonds; provided, however, that nothing in that resolution shall release the Company or Co-operative Group from their respective obligations or liabilities as the persons responsible for the Bank T2 Notes Prospectus and the Group Notes Prospectus, respectively.

The submission of a valid Exchange Instruction pursuant to the Exchange Offer will also constitute the relevant 13% Bondholder's instructions to appoint the chairman of the meeting as proxy to vote on behalf of the relevant 13% Bondholder in favour of the resolution proposed.

5. 5.5555% BONDS OFFER

5.1 Exchange Offer

5.5555% Bondholders are being invited to offer to exchange their 5.5555% Bonds for Exchange Offer Bank T2 Notes.

5.2 Exchange Offer Bank T2 Notes

Exchange Offer Bank T2 Notes will pay a fixed rate of interest of 11 per cent. per year on their principal amount, and interest will be paid on a quarterly basis in arrear on each three-month anniversary of the issue date up to (and including) the tenth anniversary of the issue date. The Company will be obliged to repay the principal amount of the Exchange Offer Bank T2 Notes on the tenth anniversary of their issue date.

5.3 Principal amount of Exchange Offer Bank T2 Notes to be delivered in exchange for 5.5555% Bonds

The principal amount of Exchange Offer Bank T2 Notes which a 5.5555% Bondholder will (if the Liability Management Exercise is successfully completed) receive in exchange for every £1,000 in nominal amount of 5.5555% Bonds will depend upon whether or not the Early Participation Threshold is achieved by the Early Participation Deadline. Accordingly, an Eligible 5.5555% Bondholder who validly offers to exchange its 5.5555% Bonds in the Exchange Offer will, if the Liability Management Exercise is successfully completed, be eligible to receive on the Settlement Date, either:

- (i) if the Early Participation Threshold is achieved by the Early Participation Deadline, an amount equivalent to £530 in principal amount of Exchange Offer Bank T2 Notes for every £1,000 in nominal amount of 5.5555% Bonds exchanged; or
- (ii) if the Early Participation Threshold is not achieved by the Early Participation Deadline, an amount equivalent to £480 in principal amount of Exchange Offer Bank T2 Notes for every £1,000 in nominal amount of 5.5555% Bonds exchanged.

5.4 Accrued interest

A 5.5555% Bondholder whose 5.5555% Bonds are exchanged will also be eligible to receive a cash amount (paid in pounds sterling) equal to the accrued and unpaid interest on its 5.5555% Bonds from (and including) 14 December 2013 to (but excluding) the Settlement Date.

5.5 Interest payment scheduled for 14 December 2013

The next scheduled interest payment date for the 5.5555% Bonds is 14 December 2013. The Company intends to defer that interest payment (which it is entitled to do under the terms of the 5.5555% Bonds). If the Liability Management Exercise subsequently successfully settles, the Company will (in addition to the accrued interest referred to in the paragraph above) pay the deferred interest payment originally scheduled for 14 December 2013 (to all 5.5555% Bondholders) upon successful completion of the Liability Management Exercise. Such payment will be made in cash on the Settlement Date.

5.6 Proposal

A meeting of the 5.5555% Bondholders is being convened in order for those 5.5555% Bondholders to vote on a proposed resolution which, if passed and implemented, would result in amendments to the terms of the 5.5555% Bonds to enable the Company to mandatorily effect the exchange, at the Company's option, of all (but not some only) of the 5.5555% Bonds, which are

not exchanged in the Exchange Offer, on the same economic terms as those upon which 5.5555% Bonds are exchanged in the Exchange Offer.

The proposed resolution also contains, on behalf of all 5.5555% Bondholders (i) a release, in favour of certain persons (including, amongst others, the Company, Co-operative Group and their respective directors), from all liabilities in connection with the Liability Management Exercise and (ii) a waiver of all rights and entitlement which such 5.5555% Bondholders may otherwise have or acquire to bring, participate in or enforce legal proceedings of any nature against any such persons in connection with the Liability Management Exercise or their 5.5555% Bonds; provided, however, that nothing in that resolution shall release the Company or Co-operative Group from their respective obligations or liabilities as the persons responsible for the Bank T2 Notes Prospectus and the Group Notes Prospectus, respectively.

The submission of a valid Exchange Instruction pursuant to the Exchange Offer will also constitute the relevant 5.5555% Bondholder's instructions to appoint the chairman of the meeting as proxy to vote on behalf of the relevant 5.5555% Bondholder in favour of the resolution proposed.

PART D

RISK FACTORS

The following risk factors are the principal risk factors that arise in connection with the proposed Scheme. These risk factors should be read in conjunction with all of the other information contained in this Explanatory Statement including, for the avoidance of doubt, the Bank T2 Notes Prospectus.

Additional risks and uncertainties not presently known to the Company or that the Company currently deems immaterial may also have a material adverse effect on the business, financial condition or results of operations of the Company or any other member of the Group. Moreover, except as set forth in the section below entitled "Risks relating to a failure to implement or a delay in implementing the Scheme", these risk factors assume that the Scheme will be implemented and do not describe all of the risks that would be applicable to the Company should the Scheme not be implemented.

All statements in this Explanatory Statement including, for the avoidance of doubt, the Bank T2 Notes Prospectus are to be read subject to, and are qualified in their entirety by, the matters referred to in this section.

For ease of reference only, this part of the Explanatory Statement is divided into two main sections:

- (1) Risks relating to the implementation of or a failure to implement or a delay in implementing the Scheme; and
- (2) Risks relating to the Scheme, including those relating to the Company, the Scheme Consideration and the Additional New Ordinary Shares.

RISKS RELATING TO THE IMPLEMENTATION OF OR A FAILURE TO IMPLEMENT OR A DELAY IN IMPLEMENTING THE SCHEME

1. Insolvency Proceedings

- 1.1 If the Scheme is not implemented in accordance with its terms, or is not implemented on or before 31 December 2013, the Company will be unable to implement the Liability Management Exercise. In the event that the Liability Management Exercise is not successfully implemented. the Company would fail to comply with the PRA's stated requirement that the Company raises an additional £1 billion Common Equity Tier 1 Capital by 31 December 2013. In addition, CBGL's undertaking pursuant to the 2014 Commitment Agreement supported by Co-operative Group pursuant to the terms of an intra-group loan between Co-operative Group and CBGL; as described on page 112 of the Bank T2 Notes Prospectus, to contribute up to £333 million additional Common Equity Tier 1 Capital in 2014 would terminate as it is conditional on the implementation of the Scheme in accordance with its terms (including the completion of the Additional New Ordinary Shares Offer) and each of the Exchange Offers having become unconditional in accordance with their respective terms. Co-operative Group will not provide any additional capital contribution to meet the Company's regulatory capital shortfall unless the Liability Management Exercise is successfully implemented (i.e. the entire principal amount of all Existing Securities (including the Dated Notes) are exchanged or sold pursuant to the Liability Management Exercise) on or before 31 December 2013.
- 1.2 Whilst in the event that the Liability Management Exercise is unsuccessful, the Company would take immediate action to try to address its capital shortfall, including holding urgent discussions with the PRA, the Company believes that in such circumstances the failure of the Liability Management Exercise would result in the Company becoming subject to a resolution procedure under the Banking Act. The consequences of a failure of the Liability Management Exercise are set out on page 43 of the Bank T2 Notes Prospectus under the paragraph headed "Consequences of a failure of the Liability Management Exercise". Risks relating to the implementation of the

Liability Management Exercise (of which the Scheme forms an integral part) and the potential failure of the Liability Management Exercise including those referred to in paragraph 1.1 above are set out at pages 41 to 51 of the Bank T2 Notes Prospectus under the section headed "Risks Relating to the Liability Management Exercise" in section 2 (Risk Factors) of the Bank T2 Notes Prospectus.

2. If the conditions precedent to the effectiveness of the transactions contemplated by the Scheme are not satisfied, the Scheme may not be completed

2.1 The transactions contemplated by the Scheme will not become effective unless all the conditions precedent to the transactions contemplated by the Scheme are satisfied in accordance with the terms of the Scheme, including without limitation the Scheme Settlement Condition (as more fully described in paragraphs 1.33 and 1.34 of Part B (*Overview of the Scheme*). If this does not occur, it will not be possible to complete the transactions contemplated by the Scheme. In this regard, Scheme Creditors are referred to the paragraph entitled "*Failure of Holders to participate in the Liability Management Exercise*" on page 43 of the Bank T2 Notes Prospectus in section 2 (*Risk Factors*) of the Bank T2 Notes Prospectus.

3. Effectiveness of the Scheme requires the approval of Scheme Creditors

- 3.1 In order for the Scheme to be approved by the Scheme Creditors, at the Scheme Meeting more than 50 per cent. in number representing not less than 75 per cent. in value of those Scheme Creditors present and voting at that Scheme Meeting must vote in favour. If the requisite majority of Scheme Creditors do not vote in favour of the Scheme at the Scheme Meeting, the Scheme will not become effective and the transactions contemplated by the Scheme will not be implemented. As at the date of the Explanatory Statement 18 November 2013 certain Scheme Creditors have given an undertaking to vote in favour of the Scheme, however such undertakings will cease to be binding in certain circumstances as set out under the terms of the Lock-Up Arrangements.
- 3.2 Even if the Scheme is approved at the Scheme Meeting, it is possible for a person with an interest in the Scheme (whether a Scheme Creditor or otherwise) to object to the Scheme and to attend or be represented at the Scheme Sanction Hearing in order to make representations that the Scheme should not be approved and to appeal against the granting of the order sanctioning the Scheme. Therefore, it is possible that objections will be made at or before the Scheme Sanction Hearing or that an appeal will be made against the granting of the order sanctioning the Scheme by the Court and that any such objections or appeal will delay or possibly prevent the implementation of the transactions contemplated by the Scheme.
- 3.3 In order for the Scheme to become effective under English law, it must receive the sanction of the Court and the order sanctioning the Scheme must be delivered to the Registrar of Companies. The Court will not sanction the Scheme unless it is satisfied that the class of Scheme Creditors has been properly constituted and, as a matter of discretion, the Court considers that it is proper to sanction the Scheme. There can be no assurance that the Court will sanction the Scheme. If the Court does not sanction the Scheme, or approves it subject to conditions or amendments which (i) the Company and other relevant parties deem unacceptable or (ii) would have (directly or indirectly) a material adverse effect on the interests of any Scheme Creditors and such conditions or amendments are not approved by the Scheme Creditors, the Scheme will not become effective and the transactions contemplated by the Scheme will not be implemented.

RISKS RELATING TO THE SCHEME, INCLUDING THOSE RELATING TO THE COMPANY'S BUSINESS, THE SCHEME CONSIDERATION AND THE ADDITIONAL NEW ORDINARY SHARES

If the Scheme is implemented in accordance with its terms, Scheme Creditors will receive Scheme Consideration (subject to the terms of the Scheme (please see the Scheme and the description of the Scheme in Part B (Overview of the Scheme) of this Explanatory Statement for further details)) comprising New Ordinary Shares of the Company and Bank T2 Notes issued by the Company. Scheme Creditors may also elect to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer.

An investment in any or all of the Scheme Consideration or any Additional New Ordinary Shares (whether effected by way of the Scheme or otherwise) has risks and Scheme Creditors'—should carefully review and consider the risks set out or referred to in paragraph 4 below in respect of the Company and the Bank T2 Notes, and paragraph 5 below in respect of the New Ordinary Shares and the Additional New Ordinary Shares before making a decision in respect of the Scheme. Scheme Creditors' attention is also drawn to the risk factors at pages 7 to 8 of the Supplementary Prospectus.

The Bank T2 Notes Prospectus cross-referred to in this section can be found at Appendix 9 of this Explanatory Statement.

1. The Company and the Bank T2 Notes

- 1.1 Scheme Creditors should carefully consider the factors and risks associated with any investment in the Bank T2 Notes, the Company's business and the financial services industry in the United Kingdom (the UK) in which the Company operates, together with all the other information contained in the Bank T2 Notes Prospectus and all of the information incorporated by reference into the Bank T2 Notes Prospectus, including, in particular, the risks and uncertainties described below. Scheme Creditors should note that the risks relating to the Company, the financial services industry in the UK and the Bank T2 Notes summarised in section 1 of the Bank T2 Notes Prospectus (Summary of the Notes) are risks that the Company believes to be the most essential to an assessment by a Scheme Creditor of whether to consider an investment in the Bank T2 Notes. However, as the risks which the Company faces relate to events and depend on circumstances that may or may not occur in the future, Scheme Creditors should consider not only the information on key risks summarised in section 1 of the Bank T2 Notes Prospectus headed "Summary of the Notes" but also, among other things, the risks and uncertainties described and/or referred to in paragraphs 4.2 and 4.3 below.
- 1.2 Section 2 (*Risk Factors*) of the Bank T2 Notes Prospectus describes the risk factors which are considered by the Company to be material to the Company and an investment in the Bank T2 Notes. However, these risk factors should not be regarded as a complete and exhaustive statement or explanation of all potential risks and uncertainties which Scheme Creditors may face when making an investment in the Bank T2 Notes and should be used as guidance only. There may be other risks and uncertainties which are currently not known to the Company or which the Company currently does not consider to be material. Should any of the risks described below, or any other risks or uncertainties, occur, this could, individually or cumulatively, have a material adverse effect on the Company's business, results of operation, financial condition or prospects which in turn would be likely to cause the price of the Bank T2 Notes to decline and, as a result, an investor in the Bank T2 Notes could lose some or all of its investment. Scheme Creditors should consider carefully whether an investment in the Bank T2 Notes is suitable for them in the light of the information contained in the Bank T2 Notes Prospectus and their personal circumstances.
- 1.3 Scheme Creditors are referred to the section entitled "Risks relating to the Bank and its Business" on page 51 of the Bank T2 Notes Prospectus and the section entitled "Risks related to the features of the Notes" on page 91 of the Bank T2 Notes Prospectus in which, without prejudice to

paragraphs 4.1 and 4.2 above, certain risks relating to the Company and the Bank T2 Notes contemplated therein are more fully described.

- 1.4 In addition, Scheme Creditors are referred to the following parts of section 2 "Risk Factors" of the Bank T2 Notes Prospectus:
 - (a) "Risks related to applicable tax and other legislation" on page 96;
 - (b) "Risks related to the Market generally" on page 97; and
 - (c) "Risks relating to the holding structure of the Notes" on page 97;

in which, without prejudice to paragraphs 4.1 to 4.3 above, certain other risks other risks relevant for Scheme Creditors in respect of the Scheme are described.

2. The New Ordinary Shares and Additional New Ordinary Shares

The value of New Ordinary Shares and Additional New Ordinary Shares may fluctuate significantly.

- 2.1 The value of the New Ordinary Shares and the Additional New Ordinary Shares may, in addition to being affected by the Company's actual or forecast operating results, fluctuate significantly as a result of a large number of factors, some specific to the Company and its operations or Cooperative Group and some which may affect the financial sector generally and which are outside the Company's control, including, among others:
 - (a) changes in the financial performance of the Company, its peers or the financial services industry;
 - (b) changes in laws, rules and regulations applicable to the Company and its operations;
 - (c) general economic, political and other conditions; and/or
 - (d) fluctuations in the equity and debt capital markets.
- 2.2 Any of these events could result in a decline in the market price of the New Ordinary Shares and the Additional New Ordinary Shares. In general, prospective investors should be aware that the value of an investment in the New Ordinary Shares and/or the Additional New Ordinary Shares may go down as well as up. The Company can give no assurance that the market price of New Ordinary Shares and/or the Additional New Ordinary Shares will not decline below the implied price of the New Ordinary Shares and/or the Additional New Ordinary Shares issued pursuant to the Scheme.

The New Ordinary Shares and Additional New Ordinary Shares are unlisted

- 2.3 On completion of the Liability Management Exercise, the New Ordinary Shares and Additional New Ordinary Shares will not be listed on the Official List maintained by the FCA or admitted to trading on the London Stock Exchange's Main Market for listed securities or any other market. As a result the Company will not be subject to the Listing Rules and the regulatory regime established thereunder or to monitoring by the FCA beyond those which the Company is already subject pursuant to the listing of certain of its debt securities (including the Bank T2 Notes). Furthermore, the Company will not be obliged to comply with corporate governance disclosure requirements for listed companies under the Disclosure and Transparency Rules, the Listing Rules and the Code.
- 2.4 However, the Bank T2 Notes to be issued by the Company pursuant to the Liability Management Exercise will be listed on the Official List and admitted to trading on the London Stock Exchange's Regulated Market. As a result, the Company will be subject to certain, but less

extensive rules and regulations as a result of the listing of its debt securities. Furthermore under the terms of the Relationship Agreement entered into between Co-operative Group and the Company, the Company has agreed to comply with certain continuing obligations to the extent reasonably practicable and has agreed that it will use reasonable endeavours to comply with the UK Corporate Governance Code (as further described in pages 455 to 457 of the Bank T2 Notes Prospectus).

2.5 There has been no prior trading market for the New Ordinary Shares and the Additional New Ordinary Shares, whilst the ordinary shares of the Company have previously been held by CBGL as the Company's 99.9% shareholder. As a result, the realisation of an investment by a shareholder in the Company given the Company's status as an unlisted company is likely to be more difficult than the realisation of an investment in a company whose shares are listed on the Official List and admitted to trading on the London Stock Exchange's Main Market or on any other stock exchange. The Company has a stated intention to explore the possibility with the UK Listing Authority of seeking a premium listing of the ordinary shares of the Company (see page 152 of the Bank T2 Notes Prospectus) within 12 months of the completion of the Liability Management Exercise subject to meeting the necessary eligibility criteria. However, the Company can give no assurance that such discussions or applications will be successful, that the Company will meet the required eligibility criteria or that, should such discussions or applications be successful, an active trading market for the New Ordinary Shares or the Additional New Ordinary Shares will develop or, if developed, can be sustained. If an active trading market is not developed or maintained, the liquidity and trading price of the New Ordinary Shares and the Additional New Ordinary Shares could be materially and adversely affected. In addition, whilst the Company intends to explore the possibility of obtaining admission to the premium listing segment of the Official List, it is possible that the Company will only be able to satisfy the eligibility criteria for admission to the standard segment of the Official List. A standard listing affords a lower level of regulatory protection than that afforded to investors in companies whose securities are admitted to the premium segment. In particular, and similarly when the Company's ordinary shares are not listed, the UK Listing Authority would not have the authority to (and will not) monitor the Company's compliance with any of the Listing Rules and/or provisions of the Model Code or those aspects of the Disclosure and Transparency Rules which the Company has agreed to voluntarily comply with under the terms of the Relationship Agreement (beyond those which the Company is already subject to pursuant to the listing of its debt securities), nor impose any sanctions in respect of any failure by the Company to so comply. The Company's ordinary shares may therefore be difficult to sell compared to the shares of companies with more liquid trading markets and the share price may be subject to greater fluctuations than might otherwise be the case.

Shareholders may earn a negative or no return on their investment in the Company.

The Company's results of operations and financial condition are entirely dependent on the trading performance of the Company and the other members of its group. There can be no assurance that the Company will pay dividends in the future nor as to the level of future dividends (please refer to paragraph 9 of section 8 (*Dividend Policy*) of the Bank T2 Notes Prospectus). A dividend may never be paid and at present there is no expectation that the Company will pay dividends in the near future. In any event, the Company has agreed with the PRA not to make any dividend payments until further notice without the prior consent of the PRA. Notwithstanding this, the Directors will reconsider the Company's dividend policy as appropriate as the Company continues to develop and implement its strategy, taking into account factors such as the Company's financial position, cash requirements and liquidity and profits available regulatory requirements, the Company's regulatory outlook, capital position, investment needs and principal relevant risk factors subsisting at the time. The Company's ability to pay dividends will also depend on the level of distributions, if any, received from its operating subsidiaries.

The issue of additional shares in the Company in connection with any share incentive or share option plan or otherwise may dilute all other shareholdings and may depress the price of the New Ordinary Shares and the Additional New Ordinary Shares.

2.7 The Company may seek to raise equity financing in the future and issue additional shares or convertible equity securities in connection with share incentive and share option plans. Future offers could dilute the holdings of the Company's shareholders (including those shareholders who acquire shares in the Company pursuant to the terms of the Scheme and the Additional New Ordinary Shares Offer), which may adversely affect the market price of the New Ordinary Shares and the Additional New Ordinary Shares and could impair the Company's ability to raise capital through future sales of equity securities.

Changes in taxation legislation or interpretation of tax legislation could affect the Company's ability to provide returns to shareholders of New Ordinary Shares and Additional New Ordinary Shares.

2.8 Any change in taxation legislation or the interpretation of tax legislation could affect the Company's ability to provide returns to shareholders of New Ordinary Shares and Additional New Ordinary Shares. Statements in this Explanatory Statement concerning the taxation of investors in New Ordinary Shares and Additional New Ordinary Shares are based on current tax law and practice in the United Kingdom and the United States, which are subject to change. The taxation of an investment in the Company depends on the individual circumstances of the relevant investor.

Shareholders outside the United Kingdom may not be able to participate in future equity offerings.

2.9 Holders of New Ordinary Shares and Additional New Ordinary Shares are, under the Company's articles of association, entitled to pre-emptive rights in respect of new issues of ordinary shares in the Company unless such rights are waived by a shareholders' resolution. Securities laws of certain jurisdictions may restrict the Company's ability to allow participation by holders of New Ordinary Shares and Additional New Ordinary Shares in future offerings. In particular, holders of New Ordinary Shares and/or Additional New Ordinary Shares in the United States may not be entitled to exercise these rights unless either the rights and the ordinary shares are registered under the Securities Act, or the rights and the ordinary shares are offered pursuant to an exemption from, or transaction not subject to, the registration requirements of the Securities Act.

The ability of ordinary shareholders outside the United Kingdom to bring actions or enforce judgments against the Company or the Directors may be limited.

2.10 The ability of a shareholder outside the United Kingdom to bring an action against the Company may be limited under law. The Company is a public limited company incorporated in England and Wales. The rights of holders of New Ordinary Shares and Additional New Ordinary Shares are governed by English law and by the Company's articles of association. These rights differ from the rights of shareholders in typical US corporations and some other non-UK corporations. A shareholder from outside the United Kingdom may not be able to enforce a judgment against some or all of the Directors and executive officers. The majority of the Directors and executive officers are residents of the United Kingdom. Consequently, it may not be possible for a shareholder outside the United Kingdom to effect service of process upon the Directors and executive officers within that shareholder's country of residence or to enforce against the Directors and executive officers judgments of courts of that shareholder's country of residence based on civil liabilities under that country's laws.

Following the Scheme Settlement Date, the Company may have other major shareholders that will also be able to exercise significant influence over matters requiring shareholder approval in addition to CBGL and Co-operative Group.

2.11 Immediately following the completion of the Liability Management Exercise, it is possible that certain Holders of Dated Notes will have acquired sufficient holdings of ordinary shares such that these shareholders, in addition to Co-operative Group and CBGL, will be able to exercise a degree of influence over matters requiring shareholder approval, including the election of Directors and significant corporate transactions. The concentration of ownership may have the effect of delaying or deterring a change in control of the Company, could deprive investors of an opportunity to receive a premium for their ordinary shares as part of a sale of the Company and might affect the value of the ordinary shares. Any of the major shareholders may sell all or part of its holdings of ordinary shares in the future. Any such sale may adversely affect the value of the ordinary shares.

When the certain restrictions to which Co-operative Group and CBGL are subject expire, more ordinary shares may become available on the market.

2.12 Under the terms of the Relationship Agreement and subject to certain limited exceptions, Cooperative Group and CBGL will be prevented from selling ordinary shares held by them for a period of five years following the effective date of the Relationship Agreement. On the expiry of this period, Co-operative Group and CBGL will be free (subject to applicable law) to sell the ordinary shares in the Company held by them. The potentially increased supply of ordinary shares on the market may have an adverse effect on the market price of the ordinary shares. Similarly, any sale by Co-operative Group and/or CBGL may affect the confidence of the market in the ordinary shares and cause the market price of the ordinary shares to fall.

An investment in the Company is speculative and carries a considerable degree of risk.

2.13 An investment in the Company is highly speculative, involves a considerable degree of risk and is suitable only for persons or entities which have substantial financial means and who can afford to hold their ownership interests for an indefinite amount of time.

US Foreign Account Tax Compliance Act withholding may affect payments on Ordinary Shares.

2.14 Sections 1471 through 1474 of the FATCA impose a new reporting regime and, potentially, a 30 per cent. withholding tax with respect to (i) certain payments from sources within the United States, (ii) "foreign passthru payments" made to certain non-US financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-US financial institution. The Company will be classified as a financial institution for these purposes. If an amount in respect of such withholding tax were to be deducted or withheld from payments made in respect of New Ordinary Shares and/or Additional New Ordinary Shares, neither the Company nor any paying agent nor any other person would be required to pay additional amounts as a result of the deduction or withholding. Prospective investors should refer to the section "Foreign Account Tax Compliance Act" in "Section 19 – Taxation" on page 415 of the Bank T2 Notes Prospectus.

PART E

INFORMATION ON THE COMPANY AND ADDITIONAL INFORMATION RELATING TO THE SCHEME

The Scheme is a scheme of arrangement of the Company and the Scheme Consideration includes the issue of New Ordinary Shares and Bank T2 Notes to the Scheme Creditors by the Company as well as the right to elect to subscribe for Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer. In order to assist Noteholders in considering the Scheme this section sets out or cross-refers to information about the Company and its business in the Bank T2 Notes Prospectus. Scheme Creditors should carefully review the information in the Bank T2 Notes Prospectus cross-referred to below.

This Part E (Information on the Company and additional information relating to the Scheme) contains or cross-refers to forward looking statements that involve risks and uncertainties. The actual results of the Company could differ materially from those anticipated in these forward looking statements as a result of such risks and uncertainties. Scheme Creditors should read the section headed "Forward looking statements" in the Important Notice of this Explanatory Statement in connection with the risks and uncertainties in relation to those statements.

1. DESCRIPTION OF THE COMPANY AND ITS BUSINESS

- 1.1 For a summary of the Company and its business, Scheme Creditors are referred to section B entitled "*Issuer*" in part 1 (*Summary*) on pages 7 to 16 of the Bank T2 Notes Prospectus which is made up of certain disclosure requirements known as "*Elements*" of which Elements B.1 B.17 are the summary disclosure relating specifically to the Company.
- 1.2 For a more detailed description of the Company and its business, Scheme Creditors are referred to section 8 entitled "*Description of the Bank*" on pages 145 to 185 of the Bank T2 Notes Prospectus which provides a brief history of the Company and its current status, including key strengths and strategy, a discussion of the Company's structure and a business overview including a description of both its core and non-core businesses which includes information on financial performance and strategic objectives.

2. FINANCIAL INFORMATION RELATING TO THE COMPANY

- 2.1 The Bank T2 Notes Prospectus includes financial information about the Company and its business and analysis and discussion (as applicable) of certain of that financial information to which Scheme Creditors are referred as follows:
 - (a) the selected financial information of the Company and its subsidiaries, in section 11 entitled "Selected Financial Information" on pages 198 to 201 of the Bank T2 Notes Prospectus which contains a consolidated income statement, consolidated balance sheet and consolidated cashflow statement of the Company for the financial years ended 31 December 2012, 2011 and 2010;
 - (b) the more detailed financial information of the Company and its subsidiaries in section 16 entitled "*Financial Information*" on pages 278 to 396 of the Bank T2 Notes Prospectus which contains audited financial information for the six months ended 30 June 2013 and unaudited pro forma financial information as at 30 June 2013. This section also includes the accountant's reports to the extent applicable;
 - (c) the financial information regarding the division between the core and non-core business of the Company in section 15 entitled "Segmental Financial and Other Information" on pages 265 to 277 of the Bank T2 Notes Prospectus which includes profit and loss

- accounts and balance sheets, key performance indicators, lending and loan portfolios and the loan risk analysis for each of the core and non-core businesses;
- (d) the summary of the Company's audited consolidated capitalisation as at June 2013 in section 10 entitled "*Capitalisation and Indebtedness*" on pages 196 to 197 of the Bank T2 Notes Prospectus; and
- (e) the information relating to the capital adequacy of the Company, in section 13 entitled "Capital Adequacy" on pages 232 to 243 of the Bank T2 Notes Prospectus which contains an overview of the Company's capital policy and its recapitalisation plan. It also contains an overview of both the Company's capital resources under Basel II and its capital position.
- 2.2 For a discussion of the results of operations of the Company for the financial periods ending 30 June 2013 and 2012, Scheme Creditors are referred to section 12 entitled "*Operating and Financial Review*" on pages 202 to 231 of the Bank T2 Notes Prospectus which contains a detailed discussion on the Financial Information referred to in paragraph 2.1 above. Section 12 of the Bank T2 Notes Prospectus also includes a discussion of the key factors affecting the results of operations, the current trading of the Company, the profit forecast, the results of operation and liquidity and funding.
- 2.3 In addition to the information referred to above, the following financial statements can be found at Appendix 8 (*Financial Statements*) of this Explanatory Statement:
 - (a) Interim Financial Statements and accounts of the Company for the period ending June 2013;
 - (b) Financial Statements and accounts of the Company for the financial year ended 31 December 2012:
 - (c) Financial Statements and accounts of the Company for the financial year ended 31 December 2011; and
 - (d) Financial Statements and accounts of the Company for the financial year ended 31 December 2010.
- 2.4 For details of the Company's risk management, Scheme Creditors are referred to section 14 entitled "*Risk Management*" on pages 244 to 264 of the Bank T2 Notes Prospectus and for details of the supervision and regulation in respect of the Company, Scheme Creditors are referred to section 17 entitled "*Supervision and Regulation*" on pages 397 to 408 of the Bank T2 Notes Prospectus.

3. DESCRIPTION OF THE ORDINARY SHARE CAPITAL OF THE COMPANY

- 3.1 The Company was incorporated with an issued share capital of £100 divided into 100 ordinary shares of £1.00 each, which were issued to the subscribers to the Company's articles of association on incorporation.
- 3.2 On 1 January 2010 (being the date of the commencement of the period for which historical financial information has been provided in the Bank T2 Notes Prospectus), the issued share capital of the Company was £290 million divided into:
 - (a) 4,600 million ordinary shares of £0.05 each; and
 - (b) The Preference Shares.
- 3.3 By a resolution of the Company passed on 15 December 2010, the Company issued a further 3,600 million ordinary shares of £0.05 each.

3.4 The issued and fully paid share capital of the Company as at the date of publication of this Explanatory Statement 18 November 2013 is as follows:

	Number	Amount
Existing Ordinary Shares of £0.05	8,200,000,000	£410,000,000
each		
Preference Shares of £1.00 each	60,000,000	£60,000,000

- 3.5 If:
 - (a) the Liability Management Exercise is successfully completed;
 - (b) there are no further issues of ordinary shares of the Company prior to completion of the Liability Management Exercise; and
 - (c) there are no other issues of preference shares of the Company prior to completion of the Liability Management Exercise, save for any Preference Shares issued in respect of the scheduled dividend payment due on 30 November 2013,

the Existing Ordinary Shares in the Company will be converted into deferred shares and effectively reduced to nil and a total of 250,000,000 ordinary shares of the Company will be issued at that time, such that the issued and fully paid up share capital of the Company immediately following completion of the Liability Management Exercise will be as follows:

	Number Amount	
Number of ordinary shares of the		
Company of £0.05 each	250,000,000	£12,500,000
Preference Shares of the Company of		
£1.00 each	63,700,000	£63,700,000

- 3.6 Upon the successful completion of the Liability Management Exercise:
 - (a) the Noteholders (and, if applicable, in accordance with the terms of the Additional New Ordinary Shares Offer, the <u>Modified Scheme</u> Purchasers) will acquire in total 175,000,000 ordinary shares of the Company;
 - (b) Co-operative Group (through CBGL) will control in total 75,000,000 ordinary shares of the Company (representing 30 per cent. of the total); and
 - (c) Co-operative Group will control in total 63,700,000 preference shares.
- 3.7 There will be no differences between the voting rights enjoyed by Co-operative Group (through CBGL) and those enjoyed by any other holder of ordinary shares of the Company.
- 3.8 For a description of the measures in place to ensure that the voting rights exercised over the Company by Co-operative Group and its affiliates (including CBGL) are not abused, see paragraph 20.3 entitled "*Relationship Agreement*" in section 20 entitled "*Additional Information*" on pages 455 to 457 of the Bank T2 Notes Prospectus.
- 3.9 Save as disclosed in the Bank T2 Notes Prospectus,
 - (a) no share or loan capital of the Company or any of its subsidiaries has within the period covered by the historical financial information set out in this Bank T2 Notes Prospectus (other than intra-group issues by wholly owned subsidiaries or pursuant to the offer) been issued or been agreed to be issued fully or partly paid, either for cash or for a consideration other than cash and no such issue is now proposed;

- (b) no commissions, discounts, brokerages or other special terms have been granted by the Company or any of its subsidiaries within the period covered by the historical financial information set out in this Bank T2 Notes Prospectus in connection with the issue or sale of any share or loan capital of any such company; and
- (c) no share or loan capital of the Company or any of its subsidiaries is under option or agreed, conditionally or unconditionally, to be put under option.
- 3.10 The New Ordinary Shares will comprise voting ordinary shares in the Company (ISIN: GB00BDW0BX87; SEDOL: BDW0BX8) having a nominal value of £0.05 each.
- 3.11 The New Ordinary Shares and Additional New Ordinary Shares will be in registered form and, subject to the provisions of the CREST Regulations, the Directors may permit the holding of shares in any class of shares in uncertificated form and title to such shares may be transferred by means of a relevant system (as defined in the CREST Regulations).

Accordingly, it is expected that the New Ordinary Shares and the Additional New Ordinary Shares will be issued in CREST. With respect to New Ordinary Shares and Additional New Ordinary Shares held in CREST, it will be possible to trade interests in such New Ordinary Shares and Additional New Ordinary Shares indirectly in Euroclear and Clearstream, Luxembourg. In this case, the New Ordinary Shares and Additional New Ordinary Shares themselves will be held in a CREST account by a nominee for Euroclear or Clearstream, Luxembourg (as applicable), and Euroclear and Clearstream, Luxembourg will enable interests representing the New Ordinary Shares and Additional New Ordinary Shares held in those nominee accounts to be traded in Euroclear and Clearstream, Luxembourg.

3.12 No application will be made for admission of the New Ordinary Shares and Additional New Ordinary Shares to the Official List maintained by the FCA or to trading on the London Stock Exchange or any other stock exchange.

Going forward, the Company intends to explore the possibility with the UK Listing Authority of seeking a premium listing of the Ordinary Shares on the Official List within 12 months of completion of the Liability Management Exercise, subject to meeting the necessary eligibility criteria.

4. **DIRECTORS**

- 4.1 The Bank T2 Notes Prospectus includes the following information on the Directors of the Company to which Scheme Creditors are referred:
 - (a) a short biography of each of the Directors of the Company on pages 187 to 189 of Section 9 entitled "Directors, Senior Management, Employees and Corporate Governance" of the Bank T2 Notes Prospectus;
 - (b) a list of the directorships that the Directors have held and partnerships that the Directors have been members of within the past five years is set out in Subsection 13 entitled "Directors and Senior Management" of section 20 entitled "Additional Information" on pages 430 to 433 of the Bank T2 Notes Prospectus; and
 - (c) information on the Directors' interests in the Company in Subsection 14 entitled "Directors' and Senior Managers' Interests in the Bank" in section 20 entitled "Additional Information" on pages 434 to 435 of the Bank T2 Notes Prospectus.

5. MATERIAL INTERESTS OF DIRECTORS AND TRUSTEES

5.1 Directors of the Company

(a) The directors of the Company and their functions are:

Name	Position	
Richard Pym	Chairman	
Niall Booker	Chief Executive Officer	
Rodney Jensen Bulmer	Deputy Chief Executive Officer and	
	Executive Director	
John Richard Coates	Non-Executive Director	
Anne Margaret Gunther	Non-Executive Director	
Richard Graeme Barclay Hardie	Non-Executive Director	
Merlyn Vivienne Lowther	Non-Executive Director	
Euan Angus Sutherland	Non-Executive Director	
Bennet Lyle Edward Reid	Non-Executive Director	
William Gennydd Thomas	Non-Executive Director	

- (b) As at 18 November 2013 (being the latest practicable date prior to the publication of this Explanatory Statement) and as is expected to be the position immediately following the Scheme Settlement Date, none of the Directors have any interests in the share capital of the Company which:
 - (i) are required to be notified to the Company pursuant to Chapter 3 of the Disclosure and Transparency Rules; or
 - (ii) are interests of a connected person (within the meaning of Schedule 11B of FSMA) which would be required to be disclosed under paragraph (i) above and the existence of which is known to or could with reasonable diligence be ascertained by that Director or Senior Manager, as at 18 November 2013 (being the latest practicable date prior to the publication of this Explanatory Statement).
- (c) No Director will have any interest in the share capital or loan capital of the Company on the Scheme Settlement Date and there is no person to whom any capital of any member of the Company or any of its subsidiaries is under award or option or agreed unconditionally to be put under award or option.
- (d) The Directors intend to consider after the Scheme Settlement Date incentive arrangements for Company employees, including those over ordinary shares, and will seek shareholder approval in respect of such arrangements, as required.
- (e) CBGL, as the holder of approximately 99.9 per cent. of the existing common equity of the Company, and Co-operative Group, as the controller of 100 per cent. of the voting capital in CBGL, are the only persons known to the Company who directly or indirectly could exercise or do exercise control over the Company as described in paragraph (q) below, certain directors of Co-operative Group and/or CBGL are also directors of the Company.
- (f) Subject to the voting restrictions in the Relationship Agreement (as described in the Bank T2 Notes Prospectus) there are no differences between the voting rights enjoyed by the shareholder described in paragraph (de) above and those enjoyed by any other holder of New Ordinary Shares in the Company.
- (g) Pursuant to the articles of association of the Company, which will be proposed for approval at a general meeting of the Company to be held on 15 November 2013, and as

referred to in the Relationship Agreement, Co-operative Group has the right to nominate up to two persons to be members of the Board for so long as certain circumstances continue to exist. As at the date of this Explanatory Statement 18 November 2013, Co-operative Group's nominated directors are Euan Angus Sutherland and Bennett Lyle Edward Reid and they are intended to constitute as such under the articles of association of the Company.

- (h) Euan Angus Sutherland is the chief executive of Co-operative Group and a director of CBGL. Bennett Lyle Edward Reid is a director of Co-operative Group Holdings (2011) Limited and Co-operative Group. Euan and Bennett are nominee directors of Co-operative Group and are intended to constitute nominee directors for the purposes of the articles of association of the Company, which will be proposed for approval at a general meeting of the Company to be held on 15 November 2013, and as referred to in the Relationship Agreement. Under the terms of the Relationship Agreement, Co-operative Group acknowledges that its nominee director(s) shall not be able to vote at board meetings of the Company on any matter where there is a conflict of interests or potential conflict of interests between the Company or any of its subsidiaries (on the one hand) and Co-operative Group or any of its subsidiaries (excluding the Company and its subsidiaries) (on the other hand). Save as disclosed in this paragraph (h), none of the directors has any potential conflict of interest between their duties to the Company and their private interests and/or their duties to third parties.
- (i) None of the Directors has or has had any interest in any transaction which is or was unusual in its nature or conditions or significant to the business which was effected by the Company or any of its subsidiaries during the current or immediately preceding financial year, or which was effected during an earlier financial year and remains in any respect outstanding or unperformed.
- (j) None of the Directors has or had a beneficial interest in any contract to which the Company or any of its subsidiaries was a party during the current or immediately preceding financial year.
- (k) Except as disclosed below, no Director was selected to act in such capacity pursuant to any arrangement or understanding with any shareholder, customer, supplier or any other person having a business connection with the Company or any of its subsidiaries.
- (1) Apart from the Liability Management Exercise, the result of which, if successful, will reduce CBGL's shareholding of the issued ordinary shares in the Company to approximately 30 per cent., the Company and the Directors are not aware of any arrangement the operation of which may at a subsequent date result in a change in control of the Company.
- (m) None of the directors of the Company has any direct interest in the share capital of the Company, nor any non-beneficial interest in the share capital of the Company.
- (n) None of the directors of the Company has any material interest (whether as a director, member, creditor or otherwise) in the Scheme, except as disclosed in (po) below. Save as disclosed in this section 5 (*Material interests of Directors and Trustees*), the effect of the Scheme on interests of the directors of the Company will not be different from the effect on like interests of other persons.
- (o) On the Scheme Settlement Date, the directors of the Company will receive the benefit of releases granted under the terms of the Deed of Waiver and Release.
- (p) The Modified Scheme Purchasers have agreed to meet certain costs and liabilities of the Company and certain related parties incurred in connection with an application by the Company to the Court on 2 December 2013 to amend this Explanatory Statement from

the form published on or around 18 November 2013 and the amendments to this Explanatory Statement made as a result of such application.

- (q) (p)Pursuant to the 2014 Commitment Agreement, the Company and Co-operative Group have agreed to waive each and every claim which they may have against the Directors in relation to or in connection with or in any way arising out of the preparation, negotiation or implementation of the Liability Management Exercise or the recapitalisation of the Company and/or the circumstances which gave rise to the requirement for a recapitalisation of the Company (provided that this does not preclude any such persons from enforcing any rights under any of the transaction documentation entered into in connection with the Recapitalisation Plan). For further details on the 2014 Commitment Agreement see subsection 20.4 entitled "2014 Commitment Agreement" in section 20 entitled "Additional Information" on pages 457 to 460 of the Bank T2 Notes Prospectus.
- (r) (ep)Some of the directors of the Company are also directors of a number of other companies within the Group, as set out in the table referred to in paragraph 4.1(b) above including Co-operative Group that are directly involved in the Scheme.

5.2 Director confirmations

Save as disclosed below, as at the date of this Explanatory Statement 18 November 2013 none of the Directors has at any time within at least the past five years:

- (a) save as disclosed in this Part E, been a director or partner of any companies or partnerships; or
- (b) had any convictions in relation to fraudulent offences (whether spent or unspent); or
- (c) been adjudged bankrupt or entered into an individual voluntary arrangement; or
- (d) been a director of any company at the time of, or within 12 months preceding, any receivership, compulsory liquidation, creditors' voluntary liquidation, administration, company voluntary arrangement or any composition or arrangement with that company's creditors generally or with any class of its creditors; or
- (e) been a partner in a partnership at the time of, or within 12 months preceding, any compulsory liquidation, administration or partnership voluntary arrangement of such partnership; or
- (f) had his assets form the subject of any receivership or been a partner of a partnership at the time of, or within 12 months preceding, any assets thereof being the subject of a receivership; or
- (g) been subject to any official public incrimination and/or sanctions by any statutory or regulatory authority (including any designated professional body); or
- (h) ever been disqualified by a court from acting as a director of a company or from acting in the management or conduct of the affairs of any company.
- 5.3 Richard Graeme Barclay Hardie was a non-executive director of Dunfermline Building Society from September 2008 to March 2009. A sale process was conducted by the Bank of England in March 2009 under the Special Resolution Regime provisions of the Banking Act. Richard was brought in by Dunfermline Building Society to assist with the challenges it was facing at the time.
- 5.4 Richard Pym has been Chairman of Northern Rock (Asset Management) plc since January 2010. Northern Rock plc was nationalised and taken into Government ownership in February 2008 and was then restructured into two legal entities on 31 December 2009 Northern Rock plc and

Northern Rock (Asset Management) plc. Richard was appointed Chief Executive of Bradford & Bingley in August 2008 and was appointed Chairman in November 2008. On 29 September 2008, all of Bradford & Bingley's retail branches and its savings accounts were transferred to Abbey, and subsequently rebranded Santander. The remainder of the business, including the mortgage books of Bradford & Bingley and specialist lending arm Mortgage Express were nationalised and taken into public ownership by the Government. Since July 2010 Richard has been Chairman of UK Asset Resolution Limited which was established to facilitate the orderly management of the closed mortgage books of both Bradford & Bingley plc and Northern Rock (Asset Management) plc to maximise value for taxpayers.

5.5 Trustee

- (a) The Law Debenture Trust Corporation p.l.c. (in its capacity as the trustee for each series of the Dated Notes) has a material interest in the Scheme by reason of being a Scheme Creditor. Law Debenture Trustees Limited will act as the Bank T2 Notes Trustee upon issuance of the Bank T2 Notes on the Scheme Settlement Date pursuant to the terms of the Bank T2 Notes Trust Deed.
- (b) Save as disclosed in this section 5 (*Material interests of Directors and Trustees*), the effect of the proposed Scheme on interests of the Trustees described in this section 5 (*Material interests of Directors and Trustees*) will not be different from the effect on like interests of other persons.
- (c) On the Scheme Settlement Date, The Law Debenture Trust Corporation p.l.c. (in its capacity as trustee for each series of the Dated Notes) will receive the benefit of releases granted under the terms of the Deed of Waiver and Release.

6. MATERIAL CONTRACTS

6.1 Scheme Creditors are referred to paragraph 20 entitled "*Material Contracts*" in section 20 "*Additional Information*" on pages 441 to 464 of the Bank T2 Notes Prospectus, which includes a summary of each contract that has been entered into (other than in the ordinary course of business) by the Company or any of its subsidiaries, which are material to the Company.

7. MATERIAL LITIGATION

7.1 Scheme Creditors are referred to paragraph 21 entitled "*Litigation and Arbitration*" in section 20 "*Additional Information*" on pages 464 to 467 of the Bank T2 Notes Prospectus, which sets out the governmental, legal or arbitration proceedings which may have or have had in the 12 months prior to the date of this Explanatory Statement a significant effect on the financial position or profitability of the Company and/or the Company and its subsidiaries. Scheme Creditors are also referred to pages 8 and 9 of the Supplementary Prospectus.

8. COSTS IN RELATION TO THE SCHEME

The Company has agreed to meet <u>certain of</u> the costs, charges, expenses and disbursements reasonably incurred by the Information Agent, the Common Depositaries, the Trustees and the LT2 Group in connection with the negotiation, preparation and implementation of the Scheme.

PART F

TAXATION

In view of the number of different jurisdictions where tax laws may apply to Scheme Creditors, this Explanatory Statement does not, save as set out or cross-referred to below in respect of certain United Kingdom taxation matters, discuss the tax consequences for Scheme Creditors arising from the exchange of their Dated Notes in the Scheme, the receipt or transfer of New Ordinary Shares and/or Bank T2 Notes or the receipt of Additional New Ordinary Shares.

The information regarding United Kingdom taxation set out or cross-referred to below is intended as a general summary of certain United Kingdom tax considerations and does not purport to be a complete analysis of all potential UK tax consequences for Scheme Creditors arising from the exchange of their Dated Notes in the Scheme. It is based on current UK tax law and what is understood to be the published practice of HM Revenue & Customs (HMRC) as at the date of this Explanatory Statement 18 November 2013, both of which are subject to change, possibly with retrospective effect. The information cross-referred to below is intended to apply only to:

- (a) in the case of paragraph 1 below, Scheme Creditors who are resident in the UK for UK tax purposes, who hold their Dated Notes as investments (other than under an individual savings account) and who are the beneficial owners of their Dated Notes;
- (b) in the case of paragraph 2 below, holders of the Bank T2 Notes who (unless the position of non-UK resident shareholders is expressly referred to in the part of the Bank T2 Notes Prospectus referred to in paragraph 2) are resident in the UK for UK tax purposes, who hold their Bank T2 Notes as investments (other than under an individual savings account) and who are the beneficial owners of their Bank T2 Notes and any interest paid on them
- (c) in the case of paragraph 3 below, holders of the New Ordinary Shares and Additional New Ordinary Shares who (unless the position of non-UK resident shareholders is expressly referred to therein, are resident in the UK for UK tax purposes, who hold their New Ordinary Shares and Additional New Ordinary Shares as investments (other than under an individual savings account) and who are the beneficial owners of their New Ordinary Shares and Additional New Ordinary Shares and any dividends paid on them;

The statements set out or cross-referred to in paragraphs 1, 2 or 3 below may not apply to certain classes of Scheme Creditors such as dealers in securities. The information set out or cross-referred to in paragraphs 1, 2 or 3 below is not exhaustive, nor is it tailored to any specific investor.

The information set out or cross-referred to in paragraphs 1, 2 or 3 below does not constitute tax advice. Scheme Creditors who are in any doubt as to their tax position regarding the exchange of their Dated Notes pursuant to the Scheme are urged to consult their own professional advisers regarding the possible tax consequences under the laws of the jurisdictions that apply to them.

Scheme Creditors are liable for their own taxes and have no recourse to the Company, the Dealer Managers, the Information Agent, the Registrars or any other entity or person named in this Explanatory Statement with respect to taxes arising in connection with the Scheme.

1. LIABILITY MANAGEMENT EXERCISE

Scheme Creditors are referred to the section entitled "Dated Notes" in Section I "Taxation Considerations" on pages C-158 to C-162 of the Offer Memorandum (which is appended to the Bank T2 Notes Prospectus) which discusses, in respect of certain United Kingdom tax matters, certain tax consequences for Scheme Creditors arising from the exchange of their Dated Notes in the Scheme.

2. POTENTIAL UK TAX CONSEQUENCES OF HOLDING THE BANK T2 NOTES

In addition to the above, Scheme Creditors are also directed to section 19 "*Taxation*" on pages 411 to 416 of the Bank T2 Notes Prospectus which contains further information relevant to the potential UK tax consequences of holding Bank T2 Notes.

3. POTENTIAL UK TAX CONSEQUENCES OF HOLDING NEW ORDINARY SHARES (INCLUDING ADDITIONAL NEW ORDINARY SHARES)

3.1 Disposal of New Ordinary Shares

(a) Taxation of Chargeable Gains

A disposal by a shareholder of all or any New Ordinary Shares or Additional New Ordinary Shares following their acquisition pursuant to the terms of the Scheme may, depending on the shareholder's circumstances (including the availability of exemptions and reliefs) give rise to a chargeable gain or an allowable loss.

United Kingdom Resident Individuals

A disposal by a shareholder within the charge to UK capital gains tax, such as an individual, trustee or personal representative, will, subject to the availability to the shareholder of any exemptions, reliefs and/or allowable losses (including the annual exempt amount which is £10,900 for the tax year 2013/2014), be subject to tax on any gain at the rate of 18 per cent. (in the case of individuals subject to income tax at the basic rate) or 28 per cent. (in the case of individuals subject to income tax at the higher or additional rates), with no taper relief or indexation allowance.

Individuals who are temporarily non-UK resident may, in certain circumstances, be subject to tax in respect of gains realised whilst they are not resident in the UK.

United Kingdom Corporation Tax Payers

Shareholders within the charge to UK corporation tax will, for the purposes of computing gains but not losses, be allowed to claim an indexation allowance.

3.2 Taxation of Dividends

(a) Withholding tax

The Company will not be required to withhold tax at source from dividend payments it makes.

(b) Taxation of Dividends

United Kingdom Resident Individuals

An individual shareholder who is resident in the UK for tax purposes and who receives a dividend from the Company will be entitled to a tax credit which may be set off against his total income tax liability on the dividend. The tax credit will be equal to 10 per cent. of the aggregate of the dividend and the tax credit (the gross dividend), or one-ninth of the amount of the cash dividend received.

The gross dividend will be regarded as the top slice of the individual's income.

A UK resident individual shareholder who is liable to income tax at the basic rate will be subject to income tax on the dividend at the rate of 10 per cent. of the gross dividend so that the tax credit will satisfy in full such shareholder's liability to income tax on the dividend.

A UK resident individual shareholder liable to income tax at the higher rate will be subject to income tax on the gross dividend at 32.5 per cent. but will be able to set the tax credit off against part of this liability. The effect of that set-off of the tax credit is that such a shareholder will have to account for additional tax equal to 22.5 per cent. of the gross dividend (or 25 per cent. of the net cash dividend received).

A UK resident individual shareholder liable to income tax at the additional rate will be subject to income tax on the gross dividend at 37.5 per cent. but will be able to set the tax credit off against part of this liability. The effect of that set-off of the tax credit is that such a shareholder will have to account for additional tax equal to 27.5 per cent. of the gross dividend (or just over 30.5 per cent. of the net cash dividend received).

A UK resident individual shareholder who is not liable to income tax in respect of the gross dividend and shareholders which are not generally liable to UK tax on dividends (including pension funds and charities) will not be entitled to any payment from HMRC in respect of the tax credit attached to the dividend.

United Kingdom Corporation Tax Payers

Shareholders which are "small companies" for the purposes of UK taxation of dividends will not generally be subject to tax on dividends received from the Company. Other shareholders within the charge to UK corporation tax will not be subject to tax on dividends received from the Company so long as the dividends fall within an exempt class and certain other conditions are met.

Corporate shareholders will not be entitled to any payment from HMRC in respect of the tax credit attaching to the Company's dividends.

3.3 Stamp Duty and Stamp Duty Reserve Tax

The following statements about UK stamp duty and stamp duty reserve tax (**SDRT**) apply regardless of whether or not a shareholder is resident or domiciled in the UK.

Issue of New Ordinary Shares pursuant to the Scheme

Following recent case law, no stamp duty or SDRT should be payable in the UK on the issue of the New Ordinary Shares or Additional New Ordinary Shares (or interests therein) into the Euroclear and Clearstream clearing systems.

No stamp duty or SDRT will be payable on the issue of New Ordinary Shares or Additional New Ordinary Shares into CREST or in certificated form.

Transfers of New Ordinary Shares or Additional New Ordinary Shares

In the case of transfers of New Ordinary Shares or Additional New Ordinary Shares within the Euroclear and Clearstream clearing systems, provided no election is made or has been made under section 97A of the Finance Act 1986 (that applies to the New Ordinary Shares or the Additional New Ordinary Shares), no stamp duty or SDRT should be payable on such a transfer of the New Ordinary Shares or Additional New Ordinary Shares, without an instrument of transfer.

Transfers of New Ordinary Shares or Additional New Ordinary Shares within the Euroclear and Clearstream clearing systems where an election is made or has been made under section 97A of the Finance Act 1986 (that applies to the New Ordinary Shares or the Additional New Ordinary Shares) will generally be subject to SDRT (rather than stamp duty) at the rate of 0.5 per cent. of the amount or value of the consideration.

Transfers of New Ordinary Share or Additional New Ordinary Shares or Additional New Ordinary Shares s in uncertificated form within the CREST system will generally be subject to SDRT (rather than stamp duty) at the rate of 0.5 per cent. of the amount or value of the consideration.

If New Ordinary Shares are held in certificated form outside CREST and the Euroclear and Clearstream clearing systems, transfers of such New Ordinary Shares or Additional New Ordinary Shares will generally be subject to stamp duty at the rate of 0.5 per cent. of the consideration given (rounded up to the nearest £5). SDRT may be payable on an agreement to transfer such New Ordinary Shares or Additional New Ordinary Shares generally at the rate of 0.5 per cent. of the consideration given under the agreement to transfer the New Ordinary Shares or Additional New Ordinary Shares. This charge to SDRT would be discharged if stamp duty is duly paid on the instrument transferring the New Ordinary Shares or Additional New Ordinary Shares, within six years of the date of the agreement.

If New Ordinary Shares or Additional New Ordinary Shares (or interests therein) are subsequently transferred into the Euroclear and Clearstream clearing systems, stamp duty or SDRT will generally be payable at the rate of 1.5 per cent. of the amount or value of the consideration given or, in certain circumstances, the value of the shares (save to the extent that an election is made or has been made under section 97A of the Finance Act 1986 that applies to the New Ordinary Shares or the Additional New Ordinary Shares as relevant).

THE ABOVE DESCRIPTION OF TAXATION IS GENERAL IN CHARACTER. IF YOU ARE IN ANY DOUBT AS TO YOUR TAX POSITION, YOU SHOULD CONSULT AN APPROPRIATE PROFESSIONAL ADVISER WITHOUT DELAY.

	Definitions and Interpretation

1. DEFINITIONS AND INTERPRETATION

- 1.1 In this Scheme, unless inconsistent with the subject or context, the following expressions shall have the following meanings:
 - **5.5555% Bondholders** means the holders of the 5.5555% Bonds.
 - **5.5555% Bondholders Meeting** means the meeting of the 5.5555% Bondholders convened in connection with the Liability Management Exercise (including any adjournment of such meeting).
 - **5.5555%** Bonds means the 5.5555% perpetual subordinated bonds with ISIN: GB00B3VMBW45 issued by the Company in replacement of Britannia Building Society permanent interest bearing shares upon the Company's acquisition of Britannia Building Society on 1 August 2009.
 - 13% Bondholders means the holders of the 13% Bonds.
 - **13% Bondholders Meeting** means the meeting of the 13% Bondholders convened in connection with the Liability Management Exercise (including any adjournment of such meeting).
 - 13% Bonds means the 13% perpetual subordinated bonds with ISIN: GB00B3VH4201 issued by the Company in replacement of Britannia Building Society permanent interest bearing shares upon the Company's acquisition of Britannia Building Society on 1 August 2009.
 - **2016 Notes** means the floating rate callable step-up dated subordinated notes due 2016 with ISIN: XS0254625998 originally issued by Britannia Building Society and assumed by the Company upon the Company's acquisition of Britannia Building Society on 1 August 2009.
 - **2016 Notes Noteholder** means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2016 Notes as at the Record Date, whose interests in the 2016 Notes are held through records maintained in book entry form by a Clearing System.
 - **2019 Notes** means the 5.875% subordinated callable notes due 2019 with ISIN: XS0189539942 issued by the Company.
 - **2019** Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2019 Notes as at the Record Date, whose interests in the 2019 Notes are held through records maintained in book entry form by a Clearing System.
 - 2022 Notes means the 7.875% subordinated notes due 2022 with ISIN: XS0864253868 issued by the Company.
 - **2022 Notes Noteholder** means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2022 Notes as at the Record Date, whose interests in the 2022 Notes are held through records maintained in book entry form by a Clearing System.
 - **2024 Notes** means the 5.75% dated callable step-up subordinated notes due 2024 with ISIN: XS0188218183 originally issued by Britannia Building Society and assumed by the Company upon the Company's acquisition of Britannia Building Society on 1 August 2009.

2024 Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2024 Notes as at the Record Date, whose interests in the 2024 Notes are held through records maintained in book entry form by a Clearing System.

2033 Notes means the 5.875% subordinated notes due 2033 with ISIN: XS0145065602 originally issued by Britannia Building Society and assumed by the Company upon its acquisition of Britannia Building Society on 1 August 2009.

2033 Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2033 Notes as at the Record Date, whose interests in the 2033 Notes are held through records maintained in book entry form by a Clearing System.

Account Holder means any person recorded directly in the records of a Clearing System as holding an interest in any Dated Notes in an account with the relevant Clearing System either for its own account or on behalf of its client.

Account Holder Letter means the account holder letter substantially in the form set out in appendix 3 of the Explanatory Statement or such other account holder letter (or similar document or series of documents) as the Company considers appropriate to assist with and/or facilitate the participation by Noteholders who hold their interests in the Dated Notes through Crest, in the Scheme.

Additional New Ordinary Shares means 62,500,00033,333,334 ordinary shares to be issued by the Company for an aggregate consideration equal to £125,000,000125,000,002.50 pursuant to the terms of the Additional New Ordinary Shares Offer.

Additional New Ordinary Shares Offer means the offer by the Company to the Noteholders to elect to subscribe for the Additional New Ordinary Shares on the terms described in paragraphs 2.22 to 2.30 of part B (*Overview of the Scheme*) of the Explanatory Statement.

Allowed Proceeding means any Proceeding by a Scheme Creditor to enforce its rights under this Scheme where any person fails to perform its obligations under this Scheme.

Alternative Recipient has the meaning given to that term in Clause 35.

April 2021 Notes means the 9.25% subordinated notes due April 2021 with ISIN: XS0620315902 issued by the Company.

April 2021 Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the April 2021 Notes as at the Record Date, whose interests in the April 2021 Notes are held through records maintained in book entry form by a Clearing System.

Bank T2 Notes means a principal amount equal to £100,000,000 of the 11 per cent. subordinated notes due 2023 (ISIN: GB00BFXW0853) to be issued by the Company pursuant to Clause 17, the terms of which are described in detail in the Bank T2 Notes Prospectus.

Bank T2 Notes and New Ordinary Shares Registrar Agreement means the agreement between the Company and Computershare Investor Services PLC dated on or about the Scheme Settlement Date in relation to the provision of paying agency and registrar services.

Bank T2 Notes Paying Agent means Computershare Investor Services PLC in its capacity as paying agent for the Bank T2 Notes.

Bank T2 Notes Prospectus means the debt prospectus relating to the Bank T2 Notes set out in appendix 9 of dated 4 November 2013, together with the Supplementary Prospectus, both of which are appended to the Explanatory Statement: in appendix 9.

Bank T2 Notes Registrar means Computershare Investor Services PLC in its capacity as registrar for the Bank T2 Notes.

Bank T2 Notes Trust Deed means the trust deed between the Company and the Bank T2 Notes Trustee relating to the Bank T2 Notes.

Bank T2 Notes Trustee means Law Debenture Trustees Limited in its capacity as trustee for the Bank T2 Notes.

Business Day means a day (other than a Saturday or Sunday) on which banks are open for general business in London and which is a Target Day.

Clearing Systems means Clearstream, Luxembourg and Euroclear.

Clearstream, Luxembourg means Clearstream Banking, société anonyme.

Common Depositaries means Bank of New York Mellon, London Branch and Citibank Europe PLC as the common depositaries for Clearstream, Luxembourg and Euroclear with whom the Global Notes have been deposited.

Companies Act means the Companies Act 2006.

Company means The Co-operative Bank p.l.c.

Company Custody Account means one or more custody accounts in the Clearing Systems held on behalf of the Company.

Co-operative Group means The Co-operative Group Limited, an industrial and provident society incorporated in England with registered number IP525R.

Court means the High Court of Justice of England and Wales.

Dated Notes means the 2016 Notes, the 2019 Notes, the April 2021 Notes, the November 2021 Notes, the 2022 Notes, the 2024 Notes and the 2033 Notes.

Deed of Waiver and Release means the deed of waiver and release substantially in the form set out in Schedule 1.

Designated Recipient means any person appointed under a valid Account Holder Letter delivered to and received by the Information Agent on behalf of a Noteholder to receive the Scheme Consideration to which that Noteholder is entitled pursuant to the terms of this Scheme, provided that such person is an Eligible Person.

Distribution Agreement means the distribution agreement substantially in the form set out in Schedule 2.

Distribution Instruction Certificate has the meaning given to that term in the Distribution Agreement.

Eligible Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which

includes a confirmation that such Noteholder (or, if such Noteholder has appointed a Designated Recipient, its Designated Recipient) is an Eligible Person.

Eligible Person means a person in relation to whom the offer to, issue to or subscription by such person in respect of any New Ordinary Shares, Bank T2 Notes (and, if applicable, Additional New Ordinary Shares):

- (a) would not be unlawful or prohibited under the laws of any applicable jurisdiction; and
- (b) would not, or would not be likely to, result in the Company being required to comply with any filing, registration, disclosure or other onerous requirement in any jurisdiction where that person is a citizen or subject to the laws of or in which that person is domiciled or resident.

Euroclear means Euroclear Bank S.A./N.V. as operator of the Euroclear clearing system.

Explanatory Statement means the explanatory statement dated 18 November 2013 (as amended on 4 December 2013) of the Company circulated to the Scheme Creditors in connection with this Scheme pursuant to section 897 of the Companies Act.

Global Notes has the meaning given to that term in Recital (C).

Holding Period means the period of 36 months following the Scheme Settlement Date.

Holding Period Trustee means Lucid Issuer Services Limited.

Ineligible Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which includes a confirmation that such Noteholder is not an Eligible Person and has not appointed a Designated Recipient.

Information Agent means Lucid Issuer Services Limited.

Liability or **Liabilities** means any debt, liability or obligation of a person whether it is present, future, prospective or contingent, whether or not it is fixed or undetermined, whether or not it involves the payment of money or performance of an act or obligation and whether it arises at common law, in equity or by statute, in England and Wales or any other jurisdiction, or in any manner whatsoever.

Liability Management Exercise means the liability management exercise of the Company, the terms of which are described in Part B (*Overview of the Liability Management Exercise*) of the Explanatory Statement.

Lock-up Agreement means an agreement between the Company and a Noteholder, pursuant to which that Noteholder has agreed, among other things and subject to certain conditions, to vote its Scheme Claim in favour of this Scheme.

Lock-up Arrangement means a Lock-up Agreement or a Lock-up Undertaking.

Lock-up Undertaking means an undertaking by an Account Holder given on behalf of a Noteholder in favour of the Company pursuant to a valid Account Holder Letter delivered to and received by the Information Agent on behalf of that Noteholder, pursuant to which that Noteholder has agreed, among other things and subject to certain conditions, to vote its Scheme Claim in favour of this Scheme.

London Stock Exchange means the London Stock Exchange Group plc.

Longstop Date means 31 December 2013.

Modified Scheme Purchase Agreement means the agreement between the Company and the Modified Scheme Purchasers dated on or about 1 December 2013 pursuant to which the Modified Scheme Purchasers have agreed to purchase Additional New Ordinary Shares on the terms set out therein.

<u>Modified Scheme Purchaser Premium</u> means the premium described in paragraph 2.32 of part B (*Overview of the Scheme*) of the Explanatory Statement.

Modified Scheme Purchasers means the persons listed in column 1 of schedule 3 to the Modified Scheme Purchase Agreement, in their capacities as modified scheme purchasers pursuant to the terms of the Modified Scheme Purchase Agreement.

New Administrative Parties means the Bank T2 Notes Trustee, the Bank T2 Notes Registrar, the Bank T2 Notes Paying Agent and the New Ordinary Shares Registrar.

New Ordinary Shares means <u>112,500,000</u>141,666,666 ordinary shares to be issued by the Company pursuant to Clause 17.

New Ordinary Shares Conversion Price means £7.7718276.6.17566631.

New Ordinary Shares Registrar means Computershare Investor Services PLC as registrar for the New Ordinary Shares and the Additional New Ordinary Shares.

New Transaction Documents means the Bank T2 Notes Trust Deed and the Bank T2 Notes and New Ordinary Shares Registrar Agreement.

Noteholders means the 2016 Notes Noteholders, the 2019 Notes Noteholders, the April 2021 Notes Noteholders, the November 2021 Notes Noteholders, the 2022 Notes Noteholders, the 2024 Notes Noteholders and the 2033 Notes Noteholders.

November 2021 Notes means the fixed/floating rate subordinated notes due November 2021 with ISIN: XS0274155984 issued by the Company.

November 2021 Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the November 2021 Notes as at the Record Date, whose interests in the November 2021 Notes are held through records maintained in book entry form by a Clearing System.

Offer Memorandum means the consent and exchange offer memorandum appended to the Bank T2 Notes Prospectus- (including any amendments thereto under the Supplementary Prospectus).

Preference Shareholders means the holders of the Preference Shares.

Preference Shareholders Meeting means the meeting of the Preference Shareholders convened in connection with the Liability Management Exercise (including any adjournment of such meeting).

Preference Shares means the 9.25% non-cumulative irredeemable preference shares with ISIN: GB0002224516 issued by the Company.

Preference Shares Exchange Offer means the offer to exchange the Preference Shares in accordance with the terms of the Liability Management Exercise.

Proceeding means any process, suit, action, legal or other proceeding including without limitation any arbitration, mediation, alternative dispute resolution, judicial review, adjudication, demand, execution, distraint, restraint, forfeiture, re-entry, seizure, lien, enforcement of judgment or enforcement of any security.

Prohibited Proceedings means any Proceeding against the Company or its property in any jurisdiction whatsoever other than an Allowed Proceeding.

Proposal has the meaning given to that term in the Offer Memorandum.

Purchase Agreement means the agreement between the Company and the Purchasers dated on or about 4 November 2013 pursuant to which the Purchasers have agreed to purchase Additional New Ordinary Shares on the terms set out therein.

Purchaser Premium means the premium described in paragraph 2.32 of part B (Overview of the Scheme) of the Explanatory Statement.

Purchasers means the persons listed in column 1 of schedule 3 to the Purchase Agreement and the persons numbered 5 to 43 (inclusive) in part 1 of appendix 1 to the Deed of Waiver and Release, in their capacities as purchasers pursuant to the terms of the Purchase Agreement.

Record Date means 4.30 p.m. (London time) on 1013 December 2013.

Registrar of Companies means the Registrar of Companies of England and Wales.

Released Parties has the meaning given to that term in the Deed of Waiver and Release.

Sale Instruction Certificate has the meaning given to that term in the Distribution Agreement.

Scheme means this scheme of arrangement in respect of the Company under Part 26 of the Companies Act in its present form or with or subject to any modification, addition or condition approved or imposed by the Court or approved in accordance with the terms of this Scheme.

Scheme Claim means any claim in respect of any Liability of the Company to any person arising out of an interest in the Dated Notes, arising on or before the Record Date or which may arise after the Record Date as a result of an obligation or Liability of the Company incurred or as a result of an event occurring or an act done on or before the Record Date (including, for the avoidance of doubt, any interest accruing on, or accretions arising in respect of, such claims before or after the Record Date), excluding any Liability of the Company to the Trustees under the Trust Deeds other than in respect of the covenants to repay principal and interest on the Dated Notes pursuant to the Trust Deeds.

Scheme Consideration means the New Ordinary Shares and the Bank T2 Notes.

Scheme Consideration Calculation Amount means, with respect to a Noteholder, the aggregate of (i) the aggregate principal amount outstanding of the Dated Notes (other than 2016 Notes) and accrued but unpaid interest thereon up to (and including) the Record Date held by that Noteholder (if any) and (ii) the Sterling-Equivalent principal amount outstanding of the 2016 Notes and accrued but unpaid interest thereon up to (and including) the Record Date held by that Noteholder (if any), in each case as at the Record Date.

Scheme Creditor means the Common Depositaries, the Trustees (solely in their capacities as the beneficiaries of the covenants to repay principal and interest on the Dated Notes pursuant to the Trust Deeds) and the Noteholders.

Scheme Effective Date means the date on which an office copy of the order of the Court sanctioning this Scheme under Section 899 of the Companies Act has been delivered to the Registrar of Companies.

Scheme FX Rate means the rate of exchange between Sterling and Euro appearing on or derived from the Bloomberg service designated as the "FXC" page for the purpose of displaying that rate of exchange, as determined by the Company on 30 October 2013, being £0.85644 to €1.

Scheme Meeting means the meeting of the Scheme Creditors to vote on this Scheme convened pursuant to an order of the Court (and any adjournment of such meeting).

Scheme Sanction Hearing means the hearing of the Court at which the Court sanctioned this Scheme pursuant to the order of the Court under Section 899 of the Companies Act.

Scheme Settlement Condition means the condition described in Clause 5.

Scheme Settlement Condition Testing Date means the latest to occur of:

- (a) the Scheme Effective Date; and
- (b) the date on which the resolutions proposed at each of the Preference Shareholders Meeting, the 5.5555% Bondholders Meeting and the 13% Bondholders Meeting and the general meeting of the Company referred to in Clause 5 have been voted on and each such meeting has been concluded.

Scheme Settlement Date means the date on which the Scheme Consideration and the Additional New Ordinary Shares are issued.

Selling Agent means TFS Derivatives Limited and Tradition (UK) Limited.

Sterling-Equivalent means, with respect to any principal amount outstanding and/or amount of accrued but unpaid interest in respect of the 2016 Notes, the amount of such principal amount outstanding and/or amount of accrued but unpaid interest in Euro notionally converted into Sterling at the Scheme FX Rate.

Subscribing Noteholder means a Noteholder who elects to participate in the Additional New Ordinary Shares Offer.

Subscription Escrow Account means the interest bearing Sterling cash escrow account with the Subscription Escrow Bank in the name of Lucid Issuer Services Limited to hold subscription monies in accordance with the terms of the Additional New Ordinary Shares Offer, the Sub-purchasing Offer and the Modified Scheme Purchase Agreement.

Subscription Escrow Bank means BNP Paribas, London branch.

Sub-purchasers means the Noteholders which elect to participate in the Sub-purchasing Offer.

Sub-purchaser Premium means the premium described in paragraph 2.44 of part B (*Overview of the Scheme*) of the Explanatory Statement.

Sub-purchasing Offer means the entitlement of Noteholders to participate in the sub-purchasing of the agreement by the <u>Modified Scheme</u> Purchasers to back-stop the purchase of Additional New

Ordinary Shares as set out in the <u>Modified Scheme</u> Purchase Agreement, as described in paragraphs 2.33 to 2.44 of part B (*Overview of the Scheme*) of the Explanatory Statement.

<u>Supplementary Prospectus</u> means the supplementary prospectus relating to the Bank T2 Notes dated 4 December 2013 which is appended to the Explanatory Statement in appendix 9.

Target Day means a day on which the Trans European Automated Real-Time Gross Settlement Express Transfer payment system is open for settlement of payments in Euro.

Trustees means The Law Debenture Trust Corporation p.l.c. in its capacity as trustee for each of the Dated Notes.

Trust Deeds mean the trust deeds relating to the Dated Notes.

Unadmitted Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has not been delivered to and received by the Information Agent before the Voting Instruction Deadline, other than any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date and in relation to whom the Company exercises its discretion to issue Scheme Consideration on the Scheme Settlement Date in accordance with Clauses 17(a)(ii) and 17(b)(ii).

Undertaking Transaction Parties means the Trustees, the Common Depositaries, the Holding Period Trustee, the Information Agent, the Selling Agent, the <u>Modified Scheme</u> Purchasers, Cooperative Group and the New Administrative Parties.

Voting Instruction Deadline means 4.30 p.m. (London time) on $\frac{1013}{1000}$ December 2013.

- 1.2 In this Scheme, unless the context otherwise requires or otherwise expressly provides for:
 - (a) references to Recitals, Clauses, Subclauses and Schedules are references to recitals, parts, clauses, subclauses and schedules of this Scheme;
 - (b) references to a person include a reference to an individual, firm, partnership, company, corporation, unincorporated body of persons or any state or state agency;
 - (c) references to a statute, statutory provision or regulatory rule or guidance include references to the same as subsequently modified, amended or re-enacted from time to time;
 - (d) unless the context otherwise requires, references to an agreement, deed or document shall be deemed also to refer to such agreement, deed or document as amended, supplemented, restated, verified, replaced and/or novated (in whole or in part) from time to time and to any agreement, deed or document executed pursuant thereto;
 - (e) the singular includes the plural and *vice versa* and words importing one gender shall include all genders;
 - (f) references to "including" shall be construed as references to "including without limitation" and "include", "includes" and "included" shall be construed accordingly;
 - (g) headings to Recitals, Clauses, Subclauses and Schedules are for ease of reference only and shall not affect the interpretation of this Scheme;

- (h) references to a period of days shall include Saturdays, Sundays and public holidays and where the date which is the final day of a period of days is not a Business Day, that date will be adjusted so that it is the first following day which is a Business Day;
- (i) references to "Sterling" or to "£" are references to the lawful currency from time to time of the United Kingdom;
- (j) references to "Euro" or to "€" are references to the lawful currency from time to time of the member states of the European Community that adopt or have adopted the euro as their lawful currency under the legislation of the European Community for Economic and Monetary Union; and
- (k) references to time shall be to London time (Greenwich Mean Time or British Summer Time, as appropriate).

2. RECITALS

The Company

- (A) The Company was incorporated in England on 5 October 1970 with registered number 990937 under the name Co-operative Bank Limited and on 21 May 1981 was re-registered as a public limited company and changed its name to Co-operative Bank Public Limited Company. The Company changed its name to The Co-operative Bank p.l.c. on 10 January 1993.
- (B) As at the date hereof, the authorised share capital of the Company is £410,000,000 divided into 8,200,000,000 ordinary shares of par value £0.05 each, all of which have been issued and are fully paid up, and the Preference Shares.

Dated Notes Issued by the Company

- (C) The Dated Notes are held under arrangements whereby:
 - (i) the Dated Notes have been constituted by the Trust Deeds with the trustee for each of the series being the Trustee;
 - (ii) the Dated Notes were issued wholly in global bearer form, the global notes representing the Dated Notes (the **Global Notes**) being held by the Common Depositaries;
 - (iii) interests in the Dated Notes while represented by the Global Notes are held by the Noteholders under systems designed to facilitate paperless transactions;
 - (iv) the systems designed to facilitate paperless transactions involve interests in the Dated Notes being held by Account Holders; each Account Holder may be holding interests in the Dated Notes on behalf of one or more Noteholders; and
 - (v) in the circumstances set out in the terms and conditions relating to the Dated Notes, Noteholders may exchange their interests in any Dated Note for definitive notes.
- (D) The Dated Notes will remain in global form and will not be exchanged into definitive form under or pursuant to this Scheme. References in this Scheme to Dated Notes being held by a Noteholder shall be treated for all purposes as references to the interest held by the relevant Noteholder in the relevant Global Note.

Scheme Consideration and Additional New Ordinary Shares

- (E) The Scheme Consideration and the Additional New Ordinary Shares will be issued in registered form and interests in the Scheme Consideration and Additional New Ordinary Shares while represented in registered form will be held under systems designed to facilitate paperless transactions.
- (F) References in this Scheme to any Scheme Consideration or Additional New Ordinary Shares being issued or delivered to a person shall be treated for all purposes as references to that person acquiring directly or indirectly through one or more intermediaries interests in the relevant Scheme Consideration or Additional New Ordinary Shares in accordance with the rules and procedures of the relevant Clearing System.

107

Binding of Third Parties

- (G) The Undertaking Transaction Parties have each:
 - (i) appeared by counsel on the petition to sanction this Scheme and undertaken to the Court to; and/or
 - (ii) executed a deed of undertaking in favour of the Court and the Company pursuant to which they have undertaken and agreed to:

amongst other matters, execute and do or procure to be executed or done all such documents, acts and things as may be necessary or desirable to be executed or done by it for the purpose of giving effect to this Scheme.

The Purpose of this Scheme

(H) The purpose of this Scheme is to effect a compromise and arrangement between the Company and the Scheme Creditors.

The Dated Notes and this Scheme

- (I) The Scheme Creditors consist of:
 - (i) each of the Common Depositaries as a holder of one or more Global Notes and each of the Trustees solely in its capacity as the beneficiary of the covenant to repay principal and pay interest on the Dated Notes pursuant to the relevant Trust Deed; and
 - (ii) the Noteholders as the beneficial owners of and/or persons with the ultimate economic interest in the Dated Notes.

Insofar as it relates to a Trustee, any reference in this Scheme to the Scheme Creditors authorising, directing or instructing a Trustee (whether on its own or as part of a wider group) will be treated for all purposes as an authorisation, direction or instruction of that Trustee in its capacity as a Scheme Creditor to that Trustee in its capacity as the trustee under the relevant Trust Deed to the extent that it is entitled to do so.

- (J) (i) The Trustees have agreed not to vote in respect of the Dated Notes at the Scheme Meeting;
 - (ii) the Common Depositaries have agreed not to vote in respect of the Dated Notes at the Scheme Meeting; and
 - (iii) Noteholders are entitled to vote at the Scheme Meeting in respect of each of their Dated Notes. Noteholders have been invited to instruct their Account Holders as to the manner in which the Account Holder Letters delivered in respect of their Dated Notes should be completed, including, in particular, how they wish to vote in respect of their Dated Notes.

3. THE SCHEME

Application and Effectiveness of this Scheme

- 1. The compromise and arrangement effected by this Scheme shall apply to all Scheme Claims and bind all Scheme Creditors.
- 2. This Scheme shall become effective in accordance with its terms on the Scheme Effective Date and all of the right, title and interest of Scheme Creditors to Scheme Claims shall be subject to the compromises and arrangements set out in this Scheme.
- 3. If the Scheme Settlement Date does not occur on or before the Longstop Date, the terms of and the obligations on the parties under or pursuant to this Scheme shall lapse and all the compromises and arrangements provided by this Scheme shall be of no effect.

Condition Precedent to the Occurrence of the Scheme Settlement Date

4. It shall be a condition precedent to the occurrence of the Scheme Settlement Date (and the actions to be taken pursuant to the terms of this Scheme on the Scheme Settlement Date) that (i) the Scheme Settlement Condition has been satisfied and (ii) an amount in cleared funds equal to or greater than £125,000,000 is standing to the credit of the Subscription Escrow Account.

Scheme Settlement Condition

- 5. The Scheme Settlement Condition will be satisfied if, on the Scheme Settlement Condition Testing Date:
 - (a) the Scheme Effective Date has occurred;
 - (b) the Proposal in respect of the Preference Shares (i) has been approved by the requisite majority of the Preference Shareholders at the Preference Shareholders Meeting (and a resolution in similar terms must also be approved at a general meeting of the shareholders of the Company) and (ii) is capable of being implemented in accordance with the terms of that Proposal as set out in the Offer Memorandum;
 - (c) the the Proposal in respect of the 5.5555% Bonds (i) has been approved by the requisite majority of the 5.5555% Bondholders at the 5.5555% Bondholders Meeting and (ii) is capable of being implemented in accordance with the terms of that Proposal as set out in the Offer Memorandum; and
 - (d) the Proposal in respect of the 13% Bonds (i) has been approved by the requisite majority of the 13% Bondholders at the 13% Bondholders Meeting and (ii) is capable of being implemented in accordance with the terms of that Proposal as set out in the Offer Memorandum.
- 6. As soon as reasonably practicable after determining whether the Scheme Settlement Condition has been satisfied, the Company shall give the Scheme Creditors notice by the issue of an announcement through the Clearing Systems.
- 7. The Company shall procure that the Scheme Settlement Date occurs as soon as reasonably practicable following the satisfaction of the conditions precedent referred to in Clause 4.

Compromise of Scheme Claims

8. On the Scheme Settlement Date, subject to the terms of this Scheme:

- (a) all of the right, title and interest of the Scheme Creditors in the Scheme Claims shall be transferred absolutely to the Company; and
- (b) the Company shall for itself and/or on behalf of each Scheme Creditor pursuant to the authority granted under Clause 13 direct each Clearing System in accordance with the rules and procedures of that Clearing System to:
 - (i) debit from the custody account of each Account Holder all the interests in the Dated Notes held by that Account Holder; and
 - (ii) credit to the Company Custody Account the interests in the Dated Notes debited pursuant to Subclause (b)(i) above.
- 9. Following the transfer of all of the right, title and interest of the Scheme Creditors in the Scheme Claims in accordance with Clause 8, the Dated Notes shall be cancelled and all Scheme Claims shall be satisfied and released fully and absolutely, in each case so as to bind the Scheme Creditors and any person who acquires any interest in or arising out of a Scheme Claim after the Record Date.
- 10. In consideration for the transfer, satisfaction and release referred to in Clauses 8 and 9, the Company shall issue the Scheme Consideration and each Scheme Creditor shall be entitled to receive its share of the Scheme Consideration, in each case in accordance with and subject to the terms of this Scheme and the terms of the Distribution Agreement.

Instructions, Authorisations and Directions

- 11. On the Scheme Effective Date, in consideration of the rights of the Scheme Creditors under this Scheme and notwithstanding any term of any relevant document, the Scheme Creditors:
 - (a) hereby irrevocably direct each of the Trustees to execute and do, and to instruct any other person which it is entitled to instruct to execute and do, or otherwise procure to be executed and done, all documents, acts or things as may be necessary or desirable to be executed or done by it or such other person for the purposes of giving effect to the terms of this Scheme;
 - (b) hereby irrevocably authorise the Company to execute and do, and to instruct any other person which it is entitled to instruct to execute and do, or otherwise procure to be executed and done, all documents (including, without limitation, the New Transaction Documents), acts or things as may be necessary or desirable to be executed or done by it or such other person for the purposes of giving effect to the terms of this Scheme; and
 - (c) hereby request and to the extent they are entitled to do so instruct the Company to perform each of its obligations arising under this Scheme and each New Transaction Document.
- 12. The directions, instructions and authorisations granted under Clause 11 shall be treated, for all purposes whatsoever and without limitation, as having been granted by deed.

Grant of Authority

- 13. Each of the Scheme Creditors hereby irrevocably authorises the Company on and from the Scheme Effective Date to enter into, execute and deliver as a deed (or otherwise) on behalf of that Scheme Creditor in its capacity as a Scheme Creditor (including any person to whom a Scheme Creditor has transferred its rights in respect of its Scheme Claim after the Record Date) (to the extent applicable):
 - (a) each direction described in Clause 8 and any document in connection with the actions described in Clauses 8 and 9;

- (b) the Deed of Waiver and Release
- (c) the Distribution Agreement; and
- (d) any and all other documents that the Company reasonably considers necessary or desirable to give effect to the terms of this Scheme,

on the Scheme Settlement Date (in respect of the documents referred to in Subclauses (a) and (b) above) and on any day from (and including) the Scheme Effective Date (in respect of the documents referred to in Subclauses (c) and (d) above) for the purposes of giving effect to the terms of this Scheme. The authority granted under this Clause 13 shall be treated, for all purposes whatsoever and without limitation, as having been granted by deed.

Entitlements of Noteholders to Scheme Consideration

14. Subject to Clauses 18 to 32 of this Scheme, each Noteholder shall be entitled to receive Scheme Consideration pursuant to Clause 17 on the following basis.

(a) New Ordinary Shares

Each Noteholder shall be entitled to receive a number of New Ordinary Shares equal to:

$$\frac{(N \times 0.8973743)}{C}$$

Where:

- N equals the Scheme Consideration Calculation Amount for that Noteholder
- C equals the New Ordinary Shares Conversion Price

(b) **Bank T2 Notes**

Each Noteholder shall be entitled to receive a principal amount of Bank T2 Notes equal to:

$$N \times 0.1026357$$

Where:

N equals the Scheme Consideration Calculation Amount for that Noteholder

Fractional Entitlements

- 15. If the number of New Ordinary Shares resulting from any calculation made in accordance with Clause 14(a) is not a whole number, that number shall be rounded down to the nearest whole number and the relevant Noteholder shall have no entitlement to any resulting fractional amount.
- 16. If the principal amount of Bank T2 Notes resulting from any calculation made in accordance with Clause 14(b) is not an integral multiple of £10, that amount shall be rounded down to the nearest integral multiple of £10 and the relevant Noteholder shall have no entitlement to any resulting fractional amount.

Scheme Consideration

- 17. On the Scheme Settlement Date and subject to the terms of this Scheme, the Company shall issue the Scheme Consideration on the following basis:
 - (a) the Company shall issue the New Ordinary Shares to:
 - (i) the Eligible Noteholders on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline (or, to the extent applicable, their Designated Recipients and/or Alternative Recipients);
 - (ii) the Eligible Noteholders (if any) on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date (or, to the extent applicable their Designated Recipients), in each case at the sole discretion of the Company; and
 - (iii) the Holding Period Trustee (on behalf of (A) the Ineligible Noteholders on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline and (B) the Unadmitted Noteholders); and
 - (b) the Company shall issue the Bank T2 Notes to:
 - the Eligible Noteholders on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline (or, to the extent applicable, their Designated Recipients and/or Alternative Recipients);
 - (ii) the Eligible Noteholders (if any) on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date (or, to the extent applicable their Designated Recipients), in each case at the sole discretion of the Company; and
 - (iii) the Holding Period Trustee (on behalf of (A) the Ineligible Noteholders on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline and (B) the Unadmitted Noteholders).

Eligible Noteholders

- 18. Each Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the Voting Instruction Deadline (or, to the extent applicable, its Designated Recipient and/or Alternative Recipient) will receive the Scheme Consideration to which it is entitled in accordance with the terms of this Scheme on the Scheme Settlement Date.
- 19. Each Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date and in relation to whom the Company exercises its discretion to issue Scheme Consideration on the Scheme Settlement Date in accordance with Clauses 17(a)(ii) and 17(b)(ii) (or, to the extent applicable, its Designated Recipient) will receive the Scheme Consideration to which it is entitled in accordance with the terms of this Scheme on the Scheme Settlement Date.

- 20. Any Scheme Consideration to which an Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent after the Voting Instruction Deadline but before the end of the Holding Period (other than any Eligible Noteholder referred to in Clause 19) will be held by the Holding Period Trustee on trust for such Eligible Noteholder, in accordance with the terms of this Scheme and the Distribution Agreement.
- 21. In respect of any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent after the Voting Instruction Deadline but before the end of the Holding Period (other than any Eligible Noteholder referred to in Clause 19), as soon as reasonably practicable following the date on which that Account Holder Letter has been delivered to and received by the Information Agent and the Distribution Instruction Certificate relating thereto has been delivered by the Information Agent to the Holding Period Trustee in accordance with the terms of the Distribution Agreement, the Holding Period Trustee shall deliver the Scheme Consideration to which that Eligible Noteholder is entitled in accordance with the terms of this Scheme (including any interest, dividends, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee in respect of such Scheme Consideration, in each case net of any applicable taxes (including, without limitation, any withholding taxes but excluding any stamp duty and/or stamp duty reserve tax payable upon the issue and/or allotment of New Ordinary Shares and/or Bank T2 Notes to that Eligible Noteholder in accordance with the terms of the Distribution Agreement)) to that Eligible Noteholder (or, to the extent applicable, its Designated Recipient).

Ineligible Noteholders

- 22. Any Scheme Consideration to which an Ineligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the Voting Instruction Deadline is entitled in accordance with the terms of the Scheme shall be delivered to the Holding Period Trustee on the Scheme Settlement Date (as described in Clause 17 and the Distribution Agreement). The Holding Period Trustee shall hold any such Scheme Consideration on trust for that Ineligible Noteholder, in accordance with the terms of this Scheme and the Distribution Agreement.
- 23. As soon as reasonably practicable after receipt by the Holding Period Trustee of (i) any Scheme Consideration to which an Ineligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the Voting Instruction Deadline is entitled in accordance with the terms of the Scheme and (ii) a Sale Instruction Certificate relating thereto delivered in accordance with the terms of the Distribution Agreement, the Holding Period Trustee shall instruct the Selling Agent to sell such Scheme Consideration in accordance with the terms of the Distribution Agreement.
- 24. Any Scheme Consideration to which an Ineligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent after the Voting Instruction Deadline but before the end of the Holding Period will be held by the Holding Period Trustee on trust for such Ineligible Noteholder, in accordance with the terms of this Scheme and the Distribution Agreement.
- 25. In respect of any Ineligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent after the Voting Instruction Deadline but before the end of the Holding Period, as soon as reasonably practicable following the date on which that Account Holder Letter has been delivered to and received by the Information Agent and the Sale Instruction Certificate relating thereto has been delivered by the Information Agent to the Holding Period Trustee in accordance with the terms of the Distribution Agreement, the Holding Period Trustee shall instruct the Selling Agent to sell the Scheme Consideration to which that Ineligible Noteholder is entitled in accordance with the terms of the Distribution Agreement.

- Any sale of Scheme Consideration shall be effected in accordance with the terms of the Distribution Agreement which provide, among other things, that (i) any such sale shall be effected upon the best terms available in the market at the time of the sale and (ii) without prejudice to the ability of the Holding Period Trustee to do so, the Holding Period Trustee shall be under no obligation to sell or instruct the Selling Agent to sell any New Ordinary Shares or distribute any interest, dividends, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee during the Holding Period in respect of such New Ordinary Shares until admission of the New Ordinary Shares to the Official List of the United Kingdom Listing Authority and admission to trading on the London Stock Exchange's market for listed securities.
- 27. As soon as reasonably practicable after the sale of any Scheme Consideration (or any part thereof) to which an Ineligible Noteholder is entitled in accordance with the terms of this Scheme, the Holding Period Trustee shall distribute:
 - (i) the proceeds of such sale (after deduction of any applicable expenses); and
 - (ii) any interest, dividends, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee during the Holding Period prior to such sale in respect of such Scheme Consideration,

(in each case net of any applicable taxes (including, without limitation, any withholding taxes)) to that Ineligible Noteholder.

28. If the Holding Period Trustee is holding any Scheme Consideration on behalf of any Ineligible Noteholders which has not been sold by the end of the Holding Period and the Holding Period Trustee (or the Selling Agent on behalf of the Holding Period Trustee) is not able, after having used reasonable efforts and having consulted with the Company, to sell any such Scheme Consideration within three months of the end of the Holding Period, the Holding Period Trustee shall transfer by way of gift on behalf of such Ineligible Noteholders such Scheme Consideration to Carers Trust (registered charity number 1145181) or to any other registered charity selected by the Company in writing for this purpose.

Unadmitted Noteholders

- 29. Any Scheme Consideration to which an Unadmitted Noteholder is entitled in accordance with the terms of the Scheme shall be delivered to the Holding Period Trustee on the Scheme Settlement Date (as described in Clause 17 and the Distribution Agreement). The Holding Period Trustee shall hold any such Scheme Consideration on trust for the relevant Unadmitted Noteholder for the Holding Period in accordance with the terms of this Scheme and the Distribution Agreement.
- 30. If, at the end of the Holding Period, the Holding Period Trustee is holding any Scheme Consideration on behalf of any Unadmitted Noteholders, as soon as reasonably practicable after the end of the Holding Period the Holding Period Trustee shall instruct the Selling Agent to sell all such Scheme Consideration in accordance with the terms of the Distribution Agreement, provided that, to the extent that the Holding Period Trustee (or the Selling Agent on behalf of the Holding Period Trustee) is not able, after having used reasonable efforts and having consulted with the Company, to sell any such Scheme Consideration following the end of the Holding Period, the Holding Period Trustee shall transfer by way of gift on behalf of such Unadmitted Noteholders such Scheme Consideration to Carers Trust (registered charity number 1145181) or to any other registered charity selected by the Company in writing for this purpose.
- 31. As soon as reasonably practicable after the sale of any such Scheme Consideration (or any part thereof) in accordance with Clause 30, the Holding Period Trustee shall distribute:
 - (a) the proceeds of such sale (after deduction of any applicable expenses); and

- (b) any interest, dividends, distributions (or any other rights or benefits) or other payments received by the Holding Period Trustee in respect of such Scheme Consideration,
- (in each case net of any applicable taxes (including, without limitation, any withholding taxes)) to the Company in accordance with the terms of the Distribution Agreement and this Scheme.
- 32. The Holding Period Trustee will agree under the terms of the Distribution Agreement not to exercise any voting, conversion or other rights attaching to any Scheme Consideration which it is holding on the trusts referred to above.

Additional New Ordinary Shares Offer

- 33. On the Scheme Settlement Date, subject to the terms of the Additional New Ordinary Shares Offer the Company shall issue the Additional New Ordinary Shares on the following basis:
 - (a) the Company shall issue to each Subscribing Noteholder which has performed all its obligations in relation to the Additional New Ordinary Shares Offer (or, to the extent applicable, its Designated Recipient and/or its Alternative Recipient) the number of Additional New Ordinary Shares which that Subscribing Noteholder has been allocated in accordance with the terms of the Additional New Ordinary Shares Offer;
 - (b) the Company shall issue to each Sub-purchaser which has performed all its obligations and complied with all applicable conditions in relation to the Sub-purchasing Offer (or, to the extent applicable, its Designated Recipient and/or its Alternative Recipient) the number of Additional New Ordinary Shares which that Sub-purchaser has been allocated in accordance with the terms of the Sub-purchasing Offer; and
 - (c) the Company shall issue to each <u>Modified Scheme</u> Purchaser (or, to the extent applicable, its Designated Recipient and/or its Alternative Recipient) the number of Additional New Ordinary Shares which that <u>Modified Scheme</u> Purchaser has been allocated in accordance with the terms of the <u>Modified Scheme</u> Purchase Agreement.
- 34. On the Scheme Settlement Date, subject to the terms of the Additional New Ordinary Shares Offer the Company shall pay:
 - (a) to <u>or at the direction of each Sub-purchaser</u> which has performed all its obligations in relation to the Sub-purchasing Offer, the proportion of the Sub-purchaser Premium to which that Sub-purchaser is entitled in accordance with the terms of the Sub-purchasing Offer; and
 - (b) to <u>or at the direction of each Modified Scheme Purchaser</u> Which has performed all its obligations under the <u>Modified Scheme Purchase</u> Agreement, the proportion of the <u>Modified Scheme Purchaser</u> Purchaser is entitled in accordance with the terms of the <u>Modified Scheme Purchase</u> Agreement.

Alternative Recipients

- 35. Any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the Voting Instruction Deadline, Sub-purchaser or Modified Scheme Purchaser may elect for some or all of the Scheme Consideration and (if applicable) the Additional New Ordinary Shares to which it is entitled under the terms of the Scheme and (if applicable) the Additional New Ordinary Shares Offer, the Sub-purchasing Offer or the Modified Scheme Purchase Agreement to be issued to another person who is an Eligible Person (such person, an Alternative Recipient) by:
 - (a) notifying the Company of its election; and

(b) providing to the Company and the Information Agent (i) confirmation that the Alternative Recipient is an Eligible Person and (ii) all details of the Alternative Recipient required by the Company and/or the Information Agent,

in each case by no later than the Scheme Effective Date.

Implementation of Arrangements

- 36. If the Company reasonably considers it necessary or desirable to execute any document or documents to give effect to the terms of this Scheme on behalf of any of the Scheme Creditors on any day from (and including) the Scheme Effective Date to (and including) the Scheme Settlement Date, the Company shall execute such document or documents on behalf of the relevant Scheme Creditor pursuant to the authority granted under Clause 13.
- 37. On the Scheme Effective Date, or as soon as reasonably practicable thereafter, the Company (for itself and on behalf of each Scheme Creditor pursuant to the authority granted under Clause 13), the Holding Period Trustee, the Information Agent and the Selling Agent shall execute the Distribution Agreement and perform their obligations thereunder.
- 38. On the Scheme Settlement Date, the following steps shall happen and those steps shall take effect in the order set out below:
 - (a) the Company for itself and/or on behalf of each relevant Scheme Creditor pursuant to the authority granted under Clause 13 shall issue the directions described in Clause 8 and execute any document in connection with the actions described in Clauses 8 and 9;
 - (b) the Company shall procure the cancellation of the Dated Notes in accordance with Clause 9;
 - (c) the Company shall issue the Scheme Consideration in accordance with Clause 17;
 - (d) the Company shall issue the Additional New Ordinary Shares in accordance with Clause 33;
 - (e) the Company shall pay the Sub-purchaser Premium and the <u>Modified Scheme</u> Purchaser Premium in accordance with Clause 34; and
 - (f) the Company shall execute the Deed of Waiver and Release on behalf of each Scheme Creditor pursuant to the authority granted under Clause 13.
- 39. The issuance of the Scheme Consideration and the Additional New Ordinary Shares, the payment of the Sub-purchaser Premium and the <u>Modified Scheme</u> Purchaser Premium and the performance of its other obligations under this Scheme will discharge the Company's obligation to the Scheme Creditors under this Scheme.
- 40. On and from the Scheme Settlement Date (but subject to the other provisions of this Scheme) each Scheme Creditor shall be entitled to the rights and benefits accruing to that Scheme Creditor under this Scheme and each of the New Transaction Documents (to the extent they are a party) and all of the existing rights and benefits of the Scheme Creditors in respect of the Scheme Claims shall be subject and limited to the compromises and arrangements provided by this Scheme.

Record Date

41. All Scheme Claims shall be determined as at the Record Date.

Assignments or Transfers

42. The Company shall be under no obligation to recognise any assignment or transfer of Scheme Claims after the Record Date for the purposes of determining entitlements under this Scheme, provided that where the Company has received from the relevant parties notice in writing of such assignment or transfer, the Company may, in its sole discretion and subject to the production of such other evidence as it may require and to any other terms and conditions which it may render necessary or desirable, agree to recognise such assignment or transfer for the purposes of determining entitlements under this Scheme. It shall be a term of such recognition that the assignee or transferee of a Scheme Claim so recognised by the Company shall be bound by the terms of this Scheme and for the purposes of this Scheme shall be a Scheme Creditor.

Stay of Proceedings

- 43. None of the Scheme Creditors shall commence or continue, or instruct, direct or authorise any other person (including, without limitation, any Trustee) to commence or continue, any Prohibited Proceedings in respect of, arising from or relating to a Scheme Claim after the Scheme Effective Date. For the avoidance of doubt, this Clause shall not prohibit a Scheme Creditor from commencing or continuing, or instructing, directing or authorising any other person to commence or continue, any Proceeding against the Company or its property in any jurisdiction whatsoever relating to and subject to the terms of the New Transaction Documents.
- 44. Subject to any existing contractual restrictions, a Scheme Creditor may commence an Allowed Proceeding against the Company after the Scheme Effective Date provided that it has first given the Company five Business Days' prior notice in writing of its intention to do so.

Costs

- 45. The Company shall pay, or procure the payment of, in full all costs, charges, expenses and disbursements incurred by it in connection with the negotiation, preparation and implementation of this Scheme as and when they arise, including, but not limited to, the costs of holding the Scheme Meeting, the costs of obtaining the sanction of the Court and the costs of placing the notices (if any) required by this Scheme.
- 46. The Company shall pay, or procure the payment of, in full the costs, charges, expenses and disbursements reasonably incurred by the Common Depositaries and the Trustees in connection with the negotiation, preparation and implementation of this Scheme.

Modifications

- 47. The Company may, at any hearing of the Court to sanction this Scheme, consent on behalf of all Scheme Creditors to any modification of this Scheme or any terms or conditions which the Court may think fit to approve or impose and which would not directly or indirectly have a material adverse effect on the interests of any Scheme Creditor under this Scheme.
- 48. Nothing in this Scheme shall prevent the modification of any of the New Transaction Documents in accordance with their respective terms.

Obligations on Dates other than a Business Day

49. If any sum is due or obligation is to be performed under the terms of this Scheme on a day other than a Business Day, the relevant payment shall be made, or obligation performed on the next Business Day.

Notices

- 50. Any notice or other written communication to be given under or in relation to this Scheme (other than any Account Holder Letter) shall be given in writing and shall be deemed to have been duly given if it is delivered by hand, pre-paid first class post, airmail, fax or electronically to:
 - (a) in the case of the Company:

- (g) in the case of any other person, any address, fax number or email address set forth for that person in any agreement entered into in connection with this Scheme or the last known address, fax number or email address according to the Company.
- 51. Any notice or other written communication to be given under or in relation to this Scheme (other than any Account Holder Letter) shall be deemed to have been delivered and served:
 - if delivered by hand, when actually received provided that, if such receipt occurs after 5.00 p.m. in the place of receipt, the following Business Day;
 - (b) if sent by pre-paid first class post or airmail, on the second Business Day after posting if the recipient is in the country of dispatch, otherwise the seventh Business Day after posting;
 - (c) if sent electronically or by fax, when actually received in readable form provided that, if such receipt in readable form occurs after 5.00 p.m. in the place of receipt, the following Business Day; and
 - (d) if by advertisement, on the date of publication.
- 52. In proving service, it shall be sufficient proof, in the case of a notice sent by pre-paid first class post or airmail, that the envelope was properly stamped, addressed and placed in the post.
- 53. The accidental omission to send any notice, written communication or other document in accordance with Clauses 50 to 51, or the non-receipt of any such notice by any Scheme Creditor, shall not affect the provisions of this Scheme.
- 54. Notwithstanding any provision to the contrary contained in this Scheme:
 - (a) notices to the Noteholders shall be valid if published in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*) or if such publication is not practicable, in another appropriate newspaper having general circulation in London previously approved in writing by the Trustee. Any such notice shall be deemed to have been given on the date of first publication;
 - (b) whilst the Dated Notes are represented by Global Notes and deposited with the Common Depositaries for the Clearing Systems, notice to the Noteholders may be given instead by delivery of the notice to the Clearing Systems and such notices shall be deemed to have been given to the Noteholders on the date of delivery to the Clearing Systems;
 - (c) a Trustee may approve some other method of giving notice to the Noteholders of the relevant Dated Notes if, in its opinion, that other method is reasonable having regard to market practice then prevailing and to the requirements of any stock exchange on which the relevant Dated Notes are then listed and provided that notice of that other method is given to the Noteholders in the manner required by that Trustee; and

(d) a copy of each notice given in accordance with this Clause shall be provided to and the London Stock Exchange for so long as the Dated Notes are listed on the London Stock Exchange and the relevant regulations so require.

Governing Law and Jurisdiction

- 55. The operative terms of this Scheme and any non-contractual obligations arising out of or in connection with this Scheme shall be governed and construed in accordance with the laws of England and Wales. The Scheme Creditors hereby agree that the Court shall have exclusive jurisdiction to hear and determine any suit, action or Proceeding and to settle any dispute which arises out of or in connection with the terms of this Scheme or their implementation or out of any action taken or omitted to be taken under this Scheme or in connection with the administration of this Scheme and for such purposes the Scheme Creditors irrevocably submit to the jurisdiction of the Court, provided, however, that nothing in this Clause shall affect the validity of other provisions determining governing law and jurisdiction as between the Company and any of the Scheme Creditors, whether contained in contract or otherwise.
- 56. The terms of this Scheme and the obligations imposed on the Company hereunder shall take effect subject to any prohibition or condition imposed by applicable law.

THIS DEED is dated $[\bullet]$ 2013 and is made **BY**:

(1) **THE SCHEME CREDITORS** (as defined below), acting by The Co-operative Bank p.l.c. (the **Company**) pursuant to the authority conferred upon the Company by the Scheme Creditors under clause 13 of the Scheme (as defined below),

IN FAVOUR OF:

(2) **THE RELEASED PARTIES** (as defined below).

BACKGROUND

- (A) The Company has entered into the Scheme with the Scheme Creditors.
- (B) The Company is authorised, under clause 13 of the Scheme, to execute and deliver this Deed on behalf of each of the Scheme Creditors.
- (C) It is intended that this document takes effect as a deed notwithstanding the fact that a party may only execute this document under hand.

IT IS AGREED as follows:

1. INTERPRETATION

1.1 **Definitions**

In this Deed:

Adviser Released Party means the persons listed at Part 2 of Appendix 1 of this Deed.

Brand Agreement means the co-existence principles dated 4 November 2013 between the Company and Co-operative Group.

Bridge Loan Facility Agreement means the intragroup loan agreement dated 4 November 2013 between, amongst others, the Company, Co-operative Group and CBGL.

CBGL means Co-operative Banking Group Limited.

Group Commitment Agreement means the 2014 commitment agreement dated 4 November 2013 between the Company, Co-operative Group and CBGL.

Group Notes Prospectus has the meaning given to that term in the Bank T2 Notes Prospectus.

Relationship Agreement has the meaning given to that term in the Bank T2 Notes Prospectus.

Released Parties means the Adviser Released Parties and the Transaction Released Parties.

Restructuring Documents means the Offer Memorandum, the Bank T2 Notes Prospectus, the Group Notes Prospectus, the Separation Agreement, the Brand Agreement, the Group Commitment Agreement, the Bridge Loan Facility Agreement, the Security Agreement and the Relationship Agreement.

Scheme means the scheme of arrangement pursuant to Part 26 of the Companies Act 2006 between the Company and the Scheme Creditors as sanctioned by the Court on or about the date of this Deed.

Scheme Creditor means the Common Depositaries, the Trustees (solely in their capacities as the beneficiaries of the covenants to repay principal and interest on the Dated Notes pursuant to the Trust Deeds) and the Noteholders.

Security Agreement means the security agreement dated 4 November 2013 entered into between CBGL and Co-operative Group in connection with the Bridge Loan Facility Agreement.

Separation Agreement means the statement of separation principles dated 4 November 2013 entered into between the Company and Co-operative Group in connection with the separation of the Company from Co-operative Group.

Transaction Released Parties means the persons listed at Part 1 of Appendix 1 of this Deed

1.2 **Construction**

- (a) Capitalised terms defined in the Scheme have, unless expressly defined in this Deed, the same meaning in this Deed.
- (b) In this Deed, unless the context otherwise requires or otherwise expressly provides for:
 - (i) references to Clauses are references to Clauses of this Deed;
 - (ii) references to a person include references to an individual, firm, partnership, company, corporation, unincorporated body of persons or any state or state agency;
 - (iii) references to a statute or statutory provision include references to the same as subsequently modified, amended or re-enacted from time to time;
 - (iv) the singular includes the plural and vice versa and words importing one gender shall include all genders; and
 - (v) headings to Clauses are for ease of reference only and shall not affect the interpretation of this Deed.

2. WAIVER AND RELEASE

- 2.1 With effect from the date of this Deed and without prejudice to the provisions of the Scheme, the Scheme Creditors (on their own behalf and on behalf of any person to whom they may have transferred their Scheme Claims after the Record Date) hereby irrevocably and unconditionally:
 - (a) waive, release and discharge fully and absolutely, to the fullest extent permitted by law, all Liabilities of the Released Parties to the Scheme Creditors in relation to or in connection with or in any way arising out of the Dated Notes and/or the preparation, negotiation or implementation of the Scheme, the Liability Management Exercise and/or the recapitalisation of the Company; and
 - (b) waive, to the fullest extent permitted by law, each and every claim which the Scheme Creditors (or any person to whom a Scheme Creditor may have transferred its Scheme Claim after the Record Date) may have in relation to or in connection with or in any way arising out of the Dated Notes and/or the preparation, negotiation or implementation of the Scheme, the Liability Management Exercise and/or the recapitalisation of the Company against the Released Parties.
- 2.2 Each release, waiver and discharge effected by the terms of Clause 2.1 above shall not extend to:

- (a) any Liability of any Adviser Released Party arising under a duty of care to such Adviser Released Party's client or arising under a duty of care to another person which has been specifically and expressly accepted or acknowledged in writing by that Adviser Released Party;
- (b) any Liability arising or resulting from gross negligence, wilful default or fraud;
- (c) any Liability in any Lock-up Arrangement; or
- (d) any Liability of the Company to the Trustee in relation to or in connection with or in any way arising out of the Dated Notes, save to the extent such Liability comprises a Scheme Claim.
- 2.3 Nothing in this Deed shall release, waive or discharge any Liability of any person under the New Transaction Documents or the Restructuring Documents.

3. FURTHER ASSURANCES

The Scheme Creditors will take whatever action is reasonably necessary to achieve the waiver, release and discharge referred to in Clause 2 (*Waiver and Release*) of this Deed.

4. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT

- 4.1 Other than as provided in Clause 4.2 below, a person who is not party to this Deed has no right under the Contracts (Rights of Third Parties) Act 1999 to enforce or to enjoy the benefit of any term of this Deed.
- 4.2 A Released Party may rely on and enforce the terms of this Deed.

5. COUNTERPARTS

This Deed may be executed in any number of counterparts. This has the same effect as if the signatures on the counterparts were on a single copy of the Deed.

6. GOVERNING LAW AND JURISDICTION

This Deed and any non-contractual obligations arising out of or in connection with it are governed by English law. The courts of England have exclusive jurisdiction to settle any dispute arising out of or in connection with this Deed or any non-contractual obligations connected with it.

This Deed has been entered into and delivered as a deed on the date stated at the beginning of this Deed.

THIS AGREEMENT is made by way of deed on [●] 2013

BETWEEN:

- (1) **THE CO-OPERATIVE BANK P.L.C.**, a company incorporated in England and Wales with registered number 00990937 whose registered office is at 1 Balloon Street, Manchester, M60 4EP (the **Company**);
- (2) **LUCID ISSUER SERVICES LIMITED**, a company incorporated in England and Wales with registered number 05098454 whose registered office is at Leroy House, 436 Essex Road, London, N1 3QP in its capacity as the information agent (the **Information Agent**) and the holding period trustee (the **Holding Period Trustee**);
- (3) **THE SCHEME CREDITORS** under and as defined in the Scheme (as defined below) (the **Scheme Creditors**); and
- (4) **TFS DERIVATIVES LIMITED**, a company incorporated in England and Wales with registered number 04051930 whose registered office is at Beaufort House, 15 St. Botolph Street, London EC3A 7QX (**TFSD**); and
- (5) **TRADITION** (**UK**) **LIMITED**, a company incorporated in England and Wales with registered number 00937647 whose registered office is at Beaufort House, 15 St. Botolph Street, London EC3A 7QX (**TUK**) (TFSD and TUK collectively, the **Selling Agent**).

WHEREAS:

- (A) The Company has proposed a scheme of arrangement (the **Scheme**) under Part 26 of the Companies Act 2006 (the **Act**) with the Scheme Creditors.
- (B) The Scheme effects the full and final compromise and settlement of the claims of the Scheme Creditors against the Company by, amongst other things, the Scheme Creditors exchanging their Scheme Claims (as defined in the Scheme) for the Scheme Consideration (as defined in the Scheme). For this purpose, the Scheme provides for the appointment of a bare trustee who will be responsible for, inter alia, holding certain amounts of the Scheme Consideration on trust for, and distributing the Scheme Consideration to, or to the order of, certain of the Scheme Creditors.
- (C) This Agreement is entered into in contemplation of, and certain provisions of this Agreement are conditional upon, the satisfaction of the Scheme Settlement Condition (as defined in the Scheme) and the occurrence of the Scheme Settlement Date (as defined in the Scheme).
- (D) It is the intention of the parties that this Agreement be entered into as a deed.

IT IS AGREED AND THIS DEED WITNESSES as follows:

1. **DEFINITIONS**

- 1.1 Capitalised terms used in this Agreement and not otherwise defined herein will have the meanings ascribed to them in the Scheme.
- 1.2 In this Agreement:

Account Holder means any person recorded directly in the records of a Clearing System as holding an interest in any Dated Notes at the Record Date in an account with the relevant Clearing System either for its own account or on behalf of its client;

Accruals means any interest, dividends or distributions (or any other rights or benefits) paid from time to time in respect of the Bank T2 Notes and the New Ordinary Shares held by the Holding Period Trustee;

Admission means admission of the New Ordinary Shares to the Official List of the United Kingdom Listing Authority and admission to trading on the London Stock Exchange plc's market for listed securities:

Admitted Noteholders means the Noteholders other than the Noteholder Beneficiaries:

Business Day means a day on which banks are open for general business (other than a Saturday, Sunday or bank holiday) in London;

Cash Escrow Account means the cash account established in the name of the Holding Period Trustee (or its nominee) for the purpose of receiving and holding any Accruals or proceeds of sale of the Bank T2 Notes or New Ordinary Shares held by the Holding Period Trustee;

Clearing System means Clearstream, Luxembourg and/or Euroclear (as the case may be);

Clearstream, Luxembourg means Clearstream Banking, société anonyme;

CREST means the relevant system (as defined in the CREST Regulations) in respect of which CRESTCo is the operator (as defined in the CREST Regulations);

CREST Regulations means the Uncertificated Securities Regulations 2001 (S.I. 2001/3755) including any modifications thereof or any regulations in substitution therefore;

CRESTCo means CRESTCo Limited;

Designated Recipient means any person appointed under a valid Account Holder Letter delivered to the Information Agent on behalf of a Noteholder to receive the Scheme Consideration to which that Noteholder is entitled pursuant to the terms of this Scheme, provided that such person is an Eligible Person:

Distribution Notice means the irrevocable notice served on the Information Agent by the Company upon the Scheme having been sanctioned and the Scheme Settlement Condition having been met, instructing the Information Agent to give instructions to the Registrars to distribute the Scheme Consideration to Admitted Noteholders or the Holding Period Trustee in accordance with the instructions from the Information Agent;

Distribution Instruction Certificate means a certificate substantially in the form set out in Part 1 of Schedule 1 to this Agreement prepared by the Information Agent and served on the Holding Period Trustee in respect of distributions to be made to an Eligible Noteholder (or, if applicable, its Designated Recipient);

Eligible Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which includes a confirmation that such Noteholder (or, if such Noteholder has appointed a Designated Recipient, its Designated Recipient) is an Eligible Person;

Engagement Letters means the letter agreements or contracts for service between the Company and each of the Information Agent, the Holding Period Trustee and the Selling Agent setting out, inter alia, their fees and expenses;

Escrow Accounts means each of the following accounts:

- (a) the Securities Escrow Account; and
- (b) the Cash Escrow Account;

and a reference to one or more Escrow Accounts is a reference to any one or more of these accounts;

Euroclear means Euroclear Bank S.A./N.V. as operator of the Euroclear system;

Force Majeure means any act of God, government act, war, fire, flood, explosion, civil commotion or act of terrorism;

Holding Period means the period of 36 months after the Scheme Settlement Date;

Ineligible Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which includes a confirmation that such Noteholder is an Ineligible Person and has not appointed a Designated Recipient;

Instruction Certificate means a Distribution Instruction Certificate or a Sale Instruction Certificate (as the context may require);

Noteholder Beneficiaries means (i) the Ineligible Noteholders on whose behalf valid Account Holder Letters have been delivered to and received by the Information Agent before the Voting Instruction Deadline and (ii) the Unadmitted Noteholders.

Registrars means Computershare Investor Services PLC as the registrars of both the New Ordinary Shares and the Bank T2 Notes, whose registered office is at The Pavilions, Bridgwater Road, Bristol BS13 8AE or such other person as the Company may appoint as its registrars for the purposes of this Agreement;

Relevant Conditions means:

- (a) a duly completed (in the sole determination of the Information Agent) Account Holder Letter has been delivered to and received by the Information Agent (howsoever received); and
- (b) the Information Agent has received confirmation satisfactory to it that the Noteholder on whose behalf such Account Holder Letter has been submitted was, at the Record Date, the ultimate beneficial holder of the Dated Notes specified in the relevant Account Holder Letter (which may comprise such evidence as the Information Agent may reasonably require);

Sale Instruction Certificate means a certificate substantially in the form set out in Part 2 of Schedule 1 to this Agreement prepared by the Information Agent and served on the Holding Period Trustee in respect of distributions to an Ineligible Noteholder;

Securities Escrow Account means the Clearstream, Luxembourg securities account to be established in the name of the Holding Period Trustee (or its nominee) for the purpose of receiving and holding the Bank T2 Notes and the New Ordinary Shares;

Security Interest means any mortgage or sub-mortgage, standard security, sub-standard security, charge or sub-charge (whether legal or equitable), encumbrance, pledge, lien, hypothecation, assignment by way of security, assignation in security or other security interest or title retention

arrangement, any agreement, trust or arrangement having substantially the same economic or financial effect as any of the foregoing;

Trust Fund means:

- (a) the New Ordinary Shares (including any Accruals relating to those New Ordinary Shares); and
- (b) the Bank T2 Notes (including any Accruals relating to those Bank T2 Notes),

which, in each case, have not been distributed to Noteholders in accordance with this Agreement or the Scheme from time to time, such fund to be held by the Holding Period Trustee on bare trust as legal, but not beneficial, title holders for the Noteholder Beneficiaries from time to time;

Unadmitted Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has not been delivered to and received by the Information Agent before the Voting Instruction Deadline, other than any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date and in relation to whom the Company exercises its discretion to issue Scheme Consideration on the Scheme Settlement Date in accordance with the terms of the Scheme;

VAT means value added tax as imposed by the Value Added Tax Act 1994 and any other tax from time to time replacing it or of a similar fiscal nature; and

Voting Instruction Deadline means 4.30 p.m. (London time) on 10 December 2013.

In this Agreement:

- (a) references to a person include an individual, firm, partnership, company, corporation, unincorporated body of persons and any state or state agency;
- (b) references to a natural person include his estate and personal representatives;
- (c) references to a party to this Agreement include references to the successors or assigns (immediate or otherwise) of that party; and
- (d) references to the singular include the plural and vice versa and words importing one gender shall include all genders.
- 1.3 In this Agreement any reference, express or implied, to an enactment includes references to:
 - (a) that enactment as re-enacted, amended, extended or applied by or under any other enactment (before or after the signature of this Agreement);
 - (b) any enactment which that enactment re-enacts (with or without modification); and
 - (c) any subordinate legislation made (before or after the signature of this Agreement) under that enactment, as re-enacted, amended, extended or applied as described in paragraph (a) above or under any enactment referred to in paragraph (b) above,

and enactment includes any legislation in any jurisdiction.

1.4 Clauses 1.1 to 1.3 above apply unless the contrary intention appears.

1.5 The headings in this Agreement do not affect its interpretation.

2. COMMENCEMENT

- 2.1 Save for Clauses 2 to 4, 5.1, 8.1 and 13 to 24 which shall have effect immediately from the date of this Agreement, the obligations of the parties pursuant to this Agreement shall have effect from the Scheme Settlement Date.
- 2.2 The Company shall promptly notify the Holding Period Trustee, the Information Agent, the Selling Agent and the Scheme Creditors upon the Scheme Settlement Condition having been met.

3. REPRESENTATIONS AND WARRANTIES

- 3.1 Each of the parties to this Agreement represents and warrants to each of the others that it has the legal capacity, power and authority to enter into this Agreement and to carry out the transactions contemplated by and perform the obligations assumed by it under this Agreement.
- 3.2 Each of the parties to this Agreement represents and warrants to each of the others that neither the execution by it, nor the performance by it, of its respective obligations (if any) in accordance with the terms, conditions and provisions of this Agreement will:
 - (a) so far as that party is aware, violate or conflict with, or constitute a default under, any agreement or other obligation to which that party is subject or by which it is bound; or
 - (b) so far as that party is aware, contravene or conflict with or constitute a violation of any provision of any law, rule, regulation, judgment, order or decree which is binding on it.

4. AGREEMENT TO ACT

- 4.1 The Holding Period Trustee is hereby appointed by the Company and agrees to act only as a bare trustee for each Noteholder Beneficiary in relation to certain amounts of the Scheme Consideration in accordance with the terms, conditions and provisions of the Scheme, this Agreement and the relevant Engagement Letter.
- 4.2 The Information Agent is hereby appointed by the Company and agrees to act as information agent in relation to the Scheme in accordance with the terms, conditions and provisions of the Scheme, this Agreement and the relevant Engagement Letter.
- 4.3 TFSD and TUK are hereby appointed by the Company and agree to act as selling agents in relation to the Scheme in accordance with the terms, conditions and provisions of the Scheme, this Agreement and the relevant Engagement Letter.
- 4.4 For the avoidance of doubt, none of the Holding Period Trustee, the Information Agent and the Selling Agent shall at any time whatsoever have any beneficial interest in the Scheme Consideration or any part of it or any cash held by it pursuant to the Scheme and this Agreement.

5. ESTABLISHMENT OF ESCROW ACCOUNTS AND TRANSFERS TO HOLDING PERIOD TRUSTEE

5.1 The Holding Period Trustee shall establish the Escrow Accounts (if not already established) and each such account shall be designated as a trust account. The Holding Period Trustee shall provide to the Company prompt confirmation of the establishment of the Escrow Accounts and the relevant account details as soon as reasonably practicable after the date of this Agreement and in any event prior to the Scheme Settlement Date.

- 5.2 On the Scheme Settlement Date, the Company shall:
 - (a) issue and allot the New Ordinary Shares; and
 - (b) issue and allot the Bank T2 Notes,

to which the Noteholder Beneficiaries are entitled in accordance with the Scheme, credited as fully paid (in the case of the New Ordinary Shares), to the Holding Period Trustee, as bare trustee for the Noteholder Beneficiaries, and shall instruct that the New Ordinary Shares and the Bank T2 Notes are credited to the relevant Escrow Account. The Holding Period Trustee shall hold the New Ordinary Shares and the Bank T2 Notes allotted to it on bare trust in accordance with Clause 5.4 below.

- 5.3 The Holding Period Trustee shall, promptly upon being notified by Clearstream, Luxembourg and/or CREST as the case may be, of the receipt of the Scheme Consideration on behalf of the Noteholder Beneficiaries pursuant to Clause 5.2 above, provide to the Company an acknowledgement of the receipt of each part of the Scheme Consideration paid, transferred, issued or allotted to it.
- 5.4 The Holding Period Trustee hereby declares that it shall hold the Trust Fund on bare trust for the Noteholder Beneficiaries absolutely.
- 5.5 It shall be a term of the trust constituted by Clause 5.4 above that the Holding Period Trustee is authorised by the Scheme Creditors and obliged to take any action which is contemplated by this Agreement and which it is instructed to take by the Information Agent under and in connection with this Agreement.
- Other than as set out in Clauses 8.3 and 8.8, the Holding Period Trustee shall not have, and shall procure that none of its respective delegates shall have, any right of indemnity, set off, combination of accounts or any other right whatsoever to apply the assets comprised in the Trust Fund or any part thereof in discharge or satisfaction of any cost, right of reimbursement, expense, loss or other liability of the Holding Period Trustee, and all such rights are hereby released by the Holding Period Trustee.

6. UNDERTAKINGS

- 6.1 The Holding Period Trustee hereby undertakes in favour of the Company and the Noteholder Beneficiaries that it shall deal with the Trust Fund and each Escrow Account as contemplated by this Agreement and as instructed by the Information Agent pursuant to the terms of this Agreement and the trusts constituted hereby.
- The Information Agent hereby directs the Holding Period Trustee that it shall not, and shall not purport to (and the Holding Period Trustee hereby undertakes that it shall not nor purport to):
 - (a) create or permit to subsist any Security Interest whatsoever (unless arising by operation of law) upon any of the assets comprised in the Trust Fund;
 - (b) save as expressly set out in this Agreement or as required (and to the extent necessary) to perform its obligations as trustee of the trusts constituted by this Agreement, sell, transfer or otherwise dispose of, or deal with, the Trust Fund, any interest, estate, right, title or benefit therein or thereto or any cash amounts or instruments standing to the credit of any Escrow Account: or
 - (c) save as expressly set out in this Agreement or in respect of the trusts created by this Agreement, permit any person other than itself to have any interest, estate, right, title or benefit in any of the assets comprised in the Trust Fund.

- 6.3 The Holding Period Trustee agrees that it shall have no discretion in the making or withholding of any distribution to, or to the order of, the Noteholder Beneficiaries.
- 6.4 The Holding Period Trustee hereby undertakes in favour of the other parties to this Agreement that, without prejudice to Clause 9.3, it will act honestly and in good faith and will exercise the diligence expected of a reasonably prudent trustee in the fulfilment and/or exercise of its duties and obligations under this Agreement.
- 6.5 The Information Agent hereby undertakes in favour of the other parties to this Agreement that it will act honestly and in good faith and will exercise the diligence of a reasonably prudent expert in comparable circumstances in the fulfilment and/or exercise of its duties and obligations under this Agreement.
- 6.6 The Selling Agent hereby undertakes in favour of the other parties to this Agreement that it will act honestly and in good faith and will exercise the diligence of a reasonably prudent expert in comparable circumstances in the fulfilment and/or exercise of its duties and obligations under this Agreement.
- 6.7 The Information Agent hereby undertakes in favour of each Noteholder Beneficiary, the Holding Period Trustee and the Company:
 - (a) to ensure that the information provided to the Company and the Holding Period Trustee (including that contained in each Instruction Certificate) is true and correct in all respects;
 - (b) to liaise with Account Holders to ensure that duly completed (in the sole determination of the Information Agent) Account Holder Letters are provided, and to collate all such Account Holder Letters received;
 - (c) to liaise with the relevant Account Holders (as applicable) to complete any missing information and correct any errors in each Account Holder Letter delivered to and received by it (in accordance with the terms of the Account Holder Letter);
 - (d) to check the confirmations contained in each Account Holder Letter;
 - (e) with respect to each duly completed (in the sole determination of the Information Agent)
 Account Holder Letter delivered to and received by the Information Agent in respect of a
 Noteholder Beneficiary prior to the end of the Holding Period, provided that the Relevant
 Conditions have been satisfied, to deliver an Instruction Certificate to the Holding Period
 Trustee not later than 10 Business Days from the date of receipt of that Account Holder
 Letter (provided that the Information Agent shall be under no obligation to deliver an
 Instruction Certificate to the Holding Period Trustee prior to the Scheme Settlement Date);
 - (f) in circumstances where:
 - (i) an Account Holder Letter has been delivered to and received by the Information Agent in accordance with paragraph (e) above; and
 - (ii) the relevant Noteholder Beneficiary is an Ineligible Noteholder,

to provide the Holding Period Trustee with a Sale Instruction Certificate in respect of the New Ordinary Shares and Bank T2 Notes that the Ineligible Noteholder would otherwise have been entitled to receive under the terms of the Scheme had the Noteholder Beneficiary been an Eligible Noteholder in accordance with paragraph (e) above;

- (g) in circumstances where:
 - (i) an Account Holder Letter has been delivered to and received by the Information Agent in accordance with paragraph (e) above; and
 - (ii) the relevant Noteholder Beneficiary is an Eligible Noteholder,

to provide the Holding Period Trustee with a Distribution Instruction Certificate in respect of the New Ordinary Shares and Bank T2 Notes which that Noteholder Beneficiary is entitled to receive under the terms of the Scheme in accordance with paragraph (e) above; and

(h) to maintain records and copies of all Account Holder Letters received (whether in hard copy or electronic form) and all Instruction Certificates issued and to make such records (or copies thereof) available to the Company and the Holding Period Trustee at all reasonable times upon request.

7. TAX

It is acknowledged that the Company's expectation is that no stamp duty and/or stamp duty reserve tax (SDRT) should be payable upon the issue and/or allotment of New Ordinary Shares and/or Bank T2 Notes. Insofar as is reasonably practicable, all issues of New Ordinary Shares and Bank T2 Notes pursuant to the Scheme and this Agreement shall be made on terms that no stamp duty and/or SDRT becomes payable by the recipient. If any such stamp duty and/or SDRT is payable, the Company shall take reasonable steps to avoid incurrence by any person of such liability. If notwithstanding such efforts, stamp duty and/or SDRT is payable upon the issue and/or allotment of New Ordinary Shares and/or Bank T2 Notes to an Eligible Noteholder (or, if applicable, its Designated Recipient), then the Company covenants to the Noteholder Beneficiaries that it shall pay such stamp duty and/or SDRT on behalf of the relevant Eligible Noteholder (or, if applicable, its Designated Recipient).

8. DISTRIBUTIONS

8.1 **Delivery of Distribution Notice**

Immediately prior to the Scheme Settlement Date:

- (a) the Company will deliver the Distribution Notice to the Information Agent; and
- (b) the Information Agent will, immediately upon receipt of the Distribution Notice, deliver to the Registrars, instructions with respect to the allocation of the Scheme Consideration:
 - (i) directly to Account Holders for Admitted Noteholders in accordance with the Account Holder Letters received and processed by the Information Agent at that date; or
 - (ii) to the Holding Period Trustee otherwise in accordance with the Scheme and this Agreement,

in each case on the Scheme Settlement Date.

8.2 **Delivery of Instruction Certificates**

(a) The Information Agent will deliver to the Holding Period Trustee Instruction Certificates in accordance with Clause 6.7 above.

- (b) Each Distribution Instruction Certificate shall:
 - (i) identify the Eligible Noteholder (or, if applicable, the Designated Recipient) to which a distribution is to be made in accordance with Clauses 8.4 below;
 - (ii) specify the amount of New Ordinary Shares and Bank T2 Notes (in each case, if any) comprising the Scheme Consideration which is to be distributed to that Eligible Noteholder (or, if applicable, the Designated Recipient);
 - (iii) provide details of:
 - (A) the Clearing System account to which the relevant portion of the Bank T2 Notes, if any, and New Ordinary Shares, if any, are to be credited; and
 - (B) the cash account to which the relevant portion of Accruals, if any, is to be credited; and
 - (iv) provide the further information set out in the form of the Distribution Instruction Certificate.
- (c) Each Sale Instruction Certificate shall:
 - (i) identify the Ineligible Noteholder to which a distribution is to be made in accordance with Clause 8.3 below;
 - (ii) specify the number of New Ordinary Shares and Bank T2 Notes which are to be sold, subject to Clause 8.9, on behalf of such Ineligible Noteholder;
 - (iii) provide details of the cash account to which the proceeds of the disposal of such New Ordinary Shares and Bank T2 Notes and any related Accruals should be transferred once deposited in the Cash Escrow Account; and
 - (iv) provide the further information set out in the form of the Sale Instruction Certificate.

8.3 Distributions on behalf of the Noteholder Beneficiaries

Subject to this Clause 8, each of the Noteholder Beneficiaries hereby instructs the Holding Period Trustee:

- (a) to distribute (subject to Clause 8.4) such number of New Ordinary Shares and (subject to Clause 8.5) such number of Bank T2 Notes to the Eligible Noteholders (or, if applicable, their Designated Recipients) identified in the relevant Distribution Instruction Certificate in an amount and to the account(s) specified in the relevant Distribution Instruction Certificate;
- (b) to the extent received by the Holding Period Trustee prior to a distribution to any Eligible Noteholder (or, if applicable, its Designated Recipient) or Ineligible Noteholder, in accordance with an Instruction Certificate, pay to such Eligible Noteholder (or, if applicable, its Designated Recipient) or Ineligible Noteholder (in each case at the time of the distribution of the relevant Scheme Consideration or the net cash proceeds of the sale of the relevant Scheme Consideration (as the case may be) as described in Clauses 8.3(a) and 8.3(c)) cash equal to any Accruals received (net of any amount deducted or withheld in respect of tax) in respect of the New Ordinary Shares and the Bank T2 Notes in an amount calculated by reference to the New Ordinary Shares and Bank T2 Notes in the amount and to the account(s) specified in the relevant Instruction Certificate;

- (c) subject to Clause 8.9, to sell or procure the sale, by the Selling Agent on behalf of the relevant Ineligible Noteholder, of such number of Bank T2 Notes and New Ordinary Shares specified in a Sale Instruction Certificate and to distribute from the Cash Escrow Account to the account of the Ineligible Noteholder identified in such Sale Instruction Certificate as soon as reasonably practicable the net cash proceeds of the sale in sterling (after deduction for and on account of all applicable taxes and expenses including, without limitation, the Selling Agent's selling commission calculated in accordance with the Engagement Letter relating to the Selling Agent) as specified in the relevant Sale Instruction Certificate; and
- (d) to continue to hold as bare trustee any Bank T2 Notes and New Ordinary Shares and/or cash (including any Accruals that remain for the time being undistributed) to the order of the relevant Noteholder Beneficiary and, upon the expiry of the Holding Period, to deal with such Scheme Consideration in accordance with Clause 8.8.

Subject to Clause 8.9(b), the Holding Period Trustee shall make any such sale and/or distribution as is referred to in paragraphs (a) to (c) above as soon as reasonably practicable after receipt of the relevant Instruction Certificate.

8.4 **Distribution of New Ordinary Shares**

Subject to Clause 8.7, where a Distribution Instruction Certificate specifies that any New Ordinary Shares shall be distributed to an Eligible Noteholder (or, if applicable, its Designated Recipient), each of the Noteholder Beneficiaries hereby directs the Holding Period Trustee to distribute or transfer (or permit to be distributed or transferred) such number of New Ordinary Shares specified in the relevant Distribution Instruction Certificate to the Clearing System account specified in the relevant Distribution Instruction Certificate for onward delivery by the relevant Clearing System participant to the relevant Eligible Noteholder (or, is applicable, its Designated Recipient) specified in such Distribution Instruction Certificate and confirms that such transfer shall satisfy the obligations of the Holding Period Trustee to distribute such New Ordinary Shares pursuant to Clause 8.3(a) above.

8.5 **Distribution of Bank T2 Notes**

Subject to Clause 8.7, where a Distribution Instruction Certificate specifies that any Bank T2 Notes shall be distributed to an Eligible Noteholder (or, if applicable, its Designated Recipient), each of the Noteholder Beneficiaries hereby authorises the Holding Period Trustee to distribute or transfer (or permit to be distributed or transferred) such number of Bank T2 Notes to the Clearing System account specified in such Distribution Instruction Certificate for onward delivery by the relevant Clearing System participant to the relevant Eligible Noteholder (or, if applicable, its Designated Recipient) specified in such Distribution Instruction Certificate and confirms that such distribution or transfer shall satisfy the obligations of the Holding Period Trustee to distribute such Bank T2 Notes pursuant to Clause 8.3(a) above.

8.6 **Distribution of Accruals**

Where an Instruction Certificate specifies that any Accruals shall be distributed to a Noteholder Beneficiary, each of the Noteholder Beneficiaries hereby directs the Holding Period Trustee to distribute or transfer (or permit to be distributed or transferred) such Accruals (after deduction for and on account of all applicable taxes and expenses) to the Clearing System or other account specified in the relevant Instruction Certificate for onward delivery to the Noteholder Beneficiary specified in such Instruction Certificate and confirms that such transfer shall satisfy the obligations of the Holding Period Trustee to distribute such Accruals pursuant to Clause 8.3(c) above.

8.7 Fractional Entitlements to Bank T2 Notes and New Ordinary Shares

- (a) If the number of New Ordinary Shares to be delivered to a Noteholder Beneficiary resulting from any calculation made in accordance with the Scheme is not a whole number, that number shall be rounded down to the nearest whole number and the relevant Noteholder Beneficiary shall have no entitlement to any resulting fractional amount.
- (b) If the principal amount of Bank T2 Notes to be delivered to a Noteholder Beneficiary resulting from any calculation made in accordance with the Scheme is not an integral multiple of £10, that amount shall be rounded down to the nearest integral multiple of £10 and the relevant Noteholder Beneficiary shall have no entitlement to any resulting fractional amount.

8.8 **Distribution upon the end of the Holding Period**

Upon the end of the Holding Period:

- (a) subject to Clause 8.9, each Noteholder Beneficiary in respect of which a duly completed (in the sole determination of the Information Agent) Account Holder Letter has not been delivered to and received by the Information Agent at the end of the Holding Period, hereby instructs the Holding Period Trustee to sell or procure the sale by the Selling Agent (on behalf of such Noteholder Beneficiary) of any Bank T2 Notes and New Ordinary Shares held in each relevant Escrow Account which such Noteholder Beneficiary would otherwise have been entitled to receive under the terms of the Scheme had that Noteholder Beneficiary been an Eligible Noteholder and pay the net proceeds of such sale (after deduction for or on account of all applicable taxes and costs of the sale including, without limitation, the Selling Agent's selling commission calculated in accordance with the Engagement Letter) to the Cash Escrow Account; and
- (b) each Noteholder Beneficiary in respect of which a duly completed (in the sole determination of the Information Agent) Account Holder Letter has not been delivered to and received by the Information Agent at the end of the Holding Period, hereby instructs the Holding Period Trustee to transfer the cash (if any) in the Cash Escrow Account (including any cash resulting from interest earned on the Escrow Accounts) (after receipt of the proceeds of any sale made in accordance with paragraph (a) above and after deduction for or on account of all applicable taxes and costs of the distribution) to the Company.

8.9 Sales by the Selling Agent on behalf of the Holding Period Trustee

- (a) Any sale made pursuant to Clauses 8.3 or 8.8 above shall be effected by the Selling Agent on behalf of the Holding Period Trustee and shall be made on behalf of the relevant Noteholder Beneficiary upon the best terms reasonably available in the market at the time of the sale. None of the Holding Period Trustee, the Selling Agent, the Company, the Information Agent, the Registrars or any other person shall be responsible for any loss or alleged loss arising from the price, terms, manner or timing of any such sale or the failure to procure any purchaser for such New Ordinary Shares and/or Bank T2 Notes.
- (b) Without prejudice to the ability of the Holding Period Trustee to do so, the Holding Period Trustee shall be under no obligation to sell or instruct the Selling Agent to sell any New Ordinary Shares or distribute the related Accruals until Admission. Without prejudice to the foregoing, the Holding Period Trustee shall use all reasonable endeavours to achieve or procure a sale of such New Ordinary Shares within 30 days following Admission.
- (c) To the extent that the Holding Period Trustee (or the Selling Agent on behalf of the Holding Period Trustee) is not able, after having used reasonable efforts and having consulted with the Company, to sell any New Ordinary Shares and/or Bank T2 Notes within the three month period following the end of the Holding Period, then the Holding Period Trustee is hereby irrevocably authorised and

instructed by each relevant Noteholder Beneficiary to transfer the Bank T2 Notes and/or New Ordinary Shares then held by the Holding Period Trustee by way of gift on its behalf to Carers Trust (registered charity number 1145181) or to any other registered charity selected by the Company in writing for this purpose.

9. RIGHTS, POWERS AND DUTIES OF THE HOLDING PERIOD TRUSTEE

- 9.1 The Scheme Creditors hereby direct the Holding Period Trustee not to exercise any voting, conversion or any other rights attaching to any New Ordinary Shares or Bank T2 Notes whilst they are held in the Trust Fund and the Holding Period Trustee agrees that it will not exercise any such rights.
- 9.2 The duties, responsibilities and obligations of the Holding Period Trustee shall be limited to those expressly set forth herein and no duties, responsibilities or obligations shall be inferred or implied. The Holding Period Trustee shall not be required to and shall not expend or risk any of its own funds or otherwise incur any financial liability in the performance of any of its duties under this Agreement, save where the same arises as a result of its negligence, wilful default or fraud.
- 9.3 Subject to Clause 9.4, other than in the case of manifest error or in the case of an error subsequently notified in writing to the Holding Period Trustee prior to the relevant distribution being made, the Holding Period Trustee shall be entitled to rely upon each Instruction Certificate served upon it and all information provided to it by the Information Agent without the need for further investigation or inquiry and shall have no liability to any person for acting on the basis of such information.
- 9.4 If the content or meaning of any Instruction Certificate or other information provided to the Holding Period Trustee is unable to determine the intention of such Instruction Certificate or other information, the Holding Period Trustee shall promptly notify the Information Agent of such lack of clarity or ambiguity and shall be entitled to refuse to take any action in respect of such Instruction Certificate or other information until any such lack of clarity or ambiguity has, in the opinion of the Holding Period Trustee, been satisfactorily resolved. For the avoidance of doubt, the Holding Period Trustee shall have no liability for refusing to take any action in accordance with this Clause 9.4.
- 9.5 The Holding Period Trustee shall not be charged with knowledge of the terms and conditions of any other agreement, instrument or document executed between the other parties and to which it is not a party, other than the Scheme, the explanatory statement prepared in connection with the Scheme or such other instrument, agreement or document the content of which the Holding Period Trustee is expressly required to have knowledge of pursuant to the terms of this Agreement.
- 9.6 The Company agrees (subject as provided in Clause 9.7) to reimburse the Holding Period Trustee on demand for, and to indemnify (on an after tax basis) and hold the Holding Period Trustee harmless against and with respect to, any and all loss, liability, damage or expense (including, without limitation, proper legal fees, costs and disbursements and any liabilities to tax other than any taxes charged on the fees and expenses charged by the Holding Period Trustee under this Agreement) that the Holding Period Trustee may suffer or incur in connection with it acting in accordance with the Scheme or this Agreement, except to the extent that such loss, liability, damage or expense arises from its own negligence, wilful default or fraud.
- 9.7 In case any action shall be brought against the Holding Period Trustee (the **indemnified person**) in respect of which recovery may be sought from the Company (the **indemnifier**) under Clause 9.6, the indemnified person shall promptly notify the indemnifier in writing but (subject as provided below) failure to do so will not relieve the indemnifier from any liability under this Agreement. Subject to Clause 9.8, the indemnifier may participate at its own expense in the defence of any action.

- 9.8 If it so elects within a reasonable time after receipt of the notice referred to in Clause 9.7, the indemnifier may assume the defence of the action with legal advisers chosen by it. Notwithstanding such election the indemnified person may employ separate legal advisers, and the indemnifier shall bear the fees and expenses of such separate legal advisers if:
 - (a) the use of the legal advisers chosen by the indemnifier to represent the indemnified person would present such legal advisers with a conflict of interest;
 - (b) the actual or potential defendants in, or targets of, any such action include both the indemnified person and the indemnifier and the indemnified person concludes that there may be legal defences available to it which are different from or additional to those available to the indemnifier:
 - (c) the indemnifier has not employed legal advisers satisfactory to the indemnified person (acting reasonably) to represent the indemnified person within a reasonable time after notice of the institution of such action; or
 - (d) the indemnifier authorises the indemnified person to employ separate legal advisers at the expense of the indemnifier.

Without prejudice to Clause 9.6, if the indemnifier assumes the defence of the action, the indemnifier shall not be liable for any fees and expenses of legal advisers of the indemnified person incurred thereafter in connection with the action, except as stated above.

- 9.9 The indemnifier shall not be liable in respect of any settlement of any action effected without its consent, such consent not to be unreasonably withheld or delayed. Without prejudice to Clause 9.6, the indemnifier shall not, without the prior written consent of the indemnified person, where the indemnified person is an actual, or is reasonably likely to be a potential, party to such claim or action, settle or compromise or consent to the entry of any judgment with respect to any pending or threatened claim or action in respect of which recovery may be sought hereunder unless such settlement, compromise or consent includes an unconditional release of the indemnified person from all liability arising out of such claim or action and does not include a statement as to or an admission of fault, culpability or failure to act by or on behalf of the indemnified person.
- 9.10 The Holding Period Trustee may obtain and pay for such legal or other expert advice or services as it may reasonably consider necessary in relation to this Agreement, and may rely on the opinion or advice obtained from any accountant, lawyer or other expert of good repute and shall incur no liability and shall be fully protected if acting in good faith in accordance with such opinion or advice.
- 9.11 The Holding Period Trustee may call for and shall be at liberty to accept as sufficient evidence of any fact or matter or the expediency of any transaction or thing, a certificate signed by the Company or two authorised representatives of the Company and the Holding Period Trustee shall not be bound in any such case to call for further evidence or be responsible for any liability that may be occasioned by it or any other person acting on such certificate.
- 9.12 The Holding Period Trustee shall be at liberty to hold this Agreement and any other documents relating to it or to deposit them in any part of the world with any banker or banking company or company whose business includes undertaking the safe custody of documents or lawyer or firm of lawyers considered by the Holding Period Trustee to be of good repute and the Holding Period Trustee shall not be responsible for or required to insure against any liability incurred in connection with any such holding or deposit and may pay all sums required to be paid on account of or in respect of any such deposit.

- 9.13 Subject to Clause 9.25, the Holding Period Trustee shall not (unless and to the extent ordered to do so by a court of competent jurisdiction) be required to disclose to any Scheme Creditor any information (including, without limitation, information of a confidential, financial or price sensitive nature) made available to it by any other party to this Agreement or any other person in connection with this Agreement.
- 9.14 The Holding Period Trustee shall not be required to take any legal action or proceedings unless it has been indemnified and/or provided with security to its satisfaction against all actions, proceedings, claims and demands to which it may render itself liable and all costs, charges, damages, expenses and liabilities which it may incur by so doing.
- 9.15 Each of the parties to this Agreement agrees (i) that it will not take any proceedings, or assert or seek to assert any claim, against any officer or employee of any of the Holding Period Trustee or the Information Agent in respect of any claim it might have against the Holding Period Trustee or the Information Agent (as the case may be) in respect of this Agreement and (ii) that any officer or employee of the Holding Period Trustee or the Information Agent may enforce this provision.
- 9.16 The Holding Period Trustee may (without any responsibility for any resulting loss) rely on:
 - (a) any written communication, certificate, legal opinion, instruction or other document received or obtained by it (including, without limitation, an Instruction Certificate) in the course of performing its obligations under this Agreement and believed by it to be genuine and correct and to have been signed by, or with the authority of, the proper person; and
 - (b) any written statement made to it in the course of, and as part of, performing its obligations under this Agreement by a director, officer, partner or employee or authorised representative of any person regarding any matters which may reasonably be assumed to be within the maker's knowledge or within the maker's power to verify.
- 9.17 Any opinion, advice or information described in Clause 9.16 on which the Holding Period Trustee relies or intends to rely may be sent or communicated by letter, email or facsimile transmission. The Holding Period Trustee shall not be liable for acting properly where in accordance with this Agreement it has acted in reliance upon any opinion, advice or information which is so conveyed, unless the opinion, advice or information contains some error of which the Holding Period Trustee is aware or which is manifest.
- 9.18 The Holding Period Trustee may retain for its own benefit, without liability to account to any other person, any fee or other sum received by it for its own account.
- 9.19 The Holding Period Trustee may provide advisory or other services to or engage in any kind of business with any person party to, or affected by, the arrangements which are the subject of this Agreement and may do so without any obligation to account to or disclose any such arrangements to any person but not (i) in respect of the Scheme unless permitted by the Scheme or this Agreement or (ii) to the extent that to do so would place the Holding Period Trustee in a position where it has a conflict of interest with its rights, duties and obligations under this Agreement or the Scheme.
- 9.20 The Holding Period Trustee may exercise any of its rights and perform any of its duties, obligations and responsibilities under this Agreement through its paid or unpaid agents, which may be corporations, partnerships or individuals (whether or not lawyers or other professional persons) or employees and, provided that it has exercised reasonable care in the selection of any such agent or employees, shall not be responsible for any misconduct or omission on the part of, or be bound to supervise the proceedings or acts of, any such agent or employee save where the same arises as a result of the negligence, wilful default or fraud on the part of the agent or employee. Any such agent

- or employee which is reasonably engaged in any profession or business shall be entitled to charge and be paid all usual fees, expenses and other charges for its services.
- 9.21 The Holding Period Trustee may refrain from doing anything which would or might in its opinion be contrary to any law or any directive or regulation of, or having the force of law in, any jurisdiction to which it is subject or which would or might otherwise render it liable to any person and may do anything which is, in its reasonable opinion, necessary to comply with such law, directive or regulation.
- 9.22 The Holding Period Trustee shall not have any responsibility for the legality, effectiveness, adequacy, enforceability or admissibility in evidence of this Agreement or the Scheme unless the lack of any such thing is caused by its own negligence, wilful default or fraud.
- 9.23 The Holding Period Trustee shall have no obligation to monitor or supervise (and shall assume no responsibility for) the actions or functions of the Company, the Information Agent, the Registrars, CRESTCo, Clearstream, Luxembourg or Euroclear or any other party under the Scheme or this Agreement and shall, subject to Clause 9.4, be under no obligation to seek or solicit any communication or certificate and in the absence of knowledge to the contrary shall be entitled to assume that each party to the Scheme and this Agreement is properly performing and complying with its obligations. For the avoidance of doubt, the Holding Period Trustee shall have no liability to any person for any loss, liability, damages or expense (together, loss) which that person may suffer or incur where such loss arises in connection with or as a result of any failure or delay on the part of the Registrars, CRESTCo, Euroclear or Clearstream, Luxembourg in complying with instructions provided to it in connection with any transfer of Scheme Consideration.
- 9.24 Section 1 of the Trustee Act 2000 shall not apply to the duties of the Holding Period Trustee in relation to the trusts constituted by this Agreement. Where there are any inconsistencies between the Trustee Act 1925 and the Trustee Act 2000 of England and Wales and the provisions of this Agreement, the provisions of this Agreement shall, to the extent allowed by law, prevail and, in the case of any such inconsistency with the Trustee Act 2000, the provisions of this Agreement shall constitute a restriction or exclusion for the purposes of that Act.
- 9.25 The Holding Period Trustee shall:
 - (a) provide copies of all instructions given by the Holding Period Trustee to banks, the Registrars or any Clearing System and of all Instruction Certificates received, in each case, by the Holding Period Trustee to the Company at all reasonable times upon request;
 - (b) within five Business Days of a request in writing from the Company (and at the Company's cost and expense in relation to the costs or expenses of third parties in obtaining such information) provide the Company with:
 - (i) a statement identifying the instructions given by the Holding Period Trustee to any Clearing System and the undistributed balances contained in each of the Escrow Accounts; and
 - (ii) a summary of the transactions in each Escrow Account, including details of the Accruals earned and charges (in each case, if any) on the Escrow Accounts.

10. RIGHTS, POWERS AND DUTIES OF THE SELLING AGENT

10.1 The Selling Agent is appointed by the Holding Period Trustee under Clause 4.3 above as the Holding Period Trustee's agent to procure the sale of the Bank T2 Notes and New Ordinary Shares on the terms and subject to the conditions of this Agreement.

- The Holding Period Trustee confers on the Selling Agent all powers, authorities and discretions on behalf of the Holding Period Trustee which are necessary for, or reasonably incidental to the sale of the Bank T2 Notes and the New Ordinary Shares as contemplated by this Agreement and the Holding Period Trustee agrees to ratify and confirm everything which the Selling Agent shall lawfully and properly do in the exercise of such appointment, powers, authorities and discretions.
- 10.3 The Company confirms to the Selling Agent that it has appointed the Registrars to act in connection with administering the registers for the Bank T2 Notes and the New Ordinary Shares. The Holding Period Trustee authorises the Selling Agent to give to the Registrars any instructions consistent with this Agreement which the Selling Agent considers necessary for, or incidental to, the sale of the Bank T2 Notes and the New Ordinary Shares.
- 10.4 In accordance with instructions from the Holding Period Trustee, the Selling Agent agrees, as agent for the Holding Period Trustee, to use its reasonable endeavours to sell the Bank T2 Notes and New Ordinary Shares which are the subject of a Sale Instruction Certificate, subject to and in accordance with Clause 8.9 above.
- 10.5 In connection with any sale of the Bank T2 Notes and New Ordinary Shares to be made by the Selling Agent, the Holding Period Trustee shall procure the crediting of the Bank T2 Notes and/or the New Ordinary Shares to the Clearing System account of the Selling Agent not later than 7:30am on the date prior to the intended settlement date for the relevant sale (as notified by the Selling Agent to the Holding Period Trustee). The Selling Agent undertakes to direct any purchaser of Bank T2 Notes and/or New Ordinary Shares under and in accordance with this Agreement to pay the purchase price for such Bank T2 Notes and/or New Ordinary Shares directly to the Cash Escrow Account.

11. INVESTMENTS

- 11.1 The Holding Period Trustee hereby agrees to credit all Accruals to the relevant Escrow Account until payment or transfer to, or to the order of, the relevant Noteholder Beneficiary (or, if applicable, its Designated Recipient) in accordance with the provisions of this Agreement.
- 11.2 The Holding Period Trustee shall not be under any obligation to invest Accruals and shall have the express power to retain the Accruals in their existing condition in the appropriate Escrow Account.

12. CLOSURE OF ESCROW ACCOUNTS AND RESIGNATION OF HOLDING PERIOD TRUSTEE

- 12.1 Promptly after any Escrow Account ceases to have any cash or securities credited to it by virtue of distribution to all Noteholder Beneficiaries or following the end of the Holding Period, the Holding Period Trustee shall, subject to obtaining the prior consent (such consent not to be unreasonably withheld or delayed) of the Company arrange for that Escrow Account to be closed.
- Once all of the Escrow Accounts have been closed and the Holding Period Trustee's obligations fulfilled, the trusts set out in this Agreement shall be wound up.
- 12.3 Upon closure of all of the Escrow Accounts in accordance with the terms of this Agreement, each of the Holding Period Trustee, the Selling Agent and the Information Agent shall have no further duties, responsibilities or obligations hereunder save for such obligations as may have arisen prior to such closure, which obligations have not as at the time of such closure been fulfilled or discharged.
- 12.4 The Holding Period Trustee may resign its appointment at any time by giving no less than 90 days' prior written notice to the Company and without any liability for any costs arising from such resignation (other than its own).

- 12.5 If the Holding Period Trustee provides notice of resignation in accordance with Clause 12.4, a successor Holding Period Trustee shall be appointed by the Company.
- 12.6 On 30 days' prior written notice to the Holding Period Trustee (or immediate notice, in the case of a breach of this Agreement by the Holding Period Trustee) the Company may terminate the appointment of the Holding Period Trustee and appoint a financial institution of good standing as a successor Holding Period Trustee.
- 12.7 The resignation or removal of a retiring Holding Period Trustee and the appointment of a successor holding period trustee will only become effective upon the successor holding period trustee accepting its appointment as Holding Period Trustee in writing at which time:
 - (a) the successor holding period trustee will become bound by all the obligations of the Holding Period Trustee and become entitled to all the rights, privileges, powers, authorities and discretions of the Holding Period Trustee hereunder;
 - (b) the appointment of the retiring Holding Period Trustee will terminate but without prejudice to any rights of the Holding Period Trustee hereunder or any liabilities which the Company or the Holding Period Trustee may have incurred prior to the termination of its appointment; and
 - (c) subject to paragraph (b) above, the retiring Holding Period Trustee will be discharged from any further liability or obligation under this Agreement.
- 12.8 The resignation (or removal) of a retiring Holding Period Trustee will not take effect until all necessary deeds and documents have been entered into and all necessary steps and actions have been taken in order to substitute the successor Holding Period Trustee as legal owner of the New Ordinary Shares and Bank T2 Notes held by the retiring Holding Period Trustee under the terms of this Agreement and all other cash held by the Holding Period Trustee for the benefit of the Noteholder Beneficiaries under the terms, conditions and provisions of this Agreement including but not limited to amounts standing to the credit of the Escrow Accounts.

13. FEES AND EXPENSES

- 13.1 The Holding Period Trustee, the Selling Agent and the Information Agent shall each be paid fees and expenses for its services under this Agreement in accordance with the Engagement Letters.
- 13.2 If the Company asks the Holding Period Trustee to carry out any task other than one which it is obliged to carry out under this Agreement or the Engagement Letter or as trustee of the trusts expressly constituted by this Agreement and which will not in the sole opinion of the Holding Period Trustee cause the role of the Holding Period Trustee hereunder to be anything other than a bare trustee, the Holding Period Trustee will discuss and agree with the Company reasonable remuneration for such work prior to any obligation to carry out such task being incurred.
- 13.3 The fees and expenses referred to in Clauses 13.1 and 13.2 shall be paid by the Company without recourse to any of the Escrow Accounts or exercise of any right of set off against other monies however payable.
- 13.4 For the avoidance of doubt, none of the Scheme Creditors shall have any liability or any obligations whatsoever to the Holding Period Trustee, the Selling Agent, the Information Agent, or any other person in relation to fees, expenses, claims or otherwise arising from or under this Agreement.
- Where any party is required by the terms of this Agreement to reimburse or indemnify any other party for or against any cost or expense, such first party shall reimburse or indemnify such other

party for or against the full amount of such cost or expense, including such part thereof as represents VAT, save to the extent that such other party is entitled to credit or repayment in respect of such VAT from HM Revenue and Customs.

14. FURTHER ASSURANCE

The parties shall at the cost of the Company do and execute, or procure to be done and executed, all necessary acts, deeds and documents, including but not limited to giving the necessary instructions/notifications to Euroclear, Clearstream, Luxembourg, the Registrars and CRESTCo (and any parties' solicitors, as required) to effect the release of the contents of any of the Escrow Accounts in connection with the transfer or sale of Scheme Consideration in accordance with the terms of this Agreement and the termination of any Escrow Account pursuant to Clause 10, and shall provide each other with all necessary mutual support for the purposes of doing so and giving effect to the terms of this Agreement.

15. OTHER AGREEMENTS

Nothing in this Agreement is intended to limit any rights or obligations of the Company or any Scheme Creditor under the Scheme or under any other agreement entered into in connection with the transactions contemplated by the Scheme.

16. NOTICES

Any notice, instructions or other communication to be served under this Agreement may be (i) delivered (ii) sent by post by prepaid first class post (if within the United Kingdom) or prepaid airmail (if elsewhere), or (iii) sent by facsimile transmission to the recipient at the address or facsimile number as follows:

If to the Company at:

The Co-operative Bank p.l.c.

1 Balloon Street

Manchester M60 4EP

Attention of: The Company Secretary

Phone: 0843 751 4493 Attention of: Kathrine Bancroft

If to the Holding Period Trustee or the Information Agent, at:

Lucid Issuer Services Limited

Leroy House 436 Essex Road London N1 3QP

 Email:
 co-op@lucid-is.com

 Phone:

 Fax:
 020 7067 9098

 Attention of:
 Yves Theis

or at such other address, email address or facsimile number as one party may have notified to the other parties in writing in accordance with this clause.

16.2 A notice served by first class post shall be deemed duly served on the business day after posting. A notice sent by facsimile transmission shall be deemed to have been served at the time of transmission. A notice delivered by hand shall be deemed to have been served at the time of delivery. In proving service of the same it will be sufficient to prove, in the case of a notice posted

or delivered, that such notice was properly stamped or franked first class, addressed and posted or delivered by hand and, in the case of a facsimile transmission, that such facsimile was duly transmitted to the facsimile number referred to in Clause 16.1.

17. ASSIGNMENT

All rights and benefits of this Agreement are personal to the parties hereto and may not be assigned at law or in equity without the prior written consent of the other parties to this Agreement.

18. FORCE MAJEURE

None of the parties to this Agreement shall be in breach of its obligations (if any) under this Agreement as a result of any delay or non-performance of its obligations (if any) under this Agreement arising from any Force Majeure.

19. COUNTERPARTS

This Agreement may be executed in any number of counterparts, all of which taken together shall constitute one and the same instrument.

20. SEVERABILITY

If a provision of this Agreement is or becomes invalid, illegal or unenforceable, that shall not affect the validity, legality and enforceability of any other provision of this Agreement.

21. ENTIRE AGREEMENT

This Agreement, the Engagement Letter, the Scheme and the explanatory statement prepared in connection with the Scheme set out the entire agreement between the parties relating to the subject matter hereof and supersede all prior agreements, representations or understandings among or between any of the parties relating to subject matter hereof.

22. THIRD PARTY RIGHTS

- 22.1 Subject to Clause 9.15, a person who is not a party to this Agreement may not enforce any of its terms, conditions or provisions under the Contracts (Rights of Third Parties) Act 1999.
- Notwithstanding Clause 9.15, the consent of any person who is not a party to this Agreement is not required to amend or modify this Agreement from time to time.
- 22.3 No person shall have a right to disturb a prior distribution under the Scheme or this Agreement.

23. AMENDMENTS

Any amendment, variation, waiver or modification in relation to this Agreement shall be in writing and shall require the agreement of all the parties hereto.

24. GOVERNING LAW AND JURISDICTION

This Agreement is governed by, and shall be construed in accordance with the laws of England. Each party irrevocably agrees that the Courts of England are to have non-exclusive jurisdiction to settle any dispute which may arise out of or in connection with this Agreement and accordingly any suit, action or proceedings arising out of or in connection with this Agreement (together referred to as **Proceedings**) may be brought in such Courts. Each party irrevocably waives any objection which

it may have now or hereafter to the laying of the venue of any Proceedings in the Courts of England and any claim that any Proceedings have been brought in an inconvenient forum.

IN WITNESS whereof this Agreement has been executed as a deed by the parties hereto and is intended to be and is hereby delivered on the date above first written.

SCHEDULE 1

FORM OF INSTRUCTION CERTIFICATES

PART 1

DISTRIBUTION INSTRUCTION CERTIFICATE

To: Lucid Issuer Services Limited in its capacity as the Holding Period Trustee under the Distribution Agreement (as defined below) (the **Holding Period Trustee**)

APPENDIX 1

DEFINITIONS AND INTERPRETATION

1. DEFINITIONS AND INTERPRETATION

1.1 Definitions

In this Explanatory Statement:

- 13% Bondholders means the holders of the 13% Bonds.
- **13% Bondholders Meeting** means the meeting of the 13% Bondholders convened in connection with the Liability Management Exercise (including any adjournment of such meeting).
- **13% Bonds** means the 13% perpetual subordinated bonds with ISIN GB00B3VH4201 issued by the Company in replacement of Britannia Building Society permanent interest bearing shares upon the Company's acquisition of Britannia Building Society on 1 August 2009.
- **2014 Commitment** has the meaning given to that term in paragraph 3 of Part A (*Background to and reasons for the Recapitalisation Plan*) of this Explanatory Statement.
- **2014 Commitment Agreement** has the meaning given to that term in paragraph 2.11 of Part B (*Overview of the Scheme*) of this Explanatory Statement.
- **2016 Notes** means the floating rate callable step-up dated subordinated notes due 2016 with ISIN XS0254625998 originally issued by Britannia Building Society and assumed by the Company upon the Company's acquisition of Britannia Building Society on 1 August 2009.
- **2016 Notes Noteholder** means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2016 Notes as at the Record Date, whose interests in the 2016 Notes are held through records maintained in book entry form by a Clearing System.
- **2019 Notes** means the 5.875% subordinated callable notes due 2019 with ISIN XS0189539942 issued by the Company.
- **2019 Notes Noteholder** means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2019 Notes as at the Record Date, whose interests in the 2019 Notes are held through records maintained in book entry form by a Clearing System.
- **2022 Notes** means the 7.875% subordinated notes due 2022 with ISIN XS0864253868 issued by the Company.
- **2022 Notes Noteholder** means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2022 Notes as at the Record Date, whose interests in the 2022 Notes are held through records maintained in book entry form by a Clearing System.
- **2024 Notes** means the 5.75% dated callable step-up subordinated notes due 2024 with ISIN XS0188218183 originally issued by Britannia Building Society and assumed by the Company upon the Company's acquisition of Britannia Building Society on 1 August 2009.
- **2024 Notes Noteholder** means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2024 Notes as at the Record

Date, whose interests in the 2024 Notes are held through records maintained in book entry form by a Clearing System.

2033 Notes means the 5.875% subordinated notes due 2033 with ISIN XS0145065602 originally issued by Britannia Building Society and assumed by the Company upon its acquisition of Britannia Building Society on 1 August 2009.

2033 Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the 2033 Notes as at the Record Date, whose interests in the 2033 Notes are held through records maintained in book entry form by a Clearing System.

5.555% Bondholders means the holders of the 5.5555% Bonds.

5.5555% Bondholders Meeting means the meeting of the 5.5555% Bondholders convened in connection with the Liability Management Exercise (including any adjournment of such meeting).

5.5555% Bonds means the 5.5555% perpetual subordinated bonds with ISIN GB00B3VMBW45 issued by the Company in replacement of Britannia Building Society permanent interest bearing shares upon the Company's acquisition of Britannia Building Society on 1 August 2009.

Account Holder means any person recorded directly in the records of a Clearing System as holding an interest in any Dated Notes in an account with the relevant Clearing System either for its own account or on behalf of its client.

Account Holder Letter means the account holder letter substantially in the form set out in Appendix 3 (Form of Account Holder Letter) of this Explanatory Statement or such other account holder letter (or similar document or series of documents) as the Company considers appropriate to assist with and/or facilitate the participation by Noteholders who hold their interests in the Dated Notes through Crest, in the Scheme.

Actual Treatment has the meaning given to that term in paragraph 4 of Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

Additional New Ordinary Shares means 62,500,000 33,333,334 ordinary shares to be issued by the Company for an aggregate consideration equal to £125,000,002.50 pursuant to the terms of the Additional New Ordinary Shares Offer.

Additional New Ordinary Shares Offer means the offer by the Company to the Noteholders to elect to subscribe for the Additional New Ordinary Shares on the terms described in paragraphs 2.22 to 2.30 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Adviser Released Party means has the meaning given to that term in the Deed of Waiver and Release.

Additional Preference Shares has the meaning given to that term in paragraph 3.7 of Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Allocated Noteholder has the meaning given to that term in paragraph 2.30(a) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Allocation Ratio has the meaning given to that term in paragraph 2.30(b) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Alternative Recipient has the meaning given to that term in paragraph 2.18 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

April 2021 Notes means the 9.25% subordinated notes due April 2021 with ISIN XS0620315902 issued by the Company.

April 2021 Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the April 2021 Notes as at the Record Date, whose interests in the April 2021 Notes are held through records maintained in book entry form by a Clearing System.

Banking Act has the meaning given to that term in the Letter from the Chairman of the Company in preliminary section 2 of this Explanatory Statement.

Bank T2 Notes means a principal amount equal to £100,000,000 of the 11 per cent. subordinated notes due 2023 (ISIN: GB00BFXW0853) to be issued by the Company, the terms of which are described in detail in the Bank T2 Notes Prospectus.

Bank T2 Notes and New Ordinary Shares Registrar Agreement means the agreement between the Company and Computershare Investor Services PLC dated on or about the Scheme Settlement Date in relation to the provision of paying agency and registrar services.

Bank T2 Notes Paying Agent means Computershare Investor Services PLC in its capacity as paying agent for the Bank T2 Notes.

Bank T2 Notes Prospectus means the debt prospectus relating to the Bank T2 Notes <u>dated 4</u> <u>November 2013, together with the Supplementary Prospectus, both of which are appended to this Explanatory Statement in Appendix 9.</u>

Bank T2 Notes Registrar means Computershare Investor Services PLC in its capacity as registrar for the Bank T2 Notes.

Bank T2 Notes Trust Deed means the trust deed between the Company and the Bank T2 Notes Trustee relating to the Bank T2 Notes.

Bank T2 Notes Trustee means Law Debenture Trustees Limited in its capacity as trustee for the Bank T2 Notes.

Business Day means a day (other than a Saturday or Sunday) on which banks are open for general business in London and which is a Target Day.

CBGL means Co-operative Banking Group Limited.

Chairman means the chairman appointed for the purposes of the Scheme Meeting.

City Code has the meaning given to that term on page 11 (*Important Securities Law Notice*) of this Explanatory Statement.

Clearing Systems means Clearstream, Luxembourg and Euroclear.

Clearstream, Luxembourg means Clearstream Banking, société anonyme.

Code means the UK Corporate Governance Code.

Common Equity Tier 1 has the meaning ascribed thereto (or to any equivalent term) at such time in CRD IV.

Common Equity Tier 1 Capital means capital meeting the definition of Common Equity Tier 1.

Common Depositaries means Bank of New York Mellon, London Branch and Citibank Europe PLC as common depositaries for Clearstream, Luxembourg and Euroclear with whom the Global Notes have been deposited.

Companies Act means the Companies Act 2006.

Company means Co-operative Bank P.L.C., a company incorporated in England with registered number 00990937.

Company Custody Account means one or more custody accounts in the Clearing Systems held on behalf of the Company.

Co-operative Group means Co-operative Group Limited, an industrial and provident society incorporated in England with registered number IP525R.

Co-operative Life Insurance and Asset Management has the meaning given to that term in paragraph 3 of Part A (*Background to and Reasons for the Recapitalisation Plan*) of this Explanatory Statement.

Co-operative Life Insurance and Asset Management Deferred Amount means the deferred consideration payable (subject to the approval of the court under a transfer of the life insurance fund of Co-operative Life Insurance Society Ltd (now named RC (CIS) Ltd) into Royal London under Part VII of FSMA) pursuant to the sale of Co-operative Life Insurance and Asset Management to The Royal London Mutual Insurance Society Limited, which completed on 31 July 2013.

Court means the High Court of Justice of England and Wales.

CRD IV means the EU's implementation of Basel III via the PRD and the PRR.

Crest means the relevant system (as defined in the CREST Regulations) in respect of which EUI is the operator (as defined in the CREST Regulations).

CREST Regulations means the Companies Act 1990 (Uncertificated Securities) Regulations 1996 (S.I. No 68/1996) and the UK Uncertificated Securities Regulations 2001 (SI No. 2001/3755), including any modifications thereof or any regulations in substitution therefor and for the time being in force.

Custody Instructions means instructions given by any relevant Account Holder to the Clearing System in which any relevant Dated Notes are held instructing that Clearing System to block those Dated Notes in accordance with the instructions contained in this Explanatory Statement.

Custody Instruction Deadline has the meaning given to that term in the Expected Timetable of Principal Events at page 16 of this Explanatory Statement.

Custody Instruction Reference Number means a reference number provided by a Clearing System to an Account Holder which has delivered Custody Instructions to that Clearing System, confirming that the blocking instructions contained in those Custody Instructions have been complied with by that Clearing System.

Dated Notes means the 2016 Notes, the 2019 Notes, the April 2021 Notes, the November 2021 Notes, the 2022 Notes, the 2024 Notes and the 2033 Notes.

Dealer Managers has the meaning given to that term on page 6 (*Important Notice*) of this Explanatory Statement.

Deed of Waiver and Release means the deed of waiver and release substantially in the form set out in schedule 1 to the Scheme.

Designated Recipient means any person appointed under a valid Account Holder Letter delivered to and received by the Information Agent on behalf of a Noteholder to receive the Scheme Consideration to which that Noteholder is entitled pursuant to the terms of the Scheme, provided that such person is an Eligible Person.

Directors means the executive and non-executive directors of the Company and **Director** means any one of them.

Disclosure and Transparency Rules means the disclosure and transparency rules made by the FCA under Part VI of the FSMA.

Distribution Agreement means the distribution agreement substantially in the form set out in schedule 3 to the Scheme.

Distribution Instruction Certificate has the meaning given to that term in the Distribution Agreement.

Early Consideration Amount has the meaning given to that term in the Offer Memorandum.

Early Participation Deadline has the meaning given to that term in paragraph 1.4(a) of Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Early Participation Threshold has the meaning given to that term in the Offer Memorandum.

Early Subscribing Noteholders has the meaning give to that term in paragraph 2.30 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Eligible 5.555% Bondholder means a 5.5555% Bondholder that is eligible to participate in the Liability Management Exercise, or the relevant component part thereof, in accordance with the Offer Restrictions.

Eligible 13% Bondholder means a 13% Bondholder that is eligible to participate in the Liability Management Exercise, or the relevant component part thereof, in accordance with the Offer Restrictions.

Eligible Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which includes a confirmation that such Noteholder (or, if such Noteholder has appointed a Designated Recipient, its Designated Recipient) is an Eligible Person.

Eligible Person means a person in relation to whom the offer to, issue to or subscription by such person in respect of any New Ordinary Shares, Bank T2 Notes (and, if applicable, Additional New Ordinary Shares):

- (a) would not be unlawful or prohibited under the laws of any applicable jurisdiction; and
- (b) would not, or would not be likely to, result in the Company being required to comply with any filing, registration, disclosure or other onerous requirement in any jurisdiction where that person is a citizen or subject to the laws of or in which that person is domiciled or resident.

Eligible Preference Shareholder means a Preference Shareholder that is eligible to participate in the Liability Management Exercise, or the relevant component part thereof, in accordance with the Offer Restrictions.

Euroclear means Euroclear Bank S.A./N.V. as operator of the Euroclear clearing system.

Exchange Act has the meaning given to that term on page 10 (*Important Securities Law Notice*) of this Explanatory Statement.

Exchange Offer Bank T2 Notes means a principal amount of up to £106 million of the 11 per cent. subordinated notes due 2023 (ISIN: GB00BFXW0853) to be issued by the Company, the terms of which are described in detail in the Bank T2 Notes Prospectus.

Exchange Offers has the meaning given to that term in paragraph 1.2(b) of Part C (*Overview of the Liability Management Exercise*).

Exchange Instruction has the meaning given to that term in the Offer Memorandum.

Existing Ordinary Shares means the ordinary shares of the Company with a nominal value of £0.05 per share as at date of this Explanatory Statement.

Existing Securities has the meaning given in paragraph 1.1(a) of Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Explanatory Statement has the meaning given to that term on page 1 of this Explanatory Statement.

FCA means the UK Financial Conduct Authority.

FCSC means the Financial Services Compensation Scheme, being the UK compensation fund of last resort for customers of financial services firms authorised under the Financial Services and Markets Act 2000, such fund being established under the Financial Services and Markets Act 2000.

Final Repayment Notes has the meaning given to that term in paragraph 1.2(a)(i)(A) of Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Financial Promotion Order has the meaning given to that term on page 7 (*Important Notice*) of this Explanatory Statement.

First Round Exception has the meaning given to that term in paragraph 2.30 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

FPC has the meaning given to that term in paragraph 2 of Part A (*Background to and reasons for the Recapitalisation Plan*).

FSMA has the meaning given to that term on page 1 of this Explanatory Statement.

Global Notes has the meaning given to that term in recital (C) of the Scheme.

Group means Co-operative Group and its subsidiaries (other than the Company).

Group Notes has the meaning given to that term in paragraph 1.2(a)(i)(B) of Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Group Notes Prospectus means the prospectus dated 4 November 2013 and issued by Cooperative Group in connection with the issue, offer and listing and admission to trading of the Group Notes, including any supplement(s) thereto (if any) which may be issued after that date.

Holders means the Preference Shareholders, the 13% Bondholders and the 5.5555% Bondholders.

Holding Period means the period of 36 months following the Scheme Settlement Date.

Holding Period Trustee means Lucid Issuer Services Limited.

Ineligible Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent before the end of the Holding Period which includes a confirmation that such Noteholder is not an Eligible Person and has not appointed a Designated Recipient.

Information Agent means Lucid Issuer Services Limited.

Insolvency Act 1986 means the Insolvency Act 1986 (c.45).

Insolvency Treatment has the meaning given to that term in paragraph 4 of Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

Instalment Repayment Notes has the meaning given to that term in paragraph 1.2(a)(i)(B) of Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Instruction Certificate has the meaning given to that term in the Distribution Agreement.

Insurance Proceeds has the meaning given to that term in paragraph 3 of Part A (*Background to and Reasons for the Recapitalisation Plan*) of this Explanatory Statement.

Interim Financial Information means the historical financial information for the Bank for the six months ended 30 June 2013, as set out in the Bank T2 Prospectus.

Intermediary means any person holding an interest at the Record Date in any Dated Notes on behalf of another person or other persons who does not hold that interest as an Account Holder.

Intra-group Loan has the meaning given to that term in paragraph 3 of Part A (*Background to and Reasons for the Recapitalisation Plan*) of this Explanatory Statement.

June Announcement means the announcement by the Company and Co-operative Group on 17 June 2013 that, following the conclusion of the Company's review of its capital position and discussion with the PRA, the company required additional aggregate Common Equity Tier 1 Capital of £1.5 billion.

Late Consideration Amount has the meaning given to that term in the Offer Memorandum.

Liability or **Liabilities** means any debt, liability or obligation of a person whether it is present, future, prospective or contingent, whether or not it is fixed or undetermined, whether or not it involves the payment of money or performance of an act or obligation and whether it arises at common law, in equity or by statute, in England and Wales or any other jurisdiction, or in any manner whatsoever.

Liability Management Exercise means the Exchange Offers, the Proposals and the Scheme.

Listing Rules means the listing rules of the FCA relating to admission to the Official List made in accordance with section 73A(2) of the FSMA.

Locked-up Notes has the meaning given to that term in paragraph 1.22(a) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Locked-up Notes Notice has the meaning given to that term in paragraph 1.22(e) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Lock-up Agreement means an agreement between the Company and a Noteholder, pursuant to which that Noteholder agrees, among other things and subject to certain conditions, to vote its Scheme Claim in favour of the Scheme.

Lock-up Arrangement means a Lock-up Agreement or a Lock-up Undertaking.

Lock-up Undertaking means an undertaking by an Account Holder given on behalf of a Noteholder in favour of the Company pursuant to a valid Account Holder Letter delivered to and received by the Information Agent on behalf of that Noteholder, pursuant to which that Noteholder agrees, among other things and subject to certain conditions, to vote its Scheme Claim in favour of the Scheme.

London Stock Exchange has the meaning given to that term on page 1 of this Explanatory Statement.

Longstop Date means 31 December 2013.

Lowest Bidder has the meaning given to that term in paragraph 2.30(b) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Lowest Subscription Amount has the meaning given to that term in paragraph 2.30 (b) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

LT2 Group has the meaning given to that term in the Letter from the Chairman of the Company in preliminary section 2 of this Explanatory Statement.

Minimum Election has the meaning given to that term in paragraph 2.22 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Model Code means the code published as an annex to the Listing Rules in the FCA handbook which imposes restrictions (beyond those required by law) on the dealing of listed securities by certain of a company's directors, officers and employees.

Modified Scheme Purchase Agreement means the agreement between the Company and the Modified Scheme Purchasers dated on or about 1 December 2013 pursuant to which the Modified Scheme Purchasers have agreed to purchase Additional New Ordinary Shares on the terms set out therein.

Modified Scheme Purchaser Premium means the premium described in paragraph 2.32 of part B (Overview of the Scheme) of the Explanatory Statement.

Modified Scheme Purchasers means the persons listed in column 1 of schedule 3 to the Modified Scheme Purchase Agreement, in their capacities as modified scheme purchasers pursuant to the terms of the Modified Scheme Purchase Agreement.

New Administrative Parties means the Bank T2 Notes Trustee, the Bank T2 Notes Registrar, the Bank T2 Notes Paying Agent and the New Ordinary Shares Registrar.

New Ordinary Shares means <u>112,500,000</u> <u>141,666,666</u> ordinary shares to be issued by the Company pursuant to the terms of the Scheme.

New Ordinary Shares Conversion Price means £7.77182766.17566631.

New Ordinary Shares Registrar means Computershare Investor Services PLC as registrar for the New Ordinary Shares and the Additional New Ordinary Shares.

New Securities means the New Ordinary Shares, the Bank T2 Notes, the Instalment Repayment Notes, the Final Repayment Notes and the Exchange Offer Bank T2 Notes.

New Transaction Documents means the Bank T2 Notes Trust Deed and the Bank T2 Notes and New Ordinary Shares Registrar Agreement.

Nominated Directors has the meaning given to that term in paragraph 6.2 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Noteholders means the 2016 Notes Noteholders, the 2019 Notes Noteholders, the April 2021 Notes Noteholders, the November 2021 Notes Noteholders, the 2022 Notes Noteholders, the 2024 Notes Noteholders and the 2033 Notes Noteholders.

Note Event of Default means an event of default under and as defined in the terms and conditions of any series of Dated Notes.

November 2021 Notes means the fixed/floating rate subordinated notes due November 2021 with ISIN XS0274155984 issued by the Company.

November 2021 Notes Noteholder means a person who is the beneficial owner of and/or the owner of the ultimate economic interest in any of the Dated Notes representing the November 2021 Notes as at the Record Date, whose interests in the November 2021 Notes are held through records maintained in book entry form by a Clearing System.

Offer Memorandum means the consent and exchange offer memorandum appended to the Bank T2 Notes Prospectus (including any amendments thereto under the Supplementary Prospectus).

Offer Restrictions means the offer restrictions set out in section F of the Offer Memorandum (in respect of the Exchange Offers).

Official List means the Official List maintained by the FCA.

Old Account Holder Letter means a valid account holder letter for the purposes of the version of this Explanatory Statement which was uploaded to the Scheme Website on or around 18 November 2013 prior to the amendments on 4 December 2013, which includes a valid election to participate in the Additional New Ordinary Shares Offer and/or the Sub-purchasing Offer (as each such term was defined in that version of this Explanatory Statement).

PACE means The Co-operative Pension Scheme.

Perpetual Subordinated Bonds has the meaning given to that term in paragraph 1.1(a) of Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Potential Note Event of Default means any event which may become (with the passage of time, the giving of notice, the making of any determination of any combination thereof) a Note Event of Default.

PRA means the Prudential Regulation Authority.

PRD means Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC

Preference Shareholders means the holders of the Preference Shares.

Preference Shareholders Meeting means the meeting of the Preference Shareholders convened in connection with the Liability Management Exercise (including any adjournment of such meeting).

Preference Shares means the 9.25% non-cumulative irredeemable preference shares issued by the Company with ISIN GB002224516.

Preference Shares Exchange Offer means the offer to exchange the Preference Shares in accordance with the terms of the Liability Management Exercise.

Proposal or **Proposals** has the meaning given to that term in the Offer Memorandum.

Proposed Bail in Power has the meaning given to that term in paragraph 8 of Appendix 7 (*Resolution Analysis*).

Proposed Restructuring means the restructuring of the company described and provided for in the Proposed Restructuring Documents.

Proposed Restructuring Documents means the Offer Memorandum, this Explanatory Statement (including the Scheme), the Group Notes Prospectus, the Bank T2 Notes Prospectus, the practice statement letter from the Company to the Scheme Creditors relating to the Scheme dated 4 November 2013, the articles of association of the Company proposed to be adopted at a general meeting of the Company as contemplated in section 20 of the Bank T2 Notes Prospectus, the Purchase Agreement, the Relationship Agreement—the 2014 Commitment Agreement, the RNS issued by the Company in connection with the Liability Management Exercise on 4 November 2013 and the forms of the intra-group loan agreement between the Company, Co-operative Group and CBGL, the security agreement relating thereto, the co-existence principles between the Company and Co-operative Group, the statement of separation principles between Company and Co-operative Group and the pension liability undertaking, in each case published on the Scheme Website on or around 4 November 2013, and the Offer Memorandum, this Explanatory Statement (including the Scheme), the Group Notes Prospectus, the Bank T2 Notes Prospectus and the Modified Scheme Purchase Agreement.

Prospectus Directive has the meaning given to that term on page 1 of this Explanatory Statement.

Prospectus Rules means the prospectus rules of the FCA made under Part VI of the FSMA relating to offers of securities to the public and admission of securities to trading on a regulated market.

PRR means Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 Text with EEA relevance.

Purchasers means the persons listed in column 1 of schedule 3 to the Purchase Agreement and the persons numbered 5 to 43 (inclusive) in part 1 of appendix 1 to the Deed of Waiver and Release, in their capacities as purchasers pursuant to the terms of the Purchase Agreement.

Purchase Agreement means the agreement between the Company and the Purchasers dated on or about 4 November 2013 pursuant to which the Purchasers have agreed to purchase Additional New Ordinary Shares on the terms set out therein.

Purchaser Premium has the meaning given to that term in paragraph 2.32 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Recapitalisation Plan means the Liability Management Exercise, the 2014 Commitment and any capital generated from interest savings on the Company's Existing Securities.

Record Date means 4.30 p.m. (London time) on 10-13 December 2013.

Registrar of Companies means the Registrar of Companies of England and Wales.

Registrars means Computershare Investor Services PLC (in respect of the Preference Shares) and Equiniti Limited (in respect of each series of Perpetual Subordinated Bonds).

Relationship Agreement has the meaning given to that term in the Bank T2 Notes Prospectus.

Released Parties has the meaning given to that term in the Deed of Waiver and Release.

Resolution Authorities has the meaning given to that term in paragraph 1 of Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

Restructuring Consideration has the meaning given to that term in paragraph 2 of Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

Restructuring Documents has the meaning given to that term in the Deed of Waiver and Release.

Royal London has the meaning given to that term in paragraph 3 of Part A (*Background to and Reasons for the Recapitalisation Plan*) of this Explanatory Statement.

Sale Instruction Certificate has the meaning given to that term in the Distribution Agreement.

Scheme means the scheme of arrangement in respect of the Company under Part 26 of the Companies Act in the form set out in Part F (*Scheme*) of this Explanatory Statement (with or subject to any modification, addition or condition approved or imposed by the Court or approved in accordance with the terms of the Scheme).

Scheme Claim means any claim in respect of any Liability of the Company to any person arising out of an interest in the Dated Notes, arising on or before the Record Date or which may arise after the Record Date as a result of an obligation or Liability of the Company incurred or as a result of an event occurring or an act done on or before the Record Date (including, for the avoidance of doubt, any interest accruing on, or accretions arising in respect of, such claims before or after the Record Date), excluding any Liability of the Company to the Trustees under the Trust Deeds other than in respect of the covenants to repay principal and interest on the Dated Notes pursuant to the Trust Deeds.

Scheme Consideration means the New Ordinary Shares and the Bank T2 Notes.

Scheme Consideration Calculation Amount means, with respect to a Noteholder, the aggregate of (i) the aggregate principal amount outstanding of the Dated Notes (other than 2016 Notes) and accrued but unpaid interest thereon up to (and including) the Record Date held by that Noteholder (if any) and (ii) the Sterling-Equivalent principal amount outstanding of the 2016 Notes and accrued but unpaid interest thereon up to (and including) the Record Date held by that Noteholder (if any), in each case as at the Record Date.

Scheme Creditor means the Common Depositaries, the Trustees (solely in their capacities as the beneficiaries of the covenants to repay principal and interest on the Dated Notes pursuant to the Trust Deeds) and the Noteholders.

Scheme Effective Date means the date on which an office copy of the order of the Court sanctioning the Scheme under Section 899 of the Companies Act is delivered to the Registrar of Companies.

Scheme FX Rate means the rate of exchange between Euro and Sterling appearing on or derived from the Bloomberg service designated as the "FXC" page for the purpose of displaying that rate of exchange, as determined by the Company on 30 October 2013, being £0.85644 to \in 1.

Scheme Meeting means the meeting of the Scheme Creditors to vote on the Scheme convened pursuant to an order of the Court (and any adjournment of such meeting).

Scheme Meeting Convening Notice has the meaning given to that term in Appendix 5 (*Notice of Director Nomination Resolution*) of this Explanatory Statement.

Scheme Sanction Hearing means the hearing of the Court for the purpose of sanctioning the Scheme pursuant to the order of the Court under Section 899 of the Companies Act.

Scheme Settlement Condition means the condition described in clause 5 of the Scheme.

Scheme Settlement Condition Testing Date means the latest to occur of:

- (a) the Scheme Effective Date; and
- (b) the date on which the resolutions proposed at each of the Preference Shareholders Meeting, the 5.5555% Bondholders Meeting and the 13% Bondholders Meeting and the general meeting of the Company referred to in paragraph 1.35(b) of Part B (*Overview of the Scheme*) have been voted and each such meeting has been concluded.

Scheme Settlement Date means the date on which the Scheme Consideration and the Additional New Ordinary Shares are issued as described in the Scheme.

Scheme Website means http://www.co-operative.coop/Bondholders.

SDRT has the meaning given to that term in paragraph 3.3 of Part F (*Taxation*) of this Explanatory Statement.

SEC has the meaning given to that term on page 10 (*Important Securities Law Notice*) of this Explanatory Statement.

Second Round Allocations has the meaning given to that term in paragraph 2.30(b) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Section 19 Power has the meaning given to that term in paragraph 8 of Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

Securities Act has the meaning given to that term on page 10 of this Explanatory Statement.

Selling Agent means TFS Derivatives Limited and Tradition (UK) Limited.

Senior Bonds has the meaning given to that term in paragraph 8 of Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

Senior Manager has the meaning given to that term in the Bank T2 Notes Prospectus.

Settlement Condition has the meaning given to that term in paragraph 1.3(b) in Part C (*Overview of the Liability Management Exercise*) of this Explanatory Statement.

Settlement Date has the meaning given to that term in the Offer Memorandum

Sterling-Equivalent means, with respect to any principal amount outstanding and/or amount of accrued but unpaid interest in respect of the 2016 Notes, the amount of such principal amount outstanding and/or amount of accrued but unpaid interest in Euro notionally converted into Sterling at the Scheme FX Rate.

Statement of Separation Principles means the execution version of the statement of separation principles between the Company and Co-operative Group.

Subscriber means a Subscribing Noteholder, a Sub-purchaser or a <u>Modified Scheme</u> Purchaser, as applicable.

Subscribing Noteholder means a Noteholder which elects to participate in the Additional New Ordinary Shares Offer.

Subscription Amount has the meaning given to that term in paragraph 2.29(b) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Subscription Escrow Bank means BNP Paribas, London branch.

Subscription Escrow Account means the escrow account to be opened with the Subscription Escrow Bank to hold subscription monies for the Additional New Ordinary Shares Offer.

Subscription Price has the meaning given to that term in paragraph 2.27(b) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Sub-purchase Amount has the meaning given to that term in paragraph 2.42(b)(iii) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Sub-purchaser means the Noteholders which elect to participate in the Sub-purchasing Offer.

Sub-purchasing Commitment has the meaning given to that term in paragraph 2.38 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Sub-purchasing Offer has the meaning given to that term in paragraph 2.33 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Sub-purchaser Premium has the meaning given to that term in paragraph 2.44 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Sub-purchasing Shares has the meaning given to that term in paragraph 2.41 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

<u>Supplementary Prospectus</u> means the supplementary prospectus relating to the Bank T2 Notes dated 4 December 2013 which is appended to this Explanatory Statement in Appendix 9.

Takeover Panel has the meaning given to that term in page 11 (*Important Securities law* Notice) of this Explanatory Statement.

Target Day means a day on which the Trans European Automated Real-Time Gross Settlement Express Transfer payment system is open for settlement of payments in euro.

Total First Round Allocation has the meaning given to that term in paragraph 2.30(a) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Total Second Round Allocation has the meaning given to that term in paragraph 2.30(b) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Total Subscription Amount has the meaning given to that term in paragraph 2.29(c) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Total Third Round Allocation has the meaning given to that term in paragraph 2.30(c) of Part B (Overview of the Scheme) of this Explanatory Statement.

Treasury Briefing has the meaning given to that term in paragraph 8 of Appendix 7 (*Resolution Analysis*) of this Explanatory Statement.

Trustees means The Law Debenture Trust Corporation p.l.c. in its capacity as trustee for each series of the Dated Notes.

Trust Deeds mean the trust deeds relating to the Dated Notes.

UK has the meaning given to that term in paragraph 4.1 of Part D (*Risk Factors*) of this Explanatory Statement.

Unadmitted Noteholder means a Noteholder on whose behalf a valid Account Holder Letter has not been delivered to and received by the Information Agent before the Voting Instruction Deadline other than any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date and in relation to whom the Company exercises its discretion to issue Scheme Consideration on the Scheme Settlement Date in accordance with the terms of the Scheme.

Unallocated Subscribing Noteholder has the meaning given to that term in paragraph 2.30(a) of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Undertaking to Pay has the meaning given to that term in paragraph 3 of Part A (*Background to and reasons for the Recapitalisation Plan*) of this Explanatory Statement.

Undertaking Transaction Parties means the Trustees, the Common Depositaries, the Holding Period Trustee, the Information Agent, the Selling Agent, the <u>Modified Scheme</u> Purchasers, Cooperative Group and the New Administrative Parties.

<u>Unfilled Subscribing Noteholders</u> has the meaning give to that term in paragraph 2.30 of Part B (*Overview of the Scheme*) of this Explanatory Statement.

Voting Instruction Deadline means 4.30 p.m. (London time) on <u>10 13</u> December 2013.

In this Explanatory Statement:

- (a) words denoting the singular number only shall include the plural number also and vice versa;
- (b) words denoting one gender only shall include the other genders;
- (c) words denoting persons only shall include firms and corporations and vice versa;
- (d) references to any statutory provision shall be deemed also to refer to any statutory modification or re-enactment thereof or any statutory instrument, order or regulation made thereunder or under any such re-enactment;
- (e) any reference in this Appendix 1 (*Definitions and Interpretation*) to any document whose meaning is stated to be the meaning given to a document as defined in the Bank T2 Notes Prospectus shall be construed as a reference to that document as amended, varied, novated, restated, modified, supplemented or re-enacted or replaced prior to the date of this Explanatory Statement;
- (f) clause, paragraph and schedule headings are for ease of reference only;
- (g) a reference to this Explanatory Statement includes a reference to the preliminary sections and appendices of this Explanatory Statement;
- (h) references to any person shall include references to his successors, transferees and assigns and any person deriving title under or through him;
- (i) references to "Sterling" or to "£" are references to the lawful currency from time to time of the United Kingdom;
- (j) references to "Euro" or to "€" are references to the lawful currency from time to time of the member states of the European Community that adopt or have adopted the Euro as their lawful currency under the legislation of the European Community for Economic and Monetary Union; and
- (k) references to time shall be to London time (Greenwich Mean Time or British Summer Time, as appropriate).

APPENDIX 2

INSTRUCTIONS AND GUIDANCE FOR SCHEME CREDITORS AND ANY PERSON WITH AN INTEREST IN THE DATED NOTES

THIS APPENDIX SETS OUT INSTRUCTIONS AND GUIDANCE FOR VOTING AT THE SCHEME MEETING AND PARTICIPATING IN THE ADDITIONAL NEW ORDINARY SHARES OFFER AND PROCEDURES TO RECEIVE SCHEME CONSIDERATION IN ACCORDANCE WITH THE TERMS OF THE SCHEME AND CERTAIN ADDITIONAL MATTERS. ALL SCHEME CREDITORS AND ANY PERSON WITH AN INTEREST IN THE DATED NOTES ARE REQUESTED TO READ:

- (1) THE GENERAL GUIDANCE IN SECTION 1 OF THIS APPENDIX;
- (2) THE GUIDANCE ON VOTING AT THE SCHEME MEETING IN SECTION 2 OF THIS APPENDIX:
- (3) THE GUIDANCE ON THE DISTRIBUTION OF SCHEME CONSIDERATION IN SECTION 3 OF THIS APPENDIX;
- (4) THE GUIDANCE ON PARTICIPATING IN THE ADDITIONAL NEW ORDINARY SHARES OFFER AND THE SUB-PURCHASING OFFER IN SECTION 4 OF THIS APPENDIX; AND
- (5) THE GUIDANCE ON VOTING FOR OR AGAINST THE APPOINTMENT OF ANY NOMINATED DIRECTORS (IF APPLICABLE).

SECTION 1 – GENERAL GUIDANCE

SCHEME MEETING

- 1. Before the Scheme can become effective and binding on the Company and the Scheme Creditors, a resolution to approve it must be passed by the Scheme Creditors by the requisite majority required by section 899 of the Companies Act 2006. The requisite majority is a majority in number representing at least 75% in value of the Scheme Creditors who, being so entitled, are present in person, by a duly authorised representative if a corporation, or by proxy and vote at the Scheme Meeting. The Scheme Meeting has been ordered by the Court to be summoned to take place on 11-16 December 2013 at 10 a.m. (London time).
- 2. Formal notice of the Scheme Meeting is set out in Appendix 4 (*Notice of Scheme Meeting*) of this Explanatory Statement.
- 3. If the Scheme Creditors do not approve the Scheme at the Scheme Meeting, then the Company will not be able to implement the Scheme and the Liability Management Exercise.
- 4. The relevant Scheme Creditors for the purposes of voting on the Scheme at the Scheme Meeting are the Noteholders. Each of the Common Depositaries and the Trustees has confirmed that it will not exercise any voting rights to which it may be entitled as a Scheme Creditor at the Scheme Meeting.

DEADLINE FOR VOTING AT THE SCHEME MEETING

5. Voting will take place at the Scheme Meeting by Noteholders appearing in person, by a duly authorised representative or by proxy as explained in more detail in section 2 (*Voting*) below.

VOTING

- 6. As explained in more detail in section 2 (*Voting*) below, each Noteholder must ensure that its Account Holder completes and submits to the Information Agent a valid Account Holder Letter in order to vote at the Scheme Meeting. Account Holder Letters for the purpose of voting must be submitted to the Information Agent before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 7. A valid Account Holder Letter for the purposes of voting means an Account Holder Letter which has been signed by an Account Holder duly authorised by a Noteholder and in respect of which Part 2 Section 3 (*Voting*) of the Account Holder Letter has been completed, including all confirmations required to be given by the Account Holder.
- 8. Failure to deliver a valid Account Holder Letter on behalf of a Noteholder by the Voting Instruction Deadline will mean that the voting instructions contained in that Account Holder Letter will be disregarded for the purposes of voting at the Scheme Meeting and the relevant Noteholder will not be entitled to vote at the Scheme Meeting.
- 9. Notwithstanding any other provision of this Explanatory Statement, the Chairman will be entitled, at the sole discretion of the Chairman, to permit a Noteholder in respect of which a completed Account Holder Letter has not been delivered prior to the Voting Instruction Deadline to vote at the Scheme Meeting if the Chairman considers that the relevant Noteholder has produced sufficient proof that it is a Scheme Creditor.

ASSESSMENT OF SCHEME CLAIMS FOR VOTING PURPOSES

- 10. The amount of the Scheme Claims of each Noteholder which submits a valid Account Holder Letter in respect of the Dated Notes will be calculated as at the Record Date based on information confidentially provided to the Company by the Information Agent. This information will be used by the Chairman to determine whether the Scheme is approved at the Scheme Meeting. Accordingly, Noteholders do not need to take any action in respect of confirming the amount of their Scheme Claims other than providing the details requested in the Account Holder Letter.
- 11. As the 2016 Notes are denominated in Euro and the other series of the Dated Notes are denominated in Sterling, the Scheme Claims in respect of the 2016 Notes of each Noteholder which submits a valid Account Holder Letter shall be notionally converted from Euro into Sterling at the Scheme FX Rate for the purposes of calculating the value of those Scheme Claims in connection with voting at the Scheme Meeting.
- 12. Only those Noteholders which are Scheme Creditors as at the Record Date, being 4.30 p.m. (London time) on 10-13 December 2013, are entitled to attend and vote, either in person, by a duly authorised representative if a corporation, or by proxy at the Scheme Meeting.
- 13. The assessment of Scheme Claims for voting purposes shall be carried out by the Chairman. The Chairman may, for voting purposes only, reject a Scheme Claim in whole or in part if he/she considers that it does not constitute a fair and reasonable assessment of the relevant sums owed to the relevant Noteholder by the Company or if the relevant Noteholder has not complied with the voting procedures described in this Explanatory Statement. If a Scheme Claim is unascertained, contingent or disputed (in part) but the Chairman is able to place a minimum value on that Scheme Claim, he/she may admit the Scheme Claim for voting purposes at that value. If a Scheme Claim is disputed in its entirety, or the Chairman is otherwise unable to place a minimum value on it, that Scheme Claim may be valued at £1 for voting purposes.
- 14. The Chairman will report to the Court, at the Scheme Sanction Hearing (which it is anticipated will take place on 16-18 December 2013), his/her decision to reject Scheme Claims (if any), with details of those Scheme Claims and the reasons for rejection.

15. The admission and valuation of any Scheme Claim for voting purposes does not (in itself) constitute an admission of the existence or value of the Scheme Claim and will not bind the Company or the Noteholders concerned.

TRANSFERS / ASSIGNMENTS AFTER THE RECORD DATE

16. Under the Scheme, the Company is under no obligation to recognise any assignment or transfer of any Scheme Claim after the Record Date, provided that where the Company has received from the relevant parties in writing notice of such assignment or transfer, the Company may, in its absolute discretion and subject to such evidence as it may reasonably require, agree to recognise such assignment or transfer for the purposes of the Scheme. Any assignee or transferee of a Scheme Claim recognised under the Scheme at the discretion of the Company shall be bound by the terms of the Scheme and be a Scheme Creditor for the purposes of the Scheme.

DISTRIBUTION OF SCHEME CONSIDERATION

- 17. In order to receive the Scheme Consideration to which it is entitled in accordance with the terms of the Scheme (or, to the extent it is not eligible to receive such Scheme Consideration and does not appoint a Designated Recipient, in order to receive the net proceeds of the sale of such Scheme Consideration in accordance with the terms of the Scheme and the Distribution Agreement), each Noteholder must ensure that its Account Holder completes and delivers to the Information Agent a valid Account Holder Letter.
- 18. A valid Account Holder Letter for the purposes of confirming eligibility to receive Scheme Consideration means an Account Holder Letter which has been signed by an Account Holder duly authorised by a Noteholder and in respect of which Part 4 (*Scheme Consideration, Eligibility and Delivery of the Additional New Ordinary Shares*) has been completed, including all confirmations required to be given by the Account Holder for and on behalf of the relevant Noteholder.
- 19. Account Holder Letters for the purpose of confirming eligibility to receive Scheme Consideration must be delivered to the Information Agent so as to be received by the Information Agent before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013, in order for the relevant Noteholder to be entitled (if it is an Eligible Noteholder) to receive Scheme Consideration on the Scheme Settlement Date.
- 20. If a valid Account Holder Letter for the purposes of confirming eligibility to receive Scheme Consideration is delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date, provided that the Information Agent can establish to its satisfaction that the Noteholder on whose behalf such Account Holder Letter was submitted was, at the Record Date, the Noteholder in respect of the Dated Notes specified in the relevant Account Holder Letter, the Noteholder (or, if it has appointed a Designated Recipient, its Designated Recipient) may receive the Scheme Consideration to which that Noteholder is entitled at the sole discretion of the Company on the Scheme Settlement Date.
- 21. Failure to deliver a valid Account Holder Letter on behalf of a Noteholder before the Voting Instruction Deadline will mean that the Noteholder (irrespective of whether it would otherwise be eligible to receive Scheme Consideration) will not receive any Scheme Consideration to which it would be entitled in accordance with the terms of the Scheme on the Scheme Settlement Date.
- 22. If a Noteholder is not entitled to receive Scheme Consideration on the Scheme Settlement Date (for example, because a valid Account Holder Letter has not been delivered to and received by the Information Agent in respect of that Noteholder before the Voting Instruction Deadline and that Noteholder is an Unadmitted Noteholder), the relevant Scheme Consideration will be

- delivered to the Holding Period Trustee to hold on trust for the Unadmitted Noteholders in accordance with the terms of the Scheme and the Distribution Agreement.
- 23. The Holding Period Trustee shall hold any such Scheme Consideration on trust for the Unadmitted Noteholders for a period of 36 months following the Scheme Settlement Date in accordance with the terms of the Scheme and the Distribution Agreement. This period of 36 months is referred to in the Scheme as the Holding Period.
- 24. If, at the end of the Holding Period, the Holding Period Trustee is holding any Scheme Consideration on behalf of any Unadmitted Noteholders, as soon as reasonably practicable thereafter the Selling Agent will sell the relevant Scheme Consideration in accordance with the terms of the Distribution Agreement and the Scheme and the Holding Period Trustee will pay the net proceeds of such sale to the Company.
- 25. Failure by a Noteholder which is an Unadmitted Noteholder to deliver a valid Account Holder Letter before the end of the Holding Period will mean that any Scheme Consideration to which it would have been entitled in accordance with the terms of the Scheme will be sold and the net proceeds of such sale will be distributed to the Company and that Noteholder shall have no entitlement to those net proceeds or any rights or claims against the Company, the Holding Period Trustee, the Selling Agent or any other person in respect thereof.
- Any Unadmitted Noteholder in respect of which an Account Holder Letter is being delivered to the Information Agent during the Holding Period, following the occurrence of the Scheme Settlement Date, will also need to instruct its Account Holder to provide all information required by the Information Agent to enable the Information Agent to verify that the Unadmitted Noteholder was a Scheme Creditor as at the Record Date in respect of the Dated Notes referred to in the Account Holder Letter.
- 27. Any Unadmitted Noteholder in respect of which:
 - (a) a valid Account Holder Letter is completed and delivered by its Account Holder to the Information Agent on or after the Voting Instruction Deadline but before the end of the Holding Period; and
 - (b) its Account Holder has confirmed on its behalf in the Account Holder Letter that (a) the Unadmitted Noteholder is an Eligible Person or (b) if the Unadmitted Noteholder has appointed a Designated Recipient, the Designated Recipient is an Eligible Person,

will be an Eligible Noteholder for the purposes of the Scheme and the Distribution Agreement.

28. Each Eligible Noteholder (or, to the extent applicable, its Designated Recipient) will receive the Scheme Consideration to which it is entitled in accordance with the terms of the Scheme (including any accrued and paid dividends and interest or other payments received by the Holding Period Trustee in respect of such Scheme Consideration, in each case net of any applicable taxes (including, without limitation, any withholding taxes but excluding any stamp duty and/or stamp duty reserve tax which the Company will covenant to pay on behalf of that Eligible Noteholder under the terms of the Distribution Agreement)) as soon as reasonably practicable after the receipt by the Information Agent of a valid Account Holder Letter in respect of that Eligible Noteholder.

ADDITIONAL NEW ORDINARY SHARES OFFER

29. In order to participate in the Additional New Ordinary Shares Offer, a valid Account Holder Letter with the appropriate elections made must be delivered to and received by the Information Agent by no later than the Voting Instruction Deadline.

- 30. Failure to deliver a valid Account Holder Letter containing the relevant elections in relation to the Additional New Ordinary Shares Offer and confirming that the relevant Noteholder is an Eligible Person or, if it has appointed a Designated Recipient, that the Designated Recipient is an Eligible Person by the Voting Instruction Deadline will mean that the relevant Noteholder will not be entitled to participate in the Additional New Ordinary Shares Offer.
- 31. In order to receive its entitlement to Additional New Ordinary Shares pursuant to the terms of the Additional New Ordinary Shares Offer, a Subscribing Noteholder must ensure that it has deposited in the Subscription Escrow Account in cleared funds an amount equal to the Subscription Price for nominal amount of Additional New Ordinary Shares to which it is entitled in accordance with the terms of the Additional New Ordinary Shares Offer by no later than two Business Days after the date of the Scheme Meeting.
- 32. Failure to ensure compliance with the requirements in paragraph 31 above will result in the entitlement of the relevant Subscribing Noteholder lapsing in accordance with the terms of the Additional New Ordinary Shares Offer and that Subscribing Noteholder will not be entitled to any Additional New Ordinary Shares.

SUB-PURCHASING OFFER

- 33. In order to participate in the Sub-purchasing Offer, a valid Account Holder Letter with the appropriate elections made must be delivered to the Information Agent so as to be received by the Information Agent by no later than the Voting Instruction Deadline.
- 34. Failure to deliver a valid Account Holder Letter containing the relevant elections in relation to the Sub-purchasing Offer and confirming that the relevant Noteholder is an Eligible Person or, if it has appointed a Designated Recipient, that the Designated Recipient is an Eligible Person by the Voting Instruction Deadline will mean that the relevant Noteholder will not be entitled to participate in the Sub-purchasing Offer.
- 35. In order to receive the Sub-purchase Premium payable to it in respect of any Sub-purchasing Commitment allocated to it, a Sub-purchaser must ensure that it has deposited in the Subscription Escrow Account in cleared funds an amount equal to the amount of its Sub-purchasing Commitment required to be funded as notified to it by the Company (or an agent acting on behalf of the Company) on the date of the Scheme Meeting by no later than two Business Days after the date of the Scheme Meeting.
- 36. Failure to ensure compliance with the requirements in paragraph 35 above will result in the commitment of the relevant Sub-purchaser lapsing and that Sub-purchaser will not be entitled to any Sub-purchaser Premium in accordance with the terms of the Sub-purchasing Offer.
- 37. If you hold your interests in the Dated Notes in Crest and are not a Crest participant, contact your Crest participant and the Information Agent as soon as possible in connection with participation in the Scheme (and any part thereof). Crest participants should contact the Information Agent immediately. The form of Account Holder Letter to be used by Noteholders holding their interests in the Dated Notes through Crest is not the form of Account Holder Letter attached at Appendix 3 (Form of Account Holder Letter) to this Explanatory Statement. The relevant form of Account Holder Letter will be provided by the Information Agent on request. Notwithstanding the different form of Account Holder Letter, the instructions and guidance set out in this Appendix 2 (Instructions and guidance for Scheme Creditors and any persons with an interest in the Dated Notes) apply to a Noteholder irrespective of the fact they might hold their interests in the Dated Noted in Crest.

SECTION 2: VOTING

GENERAL

- 38. 37. Each Scheme Creditor that is a Noteholder should immediately contact its Account Holder (through any Intermediaries, if appropriate) to ensure that a valid Account Holder Letter in respect of its Scheme Claim is delivered to and received by the Information Agent.
- 39. 38.It will be the responsibility of Account Holders to obtain from the Noteholders (through any Intermediaries, if applicable) on whose behalf they are acting in accordance with the procedures established between them, whatever information or instructions they may require to identify in an Account Holder Letter the relevant Noteholder and to provide the information, instructions, confirmations and representations required to be given by the Account Holder Letter for and on behalf of the relevant Noteholder. To assist this process, each Noteholder is strongly encouraged to contact its Account Holder (through any Intermediaries, if appropriate) to enable that Account Holder to complete an Account Holder Letter and deliver such Account Holder Letter to the Information Agent before the Voting Instruction Deadline.
- <u>40.</u> 39.Before the Voting Instruction Deadline, each Noteholder that wishes to vote at the Scheme Meeting and in respect of which an Account Holder Letter is completed will be required to ensure that its Account Holder has instructed the relevant Clearing System in which the Dated Notes which are the subject of the Account Holder Letter are held to block those interests in the Dated Notes, by giving Custody Instructions to that effect to the relevant Clearing System. The procedure for doing this is described further below.
- 40. If a person is in any doubt as to whether or not it is a Noteholder, such person should contact the Information Agent using the contact details in the Account Holder Letter set out in Appendix 3 (Form of Account Holder Letter).
- 41. Noteholders may also wish to refer to the diagrams set out in the section entitled *Are you a Scheme Creditor or a person with an interest in the Dated Notes?* at pages 21 to 27 above to see the relationship between Noteholders, Intermediaries and Account Holders.

Appointment of the Information Agent

43. 42. The Information Agent has been appointed to facilitate communications with Noteholders. The Information Agent's remuneration and expenses, and all costs incurred by it on behalf of the Company, shall be met by the Company.

LOCK-UP UNDERTAKINGS

- 44. 43. As described in Part B (*Overview of the Scheme*) of this Explanatory Statement, a Noteholder may enter into a Lock-up Arrangement by entering into either a Lock-up Agreement or instructing its Account Holder in the Account Holder Letter to elect to enter into Lock-up Undertakings on its behalf.
- 44.If a Noteholder wishes to enter into Lock-up Undertakings, it should instruct its Account Holder to confirm to the Company, Co-operative Group and the Information Agent that the Noteholder has authorised the Account Holder to enter into Lock-up Undertakings on its behalf by making the appropriate elections in the Account Holder Letter.

VOTING AT THE SCHEME MEETING

46. 45.In order to vote at the Scheme Meeting, each Noteholder (through any Intermediaries, if applicable) should instruct its Account Holder to complete and sign an Account Holder Letter as

described below and deliver the completed and signed Account Holder Letter to the Information Agent on behalf of the Company before the Voting Instruction Deadline.

PROCEDURE FOR BLOCKING NOTES HELD IN A CLEARING SYSTEM

- 47. 46.Each Account Holder should ensure that Euroclear and/or Clearstream, Luxembourg (as the case may be) has/have received irrevocable instructions (with which it has/they have complied) to block the Dated Notes which are the subject of an Account Holder Letter. Each Noteholder procuring the submission of an Account Holder Letter by its Account Holder should instruct its Account Holder to confirm that (and the Account Holder should ensure that) the Account Holder Letter cross references the relevant Custody Instruction Reference Number. Failure to include a valid Custody Instruction Reference Number in an Account Holder Letter delivered on behalf of a Noteholder to the Information Agent will invalidate that Account Holder Letter and the voting instructions contained in that Account Holder Letter will be disregarded for the purposes of voting at the Scheme Meeting and the relevant Noteholder will not be entitled to vote at the Scheme Meeting.
- 48. 47. Notes held in Euroclear or Clearstream, Luxembourg should be blocked in accordance with the procedures of the relevant Clearing System and the deadlines required by that Clearing System. It is the responsibility of Account Holders to ensure that they comply with any particular deadlines imposed by the Information Agent and the relevant Clearing System for blocking the Dated Notes.
- 49. 48. Custody Instructions in respect of any Dated Notes held in Euroclear which are the subject of an Account Holder Letter should be given to Euroclear in accordance with the deadlines specified by Euroclear and its standard practices. Euroclear will assign a Custody Instruction Reference Number in respect of each Custody Instruction and, as noted in paragraph 46-47 above, the Custody Instruction Reference Number must be cross referenced in the Account Holder Letter relating to the Dated Notes in respect of which the Custody Instruction Reference Number has been obtained. An Account Holder Letter will not be valid if it does not contain the relevant Custody Instruction Reference Number(s). This will enable the Information Agent to verify the blocking of the Dated Notes in accordance with paragraph 50-51 below.
- 49. Custody Instructions in respect of any Dated Notes held in Clearstream, Luxembourg which are the subject of an Account Holder Letter should be given to Clearstream, Luxembourg in accordance with the deadlines specified by Clearstream, Luxembourg and its standard practices. Clearstream, Luxembourg will assign a Custody Instruction Reference Number in respect of each Custody Instruction and, as noted in paragraph 46–47 above, the Custody Instruction Reference Number must be cross referenced in the Account Holder Letter relating to the Dated Notes in respect of which the Custody Instruction Reference Number has been obtained. An Account Holder Letter will not be valid if it does not contain the relevant Custody Instruction Reference Number(s). This will enable the Information Agent to verify the blocking of the Dated Notes in accordance with paragraph 50–51 below.
- 50. The Information Agent will request the Clearing Systems to confirm to its satisfaction that the relevant Dated Notes have been blocked with effect from or before the date of receipt by the Information Agent of an Account Holder Letter. In the event that a Clearing System fails to do so, the Information Agent may reject that Account Holder Letter. In order to give the requested confirmation for the purpose of voting, the Clearing Systems will need to have received the Custody Instructions no later than 5 p.m. (local time in the place of the relevant Clearing System) on 9-12 December 2013, being the day before the Voting Instruction Deadline.
- 51. The Information Agent will use all reasonable endeavours to assist Noteholders to complete their Account Holder Letters validly, should it receive any Account Holder Letters which are not valid. However, failure to deliver a valid Account Holder Letter on behalf of a Noteholder to the Information Agent in the manner and within the deadlines referred to above will mean that the voting instructions contained in such Account Holder Letter will be disregarded for the purposes

- of voting at the Scheme Meeting and the relevant Noteholder will not be entitled to vote at the Scheme Meeting.
- 52. None of the Company, Co-operative Group, the Information Agent or any other person will be responsible for any loss or liability incurred by a Noteholder as a result of any determination by the Information Agent that an Account Holder Letter contains an error or is incomplete, even if this is subsequently shown not to have been the case.

COMPLETING THE ACCOUNT HOLDER LETTER FOR THE PURPOSES OF VOTING

- <u>54.</u> Sach Noteholder will need to give its Account Holder information and instructions as to voting and certain other matters.
- <u>55.</u> Summary each Noteholder may elect:
 - (a) to attend and vote at the Scheme Meeting in person or by a duly authorised representative if a corporation; or
 - (b) to instruct the Chairman as its proxy to cast its vote in accordance with the wishes of that Noteholder; or
 - (c) to appoint someone else as its proxy to attend and vote at the Scheme Meeting in person on its behalf.

in each case, by ensuring that such election is recorded in the Account Holder Letter delivered on its behalf and that the voting intention section of the Account Holder Letter is completed.

- 55. Each Noteholder which has not entered into a Lock-up Agreement prior to the submission of its Account Holder Letter may also elect to enter into Lock-up Undertakings as described in paragraphs 43-44 and 44-45 above.
- 56. Each Noteholder is recommended to appoint a proxy (either the Chairman or someone else of its choice who would be willing to attend the Scheme Meeting) in any event, even if that Noteholder intends to attend and vote in person or by a duly authorised representative, if a corporation, in case such Noteholder is unable to do so for some reason. If a Noteholder appoints a proxy and then decides to attend and vote at the Scheme Meeting in person or by a duly authorised representative, if a corporation, that Noteholder will be entitled to do so.
- 57. Each Noteholder which submits, delivers or procures the delivery of an Account Holder Letter will be required to make (or authorise its Account Holder to make on its behalf) the representations, warranties and undertakings to the Company, Co-operative Group and the Information Agent set out in paragraph1 of schedule 1 to the Account Holder Letter.
- 59. S8.Any Noteholder that is unable to give any of the representations, warranties and undertakings referred to in paragraph 57–58 above should contact the Information Agent directly as soon as possible, as there may be additional procedures involved in respect of that Noteholder's participation in the Scheme. A valid Account Holder Letter for the purposes of confirming eligibility to receive Scheme Consideration means an Account Holder Letter which has been signed by an Account Holder duly authorised by a Noteholder and in respect of which Part 4 (Scheme Consideration, Eligibility and Delivery of the Additional New Ordinary Shares) has been completed, including all confirmations required to be given by the Account Holder.
- <u>59.</u>Each Noteholder should also ensure that the following is included in the Account Holder Letter delivered on its behalf:
 - (a) its identity;

- (b) details of the Dated Notes which are the subject of the Account Holder Letter, including the ISIN number(s), the principal amount of the Dated Notes held at the relevant Clearing System(s), the identity of the relevant Clearing System(s), the account number of the Account Holder in the relevant Clearing System(s) and the Custody Instruction Reference Number(s);
- (c) the appropriate confirmations to be given by the Account Holder; and
- (d) its voting instructions.

DELIVERY OF ACCOUNT HOLDER LETTERS FOR THE PURPOSES OF VOTING

- 60. Account Holder Letters for the purposes of voting at the Scheme Meeting should be delivered by Account Holders as soon as possible to the Information Agent and, in any event, before the Voting Instruction Deadline, being 4.30 p.m. (London time) on 10-13 December 2013.
- 61. Each Noteholder should note that, unless a valid Account Holder Letter is delivered on its behalf to the Information Agent before the Voting Instruction Deadline, the voting instructions contained in that Account Holder Letter will be disregarded for the purposes of voting at the Scheme Meeting and the Noteholder will not be entitled to vote at the Scheme Meeting.
- 62. Any Account Holder Letter delivered will be irrevocable from and after the Voting Instruction Deadline unless and until the Scheme is not approved by the requisite majorities at the Scheme Meeting or the Scheme is withdrawn.
- 64. 63. By delivering an Account Holder Letter to the Information Agent, the Account Holder: (i) confirms to the Company, Co-operative Group and the Information Agent that Custody Instructions in respect of the Dated Notes which are the subject of that Account Holder Letter have been issued to the relevant Clearing System with effect from or before the Voting Instruction Deadline in accordance with the normal procedures of such Clearing System and after taking into account the deadlines imposed by such Clearing System; (ii) instructs the relevant Clearing System to transmit to the Information Agent (for onward transmission to the Company and Co-operative Group) the information contained within the Custody Instructions; and (iii) gives the other confirmations required by the Account Holder Letter in favour of the Company, Co-operative Group and the Information Agent.

ATTENDING THE SCHEME MEETING

- 65. 64. The Scheme Meeting will take place at 10 a.m. on 11–16 December 2013 at the Holiday Inn London (Bloomsbury), Coram Street, London WC1N 1HT offices of Allen & Overy LLP, One Bishops Square, London E1 6AD.
- 65. If a Noteholder wishes to attend the Scheme Meeting, it should produce a duplicate copy of the Account Holder Letter delivered on its behalf, evidence of corporate authority (in the case of a corporation) (for example, a valid power of attorney and/or board minutes) and evidence of personal identity (for example, a passport or other picture identification) at the registration desk no later than one hour before the scheduled time of the Scheme Meeting.
- 66. Any proxy attending the Scheme Meeting on behalf of a Noteholder should produce a duplicate copy of the Account Holder Letter in which he/she is named as proxy. Where this copy can be matched against one of the copies provided by the relevant Account Holder to the Information Agent on behalf of the Company, that Noteholder's proxy will be admitted to the Scheme Meeting upon providing evidence of his/her personal identity (for example, a passport or other picture identification). Where the Account Holder Letter cannot be produced by the person purporting to have been appointed by a Noteholder as its proxy, that person will need to provide evidence of his/her personal identity (for example, a passport or other picture identification) and, provided that the evidenced identity conforms with the details in the relevant copy of the Account

Holder Letter provided by the relevant Account Holder to the Information Agent on behalf of the Company, that person will be admitted to the Scheme Meeting.

67. If a Noteholder appoints the Chairman as its proxy, there is no need for the Chairman to take the Account Holder Letter to the Scheme Meeting.

SECTION 3: DISTRIBUTION OF SCHEME CONSIDERATION

GENERAL

- 69. 68. Each Scheme Creditor that is a Noteholder should immediately contact its Account Holder (through any Intermediaries, if appropriate) to ensure that a valid Account Holder Letter in respect of its Scheme Claim is delivered to and received by the Information Agent.
- <u>70.</u> 69. If a person is in any doubt as to whether or not it is a Noteholder, such person should contact the Information Agent using the contact details in the Account Holder Letter set out in Appendix 3 (*Form of Account Holder Letter*).
- 70. Noteholders may also wish to refer to the diagrams set out in the section entitled *Are you a Scheme Creditor or a person with an interest in the Dated Notes?* at pages 21 to 27 above to see the relationship between Noteholders, Intermediaries and Account Holders.
- 71. It will be the responsibility of Account Holders to obtain from the Noteholders (through any Intermediaries, if applicable) on whose behalf they are acting in accordance with the procedures established between them, whatever information or instructions they may require to identify in an Account Holder Letter the relevant Noteholder and to provide the information, instructions and confirmations required by the Account Holder Letter. To assist this process, each Noteholder is strongly encouraged to contact its Account Holder (through any Intermediaries, if appropriate) to enable that Account Holder to complete the relevant sections of an Account Holder Letter and deliver such Account Holder Letter to the Information Agent before the Voting Instruction Deadline.
- 72. Each Noteholder will be required to ensure that its Account Holder has instructed the relevant Clearing System in which the Dated Notes which are the subject of the Account Holder Letter are held to block those interests in the Dated Notes, by giving Custody Instructions to that effect to the relevant Clearing System. The procedure for doing this is the same as the procedure described in paragraphs 46-47 to 52-53 above.
- 73. The Information Agent will use all reasonable endeavours to assist Noteholders to complete their Account Holder Letters validly, should it receive any Account Holder Letters which are not valid. However, failure to deliver a valid Account Holder Letter on behalf of a Noteholder to the Information Agent in the manner and within the deadlines referred to above will mean that the relevant Noteholder will not be entitled to receive the Scheme Consideration to which the Noteholder is entitled on the Scheme Settlement Date (in respect of an Eligible Noteholder) or the net proceeds of the sale of the Scheme Consideration to which a Noteholder is entitled as soon as reasonably practicable after the Scheme Settlement Date in accordance with the terms of the Scheme (in respect of an Ineligible Noteholder). Any such Noteholder will be required to take the additional steps described in paragraphs 80.81 to 91.92 below.
- 74. None of the Company, Co-operative Group, the Information Agent or any other person will be responsible for any loss or liability incurred by a Noteholder as a result of any determination by the Information Agent that an Account Holder Letter contains an error or is incomplete, even if this is subsequently shown not to have been the case.

COMPLETING THE ACCOUNT HOLDER LETTER FOR THE PURPOSES OF CONFIRMING ELIGIBILITY TO RECEIVE SCHEME CONSIDERATION

- 75. Each Noteholder will need to give its Account Holder information and instructions as to its eligibility to receive Scheme Consideration under applicable securities and other laws.
- <u>76.</u>In summary each Noteholder may elect:

- (a) to receive the Scheme Consideration to which it is entitled in accordance with the terms of the Scheme, in which case it must instruct its Account Holder to confirm on its behalf that it is an Eligible Person;
- (b) for a Designated Recipient to receive the Scheme Consideration to which that Noteholder is entitled in accordance with the terms of the Scheme, in which case it must instruct its Account Holder to confirm on its behalf that its Designated Recipient is an Eligible Person; or
- (c) for the Scheme Consideration to which that Noteholder is entitled to be sold pursuant to the terms of the Distribution Agreement as soon as reasonably practicable and for the net proceeds of the sale of that Scheme Consideration to be paid to that Noteholder, in which case it must instruct its Account Holder to confirm on its behalf that it is not an Eligible Person and it must not appoint a Designated Recipient,

in each case, by ensuring that such election is recorded in the Account Holder Letter delivered on its behalf and that the details of its Designated Recipient, if applicable, are included in the Account Holder Letter.

- 77. Each Noteholder which submits, delivers or procures the delivery of an Account Holder Letter will be required to make (or authorise its Account Holder to make on its behalf) the representations, warranties and undertakings to the Company, Co-operative Group and the Information Agent set out in paragraph 2 of schedule 1 to the Account Holder Letter.
- 78. Any Noteholder that is unable to give any of the representations, warranties and undertakings referred to in paragraph 77–78 above should contact the Information Agent directly as soon as possible, as there may be additional procedures involved in respect of that Noteholder's participation in the Scheme.
- <u>80.</u> 79.Each Noteholder should also ensure that the following is included in the Account Holder Letter delivered on its behalf:
 - (a) its identity;
 - (b) details of the Dated Notes which are the subject of the Account Holder Letter, including the ISIN number(s), the principal amount of the Dated Notes held at the relevant Clearing System(s), the identity of the relevant Clearing System(s), the account number of the Account Holder in the relevant Clearing System(s) and the Custody Instruction Reference Number(s);
 - (c) the appropriate confirmations to be given by the Account Holder; and
 - (d) its elections in respect of the distribution of Scheme Consideration.

DISTRIBUTION OF SCHEME CONSIDERATION

80. In order to receive the Scheme Consideration to which a Noteholder is entitled, a Noteholder must have complied with the procedures set out in this Appendix 2 (*Instructions and Guidance for Scheme Creditors and any Person with an Interest in the Dated Notes*).

Eligible Noteholders

- 82. 81. Any Noteholder in respect of which:
 - (a) a valid Account Holder Letter is completed and delivered by its Account Holder to the Information Agent; and

(b) its Account Holder has confirmed on its behalf in the Account Holder Letter that (a) the Noteholder is an Eligible Person or (b) if the Noteholder has appointed a Designated Recipient, the Designated Recipient is an Eligible Person,

will be an Eligible Noteholder for the purposes of the Scheme.

- 83. 82. Each Eligible Noteholder (or, to the extent applicable, its Designated Recipient and/or its Alternative Recipient) will receive the Scheme Consideration to which it is entitled in accordance with the terms of the Scheme:
 - (a) on the Scheme Settlement Date if a valid Account Holder Letter in respect of that Eligible Noteholder is delivered to and received by the Information Agent before the Voting Instruction Deadline;
 - (b) on the Scheme Settlement Date if a valid Account Holder Letter in respect of that Eligible Noteholder is delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date and the Company exercises its discretion to issue the relevant Scheme Consideration to that Eligible Noteholder; or
 - as soon as reasonably practicable after the date on which the Information Agent delivers a Distribution Instruction Certificate relating to that Eligible Noteholder to the Holding Period Trustee (which, in accordance with the terms of the Distribution Agreement must be no later than 10 Business Days following the date on which a valid Account Holder Letter in respect of that Eligible Noteholder has been delivered to and received by the Information Agent (provided that the Information Agent shall be under no obligation to deliver an Instruction Certificate to the Holding Period Trustee prior to the Scheme Settlement Date)), if a valid Account Holder in respect of that Eligible Noteholder is delivered between the Voting Instruction Deadline and the Holding Period (i.e. during the 36 month period from the Scheme Settlement Date).
- 83. Any Scheme Consideration to which an Eligible Noteholder is entitled to receive on the Scheme Settlement Date under the terms of the Scheme will be delivered on the Scheme Settlement Date to the account of the Account Holder in the Clearing Systems in which the Account Holder holds the Dated Notes on behalf of that Eligible Noteholder (or, if that Eligible Noteholder is an Account Holder, the account of that Eligible Noteholder in the Clearing Systems in which that Eligible Noteholder holds its Dated Notes), irrespective of whether such Scheme Consideration is to be delivered to that Eligible Noteholder or, if applicable, the Designated Recipient appointed by that Eligible Noteholder.

Ineligible Noteholders

- 85. 84. Any Noteholder in respect of which:
 - (a) a valid Account Holder Letter is completed and delivered by its Account Holder to the Information Agent; and
 - (b) its Account Holder has confirmed on its behalf in the Account Holder Letter that the Noteholder is not an Eligible Person and it has not appointed a Designated Recipient,

will be an Ineligible Noteholder for the purposes of the Scheme.

85. An Ineligible Noteholder will not receive the Scheme Consideration to which it would otherwise be entitled to in accordance with the terms of the Scheme if it were an Eligible Noteholder. Instead, such Scheme Consideration held by the Holding Period Trustee on trust for the Ineligible Noteholders shall be sold by the Selling Agent in accordance with the terms of the Distribution Agreement and the Scheme.

- 86. As described in more detail in paragraphs 3.5 to 3.18 of Part B (*Overview of the Scheme*) of this Explanatory Statement, the Holding Period Trustee shall sell or procure the sale of any such Scheme Consideration and distribute the net proceeds of such sale to the Ineligible Noteholder.
- 87. If the Holding Period Trustee is holding any Scheme Consideration on behalf of any Ineligible Noteholders which has not been sold by the end of the Holding Period and the Holding Period Trustee (or the Selling Agent on behalf of the Holding Period Trustee) is not able, after having used reasonable efforts and having consulted with the Company, to sell any such Scheme Consideration within three months of the end of the Holding Period, the Holding Period Trustee shall transfer by way of gift on behalf of such Ineligible Noteholders such Scheme Consideration to Carers Trust (registered charity number 1145181) or to any other registered charity selected by the Company in writing for this purpose.

Unadmitted Noteholders

- 89. St.Any Noteholder in respect of which a valid Account Holder Letter is not completed and delivered by its Account Holder Letter to the Information Agent before the Voting Instruction Deadline (other than any Eligible Noteholder on whose behalf a valid Account Holder Letter has been delivered to and received by the Information Agent between the Voting Instruction Deadline and the Business Day preceding the Scheme Settlement Date and in relation to whom the Company exercises its discretion to issue Scheme Consideration on the Scheme Settlement Date in accordance with the terms of the Scheme) will be an Unadmitted Noteholder for the purposes of the Scheme.
- <u>89.</u>Each Unadmitted Noteholder will not receive the Scheme Consideration to which it is entitled in accordance with the terms of the Scheme on the Scheme Settlement Date. Such Scheme Consideration shall be delivered to the Holding Period Trustee on the Scheme Settlement Date, which will hold such Scheme Consideration on trust for that Unadmitted Noteholder.
- 91. 90. An Unadmitted Noteholder that subsequently arranges for a valid Account Holder Letter to be delivered to the Information Agent before the end of the Holding Period shall become either an Eligible Noteholder or an Ineligible Noteholder.
- 91. 91. If, at the end of the Holding Period, the Holding Period Trustee is holding any Scheme Consideration on behalf of any Unadmitted Noteholders, as soon as reasonably practicable after the end of the Holding Period the Holding Period Trustee shall instruct the Selling Agent to sell all such Scheme Consideration and to distribute the net proceeds to the Company in accordance with the terms of the Distribution Agreement, provided that, to the extent that the Holding Period Trustee (or the Selling Agent on behalf of the Holding Period Trustee) is not able, after having used reasonable efforts and having consulted with the Company, to sell any such Scheme Consideration following the expiry end of the Holding Period, the Holding Period Trustee shall transfer by way of gift on behalf of such Unadmitted Noteholders such Scheme Consideration to Carers Trust (registered charity number 1145181) or to any other registered charity selected by the Company in writing for this purpose.

DELIVERY OF ACCOUNT HOLDER LETTERS FOR THE PURPOSES OF CONFIRMING ELIGIBILITY TO RECEIVE SCHEME CONSIDERATION

- 93. 92. Account Holder Letters for the purposes of confirming eligibility to receive Scheme Consideration should be delivered by Account Holders as soon as possible to the Information Agent and, in any event, before the Voting Instruction Deadline, being 4.30 p.m. on 10-13 December 2013.
- 93. Failure by a Noteholder to deliver a valid Account Holder Letter to the Information Agent before the Voting Instruction Deadline will mean that Noteholder will not be entitled to receive the Scheme Consideration to which it is entitled in accordance with the terms of the Scheme on the Scheme Settlement Date and, if that Noteholder has not complied with

the relevant procedures prior to the end of the Holding Period, such Scheme Consideration will be sold and the net proceeds of such sale will be distributed to the Company (or, if the Holding Period Trustee is unable to sell such Scheme Consideration as described in paragraph 3.15 of Part B (Overview of the Scheme), a charity selected by the Company) and that Noteholder shall have no entitlement to those net proceeds or any rights or claims against the Company, the Holding Period Trustee, the Selling Agent or any other person in respect thereof.

- 95. 94. Any Account Holder Letter delivered will be irrevocable from and after the Voting Instruction Deadline unless and until the Scheme is not sanctioned by the Court at the Scheme Sanction Hearing or the Scheme is withdrawn.
- 95. By delivering an Account Holder Letter to the Information Agent, the Account Holder: (i) confirms to the Company, Co-operative Group and the Information Agent that Custody Instructions in respect of the Dated Notes which are the subject of that Account Holder Letter have been issued to the relevant Clearing System with effect from or before the Scheme Sanction Hearing in accordance with the normal procedures of such Clearing System and after taking into account the deadlines imposed by such Clearing System (or, in respect of an Account Holder Letter delivered on behalf of an Unadmitted Noteholder during the Holding Period, the Dated Notes which are the subject of that Account Holder Letter were held by that Noteholder as at the Record Date and continued to be so held until the transfer and cancellation of those Dated Notes in accordance with the terms of the Scheme on the Scheme Settlement Date); (ii) instructs the relevant Clearing System to transmit to the Information Agent (for onward transmission to the Company and Co-operative Group) the information contained within the Custody Instructions; and (iii) gives the other confirmations required by the Account Holder Letter in favour of the Company, Co-operative Group and the Information Agent.

SECTION 4: PARTICIPATING IN THE ADDITIONAL NEW ORDINARY SHARES OFFER AND THE SUB-PURCHASING OFFER

GENERAL

- 97. 96.Each Scheme Creditor that is a Noteholder should immediately contact its Account Holder (through any Intermediaries, if appropriate) to ensure that a valid Account Holder Letter in respect of its Scheme Claim is delivered to and received by the Information Agent.
- 98. 97. If a person is in any doubt as to whether or not it is a Noteholder, such person should contact the Information Agent using the contact details in the Account Holder Letter set out in Appendix 3 (Form of Account Holder Letter).
- 99. Noteholders may also wish to refer to the diagrams set out in the section entitled *Are you a Scheme Creditor or a person with an interest in the Dated Notes?* at pages 21 to 27 above to see the relationship between Noteholders, Intermediaries and Account Holders.
- 99. As described in Part B (Overview of the Scheme), any Noteholder may participate in the Additional New Ordinary Shares Offer and/or the Sub-purchasing Offer by instructing its Account Holder to make the appropriate elections in its Account Holder Letter and confirming on its behalf that the Noteholder is an Eligible Person or, if it has appointed a Designated Recipient, that the Designated Recipient is an Eligible Person and delivering a valid Account Holder Letter containing those confirmations to the Information Agent before the Voting Instruction Deadline.

COMPLETING THE ACCOUNT HOLDER LETTER FOR THE PURPOSES OF PARTICIPATING IN THE ADDITIONAL NEW ORDINARY SHARES OFFER

101. 100. Each Noteholder may elect:

- (a) in respect of the Additional New Ordinary Shares Offer, to subscribe for a minimum number of 50,000-26,667 Additional New Ordinary Shares and a maximum number of 62,500,000-33,333,334 Additional New Ordinary Shares; and
- (b) in respect of the Sub-purchasing Offer, to nominate a minimum commitment to back-stop the purchase of between 50,000-26,667 Additional New Ordinary Shares and 62,500,000 33,333,334 Additional New Ordinary Shares,

in each case, by ensuring that such election is recorded in the Account Holder Letter delivered on its behalf (by completing part 3 (*Additional New Ordinary Shares Offer*)) and, in addition, that part 4 (*Scheme Consideration, Eligibility and Delivery of the Additional New Ordinary Shares*) of the Account Holder Letter is completed.

DELIVERY OF ACCOUNT HOLDER LETTERS FOR PARTICIPATING IN THE ADDITIONAL NEW ORDINARY SHARES OFFER AND/OR THE SUB-PURCHASING OFFER

- 102. Holder Letters for the purposes of electing to subscribe for Additional New Ordinary Shares in accordance with the terms of the Additional New Ordinary Shares Offer or electing to nominate a commitment for the Sub-purchasing Offer should be delivered by Account Holders as soon as possible to the Information Agent and, in any event, before the Voting Instruction Deadline, being 4.30 p.m. on 10-13 December 2013.
- 103. 102. Each Noteholder should note that, unless a valid Account Holder Letter is delivered on its behalf to the Information Agent containing the requisite elections and confirmations that the Noteholder (or, if it has appointed a Designated Recipient, its Designated Recipient) is an Eligible Person before the Voting Instruction Deadline, the elections contained in that Account Holder Letter in relation to the Additional New Ordinary Shares Offer and/or the Sub-purchasing Offer

(as the case may be) will be disregarded and that Noteholder will not be entitled to participate in the Additional New Ordinary Shares Offer or the Sub-purchasing Offer.

- 104. 103. Any Account Holder Letter delivered will be irrevocable from and after the Voting Instruction Deadline unless and until the Scheme is not approved by the requisite majorities at the Scheme Meeting or the Scheme is withdrawn.
- 105. 104.By delivering an Account Holder Letter to the Information Agent, the Account Holder: (i) confirms to the Company, Co-operative Group and the Information Agent that Custody Instructions in respect of the Dated Notes which are the subject of that Account Holder Letter have been issued to the relevant Clearing System with effect from or before the Voting Instruction Deadline in accordance with the normal procedures of such Clearing System and after taking into account the deadlines imposed by such Clearing System; (ii) instructs the relevant Clearing System to transmit to the Information Agent (for onward transmission to the Company and Co-operative Group) the information contained within the Custody Instructions; and (iii) gives the other confirmations required by the Account Holder Letter in favour of the Company, Co-operative Group and the Information Agent.

SECTION 5: VOTING FOR OR AGAINST THE APPOINTMENT OF ANY NOMINATED DIRECTORS (IF APPLICABLE)

GENERAL

- 106. 105. Each Scheme Creditor that is a Noteholder should immediately contact its Account Holder (through any Intermediaries, if appropriate) to ensure that a valid Account Holder Letter in respect of its Scheme Claim is delivered to and received by the Information Agent.
- 107. 106. If a person is in any doubt as to whether or not it is a Noteholder, such person should contact the Information Agent using the contact details in the Account Holder Letter set out in Appendix 3 (Form of Account Holder Letter).
- 108. 107. Noteholders may also wish to refer to the diagrams set out in the section entitled *Are you a Scheme Creditor or a Person with an Interest in the Dated Notes?* at pages 21 to 27 above to see the relationship between Noteholders, Intermediaries and Account Holders.
- 109. 108. As described in paragraph 6 of Part B (*Overview of the Scheme*) of the Explanatory Statement, any Noteholder may vote for or against any Nominated Directors which are nominated by the Purchasers by instructing its Account Holder to make the appropriate elections in its Account Holder Letter and delivering a valid Account Holder Letter containing those confirmations to the Information Agent before the Voting Instruction Deadline.

COMPLETING THE ACCOUNT HOLDER LETTER FOR THE PURPOSES OF VOTING FOR OR AGAINST ANY NOMINATED DIRECTORS (IF APPLICABLE)

100. 100. Each Noteholder may elect to vote for or against the appointment of either or both Nominated Directors at the Scheme Meeting, if any such Nominated Directors are nominated by the Modified Scheme Purchasers, as described in paragraph 6 of Part B (Overview of the Scheme) of the Explanatory Statement, in each case, by ensuring that such election is recorded in the Account Holder Letter delivered on its behalf by completing part 5 (Director Nominations) of the Account Holder Letter.

DELIVERY OF ACCOUNT HOLDER LETTERS FOR THE PURPOSES OF VOTING FOR OR AGAINST ANY NOMINATED DIRECTORS (IF APPLICABLE)

- 111. 110. Account Holder Letters for the purposes of voting for or against any Nominated Directors, if any such Nominated Directors are nominated by the Modified Scheme Purchasers, should be delivered by Account Holders as soon as possible to the Information Agent and, in any event, so as to be received before the Voting Instruction Deadline, being 4.30 p.m. on 10-13 December 2013.
- 112. 111. Each Noteholder should note that, unless a valid Account Holder Letter is delivered on its behalf to the Information Agent containing the requisite elections and confirmations, the votes of that Noteholder will be disregarded for the purposes of approving any Nominated Directors.
- 113. 112. Any Account Holder Letter delivered will be irrevocable from and after the Voting Instruction Deadline unless and until the Scheme is not approved by the requisite majorities at the Scheme Meeting or the Scheme is withdrawn.
- 114. Hawken an Account Holder Letter to the Information Agent, the Account Holder: (i) confirms to the Company, Co-operative Group and the Information Agent that Custody Instructions in respect of the Dated Notes which are the subject of that Account Holder Letter have been issued to the relevant Clearing System with effect from or before the Voting Instruction Deadline in accordance with the normal procedures of such Clearing System and after taking into account the deadlines imposed by such Clearing System; (ii) instructs the relevant

Clearing System to transmit to the Information Agent (for onward transmission to the Company and Co-operative Group) the information contained within the Custody Instructions; and (iii) gives the other confirmations required by the Account Holder Letter in favour of the Company, Co-operative Group and the Information Agent.

APPENDIX 3

FORM OF ACCOUNT HOLDER LETTER

FORM OF ACCOUNT HOLDER LETTER

For use by Account Holders in Euroclear and Clearstream, Luxembourg in respect of

€34,980,000 Floating Rate Callable Step-up Dated Subordinated Notes due 2016 (ISIN: XS0254625998) (the **2016 Notes**)

£37,775,000 5.875% Subordinated Callable Notes due 2019 (ISIN: XS0189539942) (the **2019 Notes**)

£275,000,000 9.25% Subordinated Notes due April 2021 (ISIN: XS0620315902) (the **April 2021 Notes**)

£8,747,000 Fixed/Floating Rate Subordinated Notes due November 2021 (ISIN: XS0274155984) (the **November 2021 Notes**)

£235,402,000 7.875% Subordinated Notes due 2022 (ISIN: XS0864253868) (the 2022 Notes)

£200,000,000 5.75% Dated Callable Step-up Subordinated Notes due 2024 (ISIN: XS0188218183) (the **2024 Notes**)

and

£150,000,000 5.875% Subordinated Notes due 2033 (ISIN: XS0145065602) (the 2033 Notes)

issued by

THE CO-OPERATIVE BANK P.L.C. (the Company)

in relation to

The Company's scheme of arrangement under Part 26 of the Companies Act 2006 (the **Scheme**)

The Scheme will, if implemented, materially affect certain creditors of the Company, including the holders of the 2016 Notes, the 2019 Notes, the April 2021 Notes, the November 2021 Notes, the 2022 Notes, the 2024 Notes and the 2033 Notes (together, the Dated Notes).

Persons who are account holders with Euroclear and Clearstream, Luxembourg (together, **Account Holders**) must use this Account Holder Letter to register details of their interests in the Dated Notes and to make certain elections in relation to the voting in respect of the Scheme.

DEADLINE FOR RECEIPT OF BLOCKING INSTRUCTIONS AND ACCOUNT HOLDER LETTER

THIS ACCOUNT HOLDER LETTER HAS 6 PARTS.

IN ALL CASES PART 1 OF THIS ACCOUNT HOLDER LETTER MUST BE COMPLETED AND, IN ADDITION:

IN ORDER TO VOTE AND/OR LOCK-UP

Part 2 of this Account Holder Letter: In order to vote and/or lock-up in respect of the Scheme, Part 2 (*Voting and Lock-up*) of this Account Holder Letter must be delivered by post, facsimile or email to the Information Agent using the contact details set out below and must be received by the Information Agent by

no later than 4.30 p.m. (London time) on 1013 December 2013 (the **Voting Instruction Deadline**). Account Holder Letters received after the Voting Instruction Deadline will not constitute valid voting instructions for the purposes of the Scheme. The Dated Notes identified in this Account Holder Letter must be blocked by no later than the Business Day preceding the Voting Instruction Deadline.

IN ORDER TO ELECT TO PARTICIPATE IN THE ADDITIONAL NEW ORDINARY SHARES SUBSCRIPTION AND/OR THE SUB-PURCHASING OFFER

Part 3 of this Account Holder Letter: In order to elect to subscribe for any Additional New Ordinary Shares or participate in the Sub-purchasing Offer in accordance with the Scheme, Part 3 Section 1 (*Election to Subscribe*) (in respect of the Additional New Ordinary Shares Offer) and/or Part 3 Section 2 (*Election to Sub-purchase*) (in respect of the Sub-purchasing Offer in respect of the Additional New Ordinary Shares Offer) of this Account Holder Letter must be delivered by post, facsimile or email to the Information Agent using the contact details set out below and must be received by the Information Agent by no later than the Voting Instruction Deadline. Such delivery will constitute an irrevocable offer by the relevant Noteholder to subscribe for Additional New Ordinary Shares pursuant to the Additional New Ordinary Shares Offer (if Part 3 Section 1 (*Election to Subscribe*) is completed) and/or the Sub-purchasing Offer (if Part 3 Section 2 (*Election to Sub-purchase*) is completed).

If Part 3 Section 1 (*Election to Subscribe*) and/or Part 3 Section 2 (*Election to Sub-purchase*) are completed, Part 4 (*Scheme Consideration, Eligibility And Delivery Of The Additional New Ordinary Shares*) must also be completed so as to confirm that the Account Holder and Noteholder (or if the Noteholder has appointed a Designated Recipient, its Designated Recipient), are Eligible Persons.

IN ORDER TO RECEIVE SCHEME CONSIDERATION AND ADDITIONAL NEW ORDINARY SHARES

Part 4 of this Account Holder Letter: In order to receive Scheme Consideration and (if applicable) Additional New Ordinary Shares pursuant to the terms of the Scheme on the Scheme Settlement Date, and to participate in the Sub-purchasing Offer, Part 4 (Scheme Consideration, Eligibility And Delivery Of The Additional New Ordinary Shares) of this Account Holder Letter must be delivered by post, facsimile or email to the Information Agent using the contact details set out below and must be received by the Information Agent by no later than the Voting Instruction Deadline.

IN ORDER TO VOTE FOR OR AGAINST THE APPOINTMENT OF THE NOMINATED DIRECTORS

Part 5 of this Account Holder Letter: In order to vote for or against the appointment of one or both of the Nominated Directors, Part 5 (*Director Nominations*) must be delivered by post, facsimile or email to the Information Agent by no later than the Voting Instruction Deadline.

IN ALL CASES PART 6 OF THIS ACCOUNT HOLDER LETTER SHOULD BE COMPLETED.

Part 6 of this Account Holder Letter: In order to be valid, this Account Holder Letter must be signed by the Account Holder.

A separate Account Holder Letter must be completed in respect of each separate beneficial holding of/interest in the Dated Notes.

Capitalised terms used in this Account Holder Letter but not defined in it have the same meaning as given to them in the explanatory statement relating to the Scheme <u>dated 18 November 2013</u> (as <u>amended on 4 December 2013</u>) (the **Explanatory Statement**), subject to any amendments or modifications made by the Court.

You are strongly advised to read the Explanatory Statement and the Scheme and, in particular, Appendix 2 (Instructions and guidance for Scheme Creditors and any person with an interest in the Dated Notes) to the Explanatory Statement, before you complete the Account Holder Letter. Appendix 2 (Instructions and guidance for Scheme Creditors and any person with an interest in the Dated Notes) to the Explanatory Statement contains detailed information on the various options contained in this Account Holder Letter. All relevant documentation can be found at the Scheme Website www.co-operative.coop/Bondholders.

This Account Holder Letter and any non-contractual obligations arising out of or in relation to this Account Holder Letter shall be governed by, and interpreted in accordance with, English law.

PART 1: NOTEHOLDER AND HOLDING DETAILS

SECTION 1: NOTEHOLDER DETAILS

If you are not the Noteholder (that is, the person that is the beneficial owner of and/or the holder of the ultimate economic interest in the relevant Dated Notes, held in global form through the Clearing Systems with a claim in respect of any amount outstanding under the Dated Notes as at the Record Date (being 4.30 p.m. (London time) on 1013 December 2013) (unless the Company, in its sole discretion, elects to recognise a transfer of Dated Notes after the Record Date)), please identify the Noteholder on whose behalf you are submitting this Account Holder Letter. If such Noteholder does not wish to provide details of its identity, please identify a person with full legal right and authority to act on behalf of that Noteholder as its representative.

•	
Full Name of Noteholder	
Country ¹	
E-mail Address	
Telephone Number (with country code)	
Passport Number ²	
To be completed if the Notel	holder is an institution:
Jurisdiction of Incorporation of Noteholder	
Name of Authorised Employee of Noteholder	
Department	
Passport Number ³	
	holder is an investment fund, managed account, discretionary account or er, adviser or general partner has discretionary authority:
Name of Investment Manager / Investment Adviser / General Partner	

To be completed for all Noteholders:

¹ If the Noteholder is an institution, enter the country in which its registered office is located. If the Noteholder is an individual, enter the country in which the individual's home address is located. If a country other than the United Kingdom is entered, the Noteholder should refer to the section(s) entitled "Restrictions" in the Explanatory Statement.

² Required if attending the Scheme Meeting in person or by a duly authorised representative, if a corporation.

³ Required if attending the Scheme Meeting in person by a duly authorised representative.

SECTION 2: HOLDING DETAILS

If this Account Holder Letter is delivered before the Voting Instruction Deadline, the Account Holder on behalf of the relevant Noteholder holds the following Dated Notes to which this Account Holder Letter relates, which have been "blocked" through delivery of Custody Instructions to the relevant Clearing System, the Custody Instruction Reference Number(s) in relation to which is/are identified below.

If this Account Holder Letter is delivered after the Voting Instruction Deadline but before the Scheme Settlement Date, the Account Holder on behalf of the relevant Noteholder held the following Dated Notes to which this Account Holder Letter relates on the Record Date, continues to hold those Dated Notes and those Dated Notes have been "blocked" through delivery of Custody Instructions to the relevant Clearing System, the Custody Instruction Reference Number(s) in relation to which is/are identified below.

If this Account Holder Letter is delivered after the Scheme Settlement Date, the Account Holder on behalf of the relevant Noteholder held the following Notes to which this Account Holder Letter relates, on the Record Date and the relevant Noteholder has not transferred its Dated Notes between the Record Date and the Scheme Settlement Date.

ISIN	Amount blocked at Clearing System	Clearing System	Clearing System Account number	Custody Instruction Reference Number ⁴

⁴ Corresponding to your blocking instruction.

PART 2: VOTING AND LOCK-UP

SECTION 1: ACCOUNT HOLDER CONFIRMATIONS

The Account Holder named below in Part 6 (Execution of Account Holder Letter by Account Holder) for itself hereby confirms to the Company, the Co-operative Group and the Information Agent as follows (select "yes" or "no" as appropriate for each item):

A:	That all authority conferred or agreed to be conferred pursuant to this Account Holder Letter and every obligation of the Account Holder under this Account Holder Letter (including any elections made in this Account Holder Letter) shall be binding upon the successors and assigns of the Account Holder (in the case of a corporation or institution) or the successors, assigns, heirs, executors administrators, trustees in bankruptcy and legal representatives of the Account Holder (in the case of a natural person) and shall not be affected by, and shall survive, the insolvency, bankruptcy dissolution, death or incapacity (as the case may be) of the Account Holder and that all of the information in this Account Holder Letter is complete and accurate.				
	Yes				
	No				
В.	That the Account Holder has irrevocably instructed Euroclear and/or Clearstream, Luxembourg, as the case may be, pursuant to Custody Instructions to block the Dated Notes identified in Part 1 Section 2 (<i>Holding Details</i>) of this Account Holder Letter on or before the date that this Account Holder Letter is delivered to the Information Agent and that a Custody Instruction Reference Number for each such Custody Instruction appears in this Account Holder Letter under "Custody Instruction Reference Number" in Part 1 Section 2 (<i>Holding Details</i>) of the Account Holder Letter.				
	Yes				
	No				
C.	That, in relation to the Dated Notes identified in Part 1 Section 2 (<i>Holding Details</i>) of this Account Holder Letter, the Account Holder has authority to (i) give the voting instructions set out in Part 2 Section 3 (<i>Voting</i>) of this Account Holder Letter and to nominate the person named in Part 2 Section 3 (<i>Voting</i>) of this Account Holder Letter (if applicable) to attend and speak at the Scheme Meeting, and (ii) make the elections and/or give the confirmations set out in Part 2 Section 2 (<i>Lock-up</i>) below on behalf of the Noteholder. Yes				
	No				

An Account Holder who is unable to confirm "yes" in respect of paragraphs A to C above should contact the Information Agent using the contact details set out in this Account Holder Letter for assistance.

By delivering this Account Holder Letter to the Information Agent, the Account Holder confirms that the Noteholder agrees that both it and the Noteholder shall be deemed to have made the representations, warranties and undertakings set out in paragraph 1 of Schedule 1 (*Representations*, *Warranties and Undertakings*) to this Account Holder Letter in favour of the Company, the Cooperative Group and the Information Agent as at the date on which this Account Holder Letter is delivered to the Information Agent.

SECTION 2: LOCK-UP

	older named below in Part 6 (<i>Execution of Account Holder Letter by Account Holder</i>) hereby Company, the Co-operative Group and the Information Agent that the Noteholder agrees that
the Noteholder	shall be deemed to have made the representations, warranties and undertakings set out in
	and (b) and the undertakings set out in paragraphs (c), (e) and (f) of this Part 2 Section 2 v (select "yes" or "no" as appropriate):
	Yes
	No

- (a) The Noteholder which submits, delivers or procures the submission and/or delivery of an Account Holder Letter represents and warrants to the Company, the Co-operative Group and the Information Agent that:
 - (i) it is legally entitled and able to control the exercise and the casting of votes in relation to its Dated Notes in order to comply with the undertakings set out in paragraph (b) below; and
 - (ii) it has all requisite power, authority and legal capacity to give and carry out the transactions contemplated by, and to perform its obligations under, the undertakings set out in paragraph (b) below.
- (b) The Noteholder undertakes in favour of the Company that it will (or, as applicable, will procure that a duly authorised representative, proxy or nominee will):
 - (i) attend the Scheme Meeting by proxy or in person and exercise and cast all of its votes in respect of its Dated Notes (as set out in Part 1 Section 2 (*Holding Details*) (its **Locked-up Notes**)) in favour of the Scheme and any amendment or modification to the Scheme or adjournment to the Scheme Meeting, provided that they are proposed by the Company and that the terms of the Scheme as amended or modified are and remain consistent in all material respects with the terms of the Scheme without such amendments or modifications and are consistent with and do not include any additional material terms which are likely to adversely affect or conflict with the terms of the Proposed Restructuring or its implementation;
 - (ii) except where Subclause b(i) applies, exercise and cast all of its votes in respect of its Locked-up Notes against any amendment or modification to the Scheme or any proposal to adjourn the Scheme Meeting;
 - (iii) not commence or request or instruct that any Trustee or any other person commence proceedings against the Company or take any other action in connection with any Note Event of Default or Potential Note Event of Default arising as a result of an application for or the making of the Scheme or the Proposed Restructuring;
 - (iv) not commence, take, support or actively assist (or request, instruct or procure that any other person commence, take, support, or actively assist) any judicial, arbitration, regulatory proceedings or any other action inconsistent with the terms of the undertakings set out in this paragraph (b) or the Scheme, that would reasonably be expected to impede, prevent or frustrate the implementation of the Scheme or the Proposed Restructuring;
 - (v) promptly notify the Company, by sending an additional Account Holder Letter (with Part 2 Section 2 (*Lock-up*) duly completed to provide the undertakings set out in paragraph (b) of Part 2 Section 2 (*Lock-up*) of that Account Holder Letter) to the Company and/or the

Information Agent, of any change (whether an increase or decrease) to the aggregate principal amount of its Dated Notes and upon actual receipt of a request in writing from the Company (or an agent acting on its behalf) provide such other information in relation to any Scheme Claim (to the extent such information cannot be obtained from this Account Holder Letter or any additional Account Holder Letter delivered by or on behalf of the Noteholder) as the Company (or an agent acting on its behalf) may reasonably require in order to enable it to calculate any Scheme Consideration; and

- (vi) promptly provide to the Company (or an agent acting on its behalf), upon actual receipt of a request in writing from the Company (or an agent acting on its behalf), written confirmation of the aggregate principal amount of its Locked-up Notes.
- (c) From the date of this Account Holder Letter until the date on which the undertakings set out in paragraph (b) above are terminated in accordance with paragraph (d) below, the Account Holder named below hereby confirms to the Company, the Co-operative Group and the Information Agent that the Noteholder undertakes not to sell, transfer, assign or otherwise dispose of its interest in all or any part of its Locked-up Notes to any person unless that person has entered into a Lock-Up Arrangement with the Company.
- (d) Subject to paragraph (e) below, the undertakings set out in paragraph (b) above will terminate immediately upon the occurrence of any of the following events:
 - (i) at a Scheme Meeting at which a vote takes place, the Scheme is not approved by the requisite majorities of the Scheme Creditors specified in section 899(1) of the Companies Act;
 - (ii) on the earlier of the Scheme Settlement Date and the Longstop Date;
 - (iii) the Company gives the Noteholder or any other Noteholder written notice of an intention either:
 - (A) not to proceed with the Scheme; or
 - (B) to proceed with a proposed scheme of arrangement on terms which are different to the Scheme in any material respect;
 - (iv) the Noteholder sells, transfers, assigns or otherwise disposes of all of its Locked-up Notes in the manner permitted by paragraph (c) above; and
 - (v) if:
 - (A) the 5.5555% Bondholders vote against the proposals (to the extent related to the 5.5555% Bonds) contemplated in the relevant Proposed Restructuring Documents at the 5.5555% Bondholders Meeting;
 - (B) the 13% Bondholders vote against the proposals (to the extent related to the 13% Bonds) contemplated in the relevant Proposed Restructuring Documents at the 13% Bondholders Meeting; or
 - (C) the Preference Shareholders vote against the proposals (to the extent related to the Preference Shares) contemplated in the relevant Proposed Restructuring Documents at the Preference Shareholders Meeting.
- (e) The Account Holder named below confirms that the Noteholder agrees and acknowledges to the Company that damages are not an adequate remedy for a breach of any of the undertakings set out in

- paragraph (b) and (c) above by it and specific performance and/or relief to compel performance are appropriate remedies for any such breach and any such remedies shall not be exclusive but shall be cumulative and in addition to any other remedies available to the Company.
- (f) No undertaking set out in paragraph (b) above will prevent the Noteholder from buying Dated Notes (including Dated Notes which are not subject to a Lock-Up Arrangement) provided that the Account Holder named below confirms that the Noteholder undertakes to the Company that it will deliver an additional Account Holder Letter which will include the undertakings set out in paragraph (b) above in respect of such Dated Notes unless and to the extent that such Dated Notes are (i) held in custody for a third party; or (ii) (unless and to the extent that the Noteholder agrees otherwise) held or otherwise acquired by one or more of the Noteholder's proprietary trading desks when acting as a market maker.

SECTION 3: VOTING

A. Attendance at the Scheme Meeting The Noteholder wishes: Tick only ONE of the boxes below. to appoint the Chairman as its proxy to attend and vote on its behalf at the Scheme Meeting (please now only complete paragraph B (Appointment of proxy and voting instructions to proxy) below). to appoint a proxy (other than the Chairman) to attend and vote on its behalf at the Scheme Meeting (please now only complete paragraph B (Appointment of proxy and voting instructions to proxy) below). to attend and vote at the Scheme Meeting in person or by a duly authorised representative, if a corporation (please now complete only paragraph C (Indication of voting intention) below).

Section 3 (*Voting*) is continued on the next page.

B. Appointment of proxy and voting instructions to proxy

C.

FOR the Scheme

AGAINST the Scheme

The Noteholder wishes to appoint (and the Account Holder is hereby authorised to appoint on its behalf): Tick only ONE of the boxes below. Chairman; or (tick box if appropriate) the following individual (tick box if appropriate and fill in the details immediately below) (Name): (Address): (Passport number): or failing him: ("Alternate 1") (Name): (Address): (Passport number): or failing Alternate 1: the Chairman as its proxy and wishes its proxy to vote: Tick only ONE of the boxes below. PART 3: ADDITIONAL NEW ORDINARY SHARES OFFER

SECTION 1: ELECTION TO SUBSCRIBE

To participate in the Additional New Ordinary Shares Offer, this Part 3 Section 1 (*Election to Subscribe*) must be delivered to the Information Agent no later than the Voting Instruction Deadline. If you do not wish to participate in the Additional New Ordinary Shares Offer, please leave this Part 3 Section 1 (*Election to Subscribe*) blank.

The Account Holder named in Part 6 (Execution of Account Holder Letter by Account Holder) for itsel
hereby confirms to the Company, the Co-operative Group and the Information Agent that, in relation to th
Dated Notes identified in Part 1 Section 2 (Holding Details) of this Account Holder Letter, the Account
Holder has authority to make the elections and/or give the confirmations set out in Part 3 Section 1 (Election
to Subscribe) below on behalf of the Noteholder. (select "yes" or "no" as appropriate).
Yes

Noteholders who wish to elect for Additional New Ordinary Shares pursuant to the Additional New Ordinary Shares Offer (described in Part B paragraphs 2.22 to 2.30 of the Explanatory Statement) and who procure that their Account Holder completes and returns this Part 3 Section 1 (*Election to Subscribe*) of the Account Holder Letter will be allotted Additional New Ordinary Shares in accordance with the terms of the Scheme on the Scheme Settlement Date.

Noteholders wishing to elect to subscribe for all or any of the Additional New Ordinary Shares pursuant to the Additional New Ordinary Shares Offer should ensure that an Account Holder Letter including a duly completed Part 3 Section 1 (*Election to Subscribe*) is received by the Information Agent no later than the Voting Instruction Deadline, after which time any election received will not be valid.

Any allotment of Additional New Ordinary Shares is subject to the eligibility confirmation being provided in Part 4 Section 2 (*Eligibility Confirmation*) in respect of the Noteholder or its Designated Recipient (as applicable) at the same time as this Part 3 (*Additional New Ordinary Shares Offer*) of the Account Holder Letter is delivered to the Information Agent.

Election in respect of Additional New Ordinary Shares

No

Election of Additional New Ordinary Shares is subject to a minimum number of 50,00026,667 and
maximum number of 62,500,00033,333,334 Additional New Ordinary Shares. Insert maximum number of
Additional New Ordinary Shares elected below.

......Additional New Ordinary Shares with a subscription price of £2.003.75 each (insert number of New Ordinary Shares)

Irrespective of the number of Additional New Ordinary Shares elected for above, allotment of Additional New Ordinary Shares will be determined in accordance with Part B paragraphs 2.22 to 2.30 of the Explanatory Statement. To the extent that the number of Additional New Ordinary Shares allocated is less than the number elected for above, the consideration payable for the Additional New Ordinary Shares will be adjusted accordingly.

Allocation Payments for Additional New Ordinary Shares

The delivery and receipt of a valid Account Holder Letter with this Part 3 Section 1 (*Election to Subscribe*) duly completed constitutes an irrevocable offer to the Company by the relevant Noteholder to subscribe for up to the maximum number of Additional New Ordinary Shares indicated above. The acceptance of this

offer will be effected and evidenced by notification by the Company to the relevant Noteholder of the relevant Noteholder's allocation of Additional New Ordinary Shares in accordance with the terms of the Scheme.

The allocation of Additional New Ordinary Shares, the amount to be paid in respect of such allocation and instructions as to payments to be made to the Company in respect of any Additional New Ordinary Shares issued to a Noteholder or its Designated Recipient shall be notified to the Noteholder by the Company or the Information Agent on the date of the Scheme Meeting.

If this Part 3 Section 1 (*Election to Subscribe*) had been completed, Part 4 (*Scheme Consideration, Eligibility and Delivery of The Additional New Ordinary Shares*) must also be completed.

SECTION 2: ELECTION TO SUB-PURCHASE

To participate in the Sub-purchasing Offer, this Part 3 Section 2 (*Election to Sub-purchase*) must be received by the Information Agent no later than the Voting Instruction Deadline. If you do not wish to participate in the Sub-purchasing Offer, please leave this Part 3 Section 2 (*Election to Sub-purchase*) blank.

The Account Holder named below in Part 6 for itself hereby confirms to the Company, the Co-operative Group and the Information Agent that, in relation to the Dated Notes identified in Part 1 Section 2 (*Holding Details*) of this Account Holder Letter, the Account Holder has authority to make the elections and/or give the confirmations set out in this Part 3 Section 2 (*Election to Sub-purchase*) below on behalf of the Noteholder (select "yes" or "no" as appropriate for each item).

Noteno	ider (select	yes	or no	as appropriate for each item).	
Yes					
No					

Noteholders who wish to elect to participate in the Sub-purchasing Offer (described in Part B paragraphs 2.33 to 2.46 of the Explantory Statement) and who procure that their Account Holder completes and returns this Part 3 Section 2 (*Election to Sub-purchase*) of the Account Holder Letter will be allocated a Sub-purchasing Commitment in accordance with the terms of the Scheme.

Noteholders wishing to elect to participate in the Sub-purchasing Offer should ensure that (i) an Account Holder Letter including a duly completed Part 3 Section 2 (*Election to Sub-purchase*) is received by the Information Agent no later than the Voting Instruction Deadline, after which time any election received will not be valid.

Any participation in the Sub-purchasing Offer is subject to the eligibility confirmation being provided in Part 4 Section 2 (*Eligibility Confirmation*) in respect of the Noteholder or its Designated Recipient (as applicable) at the same time this Part 3 Section 2 (*Election to Sub-purchase*) of the Account Holder Letter is delivered to the Information Agent.

Election in respect of the Sub-purchase of the Additional New Ordinary Shares Offer

Election to participate in the Sub-purchase of the Additional New Ordinary Shares Offer is subject to a commitment to purchase a minimum number of 50,00026,667 and a maximum number of 62,500,00033,333,334 Additional New Ordinary Shares. Insert maximum nominated Sub-purchasing Commitment below.

Irrespective of the above, allotment of the Sub-purchasing Commitment to purchase Additional New Ordinary Shares in accordance with the Sub-purchasing Offer will be determined as set out in Part B paragraphs 2.33 to 2.46 of the Explanatory Statement. The delivery and receipt of a valid Account Holder Letter with this Part 3 Section 2 (*Election to Sub-purchase*) duly completed constitutes an irrevocable offer to the Company by the relevant Noteholder to subscribe for up to the maximum commitment elected above. The acceptance of this offer will be effected and evidenced by the Company to the relevant Sub-purchaser by notification of the Sub-purchasing Commitment on or around the date of the Scheme Meeting.

Allocation Payments for Sub-purchase of Additional New Ordinary Shares Offer

The Company (or the Information Agent on behalf of the Company) will notify each Sub-purchaser of its Sub-purchasing Commitment and the amount by which the number of Additional New Ordinary Shares

subscribed for by the Noteholders in the Additional New Ordinary Shares Offer is less than 62,500,00033,333,334 (if any) and the amount of Additional New Ordinary Shares required to be purchased by that Noteholder pursuant to its Sub-purchasing Commitment on the date of the Scheme Meeting.

If this Part 3 Section 2 has been completed, Part 4 must now also be completed.

PART 4: SCHEME CONSIDERATION, ELIGIBILITY AND DELIVERY OF THE ADDITIONAL NEW ORDINARY SHARES

IN ORDER TO RECEIVE SCHEME CONSIDERATION AND ADDITIONAL NEW ORDINARY SHARES IN ACCORDANCE WITH THE TERMS OF THE SCHEME ON THE SCHEME SETTLEMENT DATE AND IN ORDER TO PARTICIPATE IN THE SUB-PURCHASING OFFER THIS PART OF THE ACCOUNT HOLDER LETTER MUST BE DELIVERED BY POST, FACSIMILE OR EMAIL TO THE INFORMATION AGENT USING THE CONTACT DETAILS SET OUT ABOVE AND MUST BE RECEIVED BY THE INFORMATION AGENT BY NO LATER THAN THE VOTING INSTRUCTION DEADLINE.

SECTION 1: ELIGIBILITY AND DESIGNATED RECIPIENT

Requirement to complete Part 4 Section 2 (*Eligibility Confirmation*)

To be eligible to receive the Scheme Consideration, any Additional New Ordinary Shares pursuant to the Scheme, and to be eligible to participate in the Sub-purchasing Offer the Account Holder for itself and on behalf of the Noteholder (or, if the Noteholder has appointed a Designated Recipient, its Designated Recipient) must provide confirmation to the Company, the Co-operative Group, the Information Agent and the Holding Period Trustee that it and the Noteholder (or, if the Noteholder has appointed a Designated Recipient, its Designated Recipient) is an Eligible Person by confirming that it and the Noteholder (or, if the Noteholder has appointed a Designated Recipient, its Designated Recipient) is an "Eligible Person" in Part 4 Section 2 (*Eligibility Confirmation*) below.

Option to appoint Designated Recipient

If the Noteholder is unable to provide the confirmation in Part 4 Section 2 (*Eligibility Confirmation*) referred to above itself it may nominate a Designated Recipient that is an Eligible Person in order that the Scheme Consideration and/or the Additional New Ordinary Shares can be distributed to that Designated Recipient on behalf of the Noteholder **provided that** the account number of the Account Holder in respect of both the Noteholder **and** the Designated Recipient must be the same as that specified by the Account Holder in Part 6 (*Execution of Account Holder Letter by Account Holder*) below. The details of the Designated Recipient, if applicable, must be completed below.

Is the Noteholder unable to provide the confirmation in Part 4 Section 2 (<i>Eligibility Confirmation</i>) below and does it wish to nominate a Designated Recipient?
No (Please now only complete Section 2)
Yes (Please provide details below)
DESIGNATED RECIPIENT
Designated Recipient's Name
Jurisdiction of incorporation
Address of Designated Recipient
City
State
Postal Code
Country
Contact Name:
Telephone no. of Designated Recipient

(with country code)

E-mail of Designated Recipient

SECTION 2: ELIGIBILITY CONFIRMATION

This Part 4 Section 2 (*Eligibility Confirmation*) of this Account Holder Letter should be completed in all cases. If the Account Holder fails to tick one of the boxes below the Noteholder will be deemed an Unadmitted Noteholder and will not receive Scheme Consideration or any Additional New Ordinary Shares to which it would otherwise be entitled under the terms of the Scheme on the Scheme Settlement Date or participate in the Sub-purchasing Offer. For more details please see paragraphs 2.17, 2.24 and 2.36 of Part B (*Overview of the Scheme*) of the Explanatory Statement.

The Account Holder for itself confirms to the Company, Co-operative Group, the Information Agent and the Holding Period Trustee as follows (select "yes" or "no" as appropriate for each item):

A.	That all authority conferred or agreed to be conferred pursuant to this part of the Account Holder Letter and every obligation of the Account Holder under this part of the Account Holder Letter shall be binding upon the successors and assigns of the Account Holder (in the case of a corporation or institution) or the successors, assigns, heirs, executors, administrators, trustees in bankruptcy and legal representatives of the Account Holder (in the case of a natural person) and shall not be affected by, and shall survive, the insolvency, bankruptcy, dissolution, death or incapacity (as the case may be) of the Account Holder and that all of the information in this part of the Account Holder Letter is complete and accurate.
	Yes No
В.	That it has authority to (i) give the confirmation set out in this Part 4 Section 2 (<i>Eligibility Confirmation</i>) for itself and for the Noteholder (or, if the Noteholder has appointed a Designated Recipient, its Designated Recipient), (ii) identify the person who is to be the Designated Recipient of the Scheme Consideration and the Additional New Ordinary Shares (if applicable) and (iii) give, on behalf of the Noteholder or its Designated Recipient (as applicable), the confirmation and request set out in Part 4 Section 3 (<i>Delivery of Bank T2 Notes, New Ordinary Shares and The Additional New Ordinary Shares</i>).
	Yes No

An Account Holder who is unable to confirm "yes" in respect of paragraphs A and B above should contact the Information Agent or the Holding Period Trustee (as appropriate) using the contact details set out in this Account Holder Letter for assistance.

By ticking the box below marked "Yes", the Account Holder confirms that it and the Noteholder (or, if the Noteholder has appointed a Designated Recipient, its Designated Recipient) confirm, agree and represent or are deemed to have confirmed, agreed or represented the statements set out in paragraph 2 of Schedule 1 (*Representations, Warranties and Undertakings*) to this Account Holder Letter with or in favour of the Company, the Co-operative Group, the Information Agent and the Holding Period Trustee as at the date on which this Account Holder Letter is received by the Information Agent or the Holding Period Trustee (as

applicable), on the Voting Instruction Deadline (to the extent not already passed), on the Scheme Settlement Date (to the extent not already passed) and, to the extent the Scheme Settlement Date has already occurred, the date on which the Holding Period Trustee transfers the relevant Scheme Consideration to the Noteholder.

If the Account Holder is unable to give the confirmation referred to in the paragraph above, it may only tick the box below marked "No" below and should contact the Information Agent or the Holding Period Trustee using the contact details set out in this Account Holder Letter for assistance.

Before returning this Account Holder Letter, please make certain that you have provided all the information requested.

By signing above, the Account Holder confirms that it has obtained all necessary consents, authorisations, approvals and/or permissions required to be obtained by it under the laws and regulations applicable to it in any jurisdiction in order to sign this Account Holder Letter on behalf of the Noteholder.

Before returning this Account Holder Letter or either part of this Account Holder Letter, please make certain that you have provided all the information requested.

Acceptance of Part 2 (*Voting and Lock-up*) of this Account Holder Letter by the Information Agent is subject to receipt by the Information Agent by no later than the Voting Instruction Deadline of valid Custody Instruction Reference Numbers in respect of the Dated Notes which are the subject of this Account Holder Letter. Custody Instructions must be delivered to Euroclear or Clearstream, Luxembourg, as the case may be, in respect of the Dated Notes identified in Part 1 Section 2 (*Holding Details*) of this Account Holder Letter as being held in one of those Clearing Systems prior to the Custody Instruction Deadline. Information in this Account Holder Letter must be consistent with such Custody Instructions and in the event of any ambiguity, the Custody Instructions shall take precedence.

Acceptance of Part 4 (Scheme Consideration, Eligibility And Delivery Of The Additional New Ordinary Shares) of this Account Holder Letter by the Information Agent or the Holding Period Trustee (as applicable) is subject to receipt by the Information Agent or the Holding Period Trustee (as applicable) of evidence satisfactory to it that the Noteholder held the Dated Notes to which Part 4 (Scheme Consideration, Eligibility And Delivery Of The Additional New Ordinary Shares) of this Account Holder Letter relates on the Record Date and that the Noteholder did not transfer the Dated Notes between the Record Date and the Scheme Settlement Date unless the Company, in its sole discretion, elected to recognise a transfer of Dated Notes after the Record Date. ⁵

The Account Holder may complete and submit this Account Holder Letter or either part of this Account Holder Letter on behalf of the Noteholder if the Account Holder has authority to do so.

Facsimile or pdf copies of this Account Holder Letter will be accepted and originals are not required.

For the purposes of determining priorities in the First Round Exception, if a valid Account Holder Letter is delivered to and received by the Information Agent in respect of a Noteholder (which has validly elected to participate in the Additional New Ordinary Shares Offer and/or the Sub-purposesing Offer) on whose helpelf an Old Account Holder Letter has prior to the delivery of that Account Holder Letter

SCHEDULE 1

REPRESENTATIONS, WARRANTIES AND UNDERTAKINGS

1. Voting Representations, Warranties and Undertakings

Each Noteholder which submits, delivers or procures the delivery of an Account Holder Letter represents, warrants and undertakes to the Company, the Co-operative Group and the Information Agent that:

- (a) it is lawful to seek voting instructions from that Noteholder in respect of the Scheme;
- (b) it is assuming all of the risks inherent in that Noteholder participating in the Scheme and has undertaken all the appropriate analysis of the implications of participating in the Scheme for that Noteholder without relying on the Company, the Co-operative Group, the Dealer Managers or the Information Agent (other than any representations or warranties given in favour of that Noteholder by the Company or the Co-operative Group (as the case may be) under any of the Bank T2 Notes Prospectus and Group Notes Prospectus and thisthe Explanatory Statement and, if applicable, a Lock-up Agreement to which that Noteholder is a party);
- (c) the Dated Notes which are the subject of the Account Holder Letter are, at the time of delivery of such Account Holder Letter held by it (directly or indirectly) or on its behalf at Euroclear or Clearstream, Luxembourg (and that Noteholder will use all reasonable endeavours to ensure that those Dated Notes will continue to be so held up to and including the Scheme Settlement Date (prior to their transfer in accordance with the terms of the Scheme):
- (d) by instructing the relevant Clearing System, it will be deemed to have authorised the relevant Clearing System to provide details concerning its identity, the Dated Notes which are the subject of the Account Holder Letter delivered on its behalf and its applicable account details to the Company and the Information Agent and their respective legal and financial advisers at the time the Account Holder Letter is submitted;
- (e) neither the Information Agent nor the Dealer Managers nor any of their Affiliates, directors, officers or employees has made any recommendation to that Noteholder as to whether, or how, to vote in relation to the Scheme, and that it has made its own decision with regard to voting based on any legal, tax or financial advice that it has deemed necessary to seek;
- (f) all authority conferred or agreed to be conferred pursuant to these representations, warranties and undertakings shall be binding on the successors and assigns of that Noteholder (in the case of a corporation or institution) or the successors, assigns, heirs, executors, trustees in bankruptcy and legal representatives of that Noteholder (in the case of a natural person) and shall not be affected by, and shall survive, the insolvency, bankruptcy, dissolution, death or incapacity (as the case may be) of that Noteholder; and
- (g) no information has been provided to it by the Company, the Co-operative Group, the Dealer Managers, the Information Agent or any of their respective Affiliates, directors, officers, advisers or employees with regard to the tax consequences to that Noteholder arising from voting in favour of the Scheme, and that it is solely liable for any taxes or similar payments imposed on it under the laws of any applicable jurisdiction as a result of voting in favour of the Scheme, and that it will not and does not have any right of recourse (whether by way of reimbursement, indemnity or otherwise) against the Company, the Co-operative Group, the Dealer Managers, the Information Agent or any of their Affiliates, directors, officers, advisers or employees in respect of such taxes or similar payments.

2. Eligibility

- (a) The Account Holder and Noteholder (or, if the Noteholder has appointed a Designated Recipient, its Designated Recipient) each confirm, agree and represent with or in favour of the Company, the Cooperative Group, the Information Agent and the Holding Period Trustee that the offer to, issue to or subscription by it in respect of any New Ordinary Shares, Bank T2 Notes (and, if applicable, Additional New Ordinary Shares):
 - (i) would not be unlawful or prohibited under the laws or regulations of any applicable jurisdiction; and
 - (ii) would not, or would not be likely to result in the Company being required to comply with any filing, registration, disclosure or other onerous requirement in any jurisdiction where that person is a citizen or subject to the laws of or in which that person is domiciled or resident.

issued by the Company (together, the **Dated Notes**)

NOTICE IS HEREBY GIVEN that, by an order dated <u>4 December 2013 (varying an order made</u> 18 November 2013–) made in the above matter, the High Court of England and Wales (the **Court**) has directed that a meeting (the **Scheme Meeting**) be convened of the Scheme Creditors (as such term is defined in the scheme of arrangement hereinafter referred to) of The Co-operative Bank p.l.c. (the **Company**) for the purposes of considering and, if thought fit, approving (with or without modification, addition or condition approved or imposed by the Court and/or agreed by the Company) a scheme of arrangement proposed to be made between the Company and the Scheme Creditors (<u>as amended on 4 December 2013</u>, the **Scheme**).

The Scheme Meeting will be held at the Holiday Inn London (Bloomsbury), Coram Street, London WC1N 1HT on 11 offices of Allen & Overy LLP, One Bishops Square, London E1 6AD on 16 December 2013 commencing at 10 a.m. (London time). All Scheme Creditors are requested to attend at such place and time either in person, by a duly authorised representative if a corporation, or by proxy.

A copy of the Scheme and a copy of the statement required to be furnished pursuant to section 897 of the Companies Act 2006 (<u>as amended on 4 December 2013</u>, the **Explanatory Statement**) are incorporated in the document of which this notice forms part.

Scheme Creditors may vote in person or by a duly authorised representative if a corporation, at the Scheme Meeting or they may appoint another person, whether a Scheme Creditor or not, as their proxy to attend and vote in their place. Scheme Creditors may appoint proxies to vote at the Scheme Meeting by filling out section 3 (*Voting*) of the Account Holder Letter (as defined in the Explanatory Statement). If a Scheme Creditor is a corporation, it must appoint an authorised representative or proxy to vote on its

behalf at the Scheme Meeting by filling out section 3 (*Voting*) of the Account Holder Letter in order to be entitled to vote at the Scheme Meeting.

To avoid double counting, each of the trustees and the common depositaries for the Dated Notes has confirmed in writing that it will not exercise any voting rights to which it may be entitled as a Scheme Creditor.

Each Scheme Creditor or its proxy will be required to register its attendance at the Scheme Meeting prior to the commencement of the Scheme Meeting. Registration will commence at 8.300 a.m. (London time) on the date of the Scheme Meeting and each Scheme Creditor and proxy must be registered no later than one hour prior to the commencement of the meeting. Each Scheme Creditor that is not a proxy must bring to the Scheme Meeting a copy of the relevant Account Holder Letter, evidence of corporate authority (in the case of a corporation) (for example, a valid power of attorney and/or board minutes) and evidence of personal identity (for example, a passport or other picture identification). Each proxy must bring to the Scheme Meeting a copy of the Account Holder Letter authorising him or her to act as proxy on behalf of the Scheme Creditor and evidence of personal identity (for example, a passport or other picture identification).

In order to vote on the Scheme and attend the Scheme Meeting (in person, by a duly authorised representative if a corporation, or by proxy), Scheme Creditors must ensure that an Account Holder Letter is completed, delivered to and received by the Information Agent (as defined in the Explanatory Statement) (marked for the attention of Sunjeeve Patel / David Shilson / Yves Theis) in accordance with the instructions set out in the Account Holder Letter before 4.30 p.m. (London time) on 10 13 December 2013. A copy of the form of Account Holder Letter may be downloaded from http://www.co-operative.coop/Bondholders (the Scheme Website).

The Scheme, the Explanatory Statement and the Account Holder Letter are will be available to download from the Scheme Website during the course of the afternoon on 4 December 2013 and thereafter. A letter from the Company dated 4 December 2013 explaining the amendments to the Scheme, the Explanatory Statement and the Account Holder Letter from the versions uploaded to the Scheme Website on or around 18 November 2013 (the Amendment Letter) is being sent to Scheme Creditors via the Clearing Systems (as defined in the Explanatory Statement) on the date of this notice and is also available to download from the Scheme Website. If a hard copy is required, please send your request to the Information Agent (marked for the attention of Sunjeeve Patel / David Shilson / Yves Theis). By the order referred to above, the Court has appointed Niall Booker or, failing him, Alistair Asher or, failing him, Mark Sterling or another partner of Allen & Overy LLP to act as chairman of the Scheme Meeting and has directed the chairman to report the result of the Scheme Meeting to the Court.

Any Scheme Creditor on whose behalf a valid account holder letter for the purposes of the version of the Explanatory Statement which was uploaded to the Scheme Website on or around 18 November 2013 which includes a valid election to participate in the Additional New Ordinary Shares Offer and/or the Sub-purchasing Offer (as each such term was defined in that version of this Explanatory Statement) (any such account holder letter, an **Old Account Holder Letter**) has been delivered to and received by the Information Agent on or before the date of this notice should read carefully the changes to the Additional New Ordinary Shares Offer (as defined in the Explanatory Statement) described in the Amendment Letter (including the blackline of changed pages to the Explanatory Statement from the version uploaded to the Scheme Website on or around 18 November 2013).

Any Old Account Holder Letter delivered to the Information Agent will have no effect. However, if a valid Account Holder Letter is delivered to and received by the Information Agent before 4.30 pm (London time) on 13 December 2013 in respect of a Scheme Creditor on whose behalf an Old Account Holder Letter has, prior to the delivery of that Account Holder Letter, been delivered to and received by the Information Agent (and not revoked), that Account Holder Letter will be deemed to have been received by the Information Agent on the date and at the time that the Old Account Holder Letter was received by the Information Agent.

The Scheme will be subject to the subsequent approval of the Court.

For further information in this regard, please contact the Information Agent using the following contact details:

NOTICE OF DIRECTOR NOMINATION RESOLUTION

THE CO-OPERATIVE BANK P.L.C. (REGISTERED NUMBER 990937)

€34,980,000 Floating Rate Callable Step-up Dated Subordinated Notes due 2016 (ISIN: XS0254625998)

£37,775,000 5.875% Subordinated Callable Notes due 2019 (ISIN: XS0189539942)

£275,000,000 9.25% Subordinated Notes due April 2021 (ISIN: XS0620315902)

£8,747,000 Fixed/Floating Rate Subordinated Notes due November 2021 (ISIN: XS0274155984)

£235,402,000 7.875% Subordinated Notes due 2022 (ISIN: XS0864253868)

£200,000,000 5.75% Dated Callable Step-up Subordinated Notes due 2024 (ISIN: XS0188218183) and

£150,000,000 5.875% Subordinated Notes due 2033 (ISIN: XS0145065602)

issued by The Co-operative Bank p.l.c. (the **Company**)

Reference is made to the notice dated <u>18 November 4 December 2013</u> (the **Scheme Meeting Convening Notice**) of the convening of a meeting of a single class of Scheme Creditors that has been ordered by the Court for the purposes of considering and, if thought fit, approving the scheme of arrangement proposed to be made between the Company and the Scheme Creditors referred to in the Scheme Meeting Convening Notice (the **Scheme**). Capitalised terms used in this notice have the meanings given to those terms in the Explanatory Statement (as defined in the Scheme Meeting Convening Notice).

NOTICE IS HEREBY GIVEN THAT, at the Scheme Meeting, although not a term of the Scheme, the Scheme Creditors may be asked to consider and, if thought fit, approve the nomination for appointment to the board of up to two persons (the **Nominated Directors**). In the event that the <u>Modified Scheme</u> Purchasers notify the Company of a person or persons to be designated as the Nominated Directors at least 7 Business Days prior to the Scheme Meeting the Company will notify the Noteholders of the Nominated Directors no later than 5 Business Days prior to the Scheme Meeting by the issue of an announcement to each Noteholder through the relevant Clearing System and on the Scheme Website at http://www.cooperative.coop/Bondholders.

The Company has agreed to procure the appointment of each Nominated Director, if its appointment is approved by a separate resolution of the Noteholders. A majority in number representing at least 75 per cent. in value of the Noteholders present and voting in person or by proxy will be required to approve the appointment of each Nominated Director. If a Nominated Director or Nominated Directors are notified in accordance with the preceding paragraph the vote on these separate resolutions will take place at the Scheme Meeting following and independently of the vote in respect of the Scheme.

Noteholders are requested to refer to pages 62 to 63 of the Explanatory Statement for more information and instructions on how to vote on the resolutions or to contact the Information Agent on the contact details in the Scheme Meeting Convening Notice.

The Scheme may be approved by the requisite majorities of Scheme Creditors at the Scheme Meeting and be sanctioned by the Court at the Scheme Sanction Hearing and become effective in accordance with its terms, irrespective of whether either resolution to appoint the Nominated Directors is passed.

Dated 18 November 4 December 2013

The Co-operative Bank p.l.c.

ILLUSTRATIVE ADDITIONAL NEW ORDINARY SHARES ALLOCATION MODEL

The information set out in this Appendix is illustrative only and is being provided by way of an example to assist Noteholders when reviewing the descriptions of the calculation methodology to be used to allocate the Additional New Ordinary Shares to Subscribing Noteholders as set out in paragraph 2.30 of Part B of this Explanatory Statement.

The illustrative allocation model set out below has been prepared on the basis of the following assumptions:

- (a) Seven (7) Noteholders wish to participate in the Additional New Ordinary Shares Offer i.e there are seven (7) Subscribing Noteholders.
- (b) Two (2) Subscribing Noteholders (Subscribing Noteholders #2 and #4) have made the Minimum Election (50,000-26,667 Additional New Ordinary Shares).
- (c) The Subscription Amounts for the remaining five (5) Subscribing Noteholders range from 8,000,000 4,250,000 (Subscribing Noteholder #6) to 21,500,000 11,500,000 Additional New Ordinary Shares (Subscribing Noteholder #5).
- (d) The Total Subscription Amount is <u>63,100,000</u> <u>33,678,334</u> Additional New Ordinary Shares i.e. the Additional New Ordinary Shares Offer is oversubscribed.
- (e) The Scheme Consideration Calculation Amounts of the Subscribing Noteholders range from £2,002,520.55 (Subscribing Noteholder #4) to £75,279,696.13 (Subscribing Noteholder #3).
- (f) The aggregate Scheme Consideration Calculation Amounts of all Subscribing Noteholders is £210,892,32366.9336.

RESOLUTION ANALYSIS

1. Purpose of this resolution analysis

The purpose of the resolution analysis contained in this Appendix 7 (*Resolution Analysis*) is to assist Noteholders in determining whether or not to vote in favour of the Scheme or otherwise participate in the Liability Management Exercise. The resolution analysis compares the position which Noteholders would be likely to face if the Company were resolved on 31 December 2013 with the position for Noteholders if the Liability Management Exercise is successfully implemented, to assist Noteholders in deciding whether or not to vote in favour of the Scheme or otherwise to participate in the Liability Management Exercise.

The Bank of England and HM Treasury (the **Resolution Authorities**) have wide discretionary powers as to how to effect a resolution of the Company. Analysing the position of Noteholders following resolution of the Company is therefore subject to a number of uncertainties and Noteholders should take careful note of the significant limitations and uncertainties set out in section 5 below.

2. Why participate in the Liability Management Exercise?

The Company believes that if the Liability Management Exercise were to fail this would result in the Company being subject to a resolution procedure under the Banking Act. If, following resolution, the Company goes into an insolvency proceeding, the Company believes, on the basis of the hypothetical analysis described in section 5 (*The Insolvency Analysis*) below, that Noteholders would receive no dividend at all in that insolvency proceeding and no compensation, whether directly or indirectly, as a result of the resolution. The Company also believes that there is fundamental uncertainty as to whether the Company could be resolved a going concern without the active support of Co-operative Group and a substantial amount of additional capital, as described in section 8 (*Could the Company be resolved as a going concern?*) below.

If the Liability Management Exercise is successfully completed the Noteholders will be entitled to receive the Bank T2 Notes and the New Ordinary Shares (together with the opportunity to participate in the Additional New Ordinary Shares Offer), the 5.5555% Bondholders will receive the Exchange Offer Bank T2 Notes (together with a cash amount equal to the accrued and unpaid interest on the 5.5555% Bonds) and the 13% Bondholders and the Preference Shareholders will have the choice to receive either Final Repayment Notes or cash consideration payable in instalments (represented by Instalment Repayment Notes (together with a cash amount equal to the accrued and unpaid dividends on the Preference Shares or interest on the 13% Bonds (as the case may be)) (in each case subject to compliance with the relevant procedures described in this Explanatory Statement, in the case of the Noteholders, and the Offer Memorandum, in the case of the Preference Shareholders, 5.5555% Bondholders and 13% Bondholders and depending on the extent of their participation in the Liability Management Exercise) (the **Restructuring Consideration**).

3. What happens if the Liability Management Exercise is successfully completed?

If the Liability Management Exercise is successfully completed each Noteholder, Preference Shareholder, 5.555% Bondholder and 13% Bondholder will be entitled to receive, for each £1,000 nominal of Existing Securities which it holds, the amount of Restructuring Consideration described in the relevant table set out in paragraph 2 "Summary Offering Tables" of Part C (Overview of the Liability Management Exercise) of this Explanatory Statement.

New debt securities

For details of the terms of the Bank T2 Notes see the description in paragraph 2.10 of Part B (*Scheme Consideration*) of this Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein) and for a summary of the associated risk factors relating to these securities see Part D (*Risk Factors*) of this Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein).

The value of the Bank T2 Notes (and the Final Repayment Notes and Instalment Repayment Notes) are shown in the tables referred to above at nominal (face) value for illustrative purposes and should not be taken as a guide to the market value of these securities following the successful implementation of the Liability Management Exercises.

New Ordinary Shares in the Company

There is currently no public trading market for the New Ordinary Shares and the Additional New Ordinary Shares and there can be no certainty as to the development or liquidity of any market for the New Ordinary Shares and the Additional New Ordinary Shares. Noteholders should therefore determine for themselves, based on the information set out in the Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein), the value to be ascribed by them to the New Ordinary Shares and the Additional New Ordinary Shares.

4. What is the likely outcome for Noteholders if the Liability Management Exercise is not successfully completed?

Stabilisation powers of Bank of England and HM Treasury

As a preliminary point, regulatory policy (see, for example, Bank of England and FSA joint paper entitled "A review of requirements for firms entering into or expanding in the banking sector", March 2013 at pages 5, 9 and 13) is that if a bank is no longer able to survive as a going concern, the bank should be allowed to fail. That is to say, while both the payments system and insured depositors will be protected, there should be no bail out of a bank. In other words, public funds will not be made available in order to resolve a bank.

The stabilisation powers in relation to the Company available to the Bank of England and HM Treasury, once the relevant conditions are satisfied are as follows:

- (a) to sell all or part of the business of the Company to a commercial purchaser;
- (b) to transfer all or part of the business of the Company to a company which is wholly owned by the Bank of England; or
- (c) to take the Company into temporary public ownership.

HM Treasury may only exercise the Temporary Public Ownership power if the exercise for that power is necessary:

- (i) to resolve or reduce a serious threat to the stability of the financial systems of the United Kingdom; or
- (ii) to protect the public interest, where HM Treasury have provided financial assistance in respect of the Company for the purpose of resolving or reducing a serious threat to the stability of the financial systems of the United Kingdom. HM Treasury have not provided any such financial assistance so this would not be applicable.

If the Resolution Authorities exercise a stabilisation power, HM Treasury must make an order which establishes a regime for compensation in respect of the resolution although there is nothing to prevent the application of the valuation principles in such an order establishing a scheme for

compensation from resulting in no compensation being payable. A compensation scheme order will provide for a transferor to be paid compensation or provide for a scheme to determine whether a transferor should be paid compensation and will establish a scheme for paying any such compensation. A compensation scheme order may provide for the amount of any compensation payable to be determined by an independent valuer appointed in accordance with the order and may specify principles to be applied in determining the amount of compensation.

A resolution fund order is an order establishing a scheme under which transferors become entitled to the proceeds of the disposal of things transferred in specified circumstances and to a specified extent.

A third party compensation order provides for compensation to be paid to persons other than transferors. A third party compensation order must provide that the independent valuer must assess the treatment (the **Insolvency Treatment**) which pre-transfer creditors would have received had the Company entered into insolvency immediately prior to the time at which it was resolved. The independent valuer must assess the treatment (the **Actual Treatment**) which pre-transfer creditors have received, are receiving or are likely to receive if no compensation is paid. If the independent valuer considers that, in relation to any pre-transfer creditor, the Actual Treatment is less favourable than the Insolvency Treatment, the independent valuer must determine that compensation is paid to that pre-transfer creditor. The amount of compensation must be determined by reference to the difference in treatment and on the basis of the fair and equitable value of that difference in treatment.

The Liability Management Exercise will only be successfully completed if the entire principal amount of all Existing Securities are exchanged or sold pursuant to the Liability Management Exercise.

As stated in the June Announcement, Co-operative Group and the Company believe that the Recapitalisation Plan, of which the Liability Management Exercise forms an integral part, is in the long-term interests of their respective stakeholders and of the Company itself.

Absent the support of sufficient Noteholders, to approve the proposals being made in the Scheme, the Scheme and therefore the Liability Management Exercise will fail.

The uncertainty around the implementation of the Recapitalisation Plan constitutes a material uncertainty which casts significant doubt on the Company's ability to continue as a going concern. The Company's Interim Financial Information, therefore, included an emphasis of matter as to the Company's ability to continue as a going concern (see note 2 to the Interim Financial Information for further details of the going concern position of the Company contained in part B in section 16 (*Financial Information*) at page 289 of the Bank T2 Notes Prospectus.

Given the discretionary nature of the powers available to the Resolution Authorities under the Banking Act, the Company is unable to predict with certainty the precise outcome for Noteholders if the Scheme and the Liability Management Exercise are not successfully implemented during 2013. However, the Company has no other source available to it to raise the required additional capital. As stated in the Company's Interim Financial Information, if the Liability Management Exercise is not successfully implemented, the Company will cease to be a going concern and, as a result, the Company is likely to fail to satisfy its threshold conditions for authorisation (within the meaning of Section 55B of FSMA) and the relevant Resolution Authority may then exercise a stabilisation power under the Banking Act. These threshold conditions include a requirement that the PRA is satisfied that the Company, in particular, has appropriate financial and non-financial resources, including that the Company has made appropriate provision for its liabilities. In addition, the Resolution Authorities may also exercise their powers to resolve the Company even if it remains a going concern.

233

Valuation principles under a compensation scheme order may require or permit an independent valuer to make assumptions such as, for example, that the Company has had its regulatory permissions varied or cancelled, is unable to continue as a going concern, is in administration or is being wound up.

If the Liability Management Exercise is not successfully implemented on or before 31 December 2013, the Company therefore considers that the PRA would have a basis for determining that the Company is failing, or is likely to fail, to satisfy its threshold conditions; that the power of the Resolution Authorities to exercise stabilisation powers under the Banking Act had arisen; and the Company believes it would be subject to a resolution procedure under the Banking Act. The Company therefore believes that there are only two realistic outcomes for the Company, which are either its recapitalisation following successful implementation of the Liability Management Exercise or a failure of the Liability Management Exercise resulting in the Company ceasing to be a going concern and, as such, the Company considers it likely that the Company would be subject to a resolution procedure under the Banking Act.

For further details of the risks of the Liability Management Exercise, see Part D (*Risk Factors*) of this Explanatory Statement (including the sections of the Bank T2 Notes Prospectus referred to therein).

5. The insolvency analysis

In order to form a view as to whether it is likely, if the Company went into a hypothetical insolvency process following its resolution, that there would be any return to Noteholders as a result of that process, the Company has prepared an insolvency analysis.

The insolvency analysis represents an illustrative estimate of insolvency values and recovery percentages based upon hypothetical insolvency proceedings for the Company commenced on 31 December 2013. The insolvency analysis is based on the balance sheet contained in the Interim Financial Information.

Insofar as insolvency might be an event that occurs in the future, the ultimate returns to Noteholders will be determined by a series of complex circumstances relevant at the time of the insolvency. There may be unforeseen events, changes in economic conditions and many other potential variables that could impact on and change the actual outcome of an insolvency process.

The Company has prepared the insolvency analysis on the basis of assumptions which the Directors believe are reasonable in the circumstances. However, the assumptions are subject to significant uncertainties which are beyond anyone's control, and unanticipated events and circumstances might materially affect the anticipated results.

Neither the assumptions nor the numbers generated in the insolvency analysis have been audited. While the insolvency values are presented with some specificity (albeit within a range), the actual results achieved would in all likelihood vary, and could vary in ways that may be material. Accordingly, there can be no assurance that the assumptions employed in determining the insolvency value of the assets will result in accurate estimations of such insolvency values.

None of the Company, its Directors or advisers makes any representation or warranty that the actual results for Noteholders upon an insolvency of the Company would or would not approximate to the financial outcomes described below.

Nothing in this Appendix 7 (*Resolution Analysis*) constitutes a valuation. Where present values for different scenarios are shown they are provided for illustrative purposes only and are subject to assumptions set out in this Appendix 7 (*Resolution Analysis*).

Estimated outcomes

Subject to the caveats and assumptions set out in this Appendix 7 (*Resolution Analysis*), the Company believes that the return to the Company's senior unsecured creditors from a bank insolvency procedure or administration of the Company would be in the range of 91.5% and that Noteholders would receive no recovery at all in such an administration or bank insolvency

procedure because their claims are subordinated to the claims of the senior unsecured creditors of the Company.

The insolvency analysis indicates that there would be approximately £32.4 billion of estimated net recoveries (after secured creditor claims and costs) and approximately £37.3 billion of total senior unsecured creditors. Realisations in the insolvency procedure would therefore need to increase by over £3.1 billion in order for senior unsecured creditors to recover the full principal amount of their claims.

Key insolvency analysis assumptions

- (a) Insolvency procedures available for the Company include a bank insolvency procedure, a bank administration procedure (both provided for under the Banking Act), a liquidation or an administration (both provided for under the Insolvency Act 1986). Under an administration pursuant to the Insolvency Act 1986, an administrator has powers to make distributions to creditors (a distributing administration). For the purposes of the insolvency analysis the Company has assumed that the relevant insolvency procedure is either a bank insolvency procedure or a distributing administration. The Company considers that the likely strategy of the insolvency office holder and the likely outcome for creditors would be similar under either procedure.
- (b) Any surplus realisations remaining after payment of the debts proved by senior unsecured creditors would be applied in the insolvency procedure in payment of the debts proved by subordinated creditors in respect of the Dated Notes before being applied in payment of interest, whether on the debts proved by the senior unsecured creditors or on the debts proved by the Noteholders.
- (c) Under a bank insolvency procedure the liquidator has two statutory objectives:
 - to work with the FSCS so as to ensure that as soon as reasonably practicable each eligible depositor has the relevant account transferred to another institution or it receives payment from the FSCS; and
 - (ii) to wind up the affairs of the bank so as to achieve the best result for the bank's creditors as a whole.

In relation to the second statutory objective, the Company considers that the best results for its creditors as a whole would not be achieved through a fire sale on day 1 of the process which would flood the market and drive down pricing. At the opposite end of the scale, a very long term run-off may result in higher nominal recoveries but it is likely to result in significant cost inefficiencies and not achieve the best result for creditors as a whole taking into account the cost of funding of the creditors. The Company considers that the best result will lie somewhere in between and in practice would anticipate the insolvency office holder's strategy to be a combination of medium term run-off combined with regular portfolio sales. In particular, a bank liquidator would be influenced as to strategy by his creditors committee which would include the FSCS who would be the majority creditor (following its pay out to eligible depositors), Hence, maximising return for the Company's creditors as a whole would need to take account of the FSCS's cost of funding relating to the depositor payments it has made. The Company understands that this is likely to be "market rate" funding cost.

The result in an administration would be similar. An administrator must submit his proposals to a creditors' meeting which may approve them without modification or approve them with modifications to which the administrator consents. An administrator has a responsibility to have regard to the views of the creditors and is entitled to give considerable weight to the views of a substantial majority of creditors about how to proceed.

The Company has therefore assumed for the purposes of the insolvency analysis a five year run off and a sale of the rump at the end of year five. The Company considers that this five year period is appropriate by reference to loan repayment profiles and economic factors and that it does not appear inconsistent with relevant precedents.

6. Would Noteholders be entitled to compensation as a result of a resolution of the Company?

Noteholders would, except in the circumstances referred to in section 8 below, be third parties for the purposes of the compensation regime which must be established by HM Treasury pursuant to the Banking Act. The independent valuer appointed pursuant to any third party compensation order must apply the principles set out in section 4 above. Applying these principles to the insolvency analysis set out in section 5, under the Insolvency Treatment, no Noteholder would be entitled to any recovery at all in the hypothetical insolvency process for the Company and the Actual Treatment cannot therefore be less favourable than the Insolvency Treatment in this case. There is therefore no basis on which Noteholders would be entitled to compensation under an order made pursuant to the Banking Act as a result of a resolution of the Company.

7. Could the Company be entitled to compensation as a result of its resolution?

If a resolution of the Company involves a transfer of all or part of its assets or liabilities, the Company will be entitled to claim compensation as a transferor under the compensation regime which must be established by HM Treasury. The Company believes that the most likely circumstances in which compensation may be payable to it as a transferor would be either if all or part of its assets were transferred at an undervalue (in which case it would be entitled to claim under a scheme compensation order) or if the assets which were transferred were subsequently realised (in which case it may be able to claim under a resolution fund order).

Although the Resolution Authorities have wide discretionary powers and although the Company is not waiving or abrogating any right to claim compensation as a transferor in the event of its resolution, the Company is not aware of any circumstances which would lead it to believe that it would be able to recover compensation following its resolution either at all or of an amount which would result in an indirect return to Noteholders.

8. Could the Company be resolved as a going concern?

Under Section 19 of the Banking Act, the Resolution Authorities have a power (the **Section 19 Power**), in connection with an order for the resolution of the Company, to make an order converting securities from one class to another. The extent of the Section 19 Power has not been tested, but the Company believes that this power may permit the Resolution Authorities to order that the Existing Securities are converted into New Ordinary Shares of the Company in connection with its resolution.

Even if the Section 19 Power were capable of being exercised in this manner, the Company considers that there is material uncertainty whether the Company would be capable of continuing as a going concern following the exercise of the Section 19 Power in this manner. The Recapitalisation Plan for the Company requires the Company to hold additional Common Equity Tier 1 Capital of at least £1.5 billion by the end of 2014. If the Section 19 Power were exercised, the conversion of the Existing Securities into ordinary shares of the Company would produce Common Equity Tier 1 Capital of approximately £1.23 billion for the Company, which is less than the £1.5 billion minimum requirement imposed by the PRA by the end of 2014. The Company also considers it likely that, if the Section 19 Power were to be used, the PRA would determine that a larger amount of capital would be required to be held by the Company in order to ensure market confidence and reduce the risks of a second resolution.

It is possible, although the extent of this power is also untested, that the PRA may have power under section 192(C) of FSMA to direct CBGL, as a qualifying parent undertaking, to contribute all or any of its shares in CIS General Insurance, the proceeds of sale of CIS General Insurance

and/or the deferred consideration payable to CBGL for the sale of its shares in Co-operative Life Insurance and Asset Management, for the purpose of increasing the capital of the Company. However, even if the PRA were, successfully, to exercise its power under section 192(C) of FSMA in this way, both the timing for receipt of the proceeds of sale of CIS General Insurance and Co-operative Life Insurance and Asset Management and the quantum of the proceeds are uncertain. Furthermore, the trustees of Pace have a guarantee from CIS General Insurance for the liabilities of that scheme, which would need to be released as part of the sale process. It is therefore uncertain how much, if any, proceeds will be generated by CBGL from disposal of CIS General Insurance as a result of this requirement. It is therefore uncertain whether the capital generated from the exercise of the Section 19 Power together with the capital generated from the exercise of this power would produce total Common Equity Tier 1 Capital for the Company of £1.5 billion by the end of 2014, or that this would generate sufficient total capital for the Company to continue to operate as a going concern with the total capital required by the PRA.

Further, there is no certainty that if the Company were to be recapitalised in this manner, without the agreement of Co-operative Group, that it would continue to enjoy the support of Co-operative Group. See the risk factors titled "The Bank will continue to rely on Co-operative Group and the Co-operative brand. Co-operative Group will also continue to exert substantial influence over the Bank", "The Bank's operations are highly dependent on the proper functioning of IT and communication systems. Any significant delay in or failure of the Bank to re-engineer its existing IT platform to meet the requirements of its business strategy may adversely affect the future operational and financial performance of the business", "The Bank relies on the provision of a number of services (including certain critical functions) by Co-operative Group, including IT" and "The Bank is dependent on third party providers of services, IT, software, data and other assets" in section 2 (Risk Factors) at pages 76 to 80 of the Bank T2 Notes Prospectus.

As an alternative, it is possible that the powers of the Resolution Authorities extend to an ability to convert all or part of the £892 million outstanding amount of senior unsecured bonds issued by the Company (**Senior Bonds**) into another class of securities. If the Resolution Authorities concluded that they could exercise their power in this manner it would be possible for sufficient capital to be generated to enable the Company to be resolved as a going concern by converting sufficient Senior Bonds to make up the deficit between the amount of Common Equity Tier 1 Capital generated by converting the Existing Securities and the amount of total capital which the Company requires. However, the Company is not aware whether or not the Resolution Authorities are contemplating the exercise of this power in this manner.

The Company therefore considers that there are material uncertainties as to whether the Company could be successfully resolved under the current terms of the Banking Act such that the Company itself remained a going concern.

In October 2013 HM Treasury published a briefing (the **Treasury Briefing**) on proposed treasury amendments to the Banking Act to introduce a bail in power (the Proposed Bail in Power). The Company understands that the Proposed Bail in Power is due to become law in the first quarter of 2014. The Treasury Briefing contains detailed drafting amendments to the Banking Act which would be needed in order to implement the Proposed Bail in Power. It would, in principle, be open to HM Government to introduce the Proposed Bail in Power as emergency legislation so that it was available to resolve the Company should this become necessary. The Proposed Bail in Power includes the power to make an order which contains a provision for cancelling, modifying or changing the form of a liability owed by the Company, which includes the power to convert a debt security into an equity security. The Treasury Briefing notes that exercise of powers in the course of a bail in should in general respect the creditor hierarchy and the principle of equal treatment of equally ranking creditors and that regulations will be made making clear that a no creditor worse off safeguard is to apply in relation to resolutions using the Proposed Bail in Power. The Company is not aware whether or not HM Government are contemplating the introduction of the Proposed Bail in Power ahead of its scheduled enactment if it proves necessary for the Company to be resolved. The Company considers that there are material uncertainties as to whether such emergency legislation would be introduced, how the Company

would be resolved pursuant to any such legislation and what, if any, recovery Noteholders might receive as a result of such a resolution.

9. Conclusion

For the reasons set out in this Appendix 7 (*Resolution Analysis*), the Company believes that implementation of the Scheme and the Liability Management Exercise is substantially more beneficial to Noteholders than resolution of the Company.

This is the **Directors' report** for The Co-operative Bank plc (Bank). It explains in detail how the Bank has performed during 2012 and sets out a fair review of the business, a balanced and comprehensive analysis of performance, the use of financial and non-financial key performance indicators to explain the progress made, a description of the principal risks and uncertainties faced by the business and an indication of likely future developments.

In preparing the report, the Bank has had regard to the guidance issued by the Financial Reporting Council (formerly the Accounting Standards Board) in its Reporting Statement on narrative reporting. It is intended to provide Shareholders of the Bank and members of the Co-operative Group with a greater understanding of the Bank, its position in the market and its prospects.

In setting out the Bank's main risks and uncertainties, and likely future developments, this report and accounts contains statements which, by their nature, cannot be considered indications of likelihood or certainty. The statements are based on the knowledge and information available at the date of preparation of the Directors' report, and what are believed to be reasonable judgments, and these statements should not be construed as a profit forecast.

About us: a guide to the Co-operative Bank

Who we are

The Co-operative Bank plc is part of the Co-operative Banking Group, providing a **range of financial products and services** to personal and business banking customers across the UK.

The Co-operative Bank plc currently operates under its own brand as well as those of **smile, Platform** and **Britannia**. We offer our services through **339 branches** and **22 corporate banking centres** and via telephone, online and mobile banking.

We are a **leader in the field of ethical investment** and corporate social responsibility. Our customer driven ethical strategy was the first of its kind in our industry and we pursue an active strategy of community involvement.

How do we measure our performance?

The Bank measures its performance over four key areas: **financial**, **customer**, **people** and **process**.

This approach reflects our co-operative difference and helps to ensure that a broad range of stakeholder interests and implications are considered in decision making.

The Board reviews performance evidence against the key performance indicators and our risk appetite.

The following table summarises our performance in 2012 against these key indicators:

Financial

Financial measures focus on profitability and underlying financial strength:

Profit before tax

This is a key measure of our performance and is discussed in the business and financial review.

Loan:deposit ratio

A measure which shows the strength of our liquidity through the ratio of customer assets to customer liabilities.

Core Tier 1 ratio

A key industry measure of financial strength.

Profit before tax

2012	2011
£(673.7)m	£54.2m
Loan:deposit ratio	
2012	2011
92%	94%
Core Tier 1 ratio	
2012	2011
8.8%	9.6%

Customer

Customer measures address the key relationships through which we sustain and grow our business:

Customer advocacy

We aimed to be 8.5% above the level of advocacy achieved by our competitors. We use an external survey to monitor advocacy of customers across the Retail businesses, relative to appropriate peer groups.

Number of primary current account customers

A primary current account customer is defined as one who holds one of our standard current accounts and credits their account with an average of at least £800 per month.

Customer advocacy

odotomor daroodoj				
2012	2011			
+ 9.7%	+10.3%			
Primary current account customers				
2012	2011			
637,000	589,000			

People

People measures reflect the importance of internal engagement:

Colleague engagement

In 2012 we adopted the same survey, timing and methodology for measuring colleague engagement as currently adopted across the other Group businesses. 'Talkback' is now the group-wide colleague engagement measurement tool used to effectively capture and analyse colleague perceptions.

Colleague engagement

2012	2011
68%	n/a

Process

Process measures focus on the efficiency of our business in delivering services to our customers:

Cost:income ratio

This is an efficiency measure reflecting costs in the business in relation to its income.

Cost:income ratio

2012	2011
73.7%	66.2%

Chair's statement

Overview

Like many financial organisations, we are still adjusting to the 'new normal' of protracted low interest rates, anaemic economic recovery and the complex challenges facing the banking and wider financial sector in general.

I opened last year's Chair's statement for the financial accounts by writing about how eventful the past 12 months had been. This has remained the case during 2012. Government action on regulation and governance for the industry and a growing sense of frustration from the public about lack of trust in their banks has meant that this year has been one of the busiest and most challenging we have ever encountered in our history.

I should start by saying that we recognise our reported loss in 2012 is disappointing. There are a number of exceptional factors in the form of corporate impairment losses and PPI costs, but we are also undergoing transformational restructuring as part of the outcome of our strategic review which is focused on enhancing the strength of our core bank. However, as the business moves through this change and we concentrate on leveraging the strength of our brand in relationship banking services for both retail and business customers, I am confident that our continued focus on what is right for our customers and members will provide a strong platform for future growth.

This is reflected in the financials of our core business. Although the issue of trust remained a key theme for the industry in 2012, we have seen the strength of our co-operative model become the catalyst for another jump in new business activity with over 100,000 customers joining us in the summer alone and switching their primary banking relationship to us. This steady growth in our customer base continues, our core business remains profitable and our balance sheet remains robust with good capital ratios, which we will take measures to continue to strengthen, and high levels of liquidity.

With the economic backdrop still fragile, there are no doubt more challenges ahead. However, our commitment to deliver customers and members the right products through industry leading customer service and underpinned by our ethical policy provide us with a strong platform for the future.

Customers

During these continued difficult times we have remained focused on our customers and members; we have never forgotten who we work for or why we are here as a co-operative bank. This year, we were the first bank to remove sales related bonuses, replacing them with customer centric service incentives. I am delighted that other banks saw fit to follow suit.

Our customer advocacy levels remain at rates to which other high street banks can only aspire. The advocacy of our 8,000 plus colleagues also remains at high levels, with our 'Talkback' colleague engagement survey results reaffirming our commitment to our compelling model of operation.

Performance

Although recent 'flight to trust' headlines and statements have allowed us to show more people who we are and what makes us different, we have not been immune from the economic conditions and the impact on our financial performance can be seen in this report. Our financial performance is unsatisfactory compared to previous years and we do not take reporting an operating loss lightly, but our focus on providing the best service to our customers has not altered, and we are confident that our co-operative business model and our strategic focus on growing our core business will see us through the tough times in the UK economy that show no sign of ending anytime soon.

Our strategy to strengthen our retail and business banking operations is backed up by our reported core operating profit of £96.8m (2011: £137.3m)

Growing our business

During 2012, we announced a heads of terms agreement with Lloyds Banking Group for the purchase of 632 branches and associated assets (Verde). We have talked before about the significance of this deal for the Bank and the wider Co-operative Group and we remain committed towards reaching an agreement.

Business changes

As we prepare for the next phase of the Verde transaction, we are also experiencing changes across our Bank in the form of transformation projects that will see the strengthening of our structures and governance. Our risk management framework has undergone a significant review with a new model now in place that will improve all elements of risk management related to our operations. We have made a number of new appointments in the past 12 months and I am delighted to welcome Richard Coates to the Board, as our new Chair of the Audit Committee in 2013. Peter Harvey, who has been with us since the Britannia merger, has become Deputy Chair, replacing Rodney Baker-Bates who retired in July. Paul Hewitt also leaves us after nine years on the Board. I wish Rodney and Paul well and thank them for all the work they have done during their tenure. We will also shortly be welcoming Graeme Hardie to the Bank Board and are in the process of strengthening the management team.

Our way of doing business

In my role as Chair I am responsible for ensuring that the Board operates in an effective way that is right for our members and those with a stake in our business. This involves putting a robust framework in place which supports the decision making process of Board members while at the same time ensuring we adhere to our governance structure. You will find details of the governance structure and arrangements on page 13.

Our continuing commitment to ethical banking, supporting our communities and 'doing the right thing' has never been more pertinent than today. In 2012 we launched the 'Lend with Care' scheme which has, within its first year, seen millions of pounds in social loans awarded to co-operatives and small businesses in the developing world. I am proud to chair an organisation that has done so much to help those who need it most. At Co-operative Group level our community fund continues to benefit local areas across the UK, with 2,709 groups benefiting during 2012.

Towards the end of 2012, we announced a new model for our membership which will see a much clearer structure for Co-operative members who trade with Banking Group businesses. The process in food stores has always been a straightforward one, and now our millions of bank customers will benefit from an equally straightforward system that rewards their commitment to trading with the Group.

Looking forward

We fully acknowledge our financial performance is disappointing despite the best efforts of all those who work for and with us. On a broader note prospects for the sector are unlikely to improve in the near future and our Bank faces further challenges around cost reduction and controlling impairment risk as we look to build on the sustainability of our core banking operations. However, we have much to look forward to as we strengthen our profitable core business, enhance our retail offer and simplify our high street presence under one Co-operative brand.

During 2012 we saw a steady stream of new customers come to us looking for a different level of service from a name they can trust. We believe this will continue, as people see there is an alternative to the big high street names.

Chief Executive's overview

The banking environment

It is no exaggeration to say that the past 12 months have been some of the most turbulent in British banking. While we have not been involved in some of the more high profile issues affecting the industry, we have not been immune to many of the challenges facing it as we strive to become the compelling co-operative alternative on the high street.

Our overall financial performance, whilst undoubtedly disappointing, reflects this challenge. The outcome of an ongoing strategic review designed to build on where our co-operative approach has a competitive edge in the market has seen us, in line with the banking sector in general, segment some activities as non-core business and concentrate on managing them for value and targeted for run-down or exit. Our focus is therefore on building on the strength of our brand as a relationship bank in both the retail and business space whilst at the same time de-risking the non-core assets to further strengthen the balance sheet. These non-core activities, particularly the non-prime residential mortgages and commercial real estate assets originating predominately from the non-member Britannia business acquired in 2009, contain the majority of the impairment risk for the Bank and substantial increases in provision have been made for these corporate impairments for the second half of 2012 in light of the continued and persistent weakness in the economy.

However, below these overall results sits a more positive financial picture for the core business. Our core business delivered a solid result characterised by industry leading levels of customer service, a high degree of current account switching from other banks, low levels of impairment and the Co-operative's unique customer led ethical policy. Our core business remains profitable, while our balance sheet is robust. However, we are not complacent about our financial strength and our strategic focus for the medium term is directed at implementing measures to enhance the strength of our capital ratios. In addition to a risk mitigation transaction executed since the year end, these include strengthening the management team and engaging a major investment bank to support on a range of balance sheet deleverage options. Further to the signing of the sale and purchase agreement for the sale of the Co-operative Banking Group's life insurance business which, subject to regulatory approval, is expected to generate a significant release of capital, the strategic review will encompass a review of the scale and composition of the financial services group. Such measures recognise the ongoing uncertain economic environment and the steps required to bolster the balance sheet for the benefits of our customers and members.

There is no doubt that the economy in this country remains fragile. We have seen a double dip recession this year and the fallout from the banking crisis continues. Against this, we remain a resilient, member owned and customer centred organisation which continues to enjoy excellent levels of customer advocacy, employee engagement and a growing primary current account base. As such, we believe we have a solid platform to broaden our reach and appeal in the UK banking sector, either through acquisition of the Lloyd's Verde assets or through continued organic growth.

Performance

Although we have protected ourselves from a number of potential banking pitfalls, and our exposure to peripheral European debt remains low, this has been a challenging year for the business. Whilst our core business delivered a solid result, the overall results reflect a number of charges relating to corporate impairment, further PPI provision and our own transformation programme which have significantly impacted profits across our business.

We are reporting an overall operating loss of £280.5m (2011: profit of £141.1m) and a loss before tax of £673.7m (2011 profit of £54.2m). In addition to further PPI provision and re-visiting the value ascribed to investments made to date in our transformation plan, we have increased the level of provisioning for impaired loans in light of weak economic recovery prospects relating primarily to commercial real estate assets originating from the Britannia book of business. As a result, these factors led to a significant increase in overall provisions which will inevitably impact on the overall short term profitability of the business. Against this, our core business reported a £96.8m operating profit, which although down on 2011 is a creditable performance in difficult economic circumstances and provides a strong platform for future growth.

These results are disappointing, but are framed by the outcome of a recent strategic review designed to build on the strength of the Bank's core retail and business operations and at the same time increase our focus on de-risking the non-core assets in order to further strengthen the balance sheet. This review, supported by a strengthened management team and premier league advisory partners, will deliver capital benefits from a range of initiatives including a review of the composition of our wider Banking Group and the deleveraging of our balance sheet. The Bank's underlying financial strength remains intact and we will continue our strategy for growth in areas where we can evidence a compelling co-operative solution, supporting retail and business customers and offering them products and services that are right for them.

Our customers

We remain unwavering in our commitment to our customers, offering them products and services that are right for them. In addition to removing our sales related performance bonuses this year, we also put in place a range of initiatives during 2012 that really demonstrate our commitment to great customer service. This included removing overdraft fees for the first three months of 2012 and giving first time buyers a helping hand with our flexible mortgage products. We have also stepped up our digital access to customer accounts with the launch of our mobile banking application on iPhone, BlackBerry and Android handsets. Customers can access their account information and locate branches and ATMs. Development of this product will continue in 2013.

In 2012 we provided $\mathfrak L2bn$ of direct new retail lending, with 55% relating to house purchase and just under a third going to first time buyers. We have also seen record numbers of customers switch to our current accounts, with over 100,000 new customers joining us over the summer and an 8.2% increase in new primary account customers in the year. To support customers with switching, our $\mathfrak L1,000$ overdraft buffer has helped take the pain out of the process.

Our service and product credentials were reaffirmed when we won a Which? Customer Service Award, and 'Best Current Account' at the Moneysupermarket awards. As well as external plaudits we have continued to see high levels of customer advocacy with a 9.7% advantage over our top five competitors.

Project Verde

We believe the ethos of our business provides a solid platform to broaden our reach and appeal in the UK banking sector, whether that is through the Lloyd's deal (referred to as Project Verde) or through continued organic growth. Project Verde would see the equivalent of ten years' growth in one business deal and the transaction would see us take a 7% market share of UK personal current accounts, with around 1,000 branches UK wide. We remain in active discussions with Lloyds Banking Group regarding the sale of its Verde business and both parties remain committed towards reaching an agreement. We have always been clear that any deal of this nature is complex and must satisfy the exacting interests of our customers and members.

Sustainability

We are more than just a bank; we are a co-operative and run our business for our members. This year our sustainability credentials were recognised through the accolade of Europe's Most Sustainable Bank for a third consecutive year. Alongside the Community and Environmental Responsibility award in Management Today's Most Admired Companies Survey 2012, we have much to be proud of. The way we approach every opportunity allows us to rightly boast about our sustainability credentials. Each year we turn away millions of pounds of business from countries and organisations that do not fit our ethical operating framework.

Outlook

There is little doubt that the economic climate will continue to cause concern in the year ahead and, like our customers and the banking industry in general, we will face further challenges as we navigate this. However, we remain a resilient organisation driven by developing deep relationships with our customers over the long term. We believe this customer relationship model provides us with a strong platform moving forward and will enable us to continue to broaden our appeal in 2013 and beyond.

Barry Tootell, Chief Executive

Business and financial review

Overview

Core Non-core	96.8 (377.3)	137.3 3.8	(45.0)
Operating result	(280.5)	141.1	(421.6)
(Loss)/profit before taxation	(673.7)	54.2	(727.9)

During the last six months, forecasts for the UK economic outlook have been revised with significant recovery now not expected until 2018. This prolonged economic downturn (the longest in a century) has been a major factor in 2012 being an extremely challenging year for the Co-operative Bank ('the Bank'), reflected in its statutory loss of £673.7m (2011: profit of £54.2m). The outcome of an ongoing strategic review has seen the Bank, in line with the banking sector in general, segment some activities as non-core business and concentrate on managing them for value and targeted for run down or exit. The strategy is designed to both build on the strength of the Bank's core retail and business banking operations, where it can evidence a compelling co-operative alternative to its peer group, whilst at the same time de-risking the non-core assets in order to further strengthen the balance sheet.

The core business, reflecting the current strategy and risk appetite of the Bank, delivered an operating profit of $\mathfrak{L}96.8$ m (2011: $\mathfrak{L}137.3$ m), which, while lower than 2011, provides a solid platform for future growth. The non-core business, those activities not congruent with the current strategy, which are managed for value and targeted for run down or exit, generated an operating loss of $\mathfrak{L}377.3$ m (2011: profit of $\mathfrak{L}3.8$ m). As a result, the combined operating loss was $\mathfrak{L}280.5$ m (2011: profit of $\mathfrak{L}141.1$ m).

As a result of the financial performance noted above, the Core Tier 1 ratio has reduced to 8.8% (2011: 9.6%). Since the year end, the Bank has completed a securitisation transaction to reduce risk on the balance sheet, which has improved the Core Tier 1 ratio by 0.4%, and which would increase the year end ratio to 9.2% on a pro forma basis. This transaction is one of a range of actions targeted, as part of a strategic review, at improving our capital strength. The completion in 2013 of the sale of the Life and Savings business owned by the Co-operative Banking Group should, subject to regulatory approval, further strengthen the capital position.

Going forward, as the Bank deleverages the balance sheet (facilitated by the additional impairment charges taken in 2012), we will build upon the strength of the core business through a simplification agenda, conservative credit risk appetite and long term growth strategy focused on our core relationship banking franchises in the retail and business banking space. This includes the review of the branch network, to ensure that it meets the needs of our customers and is operating in the most efficient and cost-effective way, together with the unification of the network under one single Co-operative brand. These measures, combined with the potential acquisition of Lloyds Banking Group branches ('Project Verde'), will ensure that we make solid progress towards our clear strategic goal of becoming the compelling co-operative alternative.

The deterioration in the result for the year was principally driven by the following factors:

Credit impairment on non-core assets: in light of the continued and
persistent weakness in the economy, the directors have reassessed the
carrying value of the customer loan portfolios of the Bank. This has resulted
in an impairment charge of £351.1m during the year (2011: £23.1m),
principally relating to the non-core Corporate business. The non-core
business contains the majority of the impairment risk for the Bank. It includes
non-prime residential mortgages and commercial real estate assets, which
originated from the non-member Britannia business prior to merger;

- Intangible asset impairment: the directors have re-evaluated the carrying
 value of the investment made to date in developing our new banking
 platform, and have concluded that a write down of £150.0m is required.
 The impact of the continuing and prolonged economic downturn on the
 future value stream from the new banking platform now indicates that the
 carrying value should be reduced;
- PPI: in line with the rest of the banking industry, the Bank saw a continued increase in the volume of PPI complaints in 2012. As a result, the charge of £40.0m reported at the half year has been increased by a further £109.7m, to cover the anticipated cost of customer redress. This increases the total estimated cost of redress to £244.0m:
- Continued economic downturn: the reduction in operating profit within the core business from £137.3m in 2011 to £96.8m in 2012 was broadly attributable to the continued economic downturn. Margins remain under pressure as the result of prolonged low interest rates.

Liquidity remains strong. The loan to deposit ratio was 92% at the year end (2011: 94%), illustrating that lending remains more than sufficiently funded by deposits.

Financial performance

	2012 £m	2011 £m	Change £m
Income	771.2	817.6	(46.4)
Operating costs – steady state	(568.2)	(548.2)	(20.0)
Operating costs – strategic initiatives	(14.8)	(13.4)	(1.4)
Impairment losses	(468.7)	(114.9)	(353.8)
Operating result	(280.5)	141.1	(421.6)
Significant items	(85.1)	(53.3)	(31.8)
Intangible asset impairment	(150.0)	_	(150.0)
PPI provision	(149.7)	(90.0)	(59.7)
Share of post tax profits from joint ventures	1.2	0.2	1.0
Financial Services Compensation Scheme levies	(24.8)	(14.5)	(10.3)
Fair value amortisation	15.2	86.3	(71.1)
(Loss)/profit before taxation and distributions	(673.7)	69.8	(743.5)
Membership dividend	-	(15.6)	15.6
(Loss)/profit before taxation	(673.7)	54.2	(727.9)

The overall operating result fell to a loss of £280.5m in 2012 from a profit of £141.1m in 2011. The core business delivered an operating profit of £96.8m (2011: £137.3m), which, while lower than 2011, provides a solid platform for future growth. The non-core business generated an operating loss of £377.3m (2011: profit of £3.8m). The loss before taxation was £673.7m (2011: profit of £54.2m).

2012 income (excluding fair value amortisation) fell by £46.4m, reflecting the cost of retained and incremental funding raised during the year in the continuing challenging market conditions. The reduction in income arose principally in the non-core business, with income levels in the core business £11.9m higher than 2011. Total income included gains on a number of Treasury transactions of £43.0m (2011: £37.2m). 2011 income also included a non-recurring benefit of £20.0m, relating to a reduction in the total credit risk expected over the life of the Optimum book.

Operating costs (excluding fair value amortisation and strategic investment costs) of $\mathfrak{L}568.2m$ were $\mathfrak{L}20.0m$ higher than 2011. Excluding the impact of inflation this is an increase of less than 1%. In part due to depressed income levels, we recognise that our cost to income ratio remains above industry benchmarks. Cost management is a key area of focus, and a number of initiatives continue. We have already announced plans to merge branches where we have multiple sites within close proximity. However, as a mutual, with a strong customer service ethic, we may not pursue the lowest costs at the expense of poor customer service.

As reported at the half year, impairment losses continue to reflect the strains on our customers' ability to service their loans and these challenges have intensified in the second half of the year, particularly in the corporate sector. As previously noted, in light of the current strategic review, with meaningful economic recovery now not expected until 2018, the directors have reconsidered the carrying value of the Bank's loans, which has led to a substantial impairment charge of £468.7m in the year, principally relating to the non-core Corporate business.

The loss before taxation of £673.7m (2011: profit of £54.2m) was after a recharge for intangible asset impairment of £150.0m (2011: £nil). As reported at the half year, while the Bank has been pursuing Project Verde, progress on the transformation plan has been restrained and spend reduced in those areas where Project Verde could impact the plans of the Bank, to minimise the risk of redundant investment. The Bank has revisited the value ascribed to the investments made in developing the new banking systems, and has written down the carrying value of the asset by £150.0m. In the event of concluding the sale and purchase agreement with Lloyds, the Bank will revisit the value ascribed to the investments made in the transformation plan to date. Should the deal with Lloyds not conclude successfully, the intention is to reinvigorate the project, with further investment made to complete the development of the systems that will then be used to drive the business forwards.

Significant items of £47.0m (2011: £53.3m) were incurred during the year, primarily associated with the investment in the Bank's transformation and integration programmes. In addition, a further £38.1m of transaction costs were incurred in relation to Project Verde.

A provision for PPI claims of £149.7m was made during the year (2011: £90.0m). As previously noted, during 2012 there has been an increase in the volume of complaints received, and as a result the provision held has been increased to cover the anticipated customer redress and associated costs. This increases the total estimated cost to £244.0m.

The Financial Services Compensation Scheme levy increased from £14.5m in 2011 to £24.8m in 2012. This was principally because the scheme has now started to charge the banking industry for the capital losses incurred in supporting failed institutions. Previously the scheme only charged the sector for the interest on its support.

The loss before taxation of $\mathfrak{L}673.7m$ was after a benefit of $\mathfrak{L}15.2m$ (2011: $\mathfrak{L}86.3m$) arising on fair value amortisation. Since the merger with Britannia Building Society, the profile of these net releases to the income statement has gradually fallen, in line with expectations, and the reduction during the year reflects this trend.

Balance sheet

Despite the year's profit performance and difficult external conditions, the underlying core business remains strong. The balance sheet has been actively managed to ensure a balance between margin, capital and liquidity. Total assets increased slightly compared with December 2011. The Bank has maintained its focus on supporting its customers: £2.6bn has been lent to Retail mortgage customers (2011: £1.4bn) while loans to businesses totalled £1.3bn (2011: £1.2bn).

Retail asset balances remained stable, at £17.7bn (2011: £17.7bn), while Corporate core assets increased marginally from £5.2bn at the end of 2011 to £5.4bn at the end of 2012, reflecting the new lending undertaken in the year. The non-core asset portfolios reduced as planned during the year, with net non-core Corporate balances falling from £3.3bn to £2.8bn, and the Optimum portfolio reducing from £8.0bn to £7.6bn. Retail and Corporate deposits remained relatively stable when compared to the prior year.

The year end loan to deposit ratio was strong, at 92% (2011: 94%).

The Bank has continued to access the capital markets, as part of its diversified funding sources. Early in the third quarter of 2012, £650m was raised via its third 'Silk Road' prime mortgage securitisation since the merger with Britannia Building Society in 2009, and the Bank raised an additional €500m of senior unsecured debt in the final quarter. The exposure of the Bank to peripheral eurozone debt is low and has had little direct impact on its business.

The capital position has been impacted by the statutory loss for the year, with a Core Tier 1 ratio of 8.8% (2011: 9.6%). The total capital ratio was 14.4% (2011: 14.7%), with a Tier 1 ratio of 9.4% (2011: 10.1%). Further detail on the capital position of the Bank can be found in the capital management section on page 80. As noted above, since the year end, the Bank has completed a securitisation transaction to reduce risk on the balance sheet, which would improve the year end Core Tier 1 ratio to 9.2% on a pro forma basis.

Our businesses

	2012 £m	2011 £m	Change £m
Retail	50.1	92.1	(42.0)
Corporate and Business Banking – core	3.7	12.5	(8.8)
Treasury/other	43.0	32.7	10.3
Core operating result	96.8	137.3	(40.5)
Non-core	(377.3)	3.8	(381.1)
Operating result	(280.5)	141.1	(421.6)

The Bank is managed through two distinct divisions.

The 'Core' business represents activity consistent with the strategy and risk appetite for the Bank. This includes the Retail, core Corporate and Business Banking, and Treasury/other segments.

The Retail Banking business (trading as the Co-operative Bank, Britannia and **smile**) offers a range of financial products and services to individuals and households throughout the UK. Retail also includes Platform (the intermediary mortgage business).

Core Corporate and Business Banking comprises corporate banking, business banking, and business services, and effectively consists of all the key business to business elements of the Bank.

Included in the Treasury/other segment are the results of the treasury activities of the business and the results of Unity Trust Bank.

'Non-Core' business lines include activities not congruent with the current strategy of the Bank, which are managed for value and targeted for run down or exit. These non-core lines contain the majority of the impairment risk for the Bank, and predominantly include the Corporate non-core, Optimum (the closed book of intermediary and acquired loan book assets) and Illius (the residential property company) businesses which originated from the non-member Britannia business prior to merger.

Business and financial review continued

Retail

	2012 £m	2011 £m	Change £m
Net interest income	399.9	400.5	(0.6)
Non-interest income	135.8	149.5	(13.7)
Net income	535.7	550.0	(14.3)
Operating costs – steady state	(434.6)	(414.0)	(20.6)
Operating costs – strategic initiatives	(9.6)	(9.5)	(0.1)
Impairment losses	(41.4)	(34.4)	(7.0)
Operating result	50.1	92.1	(42.0)

The Retail operating result for 2012 of £50.1m was £42.0m lower than 2011.

Interest income decreased by £0.6m compared to 2011, as improving asset margins were offset by increased costs of retail deposits in a highly competitive market.

Non-interest income fell by $\mathfrak{L}13.7\text{m}$ year on year as a result of reduced revenue from legacy insurance products, merchant interchange fees and cash advances on credit cards. We no longer sell third party general insurance products through our branches, only co-operative products. All new business insurance income is now included within the Bank's fellow subsidiary general insurance business.

Underlying credit performance on secured retail lending continued to improve, reflecting a conservative approach to risk. Despite the ongoing difficulties within the UK economy, asset quality has been maintained with levels of late residential mortgage arrears (>2.5% of balance) unchanged at 0.3%. The Bank remains focused on delivering high quality mortgage assets, with 61.0% loan to value ratio on new lending and 44.3% across the portfolio. However, in the context of the prolonged economic environment further impairment provisions have been required, principally against unsecured balances.

Asset balances remained stable, with the Bank's increased share of new lending offsetting limited demand for credit in the market. 55% of the £2bn of direct new lending in 2012 related to house purchases, of which just under a third was provided to first time buyers. Liquidity remains very strong, with a loan to deposit ratio in line with the previous year.

Corporate and Business Banking – core

	2012 £m	2011 £m	Change £m
Net interest income	108.4	101.7	6.7
Non-interest income	55.2	51.5	3.7
Net income	163.6	153.2	10.4
Operating costs – steady state	(77.3)	(77.1)	(0.2)
Operating costs – strategic initiatives	(2.7)	(2.1)	(0.6)
Impairment losses	(79.9)	(61.5)	(18.4)
Operating result	3.7	12.5	(8.8)

Our core Corporate and Business Banking operation delivered an operating profit of $\mathfrak L3.7m$ during 2012, $\mathfrak L8.8m$ lower than 2011 (2011: $\mathfrak L12.5m$) reflecting higher impairment charges, which have been partly offset by a $\mathfrak L10.4m$ growth in income.

Net interest income, at £108.4m, increased by £6.7m mainly as a result of improved asset margins partially offset by increased costs of fixed term deposits. Other income increased by £3.7m driven by higher core business activity levels.

As a result of continued weak growth and an uncertain economic environment, the impairment charges rose from $\mathfrak{L}61.5$ m in 2011 to $\mathfrak{L}79.9$ m in 2012, mainly due to a strengthening of collective provisions.

The business has continued to lend, supporting existing customers and winning selective, high quality new business. We also saw a marked increase in new business banking account applications as testament to the strength of our relationship banking proposition.

Treasury/other businesses

The main component of the Treasury/other business segment, the Treasury operation, has continued to deliver on its core responsibilities of ensuring a strong liquidity base, providing diverse sources of wholesale funding to the Bank, managing market risk and delivering an appropriate return on the investment portfolio.

Net interest income was negatively impacted by increased investment in highly liquid, low risk assets in line with our cautious risk appetite. In addition, net interest income reflects the impact of additional term funding, which included a covered bond issuance towards the end of 2011, the 'Silk Road' prime mortgage securitisation and a senior unsecured debt issuance in the second half of 2012.

Non-interest income was favourably impacted by a restructuring of certain Lower Tier 2 securities in December 2012, generating a benefit of £18.0m. The Treasury result further benefited from gains on the sale of Treasury assets of £25.0m (2011: £37.2m) as part of reshaping the investment portfolio.

Non-core business

	2012 £m	2011 £m	Change £m
Net interest income	(13.0)	46.2	(59.2)
Non-interest income	18.1	17.2	0.9
Net income	5.1	63.4	(58.3)
Operating costs – steady state	(30.5)	(35.4)	4.9
Operating costs – strategic initiatives	(8.0)	(1.1)	0.3
Impairment losses	(351.1)	(23.1)	(328.0)
Operating result	(377.3)	3.8	(381.1)

The non-core operating result for 2012 was a loss of £377.3m (2011: profit of £3.8m). This comprised a loss of £372.2m (2011: loss of £50.0m) for the non-core Corporate portfolio, a £3.2m loss (2011: profit of £56.9m) for Optimum and a £1.9m loss (2011: loss of £3.1m) for Illius. As previously noted, in light of any real economic recovery now not expected till 2018, the impact of difficult trading conditions for some of our customers and to reflect the risks associated with higher loan to value assets, the directors have reconsidered the carrying value of the Bank's loans, which has led to the significant additional impairment charges principally relating to the non-core Corporate business.

Non-core Corporate

The non-core Corporate business delivered an operating loss of £372.2m (2011: loss of £50.0m) in 2012. The significant increase in operating loss predominantly reflected the additional impairment charges noted above, which are concentrated in commercial real estate exposures. Approximately £200m of the increase in impairments arose in a relatively small number of major loans in the second half of the year. The remainder of the increase was mainly due to the impact of the prolonged poor economic outlook on our provisioning estimates. Income has reduced reflecting the higher funding costs borne by this portfolio with little opportunity to increase asset margins to offset this.

We are developing the strategy for the management of this portfolio to optimise its capital consumption and profitability through a variety of deleverage, risk transfer and asset sale options.

Optimum

In 2012, the Optimum portfolio, a closed book of intermediary and acquired mortgage book assets, reduced in size, as planned, from £8.0bn to £7.6bn, and delivered a loss of £3.2m (2011: profit of £56.9m). The fall in profitability this year was due to the increase in the cost of funding of this book of assets, partly associated with the relatively long expected lives of much of this book, and also to a lesser extent reflected the additional impairment charges noted above. The 2011 result also included a non-recurring benefit of £20.0m.

Despite the ongoing difficulties within the UK economy, asset quality has improved modestly with levels of late residential mortgage arrears (>2.5% of balance) reducing from 3.59% in 2011 to 2.72% at the end of 2012.

Support for customers

Recent media attention on a number of issues for the industry has led to a further increase in customers turning to the Bank. The number of customers who consider the Co-operative Bank their main bank, key to the continued overall growth of the business, has increased further, with the number of primary current accounts increasing by 8.2% during 2012.

During these difficult times, the Bank has maintained its focus on supporting its customers. $\pounds 2.8$ bn was lent to Retail mortgage customers during the year (2011: $\pounds 1.6$ bn), while $\pounds 1.3$ bn (2011: $\pounds 1.2$ bn) was lent to businesses. The Bank has provided additional support for first time buyers at the end of the stamp duty holiday by removing upfront fees on a range of mortgage products and offering a 90% LTV mortgage. The Co-operative Bank was the first major bank to focus its targets for the branch network staff on customer service, rather than sales.

It is our intention to participate in the funding for lending scheme in 2013 in line with our core relationship banking strategy.

Since the launch of the Bank's mobile banking service this summer, take up has exceeded expectations and this now has over 100,000 users, with each customer accessing the application four times a week on average.

The potential mis-selling of derivatives to corporate and business banking customers has been much publicised during 2012. The Bank voluntarily joined the FSA review of these sales and will be carrying out further work in the next stage of the FSA review. The Bank sold only small numbers of simple products to its customers to help them manage interest rate risk. While the review is still in course, the directors believe that should any sales be found to be inappropriate, redress payments would not be material.

The Bank continues to focus on building a relationship banking business where the customer is at the heart of everything. Customer advocacy levels remain strong, testifying to the high degree of trust placed in the Bank by its customers. As at December 2012, advocacy levels for the Co-operative Banking Group were 9.7% higher than the average of the top five competitors for the business. Which? members have rated the customer service provided by the Bank better than any of the major high street banks and building societies, and the Bank won a number of awards at the Moneywise Customer Service Awards in 2012.

The Bank's commitment to sustainability has again been recognised. For the third year running the Bank has been named 'Europe's most sustainable Bank' by the Financial Times. The Bank was also recognised as the leader in Management Today's Most Admired Companies survey 2012 for Community and Environmental Responsibility.

Outlook

Prospects for the sector are unlikely to improve in the near future, and the Bank faces formidable challenges. Recent indications are that any meaningful economic recovery will be delayed for a number of years, offering little scope to improve margins and requiring a reduction in costs as well as control of impairment risk. The Bank remains committed to a strategy for growth as well as de-risking the non-core assets. We are working to strengthen our profitable core business, enhance our retail offer and simplify our high street presence under one Co-operative brand. In the short term, while market conditions remain difficult, we will re-double our focus on cost management, improving our capital strength, deleveraging the balance sheet and controlling impairment risk by actively managing our non-core business for value.

In the meantime, as part of broadening our reach and appeal in the UK banking sector, the Bank continues to pursue the opportunity to acquire the Verde business from Lloyds Banking Group. The Bank remains confident in its long term strategy to deliver a compelling co-operative alternative on the high street founded on strong relationships with its customers, the unified brand and the transformation of the branch network, which provide a solid platform for future growth in its core relationship banking operations.

Social goals

Social goals have been firmly embedded in our approach to business since our inception and, amid increasing calls for more responsible business, continue to earn consumer trust. As part of the Co-operative Group, our members expect that not only do ethics remain at our core but that we continue to deliver a world-class social goals programme.

In 2012, the UN International Year of Co-operatives, our co-operative and ethics-led approach continued to stand us apart. We were recognised with a raft of awards and commendations, not least the Financial Times Award for the Most Sustainable Bank in Europe — for the third year running, a Queens Award for Enterprise in Sustainable Development, and a top rank in Business in the Community's Corporate Responsibility Index.

Our principles in practice

We have always had a purpose beyond profit. As part of the Co-operative Group, we are distinct from other major UK businesses in that we are owned by our members, and are held accountable to them through our democratic structure.

The Group's Ethical Plan sets out its commitments to social responsibility and sustainability, with targets across eight priority areas. We review these annually with our democratically elected members through the Group Values and Principles Committee to ensure that we continue to show the way forward for corporate sustainable development in the UK.

For over 15 years we've produced an annual Sustainability Report. Our reporting is renowned for its openness and honesty, and accolades in 2012 place us amongst the most respected reporters worldwide.

Performance overview

Responsible banking

We recognise that responsible banking is crucial for sustainable development and we are the only UK bank to operate a customer-led Ethical Policy.

Since the launch of the policy in 1992, we have declined over $\mathfrak{L}1.2$ bn of lending to business activities which our customers deem unethical. At the same time, we're dedicated to supporting progressive social and environmental projects. In particular, by the end of 2012, we had committed $\mathfrak{L}827.6$ m of our $\mathfrak{L}1$ bn fund for renewable energy and energy efficiency schemes.

The home and motor insurance products we sell, wherein the underlying investments are screened against the Bank's Ethical Policy, continue to set the bar for ethical insurance in the UK. And through our range of charity credit cards our customers donated $\pounds 1.25m$ to charity in 2012.

Our commitment to social inclusion extends through our range of products and services, from accounts for prisoners to our support for small businesses in deprived areas. We continue to be the only bank in the UK to offer a current account for credit union members, in partnership with the Association of British Credit Unions Ltd and provide facilities to 60% of the credit union sector.

In 2012, our reputation for responsible banking led to recognition from the general public as both the UK's most trusted bank 1 and as the leader amongst financial services businesses for social responsibility 2 .

Keeping communities thriving

Together with members and colleagues, in 2012, the Co-operative supported over 10,000 initiatives in our communities; that's the equivalent of one initiative every hour of every day, all year long.

The Co-operative Membership Community Fund supports local groups and voluntary organisations throughout the UK, by awarding small grants. In 2012, we saw a significant increase in both the number of awards made and the amount donated, with 2,709 groups benefitting.

In 2012, over 46,000 Co-operative Group colleagues and members voted for The Carer's Trust to be our Charity of the Year partner. Throughout 2013, colleagues and members will be working with us to raise money to help 20,000 young adult carers across the UK.

Supporting co-operatives

At the end of 2012, over 1,000 co-operative businesses had benefited from the services of The Co-operative Enterprise Hub. The Hub, which delivers a unique professional business advisory and training service for co-operatives, expanded its remit in 2012 to enable renewable energy co-operatives to access specialist support. Also in 2012 the Hub launched The Co-operative Community Shares Fund, to help communities raise finance through community share offers.

In 2012, we also launched an inspiring street gallery, graphic novel and film to take the message of co-operation to new audiences.

¹ YouGov SixthSense, 'Trust in Financial Services', April 2012. 2,060 representative UK adults (aged 18+).

² Research is conducted on behalf of the Co-operative Group on a quarterly basis and is based on unprompted responses from a nationally representative sample of approximately 6,000 members of the general public (aged 18+).

Inspiring young people

The Co-operative's Inspiring Young People programme aims to benefit one million young people by 2014, and we are helping to bring about a cultural shift in the way that young people are viewed and treated in the UK.

Within the programme, Skills4Schools promotes two education initiatives, Number Partners and Fit4finance, to improve numeracy and financial literacy among primary and secondary school pupils.

Green Schools Revolution brings inspiring and engaging activities on key sustainability themes to school classrooms. With over 5,200 schools registered, we are well on our way to achieve our target to engage 6,000 schools by 2014.

The Co-operative Group is also working to progress its Co-operative Academies, delivering an innovative curriculum, with a values-led ethos. This forms part of wider work supporting Co-operative Schools, of which there are 388.

Protecting the environment

In line with customer expectations our Ethical Policy establishes that we will not lend to businesses or projects that do not meet our environmental standards, and we have declined £76m of finance to such projects in 2012. At the same time, within our £1bn commitment to fund energy efficiency and renewables, we have set a target to dedicate £100m to small scale community renewable opportunities.

Our Clean Energy Revolution campaign seeks to end the use of unconventional fuels and inspire community energy growth, where communities own, control and benefit from their own renewable energy projects.

2012 was particularly noteworthy for the Government announcement that mandatory greenhouse gas reporting would become a reality for UK quoted companies in 2013. The Co-operative has long campaigned for the introduction of such regulation and will continue to lobby for such mandation to apply to all large businesses.

The Group is on track to achieve its target of 50% reduction in direct greenhouse gas emissions by 2020, as reported in the Co-operative Group Annual Report and Accounts. Further, construction of the Group's new flagship office building in Manchester was completed in 2012, setting new standards in sustainable design, construction and operation.

In 2012, The Co-operative Bank re-achieved certification to the ISO 14001 standard and we are still the only financial services organisation in the world to achieve this leading standard across all business activities and products.

Tackling global poverty

We continue to strive for a fairer world, where basic human needs are met and rights respected. We support microfinance institutions in 28 countries across the globe with a £25m fund to provide small loans to people in some of the world's poorest countries. Our charity credit cards have enabled customers to raise a staggering £718,206 in 2012 for organisations tackling global poverty and human rights issues, such as Oxfam and Amnesty International. And in line with our customer-led Ethical Policy, we declined £27m of finance for business activities which conflicted with our statements on human rights and labour standards in 2012.

In partnership with CARE International UK, the Co-operative Group supports lendwithcare.org, which allows people in the UK to lend directly to entrepreneurs in the developing world, helping them work their way out of poverty. As at the end of 2012 $\pounds 1.6 \mathrm{m}$ had been lent, and our aim is to facilitate over 100,000 loans by the end of 2013. And through The Global Development Co-operative, we're increasing funding to support co-operatives in the developing world, providing low cost loans for capital and infrastructure projects.

The Board

Non-Executive Directors:

Paul Flowers (BA (Hons), Cd'EO (Geneva), FRSA, FCIBS, FRGS)

Age 62. Joined the Board in 2009 and appointed Chair in 2010. Deputy Chair of Co-operative Group Limited. Superintendent Methodist Minister. Member of the Co-operative Group North Regional Board. Chair of Co-operative Banking Group Limited.

Duncan Bowdler (BSc (Hons) Biochemistry)

Age 54. Joined the Board in 2009. Trade and Legislation Manager. Member of the Co-operative Group North West and North Midlands Regional Board. Non-Executive Director of Co-operative Group Limited and Co-operative Banking Group Limited.

Richard Coates (BSc (Econ), FCA)

Age 61. Joined the Board in 2013. Non-Executive Director of Police Mutual Assurance Society. Non-Executive Director of Co-operative Banking Group Limited.

David Davies (BSc (Econ), FIA)

Age 65. Joined the Board in 2003, appointed Deputy Chair in 2010 and together with the other Deputy Chair, Peter Harvey, fulfils the role of Senior Independent Director. Qualified actuary. Chair of Pace Pension Scheme and Nortel Networks Pension Scheme in the UK. Non-Executive Director of Interglobal Insurance Company Limited. Non-Executive Director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Anne Gunther (BSc (Hons), MBA, ACIB, FCIBS)

Age 58. Joined the Board in 2011. A career retail banker, most recently as Chief Executive of Standard Life Bank and then Chief Executive of Norwich and Peterborough Building Society to secure its merger with the Yorkshire Building Society. Chair of Warwick Business School. Non-Executive Director MBNA Limited and Non-Executive Director of (NEW) Devon NHS Clinical Commissioning Group. Non-Executive Director of Co-operative Banking Group Limited.

Peter Harvey (ACIB, Dip FS)

Age 57. Joined the Board in 2009 appointed Deputy Chair in 2012 and together with the other Deputy Chair, David Davies, fulfils the role of Senior Independent Director. Non-Executive Director of Marshalls Holdings Limited. Non-Executive Director of Co-operative Banking Group Limited.

Merlyn Lowther (BSc (Hons), MBA, FCIB)

Age 59. Joined the Board in 2011. Chief Cashier of the Bank of England from 1999 to 2004. Non-Executive Director of Schroders plc. Trustee of the Winston Churchill Memorial Trust and The Henry Smith Charity. Non-Executive Director of Co-operative Banking Group Limited.

Peter Marks CBE

Age 63. Joined the Board in 2009. Group Chief Executive of Co-operative Group Limited. Named Orange Leader of the Year 2009 in the National Business Awards. Entire working life spent within the Co-operative Movement. Instrumental in bringing about a number of major co-operative mergers over the past decade, as well as the Group's acquisition of the Somerfield supermarket chain. Non-Executive Director of Thomas Cook Group plc. Non-Executive Director of Co-operative Banking Group Limited.

Bob Newton (BSc, FIA, CDir)

Age 63. Joined the Board in 2007. Over 40 years' experience in the financial services industry. Chair of Silentair Group Limited. Non-Executive Director of UIA (Insurance) Limited and Reclaim Fund Limited. Non-Executive Director of Co-operative Banking Group Limited. Chair of Co-operative Insurance Society Limited and CIS General Insurance Limited.

Ben Reid OBE (FCCA)

Age 58. Joined the Board in 2009. Chief Executive of The Midcounties Co-operative and also Chair of Walsall Healthcare NHS Trust. Non-Executive Director of Co-operative Group Limited and Co-operative Banking Group Limited.

Len Wardle (BA)

Age 68. Joined the Board in 2002. Chair of Co-operative Group Limited and member of the South East Regional Board. Held management positions in local government and latterly was a Fellow at the University of Surrey in the School of Management. Director of Communicate Mutuality Limited. Non-Executive Director of Co-operative Banking Group Limited.

Martyn Wates (ACA, ATII, BA (Hons))

Age 46. Joined the Board in 2007. Has held various senior finance positions within the Co-operative Movement. Chief Executive of the Co-operative Group's Specialist Businesses Group and Deputy Chief Executive Officer of the Co-operative Group. Director of various internal subsidiaries and Non-Executive Director of Co-operative Banking Group Limited.

Executive Director:

Barry Tootell (BA (Hons), FCA)

Age 51. Joined the Board in 2008. Chief Executive Officer. Qualified accountant with over 20 years of banking experience and was previously Chief Financial Officer. Executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Corporate governance

Introduction from the Chair

In order to meet its vision of becoming the compelling co-operative alternative and differentiate itself within the banking market the Board believes corporate governance now, more than ever, to be key to the effectiveness of the Bank.

During 2012 the Board has continued to provide leadership, challenge, guidance and support to the Executive and management. The Board focused on a number of things including:

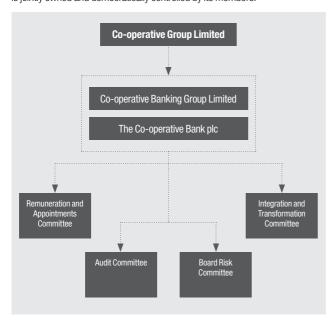

- the implications for the Bank of the potential acquisition of 632 branches from Lloyds Banking Group (Verde);
- the risk management framework;
- the Internal Capital Adequacy Assessment Process (ICAAP);
- Recovery and Resolution Planning (RRP);
- Payment Protection Insurance (PPI);
- · packaged accounts; and
- · capital markets funding.

A number of steps have been taken to improve corporate governance within the Bank including a review of the composition of the Board of directors, and, as a result of the work undertaken on the Bank's risk management framework, a review of the Board committees' terms of reference. A revised schedule of matters reserved for the Board will be implemented in 2013 alongside revised financial delegated authorities. This will assist the delivery of good governance not only in the boardroom but across the entire business.

Paul Flowers, Chair

Governance structures

The Bank is a subsidiary of the Co-operative Banking Group Limited (the Banking Group) and its ultimate parent organisation is the Co-operative Group Limited (Co-operative Group) which is an Industrial and Provident Society that is jointly owned and democratically controlled by its members.

Relations with members

The Bank has two equity shareholders. The majority of the shares are held by the Banking Group, which is a wholly owned subsidiary of the Co-operative Group. The remainder of the shares are held directly by The Co-operative Group.

The Bank has approximately 2,500 preference shareholders. The preference shares are fixed-interest shares and are non-cumulative and irredeemable. The preference shareholders are entitled to attend the AGM, but the shares only hold speaking or voting rights if and when the dividend has been in arrears for six months or more, or if a resolution is to be proposed at a general meeting abrogating or varying any of their respective rights or privileges, or for the winding up of the Bank or other return of capital and then only on such resolution.

Compliance with the UK Corporate Governance Code

The Board believes that during the year, with the exception of the composition of the Board and the Audit Committee (as explained below), it has fully complied with the principles and provisions of the UK Corporate Governance Code (the Code) appropriate to the democratic structures of the Bank and its parent organisations; the Banking Group and Co-operative Group. The Audit Committee composition now fulfils the requirements of the Code and steps are being taken to recruit additional Non-Executive Directors to the Bank Board to ensure ongoing compliance with the Code.

Leadership

Role and responsibilities of the Board

The Board is responsible for the long term success of the Bank within a framework of controls which enables risk to be assessed and managed. It is responsible for setting strategy, maintaining the policy and decision making framework within which this strategy is implemented which ensures that the necessary financial and human resources are in place to meet strategic aims, monitoring performance against key financial and non-financial indicators, overseeing the system of risk management and for setting values and standards in governance matters.

The responsibility of the Board is to direct the business of the Bank and in particular to:

- ensure that the Bank's affairs are conducted and managed in accordance with its articles of association, the best interests of its stakeholders and co-operative values and principles;
- establish arrangements to ensure the information presented in the annual report and accounts is fair, balanced and understandable;
- agree objectives, policies and strategies, and monitor the performance of executive management;
- approve the annual budget and business plan;
- approve the annual report, financial statements and dividends:
- monitor, utilising various committees, the key significant risks facing the Rank:
- establish Board committees and agree their terms of reference; and
- approve the delegated financial authorities.

Corporate governance continued

Appointment and re-appointment of directors

The directors that serve on the Banking Group Board also sit on the Bank Board to provide common leadership of the financial services business. Whilst appointments to the Board are formally made by the Co-operative Group Board, for the recruitment of independent Non-Executive Directors, external recruitment consultants, Warren Partners, are retained and an interview panel comprising Bank Non-Executive Directors, recommend appointments to the Co-operative Group Board.

All Non-Executive Directors are eligible for reappointment at the end of each term of office. The Co-operative Group Board, being party to agreements with the independent professional Non-Executive Directors for services to the Banking Group and its subsidiaries, including the Bank, may resolve to re-appoint at or before the date their contracts expire for a further three year term. It is the normal policy of the Board not to allow an independent professional Non-Executive Director to serve for more than nine years in aggregate.

Two directors left the Bank Board during the year; Rodney Baker-Bates, who had joined the Bank following the merger with Britannia Building Society, retired on 31 July, and after nine years service, Paul Hewitt left on 21 September. David Davies, who was appointed to the Bank Board in 2003, announced that he will be retiring in 2013. Upon his retirement as Chief Executive of the Co-operative Group, Peter Marks will step down from the Bank Board on 18 May 2013.

Under the articles of association, one third of the Board is required to retire by rotation at the conclusion of the Annual General Meeting (AGM). In accordance with the articles of association, therefore, three directors will retire by rotation in 2013, Duncan Bowdler, Peter Harvey and Bob Newton and all offer themselves for re-election at the 2013 AGM.

Richard Coates has been appointed to the Board since the conclusion of the last AGM on 15 May 2012, which makes him eligible for re-appointment at the 2013 AGM.

The notice of the AGM can be found on page 134. All directors due for re-election continue to demonstrate commitment to their roles. (See schedule of attendance on page 15.)

Board composition

The names of the members of the Board, their biographies and details of length of service are set out on page 12. They were in office for the full period unless otherwise stated.

During the year the composition of the Bank Board was reviewed to strengthen the balance of independent representation and to ensure the appropriate skills and experience were in place to support the long term strategy. Following the review, it was agreed that in future the Board of the Bank would comprise 14 directors being the Chief Executive Officer, the Chief Financial Officer, four representatives from the Co-operative Group and eight independent Non-Executive Directors.

Of the 12 directors sitting on the Bank's Board of directors at the end of 2012 there were 11 Non-Executive Directors and one executive director. Of the 11 Non-Executive Directors four are elected members of the Co-operative Group Board, two are Co-operative Group Executives and five are independent and recruited for their specific financial services experience and expertise. In addition to the appointment of Richard Coates as an independent Non-Executive Director a search is being undertaken for three additional independent Non-Executive Directors. In February 2013 the Bank announced that Graeme Hardie would be joining the Board as an independent Non-Executive Director with an expected joining date of May 2013.

Following signature of heads of terms for the acquisition of the Verde business, it is recognised that the executive appointments to the Board will be reviewed in due course. Barry Tootell is the Chief Executive of the Bank and is appointed to

the Board as a director. The existing Chief Financial Officer, James Mack, has announced his resignation and will be leaving the business in 2013. He is not a director therefore there is an executive director vacancy on the Board.

Independence

The Code requires at least half of the Board, excluding the Chair, to be independent Non-Executive Directors. Although not currently compliant with this requirement the Board is taking steps to recruit three additional new independent Non-Executive Directors, as referred to above, to improve the Board's independence and ensure compliance with the Code.

At the end of the year five independent Non-Executive Directors (excluding the Chair) sat on the Board: David Davies, Peter Harvey, Bob Newton, Anne Gunther and Merlyn Lowther. Rodney Baker-Bates was an independent professional Non-Executive Director until his retirement.

All the independent non-executives have considerable experience and make valuable contributions to the operation of the Bank. The independent Non-Executive Directors constructively challenge and help develop proposals on strategy and bring strong, independent judgment, knowledge and experience to the Board's deliberations. The independent Non-Executive Directors are of sufficient calibre and number that their views carry significant weight in the Board's decision making.

The role of the Chair

The Chair is a Non-Executive Director and leads the Board in the determination of its strategy and in the achievement of its objectives. The Chair takes personal responsibility for organising the business of the Board, ensuring its effectiveness and setting its agenda. The Chair has no involvement in the running of the day to day business of the Bank. The Chair facilitates the effective contribution of directors, constructive relations between the executive and Non-Executive Directors, ensures directors receive accurate, timely and clear information and ensures that there is effective communication with members

The division of responsibilities between the Chair and the Chief Executive is clearly defined and has been approved by the Board.

The current Chair is Paul Flowers who is an elected member of the Co-operative Group Board. The two Deputy Chairs are David Davies and Peter Harvey (who replaced Rodney Baker-Bates), both of whom are independent Non-Executive Directors. The Deputy Chairs together fill the role of Senior Independent Director. The Deputy Chair vacancy which will arise on the departure of David Davies in 2013 will be filled by Merlyn Lowther who is also an independent Non-Executive Director. Details of the Chair's and Deputy Chairs' professional commitments are included in the biographies on page 12. The Board is satisfied that these responsibilities do not interfere with the performance of the Chair or Deputy Chairs' duties for the Bank.

The role of the Chief Executive and the Executive

The Chief Executive has direct charge of the Bank on a day to day basis and is accountable to the Board for the financial and operational performance of the Bank.

It is the responsibility of the Executive to achieve the business objectives as agreed by the Board. The Executive, under the leadership of the Chief Executive, are responsible for the management of the Bank.

The secretary to the Board

The secretary is professionally qualified and is responsible for advising the Board through the Chair on all governance matters. The directors have access to the advice and services of the secretary. The articles of association and the schedule of matters reserved to the Board for decision provide that the appointment and removal of the secretary is a matter for the Board.

How the Board operates

Meetings

The Board meets on a monthly basis and it met 15 times in 2012 including three meetings held specifically to consider the acquisition of the Verde business. The Board is scheduled to meet for 12 Board meetings and to hold two strategy meetings in 2013. The strategy meetings will be attended by senior executives and will consider performance and longer term planning. If necessary, the Board also holds private sessions in the absence of executive directors. Members of the Executive and senior management are invited to Board meetings for specific items. This assists key messages from the boardroom to be articulated to the business and vice versa. In addition members of the Executive seek advice from Non-Executive Directors on a one to one basis at times.

Details of attendance at Board meetings are noted below.

Information to Directors

Recognising the need for a more secure, cost effective alternative to paper Board packs and in line with the Bank's strong stance on environmental ethics, an electronic Board paper solution was trialled with directors and key meeting attendees at the beginning of the year. Following a positive response from directors, the distribution of hard copy Board packs was phased out completely by June 2012.

Directors and key attendees of all Boards and committees now use electronic tablets as their primary method of receipt of papers and this is being further developed to include areas such as supporting material, training and calendar management.

Board and committee papers are now available for directors to access ordinarily eight days before each meeting. This provides the opportunity for directors to prepare fully for meetings. The minutes of all meetings are available to all directors via their electronic tablets.

Attendance

The following table sets out the frequency of, and attendance at, the Board and Board committee meetings for 2012 by directors:

Directors	Bank Board	Audit Committee	Board Risk Committee	Exposures Committee	Integration and Transformation Committee	Remuneration and Appointments Committee
Number of meetings held	15	11	13	8	9	8
Paul Flowers	15 (15)				8 (9)	8 (8)
Duncan Bowdler	15 (15)	10 (11)		8 (8)		
David Davies	15 (15)		11 (13)			7 (8)
Anne Gunther	15 (15)		13 (13)	8 (8)	1 (1)	1 (1)
Peter Harvey	15 (15)	9 (11)	1 (1)	8 (8)		
Merlyn Lowther	15 (15)		13 (13)		4 (5)	
Peter Marks	12 (15)					6 (8)
Bob Newton	14 (15)	10 (11)	9 (13)		8 (9)	
Ben Reid	12 (15)	9 (11)				
Barry Tootell	15 (15)					
Len Wardle	12 (15)			6 (8)		8 (8)
Martyn Wates	14 (15)					
Former directors						
Rodney Baker-Bates	9 (9)					4 (4)
Paul Hewitt	11 (12)	7 (7)	7 (9)		7 (7)	

The number in brackets indicates the total number of meetings the director was eligible to attend during the year. In the case of a director being unable to attend a meeting, the Chair has received a satisfactory reason for their absence.

Board committees

With the agreement of the Financial Services Authority (FSA), the Board has delegated certain responsibilities to a number of committees, all of which have written terms of reference covering the authority delegated to it by the Board. Each of these committees has a role in ensuring the effectiveness of the Bank and its subsidiaries. In accordance with the Code, the terms of reference for all the committees can be found at http://www.co-operativebankinggroup.co.uk.

During 2012, work continued on the Banking Group risk governance framework policy which sets out how the Banking Group and its subsidiaries, including the Bank, manage risk in pursuit of their business objectives. As part of the work undertaken there was a review of the governance committees operating within the Banking Group, both at Board committee level and below, and as a result of the review, the terms of reference for the Audit Committee, Board Risk Committee and Remuneration and Appointments Committee were revised.

Audit Committee

Information on the Audit Committee is found on page 18.

Remuneration and Appointments Committee

Information on the Remuneration and Appointments Committee is found on page 20.

Corporate governance continued

Board Risk Committee

The Board Risk Committee comprises four members and the Chair is Merlyn Lowther. During the year the committee comprised:

Merlyn Lowther	Chair (appointed Chair on 18 January 2012)
David Davies	
Bob Newton	
Anne Gunther	(appointed 18 January 2012)
Peter Harvey	(resigned 22 February 2012)
Paul Hewitt	(resigned 21 September 2012)

Paul Hewitt stood down from the committee following his resignation as a Board member. Peter Harvey was appointed as the interim Chair on 8 September 2011 and on 18 January 2012 Merlyn Lowther formally took on the role of Chair. Peter Harvey resigned from the committee on 22 February 2012. The make up of the committee will again be reviewed following the appointment of additional independent Non-Executive Directors to the Board. The committee met 13 times during the financial year.

The main responsibilities of the committee are set out in its terms of reference and include consideration of the management and control of all significant risks, including technical, operational, business model and external risks. The committee's terms of reference were revised and approved on 18 April 2012 in line with the evolving risk management framework policy.

In accordance with its terms of reference during 2012 the committee reviewed the development and embedding of the risk management framework and the work on risk culture and sought assurance that an appropriate risk culture prevailed in the organisation. The committee also reviewed, challenged and recommended to the Board approval of risk appetite, limits and tolerances. A number of key prudential regulatory requirements for the Bank were reviewed including the Internal Capital Adequacy Assessment Process (ICAAP) and Individual Liquidity Adequacy Assessment (ILAA). The committee reviewed reverse stress testing including the methodology and the results. The committee has discussed and reviewed the development of the Recovery and Resolution Plan (RRP).

During 2012, the committee met regularly to review and assess the risks associated with the two major projects that are underway within the Co-operative Banking Group in respect of the sale of the life business and the acquisition of the Verde business from Lloyds Banking Group. Due to the heavy schedule, additional meetings were arranged so that the committee could fully consider and discuss these transactions and provide appropriate focus.

During the year the committee has reviewed its own effectiveness. The results of the review will be used to assist in the development of the effectiveness of the committee under its revised terms of reference.

Exposures Committee

During the year the committee comprised four members and the Chair was Peter Harvey:

,			
Peter Harvey	Chair		
Anne Gunther			
Duncan Bowdler			
Len Wardle			

The committee met eight times during the financial year and its main responsibilities, as set out in its terms of reference were to sanction large counterparty transactions, manage large exposure positions and consider risk management of exposures.

During the year, pursuant to the implementation of the new risk management framework, the role of the Exposures Committee was reviewed. Its responsibilities, as set out in its terms of reference, were reallocated to other Board and executive committees and therefore the Exposures Committee ceased meeting in September 2012.

Integration and Transformation Committee

The committee comprises four members and the Chair is Bob Newton. During the year the committee comprised:

Bob Newton	Chair
Paul Flowers	
Anne Gunther	(appointed 10 October 2012)
Merlyn Lowther	(appointed 18 April 2012)
Paul Hewitt	(resigned 21 September 2012)

The main responsibilities of the committee are set out in its terms of reference. The committee considers integration issues across the Bank and Banking Group and met nine times in 2012.

Following the commencement of negotiations to acquire Verde the committee's terms of reference were reviewed to broaden its scope and the name was changed from the Transformation Committee. The committee has reviewed its effectiveness during the year. This review recognised that the terms of reference will require amendment in 2013 to refine the scope of the committee and reflect the position at that time.

Board effectiveness

Board statement on diversity

The Board takes the issue of diversity seriously and actively promotes policies and practices of equality of opportunity, regardless of age, disability, ethnicity, gender, religion or belief or sexual orientation.

The Bank Board recognises that having members from different backgrounds and with different skills is key to being a challenging and effective Board and believes that by having a diverse Board it will:

- help the Board represent the views of the wider co-operative membership;
- bring a broad range of skills and knowledge to the Board;
- support good governance through challenge and discussion from a diverse range of viewpoints;
- uphold the co-operative values and principles of honesty, openness, equality and equity; and
- gain a leadership position in the UK with regards to good governance and Board composition.

The Board policy includes all aspects of diversity, and in particular, responds to the revised UK Corporate Governance Code published in September 2012, which addresses the recommendations by Lord Davies in his 'Women on Boards' report published in February 2011. The policy aims to address the representation of women on the Board by setting interim targets for the percentage of female directors serving on the Board which are agreed and will be regularly reviewed by the Board. The policy also aims for a Board composition to reflect the diverse composition of the UK population based on the most recent UK Census results.

Currently, interim targets have been set for the Bank Board to comprise of a minimum of 33% of females by 2016, and to comprise of a minimum of 40% of females by 2018. Of the 12 directors appointed to the Bank Board at the end of 2012, two of these were women. Anne Gunther and Merlyn Lowther were appointed to its Board in 2011 and at the end of 2012 women represented 17% of the Board. All recruitment to the Bank Board will take into consideration the Board's policy on diversity.

Performance evaluation

The Code requires the Board to undertake a formal and rigorous annual evaluation of its own performance and that of its committees and individual directors.

The Board last underwent an external evaluation exercise of its effectiveness at the end of 2010, the only significant recommendation (in respect of the size and composition of the Board) has been addressed during 2011/2012. The next external review is planned for 2013.

An internal self assessment of Board effectiveness took place during the year. The outcome was considered in a separate session of the Board to give time for appropriate discussion of the results of the self assessment. Key issues included the provision of competitor information and the adequacy of succession planning. These areas continue to be under review.

Each year, the Board committees undergo internal self assessment of their effectiveness. In 2012, all the key Board committees including both Audit and Board Risk Committees carried out self assessment exercises.

Each year, one third of the Board directors are subject to a peer evaluation selected on length of service from first appointment to the Board, subject to having served at least one year on the Board as at 30 June. Such an exercise took place in 2012. The responses to the peer evaluation questionnaires provided the basis of one to one discussions with the Chair of the Board.

Induction and continuing professional development

In line with recommendations of the Code, the Bank has reviewed the induction programme for new directors and all newly elected directors are required to undertake a structured induction programme. This is designed to include key corporate governance and business information, including briefing sessions with the Executive on the strategy and performance of key business areas.

A Board learning and development policy is in place to support all Non-Executive Directors. Following discussion at Board to prioritise collective training and development, thematic learning and development sessions for the whole Board have taken place.

Specific training has been organised for Board committees including the Remuneration and Appointments Committee, the Audit Committee, the Exposures Committee and the Board Risk Committee. In addition, one to one support has been provided to a number of directors.

Directors receive information on the operation of the Board's Committees, including the powers delegated to the committees, corporate governance practices and procedures and the powers reserved to the Executive together with the latest financial information. This is supplemented by meetings with key senior executives where appropriate, together with in depth training and round table sessions on specific areas.

An electronic 'reading room' is available as a resource bank to enable directors to access, revisit and review copies of presentations and materials from the more formal development sessions.

Individual learning and development records are issued to all Non-Executive Directors summarising activity through the year and individual learning plans have been put in place in order to construct the framework for individual and collective learning and development.

The Chair addresses the development needs of the Board as a whole, with a view to developing its effectiveness. He ensures that the directors' professional development needs are identified and that they are adequately informed about the Group and their responsibilities as directors.

Succession planning

As part of its annual performance evaluation the Board considers its composition and the balance of skills in the boardroom. When vacancies arise on the Board, directors are consulted prior to commencement of a search to fill a vacancy to ensure the skills and experience being sought from any new appointee enhance the Board composition.

Conflicts of interests

The Board has a conflicts of interests policy. The policy outlines how conflicts will be dealt with and the process for directors to follow when notifying the Bank of an actual or potential conflict. When deciding whether to authorise a conflict or a potential conflict of interest, only those that have no interest in the matter under consideration are able to take part in the decision.

The Board has considered the current external appointments of all directors which may give rise to a situational conflict and has authorised potential conflicts where appropriate.

Directors and their interests

No director had a material interest at any time during the year in any contract of significance, other than a service contract, with the Bank or any of its subsidiary undertakings.

No director had a beneficial interest in any ordinary shares in the Bank or the Banking Group or in Co-operative Group Limited, which is the ultimate holding organisation, or in any other entity controlled by the Co-operative Group. As disclosed in his biography on page 12, Bob Newton is a Non-Executive Director of UIA (Insurance) Limited. UIA (Insurance) Limited holds 200,000 preference shares in the Bank.

Insurance and indemnities

The Bank maintains appropriate directors' and officers' liability insurance cover through the ultimate parent organisation, in respect of legal action against its directors and officers. This constitutes a 'qualifying third party indemnity provision' for the purposes of s236 of the Companies Act 2006 and applied to all of the Bank's directors serving during the financial year. The insurance cover was reviewed and renewed in 2012.

The directors, the secretary and any of the Group's approved persons under the Financial Services and Markets Act 2000 from time to time have entered into a contract of indemnity with the Group in respect of certain liabilities they may incur whilst discharging their functions.

Professional advice and Board support

A number of external consultants provide professional advice to the Board. There is an agreed procedure by which directors may take independent professional advice at the Bank's expense in furtherance of their duties.

Corporate governance continued

Audit

Audit Committee Composition

The committee is appointed by the Board, comprises four members and, for the majority of 2012, was chaired by Paul Hewitt. Peter Harvey was appointed interim Chair on 22 September 2012 and will be replaced in 2013 by Richard Coates. During the year the committee comprised:

Paul Hewitt	Chair (resigned 21 September 2012)
Peter Harvey	(appointed Chair on 22 September 2012)
Duncan Bowdler	
Ben Reid	
Bob Newton	

In compliance with the terms of reference, Paul Hewitt and Ben Reid brought recent and relevant financial experience and in addition Ben Reid chaired the Co-operative Group's Audit and Risk Committee until 4 November 2012. Duncan Bowdler is a member of the Co-operative Group's Audit and Risk Committee and Bob Newton is also a member of the Co-operative Banking Group's Board Risk Committee. The committee's terms of reference were reviewed and approved on 11 July 2012.

Bob Newton and Peter Harvey are considered to be independent members of the committee. Paul Hewitt stood down from the committee when he ceased to be a director and consequently, for the period until Richard Coates was appointed in 2013, a majority of the committee members were not considered independent as required by the UK Corporate Governance Code. The composition of the committee will again be reviewed following the appointment of additional independent Non-Executive Directors to the Board.

In accordance with the terms of reference members of the executive and management regularly attend meetings of the committee.

Role of the committee

The main responsibilities of the committee are set out in its terms of reference which are available on our website http://www.co-operativebankinggroup. co.uk and include to:

- review and discuss with management and auditors the preliminary results, interim information and annual financial statements of the Bank before submission to the Board;
- review, prior to its consideration by the Board, the external auditor's reports to the directors and management's response;
- consider any necessary disclosure implications from the process that has been applied by the Board to deal with material internal control aspects of any significant problems disclosed in the financial statements;
- obtain assurance that the Bank is compliant with relevant regulation; and
- review and approve the scope of the annual regulatory monitoring plan, taking into account the regulatory risks identified from time to time.

Committee focus during 2012

The committee met 11 times during the financial year. During 2012 the committee focused on:

- the appropriateness of the accounting judgments in the 2012 annual report and the 2012 interim report. The key judgments for the Bank were:
 - 1. value in use calculations on the replacement of the core banking system. This asset is held on the balance sheet of CFSMS and recharged to the Bank. The committee considered the estimated costs and benefits of the system and discussed the implementation plan with members of the Executive. The debate centered around robustness of plans and sensitivity of the numbers to highly judgmental issues such as implementation date, discount rate and costs to complete.

- 2. PPI provision. The committee reviewed a detailed paper and discussed with the Director of Retail Banking the level of the provision and the judgments made in calculating the provision. These judgments, including uphold rates, average payouts and past business review cohorts were benchmarked against actual data and peer group statistics.
- 3. credit impairment, particularly in the corporate area. Levels of credit impairment in the bank in 2012 were significant. The committee received detailed calculations of impairment across all areas of the bank. For corporate impairment, members of the committee reviewed and challenged in detail, following review by management from finance, risk, the credit teams, internal and external audit (in line with the three lines of defence model described in the risk management section), all items on the watchlist, all items with attached forbearance and all items considered high risk (ie due to loan to value or interest cover ratios). This represented over 30% of the portfolio. The committee considered the level of exposure to BPIIGS countries and does not consider this to be material. The committee will review impairment on a quarterly basis and is satisfied that current lending is in line with a conservative risk appetite.
- 4. going concern. The Audit Committee took particular care to review the going concern status of the organisation in depth. Profit, capital and liquidity forecasting were debated along with the proposed actions to improve the position.
- the control environment, particularly in IT, Finance and Treasury;
- areas receiving a red graded audit report, where the executive responsible was required to attend the meeting to answer the committee's questions.
 The committee monitored the action plans associated with these audit reports:
- in the run up to and following the signing of heads of terms for the Verde acquisition, the committee held four meetings specifically to discuss the transaction, focusing on the scope and findings of the due diligence and independent assurance work;
- reviewing the arrangements in place to ensure that the internal audit team working on the Banking Group, including the Bank, continued to operate in accordance with best practice.

Additionally the committee received regular reports from KPMG and representatives from KPMG were consulted throughout the debates in each meeting. The committee also met with internal audit four times and KPMG five times. Two of the meetings with the external auditors took place without the presence of internal audit.

Annual review of effectiveness

Following the committee effectiveness review in 2012 it was decided to increase the frequency of meetings from four to six to allow sufficient time to deal with the very full agendas, particularly at half-year and year-end. Given the busy schedule, the committee members recognised the need to retain focus on the Audit Committee training plan and accordingly a programme of activity for 2012 and 2013 has been agreed and adhered to.

Training for committee members

The committee received formal presentations as part of the committee members' learning and development programme which covered forthcoming changes to accounting standards and assurance frameworks.

Members of the committee undertook a visit to the Treasury dealing room at the London office and members were also invited to attend training on corporate governance and risk management responsibilities.

In addition committee members have access to the Audit Committee Institute for background information and guidance on the role and responsibilities of Audit Committee members. New committee members are also provided with an induction.

External audit

The current auditor is KPMG Audit Plc. In line with good corporate governance, a tender process took place during 2011 to consider the appointment of the external auditors to the Co-operative Group, including the Banking Group and the Bank and KPMG Audit Plc was selected and approved at the AGM.

In accordance with Section 489 of the Companies Act 2006, a resolution for the appointment and remuneration of the auditors are proposed at the next AGM and set out on page 134.

Independence, objectivity and fees

The Audit Committee has put in place safeguards to ensure that the independence of the audit is not compromised including a policy on the conduct of non-audit services from the external auditors. The external auditors are permitted to provide some non-audit services that are not, and are not perceived to be, in conflict with their independence. The Audit Committee receives at each meeting a report providing details of assignments (and related financial fees) carried out by the external auditors of the Bank in addition to their statutory audit work. The pre-approval of the committee is required for services above certain thresholds determined by the committee.

In addition, the following assignments are prohibited from being performed by the external auditors:

- bookkeeping or other services related to the accounting records or financial statements;
- financial information systems design and implementation;
- · actuarial services;
- Internal Audit outsourcing services;
- management functions or human resources; and
- any other services that the Audit Committee may determine.

Details of fees paid to the auditor for audit services, audit related services and other non-audit services is provided in note 2 to the accounts which includes an analysis of the nature of non-audit spend.

Performance

The committee undertakes a formal annual assessment of the performance of the external auditor, through questionnaires completed by senior managers and directors.

Internal Audit

The Internal Audit function is an independent function which reports to the Audit Committee. Its primary role is to provide assurance over the adequacy and effectiveness of the internal control framework including risk management practices.

Internal Audit seeks to discharge the responsibilities set down in its charter by completing a risk based internal audit plan, reviewing the processes which ensure that the key business risks are effectively managed by key controls.

Internal Audit also acts as a source of constructive advice and best practice on control, working with senior management to deliver its responsibility to improve the processes by which business risks are identified and managed.

Internal Audit reports are submitted to, and significant issues discussed at, the Audit Committee.

Risk management

The Board and executive management have primary responsibility for identifying the key business risks facing the Bank and for approving the Bank's risk strategy and level of acceptable risk which is articulated through its statement of risk appetite. The risk management framework, which is approved and reviewed by the Bank Board, outlines the approach taken to ensure a robust risk management process is in place throughout the Bank.

During 2012 the Banking Group undertook a wide ranging review of its risk management framework which resulted in significant change in its organisational design. The work on the risk management framework to date has included a redesign of the way the Bank classifies the risks it faces, the way risk appetite is established and the structure and application of the authority delegated by the Board to manage the risk within the agreed appetite.

The Board accepts that there are risks which could impact on the achievement of the Bank's business objectives, but endeavours through positive risk management strategies as outlined in the risk management framework, to manage these in a manner that optimises returns within the confines of the business' risk appetite, whilst protecting members' interests and reserves.

Further information on the Bank's approach to risk management is given on page 54 and details of KPIs are on page 2.

Internal control

Internal controls are the activities undertaken by management, the Board and other parties to enhance risk management and increase the probability that established objectives and goals will be achieved. The Board has overall responsibility for the Bank's system of internal controls which aim to ensure effective and efficient operations, quality of internal and external reporting, safeguarding of the Bank's assets and compliance with laws and regulations. The Bank operates a three lines of defence governance model to ensure appropriate responsibility and accountability are maintained whilst recognising that the system is designed to manage rather than eliminate risk of failure to achieve business objectives, it can only provide reasonable and not absolute assurance against material misstatement or loss.

The Bank's internal control framework is designed to create an attitude of taking acceptable business risk within clearly defined limits which includes:

- an organisational governance structure with clear lines of responsibility, delegation of authority and reporting requirements;
- checks and balances to ensure that business processes operate efficiently reducing the risk posed to the organisation whilst adhering to organisational values;
- comprehensive systems of financial reporting. The annual budget and long term plan of the Bank and of each division are reviewed and approved by the Board:
- a code of business conduct covering relations with customers, shareholders, colleagues, suppliers, community and competitors;
- a whistleblowing policy and procedure which provides for any employee to report. in confidence, suspected serious malpractice:
- internal audit, risk and compliance functions that review the system of internal control; and
- a control self assessment process designed to fully support the annual review of the effectiveness of the system of internal control and enable continual monitoring and improvement of the internal control environment.

Remuneration report

Committee Chair's summary

"The committee will continue to focus on the linking of reward to business and individual performance and the strengthening of co-operative values which include a strong belief in the stewardship of all the Society's resources, and, therefore which are consistent with and promote effective risk management."

Important principles which make Co-operative Bank Remuneration Policy distinctive from other PLCs include:

- levels of variable pay (annual and long term bonus) opportunity are modest, consistently set at levels lower than in comparably sized PLCs;
- the construct of both the annual and long term bonus plans is based on a balanced scorecard that includes significant non-financial measures which ensure that there is no encouragement of inappropriate risk taking;
- balanced scorecard linked to co-operative values and principles;

Key considerations for this year have included:

- payment of zero awards under the 2012 annual incentive plan, the 2010–12 long term plan and deferred payments due to 2012 and cumulative financial targets not being achieved;
- continuation of dialogue with the Financial Services Authority (FSA) in connection with our current and future remuneration practices. All remuneration arrangements and practices in place are compliant with the FSA Remuneration Code; and
- focus on risk adjustment and remuneration policies which promote effective risk management.

The committee's responsibility is to determine and oversee remuneration policy that seeks to retain and motivate talented individuals, align with co-operative values and principles, and comply with best practice and FSA Remuneration Code requirements.

The committee reviews the ongoing appropriateness and relevance of remuneration policy and takes into account many factors including the need for remuneration to be structured so as to link rewards to business and individual performance.

With regard to future remuneration policy, the committee believes annual and long term incentive schemes to be appropriate and as such will motivate the senior executives to achieve short to medium and long term business objectives.

Ex post risk adjustment; the cancellation or reduction of variable remuneration through malus (for example clawback of an award for an executive action which leads to customer detriment) will be a major area of focus for the committee as we review our future remuneration policies and practices.

In our report, we give further details on our remuneration policy and an overview of senior executive remuneration for 2012.

Anne Gunther, Chair

Co-operative Banking Group Remuneration and Appointments Committee

Introduction

In the interest of good governance the Co-operative Bank (the Bank) uses as a guideline for its remuneration disclosure, the requirements applicable to listed companies, as set out in schedule 8 of the Large and Medium Sized Companies and Groups (Accounts and Reports) Regulations 2008 (incorporated into the Companies Act 2006). This remuneration report will be subject to an advisory vote by shareholders of the Bank at its Annual General Meeting to be held on 18 May 2013.

This report provides details of the remuneration of both the senior executives (including executive directors and executive committee members) and the Non-Executive Directors.

In recognition of the draft requirements that the UK Government's Department for Business, Innovation & Skills (BIS) has recently consulted on, the Bank has incorporated emerging practice within its remuneration report.

The remuneration report is presented by the Board and contains the following information:

Policy section:

- a description of the role of the Remuneration and Appointments Committee;
- a summary of the Bank's remuneration policy, including statements of policy in relation to senior executives' remuneration;
- a policy table with supporting notes showing each element of senior executives' remuneration;
- details of the terms of the service contracts and exit payment policy;
- considerations elsewhere in the Bank.

Implementation section:

- details of the current terms of office and total remuneration of each senior executive and Non-Executive Director for the 2012 financial year;
- remuneration governance.

Policy section

Role of the committee

The committee's terms of reference were last revised and approved by the Bank's Board on 5 September 2011.

The committee's principal terms of reference are to:

- determine the policy on remuneration and other main terms and conditions of employment of senior executives;
- oversee contractual arrangements for the senior executives and approve the principal terms and conditions of employment of such senior executives;
- review remuneration using comparisons against the agreed market policy for the senior executives;
- make recommendations on senior executive appointments and the terms and conditions relating to these;
- review and agree the remuneration policy and outcomes in respect of all designated code staff under the FSA Remuneration Code;
- approve any relevant incentive schemes, ensure that they are in line with current market practice and the FSA Remuneration Code, and authorise payments under any incentive schemes in line with their rules; and
- receive, review and decide on issues raised in relation to retirement benefit schemes across the Bank and advise the Board on these issues as appropriate.

The Co-operative Group Remuneration and Appointments Committee governs remuneration in respect of the role of the Bank's Chief Executive.

The terms of reference for the committee are available on The Co-operative Banking Group website.

The committee members are all Non-Executive Directors. They have no personal financial interests in the committee's decisions, and they have no involvement in the day to day management of the Bank.

To ensure that it receives independent advice on remuneration matters, the committee retained New Bridge Street (an Aon Hewitt company) as its advisers during 2012. New Bridge Street has supplied survey data and advised on market trends and other general remuneration issues. Other than specialist advice in relation to remuneration matters, New Bridge Street does not provide other services to the Bank. Addleshaw Goddard LLP was also retained to provide legal advice to the committee with respect to senior executives' service contracts.

Policy on senior executive remuneration

In determining the remuneration policy for senior executives, the committee has considered a number of factors including:

- the importance of attracting, retaining and motivating senior executives of the appropriate calibre to further the success of the Bank;
- the linking of reward to business and individual performance and the application of co-operative values, which include a strong belief in responsible stewardship of all the Bank's resources and prudent management of risk;
- the alignment of the interests of senior executives with those of the wider Group and its members;
- pay practices and conditions of all employees throughout the Bank;
- the motivational impact of incentive arrangements to ensure that they are
 effective and do not adversely impact matters such as governance,
 environmental and social issues;
- in conjunction with the Group Remuneration and Appointments Committee ensuring that pay practices are coherent with those in the Co-operative Group as a whole; and
- ensuring appropriate compliance with the FSA Remuneration Code.

The current policy is to pay senior executives base salaries around the market median, when compared with other organisations of comparable size and complexity in relevant business sectors. The committee supports the principle of performance related pay and operates an annual incentive plan (AIP) and a long term incentive plan (LTIP) which, together, mean that over 50% of the remuneration package is performance related. The committee does not consider it appropriate to adhere to the size of variable pay typically available in PLCs and accordingly the amounts payable under these plans are lower than in comparable PLCs. Together, the AIP and LTIP represent total variable remuneration, with awards under the LTIP comprising the deferred element of variable remuneration as required by the FSA.

The committee considers that a successful remuneration policy needs to be sufficiently flexible to take account of future changes in the Bank's business environment, and in market remuneration practice. Accordingly, the committee keeps the Bank's remuneration policy under review. In particular, the absence of highly 'geared' incentive plans (schemes which pay out significant multiples of base salary when compared with some practices in the PLC sector) is consistent with prudent risk management.

The committee notes that the remuneration practices already adopted by the Bank, in addition to being good business practice, have been endorsed by the FSA through its Remuneration Code. However, the committee will continue to strive for further improvements in its executive remuneration arrangements as best practice evolves.

Policy Table

The main components of senior executive remuneration are summarised in the table below:

Element	Overview	How each element supports the strategic objectives of business	High level details	Clawback provision	Change in approach since last disclosure
Base salary ¹	To provide a competitive base salary to attract and retain talented leaders.	Payment for day to day role and responsibilities, individual performance objectives aligned to overarching business strategy.	Reviewed annually. Targeted around market median. Future increases based on performance results.	N	N
Benefits ²	To provide benefits in line with normal market practice.	Competitive benefits proposition ensures talent is attracted/retained and able to undertake duties.	Car allowance, medical and life insurance.	N	N
Pension ³	To provide competitive pension and protection benefits to attract and retain talented leaders.	Retains skills and experiences within the business.	The Co-operative Group provides either a defined benefit or a defined contribution pension plan (on the same basis as applies to all other employees in the Group) and/or an allowance designed so that the total value of the pension element is broadly the same as the value of the defined benefit pension plan. (See page 22.)	N	Y – Group-wide change in pension policy, applicable to all colleagues including senior executives
Annual incentive plan 4	To incentivise and reward the delivery of superior annual performance, based on the Bank's annual business objectives and co-operative values.	Motivates delivery of business results aligned to the Board agreed balanced scorecard. Inclusion of financial and non-financial targets.	Up to 60% of salary based on The Co-operative Banking Group annual financial and non-financial targets. Incentive opportunity is below the market norm in comparable PLCs. (See page 22.)	Υ	N
Long term incentive plan ⁵	To incentivise and reward the delivery of superior long term performance, based on the Co-operative Group's objectives and values, and to retain talent.	Encourages long term, sustained performance; motivates delivery of long term business results aligned to the Board agreed balanced scorecard. Inclusion of financial and non-financial targets.	Awards up to 100% of salary for the Bank Chief Executive and 75% for other senior executives based on stretching three-year Group financial and non-financial targets. Incentive opportunity is below the market norm in comparable PLCs. (See page 23.)	Y	N 262

Remuneration report continued

Policy notes to the policy table:

¹Base salary

It is the committee's policy to ensure that the base salary for each senior executive is appropriate and competitive for the responsibilities involved and experience required. Base salaries for senior executives are reviewed by the committee, usually annually, having regard to competitive market practice, business and individual performance during the financial year and salary levels throughout the Bank. Comparative pay data is used carefully, recognising the potential for an upward ratchet in remuneration caused by over reliance on such data. The normal month for salary review is January. Base salary policy is generally the same for senior executives and all other employees, in the Bank.

²Benefits

It is the committee's policy to ensure that the benefits for each senior executive are appropriate and competitive in regard to market practice. As is commonplace there are a number of benefits which relate to hierarchy and at managerial grades healthcare benefit and car allowance would be applicable. There are Bank-wide benefits which are generally the same for senior executives and all other employees, in the Bank, for example Employee Member Dividend and staff discounts.

³Pensions

The Bank participates in the Co-operative Pension Scheme (Pace) which is a registered occupational pension scheme.

The Group harmonised pension arrangements for all employees from 6 October 2012 following completion of a major strategic review. As a result the arrangement is as follows:

- all schemes, other than Pace, were closed to future pension accrual. Defined benefits built up to this date continue to be linked to final pensionable salary at a member's date of leaving or retirement, whichever is earlier.
- Pace remains open for future pension accrual. Two new defined contribution sections were introduced called Pace Essential and Pace Extra and the defined benefit section was renamed Pace Complete.
- members of Pace Essential, into which all eligible employees will be automatically enrolled, currently pay 1% of pay and the employer pays 2%.
 Members of Pace Extra, which is available to all employees, currently pay 4% of pay and the employer pays 8%.
- all employees can choose to join Pace Complete once they have completed two or more consecutive year's service.
- Pace Complete provides defined benefit pensions based on 1/60th of average pensionable earnings, revalued by inflation for each year of pensionable service (benefits accrued as at 5 April 2006, in respect of membership of the scheme preceding Pace, continue to be linked to final pensionable salary at a member's date of leaving or retirement, whichever is earlier).
- if death occurs in service all sections provide a lump sum benefit and Pace Complete also provides dependants' pensions.

Members of Pace Complete currently contribute 8% of their pensionable salary or 7% of pensionable salary (until October 2013) if they were a contributing member of Pace at 31 December 2011. Prior to 6 October 2012 members of Pace contributed 6% of their pensionable salary. The employer pays the balance of the cost of providing defined benefits.

All members of Pace have the choice of making pension contributions by salary sacrifice.

Furthermore, in the light of the pension tax changes applying to registered schemes from 6 April 2011, Group executive pension policy was revised. Where an executive may be impacted by the Annual Allowance or the Lifetime Allowance, they have the facility of opting out of future pension accrual in favour of a pension allowance or opting for restricted pension accrual based on a capped pensionable salary of £187,500 and receiving a restricted pension

allowance, in lieu of pension provision, based on salary, above £187,500. Where paid, the rate of pension allowance is based on the employer contribution rate to Pace Complete. This is currently 16% of pensionable salary (16.7% prior to October 2012). Executives who join Pace Extra are provided with an additional 8% of pay as a pension contribution or pension allowance for the period they are ineligible to join Pace Complete.

Supplementary life cover is provided to executives in order to provide total life cover of 4 x salary when aggregated with benefits from Pace.

Prior to October 2012 different pension arrangements were in place for some Bank colleagues. Following the merger with Britannia Building Society on 1 August 2009, colleagues who at that date were members of the Britannia Pension Scheme ('the Britannia Scheme') continued in membership of the Britannia Scheme. From 1 August 2009 until 6 October 2012 only the defined contribution section of the Britannia Scheme was available to new employees of the financial services' businesses.

The Britannia Scheme, which is also a registered occupational pension scheme, provides benefits under two sections:

- a closed defined benefit section, which provides pensions based on an accrual of 1/80th, 1/60th or up to 1/30th for executives, of final pensionable salary for each year of pensionable service; or
- a defined contribution section with an employer contribution rate of 4%, 6% or 8% depending on the level of member contribution.

Members of the Britannia Scheme contributed 2% to 8% of their pensionable salary, depending on the relevant section.

Prior to the merger on 1 August 2009, the Director, Integration & Change had a contractual arrangement under which he accrued pension benefits in an unfunded employer financed retirement benefits scheme (EFRBS). The EFRBS is in place to provide pension benefits that exceed the lifetime allowance. Benefits up to the lifetime allowance will be provided from the Britannia Scheme. The arrangement was adjusted from 1 August 2011 so that the rate of future pension accrual made available under the Britannia Scheme was aligned to that provided by Pace, with no further accrual in the EFRBS.

4Annual incentive plan

The annual incentive policy is designed to incentivise and reward senior executives for the achievement of the annual business plan as encapsulated in the balanced scorecard.

Each senior executive is eligible to participate in an annual incentive plan. The committee reviews and sets bonus targets and levels of eligibility annually. Each senior executive is eligible to receive a payment of up to 60% of base salary, although target payment levels are 35% of base salary.

The annual incentive is based on a mixture of financial and non-financial measures. The table below sets out the measures and the weighting of each measure used in 2012.

Balanced scorecard	Metric	Weighting
Financial	Profit Before Tax (PBT)	50%
	Return on Risk Weighted Exposure Amount (RRWEA)	20%
Colleague	Colleague engagement	10%
Customer	Customer satisfaction	10%
Risk	Adherence with risk management framework and risk appetite (as established by the CBG Board)	10%

The balanced scorecard approach represents best practice as set out in the FSA Remuneration Code. This approach and underlying policy is approved by the FSA and aligned to the goals of the business.

All balanced scorecard performance measures and results are audited by an external firm of accountants.

The Chief Executive's AIP is based 2/3rds on the above Banking Group's targets; the balance is based on targets for the wider Co-operative Group: profit (70%), corporate responsibility (10%), colleague engagement (10%) and customer satisfaction (10%).

In addition to achieving performance against the balanced scorecard measures (including the Chief Executive's group AIP element), four further underpins must be achieved before any payment is made. These are as follows:

- A threshold profit level must be achieved before any element becomes payable.
- The Bank must stay within its required liquidity range as agreed by The Co-operative Banking Group Board.
- 3. The Bank must stay above its required minimum capital level as agreed by The Co-operative Banking Group Board.
- 4. There should be no material breaches of risk in accordance with the risk appetite as agreed by The Co-operative Banking Group Board. The Chief Risk Officer is required to provide an annual report to the committee before bonus payments are signed off.

Additional deferral is also required by the FSA Code: 50% of any AIP earned is paid in March or April following the year end, while the remaining 50%, will be held in an alternative instrument for an additional six months, subject to additional performance conditions. A Contingent Capital Award (CCA) is leveraged as an alternative instrument and constructed as a non tradeable bond with maturity after six months, contingent on specified conditions.

The committee chose profit as the main driver of the annual incentive as it is a good indicator of overall business success being driven by income, impairment, costs and overall operational effectiveness, but the committee believes that other non-financial factors and co-operative values are also important. Non-financial measures are based upon independent external surveys.

AIPs do differ for senior executives in both quantum and scheme architecture from the general management population.

Clawback

In respect of annual incentive payments a clawback provision will apply in line with developing market practice. This enables the committee to seek to recoup part or all of an annual incentive payment by reference to subsequent business performance or individual behaviour of a senior executive. This also applies to any payment in respect of long term incentive.

The Bank also operates malus, a provision where the value of deferred remuneration can be adjusted downwards to take account of specified conditions eg in an instance of an executive action which leads to customer detriment.

⁵Long term incentive plan (LTIP)

A Co-operative Group-wide LTIP continues to represent deferred remuneration under the FSA Remuneration Code. The purpose of this plan is to focus senior managers on the achievement and delivery of the medium to long term strategic goals for The Co-operative Group whilst protecting long term firm-wide sustainability.

Eligibility to participate is restricted to senior managers only as it is this group that is responsible for delivering the strategy as set by the Group Board. Opportunity to participate is based on individual performance, criticality and role undertaken.

The scheme and participation in the scheme is reviewed and approved annually by the committee.

Senior executives participate in the LTIP, using cumulative targets over a three year period, as the committee believes this arrangement aligns senior executives with the long term interests of members and aids retention of talent. The maximum payment is 100% of base salary for the Bank's Chief Executive and 75% for other senior executives. The actual amount of award vesting is subject to the achievement of the long term performance measures.

The committee set the following performance metrics and weightings for the 2012–14 plan cycle.

Metric	Weighting
Cumulative Group profit, subject to a minimum level of average Return on Net Operating Assets (RONOA), over the three year performance period	50%
Return on Risk Weighted Exposure Amount (RRWEA)	20%
Group corporate responsibility	10%
Colleague engagement	10%
Customer satisfaction	10%

The committee chose profit as the main driver of the long term incentive as it is a good indicator of overall business success being driven by sales, costs and operational effectiveness, but the committee believes that other non-financial factors and co-operative values are also important. Non-financial measures are based upon independent external surveys. The inclusion of RRWEA meets with FSA requirements on appropriate focus on risk, this measure only being included for Remuneration Code staff.

All balanced scorecard performance measures and results are audited by externally appointed auditors.

Additionally for Remuneration Code staff, the financial and risk underpins applicable to the AIP also apply to the LTIP, ie the four underpins must be met for any LTIP to become payable. These underpins are to provide appropriate risk adjustment and to be compliant with the FSA Remuneration Code.

Additional deferral is required by the FSA Remuneration Code: at the point of vesting, 50%, will be held in an alternative instrument for an additional six months, subject to additional performance conditions (ie for 50% of the LTIP award the total deferral period from grant is three and a half years).

Service contracts and exit payment policy

It is the Bank's policy that the notice period in senior executives' service contracts should not exceed one year. All senior executives have contracts which can be terminated by one year's notice. In the event of termination, the standard payment due to a senior executive would be based on the value of one year's base salary and other contractual benefits. In some circumstances, such as organisational changes as a result of a merger or acquisition, termination payments to colleagues leaving the Bank have been enhanced. In such cases, the formula for the calculation of termination payments to senior executives has also received some enhancement.

In normal circumstances, it is the committee's policy to apply service contracts for any newly recruited senior executives in a similar form to the model that has been developed for existing senior executives.

Remuneration report continued

FSA Remuneration Code

FSA Remuneration Code principles fully apply to all senior executives and all remuneration arrangements and practices in place are compliant with the Remuneration Code.

Code staff remuneration

Code staff are defined by the FSA as those staff having a material impact on a firm's risk profile, including a person who performs a significant influence function for a firm, a senior manager and a risk taker.

Remuneration policy and outcomes for Code staff are determined by the committee. The design of the component parts of remuneration is as set out for the senior executives. For all Code staff, performance related pay is risk adjusted through the use of the underpins to the incentive plans, together with the application of deferrals, clawback and malus adjustments in accordance with the FSA Remuneration Code.

Share option plans

As a co-operative, the Bank does not operate a share or share-option plan.

Non-Executive directorships

The committee has determined that, subject to the committee's approval, senior executives may accept one Non-Executive directorship, or similar, with an external organisation. This represents an important opportunity to further develop individuals' skills and experience, which is beneficial to the Group. During the year, any fees received for such a role were paid to the Group, however at its meeting on 14 January 2013, the committee agreed that going forward any remuneration received as a result of taking up an external Non-Executive directorship could be retained by the individual.

Considerations elsewhere in the Banking Group

The committee takes account of the pay and conditions of other employees in the Bank when reviewing senior executive pay. The committee also considers senior executive pay within the wider context of the UK market in which the Bank competes for talent.

In 2012 the base salary increase of the Chief Executive increased by 2.5% which was generally comparable with that for employees in the Bank. Similar rises were also applied to the wider senior manager group.

Non-Executive Directors

All the Non-Executive Directors are appointed, and their directors' fees are determined and paid, by the Co-operative Group.

Non-Executive Directors who are also Co-operative Group directors waive their entitlement to a fee of £16,937. The basic fee for a Non-Executive Director elected to sit on the Co-operative Group Board who also served on the Boards of the Co-operative Banking Group, The Co-operative Bank, CIS General Insurance (until June 2012) and Co-operative Insurance Society during the year, was £16,937 per annum, and these same Non-Executive Directors receive additional fees for serving on the various Banking Group Board committees (which also have responsibility for Bank business). The Chair of the Bank is a Co-operative Group Board appointee and receives a fee of £117,432 per annum.

The Independent Professional Non-Executive Directors (IPNEDs) are party to agreements with the Co-operative Group governing the terms on which their services are made available to the Bank. These service agreements expire on 31 July 2014, with the exception of David Davies whose service agreement expires on 31 July 2013. The Co-operative Group Board may resolve to reappoint any of the IPNEDs at or before the date their service agreements expire for a further three year term. It is the normal policy of the Board not to allow an IPNED to serve for more than nine years in aggregate.

A benchmarking exercise by New Bridge Street in 2010 set the basic fees for the Banking Group IPNEDs which were approved by the Co-operative Group Board. The IPNEDs and the professional external Non-Executive Director who served on the Board during the year each received a fee of £59,966 per annum. From early 2012, the Group Board agreed that all renewal of terms of office and new service agreements for IPNEDs will provide for fees to increase at the discretion of the Co-operative Group Board and will be effective from the beginning of the financial year. In 2012, no such increase was agreed.

The fees for the Co-operative Group Board directors serving on the various Banking Group Boards and committees, were increased in line with RPI at 3.9% from the beginning of the 2012 financial year.

The IPNEDs who are members of committees do not receive additional fees for such posts. The Chairs of the various committees do receive additional fees, as do the Deputy Chairs to the Board, to reflect their additional responsibilities. However, where a Co-operative Banking Group Deputy Chair is a member of or chairs a committee there is no additional fee payable. Currently, Peter Harvey, who is one of the two Deputy Chairs, also chairs the Co-operative Banking Group Audit Committee.

The Non-Executive Directors' service agreements contain no specific provision for liquidated damages on early termination of an agreement.

None of the IPNEDs are directors of the Co-operative Group or members of any Co-operative Group pension scheme or incentive plan.

Details of the directors' year of appointment and fees are shown in table 3.

Implementation section

Total remuneration received by senior executives in respect of 2012 are set out in table 1 and 1a (on page 26).

Total emoluments include:

- zero annual bonus payments in respect of 2012;
- zero LTIP, plan cycle 2010–12, have vested due to aggregate PBT not being achieved;
- details of the termination payments made to senior executives leaving the Bank during 2012; and
- · dates of appointment for senior executives.

2012 AIP Outturn

For the 2012 AIP, zero award is payable due to the threshold profit level not being met. Although balanced scorecard results were strong in areas of colleague engagement, customer advocacy and risk, the scheme profit underpin has not been achieved. Table 1 and 1a show that zero bonus is payable for 2012.

LTIP Outturn

The 2010–12 LTIP cycle was completed in December 2012. Performance was based on shareholder profit, cost management, customer satisfaction and colleague engagement. Zero award is payable due to the Bank not meeting the cumulative profit target. Tables 1 and 1a (column performance related pay medium/long term) show that zero payments are made.

To summarise, senior executives' LTIP grants for 2011–13 and 2012–14 remain outstanding. Payments, if any, would be made in 2014 and 2015 respectively, 50%, will be held in an alternative instrument for an additional six months, subject to additional performance conditions.

Pensions

The Chief Executive and the Managing Director-Retail Bank have restricted pension accrual and were paid a restricted pension allowance.

The Director-Mars Project, the Managing Director-Corporate & Business Banking and the HR Director opted for restricted pension accrual from 1 April 2012 and were paid a restricted pension allowance from that date.

The Managing Director-General Insurance and Director-Integration & Change opted out of future pension accrual from 1 April 2012 and were paid a pension allowance from that date.

The Chief Financial Officer was a member of the Britannia Scheme defined contribution section, under which the contractual employer contribution rate was 12%, until he joined Pace Complete and accrued full pension benefits from 1 April 2012.

The Chief Risk Officer was paid a pension allowance.

All other executives accrued full pension benefits in Pace Complete during the year.

Governance update

Members of the committee during 2012 were Rodney Baker-Bates (Deputy Chair-Co-operative Banking Group) as Chair, together with Len Wardle (Co-operative Group Chair), Peter Marks (Co-operative Group Chief Executive), Paul Flowers (Co-operative Banking Group Chair) and David Davies (Deputy Chair, Co-operative Banking Group). Changes to the committee during 2012 were the appointment of Anne Gunther (Chair) and the resignation of Rodney Baker-Bates. Len Wardle was the interim Chair between Rodney Baker-Bates and Anne Gunther. The Board believes that all members of the committee are independent for the purpose of reviewing remuneration matters.

The Bank's Chief Executive and the HR Director are also invited to attend meetings of the committee except when their own remuneration is being discussed. The Chief Risk Officer provides an annual report to the committee and advice on any specific risk adjustments in relation to remuneration issues as required by the FSA. The committee worked with The Co-operative Group Remuneration and Appointments Committee to ensure consistency, where appropriate, with arrangements across the wider Co-operative Group.

The committee met eight times in the year to 31 December 2012.

FSA Remuneration Code

Details of the aggregate remuneration information required by the FSA are shown in table 4 and are in respect of all the Banking Group's Code staff. The amounts shown in respect of senior executives and Non-Executive Directors do not represent additional remuneration.

By Order of the Board

Anne Gunther, Chair

Co-operative Banking Group Remuneration and Appointments Committee 20 March 2013

Remuneration report continued

Table 1 - Emoluments of senior executives (executive directors) for the year ending 31 December 2012

	Notes	Date of appointment (1)	Basic salary £000	Other supplements (2) £000	Performance related bonus – annual (3) £000	Benefits in kind (4) £000	Total related to 2012 £000	Performance related bonus - long term (5) £000	2012 Total emoluments £000	2011 Total emoluments £000

General Notes

- Note 1 The table above includes all senior executives who were either executive directors or members of the Executive Committee (or who switched status during the year) for the year ending 31 December 2012 and shows their pension details for the period during the year they were in the employment of the Banking Group.
- Note 2 The total accrued pension is that which would be paid annually on retirement at normal retirement age based on service to 31 December 2012 and includes any transferred-in benefits as appropriate. Under the terms of their contracts, existing senior executives at 17 January 2007 may take these benefits from age 60 and new executives after 17 January 2007 may take these benefits from age 65. The transfer values in the table above have been calculated on this basis. Years of service include, where appropriate, pre-merger service with Britannia.
- Note 3 All transfer values have been calculated in accordance with the current transfer value method and basis in force for the scheme applicable to the senior executive. This is set by the Trustee(s), after taking actuarial advice, to be consistent with the requirements of legislation and the rules of the scheme.
- Note 4 Pension scheme members have the option of paying additional voluntary contributions to their respective pension scheme. Neither these contributions nor the benefits arising from them are shown in the above table.

Individual Notes

- Note 5 Barry Tootell has restricted pension accrual and was paid a restricted pension allowance.
- Note 6 Keith Alderson was a member of the Executive Committee during the year. He opted for restricted pension accrual from 1 April 2012 and was paid a restricted pension allowance.
- Note 7 Rod Bulmer was a member of the Executive Committee during the year. He opted for restricted pension accrual from 1 April 2012 and was paid a restricted pension allowance.
- Note 8 Mike Fairbairn opted out of Pace on 23 June 2012 and became entitled to a retirement pension. He left employment on 29 June 2012. His end of year figures are calculated at that date.

 The figures shown on the table at the start of the year and at the year end are after application of a pension sharing order.
- Note 9 John Hughes was appointed to the Executive Committee on 1 March 2012. He has restricted pension accrual and was paid a restricted pension allowance.
- Note 10 Phil Lee opted out of the Britannia Scheme from 1 April 2012 and became entitled to a deferred pension from the Britannia Scheme when he left the scheme. He was paid a pension allowance in lieu of pension provision. He left employment on 30 April 2012. His end of year figures are calculated at that date.
- Note 11 James Mack was a member of the Executive Committee during the year. He was a member of the Britannia Scheme defined contribution section until he joined Pace Complete from 1 April 2012. His defined contribution pension details are shown on Table 2a.
- Note 12 David Neave was appointed to the Executive Committee on 1 March 2012. He opted out of Pace from 1 April 2012 and became entitled to a deferred pension from Pace when he left the scheme. He was paid a pension allowance in lieu of pension provision.
- Note 13 Peter Shaw was appointed to the Executive Committee on 1 July 2012. He was paid a pension allowance in lieu of pension provision.
- Note 14 Mark Summerfield was appointed to the Executive Committee on 1 July 2012
- Note 15 Helen Taylor was a member of the Executive Committee during the year. She opted for restricted pension accrual from 1 April 2012 and was paid a restricted pension allowance.

Independent professional Non-Executive Directors (IPNEDS)				
David Davies	3, 7, 10	2003	90	85
Anne Gunther	6	2011	60	19
Peter Harvey	3, 4, 5	2009	69	68
Merlyn Lowther	5	2011	71	16
Bob Newton	9, 10, 11	2007	97	88
Former Directors who resigned during the year				
Rodney Baker-Bates (to 31 July 2012)	3	2009	44	75
Paul Hewitt (to 21 September 2012)	5	2003	53	68

All fees are pro rata if a position is held for part of the year.

- Note 1 Peter Marks and Martyn Wates, who are employees of the Co-operative Group and are entitled to fees of £16,937 per annum have both agreed to waive these.
- Note 2 Ben Reid and Duncan Bowdler, who are not IPNEDs and who are members of the Co-operative Banking Group Audit Committee, receive an additional fee of £3,387 per annum.
- Note 3 The Deputy Chairs receive an additional fee of £15,720 per annum.
- Note 4 The Chair of the Co-operative Banking Group Exposures Committee received an additional fee of $\pounds 5,240$ per annum.
- Note 5 The Chair of the Board Risk Committee and the Chair of the Co-operative Banking Group Audit Committee each receive an additional fee of £11,004 per annum.
- Note 6 The Chair of the Co-operative Banking Group Remuneration and Appointments Committee receives an additional fee of £9,000 per annum.
- Note 7 David Davies receives an additional fee of $\mathfrak{L}11,004$ per annum as the Chair of Pace.
- Note 8 The Non-Executive Directors who also serve on the Group Board receive an additional fee of £2,258 per annum for serving on the Co-operative Banking Group Remuneration and Appointments Committee and the same fee was payable for serving on the Co-operative Banking Group Exposures Committee until its discontinuation in September 2012.
- Note 9 Bob Newton receives an additional fee of £25,000 per annum for serving on the Board of the Reclaim Fund Limited .
- Note 10 David Davies and Bob Newton both sit on the Board of CIS General Insurance Limited and with effect from 17 July 2012 Bob Newton receives an additional fee of £11,004 per annum as Chair of the Board and David Davies receives an additional fee of £7,300 per annum as a member of the Board.
- Note 11 The Chair of the Co-operative Banking Group Integration and Transformation Committee receives an additional fee of £7,336 per annum.

Table 4 - Aggregate information in respect of Code staff

Number of Code staff	Total remuneration ⁽¹⁾ £000	Total fixed remuneration (2) £000	Total variable remuneration (3) £000	Annual incentive plan (4) £000	Long term incentive plan (5) £000	Sign on and severance payments £000	Severance payments made in year ⁽⁷⁾ £000
Senior Management 27 (6)	6,193	4,439	1,754	_	1,754	_	1378
Other Code staff 19	3,897	3,495	402	_	402	_	_

The table above represents the emoluments of Code staff in relation to their services for The Co-operative Bank

- Note 1 Total remuneration consists of base salary, allowances, employer pension contributions, together with future maximum earnings opportunity comprised in the 2013–15 long term incentive awards.
- Note 2 Total fixed remuneration is base salary plus allowances and employer pension contributions.
- Note 3 Total variable remuneration includes only the awards under the 2013–15 long term plan which are performance related and, to the extent achieved will be payable in 2016. All payments as and when due are made in cash.
- Note 4 Zero awards are payable for the 2012 AIP, due to not meeting the threshold operating profit level.
- Note 5 Awards made under the 2013–15 LTIP are all unvested and represent deferred remuneration in respect of the 2012 financial year, in accordance with the FSA Remuneration Code. Numbers quoted represent maximum earnings opportunities.
- Note 6 Senior management consists of executive directors, members of the executive committee and Non-Executive Directors.
- Note 7 Severance payments are in respect of redundancy for two senior managers. Severance terms include both redundancy payments and the buyout of notice.

Statutory disclosures information

Principal activities

The Bank and its subsidiary undertakings provide an extensive range of banking and financial services in the United Kingdom.

Results and dividends

Loss before taxation and significant items was £288.9m (2011 profit: £197.5m). Loss attributable to the ordinary shareholders amounted to £509.1m (2011 profit: £48.0m). No dividends were paid during 2012 and the directors recommend that no final dividend is paid in respect of 2012.

Post balance sheet events

On 24 January 2013, the Bank announced plans to merge branches in a number of locations where branches were operating in close proximity.

This will result in the closure of 37 branches.

On 28 January 2013, the Bank entered into a transaction to transfer a mezzanine portion of the risk in a portfolio of residential mortgage loans to third party investors, via a special purpose vehicle, Calico Finance Number One Limited. As a result of this transaction the Bank will benefit from a reduction in its total risk weighted assets.

Supplier payment policy and practice

With the exception of the Britannia business area detailed below, the Group does not pay suppliers directly as all supplies and services are sourced through CFS Management Services Limited, a fellow subsidiary of the Banking Group. A management charge is payable to cover the cost of these services.

Suppliers are paid directly by the former Britannia business where the policy is to agree the terms of payment at the start of trading with the supplier, ensure that suppliers are aware of the terms of payment and pay in accordance with its contractual and other obligations. Creditor days at 31 December 2012 were 8 (2011: 27 days).

Significant contracts

The Bank maintains a number of significant contracts with IT providers, cash-handling entities and mailing-service companies as well as with the Banking Group company, CFS Management Services Limited which provides facilities and services for all Banking Group companies.

Outlets

At 31 December 2012 the Bank had 339 branches (2011: 342 branches).

Going concern

Introduction

These financial statements are prepared on a going concern basis as the directors are satisfied that the Group and parent company have the resources to continue in business for the foreseeable future.

The macro economic environment, which has contributed significantly to the result for the year, indicated the need for a refocusing of the Group's strategy. The economic environment shows little sign of improving in the short term. It is one of slow economic growth, low base rates and constrained demand for new lending and it is likely to continue for several more years. The new governor of the Bank of England has indicated that rates are likely to be low for longer with inflation being allowed to rise to improve growth. In response, a broad-ranging strategic review of the business is underway with the objective of improving the capitalisation and profitability of the Group.

The assessment of the going concern basis of preparation has been subject to a thorough process involving analysis and discussion by management, Executive and Board committees and the Board, in line with our governance processes discussed in the risk management section of these accounts. Analysis covered forecast information for the strategic planning period, 2013-2015 (the Plan), stress testing and reverse stress testing as well as the management actions under consideration as part of the strategic review discussed below.

Profit

The Group statutory loss for the year of £673.7m was driven by the following factors:

- credit impairment on non-core assets;
- intangible asset impairment; and
- Payment Protection Insurance provision.

The core business, reflecting the current strategy and risk appetite of the Bank, delivered an operating result of $\mathfrak{L}96.8m$ profit (2011: $\mathfrak{L}137.3m$ profit), which, while lower than 2011, provides a platform for future growth. The non-core business, those activities not congruent with the current strategy, which are managed for value and targeted for run down or exit, generated an operating result of $\mathfrak{L}377.3m$ loss (2011: $\mathfrak{L}3.8m$ profit). As a result, the combined operating result was $\mathfrak{L}280.5m$ loss (2011: $\mathfrak{L}141.1m$ profit). Looking forward, growth in profitability in the core business is expected to be muted in the short term due to continued margin compression and the costs of restructuring. However, this restructuring, simplification and cost reduction agenda will enhance the profitability of the core business in the medium term.

As the non-core business has been identified as inconsistent with the current strategy of the Group, the sale of a proportion of the assets is included in the Plan, with further sale or de-risking opportunities being pursued. The remainder of the non-core assets are being managed for value or targeted for run down. Following the significant levels of impairment charges in 2012, reflecting a deterioration in outlook and specific charges on a number of large cases, we expect further impairment charges to be more moderate, albeit the de-risking of the balance sheet may give rise to further adjustments to value which are expected to be capital neutral.

Statutory disclosures information continued

Capital

The Group's policy is to conserve a robust capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. However, the Group still recognises the need to maintain a balance between the potential higher returns that might be achieved with greater gearing, and the advantages and security afforded by a sound capital position.

Total capital resources are £2,578.2m (31 December 2011: £2,975.9m), with Core Tier 1 capital after regulatory deductions of £1,576.8m (31 December 2011: £1,947.4m).

The Group's capital position remains acceptable with a period end Core Tier 1 position of 8.8% (31 December 2011: 9.6%). Throughout 2012, the Bank and its individually regulated operations have complied with all externally imposed capital requirements. However, the Board recognises the need to build the capitalisation of the Group to provide increased resilience and capacity for future growth. Actions taken early in 2013 have already improved this position to 9.2%

Current forecasts show that the Group's capital will remain above minimum regulatory requirements over the period of the Plan. However, in response to the impact of new Basel III regulations and the expectation of a prolonged economic downturn, we are reviewing our business with the intent of improving our profitability and capital position. Without management action, explained in the Opportunities section below, compliance with regulatory capital requirements would come under pressure.

Liquidity

Group liquidity has been reviewed by considering the latest liquidity forecast (part of the Plan), as well as the stress testing results from 31 December 2012 of the internal assessment of liquidity requirements, together with the Group's compliance with its regulatory required levels.

As at 31 December 2012, the Group held significant levels of surplus assets above regulatory required levels, and had a liquid asset ratio of 14.6% compared to 30 June 2012 of 12.7% and 31 December 2011 of 15.5%.

The Group is predominantly customer focused and there are no significant wholesale maturities due in 2013. Customer deposits have been very stable through the downgrades that the Bank has previously experienced. Stress testing forecasts, as at 31 December 2012, shows that sufficient liquidity levels can be maintained under the most severe scenarios. This is also documented in the Individual Liquidity Adequacy Assessment (ILAA). The Bank has available additional collateral equivalent to 20% of minimum regulatory requirements which can be used in any of the Bank of England schemes.

Risks

The idiosyncratic risks that could affect the future performance of the Group are:

- Further impairment of intangible assets, either due to finalisation of Project Verde (purchase of Lloyds Banking Group branches) or, if Verde were not to proceed, the decision to take a different strategic route in regard to banking technology platforms. The carrying value of the intangible asset, in the books of Co-operative Financial Services Management Services Limited, is £179m.
- Further significant loan impairment, for example on higher risk non-core
 corporate lending. The amount on the watchlist not covered by collateral is
 £275m. The collective impairment methodology takes into account the value
 and risk relating to all exposures that are not already in default. There is an
 additional risk of collateral value erosion, mitigated by non-core corporate
 disposals.
- Conduct risk issues requiring redress. The costs of redress associated with PPI are estimated at £244m. Another industry-wide issue of this type is a risk to the profitability of the Group. The Group has no material exposure to interest rate swap misselling.

- Potential rating agency downgrades. Although there is a risk of downgrade as evidenced by the negative outlook on ratings, forecasts indicate that the Group has sufficient liquidity surplus to accommodate a severe stress after taking account of the successful completion of management actions.
- Adverse customer reaction to the trading position of the Group.
- Failure to complete management actions to strengthen the Group's capital position.

Opportunities

The Co-operative Bank brand continues to show resilience in these tough market conditions and holds a strong market reputation. This is clearly evidenced by our strong customer advocacy scores and numbers of customers switching to us.

The Board sponsored strategic review seeks to build on this platform. This wide-ranging strategic review of our Banking Group businesses, considers the management actions at the Board's disposal which will be undertaken in order to improve profitability and capitalisation of the Group in line with market expectations and Basel III capital requirements. Initial action from this review was concluded in January 2013 when a securitisation transaction was completed to reduce the credit risk on the balance sheet. This improved the Core Tier 1 ratio by 0.4%. The signing of the Sale and Purchase Agreement and subsequent completion of the sale of our Life and Savings business, followed by the planned downstreaming of capital into the Group will also have positive implications for our capital position, subject to regulatory approval.

Amongst other actions, we intend to significantly deleverage or reduce risk in the balance sheet (facilitated to a large extent by the additional impairment charges taken in 2012) and build upon the strength of the core business through a simplification agenda and cost efficiency programme, as well as conservative credit risk appetite and long term growth strategy focused on our core relationship banking franchise. Some of the actions under consideration, for example, options around the sale of other Banking Group businesses (eg General Insurance and Life and Savings businesses), will require support from the immediate parent company, Co-operative Banking Group Limited, in order to downstream capital into the Group.

Although a subsidiary company of the Co-operative Group (the ultimate parent company), no reliance has been placed on that company for parental support as part of the going concern assessment.

The going concern assessment does not take into account the potential long term benefits of the purchase of the Lloyds Banking Group branches (Project Verde). This deal would provide opportunity to enhance the reach of the Bank, grow our customer base, and become a truly compelling alternative for the UK consumer. The deal will only be pursued if it is in the best interests of our customers and members.

Conclusion

The directors are satisfied that the Group is a going concern, has sufficient profit, capital and liquidity in place and forecast, and has plans in place to strengthen that position going forward.

Employees

The majority of the Banking Group's employees have contracts with CFS Management Services Limited and their services are allocated to subsidiaries, including the Bank. Including these people, the Bank and its subsidiary undertakings employed 7,754 persons at 31 December 2012 (2011: 8,528). The weekly average number of people was 8,107 (2011: 8,364) and their aggregate remuneration, before significant items, for the year was £188.0m (2011: £210.8m).

The Bank, as part of the Banking Group operates learning and development initiatives across the organisation as part of a continuous improvement programme, supporting its approach to performance management, personal development, talent and succession planning.

The Banking Group, in Bank-orientated activities, continues to consult and communicate with colleagues on customer, organisation and business performance issues, using colleague publications, surveys, conferences, videos and both informal and formal consultations with Unite and other unions, which continues to be fully involved where organisational change and other issues affect colleagues.

The Bank, as part of the Banking Group, is a member of the following diversity advisory bodies:

- Employers Forum on Disability;
- Employers Forum on Age;
- Race for Opportunity;
- Opportunity Now; and
- Stonewall.

Employees with disabilities

The Banking Group is a holder of the 'Positive about Disabled People' symbol, a recognition given by Jobcentre Plus to employers who have agreed to meet five commitments regarding the recruitment, employment, retention and career development of disabled people. The Banking Group has policies and processes in place to support disabled colleagues in the workplace.

Further guidance, and information for colleagues, on disability issues is available through human resources and on the colleagues' intranet. The Banking Group recognises its responsibility for making reasonable adjustments for new colleagues with disabilities and for those individuals who develop disabilities whilst in employment.

Employees' wellbeing

The Bank, as part of the Banking Group, recognises that health and wellbeing at work play a vital part in delivering its core values. Wellbeing services include an occupational health scheme, physiotherapy services and seasonal wellbeing initiatives such as discounted allergy testing and flu jabs.

In addition to this, colleagues and their immediate families have access to an external employee assistance programme, providing free expert advice on a wide range of medical, legal and family issues.

Corporate responsibility

The Bank's corporate responsibility activities are outlined on pages 13 and 14. In addition, the Co-operative Group Sustainability Report, which will be published in the first half of 2013, describes how the Co-operative Group Limited, the Banking Group, the Bank, Co-operative Insurance Society Limited and CIS General Insurance Limited manage their social, ethical and environmental impacts.

Political and charitable donations

During the year, CFS Management Services Limited made donations (which exclude affinity card payments) of $\mathfrak{L}0.1m$ to charitable organisations on behalf of the Bank (2011: $\mathfrak{L}0.3m$). A number of securitisation vehicles were closed during the year and a dividend payment of $\mathfrak{L}0.3m$ was made to their respective holding companies. Under the terms of the trust, this amount was subsequently paid out to charitable organisations. Additional costs associated with the Bank's community involvement are provided within the Co-operative Group Sustainability Report. It is the Bank's policy that no donations are made for political purposes.

Statement of directors' responsibilities in respect of the report of the Board of Directors and the annual report and financial statements

The directors are responsible for preparing the annual report and the Group and parent company financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare the financial statements for each financial year. Under that law they are required to prepare the financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and applicable law and have elected to prepare the parent company financial statements on the same basis.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and parent company and of their profit or loss for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with IFRS as adopted by the EU; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and parent company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the financial position of the Group and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

The directors have decided to prepare voluntarily a directors' remuneration report in accordance with Schedule 8 to The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 made under the Companies Act 2006, as if those requirements were to apply to the Bank. The directors have also decided to prepare voluntarily a corporate governance statement as if the Bank were required to comply with the Listing Rules and the Disclosure and Transparency Rules of the Financial Services Authority in relation to those matters.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Bank's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Financial statements

So far as the directors are aware, there is no relevant audit information of which the Bank's auditors are unaware, and the directors have taken all steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Bank's auditors are aware of that information.

By Order of the Board **Moira Lees**, Group Secretary

20 March 2013

Independent auditor's report to the members of The Co-operative Bank plc

We have audited the financial statements of The Co-operative Bank plc for the year ended 31 December 2012 set out on pages 33 to 78, 80 and 81 and pages 83 to 132. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the EU and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and in respect of reporting on corporate governance, on terms that have been agreed. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and in respect of reporting on corporate governance, those matters that we have agreed to state to them in our report, and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement set out on page 31, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent company's affairs as at 31 December 2012 and of the Group's loss for the year then ended;
- the Group financial statements have been properly prepared in accordance with IFRSs as adopted by the EU;
- the parent company financial statements have been properly prepared in accordance with IFRSs as adopted by the EU and as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006 and, as regards the Group financial statements, Article 4 of the IAS Regulation.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following:

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made;
 or
- we have not received all the information and explanations we require for our audit.

In addition to our audit of the financial statements, the directors have engaged us to review their Corporate Governance Statement as if the company were required to comply with the Listing Rules and the Disclosure Rules and Transparency Rules of the Financial Services Authority in relation to those matters. Under the terms of our engagement we are required to review:

- the directors' statement, set out on pages 29 and 30, in relation to going concern; and
- the part of the Corporate Governance Statement on pages 13 to 19 relating to the company's compliance with the nine provisions of the UK Corporate Governance Code specified for our review.

Andrew Walker, Senior Statutory Auditor for and on behalf of KPMG Audit Plc, Statutory Auditor Chartered Accountants St James Square Manchester M2 6DS

Basis of preparation and significant accounting policies

For the year ended 31 December 2012

The Co-operative Bank plc is registered in England and Wales under the Companies Act 2006.

Basis of preparation

Both the parent company financial statements and the Group financial statements have been prepared and approved by the directors in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), and IFRS Interpretations Committee (IFRIC) guidance as adopted by the European Union (EU). On including the parent company financial statements here together with the Group financial statements, the Company is taking advantage of the exemption in Section 408 of the Companies Act 2006 not to present its individual income statement and related notes that form a part of these approved financial statements. Information in respect of the Company alone is labelled throughout as 'Bank'.

The financial information has been prepared under the historic cost convention as modified by the revaluation of available for sale financial assets, derivative contracts, investment properties and certain other financial assets and financial liabilities held at fair value. The Group applies the recognition, measurement and disclosure requirements of IFRS in issue that are endorsed by the EU and are effective for accounting periods beginning on or after 1 January 2012.

Standards and interpretations issued and effective

In preparing these consolidated financial statements, the Group has adopted the following pronouncements during the year that are new or revised:

- Amended IFRS 7 (Disclosures: Transfers of Financial Assets (2010))
 This amendment's objective is to promote the transparency of off balance sheet activities, particularly in relation to the securitisation of financial assets.
 Specifically, the transference of these assets and their associated risks are reported in a way that ensures that the user of the accounts is able to understand the financial position of such risks being transferred. The additional disclosure is set out in note 39.
- Amended IAS 12 (Income Taxes: Deferred Tax Recovery of Underlying Assets (2010))

 This amendment's objective is to refine IAS 12's measurement of deferred tax which relates to the recovery of an entity's assets. Previously, the standard stated that an asset's recovery would occur only when it was either used or sold. However, and as a consequence of this amendment, investment properties measured at fair value are excluded from the standard's scope on recovery. The amendment to IAS 12 has no material impact on the financial statements of the Group.

Standards and interpretations issued but not yet effective

• IFRS 9 (Financial Instruments: Classification and Measurement (2010))
This new standard replaces IAS 39 (Financial Instruments: Recognition and Measurement (2009)). Phase one requires financial assets to be classified as at amortised cost or at fair value. Further phases of IFRS 9 are scheduled to cover impairment and hedge accounting.

It becomes effective for accounting periods beginning on or after 1 January 2015. Early adoption is permitted, once endorsed by the EU. The impact of IFRS 9 is likely to be material to the Group, due to the value of financial instruments held on the Group's balance sheet. The standard is currently being drafted and so a detailed assessment of its impact is not currently possible.

• IFRS 10 (Consolidated Financial Statements (2011))

This new standard establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. It supersedes both IAS 27 (Consolidated and Separate Financial Statements (2008)) except where IAS 27 still applies as noted below, and Amended SIC 12 (Consolidation: Special Purpose Entities (2004)). It aims to provide transparency in identifying off balance sheet, parent subsidiary relationships, using a consistent basis for determining the existence and thus consolidation of those underlying entities being controlled by the reporting entity.

It becomes effective for accounting periods beginning on or after 1 January 2013. It has been adopted for use within the EU for accounting periods beginning on or after 1 January 2014. The impact to the Group of IFRS 10 is likely to be immaterial.

• IFRS 11 (Joint Arrangements (2011))

This new standard establishes principles for financial reporting by parties to a joint arrangement. It supersedes both IAS 31 (Interests in Joint Ventures (2010)) and Amended SIC 13 (Jointly Controlled Entities: Non-Monetary Contributions by Venturers (2007)). Recognition criteria now distinguish between joint operations and joint ventures on their relative 'rights and obligations' scope. A joint operation interest is accounted for between assets, liabilities, revenue and expense, whilst a joint venture is restricted to equity accounting.

It becomes effective for accounting periods beginning on or after 1 January 2013. It has been adopted for use within the EU for accounting periods beginning on or after 1 January 2014. The impact to the Group of IFRS 11 is likely to be immaterial.

• IFRS 12 (Disclosure of Interests in Other Entities (2011))

This new standard applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. It aims to provide disclosure transparency on the reporting entity's risks associated with its interests in other entities, in conjunction with IFRS 10's application which determines the existence of such entities.

It becomes effective for accounting periods beginning on or after 1 January 2013. It has been adopted for use within the EU for accounting periods beginning on or after 1 January 2014. The impact to the Group of the additional disclosure requirements is likely to be immaterial.

• IFRS 13 (Fair Value Measurement (2011))

This new standard defines fair value and also acts as its single authority, dealing primarily with both its measurement and disclosure. It does not require fair value measurements in addition to those already required, or permitted by other IFRSs, and is not intended to establish valuation standards or affect valuation practices outside of financial reporting.

The Group will adopt the standard for the accounting period beginning on 1 January 2013. With the exception of additional disclosure, the impact to the Group of IFRS 13 is likely to be immaterial.

Amended IAS 1 (Presentation of Items of Other Comprehensive Income)
 This amendment proposes to split the presentation of other comprehensive income into two sections. The different sections will distinguish between items which may or may not be recycled into any future income or expense.

Basis of preparation continued

The Group will adopt the standard for the accounting period beginning on 1 January 2013. The impact of the amendment to IAS 1 is likely to be immaterial to the Group.

Revised IAS 19 (Employee Benefits (2011))

This revision covers the standard's recognition, measurement and presentation criteria with regard to a pension scheme's expense contained within IAS 19's 'defined benefit' scope. Actuarial gains or losses will now be fully recognised within income or expense, thus removing the previous partial recognition of 'corridor and spreading'.

Furthermore, the revision eliminates the 'expected return on assets' from the measurement of a pension's expense and directs entities to instead charge a cost of finance against its net unfunded liability position.

When determining a discount rate that calculates a pension obligation's present value, reference should be made to market yields. These yields should be matched to high quality corporate bonds, in terms of both the obligation's currency and maturity, ahead of any previously assumed government bond yield reference point.

The Group will adopt the standard for the accounting period beginning on 1 January 2013. The impact of the revision to IAS 19 is likely to be material to the Group, due to the likely impact on the pension costs recharged to the Group.

• Amended IAS 27 (Consolidated and Separate Financial Statements (2011))

This amendment occurs as a direct consequence of IFRS 10's issuance, which now acts as the new single authority on consolidation requirements. IAS 27's scope has therefore reduced and focuses more specifically on separate financial statements' accounting bases. An entity shall therefore prepare its separate financial statements using one of two bases; either at cost or in accordance with IFRS 9.

It becomes effective for accounting periods beginning on or after 1 January 2013. It has been adopted for use within the EU for accounting periods beginning on or after 1 January 2014. The impact of the amendment to IAS 27 is likely to be immaterial to the Group.

Amended IAS 28 (Investments in Associates and Joint Ventures (2011))

This amendment occurs as a direct consequence of IFRS 11's issuance, which now acts as the new single authority on joint arrangements. IAS 28 changes in order to consistently apply equity accounting methods for both joint ventures and associates. An entity shall therefore use IAS 28's equity accounting method, when accounting for any of IFRS 11's joint arrangements.

It becomes effective for accounting periods beginning on or after 1 January 2013. It has been adopted for use within the EU for accounting periods beginning on or after 1 January 2014. The impact of the amendment to IAS 28 is likely to be immaterial to the Group.

• Amendments to IFRS 7 (Disclosures Offsetting Financial Assets and Liabilities)

This amendment requires disclosures to include information that will enable users of an entity's financial statements to evaluate the effect of netting arrangements on the entity's financial position.

The Group will adopt the standard for the accounting period beginning on 1 January 2013. The impact of the amendment to IFRS 7 is likely to be immaterial to the Group.

• Amendments to IAS 32 (Offsetting Financial Assets and Financial Liabilities)

The current offsetting model in IAS 32 requires an entity to offset a financial asset and financial liability only when the entity currently has a legally enforceable right of set-off and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. This amendment clarifies the position when offsetting financial assets and financial liabilities. The legal right of set-off must be available today and legally enforceable for all counterparties in the normal course of business, as well as in the event of default, insolvency or bankruptcy. The amended disclosures will require more extensive disclosures than are currently required. The disclosures focus on quantitative information about recognised financial instruments that are offset in the statement of financial position, as well as those recognised financial instruments that are subject to master netting or similar arrangements irrespective of whether they are offset.

It becomes effective for accounting periods beginning on or after 1 January 2014. It has been adopted for use within the EU for accounting periods beginning on or after 1 January 2014. The impact of the amendment to IAS 32 is likely to be immaterial to the Group.

Other standards and interpretations have been issued but these are not considered to be relevant to the Group's operations.

Going concern

The directors' judgment that it is appropriate to use the going concern basis in preparing the Group's accounts is set out in detail in the Directors' report on pages 29 and 30.

The Group's business activities, together with its financial position, and the factors likely to affect its future development and performance, are set out in the business and financial review on pages 6 to 9. In addition, the risk management section on pages 54 to 79 includes the Group's objectives, policies and processes for managing its risk and details of its exposure to risk. The capital management section on pages 80 to 82 provides information on the Group's capital policies and capital resources.

Consequently, after making enquiries, the directors are satisfied that the Group has sufficient resources to continue in business for the foreseeable future and have therefore continued to adopt the going concern basis in preparing the financial statements. When making this assessment, the directors act within the principles of the Financial Reporting Council's 'Going Concern and Liquidity Risk: Guidance for Directors of UK Companies 2009' report.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2012

Basis of preparation continued

Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are described within the risk management section on pages 54 to 79 and the critical judgments section on pages 51 to 53.

Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

1) Business combinations

On 1 August 2009, The Co-operative Bank plc merged with Britannia Building Society, with Britannia transferring their engagements to the Group.

This business combination has been accounted for applying the requirements of IFRS 3 (Business Combinations (2004)).

The consideration transferred was valued by reference to the members' interests acquired. Financial assets and liabilities which, following the Group's accounting policies, would be carried at amortised cost, were brought onto the balance sheet at their fair value at acquisition and were subsequently carried at amortised cost using the effective interest rate method. The income statement includes the results of the engagements transferred from Britannia since the date of acquisition.

2) Basis of consolidation

a) Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists whenever the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The financial statements have been prepared using uniform accounting policies and are based on the same accounting period as the Group.

Intra-group balances and transactions, and any unrealised gains and losses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

b) Special purpose entities

Special purpose entities (SPEs) are entities that are created to accomplish a narrow and well defined objective; for the Group this includes:

- various securitisation transactions in which mortgages were sold to SPEs. The equity of these SPEs is not owned by the Group; and
- Covered Bond Limited Liability Partnerships created in order to act as a guarantor for the issue of covered bonds (refer to note 36 for further information).

An SPE is consolidated if, based on an evaluation of the substance of its relationship with the Group and the SPE's risks and rewards, the Group concludes that it controls the SPE.

The following circumstances may indicate a relationship in which, in substance, the Group controls and consequently consolidates an SPE:

- the activities of the SPE are being conducted on behalf of the Group according to its specific business needs so that the Group obtains benefits from the SPE's operation;
- the Group has the decision making powers to obtain the majority of the benefits of the activities of the SPE;
- the Group has the rights to obtain the majority of the benefits of the SPE and therefore may be exposed to the risks incidental to the activities of the SPE; or
- the Group retains the majority of the residual or ownership risks related to the SPE or its assets in order to obtain benefits from its activities.

The above circumstances apply to all of the SPEs. Consequently the Group consolidates each SPE.

The assessment of whether the Group has control over an SPE is carried out at inception. No further assessment of control is carried out unless changes in the structure or terms of the SPE or additional transactions between the Group and the SPE occur.

c) Interests in joint ventures

The Group's interests in joint ventures are accounted for using the equity method. The consolidated financial statements include the Group's share of the income and expenses and equity movements of equity accounted investees, after adjustments to align the accounting policies with those of the Group.

3) Revenue recognition

a) Interest income and expense

Interest income and expense is recognised on an effective interest rate (EIR) basis, inclusive of directly attributable incremental transaction costs and fees including arrangement and broker fees, valuation and solicitor costs, discounts and premiums where appropriate and early redemption fees.

The EIR basis spreads the interest income and expense over the expected life of each instrument. The EIR is the rate that, at the inception of the instrument, exactly discounts expected future cash payments and receipts through the expected life of the instrument back to the initial carrying amount. When calculating the EIR, the Group estimates cash flows considering all contractual terms of the instrument (for example, prepayment options) but does not consider assets' future credit losses except for assets acquired at a deep discount.

Significant accounting policies continued

For assets acquired at a value significantly below the carrying value in the acquiree's financial statements because they have incurred loss, expectations of future loss are higher than at origination, and interest spreads have widened because of deteriorating market conditions, the calculation of EIR is the same as shown above with the exception that the estimates of future cash flows include credit losses.

b) Fees and commissions

Fee and commission income is predominantly made up of arrangement and other fees relating to loans and advances to customers that are included in the effective interest calculation. Commitment fees received are deferred and included in the EIR calculation upon completion or taken in full at the date the commitment period expires and completion does not occur.

Fees and commissions payable to introducers in respect of obtaining lending business, where these are direct and incremental costs related to the issue of a financial instrument, are included in interest income as part of the effective interest rate.

All other fee and commission income, such as loan closure fees or arrears fees, not included in the effective interest calculation, is recognised on an accruals basis as the service is provided.

4) Significant items

Items which are material by both size and nature (ie outside of the normal operating activities of the Group) are treated as significant items and disclosed separately on the face of the income statement.

The separate reporting of significant items helps to provide an indication of the Group's underlying business performance. Events which may give rise to the classification of items as significant include individually significant programmes of restructuring, investment, integration and provisions for material non-recurring items.

5) Financial instruments (excluding derivatives)

a) Recognition

The Group initially recognises loans and advances, deposits, debt securities issued and other borrowed funds on the date at which they are originated.

Regular way purchases and sales of financial assets are recognised on the trade date at which the Group commits to purchase or sell the asset. All other financial assets and liabilities are initially recognised on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

b) Derecognition

Financial assets are derecognised when they are qualifying transfers and:

- the rights to receive cash flows from the assets have ceased; or
- the Group has transferred substantially all the risks and rewards of ownership of the assets.

When a financial asset is derecognised in its entirety, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in the income statement.

When available for sale financial assets are derecognised the cumulative gain or loss, including that previously recognised in reserves, is recognised in the income statement

A financial liability is derecognised when the obligation is discharged, cancelled or expires. Any difference between the carrying amount of a financial liability derecognised and the consideration paid is recognised through the income statement.

c) Financial assets

i. Overview

The Group classifies its financial assets (excluding derivatives) as either:

- · loans and receivables;
- · available for sale; or
- $\bullet\,$ financial assets at fair value through income or expense.

ii. Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and the Group does not intend to sell immediately or in the near term. These are initially measured at fair value plus transaction costs that are directly attributable to the financial asset. Subsequently, these are measured at amortised cost using the effective interest method. The amortised cost is the amount advanced less principal repayments, plus or minus the cumulative amortisation using the EIR method of any difference between the amount advanced and the maturity amount less impairment provisions for incurred losses.

Loans and receivables mainly comprise loans and advances to banks and customers (except where the Group has elected to carry the loans and advances to customers at fair value through income or expense as described in accounting policy (5c. iv. below) and assets reclassified from available for sale (see below).

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2012

Significant accounting policies continued

iii. Available for sale

Available for sale financial assets are debt securities and equity shares that are not held for trading and are intended to be held for an indefinite period of time. These are measured at fair value based on current bid prices where quoted in an active market. Where the debt securities and equity shares are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques. Movements in fair value are recorded in equity as they occur. On disposal, gains and losses recognised previously in equity are transferred to the income statement. In exceptional circumstances, for instance where the market in the securities has become inactive, the Group has reclassified such assets as loans and receivables.

Any transfer back from loans and receivables, upon reclassification, would be measured at fair value based on current bid prices where quoted in an active market. Where there is no active market or the debt securities or equity shares are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques.

iv. Financial assets at fair value through income or expense

These are:

• financial assets designated at fair value through income or expense
Financial assets designated at fair value are assets which have been designated to eliminate or significantly reduce a measurement and recognition
inconsistency or where management specifically manages an asset or liability on that basis eg capital bonds.

These assets are measured at fair value based on current bid prices where quoted in an active market. Where there is no active market or the securities are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques. Gains and losses arising from changes in the fair value are brought into the income statement within trading income as they arise.

financial assets held for trading

Financial assets held for trading are assets which have been principally acquired for the purpose of selling or repurchasing in the near term, or they form part of a portfolio of identified financial instruments that are managed together for which there is evidence of a recent pattern of short term profit taking. These financial assets are recognised on the date of trade, when the Group enters into contractual arrangements with counterparties to purchase or sell financial instruments, and are normally derecognised when sold. Measurement is initially at fair value, with transaction costs taken to the income statement. Subsequently their fair values are remeasured, and gains and losses from changes therein are recognised in the income statement within trading income.

d) Financial liabilities

i. Overview

Financial liabilities are contractual obligations to deliver cash or another financial asset. Financial liabilities are recognised initially at fair value, net of directly attributable transaction costs.

Financial liabilities, other than derivatives and capital bonds, are subsequently measured at amortised cost.

Capital bonds within customer accounts have been designated at fair value through income or expense upon initial recognition in the balance sheet. Changes in fair value are recognised through the income statement.

The capital bonds are economically matched using equity linked derivatives, which do not meet the requirements for hedge accounting. Recording changes in fair value of both the derivatives and the related liabilities through the income statement most closely reflects the economic reality of the transactions. In doing so this accounting treatment eliminates a measurement inconsistency that would otherwise arise from valuing the capital bonds at amortised cost and the derivatives at fair value.

ii. Borrowed funds

Borrowings are recognised initially at fair value, which equates to issue proceeds net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between proceeds net of transaction costs and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

The Group classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. The Group's preference shares are classified as financial liabilities as they carry the right to a fixed non-cumulative preferential dividend (further information is provided in note 29) and are subsequently presented in other borrowed funds. The dividends on these preference shares are recognised in the income statement as interest expense on an amortised cost basis using the EIR method.

iii. Perpetual subordinated bonds

Perpetual subordinated bonds are carried at their nominal value plus any premium and a fair value adjustment for hedged risk where items are designated as part of a fair value hedge relationship.

Interest payable on perpetual subordinated bonds is recognised in the income statement using the EIR method.

Significant accounting policies continued

6) Impairment provisions

a) Assessment

i. Objective evidence

At the balance sheet date, the Group assesses its financial assets not at fair value through income or expense for objective evidence that an impairment loss has been incurred.

Objective evidence that financial assets are impaired can include significant financial difficulty of the borrower, a breach of contract, such as default or delinquency in interest or principal payments, the granting by the Group to the borrower, for economic and legal reasons relating to the borrower's financial difficulty, a concession that the Group would not otherwise consider, indications that a borrower or issuer will enter bankruptcy or other financial reorganisation, or the disappearance of an active market for a security.

The Group considers evidence for impairment for loans and advances at both a specific asset and collective level.

ii. Forbearance

The Group operates a policy of forbearance which mitigates against borrower default. All such cases are included within its provisioning methodology.

• Residential secured mortgages

If a loan is identified as being subject to forbearance, it is assessed for impairment. Once classified as impaired, mortgages subject to forbearance are treated in the same way as all other impaired mortgages in the impairment provisions calculations.

· Unsecured retail business

Loans are treated as impaired where the Group has granted forbearance concessions. The amount of the impairment provision will vary with the type of concession granted.

Corporate business

Impairment provisions are made for accounts subject to forbearance which are in default or on a watchlist.

Corporate customers are placed on a watchlist when they show signs of unsatisfactory performance and require close control, but are currently expected to continue trading and where no provision for bad debt is required. Forbearance is a strong indicator that a customer should be placed on the watchlist.

For further information on the Group's approach to forbearance, its management and execution, see the risk management section on pages 54 to 79.

b) Scope

i. Individual accounts

All secured loans and advances are assessed for impairment using a range of criteria graded for levels of risk. Accounts at risk of impairment are monitored and impaired where they display clear indicators of underperformance.

Loans and advances that do not meet the criteria for individual impairment are collectively assessed for impairment by grouping together loans and advances of similar risk characteristics.

ii. Collective accounts

a) Retail

When assessing collective impairment for secured retail loans, the Group estimates incurred losses on mortgages based on the borrower's external credit score or where the loan is identified as being subject to forbearance.

When assessing collective impairment for unsecured retail loans, the Group estimates losses on loans with delinquency greater than a pre-determined trigger point. In addition the Group makes provision on all loans arising from fraud and loans transferred to debt collection agencies. In respect of unsecured loans, the Group uses statistical modelling of historical trends of probability of default, timing of recoveries and the amount of loss incurred.

The model's results are adjusted for management's judgment as to whether current economic and credit conditions are such that actual losses are likely to differ from those suggested by historical modelling. Once impaired, accounts are subjected to higher levels of impairment according to both their relevant stage of delinquency, ie the number of days in arrears, and their consequent likelihood of ultimately being charged off. Default rates, loss rates and future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

b) Corporate

Collective risk cover provides further balance sheet protection for total impairment losses. The amount of collective risk cover is adjusted monthly by the Group. The Group reviews all loans and considers the potential loss which might arise were the borrowers to fail (notwithstanding that continued trading remains the expectation). Trigger events may include a deteriorating balance sheet, material losses, trading difficulties (eg loss of material contracts or suppliers), breach of financial covenants, poor account conduct, arrears and material reduction in value of security. A collective impairment provision is raised against these loans based on the total estimated loss that may arise and the propensity for the borrower to fail.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2012

Significant accounting policies continued

c) Measurement

The amount of the loss is the difference between:

- the asset's carrying amount; and
- the present value of estimated future cash flows (discounted at the asset's original or variable EIR for amortised cost assets and at the current market rate for available for sale assets).

Where the debt is secured, the assessment reflects the expected cash flows from the realisation of the security, net of cost to realise, whether or not foreclosure or realisation of the collateral is probable.

d) Impairment of financial assets carried at amortised cost

The amount of the impairment loss on assets carried at amortised cost is recognised immediately through the income statement and a corresponding reduction in the value of the financial asset is recognised through the use of an allowance account.

A write off is made when all or part of a claim is deemed uncollectable or forgiven after all the possible collection procedures have been completed and the amount of loss has been determined. Write offs are charged against previously established provisions for impairment or directly to the income statement.

Any additional recoveries from borrowers, counterparties or other third parties made in future periods are offset against the write off charge in the income statement once they are received.

Provisions are released at the point when it is deemed that following a subsequent event the risk of loss has reduced to the extent that a provision is no longer required.

e) Impairment of financial assets classified as available for sale

Available for sale assets are assessed at each balance sheet date to see whether there is objective evidence of impairment. In such cases, any impairment losses are recognised by transferring the cumulative loss that has been recognised directly in equity to income or expense.

When a subsequent event causes the amount of impaired loss on available for sale investment securities to decrease, and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the income statement.

However any further recovery in fair value of an impaired available for sale equity security is recognised directly in equity.

7) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to do so and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

8) Sale and repurchase agreements

Securities sold subject to repurchase agreements (repos) are reclassified on the balance sheet as pledged assets when the transferee has the right by contract or custom to sell or repledge the assets. The liability to the transferee is also included on the balance sheet, in deposits by banks. The difference between sale and repurchase price is accrued over the life of the agreements using the EIR method.

Securities purchased under agreements to re-sell (reverse repos) are classified as loans and advances to banks on the balance sheet, as appropriate.

9) Derivative financial instruments and hedge accounting

a) Derivatives used for asset and liability management purposes

Derivatives are used to hedge interest and exchange rate exposures related to non-trading positions. Instruments used for hedging purposes include swaps, forward rate agreements, futures, options and combinations of these instruments. The Group also uses equity derivatives to hedge the equity risks within its capital bonds.

Derivative financial instruments are stated at fair value based on quoted market prices in active markets and, where these are not available, using valuation techniques such as discounted cashflow models. Further information is provided on page 123. All derivatives are carried as assets when the fair value is positive and liabilities when the fair value is negative. The gain or loss on re-measurement to fair value is recognised immediately in the income statement except where derivatives qualify for cashflow hedge accounting.

On initial designation of derivatives and qualifying hedged items as a hedge, the Group formally documents the relationship between the hedging instrument(s) and hedged item(s) including the risk management objective and strategy in undertaking the hedge transaction together with the method used to assess effectiveness of the hedging relationship.

The Group makes an assessment, both at the inception of the hedge relationship as well as on an ongoing basis, as to whether the hedging instruments are expected to be 'highly effective' on offsetting the changes in fair value or cash flows of the respective hedged items during the period for which the hedge is designated, and whether the actual results of each hedge are within a range of 80% to 125%.

Significant accounting policies continued

i. Cash flow hedges

Where derivatives are designated as hedges of the exposure to variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, the portion of the fair value gain or loss on the derivative that is determined to be an effective hedge is recognised directly in equity. The ineffective part of any gain or loss is recognised in the income statement immediately.

The accumulated gains and losses recognised in equity are reclassified to the income statement in the periods in which the hedged item will affect income or expense. When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss recognised at that time remains in equity until the forecast transaction is eventually recognised in the income statement.

When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was recognised in equity is immediately reclassified to the income statement.

ii. Fair value hedges

Where a derivative is designated as the hedging instrument to hedge the change in fair value of a recognised asset or liability or a firm commitment that could affect income or expense, changes in the value of the derivative are recognised immediately in the income statement together with changes in the fair value of the hedged item that are attributable to the hedged risk.

Fair values are based on quoted market prices in active markets or, where these are not available, using valuation techniques such as discounted cashflow models.

If the derivative expires or is sold, terminated, or exercised, or no longer meets the criteria for fair value hedge accounting, or the designation is revoked, then hedge accounting is prospectively discontinued. Any adjustment up to that point, to a hedged item for which the EIR method is used, is amortised to income or expense as part of the recalculated EIR of the item over its remaining life.

iii. Fair value hedge accounting for a portfolio hedge of interest rate risk

As part of its risk management process the Group identifies portfolios whose interest rate risk it wishes to hedge. The portfolios may comprise only assets, only liabilities or both assets and liabilities. The Group analyses each portfolio into repricing time periods based on expected repricing dates, by scheduling cash flows into the periods in which they are expected to occur. Using this analysis, the Group decides the amount it wishes to hedge and designates as the hedged item an amount of assets or liabilities from each portfolio equal to this.

The Group measures monthly the change in fair value of the portfolio relating to the risk that is being hedged. Provided that the hedge has been highly effective, the Group recognises the change in fair value of each hedged item in the income statement with the cumulative movement in its value being shown on the balance sheet as a separate item, fair value adjustment for hedged risk, either within assets or liabilities as appropriate. If the hedge no longer meets the criteria for hedge accounting, this amount is amortised to the income statement over the remaining average useful life of the hedge relationship.

The Group measures the fair value of each hedging instrument monthly. The value is included in derivative financial instruments in either assets or liabilities as appropriate, with the change in value recorded in the income statement.

Any hedge ineffectiveness is recognised in the income statement as the difference between the change in fair value of the hedged item and the change in fair value of the hedging instrument.

b) Embedded derivatives

A derivative may be embedded in another instrument, known as the host contract. Where the economic characteristics and risks of an embedded derivative are not closely related to those of the host contract (and the host contract is not carried at fair value through income or expense), the embedded derivative is separated from the host and held on balance sheet at fair value.

Movements in fair value are posted to the income statement, whilst the host contract is accounted for according to the relevant accounting policy for that particular asset or liability.

c) Derivatives used for trading purposes

Derivatives entered into for trading purposes include swaps, forward rate agreements, futures, options and combinations of these instruments. Derivatives used for trading purposes are measured at fair value and any gains or losses are included in the income statement. The use of derivatives and their sale to customers as risk management products is an integral part of the Group's trading activities.

10) Financial guarantee contracts

Other financial guarantees, in respect of intra-group funding and the pension deficit in respect of the Britannia Pension Scheme, between the Group and its subsidiaries are treated as insurance contracts in accordance with IFRS 4 (Insurance Contracts (2004)). In accordance with the standard, the recognised insurance liability is assessed based on the current estimate of forecast future cash flows. If this highlights that the liability is inadequate, the liability is increased and the corresponding charge taken through the income statement.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2012

Significant accounting policies continued

11) Property, plant and equipment

Items of property, plant and equipment are stated at cost less any accumulated depreciation and impairment losses. Depreciation is provided on a straight line basis at the following rates, which are estimated to write down the assets to realisable values at the end of their useful lives.

Freehold and long leasehold land and buildings 40–50 years
Freehold and leasehold improvements 10–40 years
Short leasehold buildings life of lease

Equipment:

Computer 3–7 years Furniture and equipment 3–10 years

All items of property, plant and equipment are reviewed for indications of impairment on a regular basis and at each balance sheet date. If impairment is indicated, the asset's recoverable amount (being the greater of fair value less cost to sell and value in use) is estimated. Value in use is calculated by discounting the future cash flows generated from the continuing use of the asset.

If the carrying value of the asset is less than the recoverable amount an impairment charge is recognised in the income statement.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within operating expenses in the income statement.

12) Intangible assets

a) Computer software

Computer software is stated at cost less cumulative amortisation and impairment and comprises computer software together with the costs of development of the software.

Acquired computer software licences are capitalised on the basis of cost incurred to acquire and bring the software to use.

Costs that are directly associated with the internal production of software products that will generate future economic benefit are capitalised. Only costs which meet the definition of development costs under IAS 38 (Intangible Assets) are capitalised, with costs being capitalised only if the asset can be reliably measured, will generate future economic benefits and there is an ability to use the asset. Expenditure that is not directly attributable to the development of such assets is recognised in the income statement in the period to which it relates.

The expenditure capitalised includes direct employee costs and an appropriate portion of relevant direct overheads. Amortisation is charged to the income statement on a straight line basis to allocate the cost over the estimated useful life up to a maximum of seven years.

b) Other intangible assets

Other intangible assets are stated at cost less cumulative amortisation and impairment. Amortisation is charged over the useful life of the asset. For core systems, such as core deposit intangibles, a review of the asset's useful life is carried out and a maximum useful life of up to ten years is applied.

c) Impairment

Intangible assets are assessed for indications of impairment annually. If impairment is indicated, the asset's recoverable amount (being the greater of fair value less cost to sell and value in use) is estimated. Value in use is calculated by discounting the future cash flows generated from the continuing use of the asset. If the carrying value of the asset is less than the greater of the value in use and the fair value less costs to sell, an impairment charge is recognised to this value in the income statement. Irrespective of whether there is any indication of impairment, intangible assets in the course of construction are tested for impairment at least annually.

13) Goodwill

All business combinations are accounted for by applying the purchase method. Goodwill represents amounts arising on acquisition of subsidiaries, associates and joint ventures and represents the difference between the cost of the acquisition and the fair value of the identifiable assets, liabilities and contingent liabilities acquired.

If a business combination is achieved without transfer of consideration, the amount of goodwill is calculated by reference to the fair value of the Group's interest in the acquiree using a valuation technique. The technique involves assessing the future net profit of the acquiree and then discounting using a rate that reflects current market assessment of the time value of money and risks specific to the acquiree.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is not amortised but is tested for impairment on an annual basis. Where impairment is required, the amount is recognised in the income statement and cannot be subsequently reversed.

Significant accounting policies continued

14) Leases

a) Overview

The Group enters into leases for land and buildings and operating leases for vehicles and equipment.

Leases for land and buildings are split between leases for the land and leases for the buildings for accounting purposes only. The leases are separately assessed as to whether they are finance or operating leases.

The Group policy is to provide for the minimum future lease payments on buildings that it does not currently use, net of expected rental income from sub-leases.

b) Assets leased to customers

All leases of assets to customers are finance leases. Income from assets leased to customers is credited to the income statement based on a pattern reflecting a constant periodic rate of return on the net investment in the lease.

c) Assets leased from third parties

i. Finance leases

Finance lease assets are initially recorded at the lower of fair value and the present value of the minimum lease payments, and subsequently in accordance with the relevant policy for the underlying asset. An equal liability is recorded in other liabilities. Interest is allocated to the lease payments so as to record a constant periodic rate of charge on the outstanding liability.

ii. Operating leases

Operating lease payments are charged to the income statement on a straight line basis over the term of the lease and the asset is not recognised on the balance sheet.

15) Investment property

Property held for long term rental yields that is not occupied by the Group, or property held for capital appreciation, is classified as investment property.

Investment property comprises freehold land and buildings. It is carried at fair value is based on discounted expected future cashflows and is representative of current prices in an active market for similar properties in the same location and condition. No depreciation is provided on these properties. Any gain or loss arising from a change in fair value is recognised in the income statement.

If the Group takes occupancy of an investment property, it is reclassified as property, plant and equipment and its fair value at the date of reclassification becomes its cost for subsequent accounting purposes. Similarly, transfers to the investment property portfolio are made when occupancy by the Group ceases and the property meets the criteria of an investment property under IAS 40. Prior to such a transfer the property is measured at fair value with any gain or loss recognised in the income statement.

16) Cash and cash equivalents

Cash and cash equivalents comprises cash balances and balances with a maturity of three months or less from the acquisition date, which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose of the cashflow statement.

17) Income tax

a) Overview

Tax on the income statement for the year comprises current and deferred tax, which is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in the statement of comprehensive income.

b) Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

c) Deferred tax

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided for is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2012

Significant accounting policies continued

18) Pension costs

a) Defined contribution basis

With effect from 6 April 2006, the Group, along with other businesses within The Co-operative Group, has participated in the Co-operative Group Pension (average career earnings) Scheme (the Pace scheme), the assets of which are held in a separate fund administered by trustees. The Group's de facto participation level is on a defined contribution basis, as it pays fixed sums into the fund on a regular basis. This level of participation is required because the Pace defined benefit scheme exposes the participating businesses to actuarial risks associated with the current and former employees of other group companies, with the result that there is no consistent and reliable basis for allocating Pace's liabilities, assets and costs to individual companies participating in the scheme. Therefore pension costs in respect of the scheme are accounted for on a defined contribution basis and recognised as an expense in the income statement as incurred.

b) Former Britannia Building Society pension scheme

Following the transfer of engagements of Britannia Building Society, the Britannia defined benefit pension scheme transferred to the Co-operative Financial Services Management Services Limited (CFSMS), a fellow subsidiary undertaking of The Co-operative Banking Group. In accordance with policy 18.a, the pension costs in respect of this scheme are accounted for, by the Bank, on a defined contribution basis and recognised as an expense in the income statement as incurred.

19) Foreign currency

The functional and presentational currency for the Group is sterling. Transactions in foreign currencies are translated at the foreign exchange rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to sterling at the foreign exchange rate ruling at that date. Foreign currency differences arising on translation are recognised in the income statement, except for foreign currency differences arising on translation of available for sale equity instruments or a qualifying cashflow hedge, which are recognised directly in the statement of comprehensive income. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair values are translated to sterling at the exchange rates prevailing at the dates the values were determined.

20) Investments in Group undertakings

Investments in subsidiaries are initially measured at fair value which equates to cost and subsequently valued at cost less impairment.

21) Provisions for liabilities and charges

A provision is recognised in the balance sheet if the Group has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

22) Profit based payments to members of The Co-operative Group

Members of The Co-operative Group receive a dividend based on their transactions with The Co-operative Group and its subsidiaries including the Bank. Once these profit based payments are approved by The Co-operative Group Limited, the Bank is recharged an amount which reflects its eligible products' contribution to the overall Co-operative Group member dividend.

Critical judgments and estimates

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Overview

The Group makes critical judgments and estimates which affect its reported assets, liabilities and profits. Estimates are calculated using various assumptions. Critical judgments, and the assumptions used in calculating estimates, are continually assessed and reviewed, and are based on historical experience and reasonable expectations of future events. Actual results may differ from these judgments and estimates.

2. Loans and advances

a. Overview

The loan portfolios are reviewed on a continual basis to assess impairment. In determining whether an impairment provision should be recorded, judgments are made as to whether there is objective evidence that a financial asset or portfolio of financial assets is impaired as a result of loss events that occurred after recognition of the asset and by the balance sheet date.

The calculation of impairment loss includes expectations of levels of future cash flows, and is based on both the likelihood of a loan or advance being written off and the estimated loss on such a write off.

Where loans are subject to forbearance, they may be treated as impaired. Further explanation of the treatment of forborne balances is included in the Group's risk management disclosures in sections 1.4.1.3, 1.4.1.4 and 1.4.1.5 on pages 60 to 70.

b. Collective provisions

i. Unsecured and secured residential

Personal advances are identified as impaired by taking account of the age of the debt's delinquency, the product type and the regularity of payments made whilst in arrears. The provision is calculated by applying a percentage rate to different categories and ages of impairment debt. The provision rates reflect the likelihood that the debt in that category/age will be written off or charged off at some point in the future. The rates are based on historical experience and current trends, incorporate the effects of discounting at the customer interest rate and are subject to regular review. The provision is the product of the rate and the balance for the relevant arrears band.

The majority of provisions are made against unsecured loans. A key estimate within this provisioning model is the percentage of accounts that will be charged off. A 1% change would change the collective provision by £0.9m.

ii. Corporate

The Group's corporate collective provision has increased to £22.4m (2011: £12.2m), reflecting the continuing difficulties and uncertainties currently being experienced in this sector. This is a consequence of increasing the pool of accounts which are identified as at risk.

Following a review of the loan loss provisioning for the 2012 year end, the collective unimpaired provision methodology has been refined for Corporate.

The methodology has been based on risk parameters defined by the Group. It is a risk based approach, covering accounts with exposures less than £0.5m, not individually reviewed and where a trigger event could have occurred but has not yet been observed.

The formula underpinning this methodology applied to the unimpaired portfolio is:

Exposure x Probability of Default x Loss Given Default x Loss emergence period of six months

A key estimate within the corporate collective model is the loss emergence period. A movement of 1 month in this estimate would change the provision by £6.2m.

c. Individual provisions

i. Secured residential

Mortgage accounts are identified as impaired and provided for on an individual basis by taking account of the age of the debt's delinquency on a case by case basis.

Due to continuing difficulties and uncertainties currently being experienced in this sector, the Group now classifies all accounts with arrears outstanding equivalent to 30 days or more as individually impaired. Previously, the trigger for recognition of individual impairment was 90 days or more.

A total of £5.3bn of impaired Britannia loans and advances to customers were acquired at a deep discount due to estimated future credit losses. This £121.1m discount (2011: £144.9m), is realised on the actual redemptions of the associated mortgages (mainly in Optimum). A key assumption in the judgment of estimated future credit losses is our estimate of future HPI movements. If future HPI movements were to differ from expectations by 5%, the impact on the estimate would be £4.4m.

Following a review of the parameters of the model, the Group maintains its view that no further write backs of the deep discount (2011: £20.0m) will be made due to the remaining uncertainties in the exact timing of economic recovery.

Critical judgments and estimates continued

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

2. Loans and advances continued

ii. Corporate

The Group's corporate individual provision has increased to £433.6m (2011: £105.1m). It reflects both the impact to the Group of having exhausted its associated fair value adjustment for credit risk within the year, and a deterioration of expected future recoveries against impaired loans.

Given the continuing and persistent weakness in economic recovery and the increasing levels of risk associated with refinancing and interest payment cover currently being experienced in this sector, a significantly higher number of cases meet the definition of corporate loans identified as being individually impaired.

Each corporate account is assessed and allocated a 'risk grade' to enable the Group to monitor the overall quality of its lending assets. Those of lesser quality, where the lending is potentially at risk and provisions for loss may be required, are centrally monitored with specific management actions taken at each stage within laid down procedures and specific provisioning criteria. Provisions represent the likely net loss after realisation of any security.

A key estimate within the corporate individual model is collateral valuation. A 10% movement in this estimate would change the provision by £106.2m.

For further information on credit risk and impairment, see section 1 of risk management disclosures.

3. Effective interest rate

IAS 39 requires interest income to be recognised on an effective interest rate (EIR) basis, inclusive of directly attributable incremental transaction costs and fees, and discounts and premiums where appropriate.

The EIR basis spreads the interest income over the expected life of the instrument. The expected life of an instrument is the period from its inception up to its redemption or maturity date, ie for the mortgage portfolio it would be its redemption date, whilst for the non-mortgage portfolio it would be its maturity date.

On applying this approach to the mortgage portfolio, judgments are made in relation to estimating its average life. These judgments are made based on specific factors including product terms and historical repayment data. The estimates are updated in each reporting period to reflect actual performance. Key judgment areas, regularly reviewed for both current and expected levels of mortgage balance experience, are the average and total lives of the mortgage portfolio.

An increase or decrease in the average life by one year would increase or decrease gross interest income by 0.2% respectively.

During 2012, the Group's Optimum mortgage portfolio (which contains products sourced via intermediaries and purchases of mortgage portfolios up to the end of 2008) was remodelled to reflect both current experience of rising average lives (ie higher balances then expected), and projected trends of borrower behaviour predominantly contained within interest only products. In updating for this trend, the Group expects a higher level of mortgage balances over the majority of the contractual term and has therefore extended the end year of the total portfolio life from 2023 to 2035. Extending the average mortgage lives also impacts on redemption rates of the debt securities in issue. The impact of increasing the mortgage redemptions by 10% per annum relating to the fair value adjustments relating to debt securities in issue is to decrease profits by a total of £1.8m in the years up to 2013 and to increase profits by the same amount in the following years up to 2017.

4. Provisions for liabilities and charges

Provisions are carried in respect of certain known or forecast future expenditure, as described in note 32.

a. Financial Services Compensation Scheme levy

i. Background

The Financial Services Compensation Scheme (FSCS) provides compensation to customers of financial institutions in the event that an institution is unable to pay claims against it. As a result of a number of institutions' failures during 2008, the FSCS borrowed £19.7bn from HM Treasury (HMT) in order to meet its obligations to the depositors. These borrowings are anticipated to be repaid substantially from the realisation of the assets of the failed institutions. The FSCS raises annual levies from the banking industry in order to meet its management expenses and compensation cost.

The Group's provision is now made up of two components, an interest levy and a capital levy.

ii. Current expectations of performance

The Group has provided £38.6m (2011: £25.0m) for its share of levies that will be raised by the FSCS.

The interest levy element of the provision is £27.7m and relates to interest on the loan from HMT in respect of the levy years to 31 March 2014. This provision includes estimates for the interest that the FSCS will pay on the loan and of the Group's market participation in the relevant periods.

For every 50bps that 12 month LIBOR is increased, the Group's year end provision for the FSCS levy would increase by £2.9m.

The FSCS has announced that a capital levy totalling £802m will be charged from 2013/14. The Group has provided £10.9m for its share of this additional charge in 2012.

4. Provisions for liabilities and charges continued

b. Payment protection insurance (PPI) provision

i. Background

Provisions have been made in respect of potential customer compensation claims relating to past sales of PPI. Claims are investigated on an individual basis and, where appropriate, compensation payments are made. For a number of years until January 2009, the Bank, along with many other financial services providers, sold PPI alongside credit products.

ii. Current position and expectations of PPI exposure

The Group has recognised a charge in 2012 of £149.7m (2011: £90.0m) for compensation relating to past sale of PPI policies. The provision represents management's best estimate of the anticipated costs of related customer contact and redress, including administration expenses. At 31 December 2012, after redress and operating costs paid during the year, the remaining provision was £116.0m.

The provision is based on the FSA's policy statement and industry claims experience. Its calculation requires significant judgment by management in determining appropriate assumptions, which include the level of complaints, uphold rates, proactive contact and response rates, and Financial Ombudsman Service referral and uphold rates. A 20% increase in the expected level of complaints would increase the provision by £40m.

The remaining provision is currently management's best estimate of total future settlements and the costs of handling them.

5. Transformation plan

The Banking Group has a strategic programme of investment around the replacement of the core banking system. This intangible asset is held on the balance sheet of CFSMS, a sister company of the Bank. It undergoes an annual impairment review, where the present values of projected future benefits are assessed against the carrying value of the asset plus estimated costs to complete.

After conducting the 2012 annual review, £150m of impairment has been recognised in the accounts of CFSMS, and recharged to the Bank. This impairment reflects a worse economic scenario than in the original business case and an increased understanding of the costs to complete.

This is a highly judgmental review, which uses estimated costs and benefits and relies of judgments around the strategic direction of the business, the future economic environment and the businesses' ability to exploit a new system.

There are inherent uncertainties in such estimates. Outside of the inherent uncertainties in estimating costs and benefits, there are two other material and sensitive judgments which must be made, being the discount rate and the date of implementation. A 1% change in the discount rate would increase/decrease the impairment by £26m in 2012. A six month delay in implementation would reduce the value in use by £35m.

The remaining £179m of spend, held on the balance sheet of CFSMS, would be written off if Project Verde were to be successfully concluded, given the intention to adopt the core banking platform used by the Verde business. Should Project Verde not be completed, this project would be reinvigorated and the directors are confident of a successful implementation.

6. Deferred tax

The Group has a net deferred tax asset balance of £37.2m that will result in future tax deductions.

Recognition of deferred tax assets is only possible to the extent it is probable that future taxable profits will be available against which the unused tax losses and tax credits can be utilised. The deferred tax asset representing tax losses carried forward can only be offset against future taxable profits in the Bank.

Other elements of the deferred tax asset will give rise to timing differences which can be used to offset against future taxable profits in the rest of The Co-operative Group.

After preparing forecasts and projections of profits before tax for The Co-operative Banking Group, the directors are satisfied that there will be sufficient profits in the foreseeable future to absorb this level of unused tax losses.

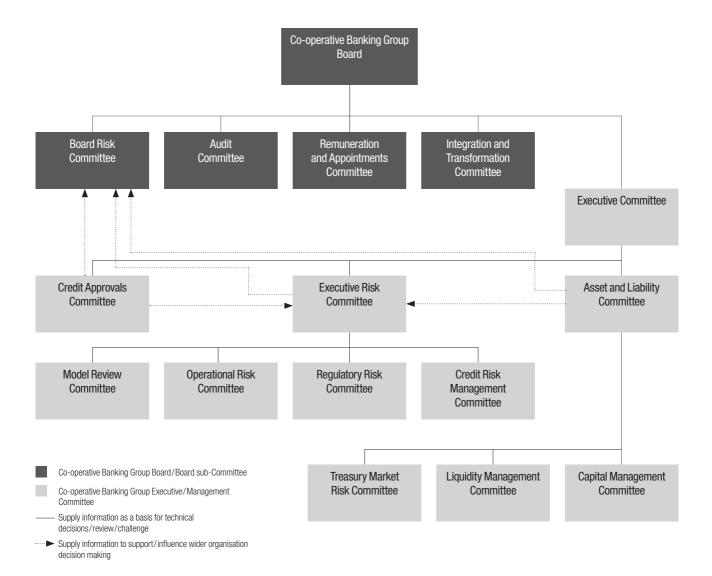

Risk management

For the year ended 31 December 2012 All amounts are stated in £m unless otherwise indicated

Risk management structure

The Co-operative Banking Group (the Banking Group) includes The Co-operative Insurance Society Limited, CIS General Insurance Limited and The Co-operative Bank plc.

The Banking Group has developed and implemented a common governance and organisation structure, which supports all of the Boards within the Banking Group. The following is that part of the governance structure applicable to The Co-operative Bank plc and its subsidiaries.

The Co-operative Banking Group Board

The Co-operative Banking Group Board (the Board) is responsible for approving the Banking Group strategy, its principal markets and the level of acceptable risks articulated through its statement of risk appetite. It is also responsible for overall corporate governance which includes ensuring that there is an adequate system of risk management and that the levels of capital and liquidity held are consistent with the risk profile of the business.

Board delegation

The Board has established Board sub-committees and senior management committees whose responsibilities include:

- overseeing the risk management process;
- identifying the key risks facing the business; and
- assessing the effectiveness of planned management actions.

Specific Board authority has been delegated to Board sub-committees and the Chief Executive Officer (CEO) who may, in turn, delegate authority to appropriate executive directors and their senior line managers.

This includes:

- setting limits for individual types of risk; and
- approving (at least annually) and monitoring compliance with risk policies and delegated levels of authority.

Board Risk Committee (BRC)

The BRC provides oversight and advice to the Board on current and potential risks and the overall risk framework. Its responsibilities include:

- reviewing and challenging the design, implementation, quality and effectiveness of the risk management framework including internal controls and principal risk coverage;
- monitoring the organisation's performance and compliance against high level risk appetite limits and tolerances;
- monitoring identified risk control failings and weaknesses and management actions taken to resolve them; and
- reporting on the effectiveness of the risk management framework and systems to the Board.

Audit Committee (AC)

The AC provides oversight on financial reporting, internal control, regulatory compliance and external and internal audit. Its responsibilities include:

- assisting the Board in carrying out its responsibilities relating to internal control, including control breaches and remediation; and
- exercising oversight of identified risk control framework failings and weaknesses as well as management actions taken to resolve them.

Remuneration and Appointments Committee

The terms of reference of the Remuneration and Appointments Committee are explained in the Directors' report on pages 20 to 25.

Integration and Transformation Committee

The role of the Integration and Transformation Committee is to provide oversight by in depth review of transformation activity within the organisation in order to give assurance on progress.

Executive Committee

The Executive Committee manages the business in line with the Board risk appetite statement. It also maintains oversight of risk management processes and management information. Its responsibilities include:

- overseeing the establishment and maintenance of appropriate risk management systems and controls in line with the Board agreed risk management framework;
- supporting the CEO in developing, reviewing and approving detailed risk appetite limits and tolerances as delegated by the Board; and
- ensuring the implementation of the risk strategy set by the Board so as to deliver an effective risk management environment for the Banking Group.

Credit Approvals Committee

The Credit Approvals Committee supports the CEO to carry out responsibilities, including but not limited to:

- sanctioning large counterparty transactions; and
- managing large exposure positions.

Executive Risk Committee (ERC)

The ERC is chaired by the Chief Risk Officer (CRO). Its purpose is to provide a mechanism to ensure all the Banking Group's risks are reviewed, challenged and approved (with escalation to BRC where required). Its responsibilities include:

- monitoring all significant and emerging risks against risk appetite;
- overseeing the development and implementation of stress testing and risk appetite across the Banking Group;
- driving the detailed implementation of the Banking Group's risk management framework approved by the Board;
- supporting the CEO in developing the risk strategy, risk management framework, and risk appetite statement with recommendations to BRC and the Board for approval where required; and
- monitoring the business' risk profile against the agreed limits and tolerances and reporting on these to the BRC.

Asset and Liability Committee (ALCO)

ALCO is chaired by the CEO. It is primarily responsible for overseeing the management of capital, market, liquidity and funding risks. Its responsibilities include:

- identifying, managing and controlling the Banking Group balance sheet risks in executing its chosen business strategy;
- ensuring that the capital and solvency position is managed in line with policy and that adequate capital is maintained at all times;
- · overseeing and monitoring relevant risk control frameworks; and
- recommending to the CEO and ERC relevant principal risk policies and detailed risk appetite limits for approval.

To assist in carrying out these responsibilities, ALCO is supported by a Treasury Market Risk Committee, Liquidity Management Committee and Capital Management Committee.

Risk and capital management sub-committees

Model Review Committee (MRC)

The MRC provides oversight and challenge of model governance across the Banking Group in support of the Enterprise Risk Director.

Operational Risk Committee (ORC)

The ORC is chaired by the Operational Risk Director. It monitors significant operational risks and controls as well as the management actions taken to mitigate them to an acceptable level or transfer them.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

Regulatory Risk Committee (RRC)

The RRC supports the Regulatory Risk Director in oversight of:

- regulatory reporting requirements;
- ongoing regulatory engagement;
- conduct of business issues including fair treatment of customers; and
- the maintenance of the appropriate authorisations for the regulated entities within the Banking Group (including oversight of any variation to permission).

Credit Risk Management Committee (CRMC)

The CRMC advises and supports the Credit Risk Director. Its responsibilities include:

- designing the credit risk control implementation approach, the credit control framework and making recommendations to the ERC;
- reviewing and recommending to the ERC the Banking Group credit risk policy and credit measurement methodologies;
- defining and recommending the credit risk appetite and limits to the ERC; and
- reviewing and challenging the Banking Group's credit risk processes and procedures including the credit risk rating systems.

Treasury Market Risk Committee (TMRC)

The role of the TMRC is to review, challenge and monitor the market risk profile for the Banking Group, in line with policy and within risk appetite.

Liquidity Management Committee (LMC)

The role of the LMC is to enable more detailed discussion on all aspects of Banking Group liquidity risk management, monitoring and control including operational issues in respect of covered bond and residential mortgage backed security funding activities. It also recommends actions to ensure the Banking Group's liquidity position remains in line with agreed levels.

Capital Management Committee (CMC)

The role of the CMC is to review, challenge and monitor the capital adequacy of the Banking Group, in line with capital policy and within risk appetite. The CMC is responsible for making recommendations to ALCO as appropriate.

Risk Management Forums

There is also a framework of sector specific management forums supporting risk and capital management, optimising performance and monitoring adherence policy.

Roles and Responsibilities

The Banking Group operates a three lines of defence governance model to ensure appropriate responsibility and accountability is allocated to the management, reporting and escalation of risks.

Business management act as the first line of defence. They are responsible for identifying where the business area is exposed to risks, including from the development of new products, processes or other business change. They also manage the risks that reside within their business areas on a day to day basis, implementing effective monitoring and control processes to ensure that the business' risk profile is understood and maintained within the Board defined risk appetite.

The risk function act as the second line of defence. They oversee and challenge the implementation and monitoring of the risk framework and consider current and emerging risks across the Bank. They also provide review and challenge of the delegated authority framework and oversee appropriate escalation of breaches, mitigating actions and reporting to the ERC.

Internal Audit act as the third line of defence. They are responsible for independently verifying that the principal risk control framework has been implemented as intended across the business and independently challenge the overall management of the framework to provide assurance to the Audit Committee and senior management on the adequacy of both the first and second lines.

Recovery and Resolution Planning (RRP)

RRP is a Bank of England/FSA requirement, which has two distinct elements:

- the recovery plan is the Group's menu of options for addressing a range of financial stresses caused by idiosyncratic problems, market wide stresses, or both; and
- resolution planning is the provision of information and analysis to the authorities, in order to help them prepare a resolution plan for the Group.

There are six separate modules for RRP, all of which have gone through formal governance approval. The approval route is as follows:

- Executive team;
- ERC;
- BRC; and
- the Board.

In addition, as the recovery plan (module two) has been live since June 2012, a series of management information triggers and early warning signals are reported each month to the ERC, for the committee to determine whether to recommend the invocation of the recovery plan.

Significant risks

The following are considered to be the most significant risks facing the Group:

Ris	k type	Definition	Page
1.	Credit risk	Credit risk is the current or prospective risk to earnings and capital arising from a borrower's failure to meet the terms of any contract with the Group or their failure to perform as agreed.	57
2.	Liquidity and funding risk	Liquidity and funding risk is the risk that the Group's resources will prove inadequate to meet its liabilities as they contractually fall due or as a result of any contingent or discretionary cash outflows that may occur in a stress. It arises from the mismatch of timings of cash flows generated from the Group's assets and liabilities (including derivatives).	74
3.	Market risk	Market risk is the risk that the value of assets and liabilities, earnings and/or capital may change as a result of changes in market prices of financial instruments. The majority of the Group's market risk arises from changes in interest rates.	76
4.	Operational risk	Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or external events. This encompasses the effectiveness of risk management techniques and controls to minimise these losses.	79
5.	Reputational risk	Reputational risk is the risk associated with an issue which could in some way be damaging to the brand of the Group either through its strategic decisions, business performance, an operational failure or external perception.	79
6.	Strategic and business risk	Strategic and business risk arises from changes to the Group's business and the environment in which it operates, specifically the risk of not being able to carry out the Group's business plan and desired strategy.	79
7.	Conduct risk	Conduct risk is the risk that the Group's behaviours, offerings or interactions will result in unfair outcomes for customers.	79
8.	Pension risk	Pension risk is defined as the risk to Group capital and company funds from exposure to scheme liabilities and risks inherent in the valuation of scheme liabilities and assets.	79

The Board is aware that, as the potential acquisition of Verde progresses, the risk profile of the Group will continue to evolve. A considerable amount of work is underway to implement and embed the improvements to the risk management framework that were designed in 2012 and align it to the project work underway for Verde.

1. Credit risk

1.1 Overview

Credit risk is one of the principal risks identified in the risk management framework and is an integral part of our business activities. It is inherent in both traditional banking products (loans, commitments to lend, and contingent liabilities such as letters of credit) and in 'traded products' (derivative contracts such as forwards, swaps and options, repurchase agreements, securities borrowing and lending transactions).

All authority to take credit risk derives from the Banking Group's Board. This authority is delegated to the CEO and then on to other individuals. The level of credit risk authority delegated depends on seniority and experience, and varies according to the quality of the counterparty, associated security or collateral held.

1.2 Credit risk policy

The principal risk policy for credit risk is approved annually by the ERC and defines appropriate standards and principles for the effective management of credit risk throughout the Group.

The key principles of the policy are:

- credit risk management is fully embedded in Group operations and the business is managed in line with the risk strategy and risk appetite set by the Board;
- identified, emerging or current risks are actively managed in line with the Group's overall risk management approach of identification, measurement, management, monitoring and reporting;
- risk measurement is based on a set of metrics/ratios which are aligned with the risk appetite and support the limits framework;
- timely processes for assessing and reviewing credit risks throughout the credit life cycle are established and documented including completion of risk reports; and
- credit risk decisions are supported by fully evidenced rationale with all material credit risk exceptions reported promptly to the Credit Risk Director.

1.3 Credit exposure

1.3.1 Definitions

Impaired and not impaired in the tables below are defined in the following sections on retail and corporate credit risk and investment securities.

Fair value adjustments represent lifetime expected credit losses on assets acquired on the merger of the Bank and Britannia Building Society on 1 August 2009 and are reviewed on a regular basis to ensure appropriate allocation and utilisation.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Credit risk continued

1.3.2 Analyses of credit exposure

The following analysis of credit exposure shows:

- carrying amounts by class of asset in the balance sheet;
- the gross credit exposure by class of asset (excluding fair value adjustments and allowance for losses but including credit commitments); and
- the net credit exposure by class of asset (including fair value adjustments, allowance for losses and credit commitments).

Cash and balances at central banks are credit exposures with the Bank of England and have been excluded from the analysis.

The comparative table has been updated to include the changes made to impairment criteria. An analysis of the credit risk exposure for the Bank is provided in note 40.

1.4 Analysis of impaired assets and associated collateral

The following sections provide further analysis and disclosure of the Group's credit risk associated with:

- loans and advances to customers;
- investment securities; and
- loans and advances to banks.

1.4.1 Loans and advances to customers

1.4.1.1 How we oversee and control credit risk

The credit risk team is part of the risk directorate, independent from business management, and provides second line risk oversight. The credit risk team performs the following tasks and responsibilities related to its role:

- design and implementation of risk assessment and rating systems;
- · monitoring of risk assessment and rating systems;
- maintenance of lending policy and procedures, and upkeep of various returns and reporting requirements;
- benchmarking against third party data and vendor model sources;
- reviewing the risk criteria to ensure they remain predictive of risk;
- oversight of independent validation;
- development and monitoring of risk appetites; and
- liaison with the FSA regarding proposed changes to rating systems and forecast regulatory capital levels.

On pages 60 to 70 the management of credit risk by portfolio is described covering:

- · acquisition and account management;
- collateral:
- impairment assessment; and
- forbearance.

1.4.1.2 Assessment for impairment

The loan portfolios are periodically reviewed to assess impairment. A loan is deemed to be impaired when there is objective evidence that a loss event has occurred after recognition of an asset and by 31 December 2012.

Once a loan is defined as impaired the provision is calculated as the difference between the current carrying value of the asset (including fair value adjustments) and the expected future recovery, discounted at the loan's effective interest rate, taking into account the expected charge off rate and any supporting collateral.

Full details are contained in the significant accounting policies on page 45 and in the following credit risk sections.

The tables below analyse the gross balance by impairment classification for the Retail and Corporate and Business Banking (CABB) business segments. They include credit commitments, impairment provisions, fair value adjustments and a reconciliation to gross customer balances as this is the basis on which the business manages risk.

		Retail		CABB		Total

The comparative table has been updated to include the changes made to impairment criteria and to include Platform within the Retail segment.

The disclosures in sections 1.4.1.3 Secured residential credit risk, 1.4.1.4 Unsecured retail credit risk and 1.4.1.5 Corporate credit risk are all based on the gross customer balances in the above tables.

1.4.1.3 Secured residential credit risk

Acquisition and account management

Mortgages are loans to customers secured by a first charge over a residential property. Mortgages are originated directly to customers via branches, telephone and the internet under the Britannia and Co-operative Bank brands, and via intermediaries under the Platform brand. In 2012 70% (2011: 55%) of mortgages were originated directly and 30% (2011: 45%) through intermediaries.

The Britannia and Co-operative Bank brands only originate prime residential mortgages, while Platform originates a combination of prime and 'almost prime' residential mortgages and buy to let loans. All new advances are on a repayment basis, with the exception of buy to lets.

The table below shows residential mortgage completions in the period, analysed by loan to value (LTV) and repayment method:

		2012			2011	
	Amount advanced	Average LTV %	Interest only %	Amount advanced	Average LTV %	Interest only %
Retail prime	1,854.7	60.3	7.8	790.5	57.9	11.8
Platform prime	248.1	62.0	17.5	182.1	66.1	22.1
Total prime	2,102.8	60.5	8.9	972.6	59.3	13.0
Buy to let	538.7	63.1	84.3	446.3	62.6	83.0
Almost prime	7.6	57.0	1.2	10.3	52.9	13.4
Total completions	2,649.1	61.0	24.6	1,429.2	60.4	30.4

Mortgages originated by Platform prior to 2009 and those acquired by Britannia Treasury Services are managed as part of a closed portfolio, Optimum. These loans include a range of asset types, including prime residential (both income verified and self-certified), buy to let, and non-conforming mortgages.

Loans may have been advanced on a capital and interest repayment basis, where the loan is repaid over the term of the loan, or interest only, where the capital element of the loan is repayable at the end of the term.

The table below shows residential mortgages gross customer balances analysed by LTV banding:

		2012			2011	
	Retail secured	Optimum	Total	Retail secured	Optimum	Total
Less than 50%	5,459.9	460.3	5,920.2	5,706.7	484.0	6,190.7
50% to 60%	2,233.1	358.6	2,591.7	2,157.8	372.7	2,530.5

Almost prime	940.9	89.8	67.4	997.1	89.5	67.1
Non-conforming	1,757.6	77.6	66.7	1,874.1	77.1	65.7
	23,423.2	53.6	41.9	23,727.1	52.7	42.9

Collateral

All mortgages are secured by a first charge over the property being purchased or remortgaged. Valuation of the property is normally assessed by a RICS certified valuer from the Group's approved panel of valuers. For low LTV remortgages, valuation may be assessed through the use of an automated valuation model (AVM). Performance of AVMs is monitored on a regular basis to ensure their ongoing accuracy.

It is not normal practice to reassess the valuation of collateral unless further lending is being considered, or the property has been repossessed, but on a quarterly basis the valuation is restated using a regional property price index.

The risk in the portfolio is revalued monthly using internally developed behavioural models, to assess the likelihood of loss and to reflect any changes in the value of collateral (see below). The revaluation will determine the amount of capital required to be held for individual loans.

The table below analyses the fair value of property collateral held against mortgage portfolios:

		2012			2011	
	Exposure	Collateral	Cover %	Exposure	Collateral	Cover %
Impaired	1,445.3	1,386.3	95.9	1,603.5	1,541.4	96.1
Not impaired	21,977.9	21,831.7	99.3	22,123.6	21,990.3	99.4
	23,423.2	23,218.0	99.1	23,727.1	23,531.7	99.2

Impairment

A loan is considered to be individually impaired when:

- arrears outstanding are equivalent to 30 days or more; or
- the loan is more than 90 days past its due date for final repayment but has not been repaid; or
- the account is in litigation or the property is in possession; or
- the estimated forced sale value of the collateral on a roll up mortgage has reduced below the loan balance outstanding.

Loans meeting any of these criteria are considered impaired even if a loss is not expected in the event of repossession.

Loans are also assessed for impairment where any of the following criteria apply, although these factors alone are not deemed to be objective evidence of impairment and therefore a collective provision is held against potential losses:

- the loan is in arrears by less than 30 days; or
- there has been a material deterioration in the borrower's external credit score in the last 12 months; or
- the loan is identified as being subject to forbearance (refer to forbearance section).

On the Optimum portfolio only, any loans not meeting any of the preceding criteria are assessed for impairment based on the probability that they will move to 90 days in arrears within the next three months.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Credit risk continued

For each loan assessed for impairment a shortfall is calculated based on the difference between the current loan balance and the expected 'forced sale' price of the collateral, discounted at the current interest rate to reflect the anticipated time to sale, and taking into account anticipated fees and costs prior to sale. This shortfall is then reduced on a collective basis to reflect the probability of the loan being taken into possession.

The table below shows:

- impaired customer balances as a percentage of gross customer balances; and
- impairment coverage, ie impairment provisions and fair value adjustments as a percentage of impaired customer balances.

		2012			2011	
	Retail secured	Optimum	Total	Retail secured	Optimum	Total
Gross customer balances	15,931.0	7,492.2	23,423.2	15,792.9	7,934.2	23,727.1
Impaired customer balances	156.0	1,289.3	1,445.3	144.3	1,459.2	1,603.5
Impaired as a % of gross customer balances	1.0%	17.2%	6.2%	0.9%	18.4%	6.8%
Credit protection						
Impairment provisions	3.2	11.0	14.2	3.1	8.3	11.4
Fair value adjustments	5.2	115.9	121.1	6.7	138.2	144.9
	8.4	126.9	135.3	9.8	146.5	156.3
Credit protection as a % of impaired customer balances	5.4%	9.8%	9.4%	6.8%	10.0%	9.7%

The comparative figures have been updated to include additional balances subject to forbearance and Platform as it is now included within this segment.

The table below shows the credit quality of loans and advances that are not impaired:

		2012			2011	
	Retail secured	Optimum	Total	Retail secured	Optimum	Total
Low to medium risk	14,931.6	5,901.0	20,832.6	14,796.8	6,218.4	21,015.2
Medium to high risk	843.4	301.9	1,145.3	851.8	256.6	1,108.4
	15,775.0	6,202.9	21,977.9	15,648.6	6,475.0	22,123.6

Low to medium risk is defined as exposures with a probability of default (PD) in the next year of 1% or below using the internal ratings based (IRB) approach under Basel II. Medium to high risk is defined as exposures with a PD in the next year of greater than 1%.

Forbearance

A number of options are available to borrowers in financial difficulty. Repossession of the property will only be considered when all other avenues have been explored. The precise treatment selected depends on the borrower's individual circumstances, but may include:

- arrangements to repay outstanding arrears over a period of time, by making payments above the contractual amount. The loan is deemed to be impaired, until
 the arrears have been cleared in full:
- short term concessions, where the borrower is allowed to make reduced repayments (or, in exceptional circumstances, no repayments) on a temporary basis to assist with a short term financial hardship. In these cases the shortfall on the repayments will accrue as arrears and the loan is deemed to be impaired;
- payment holidays are allowed as part of a customer's flexible mortgage contract. Payment holidays are not knowingly allowed for customers experiencing
 financial hardship. However, in the absence of evidence to the contrary, loans that have had a payment holiday in the last two years are treated as being subject
 to forhearance:
- temporary conversion of a mortgage to interest only repayments. The capital repayments due in this period are spread over the remaining term on conversion back to capital repayment as part of an instalment recalculation exercise;
- a permanent switch from capital and interest repayments to interest only repayments, provided the borrower declares they have an alternative means of repaying the capital at the end of the term;
- an extension to the mortgage term to reduce the borrower's repayments. Loans that have had a term extension in the last two years (or since 2008 in the case of the Optimum portfolio) are considered to be subject to forbearance;
- capitalisation, where outstanding arrears are added to the capital value of the loan to be repaid over the remaining term. This is only considered where it is appropriate for the borrower's circumstances, and where the borrower has been performing for at least six months. During 2012, 20 (2011: 90) loans had arrears capitalised of £0.03m (2011: £0.3m). These loans are not treated as impaired unless the borrower meets another impairment trigger (eg misses a mortgage payment); and
- where applicable we will work with the customer as part of a government support scheme. Unmet loan payments will continue to accrue as arrears until such time as the loan is cleared, or the outstanding payments are brought up to date.

The Group does not offer all forms of forbearance that are cited within the FSA's Finalised Guidance on Forbearance and Impairment. In particular, the following are not offered by the Group:

- change in payment date (other than a change to an alternative payment date within the same calendar month);
- deferral of payment (other than through an agreed concession as shown above);
- use of linked pre-approved reserve/credit/overdraft limits to meet an overdue mortgage payment;
- transfer to a lower interest rate, whether by variation to the agreed rate or through a concessionary product; and
- financial support to customers through assisted sales or partial debt write-off to reduce the amount owing.

The underlying basis for the calculation of residential mortgage impairment provisions remains unchanged. Mortgages subject to forbearance, once classified as impaired, are treated in the same way as all other impaired mortgages in the impairment provisions calculations.

The table below analyses secured residential mortgage balances by type of forbearance and the associated gross impairment coverage, including credit fair value adjustments:

value adjustments:				
	Neither past due nor impaired	Impaired	Loans subject to forbearance	Impairment coverage
2012

	958.2	493.5	1,451.7	(27.1)

1.4.1.4 Unsecured retail credit risk

Acquisition and account management

The Group offers unsecured lending through fixed repayment loans, credit cards and overdrafts. Borrowers are assessed using a combination of credit scoring and policy rules to ensure that expected delinquency levels are within the risk appetite of the business and deliver an appropriate level of return. Credit cards and overdrafts are subject to ongoing account management to increase or decrease credit limits and manage over limit authorisations.

The risk in the portfolio is reassessed monthly using internally developed behavioural scorecards to determine the amount of capital required to be held for individual loans.

The following table shows unsecured lending gross customer balances (including undrawn commitments) by product type:

	2012	2011
Loans	734.3	751.0
Credit cards	2,703.6	2,841.4
Overdrafts	382.8	377.0
	3,820.7	3,969.4

Impairment

Provisions are made on all debts with delinquency greater than a pre-determined trigger point, which the Group deems to be the point of impairment, and on all fraud and debt at agents' accounts.

Credit cards are identified as impaired immediately if the borrower fails to make the minimum payment by the due date.

Loans are identified as impaired if a monthly payment has not been made 15 days after it was due.

An overdraft is defined as impaired if the account has been overdrawn in excess of any agreed limit for 45 days, or if the agreed overdraft has expired but the account remains overdrawn.

304

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Credit risk continued

Accounts identified as impaired are segmented according to the number of days that the loan has been impaired. The provision for each segment is based on the loss expected. An account is charged off when all internal economical avenues to recover the debt have been exhausted, and written off when all external avenues have been exhausted.

The table below shows:

- gross customer balances (excluding undrawn commitments);
- impaired customer balances as a percentage of gross customer balances; and
- impairment coverage, ie impairment provisions including those charged off in relation to Debt Collection Agencies (DCA) as a percentage of impaired customer balances.

	2012	2011
Gross customer balances	1,488.5	1,535.6
Impaired customer balances	301.1	309.7
Impaired as a % of gross customer balances	20.2%	20.2%
Credit protection		
Impairment provisions	172.8	163.3
DCA balances charged off	86.8	90.0
	259.6	253.3
Credit protection as a % of impaired customer balances	86.2%	81.8%

The impaired customer balances and credit protection shown above include provisions charged off in relation to DCA cases.

Forbearance

A number of forbearance options are available to borrowers in financial difficulty. These include arrangements to repay arrears over a period of time or to accept payments of less than the contractual amount during a period of temporary financial hardship. In these circumstances, the loan continues to be reported as impaired until the arrears are cleared in full. Arrangements can be made directly with the customer or through a third party whom they have chosen to represent them.

Additional forbearance includes the following three treatments with an incremental provision of £3m raised in 2012:

- reducing overdrafts: this option is used to reduce the overdraft levels on current accounts in excess of the agreed formal overdraft or limit reduction applied by the Group. For this situation, the customer is given up to eight months to move the account back within the agreed limit;
- re-ages: there are a small number of credit card re-ages performed each month for customer service reasons; and
- debt consolidation loans: in certain circumstances, customers are offered a consolidation loan to pay off other internal debt.

1.4.1.5 Corporate credit risk

Acquisition and account management

The Group is managed through two distinct classifications. The Core business represents activity consistent with the strategy and risk appetite for the Group and within corporate comprises corporate banking, business banking and business services. Non-core business lines include activities not congruent with the current strategy of the Group, which are managed for value and targeted for run down or exit.

The Group operates to a new lending policy which is subject to meeting criteria as laid down in the corresponding sector strategy guidelines and strict policy with regards single name and sector concentrations. New lending is approved by experienced staff within the centrally based credit underwriting team, independent from income generation. Lending discretions are based on the risk profile of the customer and the amount of exposure. The lending discretions of the Credit Risk Director, the CEO and the Credit Approvals Committee are operated to sanction the largest credit applications.

The credit underwriting team uses the relevant rating systems and other tools to analyse the underlying business and the counterparty's management to assess the risk of each lending proposition and its ability to repay the borrowing. Other factors considered include the potential impact of economic changes, the financial stability of the counterparty and its ability to withstand such change.

Monitoring of portfolios and impairment provisioning governance is in place across the portfolios. Individual cases which show signs of unsatisfactory performance are managed through a specialist Corporate Business Support team who are engaged with the customers to restore them to good health or wherever this is not possible management actions are taken to effect recovery.

The CRMC and ERC (and by exception BRC) receive regular reports on the performance of the portfolio.

The tables below show the distribution of the Corporate and Business Banking gross customer balances (including commitments, but excluding Unity Trust Bank) by sector and risk grade, where PD grades have been mapped to regulatory slotting categories for ease of interpretation in this report.

The Standardised category relates to customers who have not defaulted and, for the purposes of capital calculations, are not rated with a regulatory approved rating model. These typically belong to the public sector entities and renewable energy sectors, and to the following customer types within other sectors: other energy efficiency schemes, leveraged, newly established companies with an insufficient number of published financial accounts, project finance and charities. During 2012 the Group was granted regulatory approval to rate housing associations with a PD model; hence a significant amount of exposure has migrated from Standardised to the Strong category.

The movement of balances from Satisfactory and Weak to Default in the period is reflective of both the continued challenging commercial property environment and the Group's focus on the expected outlook for this sector and the consequential forbearance strategies and the completion of the Bank's review of its default and provisioning strategy.

Collateral

The Group uses guarantees and collateral to mitigate credit risk. Collateral is regularly revalued and guarantees are reviewed to ensure continuing effectiveness.

Property collateral for corporate lending is categorised as security for property development or investment customers (ie 'property' lending) or owner occupied premises to secure mainstream loan and overdraft facilities. For general lending, in addition to taking charges over property assets owned by the customer, other security is taken in modest proportion to the total portfolio. This includes debentures or floating charges (supported by tangible security, where appropriate, including property, life policies and stocks and shares) and cash cover.

Where exposures are agreed on a secured basis, security cover is recognised only where:

- the security is legally enforceable and is of a tangible nature and type;
- an appropriate, recent and reliable valuation is held; and
- a prudent margin is applied to the valuation, for the type of security involved.

The table below analyses the fair value of the property collateral held against assets in the property and construction sectors (commonly referred to as commercial real estate):

		2012			2011

Of the above, £50m (2011: £48m) is not held as first charge.

Impairment

Corporate customers are placed on a watchlist when they show signs of unsatisfactory performance and require close control. Strong indicators that a customer should be placed on watchlist include but are not limited to:

- unsatisfactory account operation both lending facility and current accounts;
- considerable reduction in value of collateral;
- deteriorating balance sheet position and/or material losses/cashflow pressures;
- breach of covenants; and
- application of forbearance strategies.

Dependent on the Group's satisfaction that the triggers leading to inclusion on the watchlist no longer apply, customers who stop exhibiting higher risk traits are removed from the watchlist.

Removal from the watchlist usually requires the customer's management information to show that trading is achieving the revised plan with objective evidence that this will continue.

The Group also reviews monthly all higher risk loans (including those accounts subject to forbearance) and considers the potential loss which might arise were the borrowers to fail (notwithstanding that continued trading remains the expectation).

Individual impairment provisions are raised at the point when business performance is assessed to have deteriorated to the extent that there is a real risk of loss of principal, interest or fees. Provisions will be required on some or all of the entire shortfall between the security held and the loan balance outstanding and represent a realistic assessment of the likely net loss after realisation of any security.

Objective evidence of impairment may include but is not limited to:

- an instalment on a loan account being overdue, or having been in excess of its limit (or being overdrawn without an agreed limit) for 90 days or more;
- an event likely to result in insolvency which may involve bankruptcy, or the appointment of an administrative receiver, liquidator or administrator; or
- if the Group considers that at some point (normally taken within the next 12 months) actions such as an issue of formal demand will be required in order to achieve full repayment.

For provisioning purposes, an up to date property valuation or selling agent's recommendation is discounted to take into account selling and legal costs and also to build in a contingency to cover potential reductions in the selling price based upon the type of security and entity and the existence or otherwise of a contracted sale. In some cases, calculation of the provision is based on an up to date assessment (often following an independent business review by a firm of accountants) of likely receivables from the business or a formal estimated outcome statement from an insolvency practitioner where the business has failed.

Provisioning adjustments are also recorded, as appropriate, against loans whose interest terms have changed such that revised future cashflows discounted at the original interest rate are less than the current carrying amount.

Collective impairment provisions are based on the remaining portfolio where a trigger event could have occurred but has not yet been observed.

There has been a continued deterioration in the commercial property sector and with the relatively significant exposure to commercial property, the directors have reassessed the carrying value of the Group's loan portfolio.

The table below shows:

- impaired customer balances as a percentage of gross customer balances; and
- credit protection, ie impairment provisions and fair value adjustments as a percentage of impaired customer balances.

		2012	2011	
	Core	Non-core	Core	Non-core
Gross customer balances	6,129.6	3,318.2	5,503.6	3,639.5
Impaired customer balances	242.9	1,739.1	184.7	775.8
Impaired as a % of gross customer balances	4.0%	52.4 %	3.4%	21.3%
Credit protection				
Impairment provisions	137.3	318.7	82.9	34.4
Fair value adjustments	-	215.9	_	251.5
	137.3	534.6	82.9	285.9
Credit protection as a % of impaired customer balances	56.5%	30.7%	44.9%	36.9%

Despite a substantial increase in provisions for corporate non-core loans, the impairment cover as a percentage of impaired customer balances has fallen from 36.9% last year to 30.7% in 2012. The newly impaired balances have a low credit protection rate reflecting the high average value of collateral held.

Core impaired balances have increased by £58.2m with an increase in the credit protection rate of 11.6%. This reflects the nature of the core portfolio which would generally have lower value security.

Forbearance

If the Group is convinced of a customer's ability and commitment to address their financial difficulties, it may agree to grant concessions to the original contractual terms. Such concessions typically include:

- restructuring, waiving or reserving rights in the event of covenant breaches;
- postponement of principal payments;
- · restructures of principal payments;
- · extension of loan maturities;
- partial or full capitalisation of interest payments; or
- swap restructures.

In addition to the above, other forbearance concessions the Group may grant are considered to be objective evidence of impairment and include:

- a partial write off of debt, following which the account continues to be classified as impaired for at least six months; or
- a material postponement or forgiveness of interest or 'soft' rates or waiver or reduction of normal fees and charges; the accounts must remain impaired while such favourable terms are being applied.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Credit risk continued

The table below analyses the exposures subject to forbearance:

		2012			2011	
	Forborne	Non-forborne	Total	Forborne	Non-forborne	Total
Core						
Default	139.4	112.2	251.6	60.2	101.7	162.9
On watchlist	204.9	67.3	272.2	198.3	78.8	277.1
Neither default nor on watchlist	197.9	7,313.7	7,511.6	332.3	6,567.9	6,900.2
	542.2	7,493.2	8,035.4	590.8	6,748.4	7,339.2
Non-core						
Default	1,118.4	624.7	1,743.1	309.0	450.4	759.4
On watchlist	159.1	64.1	223.2	840.2	330.0	1,170.2
Neither default nor on watchlist	95.2	1,305.1	1,400.3	113.2	1,671.7	1,784.9
	1,372.7	1,993.9	3,366.6	1,262.4	2,452.1	3,714.5
	1,914.9	9,487.1	11,402.0	1,853.2	9,200.5	11,053.7

Impairment provisions are made for accounts subject to forbearance which are in default or on the watchlist.

For those customers that benefit from ongoing concessions (such as postponement of principal payments), the Group retains the forbearance status for as long as the concession remains in place. In the event of one off concessions (such as capitalisation of interest payments), the Group removes the forbearance status 12 months after their occurrence.

1.4.2 Investment securities

Policies are in place with regard to the management and valuation of collateral. Repos and secured lending positions are revalued daily. Margin calls on collateralised swaps are predominantly made daily, save for several arrangements which permit calls on a weekly basis. Eligible financial collateral for Basel II reporting purposes includes gilts held under reverse repo agreements and cash held under both repo agreements and collaterised swap arrangements. The guarantees relied upon are either parental guarantees held against subsidiary exposures within bank groups or sovereign guarantees.

At the balance sheet date, the Group has a total investment securities portfolio of £6,928.8m (2011: £4,616.2m) of which £39.0m (2011: £46.4m) is considered impaired and against which £39.0m (2011: £45.2m) of provisions are held.

The following tables analyse the gross balance by impairment classification and type of investment security.

	Investment securities Fair value through							
2012	Loans and receivables	Available for sale	income or expense	Held for trading	Total

An analysis of the credit risk exposure for the Bank is provided in note 40.

1.4.2.1 Impaired assets

Investment securities are considered past due where the contractual interest or principal payments are in arrears and it is determined that the Group will be able to collect all principal and interest outstanding according to the contractual terms of the agreements.

Investment securities are considered impaired where it is determined that the Group will be unable to collect all principal and interest outstanding, according to the contractual terms of the agreements.

At the balance sheet date, the Group assesses its investment securities for objective evidence that an impairment loss has occurred, for example this may be indicated by the disappearance of an active market. For available for sale securities particular consideration is given to evidence of any significant difficulty of the issuer or measurable decrease in the estimated cash flows from the investments.

1.4.2.2 Not impaired

The Group only invests in treasury assets which comply with the treasury credit risk policy. Within the treasury investment security portfolio 99% (2011: 89%) of exposures have an external credit rating equivalent to Fitch A or above.

1.4.3 Loans and advances to banks

None of the Group's exposures to loans and advances to banks are impaired. The Group considers that its exposures to loans and advances to banks are all of low to medium risk.

1.5 Eurozone risk

The Group remains a UK focused retail and commercial operation. It has no sovereign exposure to 'peripheral' eurozone countries (Portugal, Ireland, Italy, Greece and Spain). As at 2012 the Group had a £306.7m (2011: £90.0m) gross exposure to the Government of Finland, £89.9m (2011: £nil) to the Swedish Export Credit Corporation and £12.3m (2011: £nil) to the Government of the Netherlands, repayable in over one year. It held no other non-UK sovereign debt.

Other than a £25k exposure to the London subsidiary of a Greek bank, the Group has no direct exposure to Greek financial institutions or any other counterparty types.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Credit risk continued

1.5.1 Direct exposures

The analyses on the following pages set out the Group's exposures to financial institutions in European countries, both by asset maturity and by asset type.

Renavable

The Group has exposures to financial institutions in the following European countries at 31 December 2012:

	369.1	376.9	873.0	1,619.0	(348.9)	1,270.1

For the purposes of the above table, exposures to counterparties which comprise subsidiaries of larger banking groups within which Treasury maintains additional counterparty relationships are aggregated at the group level with the associated risk country being that of the ultimate parent entity. As at 31 December 2012 an exposure of £13.4m to an Irish subsidiary of a major American bank group was accordingly reported as exposure to the American based parent and is thus excluded from the analysis above. This exposure is fully guaranteed by the group holding company.

Credit risk mitigation takes the form of UK gilt collateral held in relation to reverse repo transactions, cash collateral held in relation to sold repo and derivative transactions, and sovereign/sub-sovereign guarantees in relation to specific debt security holdings.

The table below shows the Group's exposure to financial institutions in European countries by asset type.

In addition to the above exposures to financial institutions:

- in the overseas European Economic Area (EEA as defined by the European Banking Authority) and Switzerland, corporate customer exposures at 31 December 2012 totalled £170.8m (2011: £184.4m). There are no exposures to retail customers based outside of the UK and Channel Islands;
- gross exposure to European multilateral development banks (not included in the above table given the supranational status associated with these institutions) stood at £1,444.0m (2011: £529.0m) before credit risk mitigation (£997.8m post credit risk mitigation (2011: £457.5m)) of which £543.8m matures within a year (2011: £81.8m); and
- ABS/MBS exposures of £10.8m and £2.8m to Spanish and Belgian special purpose entities respectively were outstanding as at 31 December 2012.

The Group continues to monitor developments daily across all countries as they affect the Treasury portfolio. Proactive management actions have been taken to reduce risk within the Treasury portfolio with an underlying theme of reducing exposure in the south (peripheral eurozone) and increasing exposure in the north (eg Germany, the Netherlands, Finland and Sweden) where economies are more robust. Credit quality and liquidity within the portfolio have been enhanced by concentrating asset purchases in the shorter dated debt securities issued by AAA rated supranational financial institutions, government agencies and sovereign or state owned banks. Ongoing exposure to financial institutions within the peripheral eurozone is primarily restricted to selective short term money market lending and nostro account balances.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Credit risk continued

Treasury operates a risk based approach which monitors counterparty limits and exposure via a credit risk register. The counterparties or the assets held are monitored against a Board approved matrix of risk tolerance and associated indicators. The credit risk register is updated for rating actions, market events and financial results as they are announced which may influence a change in risk status and possible escalation requiring management actions and inclusion on the watchlist.

The Treasury risk team reviews the entire portfolio and watchlists monthly for appropriate risk status bandings and any associated management actions.

As at 31 December 2012 there were no high risk watchlist exposures (2011: £277m). All high risk watchlist exposures, consisting entirely of debt security holdings, reached final maturity during the period to 31 December 2012 and were repaid in full.

1.5.2 Indirect exposures

Treasury risk management monitoring extends beyond the direct risk incurred through counterparty trading, to the underlying exposures (eg to peripheral eurozone countries) which Treasury's counterparties may maintain on their own balance sheets. In analysing each counterparty's secondary exposure we assess the vulnerability and impact on that firm should it suffer different degrees of losses.

Where secondary sovereign exposure or contagion risk is deemed to undermine the performance of the counterparty, remedial management actions are taken in respect of Treasury's counterparty limits and exposure, often well ahead of any associated rating actions.

2. Liquidity risk

2.1 Capital and liquidity framework

The Group's capital and liquidity risk management framework comprises:

- a defined risk appetite, controls and governance in the Group's capital and liquidity management policies;
- articulation of how capital and liquidity risk is identified, measured, monitored and managed in the Internal Capital Adequacy Assessment Process (ICAAP),
 Individual Liquidity Adequacy Assessment (ILAA) and procedures and governance in place to mitigate the risk;
- capital and liquidity risk quantification and mitigation techniques and processes;
- management actions linked through to stress testing and capital and liquidity planning models, enabling a method of mitigating the effects of a number of stress scenarios for varying periods of time and to ensure that the Group operates within its agreed risk appetite parameters in all planning models;
- ongoing development and enhancement of the Group's capital and liquidity risk appetite framework; and
- a process to attribute the cost, benefit and risks of liquidity to specific business lines via the Group's Funds Transfer Pricing mechanism.

2.2 Liquidity risk

The Board's risk appetite for liquidity risk is defined in terms of:

- survival periods which measure the degree of sufficiency of liquid assets to support the Group's activity over time under a number of stress scenarios;
- adherence to strategic liquidity risk measures; and
- compliance with all regulatory liquidity risk limits.

The stress tests encompass survival across various timescales (from three months to one year) and a range of adverse liquidity events, both firm specific and market wide, which cover all aspects of the liquidity risk to which the Group is exposed. These stress tests include a number of downgrade scenarios, from one notch to multi-notch long term and short term downgrades.

The strategic measures approved by the Board include:

- customer loan/deposit ratio, 92% (2011: 94%) the ratio of customer loans to customer deposits;
- encumbrance ratio, 27% (2011: 24%) the ratio of encumbered assets divided by total assets;
- regulatory limits Internal Liquidity Guidance and Net Stable Funding ratio; and
- internal liquidity stress tests the survival period of the Group under a range of stressed scenarios.

2.3 Liquidity risk management overview

Liquidity risk arising from the structure of the balance sheet (structural liquidity) is managed in line with policies developed by LMC and ALCO. The Group's liquidity management policies are reviewed and approved annually by the BRC (on behalf of the Board) and compliance reviewed by LMC and monthly by ALCO. The Group's policy is to ensure that sufficient funds are available at all times to meet demands from depositors, to fund agreed advances, to meet other commitments as and when they fall due, and to ensure the Board risk appetite is met.

The Group monitors its liquidity position on a daily basis and has a weekly LMC which operates to oversee the operational liquidity management. A range of indicators to detect early signs of liquidity risk either in the market or specific to the Group are also monitored. LMC discuss the actual liquidity position and projected position incorporating business plans. More frequent meetings are held if necessary, ie when the markets have a heightened period of stress or liquidity shortage. The meetings ensure that the business plans are accurate and can be flexed as required.

The liquidity position is reported monthly to ALCO and the Board. It also monitors the adequacy of its controls to provide assurance that liquidity risk is being appropriately managed, and regularly assesses its funding position. This is supported with detailed contingency funding plans and recovery options which are tested and reviewed on a regular basis. The Group's liquidity management framework is designed in line with FSA BIPRU regulations and industry guidelines.

2. Liquidity risk continued

2.3.1 Liquid asset portfolios

The Group holds a number of marketable asset pools that it uses for liquidity management through the Treasury operation. These include:

• liquid asset buffer (LAB); the highest quality debt and comprise of cash at the Bank of England, gilts, central government and multilateral development bank bonds. The liquid asset ratio was 14.6% at 31 December 2012 (2011: 15.5%). The table below shows the market value and composition of the liquid asset buffer:

Qualifying stock	2012	2011
Operational balance with central banks (note 13)	5,121.0	6,378.3
Gilts	648.0	1,085.5
Central government and multilateral development bank bonds	1,455.1	162.1
	7,240.9	7,625.9

- non-buffer assets, these assets are not as liquid as LAB assets, however they exist to diversify the liquid asset pool and enhance returns; and
- own retained asset pool, the Group has securitised part of its asset balance sheet and retained the issued notes. These assets form part of the Group's
 contingent funding plans.

The Group uses any combination of these asset pools to manage liquidity, with LAB and non-buffer assets used predominantly for short term cashflow movements, with the own retained asset pool creating longer term or contingent liquidity. Regular realisation through repo transactions and outright sales provide assurance that these asset pools remain sufficiently liquid.

2.3.2 Wholesale funding

The majority of the Group's funding comes from retail and commercial customer accounts. The Group's primary objective in respect of wholesale funding is to supplement retail and commercial deposits by raising longer term funds (over one year in duration) and to diversify the source of funds to support the business plan of the Group.

The Group also has access to a variety of long term wholesale funding sources including securitisations, covered bonds and Euro Medium Term Notes. In 2012 it raised $\mathfrak{L}1,290.4$ m through these sources. The Group will continue to issue from the programmes as funding requirements and market conditions permit. The Group has a smaller presence in the shorter term wholesale liability markets, which it uses to manage short term cashflow requirements.

2.4 Liquidity gap

Details of contractual maturities for assets and liabilities underpin the management of liquidity risk. However in order to reflect more accurately the expected behaviour of the Group's assets and liabilities, measurement and modelling of the behavioural aspect of each is constructed.

Gross cash flows include interest and other revenue cash flows. The following table is an analysis of:

- gross undiscounted contractual cash flows of financial liabilities held at the balance sheet date; and
- behavioural adjustments that reflect the actual behaviour of customers based on historic cash flow profiles over a period of ten years.

	Carrying value	Gross nominal outflow	Less than 1 month	1–3 months	3–12 months	1–5 years	Over 5 years

The Bank's gross cash flow maturity analysis has not been disclosed as it is not materially different from the above Group disclosure.

2.5 Encumbrance

The Group ensures that sufficient eligible and unencumbered assets are available at all times to meet the needs of its secured funding programmes. Details of the Group's encumbered assets are shown in note 39d Fair value of transferred assets and associated liabilities.

3. Market risk

Market risk is the risk of loss as a result of the value of financial assets or liabilities (including off-balance sheet instruments) being adversely affected by movements in market rates or prices. This loss can be reflected in the near term earnings by changing net interest income, or in the longer term because of changes in the economic value of future cash flows.

The main source of market risk within the Group is driven by mismatches between the repricing profiles of asset and liability customer products within the retail and corporate businesses and certain characteristics embedded within these products and basis risk. Treasury also create market risk through its various portfolio management and trading activities along with currency risk.

3.1 Interest rate risk

Interest rate risk policy statements, approved by the ERC on behalf of the Board, specify the scope of the Group's wholesale market activity, market risk limits and delegated authorities. The policy is managed by the TMRC and ALCO. Their prime task is to assess the interest rate risk inherent in the maturity and repricing characteristics of the Group's assets and liabilities. The Group seeks to minimise the volatility of future earnings from interest rate changes and all interest rate risk exposure is removed from the retail and CABB divisions and consolidated at the centre where it is managed from the core balance sheet within agreed limits. Treasury is responsible for interest rate risk management for the Group. The principal analytical techniques involve assessing the impact of different interest rate scenarios and changes in balances over various time periods.

The Board receives reports on the management of balance sheet risk and TMRC and ALCO review the balance sheet risk positions and the utilisation of wholesale market risk limits.

3. Market risk continued

3.1.1 Non-treasury interest rate risk

The Group (excluding wholesale) uses a gap report and earnings approach for managing interest rate risk, focusing in detail on the sensitivity of assumed changes in interest rates on net interest income for one year. Higher level analysis is performed for subsequent years.

TMRC monitors the non-trading interest rate risk which is split between certain wholesale portfolios, banking and investment books, and the rest of the Group's balance sheet. The following describes the Group non-trading portfolios excluding these certain wholesale portfolios. These positions are managed by Treasury. All interest rate risk is centralised into Treasury using appropriate transfer pricing rates.

Gap reports are based on defined time periods. ALCO set guidance limits around the gap, principally that the sum of positions maturing in greater than 12 months and non-sensitive balances (includes non-maturity deposits) is no more than a set limit.

Non-maturity deposits which are non-interest bearing are separated into a stable 'core' element, based on a long run average, and the residual balance, which can fluctuate. In the gap report, the residual balance (along with interest bearing non-maturity deposits) are deemed to re-price or mature within one month. The 'core' non-maturity deposits are within the non-sensitive balance on the gap report, along with non-dated capital and other non-sensitive balances. ALCO sets guidance around the treatment of non-sensitive balances to reinvest in fixed rate assets in periods up to five years to smooth the income based upon the prevailing interest rate environment.

Risk limits are formally calculated at each month end. Interest rate risk and effectiveness of hedging is monitored daily using gap positions, incorporating new business requirements. Draw down risk, in particular for fixed rate mortgages, is managed through weekly balance sheet meetings. The asset and liability management team undertake hedges for interest rate risk using derivative instruments and investment securities which are executed via the Treasury markets team to external wholesale markets, and loans and deposits which are executed internally with the Treasury markets team.

Basis risk is the risk that different assets and liabilities reprice with reference to different indices and at different times. This exposes the Group to income volatility if indices do not move in a ratio of one to one. The overall exposure to basis risk has remained a net base rate asset throughout 2012 as customers continue to favour variable rate mortgages (where the introductory rate is linked to Bank of England base rate) and administered and fixed rate savings. Basis risk is monitored by TMRC and ALCO monthly and action is taken as required, which includes pricing, new products or external hedging.

The table illustrates the greater than 12 month net gap position at the end of the period on the Group's balances, excluding wholesale treasury and customer currency balances which are managed within the treasury risk framework. The gap is driven by product pricing and product mix. The gap is calculated by placing all assets and liabilities at the earliest of their repricing or maturity date and then summing by time band. The aim is to have assets evenly spread so that the Group is not exposed to sudden rate movements. The net position shows the amount that the Group is either over or under invested in the month. A £100m positive gap position would equate to the Group's income increasing by £1m per annum if rates increased by 1%. The maximum sensitivity for the period shown below equates to approximately a £10.9m decrease in income if rates increased by 1%.

	2012	2011
Net greater than 12 month gap position		
At the year end	(928)	(279)
Average for the year	(612)	(330)
Maximum sensitivity for the year	(1,090)	806
Minimum sensitivity for the year	(248)	(51)

3.1.2 Treasury interest rate risk

Treasury executes short term funding and hedging transactions with the wholesale markets on behalf of the Group and its customers. It also generates incremental income from proprietary trading within strict risk limits. There are two prime measures of risk supplemented by additional controls such as maturity and stop loss limits.

3.1.2.1 Value at Risk (VaR)

VaR measures the daily maximum potential gain or loss due to market volatility within a statistical confidence level of 95% and a one day holding period. The VaR methodology employed is historical simulation using a time series of one year to latest day and was £0.4m at 31 December 2012 for the trading portfolios (2011: £0.4m). The VaR methodology has inherent limitations in that market volatility in the past may not be a reliable predictor of the future, and may not reflect the time required to hedge or dispose of the position, hence VaR is not used as the sole measure of risk.

3.1.2.2 PV100

This illustrates the change in valuation on a fixed income portfolio experienced given a 1% increase and decrease in interest rates, representing the treasury banking book and treasury trading book. PV100 is the effect on the net present value (NPV) of the wholesale portfolio to a parallel shift of 100 basis points upon the base yield curve. The effects of a 1% increase in interest rates are (£3.0m) (2011: £15.1m) and a 1% decrease £14.6m (2011: £16.0m)).

3.2 Currency risk

The Group's treasury foreign exchange activities primarily involve:

- providing a service in meeting the foreign exchange requirements of customers;
- maintaining liquidity in euros and US dollars by raising funds and investing these to generate a return; and
- performing limited intraday trading and overnight positioning in major currencies to generate incremental income.

For the year ended 31 December 2012

The Bank's currency analysis has not been disclosed as it is not materially different from the above Group disclosure.

At 31 December 2012 the Group's open position was £2.7m (2011: £0.4m) representing a potential loss of £0.1m given a 3% depreciation in sterling (2011: £nil). The open position is monitored against limits in addition to limits in place on individual currencies. All figures are in £ sterling equivalent.

3. Market risk continued

The following risks (Operational to Pension) do not form part of the audited accounts and are not audited.

4. Operational risk

Operational risk is defined within the Banking Group as the risk of loss resulting from inadequate or failed internal processes, people and systems or external events. This encompasses the effectiveness of risk management techniques and controls to minimise these losses.

In order to meet the Banking Group's appetite for operational risk, appropriate controls are in place to minimise the chance of any significant disruption and to protect our reputation.

Operational risks are identified, managed and mitigated through ongoing risk management practices including risk assessments, formal control procedures and contingency planning. Operational risks and key controls are formally reviewed on a regular basis. Significant operational risks and the associated capital requirements are regularly reported to the ORC, the ERC and the BRC. These meet regularly to monitor the suitability of the risk management framework and management of significant risks within the Banking Group.

Business continuity arrangements are in place which set out to minimise the risk of disruption in the event of a sudden, unplanned occurrence that could seriously disrupt business operations. This includes developing and exercising crisis and incident management teams to maintain appropriate preparedness in the event of a major operational disruption.

The Banking Group also has a corporate insurance programme to transfer specific risks to insurers as part of its risk management approach.

5. Reputational risk

Reputational risk is defined as the risk associated with an issue which could in some way be damaging to the brand of The Co-operative Banking Group either through its strategic decisions, business performance, an operational failure or external perception.

As part of the assessment and control of this risk, business performance and risk profile across all risk themes are closely monitored and reviewed. The business proactively monitors and manages media, public and customer opinion and works closely with external rating agencies to ensure fair and balanced representation. This approach helps maintain member, customer and market confidence.

6. Strategic and business risk

Strategic and business risk arises from changes to the Banking Group's business and the environment in which it operates, specifically the risk of not being able to carry out the Banking Group's business plan and desired strategy.

The Group's strategy is to grow our business in order to achieve the Banking Group's vision of becoming the compelling, co-operative alternative in the markets in which we compete.

The main risks to delivering the business plan and achieving the strategy are the challenging economic environment, the changing regulatory environment and the significant change programme being managed within the Group and the wider Co-operative Group.

The Board and Executive set and monitor the strategic plan in the light of this background having considered the stresses that extreme but plausible scenarios could have upon it.

7. Conduct risk

Conduct risk is the risk that the Banking Group's behaviours, offerings or interactions will result in unfair outcomes for customers. Accordingly, conduct risk may arise from any aspect of the way a business is conducted, the sole test being whether the outcome is an unfair one for customers.

The Banking Group mitigates and prevents emerging conduct risk through established systems and controls including ongoing oversight and monitoring from risk functions.

Significant conduct risks are reported through existing management structures and committees and challenged by the BRC.

8. Pension risk

Pension risk is defined as the risk of exposure to pension scheme liabilities and risks inherent in the valuation of scheme liabilities and assets resulting in a detriment to Banking Group capital. Risks are identified at The Co-operative Group level, with the impact of any potential changes to contribution assessed under the Banking Group's risk management framework.

The Banking Group is exposed to pension risk through two schemes:

- Pace CFS Management Services Ltd (CFSMS) and the Bank are participating members of The Co-operative Pension Scheme (Pace) defined benefit and contribution scheme; and
- Britannia Pension Scheme CFSMS is the principal employer of the Britannia Pension Scheme defined benefit and contribution sections (defined benefit section closed to new members in 2001, defined contribution section closed to new members in October 2012).

The Pace Trustee, in consultation with The Co-operative Group, is responsible for the risk management arrangements for Pace, agreeing suitable contribution rates, investment strategy and for taking professional advice as appropriate.

The Britannia Pension Scheme Trustee, in consultation with CFSMS, is responsible for the risk management arrangements for the Britannia Pension Scheme, agreeing suitable contribution rates, investment strategy and for taking professional advice as appropriate.

The Group is therefore exposed to potential future increases in required contributions and capital set aside for pension risk.

Capital management

For the period ended 31 December 2012

All the amounts are stated in £m unless otherwise indicated

Capital resources (audited)

The Bank's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. However, the Bank still recognises the need to maintain a balance between the potential higher returns that might be achieved with greater gearing, and the advantages and security afforded by a sound capital position.

Our submissions to the FSA in the period have shown that the Bank and its individually regulated operations have complied with all externally imposed capital requirements.

The Bank's Core Tier 1 capital position at the year end was 8.8% (2011: 9.6%). However, the Board recognises the need to build the capitalisation of the Bank to provide increased resilience and capacity for future growth. To this end, a strategic review is underway targeting growth in the Core Tier 1 ratio. Part of this was concluded in January 2013 when a risk mitigation transaction completed which would increase the year end ratio to 9.2% on a proforma basis.

Adequate capitalisation can be maintained at all times even under the most severe stress scenarios, including the revised FSA 'anchor' stress scenario.

A capital buffer above Individual Capital Guidance (ICG) is being maintained, to provide the ability to absorb capital shocks and ensure sufficient surplus capital is available at all times to cover the Bank's regulatory minimum requirements.

The Bank's regulatory capital is analysed into two tiers:

Tier 1 capital

Tier 1 capital includes share capital, retained earnings, and non-cumulative irredeemable preference shares. Retained earnings exclude gains or losses on cashflow hedges and available for sale assets.

Tier 2 capital

Revaluation reserves relating to net gains on equity held in the available for sale financial assets category are included in Tier 2 capital.

The Tier 2 capital includes subordinated debt issues and perpetual subordinated bonds (PSBs). The rights of payment to the holders of this debt are subordinated to the claims of depositors and other creditors of the Bank. More information on these can be found in note 29.

	2012	2011
Reconciliation of equity per balance sheet to Core Tier 1 capital		
Total equity per balance sheet	1,850.2	2,273.1
Regulatory adjustments:

Losses for the year	(508.1)	_
Share premium account	8.8	8.8
Total Core Tier 1 capital before regulatory deductions	1,756.1	2,135.0
Regulatory deductions from Core Tier 1 capital:		
Intangible assets	(27.9)	(71.1
50% of excess of expected losses over impairment (net of tax)	(159.7)	(114.2
50% of securitisation positions	(0.7)	(2.3
Total Core Tier 1 capital after regulatory deductions	1,567.8	1,947.4
Other Tier 1 capital:		
Non-cumulative irredeemable preference shares	60.0	60.0
Regulatory deductions from other Tier 1 capital:		
50% of tax on excess of expected losses over impairment	51.8	41.1
50% of material holdings	(2.0)	(1.3
Total Tier 1 capital after regulatory deductions	1,677.6	2,047.2
Tier 2 capital before regulatory deductions:		
Revaluation reserves	2.0	2.9
Collective provisions	0.7	0.7
Subordinated notes and perpetual subordinated bonds	1,112.1	1,084.0
Total Tier 2 capital before regulatory deductions	1,114.8	1,087.6
Regulatory deductions from Tier 2 capital:		
50% of excess of expected losses over impairment (gross of tax)	(211.5)	(155.3
50% of securitisation positions	(0.7)	(2.3)
50% of material holdings	(2.0)	(1.3
Total Tier 2 capital after regulatory deductions	900.6	928.7

The capital ratios reported in the business and financial review are based on the Pillar I capital requirement.

Capital allocation

The allocation of capital among specific operations and activities is driven by optimisation of the return achieved on the capital allocated, and is based upon the regulatory capital. Capital allocation is undertaken independently of those responsible for capital management, and is reviewed by ALCO. Each new product must earn at least the Bank's minimum target return on equity.

82

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

	2012	2011
Capital ratios (unaudited)		
Core Tier 1 ratio	8.8%	9.6%
Tier 1 ratio	9.4%	10.1%
Total capital ratio	14.4%	14.7%
Risk-weighted assets (unaudited)		
Credit risk	15,974.8	18,687.4
Market and counterparty risk	492.6	51.6
Operational risk	1,441.3	1,521.0
Total risk-weighted assets	17,908.7	20,260.0
Segmental analysis of credit risk risk-weighted assets (unaudited)		
Retail	2,410.1	2,333.9
Corporate	7,760.3	9,777.2
Other CABB	4,361.2	4,786.7
CABB total	12,121.5	14,563.9
Treasury	1,149.1	1,151.3
Other	294.1	638.3
Total credit risk risk-weighted assets	15,974.8	18,687.4

Core Tier 1 ratio has reduced by 0.8% to 8.8% as at 31 December 2012. This is due to a 19% (£379.6m) decrease in Core Tier 1 after deductions offset by a 12% (£2,351.3m) decrease in risk-weighted assets.

The reduction in Core Tier 1 is primarily due to the £673.7m before tax (£508.1m after tax) statutory loss. The result for the year was principally driven by a £468.7m credit impairment, £150.0m asset impairment and £149.7m PPI provision offset by a £96.8m operating profit in the core business. Core Tier 1 has benefited from a £80m capital injection from The Co-operative Banking Group.

The reduction in risk-weighted assets is primarily due to a 21% (£2,016.9m) reduction in corporate risk-weighted assets. The change is driven by the reassessment of the carrying value of corporate real estate exposures together with an ongoing review of regulatory capital requirements. Slotting models are used to analyse and monitor specialised lending exposures to property which are assigned to FSA supervisory categories with predefined risk-weights. A significant proportion of loans have been downgraded with many moving into default. Loans in default have a zero risk-weight (but a 50% expected loss). Downgrades are the primary reason for the reduction in corporate risk-weighted assets.

In addition, other CABB risk-weighted assets, mainly Optimum, have decreased by 9% (£425.5m) due to continuing run-off of the book. However, market and counterparty risk capital requirements have increased by £441.0m. This is primarily due to increased holdings of short dated gilts, UK covered and UK government guaranteed bond holdings which were purchased to invest the Bank's surplus liquidity.

Total excess of expected loss over impairment, a deduction from capital resources, has increased by £91.0m. Although credit impairments have increased significantly this has been more than offset by higher expected loss which has been driven by corporate downgrades.

Since the year end, the Bank has completed a securitisation transaction to reduce risk in the balance sheet which has improved the Core Tier 1 ratio by 0.4%. The signing of the Sale and Purchase Agreement relating to the Life and Savings business owned by The Co-operative Banking Group in 2013 is expected to further strengthen the capital position.

Basel III

Basel III rules in the EU (collectively known as CRD IV) have yet to be finalised and the implementation date is not known. The new rules will be implemented on a transitional basis from their effective date to full implementation in 2022 (at the earliest). During the transitional period to full implementation of Basel III the Bank will have the opportunity to generate additional capital from earnings and to implement management actions in order to mitigate the impact of Basel III and meet capital ratios. The Bank expects to be able to comply fully with the new requirements when they become applicable, including the proposed minimum leverage ratio of 3%.

The Bank continues to monitor its capital position under draft rules on both a transitional and full implementation basis. An analysis of capital resources and leverage ratio assuming draft Basel III rules were in place as at 31 December 2012 which can be found in the Bank Pillar 3 disclosure.

Notes to the financial statements

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

1. Segmental information

In 2011, the Bank reported its operating segments as Retail, Corporate and Business Banking (CABB) and Other, based on differences in products and services. In 2012, the Bank has further refined this to split its Corporate area into core and non-core and to move the Platform portfolio from CABB to the Retail business. The comparatives throughout the note have been restated as appropriate.

This level of information has been presented to the Board throughout the year. Revenues are attributed to the segment in which they are generated. Transactions between the reportable segments are on normal commercial terms and internal charges and transfer pricing adjustments have been reflected in each segment.

The Bank is comprised of the following main reportable segments:

- Retail customer focused products and services for individuals, sole traders and small businesses. This includes mortgages, credit cards, consumer loans, current accounts and savings products;
- CABB customer focused products and services for businesses, including large corporate and commercial entities. It includes loans, asset finance, current accounts and savings products. Core Corporate banking represents lines of business that are consistent with our strategy and risk appetite while non-core lines of business are targeted for run down or exit. CABB also includes the Optimum closed book of acquired mortgage portfolios and mortgages originated via intermediaries by Britannia, and the Illius portfolio of investment properties; and
- Other includes Treasury, other central costs and Unity Trust Bank. Treasury comprises asset and liability management across the balance sheet, including trading activities. Unity Trust is a subsidiary bank operating in the corporate banking and social economy sectors on behalf of trade unions.

2. Loss/profit before taxation

	2012 £'000	Restated 2011 £'000
Loss/profit before taxation is stated after:		
Audit of these financial statements	367	356
Amounts receivable by the Company's auditor and its associates in respect of:		
Audit of financial statements of subsidiaries of the Company	325	335
Audit related assurance services	28	11
Other tax advisory services	-	311
Other assurance services	460	149
Corporate finance services	-	90
I other services	1,944	365
	3,124	1,617

The Companies (Disclosure of Auditor Remuneration and Liability Limitation Agreements) (Amendment) Regulations 2011 is mandatory for periods starting on or after 1 October 2011. The comparatives in respect of the disclosures of Auditor Remuneration have been restated accordingly.

Amounts paid to the Bank's auditor and its associates in respect of services to the Bank, other than the audit of the Bank's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis. Included within all other services are recharges of £1,038k (2011: £nil) in respect of assurance services relating to the bid for the Lloyds Bank branches.

3. Directors' emoluments

	2012 £'000	2011 £'000
Executive directors	479	1,645
Compensation for loss of office	-	926
	479	2,571

Directors' activities are undertaken across The Co-operative Banking Group. The figures above reflect the Group's share of these services.

Retirement benefits are accruing to one director (2011: one) under defined benefit schemes.

The aggregate of emoluments and amounts receivable under incentive schemes of the highest paid director was £479k (2011: £549k). Accrued pension under defined benefit pension schemes at the year end was £21k (2011: £15k).

All Non-Executive Directors are appointed and their directors' fees are determined and paid by The Co-operative Group and therefore no amounts are shown above (2011: £nil). Further details of directors' emoluments are included in the remuneration report on pages 20 to 28. The remuneration report is unaudited.

4. Net interest income

	2012	2011
Interest receivable and similar income		
On financial assets not at fair value through income or expense:		
On loans and advances to customers	1,390.0	1,482.4
On loans and advances to banks	31.2	14.3
On investment securities	149.8	210.6
	1,571.0	1,707.3
On financial assets at fair value through income or expense:		
Net interest expense on financial instruments hedging assets	(133.4)	(128.1)
Net interest income on financial instruments not in a hedging relationship	50.7	4.5
	1,488.3	1,583.7

Included within interest receivable is £17.8m (2011: £9.9m) relating to profit on sale of investment securities – available for sale.

Interest income accrued on impaired financial assets during the year was £48.5m (2011: £55.5m, restated to reflect revision of impairment criteria). Interest due to unwinding of discount on impairment provisions relating to impaired financial assets amounted to £7.1m (2011: £2.4m).

In 2011, the Optimum credit fair value adjustment was revalued resulting in additional income of £20.0m. There was no further revaluation in 2012.

	2012	2011
Interest expense and similar charges		
On financial liabilities not at fair value through income or expense:		
On customer accounts	506.9	524.4
On bank and other deposits	227.9	230.9
On subordinated liabilities	77.0	98.5
On perpetual secured debt	43.2	42.0
	855.0	895.8
On financial liabilities at fair value through income or expense:		
Net interest expense on financial instruments hedging liabilities	33.7	52.0
Net interest expense on financial instruments not in a hedging relationship	33.8	0.9
	922.5	948.7

5. Net fee and commission income

	Before significant items 2012	Significant items 2012	After significant items 2012	Before significant items 2011	Significant items 2011	After significant items 2011
Fee and commission income						
On items not at fair value through income or expense	251.0	(149.7)	101.3	250.1	(90.0)	160.1
On trust or fiduciary activities that result from holding or investing in assets on behalf of others	0.2	_	0.2	1.1	_	1.1
	251.2	(149.7)	101.5	251.2	(90.0)	161.2
Fee and commission expense						
On items not at fair value through income or expense	66.0	-	66.0	57.6	-	57.6
On items at fair value through income or expense	8.0	-	8.0	8.4	_	8.4
	74.0	-	74.0	66.0	_	66.0

The significant item in 2012 of £149.7m (2011: £90.0m) is a provision for customer compensation relating to past sales of PPI in response to the FSA's policy statement published on 10 August 2010. The Bank stopped selling non-mortgage PPI at the beginning of 2009 and stopped selling mortgage PPI in 2012.

The 2011 comparatives reflect a reclassification of £11.6m between fee and commission income – items not at fair value through income or expense and fee and commission expense – items not at fair value through income or expense.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

6. Net trading income

	2012	2011
Foreign exchange	5.3	3.7
Other interest rate instruments	8.8	8.0
	14.1	4.5

Foreign exchange net trading income includes gains less losses from spot forward and forward contracts, options, futures and translated foreign currency assets and liabilities.

Other interest rate instruments include the result of transacting in government securities, money market instruments, interest rate and currency swaps, options and other derivatives.

7. Other operating income

	2012	2011
Profit on sale of investment securities – loans and receivables	15.7	37.2
Profit on sale of loans and advances to banks	9.3	_
Rent receivable from investment properties (note 21)	8.4	7.9
Other rent receivable	-	1.3
Change in fair value of investment properties (note 21)	0.2	(0.1)
Other	0.3	_
	33.9	46.3

The profit on sale of investment securities arose from the restructuring of a portfolio of assets. Profit on smaller disposals in the normal course of business are included in net interest income.

8. Operating expenses

	Before significant items 2012	Significant items 2012	After significant items 2012	Before significant items 2011	Significant items 2011	After significant items 2011

Direct expenses from investment properties that generated rental income in the year	3.0	_	3.0	3.5	_	3.5
Direct expenses from investment properties that did not generate rental income						
in the year	0.1		0.1	0.1	_	0.1
	587.6	235.1	822.7	528.7	53.3	582.0

The significant items relate to £47.0m (2011: £53.3m) of costs incurred on a programme of investment and integration, £38.1m (2011: £nil) of costs incurred as a result of the bid for the Lloyds Bank branches and £150.0m (2011: £nil) of recharged costs relating to impairment of intangible fixed assets.

No expenditure has been incurred in respect of the Government's Bank Levy since the relevant aggregate liabilities of the Group are below the qualifying threshold.

9. Staff costs

	Before significant items 2012	Significant items 2012	After significant items 2012	Before significant items 2011	Significant items 2011	After significant items 2011
Wages and salaries	188.0	9.8	197.8	210.8	14.1	224.9
Social security costs	15.8	1.0	16.8	20.9	0.7	21.6
Pension costs:						
Defined benefit plans (note 34)	0.2	-	0.2	0.2	_	0.2
Defined contribution plans (note 34)	32.6	1.1	33.7	29.0	0.8	29.8
Other staff costs	29.9	16.0	45.9	33.8	19.2	53.0
	266.5	27.9	294.4	294.7	34.8	329.5

The Bank staff costs included above are £239.0m before significant items and £266.8m after significant items (2011: £262.5m before significant items, £297.4m after significant items).

Average number of employees

The average number of persons working for the Group and the Bank during the year is as follows:

	Group No. of employees 2012	No. of employees 2011	Bank No. of employees 2012	No. of employees 2011
Full time	6,082	6,260	5,630	5,751
Part time	2,025	2,104	1,916	1,988
	8,107	8,364	7,546	7,739

Employee activities are undertaken across The Co-operative Banking Group and the figures above reflect the Group and Bank's share of these services.

10. Income tax

	Before significant items 2012	Significant items 2012	After significant items 2012	Before significant items 2011	Significant items 2011	After significant items 2011
Current tax – current year	(70.4)	(77.0)	(147.4)	(3.4)	(38.0)	(41.4)
Current tax – prior year	(2.5)	-	(2.5)	(6.2)	_	(6.2)
Deferred tax – current year (note 33)	(8.8)	-	(8.8)	61.7	_	61.7
Deferred tax – prior year (note 33)	(6.9)	-	(6.9)	(9.7)	_	(9.7)
	(88.6)	(77.0)	(165.6)	42.4	(38.0)	4.4

Further information on deferred income tax is presented in note 33. The tax on the Group's (loss)/profit before taxation differs from the theoretical amount that would arise using the corporation tax rate in the UK as follows:

	2012	2011
(Loss)/profit before taxation	(673.7)	54.2
Tax calculated at a rate of 24.5% (2011: 26.49%)	(165.0)	14.4
Effects of:		
Preference share interest not deductible for tax purposes	1.4	1.5
Expenses not deductible for tax purposes	5.1	0.1
Depreciation of expenditure not qualifying for capital allowances	1.2	1.2
Profits taxed at lower rates	(0.7)	(1.2)
Non-taxable income	(0.4)	(0.1)
Adjustments to tax charge in respect of prior periods	(9.4)	(15.9)
Change in rate of deferred tax (note 33)	4.5	4.7
Other differences	(2.3)	(0.3)
	(165.6)	4.4

The 2012 adjustments to tax charge in respect of prior periods of $\mathfrak{L}9.4$ m relates to accelerated capital allowances. In 2011, the adjustment included $\mathfrak{L}13.0$ m relating to the taxation of a contingent consideration.

90

Notes to the financial statements continued

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

11. Group profit attributable to equity shareholders dealt with in the accounts of The Co-operative Bank plc

	Before significant items 2012	Significant items 2012	After significant items 2012	Before significant items 2011	Significant items 2011	After significant items 2011
Net (loss)/profit attributable to equity shareholders of the Bank	(280.4)	(307.8)	(588.2)	11.9	(105.2)	(93.3)

As permitted by Section 408 of the Companies Act 2006, the income statement of The Co-operative Bank plc has not been presented separately.

12. Earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to equity shareholders of the Bank by the weighted average number of ordinary shares in issue during the year.

	Before significant items 2012	Significant items 2012	After significant items 2012	Before significant items 2011	Significant items 2011	After significant items 2011
Profit attributable to equity shareholders of the Bank	(201.3)	(307.8)	(509.1)	153.3	(105.3)	48.0
Ordinary shares in issue (millions)						
At the beginning and end of the year	8,200.0	8,200.0	8,200.0	8,200.0	8,200.0	8,200.0
Weighted average number of ordinary shares in issue (millions)	8,200.0	8,200.0	8,200.0	8,200.0	8,200.0	8,200.0
Basic earnings per share (expressed in pence per share)	(2.46)	(3.75)	(6.21)	1.87	(1.28)	0.59

13. Cash and balances at central banks

	Group		Bank	
	2012	2011	2012	2011
Cash in hand	272.6	280.3	272.6	280.3
Balances with the Bank of England other than mandatory reserve deposits	5,121.0	6,378.3	5,121.0	6,378.3
Included in cash and cash equivalents	5,393.6	6,658.6	5,393.6	6,658.6
Mandatory reserve deposits with the Bank of England	39.4	38.0	39.4	38.0
	5,433.0	6,696.6	5,433.0	6,696.6

Mandatory reserve deposits are not available for use in the Group and Bank's day to day operations, are non-interest bearing and are not included in cash and cash equivalents.

14. Loans and advances to banks

		Group		Bank
	2012	2011	2012	2011
Items in course of collection from other banks	103.9	123.2	103.9	123.2
Placements with other banks	746.7	896.6	731.9	885.1
Included in cash and cash equivalents	850.6	1,019.8	835.8	1,008.3
Other loans and advances to banks	1,053.5	986.7	211.4	291.8
	1,904.1	2,006.5	1,047.2	1,300.1

15. Loans and advances to customers

		Group		Bank
	2012	2011	2012	2011
Gross loans and advances	33,982.5	34,058.0	23,203.7	22,993.1
Less: allowance for losses	(643.0)	(292.0)	(418.2)	(258.1)
	33,339.5	33,766.0	22,785.5	22,735.0

Group and Bank loans and advances to customers include £153.6m (2011: £114.1m) of financial assets at fair value through income or expense designated at initial recognition to eliminate or significantly reduce a measurement or recognition inconsistency. Of these, £48.7m (2011: £36.7m) are secured by real estate collateral.

Collective

15. Loans and advances to customers continued

Loans and advances to customers include £10,997.3m (2011: £9,099.8m) securitised under the Group's securitisation and covered bond programmes. The Group remains exposed to substantially all of the risks and rewards of ownership of these assets. Included within Group deposits by banks (note 25) are £58.4m (2011: £61.9m) of loans from external third parties and within Group debt securities in issue (note 28) are £4,144.5m (2011: £3,989.4m) of fixed and floating rate notes, all secured on these mortgage assets. Included within amounts owed by other Co-operative Group undertakings in the Bank are £6,297.3m (2011: £4,749.5m) of floating rate notes issued to the Bank and £1,014.7m (2011: £1,000.3m) of other loans, secured on these mortgage assets.

Concentration of exposure

The Group's exposure is virtually all within the UK. There is a detailed analysis of the concentration of exposure within the risk management disclosures, on pages 65 and 66.

The net impairment charge in the Group income statement is £474.1m (2011: £120.5m). This includes amounts recovered by the Group of £6.1m (2011: £10.0m) against amounts previously written off. The recoveries have been made from the mortgagors, from other parties involved in the origination or acquisition of the mortgages and from the sale of written off debt.

The impairment charge also includes a provision of £37.0m (2011: £nil) made against fair value adjustments for hedged risk during the year (as shown in the fair value adjustments for hedged risk tables).

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

15. Loans and advances to customers continued

Loans and advances to customers include finance lease receivables:

	Gr	oup	Bank	
	2012	2011	2012	2011
Gross investment in finance leases may be analysed as follows:				
No later than one year	22.2	26.1	16.2	20.2
Later than one year and no later than five years	68.6	62.8	43.6	41.9
Later than five years	73.4	82.2	66.7	65.6
	164.2	171.1	126.5	127.7
Unearned future finance income on finance leases	(44.1)	(47.7)	(34.7)	(35.4)
Net investment in finance leases	120.1	123.4	91.8	92.3
The net investment in finance leases may be analysed as follows:				
No later than one year	15.5	19.1	11.7	15.6
Later than one year and no later than five years	47.9	40.9	29.0	27.5
Later than five years	56.7	63.4	51.1	49.2
	120.1	123.4	91.8	92.3

There are no unguaranteed residual values for any of the finance leases.

The Group enters into finance lease and hire purchase arrangements with customers in a wide range of sectors including transport, retail and utilities. The accumulated allowance for uncollectible minimum lease payments receivable is £nil (2011: £0.1m).

Fair value adjustments for hedged risk

The Group has entered into interest rate swaps that protect it from changes in interest rates on the floating rate liabilities that fund its portfolio of fixed rate mortgages. Changes in the fair values of these swaps are offset by changes in the fair values of the fixed rate mortgages.

	Group		Bank	
	2012	2011	2012	2011

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

17. Derivative financial instruments

The Bank, as principal, has entered into various derivatives either as a trading activity, which includes proprietary transactions and customer facilitation, or as a hedging activity for the management of interest rate risk, equity risk and foreign exchange rate risk. Positive and negative fair values have not been netted as the Group does not have a legal right of offset.

Derivatives held for trading purposes

Trading transactions are wholly interest rate related contracts including swaps, caps and floors, forward rate agreements and exchange traded futures. Trading transactions include derivatives where the Bank enters into a transaction to accommodate a customer together with the corresponding hedge transaction.

Non-trading derivatives

Non-trading transactions comprise derivatives held for hedging purposes to manage the asset and liability positions of the Group. Derivatives used to manage interest rate related positions include swaps, caps and floors, forward rate agreements and exchange traded futures. The foreign exchange rate positions are managed using forward currency transactions and swaps. Equity risk is managed using equity swaps.

During the year the Bank has entered into fair value hedges to mitigate price movements due to interest rate sensitivities.

	Group		_	Bank

The derivatives designated as cashflow hedges are interest rate swaps used to hedge interest rate risk in the Bank's retail operations. Cash flows are hedged by quarterly time periods for durations up to ten years. During the year there were no forecast transactions for which hedge accounting had previously been used but are no longer expected to occur.

The number of non-margin exchange traded contracts held by the Bank as at 31 December 2012 was nil (2011: nil).

In line with industry standards, credit valuation adjustments (CVAs) are applied to non-collateralised swaps representing the fair value measurement of counterparty risk. This is a conservative approach to valuation and reduces the fair value of derivative assets. The credit adjustment across the portfolio was £2.8m as at the end of 2012. We do not apply CVA for derivatives that are fully cash collateralised.

For the year ended 31 December 2012

At the end of the year	-	0.6

The Bank's goodwill was recognised in 2009 and related to the transfer of engagements of Britannia Building Society.

Each year the Group tests the asset for impairment by comparing its recoverable amount, determined in accordance with IAS 36, with its carrying amount. The directors have concluded that the carrying value should be written down to nil. The amount has been charged to operating expenses.

Internally generated intangible assets consist of software development costs.

Other intangible assets consist of a core deposit intangible of $\pounds 44.0m$ and a brand intangible of $\pounds 2.0m$. The brand intangible has an indefinite useful life and is not amortised but is subject to an annual impairment review. On the basis of this review the brand is considered to be unimpaired.

At the end of the year	173.0	172.7	1.8	_	

During the year £0.9m of properties, previously carried at historical cost, were transferred to investment properties from other assets. The carrying value of these properties has been assessed for fair value resulting in a £0.9m gain in the year.

All investment properties are held to generate rental income until such time that the Group considers it appropriate to realise its investment. Investment properties are carried at fair value.

The range of yields applied to the net annual rental income to determine the fair value of property is 3% to 8%.

The Group lets investment properties on assured shorthold tenancy agreements, most of which are for contract periods of no more than 12 months. The future minimum lease receipts under non-cancellable operating leases are $\mathfrak{L}1.1$ m (2011: $\mathfrak{L}3.0$ m). The Group has not recognised any contingent rent in the year (2011: $\mathfrak{L}11.1$ m). None of the lease agreements are individually significant.

Included in Group other operating income for the year is £8.4m (2011: £7.9m) of rental income relating to investment properties (note 7).

For the year ended 31 December 2012

	3,612.0	3,302.7	3,552.9	3,239.8	

Included within deposits from other banks are liabilities of £1,880.6m (2011: £1,703.2m) secured on investment securities with a carrying value of £1,983.6m (2011: £2,114.4m) which have been sold under sale and repurchase agreements (note 39).

26. Customer accounts

		Group		Bank
	2012	2011	2012	2011
Customer accounts	35,884.4	34,990.6	33,750.3	32,670.1

The Group has entered into interest rate swaps that protect it from changes in interest rates on the floating rate assets that are funded by its fixed rate customer accounts. Changes in the fair values of these swaps are offset by changes in the fair values of the fixed rate customer accounts. Included within customer accounts are 'fair value hedged' fixed rate accounts with a total nominal value of \mathfrak{L} nil (2011: \mathfrak{L} 3.0m) against which there are fair value adjustments for hedged risk of \mathfrak{L} nil (2011: \mathfrak{L} 0.4)m), giving a total carrying value of \mathfrak{L} nil (2011: \mathfrak{L} 2.6m).

27. Customer accounts – capital bonds

		Group		Bank
	2012	2011	2012	2011
Customer accounts – capital bonds	888.1	1,429.8	867.2	1,397.3

Capital bonds are fixed term customer accounts with returns based on the movement in an index (eq FTSE100) over the term of the bond.

The capital bonds have been designated on initial recognition at fair value through income and expense and are carried at fair value.

The fair values for the capital bonds are obtained on a monthly basis from the swap counterparties. These external valuations are reviewed independently using valuation software to ensure the fair values are priced on a consistent basis.

None of the change in the fair value of the capital bonds is attributable to changes in the liability's credit risk.

The maximum amount the Group would contractually be required to pay at maturity for all the capital bonds is £888.7m (2011: £1,429.6m).

The Group uses swaps to create economic hedges against all of its capital bonds. The gain on capital bonds in the income statement for the year is £33.0m (2011: £24.8m). However, taking into account changes in fair value of the associated swaps, the net impact to the income statement for the year is a gain of £0.1m (2011: £0.6m).

28. Debt securities in issue

		Group		Bank
	2012	2011	2012	2011
Certificates of deposit	157.8	252.1	157.8	252.1
Commercial paper	8.2	_	8.2	_
Fixed and floating rate notes	4,547.7	3,912.7	1,586.2	1,178.9
	4,713.7	4,164.8	1,752.2	1,431.0

The Group has entered into cross currency interest rate swaps that protect it from changes in exchange rates and interest rates on its debt securities in issue. Changes in the fair values of these swaps are largely offset by changes in the sterling equivalent carrying value of the debt securities in issue.

Debt securities in issue include fixed and floating rate notes, the majority of which are secured on portfolios of variable and fixed rate mortgages. The notes are redeemable in part from time to time, such redemptions being limited to the net capital received from mortgagors in respect of the underlying assets. There is no requirement for the Group to make good any shortfall out of general funds. The maturity date of the notes matches the maturity date of the underlying assets.

Perpetual subordinated bonds	292.1	282.9
Issue costs, discounts and accrued interest	28.8	31.0
	1,258.6	1,258.8

Step up callable subordinated notes 2019

The notes were issued on 1 April 2004 at a discount of 0.946%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an interest rate of 5.875% per annum to (but excluding) 2 April 2014, and thereafter the interest rate will be determined by reference to the gross redemption yield on the five year benchmark gilt, and a margin of 2.25%. Interest is payable annually in arrears on 2 April.

The Bank may redeem all, but not less than all, of the notes at their principal amount on 2 April 2014.

On 19 December 2012 the Bank invited investors to exchange their holdings in the above instrument for a new subordinated note, which resulted in the redemption of £112.2m of the notes (representing 74.8% of the amount outstanding), leaving £37.8m outstanding.

$60,\!000,\!000$ 9.25% non-cumulative irredeemable preference shares of £1 each

The preference shares carry the right to a fixed non-cumulative preferential dividend on the capital for the time being paid up, at the rate of 9.25% per annum exclusive of any associated tax credit. The dividends are payable on 31 May and 30 November each year and take priority over dividends to any other class of share in the capital of the Bank.

On a return of capital on winding up, the assets of the Bank shall be applied in repaying the preference share capital in priority to any payments to the holders of any other class of shares in the capital of the Bank. The amount receivable by the holders of the preference shares shall be the greater of the capital paid up or the average quoted price during the three months immediately preceding the date of the notice convening the meeting to consider the resolution to wind up.

The holders of the preference shares shall have the right to vote at a general meeting of the Bank only if and when, at the date of the notice convening the meeting, the dividend due to them has been in arrears for six months or more or if a resolution is to be proposed at the meeting abrogating or varying their rights or privileges or for the winding up of the Bank or other return of capital and then only on that resolution.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

29. Other borrowed funds continued

Floating rate subordinated notes 2016

The notes were issued on 18 May 2006 at a discount of 0.14%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes are denominated in euros and interest is calculated at three months EURIBOR plus a margin of 0.28%. From 18 May 2011 interest has been calculated at three months EURIBOR plus a margin of 0.78%. The first interest coupon was paid in August 2006.

The notes were hedged with a cross currency swap converting the exposure into sterling which paid a floating rate of three months LIBOR with a margin on interest coupon of 0.34125% and received a floating rate of three months EURIBOR plus a margin on interest coupon of 0.28%. The cross currency swap matured on 18 May 2011.

On 28 April 2011 the Bank redeemed €149.2m of the notes (representing 81% of the amount outstanding) leaving €34.9m outstanding. The Bank had the option to call the outstanding notes in whole but not in part on the interest payment date falling on or nearest to May 2011, and now at any interest payment date thereafter subject to prior consent of the Financial Services Authority.

5.625% fixed rate subordinated notes 2021

The notes were issued on 16 November 2006 at a discount of 0.189%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 5.625% up to and including the interest payment date on 16 November 2016, when the interest basis changes to floating rate. During the fixed rate period, interest is payable semi-annually in arrears on 16 May and 16 November.

From 17 November 2016, the notes carry a floating interest rate of three months LIBOR plus a margin of 1.75%. Interest is payable quarterly in arrears on 16 February, 16 May, 16 August and 16 November, commencing on the interest payment date falling in February 2017 up to and including the maturity date.

The Bank may redeem all, but not less than all, of the notes at the principal amount on 16 November 2016, and on any quarterly interest payment date thereafter.

On 19 December 2012 the Bank invited investors to exchange their holdings in the above instrument for a new subordinated note, which resulted in the redemption of £141.3m of the notes (representing 94.2% of the amount outstanding) leaving £8.7m outstanding.

9.25% fixed rate subordinated notes 2021

On 28 April 2011 the Bank issued £275.0m fixed rate subordinated notes due 2021, issued at par.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 9.25% up to (but excluding) 28 April 2021. Interest is payable annually in April.

There is no option to redeem the notes early.

7.875% fixed rate subordinated notes 2022

On 19 December 2012 the Bank issued £235.4m fixed rate subordinated notes due 2022, issued at par.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 7.875% up to 18 December 2022. Interest is payable annually in arrears in December.

There is no option to redeem the notes early.

29. Other borrowed funds continued

Fixed rate subordinated notes 2024

The notes were issued on 17 March 2004 at a discount of 1.148%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 5.75% to 2 December 2019 (reset date). During this period the notes are hedged with interest rate swaps that convert the interest rate payable into floating rates at six months LIBOR plus a margin of 0.72%. The fixed receipt leg of the swap is received annually to match the payment to the noteholders. The floating payment leg of the swap is payable semi-annually in June and December. The interest rate swaps mature on 2 December 2019.

From the reset date the interest rate will be calculated based on the Five Year Benchmark Gilt rate plus a margin of 1.94%. The Five Year Benchmark Gilt rate being the Gross Redemption Yield determined by the UK government security having a maturity date falling on or nearest the fifth anniversary of the determination date (the determination date being two days prior to the reset date), converted to an annualised yield. The Gross Redemption Yield being calculated on the basis set out by the UK Debt Management Office in the publication 'Formulae for Calculating Gilt Prices from Yields'. From the reset date the interest will be paid annually in arrears until maturity or redemption.

The notes are callable in whole but not in part, at the principal amount, on 2 December 2019, subject to the prior consent of the Financial Services Authority.

Fixed rate subordinated notes 2033

The notes were issued on 28 March 2002 at a discount of 0.93%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 5.875% to maturity. Interest is payable semi-annually in March and September.

Of the notes, £100m are hedged with interest rate swaps that have a floating payment leg at six months LIBOR payable in March and September. The fixed interest rate receivable legs on the swaps are £25m at 5.405% and £75m at 5.225%. The semi-annual interest receivable leg on the swap is matched to the dates on the notes.

Perpetual subordinated bonds

Perpetual subordinated bonds (PSBs) with a par value of £110m were issued in 1992 at a discount of 0%. PSBs with a par value of £200m were issued in 2005 at a discount of 0%.

Both the £110m and £200m PSBs are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of the bondholders will be subordinated in right of payment of all creditors (including subordinated creditors) of the Bank.

The PSBs with a par value of £110m carry an annual interest rate of 13%. Interest is payable semi-annually in January and July.

The PSBs with a par value of £200m carry an annual interest rate of 5.5555% up until the reset date. This coupon is payable semi-annually in June and December. From the reset date of 14 December 2015 the interest rate will be amended to the rate for three month deposits in sterling plus a margin of 2.05% per annum. The interest payments will then be made quarterly in arrears in March, June, September and December, with the interest resetting at each interest payment date.

During the period up until the reset date the PSBs are hedged with an interest rate swap that converts the interest rate payable into floating rates at six months LIBOR plus a margin of 1.175%. The semi-annual interest receivable and payable on the swap is aligned to the interest payment dates of the notes. The interest rate swap matures on 14 December 2015.

Given prior relevant supervisory consent, the Bank may elect to repay all, but not less than all, of these PSBs on 14 December 2015 or on any interest payment date thereafter at their principal amount.

For the year ended 31 December 2012 All amounts are stated in £m unless otherwise indicated

30. Other liabilities

	G	roup		Bank
	2012	2011	2012	2011
Amounts falling due within one year:				
ATM creditor	61.5	122.4	61.5	122.4
Other creditors	37.7	46.5	33.5	42.2
Amounts falling due after one year:				
Other creditors	4.8	4.8	4.5	4.5
	104.0	173.7	99.5	169.1

Other creditors of the Group and Bank include finance lease obligations as follows:

		t value of ayments		ninimum ayments
	2012	2011	2012	2011
Due within one year	-	_	-	_
Due between one year and five years	0.1	0.1	0.1	0.1
Due after five years	1.2	1.0	1.6	1.7
	1.3	1.1	1.7	1.8

The future minimum lease payments have been discounted at LIBOR over the term of the lease to give the present value of these payments.

	6.8	24.9	61.7	_	93.4

Property

The Group has a number of leasehold properties available for rent. Provisions are made when either the sub-lease income does not cover the rental expense or the property is vacant. The provision is based on the expected outflows during the remaining periods of the leases using a discount rate of 11%.

Financial Services Compensation Scheme (FSCS) levies

The FSCS has provided compensation to customers of financial institutions following the collapse of deposit takers in 2008. The compensation paid out to consumers is currently funded through loans from HM Treasury. The Group will be liable to pay a proportion of the outstanding borrowings that the FSCS has borrowed from HM Treasury. Additionally the Group is obliged to pay its share of management expenses and compensation based upon the Group's proportion of the total market protected deposits at 31 December of each year.

The ultimate FSCS levy to the industry as a result of the 2008 collapses cannot currently be estimated reliably as it is dependent on other factors that may affect amounts payable and the timing of amounts payable, including changes in interest rates, potential recoveries of assets by the FSCS and the level of protected deposits.

The Group has provided £38.6m (2011: £25.0m) for its share of the levies raised by the FSCS including the interest on the loan from HM Treasury in respect of the levy years to 31 March 2014. The provision includes £27.7m in respect of the interest levy (2011: £25.0m). The Group's interest levy provision calculation includes estimates of the total FSCS levy in each levy year and estimates of the Group's market participation in each levy year. During 2012, the FSCS indicated that it expected to raise a capital levy to cover an estimated shortfall in excess of £800m in the amounts recovered from the failed banks to repay HM Treasury loans made to the FSCS. The Group's share of such a levy is estimated at £24.0m and the Group has provided £10.9m in the current year in respect of this.

32. Provisions for liabilities and charges continued

PPI

Provisions have been made in respect of potential customer compensation claims relating to past sales of PPI. Claims are investigated on an individual basis and, where appropriate, compensation payments are made. For a number of years, the Bank, along with many other financial services providers, sold PPI alongside mortgage and non-mortgage credit products. The Bank stopped selling non-mortgage PPI in January 2009 and stopped selling mortgage PPI in March 2012.

The FSA issued a policy statement in August 2010 which amended the 'Disputes Resolution: Complaints' section of the FSA Handbook, setting out new rules for handling complaints, including complaints of PPI mis-selling. The Bank must comply with the policy statement which requires complainants to receive adequate redress and the Bank to complete a proactive review of all past business to identify mis-sold policies where no complaint has been made. An additional provision of £149.7m (2011: £90.0m) has been recognised in the year (note 5), in respect of the total expected cost to the Bank of carrying out this work and paying compensation, making total provisions raised of £244.0m (2011: £94.3m).

33. Deferred tax

Deferred taxes are calculated on all temporary differences under the liability method using an effective tax rate of 23% (2011: 25%).

The movements on the deferred tax accounts are as follows:

	G	roup		Bank
	2012	2011	2012	2011
Net deferred tax at the beginning of the year	26.4	87.0	110.3	154.0
Income statement credit/(charge)	8.8	(61.7)	14.1	(44.5)
Prior year adjustments	6.9	9.7	9.4	9.4
Charged to equity:				
Fair value unwinds	-	_	8.9	_
Unrealised appreciation on investments	-	0.4	-	0.4
Pensions and other post-retirement benefits	-	(0.1)	-	(0.1)
Cashflow hedges	3.5	(8.9)	3.5	(8.9)
Available for sale	(7.4)	_	(7.4)	_
Net deferred tax at the end of the year	38.2	26.4	138.8	110.3
Components of net deferred tax:				
Deferred tax asset	165.9	137.5	138.8	110.3
Deferred tax liability	(127.7)	(111.1)	_	_
	38.2	26.4	138.8	110.3
Net deferred tax comprises:				
Cashflow hedges	(18.9)	(22.4)	(18.9)	(22.4)
Unrealised appreciation on investments	(0.7)	(0.7)	(0.7)	(0.7)
Capital allowances on fixed assets	33.4	28.5	37.0	29.4
Capital allowances on assets leased to customers	1.3	(2.7)	1.3	0.6
Pensions and other post-retirement benefits	0.9	0.9	0.9	0.9
Fair value adjustments	(55.8)	(3.4)	65.6	98.9
Other temporary differences	26.1	26.2	1.7	3.6
Tax losses carried forward	51.9	_	51.9	-
	38.2	26.4	138.8	110.3

Other temporary differences for the Group of £26.1m (2011: £26.2m) include deferred tax assets/liabilities as a result of loss provisions on mortgage assets held by Special Purpose Entities (SPEs), taxation of SPEs under the securitisation regime and spreading of the tax effect of IFRS transitional adjustments.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

33. Deferred tax continued

The deferred tax (credit)/charge in the income statement comprises the following temporary differences:

	G	roup	Ва	ank
	2012	2011	2012	2011
Capital allowances on fixed assets	(8.1)	4.0	(7.6)	4.1
Capital allowances on assets leased to customers	(0.7)	(0.7)	(0.7)	(0.2)
Fair value adjustments	42.0	35.7	33.3	27.8
Other temporary differences	1.5	13.0	1.9	3.4
Tax losses carried forward	(50.4)	_	(50.4)	_
	(15.7)	52.0	(23.5)	35.1

Deferred tax assets expected to be recoverable after one year are £38.2m (2011: £26.4m). The deferred tax asset is considered to be recoverable as, after preparing forecasts and projections for the Banking Group, the directors are satisfied that the Group will be profitable in the foreseeable future.

The 2012 Autumn Statement on 5 December 2012 announced that the UK corporation tax rate will reduce to 21% by 2014. A reduction in the rate from 26% to 25% (effective from 1 April 2012) was substantively enacted on 5 July 2011, and further reductions to 24% (effective from 1 April 2012) and 23% (effective from 1 April 2013) were substantively enacted on 26 March 2012 and 3 July 2012 respectively. This will reduce the Group's future current tax charge accordingly. The deferred tax asset at 31 December 2012 has been calculated based on the rate of 23% substantively enacted at the balance sheet date. It has not yet been possible to quantify the full anticipated effect of the announced further 2% rate reduction, although this will further reduce the Group's future current tax charge and reduce the Group's deferred tax asset accordingly.

34. Pensions

Defined contribution basis

The Group participates in The Co-operative Group Pension (average career earnings) Scheme (Pace). Pace is a defined benefit scheme, the assets of which are held in a separate fund administered by trustees. As a group wide pension scheme, Pace exposes the participating businesses to actuarial risks associated with the current and former employees of other Group companies, with the result that there is no consistent and reliable basis for allocating liabilities, assets and costs to individual companies participating in the scheme. Therefore, pension costs in respect of the scheme are accounted for on a defined contribution basis and recognised as an expense in the income statement as incurred, based on a fixed percentage as agreed with the trustees.

Key assumptions of the Group pension scheme

The key aspects of The Co-operative Group's Pace scheme are as follows:

	2012	2011
The principal assumptions used to determine the liabilities of the Pace scheme are:		
Discount rate	4.60%	4.60%
Rate of increase in salaries	4.80%	4.80%
Future pension increases where capped at 5.0% per annum	3.30%	3.30%
Future pension increases where capped at 2.5% per annum	2.50%	2.50%
Assumptions used to determine net pension cost for the Pace scheme are:		
Discount rate	4.60%	5.20%
Expected long term return on scheme assets	5.10%	6.20%
		5.20%
Rate of increase in salaries	4.80%	5.20%
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace so		Female
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace so Life expectancy:	cheme at the 2012 year end is:	
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace so	cheme at the 2012 year end is:	Female
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace so Life expectancy: Member currently aged 65 (current life expectancy)	cheme at the 2012 year end is: Male 22.4	Female
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace solution. Life expectancy: Member currently aged 65 (current life expectancy) Member currently aged 40 (life expectancy at age 65)	cheme at the 2012 year end is: Male 22.4	Female
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace solution. Life expectancy: Member currently aged 65 (current life expectancy) Member currently aged 40 (life expectancy at age 65)	cheme at the 2012 year end is: Male 22.4 24.2	Female 24.0 25.9
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace so Life expectancy: Member currently aged 65 (current life expectancy) Member currently aged 40 (life expectancy at age 65) The amounts recognised in the balance sheet of The Co-operative Group are as follows:	cheme at the 2012 year end is: Male 22.4 24.2	24.0 25.9
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace so Life expectancy: Member currently aged 65 (current life expectancy) Member currently aged 40 (life expectancy at age 65) The amounts recognised in the balance sheet of The Co-operative Group are as follows: Fair value of plan assets	cheme at the 2012 year end is: Male 22.4 24.2 2012 6,919.4	24.0 25.9 2011 6,610.5
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the Pace so Life expectancy: Member currently aged 65 (current life expectancy) Member currently aged 40 (life expectancy at age 65) The amounts recognised in the balance sheet of The Co-operative Group are as follows: Fair value of plan assets	cheme at the 2012 year end is: Male 22.4 24.2 2012 6,919.4 (6,532.1)	24.0 25.9 2011 6,610.5 (6,242.6)

34. Pensions continued

The weighted average asset allocations at the year end were as follows:

	2012	2011
Equities	31%	29%
Liability driven investments	49%	51%
Alternative growth	14%	14%
Property	4%	5%
Cash	2%	1%

To develop the expected long term rate of return on assets assumption, The Co-operative Group considered the current level of expected returns on risk free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected return for each asset class was then weighted based on the target asset allocation to develop the expected long term rate of return on assets assumption for the portfolio. This resulted in the selection of the 5.1% assumption for the year ended 31 December 2012 (2011: 6.2%).

Former Britannia Building Society pension scheme

Following the transfer of engagements of Britannia Building Society, the Britannia pension scheme transferred to the Co-operative Financial Services Management Services Limited (CFSMS). The pension cost shown in these accounts in respect of the Britannia defined benefit scheme for the period after 31 July 2009 is the actual contribution paid by the Bank. The scheme closed on 6 October 2012 with active members at the date of closure being transferred to the Co-operative Pension Scheme (Pace).

The key aspects of the Britannia defined benefit scheme are as follows:

	2012	2011
The principal assumptions used to determine the liabilities of the Britannia defined benefit scheme are:		
Discount rate	4.60%	4.60%
Rate of increase in salaries	4.80%	4.80%
Future pension increases where capped at 5.0% per annum	3.30%	3.30%
Future pension increases where capped at 2.5% per annum	2.50%	2.50%
Assumptions used to determine net pension cost for the Britannia defined benefit scheme are:		
Discount rate	4.60%	5.20%
Expected long term return on scheme assets	5.00%	6.00%
Rate of increase in salaries	4.80%	5.20%

The average life expectancy (in years) for mortality tables used to determine defined benefit scheme liabilities for the former Britannia Building Society scheme at the 2012 year end is:

	Male	Female
Life expectancy:		
Member currently aged 65 (current life expectancy)	22.4	24.6
Member currently aged 40 (life expectancy at age 60)	24.2	26.5
The amounts recognised in the balance sheet of The Co-operative Group are as follows:		
	2012	2011
Fair value of plan assets	602.7	569.9
Present value of funded obligations	(586.8)	(608.4)
	15.9	(38.5)
Pension surplus not recognised under IAS 19	(15.9)	_
Present value of unfunded obligations	(2.9)	(2.9)
	(2.9)	(41.4)

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

34. Pensions continued

The weighted average asset allocations at the year end were as follows:

	2012	2011
Equities	25%	25%
Diversified growth	14%	15%
Liability driven investments	48%	57%
Property	13%	3%

To develop the expected long term rate of return on assets assumption, The Co-operative Group considered the current level of expected returns on risk free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected return for each asset class was then weighted based on the target asset allocation to develop the expected long term rate of return on assets assumption for the portfolio. This resulted in the selection of the 5.0% assumption for the year ended 31 December 2012 (2011: 6.0%).

Bank (unfunded) pension scheme

The Bank also operates a small unfunded pension scheme.

	2012	2011	2010	2009	2008
Expected return on scheme assets	n/a	n/a	n/a	n/a	n/a
Rate of increase of pensions in payment	3.3%	3.3%	3.7%	3.8%	3.3%
Rate of increase in salaries	4.8%	4.8%	5.2%	5.3%	4.8%
Discount rate	4.6%	4.6%	5.2%	5.6%	5.7%

The assumptions used by the actuary were the best estimates chosen from a range of possible actuarial assumptions which, due to the timescales covered, may not necessarily be borne out in practice.

The values of the assets and liabilities of the unfunded pension scheme were:

	Group a	nd Bank
	2012	2011
Present value of unfunded obligations	(4.0)	(3.9)
Deficit in scheme	(4.0)	(3.9)
Related deferred tax asset	0.9	0.9

35. Contingent liabilities and commitments

The tables below give, for the Group and the Bank, the contract amounts and risk weighted amounts of contingent liabilities and commitments. The contract amounts indicate the volume of business outstanding at the balance sheet date and do not represent amounts at risk. The risk weighted amounts have been calculated in accordance with the FSA rules.

The contingent liabilities of the Group and the Bank as detailed below arise in the normal course of banking business and it is not practical to quantify their future financial effect.

	Contract amount 2012	Risk weighted amount 2012	Contract amount 2011	Risk weighted amount 2011
Group				
Contingent liabilities:				
Guarantees and irrevocable letters of credit	168.8	120.6	167.6	131.8
Bank				
Contingent liabilities:				
Guarantees and irrevocable letters of credit	168.2	120.3	166.6	131.3
Group				
Other commitments:

	4,770.3	1,065.8	4,752.7	1,150.5
Bank				
Other commitments:				
Documentary credits and short term trade related transactions	3.7	0.7	7.7	1.5
Forward asset purchases and forward deposits placed	53.2	0.1	44.9	0.9
Undrawn formal standby facilities, credit lines and other commitments to lend				
(includes revocable and irrevocable commitments) (i)	4,565.5	1,061.0	4,504.2	1,138.7
	4,622.4	1,061.8	4,556.8	1,141.1

Notes

Assets pledged

Assets are pledged as collateral under repurchase agreements with other banks. These deposits are not available to finance the Group's day to day operations. Mandatory reserve deposits are also held with the Bank of England in accordance with statutory requirements.

See note 39.d for further details of assets pledged.

⁽i) Undrawn loan commitments include revocable commitments which are unused credit card limits of £2,048.1m (2011: £2,181.6m).

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

35. Contingent liabilities and commitments continued

Commitments under operating leases

The Group leases various properties and equipment under non-cancellable operating lease arrangements. The leases have various terms, ranging from six months to 999 years. None of these leases are individually material and none have any material clauses. The table below discloses the minimum operating lease payments the Group and the Bank will be required to make over the remaining lives of the leases.

	Land and buildings 2012	Equipment 2012	Land and buildings 2011	Equipment 2011
Group				
Falling due:				
Within one year	21.9	0.3	26.1	0.3
Between one and five years	63.9	0.5	76.5	0.4
In five years or more	79.6	-	87.3	0.1
	165.4	0.8	189.9	0.8
Bank				
Falling due:				
Within one year	22.6	0.3	25.4	0.3
Between one and five years	65.3	0.5	78.7	0.4
In five years or more	66.0	-	73.7	0.1
	153.9	0.8	177.8	0.8

The Group leases a number of branch and office premises under operating leases. The leases typically run for a period of up to 25 years, with an option to renew the lease after that period. Lease payments are generally reviewed every three to five years to reflect market rentals.

The total value of future minimum sub-lease payments expected to be received under non-cancellable sub-leases for the Group and for the Bank was £9.1m (2011: £12.8m).

Former Britannia Building Society pension scheme guarantee

Following the transfer of engagements of Britannia Building Society, the Britannia pension scheme transferred to CFSMS. Under the terms of this transfer the Bank entered into a deed of guarantee to provide assurance to the trustees of the pension scheme to support CFSMS in meeting its funding obligations to the scheme should CFSMS be unable to pay its obligations as they fall due.

Intra-group guarantee

The Bank has an indemnification agreement, accounted for as an intra-group guarantee under IFRS 4, with CFSMS in which the Bank has agreed to indemnify CFSMS against all and any liability, loss, damage, costs and expense arising from the agreement.

Interest rate hedging products

The Bank has sold circa 100 interest rate hedging products to small businesses. It has participated in the FSA pilot review of such sales, though the full review has not yet been completed. The Bank expects any redress payments would not be material and no provision has been made in the annual results.

36. Investments in Group undertakings

Investments in equity shares and loans of subsidiary undertakings are financial assets.

		2012			2011	
	Ordinary shares	Capital contributions	Total	Ordinary shares	Capital contributions	Total
At the beginning of the year	569.7	1,003.7	1,573.4	569.0	889.9	1,458.9
Additions	-	1,185.0	1,185.0	1.0	1,057.8	1,058.8
Repayments	(0.2)	(949.7)	(949.9)	(0.3)	(944.0)	(944.3)
At the end of the year	569.5	1,239.0	1,808.5	569.7	1,003.7	1,573.4

Subsidiary undertakings

The Bank has, except in the case of Unity Trust Bank plc, a direct interest in the ordinary share capital of the following principal subsidiary undertakings trading in the businesses indicated. All subsidiary undertakings are included in the consolidated Group results.

Principal subsidiary undertakings which are registered in England and operating in the UK:

		Group interest 2012	Group interest 2011
Unity Trust Bank plc			
(held through subsidiary undertaking)	Banking	27%	27%
Co-operative Commercial Limited	Investment company	100%	100%
First Roodhill Leasing Limited	Leasing	100%	100%
Second Roodhill Leasing Limited	Leasing	100%	100%
Third Roodhill Leasing Limited	Leasing	100%	100%
Fourth Roodhill Leasing Limited	Leasing	100%	100%
Britannia Treasury Services Limited	Holding company	100%	100%
Britannia Asset Management Limited	Holding company	100%	100%
Britannia Development and Management Company Limited	Property investment	100%	100%
Illius Properties Limited	Property investment	100%	100%
Moorland Covered Bonds LLP	Mortgage acquisition and guarantor of covered bonds	100%	100%

See note 39.d for further details of the covered bond transactions.

The accounting policy for Special Purpose Entities (SPEs) is disclosed on page 42.

Unity Trust Bank plc is considered to be a subsidiary undertaking of The Co-operative Bank plc as The Co-operative Bank plc elects a majority of the directors and appoints the chair and managing director. This provides the power to control.

Investments in equity shares and loans with subsidiary undertakings are shown net of impairments.

Britannia Treasury Services Limited has the following principal wholly owned subsidiary undertakings, registered in England, operating in the UK and trading in the businesses indicated:

Mortgage Agency Services Number One Limited	Mortgage and syndicated lending
Mortgage Agency Services Number Two Limited	Mortgage lending

The 2011 Bank amounts owed to other Co-operative Group undertakings have been amended to include intercompany balances designated at fair value.

$a. \ Use \ of \ financial \ instruments$

The use of financial instruments is essential to the Bank's business activities, and financial instruments constitute a significant proportion of the Bank's assets and liabilities. The main financial instruments used by the Group, and the purposes for which they are held, are outlined below:

Loans and advances to customers and customer accounts

The provision of banking facilities to customers is the prime activity of the Bank, and loans and advances to customers and customer accounts are major constituents of the balance sheet. Loans and advances to customers include retail mortgages, corporate loans, credit cards, unsecured retail lending and overdrafts. Customer accounts include retail and corporate current and savings accounts. The Bank has detailed policies and procedures to manage risks. Retail mortgage lending and much of the lending to corporate and business banking customers is secured.

Loans and advances to banks and investment securities

Loans and advances to banks and investment securities underpin the Bank's liquidity requirements and generate incremental net interest and trading income. Held for trading investments are traded solely for short term profit.

Deposits by banks and debt securities in issue

The Bank issues medium term notes within an established euro medium term note programme and also issues certificates of deposit and commercial paper as part of its normal treasury activities. These sources of funds, alongside other borrowed funds, are invested in marketable investment grade debt securities and short term wholesale market placements and are used to fund customer loans.

Other borrowed funds

The Bank utilises a broad spread of capital funds. In addition to ordinary share capital and retained earnings, when appropriate, the Bank issues preference shares and perpetual and fixed term subordinated notes.

39. Fair values of financial assets and liabilities continued

Derivatives

A derivative is a financial instrument that derives its value from an underlying rate or price such as interest rates, exchange rates and other market prices. Derivatives are an efficient means of managing market risk and limiting counterparty exposure. The Bank uses them mainly for hedging purposes and to meet the needs of customers.

The most frequently used derivative contracts are interest rate swaps, exchange traded futures and options, caps and floors, forward rate agreements, currency swaps and forward currency transactions. Terms and conditions are determined by using standard industry documentation. Derivatives are subject to the same market and credit risk control procedures as are applied to other wholesale market instruments and are aggregated with other exposures to monitor total counterparty exposure which is managed within approved limits for each counterparty.

Foreign exchange

The Bank undertakes foreign exchange dealing to facilitate customer requirements and to generate incremental income from short term trading in the major currencies. Structured risk and trading related risk are managed formally within position limits approved by the Board.

b. Valuation of financial instruments carried at fair value

The following tables analyse financial assets and liabilities carried at fair value by the three level fair value hierarchy defined as follows:

- Level 1 Quoted market prices in active markets
- Level 2 Valuation techniques using observable inputs
- Level 3 Valuation techniques using unobservable inputs

	Fair v	Fair value at end of the reporting period using:

The 2011 Bank amounts owed to other Co-operative Group undertakings (level 3) have been amended to include intercompany balances designated at fair value.

The carrying values of financial instruments measured at fair value are determined in compliance with the accounting policies on pages 40 to 50 and according to the following hierarchy:

Level 1 - Quoted market prices in active markets

Financial instruments with quoted prices for identical instruments in active markets. The best evidence of fair value is a quoted market price in an actively traded market.

Level 2 - Valuation techniques using observable inputs

Financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

The valuation techniques used to value these instruments employ only observable market data and relate to the following assets and liabilities:

Loans and advances to customers

Loans and advances to customers include corporate loans of £142.4m (2011: £101.7m) which are fair valued through income or expense using observable inputs. Loans held at fair value are valued at the sum of all future expected cash flows, discounted using a yield curve based on observable market inputs.

Investment securities - available for sale

Fair value is based on available market prices. Where this information is not available, fair value has been estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

Derivative financial instruments

OTC (ie non-exchange traded) derivatives are valued using valuation models which are based on observable market data. Valuation models calculate the present value of expected future cash flows, based upon 'no arbitrage' principles. The Bank enters into vanilla foreign exchange and interest rate swap derivatives, for which modelling techniques are standard across the industry. Examples of inputs that are generally observable include foreign exchange spot and forward rates, and benchmark interest rate curves.

Customer accounts - capital bonds

The estimated fair value of customer accounts — capital bonds is based on independent third party valuations using forecast future movements in the appropriate indices.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

39. Fair values of financial assets and liabilities continued

Level 3 – Valuation techniques using unobservable inputs

This is used for financial instruments valued using models where one or more significant inputs are not observable.

The small proportion of financial assets valued based on significant unobservable inputs are analysed as follows:

Loans and advances to customers

Loans and advances to customers include 25 year fixed rate mortgages of £11.2m (2011: £12.4m) which are fair valued through income or expense using unobservable inputs. 25 year fixed rate mortgages are valued using future interest cash flows at the fixed customer rate and estimated schedule of customer repayments. Cash flows are discounted at a credit adjusted discount rate; the credit adjustment is based on the average margin of new long dated (five years or greater) fixed rate business written in the last six months, and subject to quarterly review. The eventual timing of future cash flows may be different from that forecast due to unpredictable customer behaviour, particularly on a 25 year product. The valuation methodology takes account of credit risk and has increased the valuation by £0.5m in 2012 (2011: £0.5m decrease). A reasonable change in the assumptions would not result in any material change in the valuation.

Equity shares

Equity shares primarily relate to investments held in Vocalink Limited which are unquoted shares. The valuation of these shares is based on the Group's percentage shareholding and the net asset value of the company according to its most recently published financial statements.

Amounts owed to other Co-operative Group undertakings

Amounts owed to other Co-operative Group undertakings are to the Silk Road Finance Number One plc (Silk Rd 1) subsidiary, relating to the legal transfer of loans and advances on securitisation. The amounts are fair valued to eliminate an accounting mismatch of the swap derivative as discussed above.

Revaluation of the £1,764.4m (2011: £2,130.6m) mortgage pool from carrying to fair value is based on assumed timing of future mortgage capital and revenue receipts, discounted to present value using a credit adjusted discount rate.

During 2012, the Bank's amounts owed to other Co-operative Group undertakings decreased due to reanalysis of intercompany balances.

The amortisation profile is as per the swap's valuation methodology, assuming some annual prepayment, but is extended beyond any bond maturity, until all the mortgages themselves mature, which is circa 25 years. Similarly, the revenue receipts are calculated as per the swap valuation methodology, but extended until all the mortgages mature. For fixed rate mortgages, revenue receipts are based on fixed customer rates within the assumed amortisation profile. For tracker, SVR and discount products, revenue receipts are assumed to be based on forward LIBOR rates plus the product margins. Fixed and tracker mortgages are assumed to revert to SVR at the end of any offer period. All mortgages in the covered bond pool were originated pre 31 December 2007.

The fair value of the swap is based on a valuation model that reflects the mortgage cash flows over a three year period using a discount rate based on LIBOR spreads. This derivative eliminates on consolidation.

Derivative financial instruments

Derivative financial instruments including internal interest rate swaps have been entered into between the Bank and Silk Rd 1.

The purpose of the swaps is to convert the fixed and base rate linked revenue receipts of the pool of mortgage assets to the same LIBOR linked basis as the intercompany loan. Under this swap arrangement Silk Rd 1 pays to the swap counterparty, the monthly mortgage revenue receipts of the pool of assets and receives from the swap counterparty LIBOR plus a contractual spread on the same notional balance; the spread being sufficient to cover the intercompany loan and any expenses.

The swaps are valued based on an assumed amortisation profile of the pool of assets to the bond maturity date (assuming some annual prepayment), an assumed profile of customer receipts over this period, and LIBOR prediction using forward rates. Swap cash flows are discounted to present value using mid-yield curve zero coupon rates, ie no adjustment is made for credit losses, nor for transaction or any other costs.

The fair value of the swaps is based on a valuation model that reflects the mortgage cash flows over a three year period using a discount rate based on LIBOR spreads. These derivatives eliminate on consolidation.

39. Fair values of financial assets and liabilities continued

Movements in fair values of instruments with significant unobservable inputs (level 3) were:

39. Fair values of financial assets and liabilities continued

c. Fair values of financial instruments not carried at fair value

The carrying values of financial instruments measured at amortised cost are determined in compliance with the accounting policies on pages 40 to 50.

The table below sets out a summary of the carrying and fair values of:

- financial assets classified as loans and receivables; and
- financial liabilities classified as held at amortised cost,

unless there is no significant difference between carrying and fair values.

	Commine	Group		Bank

Amounts owed to other Co-operative Group undertakings	132.3	132.3	5,330.6	5,425.1	

39. Fair values of financial assets and liabilities continued

Key considerations in the calculation of fair values for loans and receivables and financial liabilities at amortised cost are as follows:

Loans and advances to banks/deposits by banks

Loans and advances to banks include interbank placements and items in the course of collection

The fair value of floating rate placements and overnight deposits is their carrying amount. The estimated fair value of fixed interest bearing deposits is based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity. A credit loss adjustment has been applied based on expected loss amounts derived from the Bank's regulatory capital calculations.

Loans and advances to customers

Fixed rate loans and advances to customers are revalued to fair value based on future interest cash flows (at funding rates) and principal cash flows discounted using an appropriate market rate. Forecast principal repayments are based on redemption at the earlier of maturity or repricing date with some overlay for historical behavioural experience where relevant. The eventual timing of future cash flows may be different from the forecast due to unpredictable customer behaviour. It is assumed there is no fair value adjustment required in respect of interest rate movement on variable rate assets. A credit loss adjustment has been applied based on expected loss amounts derived from the Bank's regulatory capital calculations. The fair value of Group assets are higher than carrying value primarily because the current levels of interest rates are lower in comparison to the fixed levels of interest originated, and are reduced by the increased expectation of losses as the economy is expected to remain fragile for longer. In the Bank the expectation of losses outweighs the impact of interest rates and fair value is lower than carrying value. However in the Group, the fair value is higher because included within the carrying value are assets acquired through the merger with Britannia Building Society that were at a significant discount to their exposure amount.

Investment securities

Fair value is based on available market prices. Where this information is not available, fair value has been estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

Customer accounts

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The estimated fair value of fixed interest bearing deposits and other borrowings without quoted market prices is based on discounted cash flows using interest rates for new debts with similar remaining maturity.

Debt securities in issue and other borrowed funds

The aggregate fair values are calculated based on quoted market prices. For those notes where quoted market prices are not available, a discounted cash flow model is used based on a current yield curve appropriate for the remaining term to maturity.

d. Fair value of transferred assets and associated liabilities

Securitisation vehicles

The beneficial ownership of the loans and advances to customers sold to securitisation vehicles by the subsidiaries of the Bank fail the derecognition criteria, and consequently, these loans remain on the balance sheets of the sellers. Each seller therefore recognises a deemed loan financial liability on its balance sheet and an equivalent deemed loan asset is held on each securitisation company's balance sheet. The deemed loans are repaid as and when principal repayments are made by customers against these transferred loans and advances.

The securitisation vehicles have issued fixed and floating rate notes which are secured on the loans and advances to customers. The notes are redeemable in part from time to time, such redemptions being limited to the net capital received from mortgagors in respect of the underlying assets. The maturity dates of the notes match the maturity dates of the underlying assets.

The Group retains substantially all of the risks and rewards of ownership. The Group benefits to the extent to which surplus income generated by the transferred mortgage portfolios exceeds the administration costs of those mortgages. The Group continues to bear the credit risk of these mortgage assets.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

39. Fair values of financial assets and liabilities continued

The results of the following principal securitisation vehicles are consolidated into the results of the Group. The table below shows the carrying values and fair values of the assets transferred to principal securitisation vehicles and their associated liabilities:

	Carrying amount of transferred assets not derecognised	Carrying amount of associated liabilities	Fair value of transferred assets not derecognised	Fair value of associated liabilities	Net position
2012					
Leek Finance Number Seventeen plc	618.3	648.9	614.6	636.8	(22.2)
Leek Finance Number Eighteen plc	735.0	794.0	730.9	770.0	(39.1)
Leek Finance Number Nineteen plc	713.9	787.0	708.8	774.4	(65.6)
Leek Finance Number Twenty plc	1,514.8	1,488.6	1,498.4	1,491.8	6.6
Leek Finance Number Twenty One plc	926.1	944.0	916.9	928.3	(11.4)
Leek Finance Number Twenty Two plc	394.2	411.4	391.5	406.4	(14.9)
Meerbrook Finance Number Six Limited	77.3	58.3	76.8	58.3	18.5
Silk Road Finance Number One plc	1,764.4	1,778.9	1,764.4	1,794.2	(29.8)
Silk Road Finance Number Two plc	697.1	675.3	696.9	685.2	11.7
Silk Road Finance Number Three plc	689.1	699.5	684.1	712.9	(28.8)
Cambric Finance Number One plc	1,644.5	1,684.3	1,637.5	1,679.9	(42.4)
	9,774.7	9,970.2	9,720.8	9,938.2	(217.4)

Transferred assets include securitised gilts and loans and advances to customers that have not been derecognised by the seller. The associated liabilities include the fixed and floating rate notes, bank loans and intercompany loans that specifically relate to the funding for the assets securitised.

In 2012, the market value of many of the fixed and floating rate notes has increased, with many of the AAA notes now trading above par, therefore uplifting the fair value. However, the repayment of the notes will be at par.

The securitisation vehicles receive cash daily in relation to the transferred loans and advances and semi-annually for the transferred gilts. These amounts will be held within loans and advances to banks until the associated liabilities' payments are due. Payments are made quarterly for all associated liabilities except for the variable funding notes associated with the transferred gilts, which are paid semi-annually. The amounts held within loans and advances to banks are not included in the table above but will be used in part to cover the repayments made on the associated liabilities.

	Carrying amount of transferred assets not derecognised	Carrying amount of associated liabilities	Fair value of transferred assets not derecognised	Fair value of associated liabilities	Net position
2011					
Leek Finance Number Seventeen plc	638.4	699.2	632.0	576.7	55.3
Leek Finance Number Eighteen plc	758.6	855.5	751.4	677.8	73.6

Silk Road Finance Number Two plc	823.6	804.1	827.3	799.2	28.1
	8,172.6	8,426.6	8,107.7	7,660.5	447.2

Covered Bond Limited Liability Partnership

Moorland Covered Bonds LLP was established as a result of a $\mathfrak{L}1.4$ bn covered bond retained issuance. Loans and advances to customers of $\mathfrak{L}1.9$ bn were transferred to Moorland Covered Bonds LLP. The transfer was funded by a loan of $\mathfrak{L}1.4$ bn and capital contribution of $\mathfrak{L}0.5$ bn. During October 2011 the $\mathfrak{L}1.4$ bn loan was repaid. Following additional capital contribution repayment and on achieving Regulated Covered Bond status there was a public issuance of notes in November 2011 totalling $\mathfrak{L}0.6$ bn. As a result of these changes, at the year end the Bank held a loan of $\mathfrak{L}0.6$ bn (2011: $\mathfrak{L}0.6$ bn) and a capital contribution of $\mathfrak{L}1.2$ bn (2011: $\mathfrak{L}1.0$ bn) with Moorland Covered Bonds LLP.

The loans issued by the Bank are included within amounts owed by other Co-operative Group undertakings. The associated capital contribution invested by the Bank is included within investments in Group undertakings. The notes issued by the Bank in November 2011 are included within debt securities in issue.

39. Fair values of financial assets and liabilities continued

Moorland Covered Bonds LLP does not have ordinary share capital. The Bank's interest in Moorland Covered Bonds LLP is in substance no different from a wholly owned subsidiary and consequently it is fully consolidated in the Group accounts. The table below shows the carrying values and fair values of the assets transferred to the covered bond and their associated liabilities:

	Carrying amount of transferred loans and advances to customers	Carrying amount of fixed and floating rate notes	Fair value of transferred loans and advances to customers	Fair value of fixed and floating rate notes	Net position
2012					
Moorland Covered Bonds LLP	1,808.4	600.0	1,835.8	693.8	1,142.0
	Carrying amount of transferred loans and advances to customers	Carrying amount of fixed and floating rate notes	Fair value of transferred loans and advances to customers	Fair value of fixed and floating rate notes	Net position
2011					
Moorland Covered Bonds LLP	1,559.5	600.0	1,602.4	602.8	999.6

39. Fair values of financial assets and liabilities continued

Assets pledged

Assets are pledged as collateral under repurchase agreements with other banks. These deposits are not available to finance the Group's day to day operations.

Amounts owed by other Co-operative Group undertakings sold under repurchase agreements	777.1	613.9	767.4	614.3	153.1

Associated liabilities are included within deposits by banks.

The Group and Bank have loans and advances to banks of £250.0m (2011: £255.7m) under reverse sale and repurchase agreements and against gilts are held with a fair value of £250.4m (2011: £267.8m). These transactions are conducted under terms that are usual and customary to standard stock lending, securities borrowing and reverse purchase agreements. The Group is permitted to sell or repledge the assets received as collateral in the absence of their default. The Group is obliged to return equivalent securities. At 31 December 2012 the fair value of collateral repledged amounted to £250.4m (2011: £267.8m). The Group and Bank do not adjust for the fair value of securities received under reverse sale and repurchase agreements.

For the year ended 31 December 2012

All amounts are stated in £m unless otherwise indicated

The comparative figures for loans and advances to customers have been updated to include the changes made to impairment definitions.

Responsibility statement

for the year ended 31 December 2012

We confirm that to the best of our knowledge:

- the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included in the consolidation taken as a whole; and
- the Directors' report includes a fair review of the development and performance of the business and the position of the issuer and the undertakings included in the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

By Order of the Board **Barry Tootell**, Chief Executive

20 March 2013

Notice of Annual General Meeting 2013

NOTICE IS HEREBY GIVEN that the Annual General Meeting of The Co-operative Bank plc will be held on the 9th Floor, 1 Angel Square, Manchester M60 0AG at 9am on Wednesday 15 May 2013 for the following purposes:

Ordinary Business

- 1. To receive the notice convening the meeting.
- 2. To receive the annual reports and adopt the financial statements for the year ended 31 December 2012, together with the auditors' report.
- 3. To approve the remuneration report for the year ended 31 December 2012.
- 4. To accept the following recommendations of the Board in respect of the non-cumulative irredeemable preference shares:
- i) that the payment of the dividend of 4.625p per £1 share on 30 November 2012 be confirmed.
- ii) that a dividend of 4.625p per £1 share be declared and paid on 31 May 2013 to the registered holders as at 3 May 2013 providing a dividend rate of 9.25 per cent per annum and making a total distribution of £5,550,000.
- 5. To re-elect the following directors who retire by rotation, in accordance with the provisions of Article 105:
- i) Duncan Bowdler, Non-Executive Director
- ii) Peter Harvey, Non-Executive Director
- iii) Bob Newton, Non-Executive Director
- 6. To re-appoint the following directors who were appointed to the Board since the last Annual General Meeting of the Company:
- i) Richard Coates, Non-Executive Director
- 7. To re-appoint KPMG Audit Plc as auditor of the Company, to hold office from the conclusion of this meeting until the conclusion of the next General Meeting at which accounts are laid before the Company, at a remuneration to be fixed by the Directors:

Registered Office:

1 Balloon Street Manchester M60 4EP Reg. No. 990937 (England) Tel: 0161 832 3456 Fax: 0161 829 4475 Tel: 0870 702 0003

Registrar:

Computershare Investor Services PLC P.O. Box 82 The Pavilions Bridgwater Road Bristol BS99 7NH

By Order of the Board

Moira Lees, Secretary

20 March 2013

A member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote on his/her behalf. A proxy need not also be a member. Further information on preference shareholders' voting rights is given below.

Members should note that to attend the meeting their shareholding must be registered on the register of the Company not later than 9am on 13 May 2013. This applies to shares held in uncertified forms in CREST and to shares held in certified form.

Notes:

1. Director information

The biographies of the directors up for re-election and re-appointment at the Annual General Meeting can be found on page 12 of the financial statements.

2. Preference shareholders – Extract from Articles of Association 4 (B)(c)

Voting and General Meetings

- i) The holders of the preference shares shall be entitled to receive notice of and attend (either in person or by proxy) all General Meetings of the Company. The holders of the preference shares shall have a right to speak and vote at a General Meeting of the Company only if and when, at the date of the notice convening such meeting, the fixed preferential dividend payable to them respectively has been in arrears for six months or more after any date fixed for payment thereof, or if a resolution is to be proposed at such meeting abrogating or varying any of the respective rights or privileges attaching to their shareholding or for the winding-up of the Company or other return of capital and then on such resolution only.
- ii) Whenever the holders of the preference shares are entitled to vote at a General Meeting of the Company upon any resolution proposed at such meeting, on a show of hands every holder who (being an individual) is present in person or (being a corporation) is present by a representative or by proxy shall have one vote and, on a poll, shall have one vote in respect of each preference share registered in the name of such holder.

Glossary For the year ended 31 December 2012

The following glossary defines terminology used within the Group's Annual Report and Accounts to assist the reader and to facilitate comparison with publications by other financial institutions:

by other financial institutions:	
Terminology	Definition
Almost prime	Almost prime lending is lending to borrowers with very low levels of adverse credit history.
Arrears	Customers are said to be in arrears or non-performing when they are behind in fulfilling their obligations with the result that an outstanding loan is unpaid or overdue. Corporate customers may also be considered non-performing prior to being behind in fulfilling their obligations. This can happen when a significant restructuring exercise begins.
Asset & Liability Committee (ALCO)	This committee is chaired by the Chief Executive Officer and is primarily responsible for overseeing the management of market, liquidity and funding risks. Its responsibilities include ensuring that the capital and solvency position is managed in line with policy and that adequate capital is maintained at all times overseeing and monitoring relevant risk control frameworks and recommending to CEO and ERC relevant risk policies and detailed risk appetite limits for approval.
Asset-backed securities (ABS)	Securities that represent an interest in an underlying pool of referenced assets. The referenced pool can comprise any assets which attract a set of associated cash flows but are commonly pools of residential or commercial mortgages but could also include leases, credit card receivables, motor vehicles, student loans.
Audit Committee (AC)	The committee which provides oversight in relation to financial reporting, internal control, regulatory compliance, external and internal audit across the Banking Group.
Automated Valuation Model (AVM)	A valuation model used specifically for low loan to value (LTV) remortgages. Performance of AVMs is monitored on a regular basis to ensure their ongoing accuracy.
Basel II	A statement of best practice issued by the Basel Committee on Banking Supervision, that defines the methods by which firms should calculate their regulatory capital requirements to retain enough capital to protect the financial system against unexpected losses. Basel II was implemented in the UK by the FSA.
Basel III	A strengthening of the requirements laid out in Basel II, to be phased into the Bank gradually between 2013 and 2019 ahead of full implementation by 2023. This phased implementation is now expected to commence in the UK in 2014.
Basis points (bps)	One hundredth of a per cent (0.01%), so 100 basis points is 1%. Used in quoting movements in interest rates or yields on securities.
BIPRU	The prudential sourcebook for banks, building societies and investment firms which sets out the FSA's capital requirements.
Board Risk Committee (BRC)	This committee provides oversight and advice to the Banking Group Board on current and potential risks and the overall risk framework, including risk appetite, risk tolerance and management strategies.
Buy to let	A commercial practice of buying a property to let to tenants, rather than to live in.
Capital bonds	Fixed term customer accounts with returns based on the movement in an index (eg FTSE 100) over the term of the bond.
Capital Management Committee (CMC)	This committee reviews, challenges and monitors the capital adequacy of the Banking Group, in line with capital policy and within risk appetite.
Capital ratio	Total of Tier 1 capital plus Tier 2 capital, all divided by risk weighted assets.
Capital resources	Capital held, allowable under regulatory rules, less certain regulatory adjustments and deductions that are required to be made. Capital includes the general reserve, revaluation reserve, collectively assessed impairment allowances for products measured on a standardised basis and subordinated debt.
Carrying value	The value of an asset or liability as it appears in the balance sheet. For each asset or liability, the value is based on either of the amortised cost or fair value principles.
Certificates of deposit (CDs)	Debt issued by banks, savings and loan associations to individual investors with terms ranging from a few months to several years. Longer term CDs tend to bear a higher interest rate. At the expiration of the term, investors may (subject to penalties) withdraw both the principal and the accrued interest.
CFS Management Services Ltd (CFSMS)	CFS Management Services Ltd (CFSMS) provides supplies and services on behalf of fellow subsidiary undertakings within The Co-operative Banking Group.
Charged off	When all economical avenues to recover an unsecured debt have been exhausted, the Bank permanently closes the loan account, ie it is charged off. This final step sits at the end of a time frame within which the Bank attempts to manage the debt's recovery and differs from a 'write down' in terms of its fixed position in time (see 'Write down').
Collateral	A borrower's pledge, usually a property, which acts as security for repayment of the loan (see 'Secured lending').
Collateralised swap	A swap, whose volatility is secured (collateralised) by way of exchanging cash deposits (see 'Swaps').
Colleague engagement	An internal survey, measuring the level of the Bank's employees' engagement.
Collectively assessed for impairment	Impairment is measured collectively where a portfolio comprises assets with a homogenous risk and where appropriate statistical techniques are available.
Commercial Paper	An unsecured promissory note issued to finance short term credit needs. It specifies the face amount paid to investors on the maturity date.

Terminology	Definition
Commercial real estate	Commercial real estate includes office buildings, industrial property, malls, retail stores, shopping centres, multifamily housing buildings, warehouses, and industrial properties.
Conduct risk	$The \ risk \ that \ the \ Banking \ Group's \ behaviours, \ offerings \ or \ interactions \ will \ result \ in \ unfair \ outcomes \ for \ customers.$
Contagion risk	An international financial market term which describes a corrupting or harmful influence, spreading effects of shocks from one counterparty to another.
Core business	Lines of business that are consistent with the Bank's strategy and risk appetite.
Corporate and Business Banking (CABB)	The Group's operating segment which includes Corporate, Optimum and Illius. This includes lending to large corporate and commercial entities, acquired mortgage books and a specialist mortgage team dealing with intermediary lending.
Corporate core segment	The segment that comprises corporate banking, business banking and business services in line with the Bank's strategy and risk appetite.
Cost to income ratio	Operating expenses divided by operating income.
Counterparty	In any financial contract, the person or institution entering the contract on the opposite side of the transaction is called a counterparty.
Covered bonds	Debt securities backed by a portfolio of mortgages that are segregated from the issuer's other assets solely for the benefit of the holders of the covered bonds. The Bank issues covered bonds as part of its funding activities.
Credit Approvals Committee	The Credit Approvals Committee supports the Chief Executive Officer carrying out his responsibilities including, but not limited to, sanctioning large counterparty transactions and managing large exposure positions.
Credit default swap	An arrangement whereby the credit risk of an asset (the reference asset) is transferred from the buyer to the seller of protection. A credit default swap is a contract where the protection seller receives premium or interest related payments in return for contracting to make payments to the protection buyer upon a defined credit event. Credit events normally include bankruptcy, payment default on a reference asset or assets, or downgrades by a credit rating agency.
Credit impairment	Impairment charges on loans and advances to customers.
Credit risk	The current or prospective risk to earnings and capital arising from a borrower's failure to meet the terms of any contract with the Bank or their failure to perform as agreed.
Credit Risk Management Committee (CRMC)	This committee advises and supports the Credit Risk Director. It designs the credit risk control implementation approach and risk control framework. It reviews the CBG credit risk policy and credit measurement methodologies, defines and recommends the credit risk appetite and limits and reviews and challenges the CBG credit risk processes and procedures.
Currency swap	An arrangement in which two parties exchange specific principal amounts of different currencies at inception and subsequently interest payments on the principal amounts. Often one party will pay a fixed rate of interest, while the other will pay a floating rate (though there are also fixed-fixed and floating-floating arrangements). At the maturity of the swap, the principal amounts are usually re-exchanged.
Credit valuation adjustments (CVAs)	Adjustments to the fair values of derivative assets to reflect the creditworthiness of the counterparty.
Customer advocacy	An external survey, measuring the level of the Bank's customers who would personally recommend the Bank to other potential new customers as their primary financial services provider.
Customer deposits	Money deposited by all individuals and companies that are not credit institutions. Such funds are recorded as liabilities in the Bank's balance sheet under customer accounts or financial liabilities designated at fair value.
Customer funding ratio	Customer deposits divided by customer loans. This is the reverse equation of the customer loan to deposit ratio (see 'Customer loan to deposit ratio').
Customer loan to deposit ratio	Customer loans divided by customer deposits. This is the reverse equation of the customer funding ratio (see 'Customer funding ratio').
Debt for equity swaps	The act whereby a creditor exchanges a loan asset for a stake in its relevant debtor company's equity share capital.
Debt securities in issue	Transferable certificates of indebtedness of the Group to the bearer of the certificates. These are liabilities of the Group and include certificates of deposit, commercial paper and fixed and floating rate notes.
Default	Circumstances in which the probability of default is taken at 100% for the purposes of the calculation of regulatory capital and compliance with Basel II. This is defined as when a borrower reaches a predefined arrears status where a borrower is considered unlikely to repay the credit obligation in full without the lender taking action.
Deleverage the balance sheet	Strategic reduction of the Bank's risk asset base leading to improved capital management.
Delinquency	A customer in arrears is also said to be in a state of delinquency. When a customer is in arrears, his entire outstanding balance is said to be delinquent, meaning that delinquent balances are the total outstanding loans on which payments are overdue (see 'Arrears').
Derivative	A financial instrument that has a value, based on the expected future price movements of the instrument to which it is linked, such as a share or a currency.

Terminology	Definition
Effective interest rate method (EIR)	The method used to measure the carrying value of certain financial assets or liabilities and to allocate associated interest income or expense over the relevant period.
Eurozone	The geographical area containing countries whose economies function using the European single currency.
Executive Risk Committee (ERC)	The committee is chaired by the Chief Risk Officer (CRO). Its purpose is to provide a mechanism to ensure that the Banking Group's risk management is reviewed, challenged and approved (with escalation to Board Risk Committee where required) and embedded within the Banking Group.
Executive Committee	This committee manages the business in line with the Board risk appetite statement. It also maintains oversight of risk management processes and management information.
Expected charge off rate	The expected level of a portfolio's loans that may be written off as bad debt.
Expected loss	A measure of anticipated loss for exposures captured under an internal ratings based credit risk approach. The expected loss amount is the exposure from a potential default of a counterparty or dilution over a one year period to the amount outstanding at default.
Exposure at default (EAD)	A Basel II parameter used in internal ratings based approaches to estimate the amount outstanding at the time of default.
External audit	The independent review by an external firm of the Company's financial statements.
External credit rating	A financial indicator of risk, assigned by credit rating agencies, to potential investors in the Group.
Fair value adjustments	Fair value adjustments are the remaining balance sheet adjustments for the assets/liabilities acquired on the merger of the Bank and Britannia Building Society on 1 August 2009.
Fair value amortisation	The amortisation of the remaining interest risk related fair value adjustments for the assets/liabilities acquired on the merger of the Bank and Britannia Building Society on 1 August 2009 (see 'Interest rate risk').
Financial instruments	Any document with monetary value. Examples include cash and cash equivalents, but also securities such as bonds and stocks which have value and may be traded in exchange for money.
Financial Services Authority (FSA)	An independent non-governmental body, given statutory powers by the Financial Services and Markets Act 2000, which regulates the financial services industry in the best interests of its stakeholders. It is a company limited by guarantee and financed by the financial services industry.
Financial Services Compensation Scheme (FSCS)	The UK's compensation fund of last resort for customers of authorised financial services firms. The FSCS may pay compensation to customers if a firm is unable, or likely to be unable, to pay claims against it, usually because it has stopped trading or has been declared in default. The FSCS is funded by the financial services industry. Every firm authorised by the FSA is obliged to pay an annual levy, which goes towards its running costs and compensation payments.
Floating rate notes (FRNs)	Investments with a variable interest rate. The adjustments to the interest rate are usually made every six months and are tied (or 'float') to a certain money market index.
Forbearance	The Bank, for reasons relating to the actual or apparent financial stress of a borrower, grants a concession whether temporarily or permanently to that borrower. A concession may involve restructuring the contractual terms of a debt (such as an extension of the maturity date or any weakening of the security structure or adjustment/non enforcement of covenants) or payment in some form other than cash, such as an equity interest in the borrower.
Foreclosure	The legal process by which a lender, eg the Bank, obtains a court order in order to terminate a borrower's equitable right of redemption. This legal action is required when a borrower has materially failed to comply with the agreed terms and conditions of the loan, eg by defaulting (see 'Forbearance').
Forward rate agreement	A legal contract, governing the terms and conditions of a forward or future, in which the buyer pays a fixed rate of interest to the seller in return for the seller's floating rate (see 'Forwards', 'Futures' and 'Swaps').
Forwards	Non-standardised contracts, traded over the counter, between two parties to buy or sell financial instruments at a specified future time at a price agreed today (see 'Over The Counter').
Funding for Lending	The Bank of England and HM Treasury launched the Funding for Lending Scheme (FLS) on 13 July 2012. It is designed to boost lending to households and businesses. It works by allowing participating banks and building societies to borrow from the Bank of England for up to four years. As security against that lending, participating banks will provide assets, such as business or mortgage loans, to the Bank of England. Banks will be able to borrow during the 18 months from 1 August 2012 until 31 January 2014.
Futures	Standardised contracts, traded on an exchange, between two parties to buy or sell financial instruments at a specified future time at a price agreed today.
Gap	The Bank's net exposure to variable elements being managed within its market risk, eg interest rate movements (see 'Market risk').
Hedging	A technique used by the Bank to offset risks on one instrument by purchasing a second instrument that is expected to perform in the opposite way.
Impaired loans	Loans where the Bank does not expect to collect all the contractual cash flows or expects to collect them later than they are contractually due.
	378

Terminology	Definition
Impairment allowance	A loss allowance held on the balance sheet as a result of the raising of a charge against profit for the incurred loss inherent in the lending book. An impairment loss allowance may be either individual or collective.
Individual Liquidity Adequacy Assessment (ILAA)	The Bank's assessment of its liquidity risks, controls and quantification of liquid assets required to survive severe financial shocks through the use of stress tests prescribed by the FSA (see 'Liquidity risk').
Individual Liquidity Guidance (ILG)	A FSA guidance on the required amount and composition of the liquid assets buffer that should be held by a firm. This guidance arises once the firm's Individual Liquidity Adequacy Assessment (ILAA) has been conducted.
Individually assessed for impairment	Impairment is measured individually for assets that are individually significant.
Integration and Transformation Committee	This committee provides oversight by in depth review of transformation activity within the Group in order to give assurance on progress.
Interest rate risk	The variability in value borne by an interest bearing asset, such as a loan or a bond, due to variability of interest rates. In general, as rates rise, the price of a fixed rate bond will fall, and vice versa.
Internal audit	The examination of the Company's records and reports by its employees. Internal audits are usually intended to prevent fraud and to ensure compliance with Board directives and management policies.
Internal Capital Adequacy Assessment Process (ICAAP)	The Bank's own assessment, as part of Basel II requirements, of the levels of capital that it needs to hold in respect of its regulatory capital requirements (for credit, market and operational risks) and for other risks including stress events.
Internal rating grade (IRG)	The grading of credit risk resulting from the internal ratings based approach (IRB).
Internal ratings based approach (IRB)	A Basel II approach for measuring exposure to credit risks. IRB approaches are more sophisticated and risk sensitive than the Standardised Approach and may be Foundation or Advanced. IRB approaches may only be used with FSA permission.
Investment grade	A debt security, treasury bill or similar instrument with a credit rating measured by external agencies of AAA to BBB
Legacy insurance products	Insurance products which are no longer sold to customers by the Group.
LIBOR (London Interbank Offered Rate)	The interest rate participating banks offer to other banks for loans on the London market.
Lifetime expected loss	The losses that the Bank expects to incur over the lifetime of portfolios of mortgage assets which were acquired on merger with Britannia Building Society. This is different from expected loss (see 'Expected loss') which is based on assets expected to default in the next 12 months.
Limited Liability Partnership (LLP)	An LLP provides each of its individual partners protection against personal liability for certain partnership liabilities.
Liquidity and funding risk	The risk that the Bank's resources will prove inadequate to meet its liabilities as they contractually fall due or as a result of any contingent or discretionary cash outflows that may occur in times of stress. It arises from mismatch of timings of cash flows generated from the Bank's assets and liabilities (including derivatives).
Liquidity Management Committee (LMC)	This committee enables more detailed discussion on all aspects of Bank liquidity risk management, monitoring and control including operational issues in respect of covered bond and residential mortgage backed security funding activities. It also recommends actions to ensure the Bank's liquidity position remains in line with agreed levels.
Loan to value (LTV)	A ratio which expresses the amount of a mortgage as a percentage of the value of the property. The Bank calculates residential mortgage LTV on an indexed basis (the value of the property is updated on a quarterly basis to reflect changes in the house price index (HPI)).
Loss given default	An estimate of the actual loss that would occur in the event of default expressed as a percentage of the Exposure at Default (EAD).
Loss provisions	Provisions held against assets on the balance sheet as a result of the raising of a charge against profit for the incurred loss inherent in the lending book. The allowance represents management's best estimate of losses incurred in the loan portfolio at the balance sheet date.
Low to medium credit risk	Within not impaired, low to medium credit risk has been defined as exposures where the probability of default (PD) is 1% or below over a one year time horizon for exposures on an internal ratings based (IRB) approach under Basel II, and slotting category strong/good for specialised lending exposures under the slotting approach (see 'Slotting').
Lower Tier 2	Lower Tier 2 capital comprises the Bank's long term subordinated debt.
Malus	A facility whereby the Remuneration and Appointments Committee may reduce the amount of any deferred bonus payable in the event that any of the underpins to the incentive plans are not met or where business and/or individual performance otherwise requires.
Management expenses and compensation cost	The specific elements of both operating and financing cost which form the basis of the Financial Services Compensation Scheme (see 'Financial Services Compensation Scheme (FSCS)').
Mandatory reserve deposits	Mandatory reserve deposits are deposited with the Bank of England and are not available for use in the Group's day to day operations. They are non-interest bearing and are not included in cash and cash equivalents.
Market risk	Risk that the values of assets and liabilities, earnings and/or capital may change as a result of changes in market prices of financial instruments. The majority of the Bank's market risk arises from changes in interest rates.

Terminology	Definition
Medium term notes (MTN)	Flexible medium term corporate debt instruments, offered by the Bank to investors through a dealer. Investors can choose from differing maturities, ranging from nine months to 30 years.
Medium to high credit risk	Within not impaired, medium to high credit risk has been defined as a probability of default (PD) of greater than 1% over a one year time horizon for exposure on internal ratings based (IRB) approach under Basel II, and slotting category weak/satisfactory for specialised lending exposures under the slotting approach (see 'Slotting').
Member	A person who holds and retains one share in The Co-operative Group. The share is paid for by a $\mathfrak E1$ deduction from the member's first profits payment. The member, by a result of the deduction, becomes a shareholder of the Co-operative Group Limited.
Merger	Any combination of two or more business enterprises into a single enterprise. In the Group, this specifically refers to the merger of the Bank with Britannia Building Society on 1 August 2009 (see 'Transfer of engagements').
Mobile banking service	A service allowing customers to access their account information and locate branches and ATMs via iPhone, BlackBerry and Android handsets.
Model Review Committee (MRC)	This committee provides oversight and challenge of model governance across the Banking Group in support of the Enterprise Risk Director.
Mortgage backed securities	Securities that represent interests in a group of mortgages. Investors in these securities have the right to cash received from future interest and/or principal mortgage payments.
Multilateral Development Banks (MDBs)	Supranational institutions which provide financial support and professional advice for economic and social development activities in developing countries. The term MDBs typically refers to the World Bank Group and Regional Development Banks.
Net interest income	The difference between interest received on assets and interest paid on liabilities after taking into account the effect of derivatives.
Net present value (NPV)	The present value of the expected future cash in and out flows on an asset or liability.
Non-conforming	Loans originated by Platform prior to 2009 and those acquired by Britannia Treasury Services, with similar risk profiles to 'Almost prime' (see 'Almost prime').
Non-core business	Lines of business not congruent with the Bank's current strategy, are managed for value and are targeted for run down and exit, and contain the majority of impairment risk. Included in non-core is Corporate non-core business, Optimum (closed book of residential mortgages originated through intermediaries and previously purchased mortgage portfolios) and Illius (the residential property company).
Operational risk	The risk of loss resulting from inadequate or failed internal processes, people and systems or external events. This encompasses the effectiveness of risk management techniques and controls to minimise these losses.
Operational Risk Committee (ORC)	This committee reports into the Executive Risk Committee and is chaired by the Operational Risk Director. It monitors significant operational risks and controls as well as the management actions taken to mitigate them to an acceptable level and/or transfer them.
Optimum	A sub-segment within Corporate and Business Banking which is a closed book of residential mortgages originated through intermediaries and previously purchased mortgage portfolios.
Options	Instruments which convey the rights, but not the obligations, to engage in future transactions.
Over The Counter (OTC)	Contracts that are traded (and privately negotiated) directly between two parties, without going through an exchange or other intermediary. They offer flexibility because, unlike standardised exchange traded products, they can be tailored to fit specific needs.
Overnight Indexed Swap (OIS)	A rate reflecting the overnight interest typically earned or paid on the Bank's collateralised swaps. The OIS rate is used for valuing the discounted cash flows of collateralised swaps.
Past due	When a counterparty has failed to make a payment when contractually due.
Pension risk	The risk to Banking Group capital and company funds from exposure to pension scheme liabilities and risks inherent in the valuation of scheme liabilities and assets.
Preference shares	The preference shares are fixed interest shares and are non-cumulative and irredeemable. On a return of capital on winding up, the assets of the Bank shall be applied in repaying the preference share capital in priority to any payments to the holders of any other class of shares in the capital of the Bank.
Prime	Prime mortgages are mainstream residential loans, which typically have a higher credit quality and fit standard underwriting processes. As such, they are likely to have a good credit history and pass a standard affordability assessment at the point of origination.
Probability of default (PD)	The likelihood that a loan will not be repaid and will fall into default. PD may be calculated for each customer who has a loan (normally applicable to wholesale customers) or for a portfolio of customers with similar attributes (normally applicable to retail customers). To calculate PD, the Bank assesses the credit quality of borrowers and other counterparties and assigns them an internal risk rating.
Project Verde	The bid to purchase the Verde business from the Lloyds Banking Group. Also referred to as project Mars.

Terminology	Definition
Recovery and Resolution Plan	The FSA required all UK deposit takers and large investment firms to draw up a Recovery and Resolution Plan by 31 December 2012. The Recovery Plan assesses and documents the recovery options available in situations of financial stress or negative financial shocks, either market-wide or idiosyncratic. The Resolution Plan will provide authorities with sufficient information to enable them to determine a detailed roadmap to resolve a failed financial institution, without resorting to government (effectively taxpayer) support.
Regulatory Risk Committee (RRC)	This committee supports the Regulatory Risk Director. It ensures maintenance of appropriate authorisations for the regulated entities within CBG, adherence to regulatory reporting requirements and any ongoing regulatory engagement.
Remuneration and Appointments Committee	This committee determines the policy on remuneration and other terms and conditions of employment of senior executives. It makes recommendations on senior executive appointments and the related terms and conditions. It reviews and agrees remuneration policy for staff under the FSA remuneration code (see 'Remuneration Code'). In addition, it reviews and approves incentive schemes and decides on issues surrounding the retirement benefit schemes.
Remuneration Code	The Remuneration Code, issued by the Financial Services Authority, sets out the standards that banks, building societies and other financial institutions have to meet when setting pay and bonus awards for their staff. It aims to ensure that firms' remuneration practices are consistent with effective risk management.
Repo/Reverse repo	A repurchase agreement that allows a borrower to use a financial security as collateral for a cash loan at a fixed rate of interest. In a repo, the borrower agrees to sell a security to the lender subject to a commitment to repurchase the asset at a specified price on a given date. For the party selling the security (and agreeing to repurchase it in the future) it is a repo; for the party on the other end of the transaction (buying the security and agreeing to sell in the future) it is a reverse repurchase agreement or reverse repo.
Reputational risk	The risk associated with an issue which could in some way be damaging to the brand of The Co-operative Banking Group either through its strategic decisions, business performance, an operational failure or external perception.
Retail segment	The segment that comprises customer focused products and services for individuals, sole traders and small partnerships. This includes mortgages, credit cards, consumer loans, current accounts and savings products.
Return on Risk Weighted Exposure Amount (RRWEA)	The return on Bank's assets and exposures weighted according to risk. The measure is one of the performance metrics set by the Remuneration and Appointments Committee when assessing targets in the long term incentive plan.
Risk appetite	The articulation of the level of risk that the Group is willing to accept (or not accept) in order to safeguard the interests of the members whilst achieving its business objectives.
Risk Management Forums	A framework of sector specific management forums supporting risk and capital management, optimising performance and monitoring adherence to policy.
Risk weighted amount	Risk weightings are established in accordance with Basel II as implemented by the FSA. Risk weighted amounts are the carrying value of the Bank's assets, adjusted by the risk weightings, to reflect the degrees of risk they represent.
Risk weighted assets	A measure of a bank's assets adjusted for their associated risks. Risk weightings are established in accordance with Basel II.
Roll up mortgage	A mortgage, whose accrued interest is added to its principal amount and settled at the end of its repayment term.
Sale and purchase agreement (SPA)	A legal contract which obliges the buyer to buy and seller to sell products or services.
Secondary sovereign exposure	Direct exposure to something other than sovereign debt that has itself a direct exposure to sovereign debt.
Secured lending	Lending in which the borrower pledges retail or commercial property as collateral for the loan, which then becomes a secured debt owed to the Bank. In the event that the borrower defaults, the Bank may take possession of the asset used as collateral and may sell it to regain some or the entire amount originally lent to the borrower.
Securitisation	A process by which a portfolio of retail mortgages is used to back the issuance of new securities by an SPE. The Group has established securitisation structures as part of its funding and capital management activities (see 'Special purpose entities (SPEs)').
Senior unsecured debt	Debt that has priority ahead of all other unsecured or subordinated debt for payment in the event of default.
Significant items	Items which are material by both size and nature (ie outside of the normal operating activities of the Group) are treated as significant items and disclosed separately on the face of the income statement.

Terminology	Definition
Slotting	The regulatory defined approach used for rating the risk level of Corporate lending using a broad scope of financial, political and transactional factors. The regulatory slotting categories are listed as follows:
	 - 'Standardised' businesses lack sufficient information upon which detailed credit analysis can be undertaken for which models have yet to be developed; - 'Strong' businesses have little competition, high demand, significant governmental support and enforceable collateral;
	 - 'Good' businesses have limited competition, stable demand, good governmental support and enforceable collateral;
	 - 'Satisfactory' businesses have a broad competition base with limited levels of demand, governmental support and collateral; - 'Weak' businesses operate at a disadvantage to competition, display a declining trend of demand, with no governmental support and no clear collateral; and
	- 'Default' businesses are considered unlikely to repay their credit obligations (see 'Impaired loans').
Sovereign debt	Bonds issued by and loans given to central banks and local governments, governmental bodies and other government-related bodies.
Sovereign exposure	The Bank's exposure to the total financial obligations incurred by all governmental bodies of any nation.
Special purpose entities (SPEs)	 Entities that are created to accomplish a narrow and well defined objective. For the Bank this includes: various securitisation transactions in which mortgages were sold to SPEs. The equity of these SPEs is not owned by the Bank; and Covered Bond Limited Liability Partnerships created in order to act as guarantors for issues of covered bonds.
Specialised lending	Lending in which the primary source of repayment of the obligation is the income generated by the assets being financed, rather than the independent capacity of a broader commercial enterprise.
Standardised category	Customers who have not defaulted, and for the purposes of the capital calculations are not rated with the regulatory approved rating model.
Standard Variable Rate (SVR)	A variable and basic rate of interest charged on a mortgage. This may change in reaction to market conditions resulting in monthly repayments going up or down.
Statutory loss	The loss stated in accordance with the requirements of the UK Companies Act 2006, which incorporates the requirements of International Financial Reporting Standards (IFRS).
Strategic and business risk	Risk arising from changes to the Banking Group's business and the environment in which it operates, specifically the risk of not being able to carry out the Bank's business plan and desired strategy.
Subordinated debt/liabilities	Liabilities which, in the event of insolvency or liquidation of the Group, are subordinated to the claims of depositors and other creditors of the Group.
Sub-sovereign	Any level of government below the national or central government. This includes regions, provinces, states, municipalities.
Swaps	An agreement between the Bank and a counterparty in which one stream of future payments is exchanged for another stream, based on a specified principal amount. For example, interest rate swaps often involve exchanging a fixed receipt for a floating receipt, which is linked to an interest rate (most often LIBOR). The Bank's use of swaps helps to manage periodic market risk on its financial instruments.
Tenor	The length of time until a loan is due. For example, a loan is taken out with a two year tenor. After one year passes, the tenor of the loan is one year.
Term deposit	A deposit balance that cannot be withdrawn before a date specified at the time of deposit.
the Bank	The Co-operative Bank as a standalone entity.
the Banking Group	See 'The Co-operative Banking Group'.
the Board	The Board of Directors. They manage the Banking Group's business performance in line with its purpose, givens, vision and values.
The Co-operative Banking Group	An internal brand, which is a consolidation of the following entities: CFS Management Services Ltd, CFS Services Ltd, CIS General Insurance Ltd, Co-operative Insurance Society Ltd, Co-operative Asset Management Ltd and Co-operative Bank plc.
The Co-operative Group	The ultimate holding company.
the Group	The Co-operative Bank consolidated with its subsidiaries.
Tier 1	A regulatory measure of financial (capital) strength. Tier 1 is divided into Core Tier 1 and other Tier 1 capital. Core Tier 1 capital comprises general reserves from retained profits. The book values of goodwill and intangible assets are deducted from Core Tier 1 capital and other regulatory adjustments may be made for the purposes of capital adequacy. Qualifying capital instruments such as perpetual subordinated bonds are included in other Tier 1 capital.
Tier 1 ratio	Tier 1 capital divided by risk weighted assets.

Terminology	Definition
Tier 2	Tier 2 capital comprises the Bank's property valuation reserve, preference shares, qualifying subordinated notes and collective impairment allowance (for exposures treated on a Basel II standardised basis). Certain regulatory deductions may be made for the purposes of assessing capital adequacy (see 'Upper Tier 2' and 'Lower Tier 2').
Transfer of engagements	On 1 August 2009, Britannia Building Society merged with The Co-operative Bank plc by a transfer of engagements between the building society and the Bank under the Building Societies (Funding) and Mutual Societies (Transfers) Act 2007 (see 'Merger').
Treasury Market Risk Committee (TMRC)	This committee reviews, challenges and monitors the market risk profile for the Banking Group, in line with policy and within the risk appetite.
Treasury segment	The treasury segment's responsibilities usually include capital management, risk management, strategic planning and investor relations.
Unaudited	Financial information that has not been subjected to the audit procedures undertaken by the Group's external auditor.
Unfunded pension scheme	Pension scheme which has liabilities and no assets. The Group will pay the liabilities of the scheme as they fall due.
Unsecured lending	Lending for which there is no collateral for the loan.
Upper Tier 2	Upper Tier 2 capital comprises the Group's preference shares, perpetual subordinated bonds and revaluation reserves.
Verde business	Separated part of the retail business of the Lloyds Banking Group.
Value at risk (VaR)	VaR measures the daily maximum potential gain or loss due to market volatility within a statistical confidence level of 95% and a one day holding period. The VaR methodology employed is historical simulation using a time series of one year to latest day.
Watchlist	A list of counterparties, drawn up by the Bank once it has elected to closely monitor the performance of loans subject to significant credit risk.
Wholesale	Wholesale banking is the provision of loans to corporate customers and institutional customers and services to other banks and financial institutions.
Write down	After an advance has been identified as impaired and is subject to an impairment allowance, the stage may be reached whereby it is concluded that there is no realistic prospect of further recovery. Write downs will occur when, and to the extent that, the whole or part of a debt is considered irrecoverable. This action can occur at any time in the debt's life (see 'Charge off').

About us: a guide to The Co-operative Bank

What is The Co-operative Bank?

The Co-operative Bank is part of The Co-operative Banking Group, providing a range of financial services to personal and business customers across the UK. The Banking Group's parent company, The Co-operative Group, is the world's largest consumer co-operative.

The Co-operative Bank operates under its own brand as well as those of **smile**, Platform and Britannia. We offer our services through 342 branches and 22 corporate banking centres as well as telephony and online channels

We are a leader in the field of ethical investment and corporate social responsibility. Our customer driven ethical strategy was the first of its kind in our industry and we pursue an active strategy of community involvement.

What services do we provide?

We offer a broad range of financial services to both personal and corporate customers, including high street and internet banking; current accounts and credit cards; mortgages and loans; savings; a range of personal and commercial insurances; corporate finance and financial advice. In partnership with AXA Wealth we also offer a range of savings and investment services to our branch customers.

How do we provide them?

We believe that our customers should be able to access our services in the way and at the time that best suits their needs, so we offer our services via a number of channels including:

- face to face (via our Britannia and Co-operative Bank branch networks)
- over the telephone (via our customer contact centres)
- online

How do we do business?

We are renowned as a member owned, customer led and ethically guided business. In contrast with many shareholder owned competitors, we exist solely for the benefit of our members and customers. In 2011 our 'co-operative difference' was recognised by the Financial Times in naming us Europe's most sustainable bank for the second year running.

Our business strategy is driven by our **purpose**, **vision**, **values** and **givens**.

Our **purpose** represents who we are and why we are different from other financial services providers. The Co-operative Bank's purpose is to be a pioneering business delivering sustainable financial services for members and society.

Our **vision** is to become a compelling co-operative alternative in the markets in which we compete.

Our **values** describe what we stand for and ensure we are consistent in how we treat customers, members and colleagues.

As a co-operative:

- We put members and customers first in all we do
- We take personal and social responsibility
- Together we will create a great place to work, grow and develop
- We strive relentlessly to be faster, better, more successful
- We are open and fair and committed to excellent communication

Our **givens** are the building blocks that underpin our business:

- We champion co-operative values, principles and ethics
- We are financially prudent and strong
- We share profits with members
- We only do business consistent with our values and principles

About us: a guide to The Co-operative Bank continued

How do we measure our success?

The Co-operative Bank business strategy measures success in four key areas: financial, customer, people and process. This 'balanced scorecard' approach is a key reflection of our co-operative difference and helps us ensure that in all decisions we make as a business we focus on all implications of the decision. It also helps us to take a broad view of our progress towards our strategic vision.

The following table summarises our performance in 2011 against our key performance indicators.

The Board reviews performance evidence against each key performance indicator on a regular basis, and considers 2011's performance satisfactory in all areas. Details (except where commercially sensitive) are shown below.

Financial

Financial measures focus on profitability and underlying financial strength:

Profit

This is our measure of operating result for the business as a whole.

Operating result: £141.1m

Progress:

Liquidity

Our liquidity measure sets out our minimum liquidity target for the year in line with the financial plan, and taking into account our regulatory obligations.

Minimum liquidity level: 107%

Progress:

• Surplus capital

Similarly our surplus capital measure sets out the minimum amount of capital we need to retain, to meet our regulatory obligations and underpin our operational requirements. This minimum is set in line with the financial plan, with due regard for our regulatory requirements.

Amount of surplus capital: [satisfactory]

Progress:

Customer

Customer measures address the key relationships through which we sustain and grow our business:

Customer advocacy

We use an external survey to monitor advocacy of customers across the Retail businesses relative to appropriate peers. This gives us our customer advocacy measure.

Customer advocacy: +10.3%

Progress:

• Primary current account customers

Primary current account customers are defined as those who:

- Hold one of our standard current accounts
- Credit their account with at least $\pounds 800$ per month.

Primary account customers: 552,000

Progress:

Products held per primary current account customer

This measure monitors how well we are meeting the needs of our relationship customers (as defined above) by calculating the average number of active products they hold with us.

Accounts per primary account holder: 2.59

Progress:

To be the UK's most admired Financial Services Business

People

People measures reflect the importance of internal engagement:

0

• Colleague engagement

Our colleague engagement assessment is derived from our twice yearly internal colleague survey.

Colleague engagement: 81%

Progress:

Process

Process measures focus on the efficiency of our business in delivering services to our customers:

• Cost

This measure focuses on the cost base for the combined Banking Group as a percentage of its income.

Cost income ratio: 66.2%

Progress:

• Compliance with risk appetite

We track this measure using key risk criteria across the business. Success means no material breaches against any of these criteria.

Compliance with risk appetite: 100%

Progress:

Chair's statement

A year ago, in my first statement as Chair of The Co-operative Bank, I described this as one of the most exciting times in our history, and the last 12 months have certainly been eventful. As the UK economy continues to struggle, our member led ownership model has attracted supporters beyond our loyal customer base, while the Financial Times has recognised us as Europe's most sustainable bank for the second year running.

As a co-operative business it is our goal to present customers with a 'compelling co-operative alternative' to the dominance of the shareholder owned banks. The International Year of the Co-operative is a real opportunity to present the co-operative business model to a wider consumer public. But what does the phrase 'compelling co-operative alternative' actually mean?

As a 'co-operative' we are member led rather than shareholder led. This model allows us to focus on the 'bigger picture' rather than react to short term trends. It encourages prudent stewardship, customer focus and a responsible approach to growth.

Our co-operative model also means that we are grounded in our communities. Customers can choose to share in our profits and play a part in how we are governed. This places power in the hands of real people, sitting on area committees, regional and business boards and the Group board itself. What is more, we judge our success by what we put back into local communities, not simply what we earn from them.

As consumers look increasingly to their financial service providers for support, our member led, community focused approach is an increasingly attractive alternative to the shareholder banks. We have supported small and medium businesses through these testing times as part of our overall £1.2bn loans to business during 2011; and we have also reached out to communities who have felt abandoned by other banks.

A particular example of this presented itself in the town of Horbury. Early in 2011, Horbury lost its last remaining bank branch. Co-operative members in the town wrote to us to ask if we could step in and provide a vital service to the community. In June 2011 we opened a new branch in the local Co-operative food store, and the feedback from customers, townspeople and local politicians alike has been positive and customers have voted with their feet. Business is brisk and the Horbury branch is already operating beyond expectations as well as supporting the local community.

One thing our customers most definitely expect from us is a willingness to accept when we have got it wrong. Our figures for 2011 include a provision of £90.0m for historic mis-selling of Payment Protection Insurance (PPI). Although this was an industry wide issue (and our provision is low by comparison with the market leaders) we are committed to identifying where our customers have been disadvantaged and putting things right. We will deal with their complaints in a fair, personal, easy and responsible manner; and we will make sure that we learn from past mistakes.

So does that make us a compelling prospect? We enjoy excellent customer satisfaction and have attracted a steady flow of customers switching to us over the past two years. However we recognise that to become a compelling alternative to the 'Big Five', we need to continue to grow further and increase our scale and presence.

The need to become a compelling co-operative alternative was a driving force behind our merger with Britannia Building Society, and is the basis for our interest

in the 632 branches being sold by Lloyds Banking Group. We will not, however, sacrifice our members' interests on the altar of ambition, but continue to examine cautiously the opportunity for us to enhance our reach, grow our customer base and become a truly compelling alternative for the UK consumer.

Another exciting opportunity to increase our reach is through the existing membership and customer base of The Co-operative Group. Last year the Group launched Project Unity to rationalise its operating structure and deliver a more integrated service proposition to its members and its significant customer base. For us, as for the other Co-operative businesses, the opportunities offered by Unity are significant.

In the short term, Unity means restructuring and eliminating duplication, reducing unnecessary cost while reinvigorating the way we work. In the longer term, a truly unified Group offers the advantages of scale, diversity and brand strength, that our strategy demands.

2011 has seen some changes to the leadership of the Bank. Our Chief Executive Officer, Neville Richardson, left the business in July. I would like to thank Neville for his leadership, both at Britannia and during the process of integration with The Co-operative Bank.

Barry Tootell, Chief Financial Officer, has been appointed acting CEO. Barry was an integral part of the executive team that created our vision and is ideally qualified to step seamlessly into the role of guiding the business forward. James Mack, formerly Director of Financial Control, has been appointed acting CFO.

Meanwhile Project Unity has seen a rationalisation of both the executive structure and board composition. Tim Franklin, Chief Operating Officer, and Karen Moir, Director of Organisational Development, have left the business, and I would like to thank both Tim and Karen for their support and commitment in helping to merge two businesses into a single strategic, cultural and operational entity.

In line with the Group structure, we have also slimmed down our board. I would like to express my thanks to the following board members who stepped down in 2011; Chris Jones, Stephen Kingsley, Steve Watts and Piers Williamson. We also reduced the number of executive directors on the Board with Phil Lee, Rod Bulmer and Tim Franklin stepping down.

At the same time, we welcomed two new non-executive directors to the Board, Anne Gunther and Merlyn Lowther. As Chief Executive of the Norwich and Peterborough Building Society, Anne guided the business through its merger with the Yorkshire Building Society. Merlyn is a non-executive director of Schroders plc and a former Chief Cashier of the Bank of England.

In my role as Chair I am responsible for ensuring that the Board operates effectively. This involves putting in place a sound framework in which the Board can make strategic decisions, within a governance structure appropriate to the business of The Co-operative Bank plc. More details on the governance structure and arrangement can be found at page 11.

The phrase 'change is a constant' has become a cliché, but one look at the economy as it stands demonstrates the need for change. It is impossible to grow and develop, to stay in touch with one's customers and markets, without embracing the challenge of change, and we have shown ourselves more than ready to do so. However, the compelling co-operative alternative is built on the same values that inspired the Rochdale Pioneers 168 years ago — voluntary and open membership; democratic control; economic participation; autonomy and independence; education and development; and concern for our community. It is the resonance of those values with customers and investors alike that underpins our ambition to become a real force in UK financial services.

Paul Flowers, Chair

Chief Executive's overview

Welcome to The Co-operative Bank report and accounts for 2011, my first as Chief Executive Officer. It is with pride that I present our results for what has been a successful year in a challenging market.

While the UK economy has shown some signs of stabilisation, commentators and customers alike are anxious about the future. Growth estimates have been downgraded, sovereign debt remains a major issue and the ongoing eurozone crisis continues to suppress market confidence.

As families cope with rising costs, low pay and the government's austerity measures, the Institute for Fiscal Studies reports that living standards have gone into their most significant fall in 25 years. Now more than ever, UK consumers are looking to financial services providers for understanding and support.

As we continue to build the 'compelling co-operative alternative' we continued to invest heavily throughout 2011 in making life easier for our customers and their communities, while maintaining the underlying financial strength to safeguard their investment in us. In supporting UK customers and businesses alike, we have lent £1.2bn to UK businesses and £0.9bn to mortgage customers. Yet continuing our prudent approach to banking, and not over-committing ourselves, we have strengthened still further our loans to deposits ratio which is now 94% (compared with 102% in 2010).

We have taken a significant step forward in the integration of our banking proposition with the extension of full personal banking facilities to our Britannia branch network, which has in effect opened up 245 new bank branches. In doing the right thing for our customers, we aim to build long term relationships, and these in turn will lay the foundations for sustainable success.

This year's results in context

Despite the gloom and uncertainty of the market, our operating profit of £141.1m has remained stable compared with 2010, while the statutory profit of £54.2m (2010: £48.9m) represents a solid performance by the business.

Underpinning these figures is a healthy balance sheet with our core tier one capital ratio robust and stable at 9.6% (unchanged on 2010). Our underlying capital position continues to be a source of strength, and reflects our prudent approach to the stewardship of our customers' money, while our commitment to liquidity has been reflected in the high liability balances retained, including healthy levels of term deposits.

We have successfully raised term funding this year, in residential mortgage backed securities and covered bonds, to support our plans for long term growth. In each case important funds were secured at competitive rates, having been significantly over subscribed. In a year when the Financial Times named us Europe's most sustainable bank for the second year running, our successful dealings in the City underline the confidence of the financial markets in our sustainable business model.

Customers and commentators have again endorsed The Co-operative Bank with numerous awards, including 'best packaged current account' at the Moneynet Personal Finances awards, and 'best longer term fixed rate mortgage provider' according to Moneyfacts. The Bank was also successful in multiple categories at the Moneywise Customer Service Awards.

Our corporate and business banking arm has experienced increases in impairment on corporate lending in line with the market, but the business has shown encouraging growth, laying the groundwork for future success.

A model for sustainable growth

These results reflect the excellent relationships we have with our customers, with customer advocacy levels for 2011 on average 10.3% ahead of our target peer group. They also reflect our determination to challenge ourselves and build for sustainable success. Even as we continue to challenge the cost base throughout the business, we are investing significantly in infrastructure for the future. Our transformation programme is designed to enhance our customer centred banking operations and provide the infrastructure for future growth. The launch of a new bancassurance proposition, in partnership with AXA Wealth, enables us to offer our customers a simplified savings and investments portfolio, while a pilot to offer legal services through 30 branches has been successful. With negotiations at an advanced stage to buy 632 Lloyds TSB branches, the opportunities for growth are exciting, but even without this boost we are confident we have the capacity to increase our scale, reach and presence in the coming years.

Opportunities and challenges in the next 12 months

The year ahead presents a number of significant opportunities and challenges, which will shape the long term future of The Co-operative Bank and its parent company The Co-operative Banking Group.

One of the principal challenges remains the economic climate, which will continue to put pressure on UK businesses and consumers alike. Interest margins are likely to remain low while customer behaviour, in the wake of falling real living standards, will continue to be cautious. Against this background The Co-operative Bank aims to drive down cost in the business, but we will also be taking proactive steps to develop our customer relationship model, focusing on attracting, engaging, deepening and retaining customer relationships.

Within the business, our transformation programme remains a significant investment in the future. At the same time the focus for our customer facing colleagues will be to continue to deliver market leading customer satisfaction.

The decision by Lloyds Banking Group to enter into exclusive negotiations with The Co-operative Bank, over the sale of their 632 branches, reinforces our credentials as a genuine challenger in the UK market. This opportunity complements our strategic vision while offering an excellent chance to achieve real scale on the high street.

We continue to assess the complex nature of this transaction and are diligently assessing the risks and the steps to mitigate them. We are clear that we will only make the acquisition on terms that make sense for our customers and our members.

Project Unity offers a significant opportunity during the coming year and beyond, opening up greater synergies and product development opportunities across The Co-operative Group's family of businesses. The project began to roll out in Quarter 4, 2011 and is due for completion by the end of 2012. Unity offers huge potential, both for customers and for the business itself.

Outlook for the future

If ever there was a time for realism in banking, this is that time. Our industry, and more importantly our customers, face challenges not seen for decades. At The Co-operative Bank we have benefited from sensible, customer centred stewardship during the 'good times' and as a result we are in a position to invest for a better future, while continuing to deliver much needed support to our customers today.

We believe the Co-operative model has never been more relevant, and we believe it is a model for the future. With the increasingly close support of our colleagues across The Co-operative Group, we aim to build on our customer relationships to add value, both to customers and to members. It is this added value that will make us the compelling co-operative alternative.

Barry Tootell, Acting Chief Executive

Business and financial review

Overview

2011 has been a difficult year for the financial sector. Markets remain challenging and unpredictable, while the ongoing eurozone crisis continues to dampen confidence and inhibit growth. The industry continues to suffer from constrained capital markets, squeezed margins and a lack of customer confidence. Meanwhile the long term outlook remains unclear.

Against such a background, the continued resilience of The Co-operative Bank ('the Bank') is a positive endorsement for the Co-operative model. The Bank has provided a safe haven for our customers, fostering long term relationships and building a compelling co-operative alternative within the financial services industry. The steady operating result of £141.1m (2010: £144.5m) for the year reflected a strong performance in the Retail sector, partly offset by a difficult year for the Corporate sector. The income statement also benefited from gains on the sale of Treasury assets of £37.2m (2010: £11.4m) (a result of reshaping our liquidity portfolio), and a reduction in total credit risk expected over the life of the Optimum mortgage book of £20m (2010: £15m). These offset the cost of funding significantly higher levels of liquidity than experienced in 2010, as we continued to strengthen our liquidity, a core element of our financial strength. Statutory profit before tax of £54.2m was generated for 2011 (2010: £48.9m), which was adversely impacted by a provision for payment protection insurance (PPI) mis-selling of £90.0m (2010: £4.3m). Despite the difficulties within the UK economy, asset quality has been maintained with our levels of late residential mortgage arrears (>2.5% of balance) now standing at 1.18%, 0.24% better than the CML industry average for the fourth quarter of 2011.

The foundation of our balance sheet is our sound liquidity position, with an improved loans to deposits ratio of 93.9% (2010: 102.5%), now our primary measure of liquidity and replacing the customer funding ratio, which was 117.6% at the end of 2011 (2010: 106.7%). The Bank has remained active in the wholesale funding markets during the year, raising funding through the securitisation of mortgages and issuance of a covered bond. Furthermore, we have been proactive in managing exposure to the eurozone counterparties. The capital position remains robust, with a core tier one ratio of 9.6%.

Our balanced scorecard approach takes a holistic view of performance, taking into account not just profit generation but effective risk and process management, and our impact on colleagues and customers.

As a member owned bank, our customers trust us to put them at the heart of our business and, by really understanding their needs, we offer products and services tailored to them. As a result, our levels of customer advocacy continue to be strong – for 2011, advocacy for The Co-operative Banking Group was 10.3 percentage points above the average of our top five competitors.

Integration and transformation

Over two years have now passed since the merger with Britannia Building Society. During this time we have integrated the merged operations and are making good progress in transforming the business and realising the benefits of the merger.

Within months of the merger, customers were able to open current accounts in the 245 Britannia branded branches — to date, over 62,000 current accounts have been opened via these branches (nearly 45,000 during 2011). August 2011 saw the introduction of the capability for customers to service current accounts in Britannia branded branches. This effectively extended our banking network from around 90 to over 340 sites and enabled us to rebrand our Britannia branches as part of The Co-operative Bank. We have also continued to attract customers switching their main current account, with a 10.8% year on year increase in 2011 of customers making us their main bank.

To bring colleagues together, we have completed our organisational design and introduced a single set of terms and conditions of employment across. The Co-operative Banking Group, with the full support of our recognised trades unions. Despite the pace of change in the business, colleague engagement has increased during 2011, rising to 81% in November 2011 for The Co-operative Banking Group (November 2010: 78%).

Full transformation will be achieved when we have enabled our customer relationship model and provided a platform for growth, through the replacement of our legacy banking systems and infrastructure with modern, flexible solutions. 2011 has seen investment in some very large elements of this programme:

- a new Financial Crime Management system
- an upgrade to our banking mainframe
- a new flexible and functionally rich telephony system
- a new platform for our credit card system
- the first phase of our new payments hub
- the first stage in the re-platforming of our core banking systems

This is just part of our transformation plan, under which we are making a significant investment in our people, processes and systems in order to transform our business for our customers. Other examples of this transformation include the in-store banking programme, which has created new in-store pilot facilities in our food stores in 2011 and aims to increase this still further during 2012

Project Unity is a Co-operative Group programme seeking to maximise the customer and commercial benefits of belonging to the world's largest consumer co-operative, and The Co-operative Banking Group is a key participant in the project. At the beginning of this year, a new group senior management structure was announced, reinforcing the common culture, purpose and strategic goals that unite our family of businesses and the project began to roll out in depth in 2011. The Co-operative Banking Group now benefits from the economies of scale arising from a single procurement function, with further efficiency gains to be delivered as more enterprise functions are managed on a group basis.

Highlights

Operating result and profit before taxation and distributions	2011 £m	2010 £m	Change £m	Change %
Income	817.6	821.8	(4.2)	(0.5)

Operating result	141.1	144.5	(3.4)	(2.4)
Significant items	(53.3)	(55.5)	2.2	4.0
Payment protection insurance (PPI) provision	(90.0)	(4.3)	(85.7)	n/a
Share of post-tax profits/(losses) from joint ventures	0.2	0.7	(0.5)	(71.4)
Financial Services Compensation Scheme (FSCS) levies	(14.5)	(11.5)	(3.0)	(26.1)
Fair value amortisation	86.3	(14.2)	100.5	707.7
Profit before taxation and distributions	69.8	59.7	10.1	16.9
Membership dividend	(15.6)	(10.8)	(4.8)	(44.4)
Profit before taxation	54.2	48.9	5.3	10.8

Business and financial review continued

The operating result was slightly below 2010, a resilient performance given the difficult market conditions. The profit before tax and distributions of $\pounds 69.8 \text{m}$ was adversely impacted by a provision for PPI mis-selling of $\pounds 90.0 \text{m}$ (2010: $\pounds 4.3 \text{m}$). Although this is an industry wide issue, as a member owned organisation, we are committed to doing the right thing for our customers, especially if we get things wrong. We will deal with their complaints in a fair, personal, easy and responsible manner.

Profit before tax and distributions of £69.8m (2010: £59.7m) was also after a credit of £86.3m (2010: charge of £14.2m) for the amortisation of fair values. These fair value adjustments principally relate to the amortisation through net interest income of interest rate related adjustments required to be made to the carrying value of assets and liabilities at the time of merger. The credit for the year was adversely impacted by £75m amortisation on various funding instruments caused by an acceleration in their expected redemption. This was offset by the release of contingent merger consideration through operating expenses of £37m no longer expected to be paid.

Profit before tax increased by 10.8% to £54.2m for 2011.

2011 income levels (excluding fair value adjustments) were marginally down on 2010, and reflected the impact of additional funding raised within the past 12 months, lower asset yields and lower investment income, although this was partly mitigated by gains on Treasury asset sales during the year. Income benefited from the reduction in total credit risk expected over the life of the Optimum mortgage book of £20m (2010: £15m).

Operating costs (excluding fair value adjustments and strategic investment costs) have reduced from $\pounds555.5m$ in 2010 to £548.2m in 2011, despite inflationary pressures on the cost base. However, there is further work to do in this area and we remain committed to further improving the cost position over the medium term.

Impairment losses have reflected the difficult economic conditions in 2011, rising by 19.9% compared with 2010 levels, predominantly due to a higher corporate impairment charge. The total charge benefited from the mitigating impact of prudent credit fair value adjustments taken at the time of merger. The residential mortgage book (both Retail and Optimum) continued to perform well and arrears reduced further during 2011, with late mortgage arrears (>2.5% of balance) down from 1.67% at December 2010 to 1.18% at December 2011.

Significant items of £53.3m (2010: £55.5m) were incurred during the year, primarily associated with the investment in our transformation and integration programme.

The 2011 charge for profit distributions to individual members of The Co-operative Group, which are based on their account holdings with the Bank, totalled $\mathfrak{L}15.6m$.

Given the economic backdrop and regulatory requirements to hold higher levels of capital and liquidity, as well as consumer behaviour in respect of unsecured lending, the size of the Retail loan book reduced from $\mathfrak L17.3$ bn to $\mathfrak L16.2$ bn over the year, partially compensated for by growth in the Corporate and Platform loan books.

The loans to deposits ratio of 93.9% improved by 8% from the equivalent position at the end of December 2010 (102.5%). The Bank has remained active in the capital markets, completing its second prime mortgage securitisation since the merger and issuing a covered bond. We also undertook a lower tier two exchange into new securities at an on-market rate.

Capital has been carefully managed to maintain the Bank core tier one capital ratio at 2010 levels (9.6%), despite the impact of the PPI provision. The total capital ratio was 14.7% (2010: 14.0%), with a tier one ratio of 9.9% (2010: 9.9%). During the year, a capital injection was made to the Bank of $\mathfrak{L}87m$, from The Co-operative Banking Group.

Our businesses

Operating result	2011 £m	2010 £m	Change £m	Change %
Retail	94.6	47.4	47.2	99.6
CABB	14.5	54.7	(40.2)	(73.5)
Other	32.0	42.4	(10.4)	(24.5)
Operating result	141.1	144.5	(3.4)	(2.4)

The Bank consists of two primary operating segments – Retail, and Corporate and Business Banking (CABB).

The Retail business (trading as The Co-operative Bank, Britannia and **smile**) offers a range of financial products and services to individuals and households throughout the UK.

CABB includes corporate banking, business banking, business services, Platform (the intermediary mortgage business) and Optimum (the closed book of pre-merger intermediary and acquired loan book assets). CABB effectively incorporates all the key business to business elements of the Bank.

Included in the Other segment are the results of the Treasury activities of the business. Also included are the results of Unity Trust Bank.

During 2011 the Bank's internal reporting structure was revised, to include Optimum within CABB; this was previously reported separately. The 2010 results reported above have been revised to reflect this change.

Retail

Retail operating result	2011 £m	2010 £m	Change £m	Change %
Net interest income	387.4	389.1	(1.7)	(0.4)
Non-interest income	150.2	147.2	3.0	2.0
Net income	537.6	536.3	1.3	0.2
Operating costs – steady state	(399.3)	(406.2)	6.9	1.7
Operating costs – strategic initiatives	(9.4)	(19.9)	10.5	52.8
Impairment losses	(34.3)	(62.8)	28.5	45.4
Operating result	94.6	47.4	47.2	99.6

The Retail operating result for 2011 of £94.6m was nearly double that of 2010 £47.4m).

Mortgage income has improved largely as a result of new business and retention of maturing balances at higher margins. However, this has been offset by lower net interest income both on deposit balances and credit cards. The cost of maintaining high liability balances reflects our commitment to maintaining a sound liquidity position. Lower credit card balances and yields reflect the change in customer behaviour to pay down unsecured debt due to the difficult economic conditions.

Non-interest income was better than last year due to higher current account balances, and the rollout of 280 additional ATM installations in Co-operative food stores.

Building the compelling co-operative alternative

Impairment losses were significantly lower in 2011 than in 2010, by 45.4%. Key drivers include declining credit card balances and improvements in the collection of arrears. Mortgage quality has been maintained with continued low rates of impairment.

Our focus continues to be on delivering high quality assets with the average loan to value remaining at below 50% across the Retail business, in line with 2010.

The strength of the Retail customer proposition continues to be recognised by a range of awards. In 2011 the Bank won Moneysupermarket's 'Best Current Account Provider 2011', received the 'Best Longer Term Fixed Rate Mortgage Product' award from Moneyfacts, and was successful in several categories at the Moneywise Customer Service Awards. The Bank's credibility amongst customers and commentators alike was underscored by a second year of being shortlisted for 'Best Financial Services Provider' at the 2011 Which? Awards.

Corporate and Business Banking

CABB operating result	2011 £m	2010 £m	Change £m	Change %
Net interest income	161.5	146.4	15.1	10.3
Non-interest income	68.2	66.2	2.0	3.0
Net income	229.7	212.6	17.1	8.0
Operating costs – steady state	(127.4)	(123.1)	(4.3)	(3.5)
Operating costs – strategic initiatives	(3.2)	(4.8)	1.6	33.3
Impairment losses	(84.6)	(30.0)	(54.6)	(182.0)
Operating result	14.5	54.7	(40.2)	(73.5)

The CABB operating result for 2011 was £14.5m (2010: £54.7m).

Corporate banking

Corporate banking has delivered an operating loss of £36.4m during 2011 (2010: profit of £2.5m). This reflects another difficult year for the industry, with impairment losses rising from £31.4m to £87.4m, including a collective provision against potential losses of £10.4m. There has been measured growth of Corporate banking assets through selected high quality new business, combined with continued significant liability growth through term deposits (c. 43% growth in corporate deposits during 2011, evidencing the appeal of our proposition to the market), leading to higher net interest income.

Corporate banking rolled out a further two Corporate banking centres during 2011, taking the total number to 22. Alongside our specialist sector and customer deposits teams, these will be used to drive measured balance sheet growth.

Platform

The Platform intermediary mortgage business, focusing on the prime mortgage and buy to let markets, has continued to grow in the marketplace throughout 2011. The focus for Platform remains on good quality prudent lending and advances of $\mathfrak{L}0.6$ bn have been extended during 2011 with strong margins achieved and late arrears (>2.5% of balance) on only 0.30% of accounts (2010: 0.71%).

Optimum

In 2011 the Optimum portfolio, a closed book of intermediary and acquired mortgage book assets, reduced in size, as planned, by 5.5% to £7.7bn, and delivered a profit of £52.7m (2010: £61.2m).

Throughout the year, the business has continued to deliver improvements in its management of arrears, with a focus both on existing and pre-arrears cases. As a result, arrears in Optimum have continued to improve steadily, and the business has been able to release £20m (2010: £15m) of its total provision for credit risk expected over the life of the Optimum mortgage book. The remaining merger related fair value provisions against the portfolio continue to provide a high degree of cover against credit losses.

Other businesses

The main component of the Other business segment, our Treasury operation, has continued to deliver on its core responsibilities of ensuring a stable liquidity base, providing diverse sources of wholesale funding to the Bank, managing market risk and delivering a favourable financial performance on the investment portfolio. The Treasury result benefited from gains on the sale of Treasury assets of $\mathfrak L37.2m$ (2010: $\mathfrak L11.4m$) as part of reshaping the investment portfolio. However, it was impacted by a challenging funding environment driven by uncertainty in the financial markets, especially in the eurozone, with margins continuing to be under pressure during the year. Net interest income was negatively impacted by increased investment in highly liquid, low risk assets as well as the reduction in higher risk and higher earning investment assets together with increased structured funding transactions.

The Bank has no sovereign exposure to 'peripheral' eurozone countries (namely Portugal, Ireland, Italy, Greece and Spain), and no exposure to Greek financial institutions or any other Greek counterparties. Other peripheral eurozone country and counterparty limits have continued to be cautiously managed downwards, and exposure is primarily restricted to short dated money market lending. Investment assets in peripheral eurozone counterparts are in run-off, with associated counterparty and country limits reducing upon maturity or sale. The Treasury investment assets maturing over the coming year amount to £539m (16% of the investment portfolio). Further detail is included in the Risk Management section.

Outlook

The Bank has been granted preferred bidder status by Lloyds Banking Group in the process currently being run for the sale of its 632 branches. This is part of our ambition to build upon our strong foundations in banking, to ensure customers have a genuine alternative on the high street. The combination of the Lloyds Banking Group branches and our own branch network is consistent with our strategy to strengthen our position as a real challenger in relationship banking in the UK. Our current bid is non-binding and we would only proceed if we could reach an agreement that was in the interests of our members and other stakeholders. Any transaction would be subject to regulatory approval.

Given the considerable scale, reach and reputation of the wider Co-operative Group, Project Unity will open up many potential synergies and product development opportunities, which will considerably enhance both the financial strength of the business and the experience for our customers.

The outlook for the financial services industry remains difficult, and latest indications point to a continuation of these challenging circumstances, particularly in the Corporate sector. Together with increasing regulatory requirements, these will continue to weigh heavily on earnings. Our focus remains on ensuring our continued financial resilience, and means that we can look forward with optimism and confidence to the future.

Social goals

Introduction

In the midst of the current global economic challenges, and with increasing calls for more ethical and responsible forms of business, it is appropriate that the United Nations should herald 2012 as the International Year of Co-operatives. The Co-operative model is being seen as an increasingly relevant factor to a more balanced, sustainable economy.

The Co-operative Bank has been at the forefront of this renaissance. Our reputation amongst consumers (who consistently see us as the UK's most socially responsible bank), remains unparalleled. Also in 2011, the Financial Times and the International Finance Corporation recognised us as Europe's most sustainable bank — the second successive year that our commitment to social responsibility has been recognised in this way.

In 2011, our approach to sustainability was revitalised with the launch of The Co-operative Ethical Plan. The Plan, to be refreshed each year in consultation with our democratically elected member representatives, sets ambitious targets across issues of primary concern for members.

Whilst challenges remain, we believe our business model will thrive by delivering value to our members and customers in a responsible and sustainable manner.

Materiality, strategy and governance

The Co-operative Bank has always had a purpose beyond profit. As part of The Co-operative Group, we are owned by our members and accountable to them through our democratic structure. The Group Values and Principles Committee, made up of elected members, oversees our sustainability strategy and customers and members help shape our unique Ethical Policy.

The Group's Ethical Plan sets out targets across eight priority areas. We review these annually with our members through the Group Values and Principles Committee to ensure that we continue to show the way forward for corporate sustainable development in the UK. Performance is transparently reported in the award winning annual Sustainability Report of our parent company, The Co-operative Group.

Performance overview

Responsible finance

A longstanding focus on responsible finance is firmly embedded in our business. Over the last two decades our unique customer led ethical policy has led to our refusing over £1bn of finance to businesses or projects that failed to satisfy our social or environmental standards. At the same time we have seen our commercial lending grow to £9bn.

Throughout 2011 our Social Banking Unit provided a dedicated resource for social, co-operative and environmental businesses. Around a quarter of all bank lending is channelled into such businesses and has to date contributed £700m of a £1bn commitment to fund green energy and energy efficiency projects. A range of organisations with a social purpose received funding during 2011, including the Youth Hostel Association (£13m) and Social Investment Scotland (£1.5m), an organisation that provides loans for charities and social enterprises unable to secure bank loans. Since 2008, our charity business has doubled, with customer numbers increasing to over 4,800 in 2011.

We believe that responsible finance should mean accessible finance. For a decade, our lending to small businesses in deprived areas, as a proportion of equivalent bank activity, has consistently exceeded the industry average. Our provision of basic bank accounts is up 21% from 2010, and we maintain our support to the pioneering 'bank accounts for prisoners' project, providing those opening an account with a better opportunity to secure housing and employment, factors considered key to reducing reoffending.

Keeping communities thriving

In 2011, The Co-operative family of businesses invested £13.6m in communities at home and around the world, and we are aiming to invest 10% of monies available for distribution by 2013, building on our current support for 10,000 community initiatives each year — one new project every hour, every day.

Colleagues throughout The Co-operative Bank contributed to the $\mathfrak L Tm$ raised in 2011 for our Charity of the Year partners, Mencap and sister charity ENABLE in Scotland, to improve the lives of young people with a learning disability around the UK — well above our $\mathfrak L Tm$ target.

Our members helped over 2,400 local community groups by donating their share of the profits to The Co-operative Community Fund, and Co-operative Bank colleagues volunteered in a range of community projects.

Supporting co-operatives

We believe in 'co-operation amongst co-operatives', supporting the growth of responsible businesses and contributing to the development of a more diverse and sustainable economy. We continue to be the only bank to offer a current account for credit union members, in partnership with the Association of British Credit Unions Ltd and provide facilities to 60% of the credit union sector.

As part of The Co-operative Group, we are also investing £17m over the next three years to support the growth and development of co-operatives in the UK and overseas. The Co-operative Enterprise Hub continues to provide professional business advice and training to help new co-operatives get off the ground and help existing co-operatives to grow and become more sustainable. Over 700 co-operatives have benefited from the Hub's support to date, helping to contribute to the growth in the UK co-operative sector, which comprises more than 5,000 co-operatives nationwide.

Inspiring young people

The Co-operative Group's Inspiring Young People programme aims to bring about a cultural shift in the way that young people are viewed and treated in the UK, and to help them change their world. The programme aims to have benefited one million young people by 2014.

Our Skills for Schools programme, delivered by colleague volunteers, aims to improve the financial literacy, numeracy and employability of school children. Our Green Schools Revolution, launched in September 2011, is a new sustainability education programme for primary and secondary schools. So far, over 3,000 UK schools have registered to take part with a view to engaging 6,000 schools, or one in five across the UK by 2014.

In 2011, The Co-operative Group established a Co-operative Academy school in Leeds, the third Academy to be launched to date, and we aim to establish a total of six by the end of 2013, delivering an innovative curriculum within a values led ethos. This forms part of the Group's wider work supporting Co-operative Schools, which includes establishing a co-operative society, to which over 200 schools are currently enrolled.

Protecting the environment

Our longstanding commitment to the environment speaks for itself. In line with our customers' concerns, we have declined almost £500m of finance to businesses or projects that did not meet our environmental standards since the launch of our Ethical Policy, whilst providing £700m finance for projects with a positive environmental impact. During 2011, we continued to offset all our carbon dioxide emissions, together with an additional 10% to compensate for our carbon legacy. The Co-operative Group has cut greenhouse gas emissions by 35% since 2006, saving half a million tonnes of greenhouse gases each year and well ahead of its 2017 target. The Group is aiming for a 50% cut in emissions by 2020, and to generate the equivalent of 25% of all electricity used from its own renewable sources by 2017.

In 2011, The Co-operative Bank achieved recertification to the ISO 14001 standard and we are still the only financial services organisation in the world to achieve this leading standard across all business activities and products. Looking forward our state of the art head office, which opens in 2012, will set new standards for the UK in sustainable design, construction and operation.

Tackling global poverty

The Co-operative Group continues to strive for a fairer world, where basic human needs are met and rights respected. We support microfinance institutions in 27 countries across the globe with a \$50m fund to provide small loans to people in the world's poorest countries. Our charity credit cards have enabled customers to raise a staggering £729,000 for organisations tackling global poverty and human rights issues, such as Oxfam and Amnesty International.

In 2011, The Co-operative Group entered into a partnership with CARE International UK to support 'lendwithcare.org'. The innovative scheme allows people in the UK to lend directly to entrepreneurs in the developing world, helping them to grow their businesses and ultimately to work their way out of poverty. Our aim is to facilitate 30,000 loans by the end of 2012. The Co-operative Bank is also spearheading The Global Development Co-operative — a new development fund intended to support co-operatives in the developing world.

2012 promises to be another challenging but rewarding year. The Co-operative business model will be brought to the fore through the UN International Year of Co-operatives, while our groundbreaking Ethical Plan will help us in our ambition to remain the UK's most socially responsible business and at the same time, inspire more people than ever to change their world.

The Board

Non-executive directors:

Paul Flowers (BA (Hons))

Age 61. Joined the Board in 2009 and appointed Chair in 2010. Deputy Chair of Co-operative Group Limited. Superintendent Methodist Minister. Member of The Co-operative Group North Regional Board. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Rodney Baker-Bates (MA, FCA, AIMC, FCIB)

Age 67. Joined the Board in 2009 and appointed Deputy Chair in 2010. Chair of Willis Limited. Directorships also held at Bedlam Asset Management plc, Dolphin Square Trust Limited, EG Solutions plc, G's Group Holding Limited and Stobart Group plc. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Duncan Bowdler (BSc (Hons) Biochemistry)

Age 53. Joined the Board in 2009. Trade and Legislation Manager. Member of The Co-operative Group North West and North Midlands Regional Board. Non-executive director of Co-operative Group Limited, Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

David Davies (BSc (Econ), FIA)

Age 64. Joined the Board in 2003, appointed Deputy Chair in 2010. Qualified actuary. Chair of Sun Life Assurance Company of Canada (UK), the PACE Pension Scheme and Nortel Networks Pension Scheme in the UK. Non-executive director of Interglobal Insurance Company Limited. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Anne Gunther (BSc (Hons), MBA, ACIB, FCIBS)

Age 57. Joined the Board in 2011. A career retail banker, most recently as Chief Executive of Standard Life Bank and then Chief Executive of Norwich and Peterborough Building Society to secure its merger with the Yorkshire Building Society. Chair of Warwick Business School. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Peter Harvey (ACIB, Dip FS)

Age 56. Joined the Board in 2009. Consultant to Berwin Leighton Paisner LLP and non-executive director of Marshalls Holdings Limited. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Paul Hewitt (MA, ACA, Dip German (Open))

Age 56. Joined the Board in 2003. Chair of RJ Kiln & Co Limited, The Good Care Group Limited and Four Times Enterprises Limited. Non-executive director of Shop Direct Financial Services Limited, trustee member of NEST (the National Employment Savings Trust) and Industrial partner with Lyceum Capital, a mid market private equity firm. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Merlyn Lowther (BSc (Hons), MBA, FCIB)

Age 58. Joined the Board in 2011. Chief Cashier of the Bank of England from 1999 to 2004. Non-executive director of Schroders plc. Trustee of the Winston Churchill Memorial Trust and The Henry Smith Charity. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Peter Marks

Age 62. Joined the Board in 2009. Group Chief Executive of Co-operative Group Limited. Named Orange Leader of the Year 2009 in the National Business Awards. Entire working life spent within the Co-operative Movement. Instrumental in bringing about a number of major co-operative mergers over the past decade, as well as the Group's acquisition of the Somerfield supermarket chain. Non-executive director of Thomas Cook Group plc. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Bob Newton (BSc, FIA, CDir)

Age 62. Joined the Board in 2007. Retired from the insurance industry in 2006 and has since built a portfolio of business and pro bono interests. Chair of Silentair Group Limited. Non-executive director of UIA (Insurance) Limited and Reclaim Fund Limited. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Ben Reid OBE (FCCA)

Age 57. Joined the Board in 2009. Chief Executive of The Midcounties Co-operative and also Chair of Walsall Healthcare NHS Trust. Non-executive director of Co-operative Group Limited, Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Len Wardle (BA)

Age 67. Joined the Board in 2002. Chair of Co-operative Group Limited and member of the South East Regional Board. Held management positions in local government and latterly was a Fellow at the University of Surrey in the School of Management. Director of Communicate Mutuality Limited. Non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Martyn Wates (ACA, ATII, BA (Hons))

Age 45. Joined the Board in 2007. Has held various senior finance positions within the co-operative movement. Director of various internal subsidiaries and non-executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Executive Director:

Barry Tootell (BA (Hons), FCA)

Age 50. Joined the Board in 2008. Acting Chief Executive Officer. Qualified accountant with over 20 years of banking experience and was previously Chief Financial Officer. Executive director of Co-operative Banking Group Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Report of the Board of Directors

Introduction

The Co-operative Bank plc (the Bank) is a subsidiary of The Co-operative Banking Group (the Banking Group) and its ultimate parent company is Co-operative Group Limited (Co-operative Group) which is an Industrial and Provident Society that is jointly owned and democratically controlled by its

During the year, a number of actions were undertaken to enhance further the governance structure of the Board and bring it in line with evolving best practice. These included changes to the composition of the Board with a reduction in numbers of members whilst at the same time increasing the diversity of the Board.

During the year, with the exception of the level of independent representation on the Board and Audit Committee, the Bank believes it has fully complied with the principles and provisions of the UK Corporate Governance Code (the Code) appropriate to the democratic structures of the Bank and its parent organisations; the Banking Group and Co-operative Group. The Bank has also continued to consider and address the final recommendations arising from the introduction of the Code. In particular, a detailed review of the risk management framework in which the Bank operates has taken place and the Board and Board committees have redefined membership, responsibilities and terms of reference.

The corporate governance section of the Directors' report describes the key governance mechanisms operating within the Bank and Banking Group.

Board composition and independence

The names of the current members of the Board, their biographies and details of length of service are set out on page 10.

The size and composition of the Board was reviewed in 2011 in light of an external evaluation of the Board's effectiveness in 2010 and introduction of the Code. The aim of the review was to increase both the independence of the Board and its effectiveness. The opportunity was also taken to introduce new talent into the Board (within the reduced Board size) and improve its diversity in line with the recommendations made in Lord Davies' review into Women on Boards. The review led to several directors stepping down from the Board with a reduction in overall numbers on the Board. The changes to the Board composition and independence which stem from the review have meant that by the end of the vear the Board was compliant with the Code.

The Bank Board consists of 13 non-executive directors and two executive directors. Of the 13 non-executive directors four are members of The Co-operative Group Board, two are Co-operative Group Executives and seven are externally recruited for their specific financial services experience and expertise.

The two executive directorships are held by the Chief Executive and the Chief Financial Officer of the Bank who also hold the same role in the wider Banking Group. In July 2011 Neville Richardson stepped down from his position as Chief Executive of the Banking Group and its subsidiaries (including the Bank) and Barry Tootell (Chief Financial Officer and an executive director) was appointed as Acting Chief Executive. The position of Chief Executive has not, as yet, been appointed on a permanent basis and evaluation and interviews by the Board for this permanent appointment are ongoing. James Mack was appointed Acting Chief Financial Officer but is currently not an executive director and therefore there is a vacancy on the Board.

The Code requires at least half of the Board, excluding the Chair, to be independent non-executive directors. In accordance with the Code, it is for the Board to consider whether a director is independent in character and judgment and whether there are any relationships or circumstances which are likely to affect, or could appear to affect, the director's judgment.

The Board has concluded that, looking across the wider Co-operative Group, the individual members elected by and from The Co-operative Group's seven regions to stand as directors (unless employees within the last five years) should be defined as independent, while those appointed directors representing independent society members of The Co-operative Group could not be so categorised in the co-operative context. This is because the latter represent significant stakeholders with material business relationships with the Banking Group and Bank.

The Board believes it has sufficient independent representation having seven independent non-executive directors (excluding the Chair). There are six external independent professional non-executive directors: Rodney Baker-Bates, David Davies, Peter Harvey, Bob Newton, Anne Gunther and Merlyn Lowther. Len Wardle has been elected by and from the members of The Co-operative Group and the Board has determined him to be independent.

Ben Reid represents independent society members of The Co-operative Group. Peter Marks and Martyn Wates hold executive appointments in The Co-operative Group (Peter Marks is the Group Chief Executive and Martyn Wates is the Deputy Group Chief Executive). Duncan Bowdler is an employee of The Co-operative Group. Paul Hewitt is an external non-executive director and was, until 28 July 2007, Deputy Chief Executive of Co-operative Group. Barry Tootell is the Acting Chief Executive of the Bank. These directors cannot therefore be considered to

David Davies and Rodney Baker-Bates are the Deputy Chairs and together fulfil the role of a senior independent director.

All the non-executives have considerable experience and make valuable contributions to the operation of the Bank. The non-executive directors constructively challenge and help develop proposals on strategy and bring strong, independent judgment, knowledge and experience to the Board's deliberations. The non-executive directors are of sufficient calibre and number that their views carry significant weight in the Board's decision making.

Appointment and reappointment of directors

The directors that serve on the Banking Group Board also sit on the Bank Board to provide common leadership of the financial services business. Appointments to the Banking Group Board are made by The Co-operative Group Board. For the recruitment of external non-executive directors, external recruitment consultants are retained.

All non-executive directors are eligible for re-appointment at the end of each term of office. The Co-operative Group Board, being party to agreements with the independent professional non-executive directors for services to the Banking Group and its subsidiaries, including the Bank, may resolve to re-appoint at or before the date their contracts expire for a further three year term. It is the normal policy of the Board not to allow an independent professional nonexecutive director to serve for more than nine years in aggregate.

Under the Articles of Association, one third of the Board is required to retire by rotation at the conclusion of the Annual General Meeting (AGM). In accordance with the Articles of Association, therefore, three directors retire by rotation, Paul Flowers, Peter Marks and Paul Hewitt and all offer themselves for re-election at the 2012 AGM. Two directors have been appointed since the conclusion of the last AGM on 12 May 2011 (Anne Gunther and Merlyn Lowther) which makes them eligible for re-appointment at the 2012 AGM and both offer themselves for re-election at the 2012 AGM.

At its meeting on 21 April 2010, The Co-operative Group Board noted the Walker Review recommendations that the Chair should stand for re-election every year. The Banking Group and its subsidiaries including the Bank, considered that this

Report of the Board of Directors continued

course of action was more relevant to organisations where there are a number of shareholders, who had less direct influence on the process of selecting candidates for the Chair. For the Bank, the shareholders are the Banking Group and The Co-operative Group which directly controls the process of appointment. The Chair of the Bank is also the Chair of the Banking Group. As the Chair's performance is evaluated annually, The Co-operative Group Board will be asked to reconfirm the Chair's appointment annually. The Chair still stands for re-election by rotation every three years.

The notice of the AGM can be found on page 124. All directors due for re-election continue to demonstrate commitment to their roles (see schedule of attendance on page 14).

Changes to the Board

The directors of the Bank during the financial year are listed below. They were in office for the full period unless otherwise indicated:

Non-executive directors	Date of appointment	Date of resignation
Paul Flowers (Chair)		
Rodney Baker-Bates		
Duncan Bowdler		
David Davies		
Anne Gunther	6 September 2011	
Peter Harvey		
Paul Hewitt		
Chris Jones		31 August 2011
Stephen Kingsley		16 June 2011
Peter Marks		
Merlyn Lowther	7 September 2011	
Bob Newton		
Ben Reid		
Steve Watts		8 July 2011
Len Wardle		
Martyn Wates		
Piers Williamson		8 September 2011
Executive directors		
Neville Richardson (Chief Executive)		22 July 2011
Rod Bulmer		16 June 2011
Tim Franklin		16 June 2011
Phil Lee		16 June 2011
Barry Tootell (Acting Chief Executive)		

Board diversity

The Bank, as part of the Banking Group, welcomes diversity and actively promotes a policy and practice of equality of opportunity in employment for all colleagues, regardless of age, disability, ethnicity, gender, religion or belief, or sexual orientation.

Of the 13 non-executive directors of the Bank two of these are women. Anne Gunther and Merlyn Lowther were appointed to its Board in 2011 and women now represent 15% of the Board. Any further appointment of directors, will take into consideration the Board's policy on diversity in light of Lord Davies' independent review into Women on Boards and its recommended minimum percentages of women on Boards.

Role and responsibilities of the Board

The Board is responsible for the long term success of the Bank within a framework of controls which enables risk to be assessed and managed. It is responsible for setting strategy, maintaining the policy and decision making framework in which this strategy is implemented, ensuring that the necessary financial and human resources are in place to meet strategic aims, monitoring performance against key financial and non-financial indicators, overseeing the system of risk management and for setting values and standards in governance matters.

The responsibility of the Board is to direct the business of the Bank and in particular to:

- ensure that the Bank's affairs are conducted and managed in accordance with its Articles of Association, the best interests of its stakeholders and co-operative values and principles;
- agree objectives, policies and strategies, and monitor the performance of executive management;
- approve the annual budget and business plan:
- approve the annual report, financial statements and dividends;
- monitor, utilising various committees, the key significant risks facing the Bank;
- establish Board committees and agree their terms of reference; and
- approve the delegated financial authorities.

The role of the Chair

The Chair is a non-executive director and leads the Board in the determination of its strategy and in the achievement of its objectives. The Chair is responsible for organising the business of the Board, ensuring its effectiveness and setting its agenda. The Chair has no involvement in the running of the day to day business of the Bank. The Chair facilitates the effective contribution of directors, constructive relations between the executive and non-executive directors, ensures directors receive accurate, timely and clear information and ensures that there is effective communication with members. During 2011 the Chair undertook one to one discussions with all directors regarding the performance of the Board. There are two Deputy Chairs who support the Chair.

The division of responsibilities between the Chair and the Chief Executive is clearly defined and has been approved by the Board.

The current Chair is Paul Flowers and the two Deputy Chairs are David Davies and Rodney Baker-Bates. Details of the Chair's and Deputy Chairs' professional commitments are included in the biographies on page 10. The Board is satisfied that these responsibilities do not interfere with the performance of the Chair or Deputy Chairs' duties for the Bank.

The Secretary to the Board

The Secretary is professionally qualified and is responsible for advising the Board through the Chair on all governance matters. The directors have access to the advice and services of the Secretary. The Articles of Association and the schedule of matters reserved to the Board for decision provide that the appointment and removal of the Secretary is a matter for the full Board.

The role of the Chief Executive and the Executive

The Chief Executive has direct charge of the Bank on a day to day basis and is accountable to the Board for the financial and operational performance of the Bank.

It is the responsibility of the Executive to implement the strategic objectives as agreed by the Board. The Executive, under the leadership of the Chief Executive, is responsible for the management of the Bank.

How the Board operates

Meetings

The Board meets on a monthly basis and it met 11 times in 2011. There were also two strategy meetings, attended by senior executives, devoted to consideration of performance and longer term planning. The Board is scheduled to meet for 11 Board meetings and to hold two strategy meetings in 2012. In addition, the Board holds private sessions in the absence of executive directors, if appropriate. Details of attendance at Board meetings are noted on page 14.

Board and committee papers are distributed at least eight days in advance of meetings. This provides the opportunity for directors to prepare fully for meetings. The minutes of all meetings are circulated to all directors. As well as circulating papers as hard copies, the Board has access to its own secure website where papers are available together with additional supporting material (and which acts as a library of papers for directors).

In September 2011, The Co-operative Group Board approved the roll out of a secure software application supported via iPad technology to provide access to Board papers. The principal aims are to increase security and to provide a more environmentally friendly solution to the distribution of papers by eliminating hard copy production as far as possible. The intention is to eliminate hard copy distribution by the summer of 2012.

Board committees

With the agreement of the Financial Services Authority (FSA), the Board has delegated certain responsibilities to a number of committees, all of which have written terms of reference covering the authority delegated to it by the Board. Each of these committees has a role in ensuring the effectiveness of the Bank and its subsidiaries. A provision of the Code is that the terms of reference for the Remuneration and Appointments Committee and the Audit Committee are available on the Bank's website, and the Bank complies with this.

In 2011, the continuing review of the Banking Group Risk Management Framework progressed. The review made a number of recommendations in light of new regulations and evolving best practice, and these were implemented during 2011 alongside a detailed review of the terms of reference and composition of the committees. As a result of the review, the terms of reference for the key committees, being the Audit Committee, the Exposures Committee and the Risk Committee have been revised.

The revised terms of reference incorporate recommendations contained in the Walker Report, Solvency II, the 2010 external Board Effectiveness Review and the review undertaken by external consultants. All committees meet as a joint committee for the Banking Group, Co-operative Insurance Society Limited (CIS), CIS General Insurance Limited (CISGIL) and the Bank. The terms of reference for all the committees can be found at http://www.co-operativebankinggroup.co.uk.

Remuneration and Appointments Committee

Information on the Remuneration and Appointments Committee is found on page 19.

Audit Committee

The committee comprises five members and is chaired by Paul Hewitt. During the year the committee comprised:

(Chair)
(appointed 23 November 2011)
(appointed 23 November 2011)
(resigned 18 August 2011)
(resigned 8 September 2011)

Paul Hewitt and Ben Reid bring recent and relevant financial experience and in addition Ben Reid is Chair of The Co-operative Group's Audit and Risk Committee. Duncan Bowdler is also a member of The Co-operative Group's Audit and Risk Committee. Bob Newton and Peter Harvey are considered to be independent members of the committee. The committee's terms of reference and constitution were approved on 13 July 2011. Chris Jones stood down from the committee when he ceased to be a director.

The changes to the committee were to address the lack of independence on the committee and that it did not comply with its terms of reference. The make up of the committee will again be revisited in May 2012. The committee met four times during the financial year. The main responsibilities of the committee are set out in its terms of reference. In the year the committee reviewed its own effectiveness.

Risk Committee

The committee comprises five members and is chaired by Peter Harvey. During the year the committee comprised:

Peter Harvey	(Chair) (appointed 8 September 2011)
David Davies	
Paul Hewitt	
Merlyn Lowther	(appointed 8 September 2011)
Bob Newton	(appointed 8 September 2011)
Piers Williamson	(Chair) (resigned 8 September 2011)
Stephen Kingsley	(resigned 16 June 2011)
Barry Tootell	(resigned 22 July 2011)
Mike Fairbairn	(Chief Risk Officer) (resigned 8 September 2011)

Piers Williamson and Stephen Kingsley stood down from the committee following their resignation as Board members. The committee's terms of reference were approved on 13 July 2011. These stated that the members of the committee should be non-executives directors only, with the majority of these members being independent non-executive directors. For this reason Barry Tootell resigned from the committee in July and Mike Fairbairn resigned in September.

The committee met seven times during the financial year. The main responsibilities of the committee are set out in the terms of reference.

Report of the Board of Directors continued

Exposures Committee

The committee comprises four members and is chaired by Peter Harvey. During the year the committee comprised:

Peter Harvey (Chair) Anne Gunther (appointed 8 September 2011) **Duncan Bowdler** (appointed 8 September 2011) Len Wardle (appointed 8 September 2011) Kevin Blake (resigned 8 September 2011) Neville Richardson (resigned 22 July 2011) Steve Watts (resigned 8 July 2011) Piers Williamson (resigned 8 September 2011)

The committee met eight times during the financial year. The committee's terms of reference were approved on 13 July 2011. These stated that the members of the committee should be non-executive directors only with the majority of these members being independent non-executive directors. For this reason Kevin Blake resigned from the committee in September. The main responsibilities of the committee are set out in the terms of reference. Steve Watts and Piers Williamson stood down from the committee following their resignations as Board members.

During the year the committee reviewed its own effectiveness.

Transformation Committee

The committee comprises three members and is chaired by Bob Newton. During the year the committee comprised:

Bob Newton	(Chair) (appointed 16 June 2011)
Stephen Kingsley	(resigned 16 June 2011)
Paul Flowers	(appointed 14 July 2011)
Paul Hewitt	

The main responsibilities of the committee are set out in its terms of reference. It looks at integration issues across the Bank and Banking Group.

Stephen Kingsley stood down from the committee at the same time he stood down as a Board director.

Attendance

The following table sets out the frequency of, and attendance at, the Board and Board committee meetings for the period under review by directors:

Directors	Bank Board	Audit	Risk	Exposures	Transformation	Remuneration
Number of meetings held	11	4	7	8	11	5
Paul Flowers	11 (11)				2 (3)	5 (5)
Rodney Baker-Bates	10 (11)					5 (5)
Duncan Bowdler	11 (11)			2 (2)		
David Davies	9 (11)		5 (7)			5 (5)
Anne Gunther	3 (3)			2 (2)		
Peter Harvey	10 (11)		2 (2)	7 (8)		
Paul Hewitt	11 (11)	4 (4)	6 (7)		11 (11)	
Stephen Kingsley	6 (6)		2 (3)		7 (7)	
Merlyn Lowther	1 (2)		1 (1)			
Peter Marks	8 (11)					5 (5)
Bob Newton	11 (11)	4 (4)	1 (2)		9 (11)	
Ben Reid	9 (11)	4 (4)				
Barry Tootell	11 (11)		3 (4)			
Len Wardle	11 (11)			2 (2)		5 (5)
Martyn Wates	10 (11)	3 (3)				
Former directors						
Rod Bulmer	6 (6)					
Tim Franklin	6 (6)					
Chris Jones	8 (8)	3 (4)				
Phil Lee	6 (6)					
Neville Richardson	7 (7)			5 (5)		
Steve Watts	7 (7)			4 (4)		
Piers Williamson	7 (7)		5 (5)	6 (6)		

Professional advice and Board support

A number of external consultants provide professional advice to the Board. There is an agreed procedure by which directors may take independent professional advice at the Bank's expense in furtherance of their duties.

Insurance and indemnities

The Bank maintains appropriate directors' and officers' liability insurance cover. through the ultimate parent organisation, in respect of legal action against its directors and officers. This constitutes a 'qualifying third party indemnity provision' for the purposes of Section 236 of the Companies Act 2006 and applied to all of the Bank's directors serving during the financial year. The insurance cover was reviewed and renewed in 2010. The cover will again be renewed in 2012.

In terms of Section 236 of the Companies Act 2006 a 'qualifying pension scheme indemnity provision' was also in place for one or more of the directors who served during the financial year.

Directors and their interests

No director had a material interest at any time during the year in any contract of significance, other than a service contract, with the Bank or any of its subsidiary undertakings.

No director had a beneficial interest in any shares in the Bank or the Banking Group or in the Co-operative Group Limited, which is the ultimate holding organisation, or in any other entity controlled by the Co-operative Group Limited.

Conflicts of interests

The Board has considered the current external appointments of all directors which may give rise to a situational conflict and has authorised potential conflicts where appropriate.

Effectiveness

Induction and continuing professional development

In line with recommendations of the Code, the Bank has reviewed the induction programme for new directors and all newly elected directors are required to undertake a structured induction programme. This is designed to include key corporate governance and business information, including briefing sessions with the Executive on the strategy and performance of key business areas.

A Board learning and development policy is in place to support all non-executive directors. Following meetings with non-executive directors to review individual and collective training and development, thematic learning and development sessions for the whole Board have taken place.

Specific training has been organised for Board committees including the Remuneration and Appointments Committee, the Audit Committee, the Exposures Committee and the Risk Committee. In addition, one to one support has been provided to a number of directors.

In addition, directors receive information on the operation of the Board's committees, including the powers delegated to the committees, corporate governance practices and procedures and the powers reserved to the Executive together with the latest financial information. This is supplemented by meetings with key senior executives where appropriate, together with in depth training and round table sessions on specific areas.

The directors' website has been used as a resource bank to enable directors to access, revisit and review copies of presentations and materials from the more formal development sessions.

Individual learning and development records were issued to all non-executive directors summarising activity through the year and individual learning plans are in progress with a view to constructing the framework for individual and collective learning and development going forwards.

The Chair addresses the development needs of the Board as a whole, with a view to developing its effectiveness. He ensures that the directors' professional development needs are identified and that they are adequately informed about the Group and their responsibilities as directors.

Performance evaluation

The Code requires the Board to undertake a formal and rigorous annual evaluation of its own performance and that of its committees and individual directors.

Further to the external evaluation of the Board's effectiveness at the end of 2010, the only significant recommendation (in respect of the size and composition of the Board) was addressed during the year as described above.

A three year programme of assessment of Board and committee effectiveness exercises and peer evaluations was introduced during last year. In 2011, one third of the Board was the subject of a peer evaluation selected on length of service from first appointment to the Board, subject to having served at least one vear on the Board as at 30 June.

An internal self assessment of Board effectiveness is also underway.

Each year, the Board committees undergo internal self assessment of their effectiveness. In this year both Audit and Exposures Committees carried out self assessment exercises. The other committees did not carry out assessments as they believed that given the high number of changes to the committees it was not appropriate until the new members had an opportunity to integrate into the committees.

Statutory disclosures information

Relations with members

The Bank has two equity shareholders. The majority of the shares are held by the Banking Group, which is a wholly owned subsidiary of The Co-operative Group. The remainder of the shares are held directly by The Co-operative Group.

The Bank has approximately 2,500 preference shareholders. The preference shares are fixed interest shares and are non-cumulative and irredeemable. The preference shareholders are entitled to attend the AGM, but the shares only hold speaking or voting rights if and when the dividend has been in arrears for six months or more, or if a resolution is to be proposed at general meeting abrogating or varying any of their respective rights or privileges, or for the winding up of the Bank or other return of capital and then only on such resolution.

Principal activities

The Bank and its subsidiary undertakings provide an extensive range of banking and financial services in the UK.

Results and dividends

Profit before taxation and significant items was £197.5m (2010: £108.7m). Profit attributable to the ordinary shareholders amounted to £48.0m (2010: £36.4m). No dividends were paid during 2011. The directors recommend that no final dividend is paid in respect of 2011.

Report of the Board of Directors continued

Risk management

The Board and executive management have the primary responsibility for identifying the key business risks facing the organisation. The risk management framework, which is approved and reviewed by the Bank Board, outlines the approach taken to ensure a robust risk management process is in place throughout the organisation and is regularly reviewed. The framework includes an ongoing process for identifying, evaluating and managing significant risks and has been in place for the year under review and up to the date of the approval of the annual financial statements.

An independent review of the Bank risk management framework was completed in 2011. The objective of the review was to consider whether the current framework is capable of enabling good risk governance and to make recommendations for improvement. The review considered the current framework to be suitable for an organisation of Bank's size and complexity. Areas which could be improved are being acted upon by the Executive.

The Board accepts that there are risks which could impact on the achievement of the Bank's business objectives, but endeavours through positive risk management strategies as outlined in the risk management framework, to manage these in a manner that optimises returns within the confines of the business' risk appetite, whilst protecting members' interests and reserves.

Further information on the Bank's approach to risk management is given on page 46 and details of KPIs are on page 2.

Internal control

Internal controls are the activities undertaken by management, the Board and other parties to enhance risk management and increase the probability that established objectives and goals will be achieved. The Board has overall responsibility for the Bank's system of internal controls which aim to ensure effective and efficient operations, quality of internal and external reporting, safeguarding of the Bank's assets and compliance with laws and regulations. Whilst recognising that the system is designed to manage rather than eliminate risk of failure to achieve business objectives, it can only provide reasonable and not absolute assurance against material misstatement or loss.

The Bank's internal control framework is designed to create an attitude of taking acceptable business risk within clearly defined limits. The control environment includes:

- an organisational governance structure with clear lines of responsibility, delegation of authority and reporting requirements;
- checks and balances to ensure that business processes operate efficiently, reducing the risk posed to the organisation whilst adhering to organisational values:
- comprehensive systems of financial reporting. The annual budget and long term plan of the Bank and of each division are reviewed and approved by the Board;
- a code of business conduct covering relations with customers, shareholders, colleagues, suppliers, community and competitors;
- a whistleblowing policy and procedure which provides for any employee to report, in confidence, suspected serious malpractice;
- internal audit, risk and compliance functions that review the system of internal control; and
- a control self assessment process designed to fully support the annual review
 of the effectiveness of the system of internal control and enable continual
 monitoring and improvement of the internal control environment.

External audit

The current auditor is KPMG Audit Plc. In line with good corporate governance a tender process took place during 2011 to consider the appointment of the external auditors to The Co-operative Group. A resolution to appoint and authorise the directors to fix their remuneration was proposed and approved at the Annual General Meeting (AGM) on 12 May 2011 and was also approved by the AGM of The Co-operative Group on 21 May 2011.

The Audit Committee has put in place safeguards to ensure that the independence of the audit is not compromised including a policy on the conduct of non-audit services from the external auditors. The external auditors are permitted to provide some non-audit services that are not, and are not perceived to be, in conflict with their independence. The Audit Committee receives at each meeting a report providing details of assignments (and related financial fees) carried out by the external auditors of the Bank in addition to their statutory audit work. The pre-approval of the committee is required for services above certain thresholds determined by the committee.

In addition, the following assignments are prohibited from being performed by the external auditors:

- bookkeeping or other services related to the accounting records or financial statements:
- financial information systems design and implementation;
- · actuarial services;
- internal audit outsourcing services;
- management functions or human resources; and
- any other services that the Audit Committee may determine.

The performance of the external auditors is regularly monitored to ensure it meets the needs of the Bank and the results are reported to the committee.

Internal audit

The internal audit function is an independent function which reports to the Audit Committee. Its primary role is to provide assurance over the adequacy and effectiveness of the internal control framework including risk management practices.

Internal audit seeks to discharge the responsibilities set down in its charter by completing a risk based internal audit plan, reviewing the processes which ensure that the key business risks are effectively managed by key controls.

Internal audit also acts as a source of constructive advice and best practice, assisting senior management with its responsibility to improve the processes by which business risks are identified and managed.

Internal audit reports are submitted to, and significant issues discussed at, the Audit Committee. Full details of the operation of this committee can be found on page 13.

Going concern

The financial statements are prepared on a going concern basis as the directors are satisfied that the Group and parent company have the resources to continue in business for the foreseeable future. In making this assessment, the directors have considered a wide range of information relating to present and future conditions including future projections of profitability, cash flows and capital resources. Further information relevant to the assessment is provided within the basis of preparation section of the financial statements (page 38).

Information and communication

Communication takes place with all key stakeholders through a variety of media including the sustainability report produced by The Co-operative Group. Employees receive and are provided with information on strategy and objectives through their reporting lines and a formal performance measurement process. Newsletters, bulletins and electronic media communicate other information as well as the Company's intranet.

Employees

The Bank and its subsidiary undertakings employed 8,528 persons at 31 December 2011 (2010: 8.583). The weekly average number of people was 8,364 (2010: 8,746) and their aggregate remuneration, before significant items, for the year was £210.8m (2010: £221.0m). The Bank, as part of the Banking Group operates learning and development initiatives across the organisation as part of a continuous improvement programme, supporting its approach to performance management, personal development, talent and succession planning.

The Banking Group, in Bank orientated activities, continues to consult and communicate with colleagues on customer, organisation and business performance issues, using colleague publications, surveys, conferences, videos and both informal and formal consultations with Unite and other unions, which continue to be fully involved where organisational change and other issues affect colleagues.

Employees with disabilities

The Bank, as part of the Banking Group, is a member of the following diversity advisory bodies:

- Employers Forum on Disability;
- Employers Forum on Age;
- Race for Opportunity;
- · Opportunity Now; and
- Stonewall.

The Banking Group is a holder of the 'Positive about Disabled People' symbol, a recognition given by Jobcentre Plus to employers who have agreed to meet five commitments regarding the recruitment, employment, retention and career development of disabled people. The Banking Group has policies and processes in place to support disabled colleagues in the workplace.

Further guidance and information for colleagues on disability issues is available through human resources and on the colleagues' intranet. The Banking Group recognises its responsibility for making reasonable adjustments for new colleagues with disabilities and for those individuals who develop disabilities whilst in employment.

Employees' wellbeing

The Bank, as part of the Banking Group, recognises that health and wellbeing at work play a vital part in delivering its core values. Wellbeing services include an occupational health scheme, physiotherapy services and seasonal wellbeing initiatives such as discounted allergy testing and flu jabs.

In addition to this, colleagues and their immediate families have access to an external employee assistance programme, providing free expert advice on a wide range of medical, legal and family issues.

Corporate responsibility

The Bank's corporate responsibility activities are outlined on pages 11 and 12. In addition, The Co-operative Group Sustainability Report, which will be published in the first half of 2012, describes how the Co-operative Group Limited, the Banking Group, the Bank, Co-operative Insurance Society Limited and CIS General Insurance Limited manage their social, ethical and environmental impacts.

Political and charitable donations

During the year, CFS Management Services Limited, a subsidiary of the Banking Group, made donations (which exclude affinity card payments) of £0.3m to charitable organisations on behalf of the Bank (2010: £0.4m). A further £0.5m of donations were made directly by the Bank with £0.4m allocated through the Britannia Foundation. Additional costs associated with the Bank's community involvement are provided within The Co-operative Group Sustainability Report. It is the Bank's policy that no donations are made for political purposes.

At 31 December 2011 the Bank had 342 branches (2010: 342 branches).

Market value of land and buildings

Freehold and leasehold land and buildings held by the Bank are held on the balance sheet at historic cost and have not been revalued. These have been internally assessed at a market value of £75.2m which is £14.5m higher than carrying value.

Supplier payment policy and practice

With the exception of the Britannia business area detailed below, the Bank does not pay suppliers directly as all supplies and services are sourced through CFS Management Services Limited, a fellow subsidiary of the Banking Group. A management charge is payable to cover the cost of these services.

Suppliers are paid directly by the former Britannia business where the policy is to agree the terms of payment at the start of trading with the supplier, ensure that suppliers are aware of the terms of payment and pay in accordance with its contractual and other obligations. Creditor days at 31 December 2011 were 27 (2010: 16 days).

Post balance sheet events

The directors consider that there has been no event since the year end that has had a significant effect on the Bank's position or that of any of its connected undertakings.

Significant contracts

The Bank maintains a number of significant contracts with IT providers, cash handling entities and mailing service companies as well as with the Banking Group company, CFS Management Services Limited which provides facilities and services for all Banking Group companies.

Report of the Board of Directors continued

Statement of directors' responsibilities in respect of the report of the Board of Directors and the Annual Report and Financial statements

The directors are responsible for preparing the annual report and financial statements and the Group and parent company financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare Group and parent company financial statements for each financial year. Under that law they are required to prepare the Group financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and applicable law and have elected to prepare the parent company financial statements on the same basis.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and parent company and of their profit or loss for that period. In preparing each of the Group and parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with IFRS as adopted by the EU: and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the parent company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the directors are also responsible for preparing a remuneration report, a directors' report and a corporate governance report that comply with that law and those regulations.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Financial statements

So far as the directors are aware, there is no relevant audit information of which the Bank's auditors are unaware, and the directors have taken all steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Bank's auditors are aware of that information.

Auditors

In accordance with Section 489 of the Companies Act 2006, resolutions for the appointment and remuneration of the auditors are proposed at the next AGM and set out on page 124. Further detail in relation to the appointment of the auditors is set out on page 16.

By Order of the Board

Moira Lees, Group Secretary

28 March 2012

Remuneration report

The Co-operative Bank (the Bank), in the interests of good governance uses as a guideline for its remuneration disclosure the requirements applicable to listed companies, as set out in schedule 8 of the Large and Medium Sized Companies and Groups (Accounts and Reports) Regulations 2008 (incorporated into the Companies Act 2006). This remuneration report will be subject to an advisory vote by shareholders of the Company at its Annual General Meeting to be held on 12 May 2012.

This report provides details of the remuneration of both the senior executives (including executive directors and executive committee members) and the non-executive directors.

The key considerations this year are:

- continuation of extensive dialogue with the Financial Services Authority (FSA) in connection with our current and future remuneration practices. All remuneration arrangements and practices in place are compliant with the FSA Remuneration Code (the Code); and
- the introduction of a new long term incentive plan (LTIP) with effect from 1 January 2011, based on the wider performance of The Co-operative Group and which replaces the previous LTIP, which was based on performance of The Co-operative Banking Group only.

During 2011 there was a reorganisation of the Board to increase its levels of both independence and diversity. The number of directors on the Board was reduced from 20 to a total of 15. As part of the reorganisation Rod Bulmer, Tim Franklin and Phil Lee stood down as directors. These senior executives remained on the executive committee and attend Board meetings as required.

These considerations are covered in detail in the body of the report.

Introduction

The remuneration report is presented by the Board and contains the following information:

- a description of the role of The Co-operative Banking Group Remuneration and Appointments Committee (the committee), in governing senior executive remuneration in the Bank;
- a summary of the Bank's remuneration policy, including a statement of policy on senior executives and non-executive directors; and
- details of the terms of the service contracts and the remuneration of the senior executives and non-executive directors for the 2011 financial year.

The Remuneration and Appointments Committee meets as a combined committee for The Co-operative Banking Group and the Bank. Its role is described below.

Role of the committee

The committee's terms of reference were last revised and approved by the Bank's Board on 12 May 2010.

The committee's principal terms of reference, with regard to the Bank, are to:

- determine the policy on remuneration and other main terms and conditions of employment of senior executives;
- oversee contractual arrangements for the senior executives and approve the principal terms and conditions of employment of such senior executives;
- review remuneration using comparisons against the agreed market policy for the senior executives;
- make recommendations on senior executive appointments and the terms and conditions relating to these;
- review and agree the remuneration policy and outcomes in respect of all designated code staff under the FSA Remuneration Code;

- approve any relevant incentive schemes, ensure that they are in line with current market practice and the FSA Remuneration Code, and authorise payments under any incentive schemes in line with their rules; and
- receive, review and decide on issues raised in relation to retirement benefit schemes across the Bank and advise the Board on these issues as appropriate.

The Co-operative Group Remuneration and Appointments Committee governs remuneration in respect of the role of the Bank's Chief Executive.

The terms of reference for the committee are available on The Co-operative Banking Group website.

Members of the committee during 2011 were Rodney Baker-Bates (Deputy Chair Co-operative Banking Group) as Chair, together with Len Wardle (Co-operative Group Chair), Peter Marks (Co-operative Group Chief Executive), Paul Flowers (Co-operative Banking Group Chair) and David Davies (Deputy Chair, Co-operative Banking Group). The Board believes that all members of the committee are independent for the purpose of reviewing remuneration matters.

The Bank's Chief Executive and the HR Director are also invited to attend meetings of the committee except when their own remuneration is being discussed. The Chief Risk Officer provides an annual report to the committee and advice on any specific risk adjustments in relation to remuneration issues as required by the FSA. Other individuals were invited to attend for specific agenda items when necessary. The committee worked with The Co-operative Group Remuneration and Appointments Committee to ensure consistency, where appropriate, with arrangements across the wider Co-operative Group.

The committee members are all non-executive directors. They have no personal financial interests in the committee's decisions, and they have no involvement in the day to day management of the Bank.

The committee met five times in the year to 31 December 2011.

To ensure that it receives independent advice on remuneration matters, the committee retained New Bridge Street (an Aon Hewitt company) as its advisers during 2011. New Bridge Street has supplied survey data and advised on market trends and other general remuneration issues. Other than specialist advice in relation to remuneration matters, New Bridge Street does not provide other services to the Bank. Addleshaw Goddard was also retained to provide legal advice to the committee with respect to senior executives' service contracts.

Policy on directors' remuneration

In determining the remuneration policy for senior executives, the committee has considered a number of factors including:

- the importance of attracting, retaining and motivating senior executives of the appropriate calibre to further the success of the Bank;
- the linking of reward to business and individual performance and the application of co-operative values, which include a strong belief in responsible stewardship of all the Bank's resources and prudent management of risk;
- the alignment of the interests of senior executives with those of the wider Group and its members;
- pay practices and conditions of all employees throughout the Bank;
- the motivational impact of incentive arrangements to ensure that they are effective and do not adversely impact matters such as governance, environmental and social issues;
- in conjunction with the Group Remuneration and Appointments Committee ensuring that pay practices are coherent with those in The Co-operative Group as a whole: and
- ensuring appropriate compliance with the FSA Remuneration Code.

Remuneration report continued

The current policy is to pay senior executives base salaries around the market median, when compared with other organisations of comparable size and complexity in relevant business sectors. The committee supports the principle of performance related pay and operates an annual incentive plan (AIP) and a long term incentive plan (LTIP) which, together, mean that over 50% of the remuneration package is performance related. The committee does not consider it appropriate to adhere to the size of variable pay typically available in public limited companies (PLCs) and accordingly the amounts payable under these plans are lower than in comparable PLCs. Together, the AIP and LTIP represent total variable remuneration, with awards under the LTIP comprising the deferred element of variable remuneration as required by the FSA.

The committee considers that a successful remuneration policy needs to be sufficiently flexible to take account of future changes in the Bank's business environment, and in market remuneration practice. Accordingly, the committee keeps the Bank's remuneration policy under review.

Whilst the business climate in financial services remains challenging, the Bank has remained resilient through the period, having a robust model based on sound co-operative principles (which avoid undue risk taking or reliance on a single business stream). In particular, the absence of highly 'geared' incentive plans (when compared with some practices in the PLC sector) is consistent with prudent risk management.

The committee notes that the remuneration practices already adopted at the Bank, in addition to being good business practice, have been endorsed by the FSA through its Remuneration Code. However, the committee will continue to strive for further improvements in its executive remuneration arrangements as best practice evolves.

The main components of senior executive remuneration are summarised in the table below:

Element	Remuneration objective	Details
Base salary	To provide a competitive base salary to attract and retain talented leaders	Reviewed annually. Targeted around market median
Benefits	To provide executive benefits in line with normal market practice	Car or car allowance, fuel cards, phone and life assurance
Pension	To aid retention and reward long service, whilst controlling the Bank's liabilities	The Co-operative Group provides a Defined Benefit pension plan (on the same career average basis as other employees) or an equivalent cash pension allowance
Annual incentive plan	To ensure pay is linked to the Bank's financial and strategic business objectives and co-operative values	Up to 60% of salary based on annual Bank's financial and non-financial targets
Long term incentive plan	To reward senior executives for delivery of superior long term performance and to retain talent	Awards up to 100% of base salary for the CEO and 75% for other senior executives based on stretching three year Co-operative Group financial and non-financial targets

1. Base salary

It is the committee's policy to ensure that the base salary for each senior executive is appropriate and competitive, for the responsibilities involved and experience required. Base salaries for senior executives are reviewed by the committee, usually annually, having regard to competitive market practice, business and individual performance during the financial year and salary levels throughout the Company. Comparative pay data is used carefully, recognising the potential for an upward ratchet in remuneration caused by over reliance on such data. Any increases are normally effective from the start of the financial year. Base salary is the only element of remuneration that is pensionable. Salaries received by senior executives in respect of 2011 are set out in table 1 and 1a.

2. Annual incentive plan (AIP)

Each senior executive is eligible to participate in the AIP.

The committee reviews and sets incentive targets and levels of eligibility annually.

The design and terms of the 2011 plan are as follows:

- target payment levels for all of the executive team are 35% of base salary with a maximum opportunity of 60%; and
- based on a mixture of financial and non-financial measures derived from the corporate balanced scorecard.

The balanced scorecard approach represents best practice as set out in the FSA Remuneration Code and is aligned to the goals of the business.

The measures and weightings in the balanced scorecard are as set out below:

- financial (35%): operating profit;
- process (35%): cost v budget;
- customer (15%): customer advocacy; and
- people (15%): colleague engagement score.

All balanced scorecard performance measures and results are audited by externally appointed auditors.

The Chief Executive's AIP is based 2/3rds on the above Bank's targets; the balance is based on targets for the wider Co-operative Group: Group profit (70%), Group corporate responsibility (10%), Group colleague engagement (10%) and Group customer satisfaction (10%).

In addition to achieving performance against the balanced scorecard measures (including the Chief Executive's Group AIP element), four further underpins must be achieved before any payment is made. These are as follows:

- 1. A threshold profit level must be achieved before any element becomes payable.
- 2. The Bank must stay within its required liquidity range as agreed by The Co-operative Banking Group Board.
- 3. The Bank must stay above its required minimum capital level as agreed by The Co-operative Banking Group Board.
- 4. There should be no material breaches of risk in accordance with the risk appetite as agreed by The Co-operative Banking Group Board. The Chief Risk Officer is required to provide an annual report to the committee before bonus payments are signed off.

Additional deferral is also required by the FSA Code: 50% of any AIP earned is paid in March or April following the year end, while the remaining 50% is deferred for an additional six months subject to specified conditions and clawback.

Similar performance conditions will apply for the 2012 AIP.

For the 2011 AIP, bonus on average resulted in payments of 38.1% of base salary, representing slightly above target balanced scorecard performance. For those senior executives new in role, payments are lower to represent previous roles held. In accordance with the FSA Remuneration Code for those senior executives that are not awarded 2012-14 LTIP, deferral of 60% of the AIP bonus is required, fully subject to performance conditions and clawback. Payment, if any, will be 50% in years 3 and 3.5. Of the AIP bonus payments due in April, 50% will be deferred for six months subject to specified conditions and clawback. Details of awards to senior executives are set out in table 1 and 1a.

3. Long term incentive plan (LTIP)

A new LTIP representing deferred remuneration under the FSA Remuneration Code was introduced with effect from 1 January 2011. The plan is designed to focus and align the leadership team with the long term strategy of The Co-operative Group, and aid the retention of talent. The plan measures cumulative performance over a three year period. The 2011 award will be measured over the three year period 2011 to 2013 with potential payment in 2014. It is intended that awards will be made annually thereafter.

The maximum award opportunity under the LTIP is 75% of base salary for senior executives and 100% of base salary for the Chief Executive. These awards represent the maximum amount payable in respect of each three year performance period. The actual amount of award vesting is subject to the achievement of the long term performance measures.

The performance measures are based on the performance of The Co-operative Group (inclusive of the Bank's performance) over a three year period as set out in the balanced scorecard, the measures being designed to ensure delivery of strategic targets. The specific measures for 2011 to 2013 are:

- Cumulative Co-operative Group profit, subject to also achieving a minimum level of average Return on Net Operating Assets (RONOA) (70%);
- Group corporate responsibility (10%);
- Group colleague engagement (10%); and
- Group customer satisfaction (10%).

All balanced scorecard performance measures and results are audited by externally appointed auditors.

Additionally, the financial and risk underpins applicable to the AIP also apply to the LTIP ie the four underpins must be met for any LTIP to become payable. These underpins are to provide appropriate risk adjustment and to be compliant with the FSA Remuneration Code.

Additional deferral is required by the FSA Code: at the point of vesting, 50% of any payment will be deferred for an additional six months subject to specified conditions and clawback (ie for 50% of the LTIP award the total deferral period from grant is 3.5 years).

The 2009-11 LTIP cycle was completed in January 2012. Performance was based on the Bank's shareholder profit, cost management, customer satisfaction and colleague engagement. Details of payment due under the 2009-11 plan cycles are set out in tables 1 and 1a (column performance related pay medium/ long term). These equate to 79% of the original grant reflecting maximum awards of 39% to 47%.

To summarise, senior executives' LTIP grants for 2010–12 and 2011–13 remain outstanding. Payments, if any, would be made in 2013 and 2014 respectively, with 50% of due awards retained for an additional six months subject to additional performance conditions, 2011 LTIP terms are still in the process of being agreed by the FSA, once terms of the plan are agreed, grants will be made.

4. Clawback and malus

With effect from the 2010 LTIP grant, and for AIP payments in respect of 2011 performance onwards, including any deferred element, a clawback provision will apply. This enables the committee to seek to recoup part or all of an annual incentive or LTIP payment in the exceptional events that it was based on misstated performance results or if a senior executive is dismissed for

The Bank also operates malus, ie a provision where the value of deferred remuneration (ie the element deferred for six months under the AIP and LTIP) can be adjusted downwards to take account of specified conditions.

5. Service agreements

It is the Bank's policy that the notice period in senior executives' service contracts should not exceed one year. Senior executives have consistent contracts that are terminable by up to one year's notice by the organisation and six month's notice by the individual. In the event of termination, the standard payment due to a senior executive is based on the value of one year's base salary and contractual benefits. (In (exceptional) circumstances such as a major re-organisation or merger, termination payments to executives leaving the Bank have been enhanced, but applying a formula that is no more generous than that applying to other Bank colleagues leaving the Group in the same circumstances.) The details of the termination payments made to senior executives leaving the Bank during 2011 are disclosed in tables 1 and 1a. The committee may make a discretionary award of bonus earned up to the date of termination of employment. Any such award would be subject to deferral in accordance with the FSA Remuneration Code.

All the Bank senior executives had similar contracts during 2011. The dates of existing contracts or dates of appointment are shown in table 1 and 1a.

Remuneration report continued

Senior executives' joining and leaving arrangements in 2011

- Neville Richardson resigned from the Board on 22 July 2011 and was paid his contractual remuneration until 31 December 2011
- Tim Franklin resigned from the Executive Committee on 30 November 2011 and was paid his contractual remuneration until 31 December 2011
- Karen Moir resigned from the Executive Committee on 30 September 2011
- James Mack was appointed to the Executive Committee as acting CFO on 1 August 2011
- Helen Taylor was appointed to the Executive Committee on 1 October 2011

In normal circumstances, it is the committee's policy to apply service contracts for any newly recruited senior executives in a similar form to the model that has been developed for existing senior executives.

Non-executive directorships

The committee has determined that, subject to the committee's approval, senior executives may accept one non-executive directorship, or similar, with an external organisation believing that this represents an important opportunity for professional development. Any fees received from such a role will normally be paid to the Bank, The Co-operative Banking Group or The Co-operative Group.

Phil Lee holds such a position; non-executive director within EG Solutions PLC.

6. Share option plans

As a co-operative, the Bank does not operate a share or share option plan.

7. Pensions

The financial services businesses participate in The Co-operative Group Pension (Average Career Earnings) Scheme (the PACE Scheme). However, following the merger with Britannia Building Society on 1 August 2009, colleagues who at that date were members of the Britannia Pension Scheme (the Britannia Scheme) continue in membership of the Britannia Scheme. From 1 August 2009, for the interim, only the defined contribution section of the Britannia Scheme is available to new colleagues of the financial services businesses.

The PACE Scheme, which is a registered occupational pension scheme, provides defined benefit (DB) pensions based on 1/60th of average pensionable earnings, re-valued for inflation for each year of pensionable service from 6 April 2006 (the date the PACE Scheme was implemented). Benefits accrued as at 5 April 2006, in respect of membership of the scheme preceding the PACE Scheme, continue to be linked to final pensionable salary at a member's date of leaving or retirement, whichever is earlier. Pensions are also payable to dependants on death and a lump sum is payable if death occurs in service.

The Britannia Scheme, which is also a registered occupational pension scheme, provides benefits under two sections:

- A defined benefit (DB) section (closed to new colleagues), which provides pensions based on an accrual of 1/80th, 1/60th or up to 1/30th for executives, of final pensionable salary for each year of pensionable service
- A defined contribution (DC) section (open to new colleagues) with an employer contribution rate of 4%, 6% or 8% depending on the level of member contribution.

Under both sections, pensions are also payable to dependants on death and a lump sum is payable if death occurs in service.

Members of the PACE Scheme currently contribute 6% of their pensionable salary whilst members of the Britannia Scheme contribute either 6% or 8% of their pensionable salary if they are in the DB section. The employer pays the balance of cost of providing DB benefits. Members of the Britannia Scheme DC section pay 2%, 3% or 4% of their pensionable salary. All members have the choice of making pension contributions by salary sacrifice.

Prior to the merger on 1 August 2009, Neville Richardson, Tim Franklin and Phil Lee had contractual arrangements under which they accrued pension benefits in an unfunded employer financed retirement scheme (EFRBS). The EFRBS is in place to provide pension benefits that exceed the lifetime allowance. Benefits up to the lifetime allowance will be provided from the Britannia Scheme. These contractual arrangements and those for Karen Moir were revised from 1 August 2009 and the rate of benefit aligned more closely to Group executive pension policy. These arrangements were further adjusted from 1 August 2011 so that the rate of future pension accrual made available under the Britannia Scheme was aligned to that provided by the PACE Scheme, with no further accrual in the EFBRS

In light of the pension tax changes applying to registered schemes from 6 April 2011, Group executive pension policy was revised. Where an executive may be impacted by the annual allowance or the lifetime allowance they have the facility of opting out of future pension accrual in favour of a pension allowance or opting for restricted pension accrual based on a capped salary of $\mathfrak{L}187,500$ and receiving a restricted pension allowance in lieu of pension provision based on salary above $\mathfrak{L}187,500$.

Where paid, the rate of pension allowance is based on the employer contribution rate to the PACE Scheme of currently 16.7% of pensionable salary (16% prior to July 2011).

On this basis, Barry Tootell opted for restricted pension accrual with effect from 6 April 2011 and was paid a restricted pension allowance.

James Mack is a member of the Britannia Scheme DC section and has a contractual arrangement under which the employer contribution rate is 12%.

All other executives accrued full pension benefits as members of either the PACE Scheme or the Britannia Scheme during the year.

Supplementary life cover is provided to executives in order to provide total life cover of four times salary when aggregated with benefits from the relevant pension scheme, as appropriate.

Additional details are available in table 2.

Non-executive directors

All the non-executive directors are appointed, and their directors' fees are determined and paid, by The Co-operative Group.

The basic fee for a non-executive director elected to sit on The Co-operative Group Board who is also appointed to serve on the Banking Group Board and its principal subsidiaries (including the Bank) is £16,302 per annum, and these same non-executive directors receive additional fees for serving on the various Banking Group Board committees (which also have responsibility for Bank business). The Chair's fee is £113,025 per annum.

Following a benchmarking exercise by New Bridge Street in 2010 which was approved by The Co-operative Group Board the six independent professional non-executive directors and the professional external non-executive director received a fee of Σ 57,002 per annum. Co-operative Group Board Directors serving on the various committees, as well as Chairs of the various committees also receive additional fees, as do the Deputy Chairs for the Board, to reflect their additional responsibilities. Fees were increased in line with RPI in 2011. The increase in fees in 2011 was 3.7%, effective from 1 June 2011. The independent professional non-executive directors and professional external non-executive director now receive Σ 59,966.

The independent professional non-executive directors and the professional external non-executive director are party to agreements with The Co-operative Group governing the terms on which their services are made available to the Bank. These service agreements expire on 31 July 2014, with the exception of David Davies whose service agreements expire on 31 July 2013.

The Co-operative Group Board may resolve to reappoint any of the independent professional non-executive directors at or before the date their service agreements expire for a further three year term. It is the normal policy of the Board not to allow an independent professional non-executive director to serve for more than nine years in aggregate.

The non-executive directors' service agreements contain no specific provision for liquidated damages on early termination of an agreement.

None of the independent professional non-executive directors are directors of The Co-operative Group or members of any Co-operative Group pension scheme or incentive plan.

Details of the directors' year of appointment and fees are shown in table 3.

Code staff remuneration

Code staff are defined by the FSA as those having a material impact on a firm's risk profile, including a person who performs a significant influence function for a firm, a senior manager and risk takers.

Remuneration policy and outcomes for code staff are determined by the committee. The design of the component parts of remuneration is as set out for the senior executives. For all code staff, performance related pay is risk adjusted through the use of the underpins to the incentive plans, together with the application of deferrals, clawback and malus adjustments in accordance with the FSA Remuneration Code.

Details of the aggregate remuneration information required by the FSA is shown in table 4 and are in respect of all the Bank's Group code staff. The amounts shown in respect of senior executives and non-executive directors do not represent additional remuneration.

By Order of the Board

Rodney Baker-Bates,

Chair, Co-operative Banking Group Remuneration and Appointments Committee

28 March 2012

Remuneration report continued

Table 1 - Emoluments of senior executives (executive directors) for the year ending 31 December 2011

	Date of service contract or appointment	Basic salary £000	Other supplements ⁽¹⁾ £000	Performance related pay annual ⁽²⁾ £000	Benefits in kind ⁽³⁾ £000	Total related to 2011 £000	Performance related pay medium/long term ⁽⁴⁾ £000	2011 Total emoluments £000	2010 Total emoluments [©] £000

Barry Tootell(7)(11)	4 April 2008	448	50	153	5	656	110	766	691
Rod Bulmer ^{(8) (11)}	1 June 2008	183	7	63	1	254	45	299	754
Tim Franklin ^{(8) (11)}	1 August 2009	186	8	26	1	221	58	279	701
Phil Lee ^{(8) (11)}	1 August 2009	186	3	26	4	219	58	277	700
Total		1,401	76	377	14	1,868	491	2,359	4,042
Former directors who serv	ed the Bank in 2010	9)						-	425
Compensation for loss of o	office ⁽¹⁰⁾							1,390	-
								3,749	4,467

The table above represents total emoluments for executive directors in relation to their services for The Co-operative Banking Group.

- (1) Other supplements include full or partial pension allowances in lieu of a pension provision, car allowance, phone and healthcare supplements (ie non P11D items).
- (2) Performance related pay (annual) refers to bonus amounts earned in respect of 2011. To comply with the FSA Remuneration Code, 50% of the 2011 annual bonus quoted is deferred for six months subject to further performance conditions and clawback. In addition as Neville Richardson is not eligible for 2012–14 LTIP, 60% of the 2011 annual bonus has been deferred (50% for 3 years and 50% for 3.5 years) to comply with FSA deferral rules. The deferred amount is subject to performance conditions and is not quoted in the emoluments table. This amount equates to £163k.
- (3) Benefits in kind for Neville Richardson and Phil Lee are in respect of company cars and healthcare cover, Tim Franklin and Barry Tootell are both in respect of healthcare cover (ie P11D items).
- (4) Performance related pay (medium/long term) refers to compensatory amounts paid in respect of the lost opportunity as a result of the early vesting of the 2009–11 LTIP plan.
- (5) 2010 Total emoluments were in respect of a full year for all executive directors.
- (6) Neville Richardson resigned as Chief Executive Officer on 22 July 2011.
- (7) Barry Tootell was appointed Acting Chief Executive Officer on 22 July 2011.
- (8) Rod Bulmer, Tim Franklin and Phil Lee were executive directors until 16 June 2011. The 2011 emoluments therefore were in respect of a part year only.
- (9) John Reizenstein served as executive director until 7 December 2010, emoluments were in respect of a part year.
- (10) Compensation for loss of office was in respect of Neville Richardson. Following his resignation on 22 July, Neville received a further payment of £380k for continued employment to 31 December 2011.
- (11) In accordance with the FSA Remuneration Code, payment of 60% of 2011 variable pay is deferred over a three year period. Variable pay comprises annual bonus in respect of 2011 plus long term incentive awarded in 2012 in respect of the 2011 year.

The table above represents total emoluments for executive directors in relation to their services for The Co-operative Banking Group.

- (1) Other supplements include full or partial pension allowances in lieu of a pension provision, car allowance, phone and healthcare supplements (ie non P11D items).
- (2) Performance related pay (annual) refers to bonus amounts earned in respect of 2011. To comply with the FSA Remuneration Code, 50% of the 2011 annual bonus quoted is deferred for six months subject to further performance conditions and clawback. In addition for executives not eligible for 2012–14 LTIP, 60% of the 2011 annual bonus has been deferred (50% for 3 years and 50% for 3.5 years) to comply with FSA deferral rules. The deferred amount is subject to performance conditions and is not quoted in the emoluments table. These amounts equate to £84k for Phil Lee, £42k for Karen Moir, £84k for Tim Franklin and £49k for Mike Fairbairn respectively.
- (3) Benefits in kind are in respect of company car for Phil Lee and medical insurance for Rod Bulmer, Mike Fairbairn, Keith Alderson, Karen Moir and Phil Lee (ie P11D items).
- (4) Performance related pay (medium/long term) refers to compensatory amounts paid in respect of the lost opportunity as a result of the early vesting of the 2009–11 LTIP plan.
- (5) 2010 Total emoluments were in respect of a full year for all executive committee members.
- (6) Rod Bulmer, Tim Franklin and Phil Lee were appointed to the Executive Committee on 17 June 2011. The 2011 emoluments represent earnings from that date.
- (7) Tim Franklin resigned as Executive Officer on 30 November 2011.
- (8) Karen Moir resigned on 30 September 2011.
- (9) James Mack was appointed to the Executive Committee on 1 August 2011. The emoluments shown represent his earnings from that date.
- (10) Helen Taylor was appointed to the Executive Committee on 1 October 2011. The emoluments shown represent her earnings from that date
- (11) Compensation for loss of office in 2011 was in respect of Karen Moir £466,000 and Tim Franklin £692.500. In addition, Tim Franklin received payment of £41,000 for continued employment up to 31 December 2011. Karen Moir also received £3,000 in lieu of holiday pay.
- (12) In accordance with the FSA Code of Practice, payment of 60% of 2011 variable pay is deferred over a three year period. Variable pay comprises annual bonus in respect of 2011 plan plus long term incentive awarded in 2012 in respect of the 2011 year.

Helen Taylor ⁽¹⁴⁾	4	15	4	3	25	96	172	64

General notes

- (1) The table above includes all senior executives who were either executive directors or members of the Executive Committee (or who switched status during the year) for the year ending 31 December 2011 and shows their pension details for the period during the year they were in the employment of the Banking Group.
- (2) Pension scheme members have the option of paying additional voluntary contributions to their respective pension scheme. Neither these contributions nor the benefits arising from them are shown in the above table.
- (3) Years of service include, where appropriate, pre-merger service with Britannia. The total accrued pension is that which would be paid annually on retirement at normal retirement age, based on service to 31 December 2011, and includes any transferred in benefits as appropriate. Under the terms of their contracts, existing senior executives at 17 January 2007 (only Mike Fairbairn now falls into this category) may take these benefits from age 60 and new executives after 17 January 2007 may take these benefits from age 65. The transfer values in the table above have been calculated on this basis.
- (4) All transfer values have been calculated in accordance with the current transfer value method and basis in force for the scheme applicable to the senior executive. This is set by the Trustee(s), after taking actuarial advice, to be consistent with the requirements of legislation and the rules of the scheme.

Individual notes

- (5) Neville Richardson resigned as Chief Executive Officer on 22 July 2011 and left the Banking Group on 31 December 2011. He became entitled to a deferred pension from the Britannia Scheme DB section when he left the scheme at the same date. The details shown in the table are calculated at that date. During the year Neville chose to take the value of his EFRBS as a taxable lump sum of £2,120,000 rather than as pension. The negative numbers shown on the table reflect the effect of this.
- (6) Barry Tootell (previously an executive director) was appointed Acting Chief Executive Officer on 22 July 2011. He opted for restricted pension accrual from 6 April 2011 and was paid a restricted pension allowance.
- (7) Keith Alderson was a member of the Executive Committee during the year.
- (8) Rod Bulmer was an executive director until 16 June 2011. He was appointed to the Executive Committee on 17 June 2011.
- (9) Mike Fairbairn was a member of the Executive Committee during the year. The figures shown on the table at the start of the year and at the year end are after application of a pension sharing order.
- (10) Tim Franklin was an executive director until 16 June 2011. He was appointed to the Executive Committee on 17 June 2011 and resigned on 30 November 2011. He became entitled to a deferred pension from the Britannia Scheme DB section when he left the scheme on 31 December 2011. The details shown in the table are calculated at that date. During the year Tim chose to take the value of his EFRBS as a taxable lump sum of £575,000 rather than as pension. The negative numbers shown on the table reflect the effect of this.
- (11) Phil Lee was an executive director until 16 June 2011. He was appointed to the Executive Committee on 17 June 2011.
- (12) James Mack was appointed to the Executive Committee on 1 August 2011. He is a member of the Britannia Scheme DC section and his pension details are shown on table 2a.
- (13) Karen Moir resigned from the Executive Committee on 30 September 2011. She became entitled to a deferred pension under the Britannia Scheme DB section when she left the scheme at the same date. The details shown in the table are calculated at that date.
- (14) Helen Taylor was appointed to the Executive Committee on 1 October 2011.

Notes

- (1) The Chair of the Board receives £113,025.
- (2) Peter Marks and Martyn Wates are employees of The Co-operative Group. Although they are entitled to fees of £16,302 they have both agreed to waive them.
- (3) The non-executive directors that also serve on the Group Board receive a fee of £16,302 per annum for serving on the Banking Group Board.
- (4) Ben Reid, as a non-executive director who is a member of the Banking Group Audit Committee and who is not an IPNED, receives an additional £3,111 per annum.
- (5) Under their service contracts, the IPNEDs and PNED receive a fee from June 2011 of £59,996 per annum.
- (6) The Deputy Chairs receive an additional fee of £15,720 per annum.
- (7) The Chair of the Banking Group Exposures Committee receives an additional £5,240 per annum. This amount is pro rata if the position is held for part of the year.
- (8) The Chair of the Banking Group Transformation Committee receives an additional Σ 7,336 per annum. This amount is pro rata if the position is held for part of the year.
- (9) The Chair of the Banking Group Risk Management Committee receives an additional £11,004 per annum. This amount is pro rata if the position is held for part of the year.
- (10) The Chair of the Banking Group Audit Committee receives an additional £11,004 per annum. This amount is pro rata if the position is held for part of the year.
- (11) The Chair of Illius Properties Limited receives a fee of £15,000 per annum.
- (12) Stephen Kingsley stepped down from the Board with effect from 16 June 2011. His remuneration also incorporates his compensation for loss of office of £57,002.
- (13) Steve Watts stepped down from the Board with effect from 8 July 2011.
- (14) Piers Williamson stepped down from the Board with effect from 8 September 2011.
- (15) Anne Gunther was appointed as an IPNED from 8 September 2011.
- (16) Merlyn Lowther was appointed as an IPNED from 7 September 2011.
- (17) David Davies receives £11,004 as the Chair of PACE.
- (18) The non-executive directors that also serve on the Group Board receive a fee of £3,260 per annum for serving on the Banking Group Exposures Committee.
- (19) Chris Jones stepped down from the Board with effect from 31 August 2011. His remuneration also incorporates his compensation for loss of office of £57,002.
- (20) The non-executive directors that also serve on the Group Board receive a fee of £2,174 per annum for serving on the Banking Group Remuneration and Appointments Committee.
- (21) Bob Newton receives a fee of £25,000 per annum for being on the Board of the Reclaim Fund Limited.

Remuneration report continued

Table 4 - Aggregate information in respect of code staff

Number of code staff	Total remuneration ⁽¹⁾ £000	Total fixed remuneration ⁽²⁾ £000	Total variable remuneration ⁽³⁾ £000	Annual incentive plan ⁽⁴⁾ £000	Long term incentive plan ⁽⁵⁾ £000	Outstanding deferred remuneration ⁽⁶⁾ £000	Deferred reduced and paid £000	Sign on and severance payments £000	Severance payments made in year [®] £000
Senior management 27 ⁽⁷⁾	7,398	5,025	2,373	1,205	1,168	421	_	_	2,549
Other code staff 40	9,472	6,870	2,602	1,495	1,107	46	_	_	2,962

The table above represents the emoluments of code staff in relation to their services for The Co-operative Bank.

- (1) Total remuneration consists of base salary, allowances, employer pension contributions and incentive payments relating to the 2011 financial year, together with future earnings opportunity comprised in the 2012–14 long term incentive awards.
- (2) Total fixed remuneration is base salary plus allowances and employer pension contributions.
- (3) Total variable remuneration is the sum of the annual incentive plan payments in respect of the 2011 financial year and the awards made under the 2012–14 long term incentive plan. The awards under the 2012–14 long term plan are performance related and, to the extent achieved will be payable 50% in 2015 and 50% in 2016. All payments as and when due are made in cash.
- (4) Payments made under the annual incentive plan are in respect of the 2011 financial year.
- (5) Awards made under the 2012–14 long term incentive plan are all unvested and represent deferred remuneration in respect of the 2011 financial year, in accordance with the FSA Remuneration Code.
- (6) The outstanding deferred remuneration is deferred cash where no long term incentive award is made or the award is insufficient to satisfy the deferral percentage required by the FSA. These amounts are quoted in annual incentive plan totals and do not represent additional payments.
- (7) Senior management consists of executive directors, members of the executive committee and non-executive directors.
- (8) Severance payments are in respect of redundancy for both senior managers and other code staff. Fourteen code staff were made redundant in 2011. Severance terms include both redundancy payments and the buyout of notice.

We have audited the financial statements of The Co-operative Bank plc for the year ended 31 December 2011 set out on pages 30 to 68 and pages 71 to 122. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the EU and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and reporting on corporate governance, on terms that have been agreed. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and reporting on corporate governance, those matters that we have agreed to state to them in our report, and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the directors' responsibilities statement set out on page 18, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the APB's website at www.frc.org.uk/apb/scope/private.cfm.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent company's affairs as at 31 December 2011 and of the Group's profit for the year then ended;
- the Group financial statements have been properly prepared in accordance with IFRSs as adopted by the EU:
- the parent company financial statements have been properly prepared in accordance with IFRSs as adopted by the EU and as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006 and, as regards the Group financial statements, Article 4 of the IAS Regulation.

Opinion on other matters prescribed by the Companies Act 2006 In our opinion:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the information given in the corporate governance statement set out on pages 11 to 18 with respect to internal control and risk management systems in relation to financial reporting processes and about share capital structures is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following:

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made;
 or
- we have not received all the information and explanations we require for our audit.

Under the Listing Rules we are required to review the directors' statement, set out on page 16. in relation to going concern.

In addition to our audit of the financial statements, the directors have engaged us to review their corporate governance statement as if the Company were required to comply with the Listing Rules and the Disclosure Rules and Transparency Rules of the Financial Services Authority in relation to those matters. Under the terms of our engagement, we are required to review the part of the corporate governance statement on pages 11 to 18 relating to the Company's compliance with the nine provisions of the UK Corporate Governance Code specified for our review.

Andrew Walker, Senior Statutory Auditor for and on behalf of KPMG Audit Plc, Statutory Auditor Chartered Accountants St James Square Manchester M2 6DS

Basis of preparation and significant accounting policies

For the year ended 31 December 2011

The Co-operative Bank plc is registered in England and Wales under the Companies Act 2006.

Basis of preparation

Both the parent company financial statements and the Group financial statements have been prepared and approved by the directors in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), and IFRS Interpretations Committee (IFRIC) guidance as adopted by the European Union (EU). On including the parent company financial statements here together with the Group financial statements, the Company is taking advantage of the exemption in Section 408 of the Companies Act 2006 not to present its individual income statement and related notes that form a part of these approved financial statements. Information in respect of the Company alone is labelled throughout as 'Bank'.

The financial information has been prepared under the historic cost convention as modified by the revaluation of available for sale financial assets, derivative contracts, investment properties and certain other financial assets and financial liabilities held at fair value. The Group applies the recognition, measurement and disclosure requirements of IFRS in issue that are endorsed by the EU and are effective for accounting periods beginning on or after 1 January 2011.

Standards and interpretations issued and effective

In preparing these consolidated financial statements, the Group has adopted the following pronouncements during the year that are new or revised but have no material impact on the financial statements:

• Revised IAS 24 (Related Party Disclosures (2009))

IAS 24 requires entities to disclose in their financial statements information about transactions with related parties. In broad terms, two parties are related to each other if one party controls, or significantly influences, the other party.

The standard simplifies the disclosure requirements for government related entities and clarifies the definition of a related party.

• IFRIC 19 (Extinguishing Financial Liabilities with Equity Instruments (2009))

This interpretation addresses the accounting by an entity when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor of the entity to extinguish all or part of the financial liability. It does not address the accounting by the creditor.

Standards and interpretations issued but not yet effective

· Amended IFRS 7 (Disclosures: Transfers of Financial Assets (2010))

This amendment's objective is to promote the transparency of off balance sheet activities, particularly in relation to the securitisation of financial assets. Specifically, the transference of these assets and their associated risks shall be reported in a way that ensures that the user of the accounts is able to understand the financial position of such risks being transferred.

It becomes effective for the year beginning 1 January 2012 which is the first annual accounting period beginning on or after 1 July 2011. The impact of the amendment to IFRS 7 is unlikely to be material to the Group because all of the Group's existing securitisations are on balance sheet.

• IFRS 9 (Financial Instruments: Classification and Measurement (2010))

This new standard's objective is to gradually phase out IAS 39 (Financial Instruments: Recognition and Measurement (2009)). Phase one of this process specifically requires financial assets to be classified as at amortised cost or at fair value. Consequently, the available for sale category currently used by the Group will become void. IFRS 9 incorporates IAS 39's authority on financial liabilities, recognising them at either amortised cost or fair value, but refines treatment of own credit risk fair value from being taken in the income statement to being taken through other comprehensive income. Further development phases for IFRS 9 are scheduled to cover key areas such as impairment, hedge accounting and the offsetting of assets and liabilities.

It becomes effective as of 1 January 2015. Early adoption is permitted, once endorsed by the EU. The impact of IFRS 9 is likely to be material to the Group, due to the magnitude of financial instruments held on the Group's balance sheet. Given the standard's changing scope, a detailed materiality assessment of its impact is not currently possible.

• IFRS 10 (Consolidated Financial Statements (2011))

This new standard establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. It supersedes both IAS 27 (Consolidated and Separate Financial Statements (2008)) except where IAS 27 still applies as noted below and Amended SIC 12 (Consolidation: Special Purpose Entities (2004)). It aims to provide transparency in identifying off balance sheet, parent subsidiary relationships, using a consistent basis for determining the existence and thus consolidation of those underlying entities being controlled by the reporting entity.

It becomes effective as of 1 January 2013. Early adoption is permitted, once endorsed by the EU. The impact to the Group of IFRS 10 is currently being considered in accordance with its effective date.

• IFRS 11 (Joint Arrangements (2011))

This new standard establishes principles for financial reporting by parties to a joint arrangement. It supersedes both IAS 31 (Interests in Joint Ventures (2010)) and Amended SIC 13 (Jointly Controlled Entities: Non-Monetary Contributions by Venturers (2007)). Recognition criteria now distinguish between joint operations and joint ventures on their relative 'rights and obligations' scope. A joint operation interest is accounted for between assets, liabilities, revenue and expense, whilst a joint venture is restricted to equity accounting.

It becomes effective as of 1 January 2013. Early adoption is permitted, once endorsed by the EU. The impact to the Group of IFRS 11 is currently being considered in accordance with its effective date.

• IFRS 12 (Disclosure of Interests in Other Entities (2011))

This new standard applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. It aims to provide disclosure transparency on the reporting entity's risks associated with its interests in other entities, in conjunction with IFRS 10's application which determines the existence of such entities.

It becomes effective as of 1 January 2013. Early adoption is permitted, once endorsed by the EU. The impact to the Group of IFRS 12 is currently being considered in accordance with its effective date.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2011

Basis of preparation continued

• IFRS 13 (Fair Value Measurement (2011))

This new standard defines fair value and also acts as its single authority, dealing primarily with both its measurement and disclosure. It does not require fair value measurements in addition to those already required, or permitted by other IFRSs, and is not intended to establish valuation standards or affect valuation practices outside of financial reporting.

It becomes effective as of 1 January 2013. Early adoption is permitted, once endorsed by the EU. The impact to the Group of IFRS 13 is currently being considered in accordance with its effective date.

• Amended IAS 1 (Presentation of Financial Statements on the Statement of Comprehensive Income (2010))

This amendment proposes to split the presentation of other comprehensive income into two sections. The different sections will distinguish between items which may or may not be recycled into any future income or expense.

It becomes effective as of 1 July 2012. Early adoption is permitted, once endorsed by the EU. The impact of the amendment to IAS 1 is likely to be immaterial to the Group.

• Amended IAS 12 (Income Taxes: Deferred Tax - Recovery of Underlying Assets (2010))

This amendment's objective is to refine IAS 12's measurement of deferred tax which relates to the recovery of an entity's assets. Previously, the standard stated that an asset's recovery would occur only when it was either used or sold. However, and as a consequence of this amendment, investment properties measured at fair value are excluded from the standard's scope on recovery.

It becomes effective as of 1 January 2012. Early adoption is permitted, once endorsed by the EU. The impact of the amendment to IAS 12 is likely to be immaterial to the Group.

• Revised IAS 19 (Employee Benefits (2011))

This revision covers the standard's recognition, measurement and presentation criteria with regard to a pension scheme's expense contained within IAS 19's 'defined benefit' scope. Actuarial gains or losses will now be fully recognised within income or expense, thus removing the previous partial recognition of 'corridor and spreading'.

Furthermore, the revision eliminates the 'expected return on assets' from the measurement of a pension's expense and directs entities to instead charge a cost of finance against its net unfunded liability position.

When determining a discount rate, that calculates a pension obligation's present value, reference should be made to market yields. These yields should be matched to high quality corporate bonds, in terms of both the obligation's currency and maturity, ahead of any previously assumed government bond yield reference point.

It becomes effective as of 1 January 2013. Early adoption is permitted, once endorsed by the EU. The impact of the revision to IAS 19 is likely to be material to the Group, due to the likely impact on the pension costs recharged to the Group.

• Amended IAS 27 (Consolidated and Separate Financial Statements (2011))

This amendment occurs as a direct consequence of IFRS 10's issuance, which now acts as the new single authority on consolidation requirements. IAS 27's scope has therefore reduced and focuses more specifically on separate financial statements' accounting bases. An entity shall therefore prepare its separate financial statements using one of two bases; either at cost or in accordance with IFRS 9.

It becomes effective as of 1 January 2013. Early adoption is permitted, once endorsed by the EU. The impact of the amendment to IAS 27 is likely to be immaterial to the Group.

• Amended IAS 28 (Investments in Associates and Joint Ventures (2011))

This amendment occurs as a direct consequence of IFRS 11's issuance, which now acts as the new single authority on joint arrangements. IAS 28 changes in order to consistently apply equity accounting methods for both joint ventures and associates. An entity shall therefore use IAS 28's equity accounting method, when accounting for any of IFRS 11's joint arrangements.

It becomes effective as of 1 January 2013. Early adoption is permitted, once endorsed by the EU. The impact of the amendment to IAS 28 is likely to be immaterial to the Group.

Other standards and interpretations have been issued but these are not considered to be relevant to the Group's operations.

Going concern

The Group's business activities, together with its financial position, and the factors likely to affect its future development and performance, are set out in the business and financial review on pages 5 to 7. In addition, the risk management section on pages 46 to 70 includes the Group's objectives, policies and processes for managing its risk and details of its exposure to risk. The capital management section on page 71 provides information on the Group's capital policies and capital resources.

In common with many financial institutions, the Group meets its day to day liquidity requirements through managing both its retail and wholesale funding sources, and is required to maintain a sufficient buffer over regulatory capital requirements in order to continue to be authorised to carry on its business. The Group's forecasts and objectives, taking into account a number of potential changes in trading performance and funding retention, show that the Group should be able to operate at adequate levels of both liquidity and capital, for the foreseeable future. The Group has also considered a number of stress tests on capital and liquidity and these provide assurance that the Group is sufficiently capitalised and adequately positioned in excess of liquidity stress tests.

Consequently, after making enquiries, the directors are satisfied that the Group has sufficient resources to continue in business for the foreseeable future and have therefore continued to adopt the going concern basis in preparing the financial statements. When making this assessment, the directors act within the principles of the Financial Reporting Council's 'Going Concern and Liquidity Risk: Guidance for Directors of UK Companies 2009' report.

Basis of preparation continued

Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are described within the risk management section on pages 46 to 70 and the critical judgments section on pages 73 to 74.

Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(1) Business combinations

On 1 August 2009 The Co-operative Bank plc merged with Britannia Building Society, with Britannia transferring their engagements to the Group.

This business combination has been accounted for applying the requirements of IFRS 3 (Business Combinations (2004)).

The consideration transferred was valued by reference to the members' interests acquired. Financial assets and liabilities which, following the Group's accounting policies, would be carried at amortised cost, were brought onto the balance sheet at their fair value at acquisition and were subsequently carried at amortised cost using the effective interest rate method. The income statement includes the results of the engagements transferred from Britannia since the date of acquisition.

(2) Basis of consolidation

(a) Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists whenever the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The financial statements have been prepared using uniform accounting policies and are based on the same accounting period as the Group.

Intra-group balances and transactions, and any unrealised gains and losses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

(b) Special purpose entities

Special purpose entities (SPEs) are entities that are created to accomplish a narrow and well defined objective; for the Group this includes;

- various securitisation transactions in which mortgages were sold to SPEs. The equity of these SPEs is not owned by the Group; and
- Covered Bond Limited Liability Partnerships created in order to act as a guarantor for the issue of covered bonds (refer to note 36 for further information).

An SPE is consolidated if, based on an evaluation of the substance of its relationship with the Group and the SPE's risks and rewards, the Group concludes that it controls the SPE.

The following circumstances may indicate a relationship in which, in substance, the Group controls and consequently consolidates an SPE:

- the activities of the SPE are being conducted on behalf of the Group according to its specific business needs so that the Group obtains benefits from the SPE's operation;
- the Group has the decision making powers to obtain the majority of the benefits of the activities of the SPE;
- the Group has the rights to obtain the majority of the benefits of the SPE and therefore may be exposed to the risks incidental to the activities of the SPE; or
- the Group retains the majority of the residual or ownership risks related to the SPE or its assets in order to obtain benefits from its activities.

The assessment of whether the Group has control over an SPE is carried out at inception. No further assessment of control is carried out unless changes in the structure or terms of the SPE or additional transactions between the Group and the SPE occur.

(c) Interests in joint ventures

The Group's interests in joint ventures are accounted for using the equity method. The consolidated financial statements include the Group's share of the income and expenses and equity movements of equity accounted investees, after adjustments to align the accounting policies with those of the Group.

(3) Revenue recognition

(a) Interest income and expense

Interest income and expense is recognised on an effective interest rate (EIR) basis, inclusive of directly attributable incremental transaction costs and fees including arrangement and broker fees, valuation and solicitor costs, discounts and premiums where appropriate and early redemption fees.

The EIR basis spreads the interest income and expense over the expected life of each instrument. The EIR is the rate that, at the inception of the instrument, exactly discounts expected future cash payments and receipts through the expected life of the instrument back to the initial carrying amount. When calculating the EIR, the Group estimates cash flows considering all contractual terms of the instrument (for example, prepayment options) but does not consider assets' future credit losses except for assets acquired at a deep discount.

For assets acquired at a value significantly below the carrying value in the acquiree's financial statements because they have incurred loss, expectations of future loss are higher than at origination, and interest spreads have widened because of deteriorating market conditions, the calculation of EIR is the same as shown above with the exception that the estimates of future cash flows include credit losses.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2011

Significant accounting policies continued

(b) Fees and commissions

Fee and commission income is predominantly made up of arrangement and other fees relating to loans and advances to customers that are included in the effective interest calculation. Commitment fees received are deferred and included in the EIR calculation upon completion or taken in full at the date the commitment period expires and completion does not occur.

Fees and commissions payable to introducers in respect of obtaining lending business, where these are direct and incremental costs related to the issue of a financial instrument, are included in interest income as part of the effective interest rate.

All other fee and commission income, such as loan closure fees or arrears fees, not included in the effective interest calculation, is recognised on an accruals basis as the service is provided.

(4) Significant items

Items which are material by both size and nature (ie outside of the normal operating activities of the Group) are treated as significant items and disclosed separately on the face of the income statement.

The separate reporting of significant items helps to provide an indication of the Group's underlying business performance. Events which may give rise to the classification of items as significant include individually significant programmes of restructuring, investment, integration and provisions for material non-recurring items.

(5) Financial instruments (excluding derivatives)

(a) Recognition

The Group initially recognises loans and advances, deposits, debt securities issued and other borrowed funds on the date at which they are originated.

Regular way purchases and sales of financial assets are recognised on the trade date at which the Group commits to purchase or sell the asset. All other financial assets and liabilities are initially recognised on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

(b) Derecognition

Financial assets are derecognised when they are qualifying transfers and:

- the rights to receive cash flows from the assets have ceased; or
- the Group has transferred substantially all the risks and rewards of ownership of the assets.

When available for sale financial assets are derecognised the cumulative gain or loss, including that previously recognised in reserves, is recognised in the income statement.

A financial liability is derecognised when the obligation is discharged, cancelled or expires. Any difference between the carrying amount of a financial liability derecognised and the consideration paid is recognised through the income statement.

(c) Financial assets

i) Overview

The Group classifies its financial assets (excluding derivatives) as either:

- loans and receivables;
- available for sale; or
- financial assets at fair value through income statement.

ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and the Group does not intend to sell immediately or in the near term. These are initially measured at fair value plus transaction costs that are directly attributable to the financial asset. Subsequently, these are measured at amortised cost using the effective interest method. The amortised cost is the amount advanced less principal repayments, plus or minus the cumulative amortisation using the EIR method of any difference between the amount advanced and the maturity amount less impairment provisions for incurred losses.

Loans and receivables mainly comprise loans and advances to banks and customers (except where the Group has elected to carry the loans and advances to customers at fair value through income or expense as described in accounting policy (5c. iv. below)) and assets reclassified from available for sale (see below).

iii) Available for sale

Available for sale financial assets are debt securities that are not held for trading and are intended to be held for an indefinite period of time. These are measured at fair value based on current bid prices where quoted in an active market. Where the securities are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques. Movements in fair value are recorded in equity as they occur. On disposal, gains and losses recognised previously in equity are transferred to the income statement. In exceptional circumstances, for instance where the market in the securities has become inactive, the Group has reclassified such assets as loans and receivables.

Any transfer back from loans and receivables, upon reclassification, would be measured at fair value based on current bid prices where quoted in an active market. Where there is no active market or the securities are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques.

iv) Financial assets at fair value through income or expense

These are either:

- acquired or incurred principally for the purpose of selling or repurchasing in the near term;
- part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit taking: or
- upon initial recognition designated at fair value through income or expense to eliminate or significantly reduce a measurement and recognition inconsistency or where management specifically manages an asset or liability on that basis ie capital bonds.

These are measured at fair value based on current bid prices where quoted in an active market. Where there is no active market or the securities are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques. Gains and losses arising from changes in the fair value are brought into the income statement within trading income as they arise.

(d) Financial liabilities

i) Overview

Financial liabilities are contractual obligations to deliver cash or another financial asset. Financial liabilities are recognised initially at fair value, net of directly attributable transaction costs.

Financial liabilities, other than derivatives and capital bonds, are subsequently measured at amortised cost.

Certain non-derivative financial liabilities included within customer accounts (capital bonds) have been designated at fair value upon initial recognition in the balance sheet. Changes in fair value are recognised through the income statement. The capital bonds are economically matched using equity linked derivatives, which do not meet the requirements for hedge accounting. Recording changes in fair value of both the derivatives and the related liabilities through the income statement most closely reflects the economic reality of the transactions. In doing so this accounting treatment eliminates a measurement inconsistency that would otherwise arise from valuing the capital bonds at amortised cost and the derivatives at fair value.

ii) Borrowed funds

Borrowings are recognised initially at fair value, which equates to issue proceeds net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between proceeds net of transaction costs and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

The Group classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. The Group's preference shares are classified as financial liabilities as they carry the right to a fixed non-cumulative preferential dividend (further information is provided in note 29) and are subsequently presented in other borrowed funds. The dividends on these preference shares are recognised in the income statement as interest expense on an amortised cost basis using the EIR method.

iii) Perpetual subordinated bonds

Perpetual subordinated bonds are carried at their nominal value plus any premium and a fair value adjustment for hedged risk where items are designated as part of a fair value hedge relationship.

Interest payable on perpetual subordinated bonds is recognised in the income statement using the EIR method.

(6) Impairment provisions

(a) Assessment

i) Objective evidence

At the balance sheet date, the Group assesses its financial assets not at fair value through income or expense for objective evidence that an impairment loss has been incurred.

Objective evidence that financial assets are impaired can include default or delinquency by a borrower, restructuring of a loan or advance on terms that the Group would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, or the disappearance of an active market for a security.

The Group considers evidence for impairment for loans and advances at both a specific asset and collective level.

ii) Forbearance

The Group operates a policy of forbearance which mitigates against borrower default. All such cases are included within its provisioning methodology. For further information on the Group's approach to forbearance, its management and execution, see the risk management section on pages 46 to 70.

(b) Scope

i) Individual accounts

All individually significant loans and advances are assessed specifically for impairment using a range of watchlists progressively graded for higher levels of risk. Accounts at risk of impairment are monitored and impaired from the point at which they display clear indication of underperformance. Loans and advances not individually significant are collectively assessed for impairment by grouping together loans and advances of similar risk characteristics.

ii) Collective accounts

a) Retail

In assessing collective impairment, the Group uses statistical modelling of historical trends of probability of default, timing of recoveries and the amount of loss incurred. The model's results are adjusted for management's judgment as to whether current economic and credit conditions are such that actual losses are likely to differ from those suggested by historical modelling. Once impaired, accounts are subjected to higher levels of impairment according to both their relevant stage of delinquency, ie the number of days in arrears, and their consequent likelihood of ultimately being charged off. Default rates, loss rates and future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2011

Significant accounting policies continued

(6) Impairment provisions continued

b) Corporate

Collective risk cover provides further balance sheet protection for total impairment losses. The amount of collective risk cover is adjusted monthly by the Group. The Group reviews all higher risk loans and considers the potential loss which might arise were the borrowers to fail (notwithstanding that continued trading remains the expectation). Events which may trigger higher risk status include a deteriorating balance sheet, material losses, trading difficulties (eg loss of material contracts or suppliers), breach of financial covenants, poor account conduct, arrears and material reduction in value of security. A collective impairment provision is raised against these loans based on the total estimated loss that may arise and the propensity for the borrower to fail.

(c) Measurement

The amount of the loss is the difference between:

- the asset's carrying amount; and
- the present value of estimated future cash flows (discounted at the asset's original or variable EIR for amortised cost assets and at the current market rate for available for sale assets).

Where the debt is secured, the assessment reflects the expected cash flows from the realisation of the security, net of cost to realise, whether or not foreclosure or realisation of the collateral is probable.

(d) Impairment of financial assets carried at amortised cost

The amount of the impairment loss on assets carried at amortised cost is recognised immediately through the income statement and a corresponding reduction in the value of the financial asset is recognised through the use of an allowance account.

A write off is made when all or part of a claim is deemed uncollectable or forgiven after all the possible collection procedures have been completed and the amount of loss has been determined. Write offs are charged against previously established provisions for impairment or directly to the income statement. Any additional recoveries from borrowers, counterparties or other third parties made in future periods are offset against the write off charge in the income statement once they are received.

Provisions are released at the point when it is deemed that following a subsequent event the risk of loss has reduced to the extent that a provision is no longer required.

(e) Impairment of financial assets classified as available for sale

Available for sale assets are assessed at each balance sheet date to see whether there is objective evidence of impairment. In such cases, any impairment losses are recognised by transferring the cumulative loss that has been recognised directly in equity to income or expense.

When a subsequent event causes the amount of impaired loss on available for sale investment securities to decrease, and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the income statement. However any further recovery in fair value of an impaired available for sale equity security is recognised directly in equity.

(7) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to do so and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(8) Sale and repurchase agreements

Securities sold subject to repurchase agreements (repos) are reclassified on the balance sheet as pledged assets when the transferee has the right by contract or custom to sell or repledge the assets. The liability to the transferee is also included on the balance sheet, in deposits by banks. The difference between sale and repurchase price is accrued over the life of the agreements using the EIR method.

Securities purchased under agreements to re-sell (reverse repos) are classified as loans and advances to banks on the balance sheet, as appropriate.

Securities lent to counterparties are retained on the balance sheet.

Securities borrowed are not recognised on the balance sheet, unless they are sold to third parties, in which case the purchase and sale are recorded. The obligation to return them is recorded at fair value as a trading liability.

(9) Derivative financial instruments and hedge accounting

(a) Derivatives used for asset and liability management purposes

Derivatives are used to hedge interest and exchange rate exposures related to non-trading positions. Instruments used for hedging purposes include swaps, forward rate agreements, futures, options and combinations of these instruments. The Group also uses equity derivatives to hedge the equity risks within its capital bonds.

Derivative financial instruments are stated at fair value based on quoted market prices in active markets, and where these are not available, using valuation techniques such as discounted cashflow models. Further information is provided on page 116. All derivatives are carried as assets when the fair value is positive and liabilities when the fair value is negative. The gain or loss on re-measurement to fair value is recognised immediately in the income statement except where derivatives qualify for cashflow hedge accounting.

On initial designation of derivatives and qualifying hedged items as a hedge, the Group formally documents the relationship between the hedging instrument(s) and hedged item(s) including the risk management objective and strategy in undertaking the hedge transaction together with the method used to assess effectiveness of the hedging relationship.

The Group makes an assessment, both at the inception of the hedge relationship as well as on an ongoing basis, as to whether the hedging instruments are expected to be 'highly effective' on offsetting the changes in fair value or cash flows of the respective hedged items during the period for which the hedge is designated, and whether the actual results of each hedge are within a range of 80%–125%.

Significant accounting policies continued

i) Cashflow hedges

Where derivatives are designated as hedges of the exposure to variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, the portion of the fair value gain or loss on the derivative that is determined to be an effective hedge is recognised directly in equity. The ineffective part of any gain or loss is recognised in the income statement immediately.

The accumulated gains and losses recognised in equity are reclassified to the income statement in the periods in which the hedged item will affect income or expense. When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss recognised at that time remains in equity until the forecast transaction is eventually recognised in the income statement.

When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was recognised in equity is immediately reclassified to the income statement.

ii) Fair value hedges

Where a derivative is designated as the hedging instrument to hedge the change in fair value of a recognised asset or liability or a firm commitment that could affect income or expense, changes in the value of the derivative are recognised immediately in the income statement together with changes in the fair value of the hedged item that are attributable to the hedged risk.

Fair values are based on quoted market prices in active markets, or where these are not available, using valuation techniques such as discounted cashflow models

If the derivative expires or is sold, terminated, or exercised, or no longer meets the criteria for fair value hedge accounting, or the designation is revoked, then hedge accounting is prospectively discontinued. Any adjustment up to that point, to a hedged item for which the EIR method is used, is amortised to income or expense as part of the recalculated EIR of the item over its remaining life.

iii) Fair value hedge accounting for a portfolio hedge of interest rate risk

As part of its risk management process the Group identifies portfolios whose interest rate risk it wishes to hedge. The portfolios may comprise only assets, only liabilities or both assets and liabilities. The Group analyses each portfolio into repricing time periods based on expected repricing dates, by scheduling cash flows into the periods in which they are expected to occur. Using this analysis, the Group decides the amount it wishes to hedge and designates as the hedged item an amount of assets or liabilities from each portfolio equal to this.

The Group measures monthly the change in fair value of the portfolio relating to the risk that is being hedged. Provided that the hedge has been highly effective the Group recognises the change in fair value of each hedged item in the income statement with the cumulative movement in its value being shown on the balance sheet as a separate item, fair value adjustment for hedged risk, either within assets or liabilities as appropriate. If the hedge no longer meets the criteria for hedge accounting, this amount is amortised to the income statement over the remaining average useful life of the hedge relationship.

The Group measures the fair value of each hedging instrument monthly. The value is included in derivative financial instruments in either assets or liabilities as appropriate, with the change in value recorded in the income statement.

Any hedge ineffectiveness is recognised in the income statement as the difference between the change in fair value of the hedged item and the change in fair value of the hedging instrument.

(b) Embedded derivatives

A derivative may be embedded in another instrument, known as the host contract. Where the economic characteristics and risks of an embedded derivative are not closely related to those of the host contract (and the host contract is not carried at fair value through income or expense), the embedded derivative is separated from the host and held on balance sheet at fair value.

Movements in fair value are posted to the income statement, whilst the host contract is accounted for according to the relevant accounting policy for that particular asset or liability.

(c) Derivatives used for trading purposes

Derivatives entered into for trading purposes include swaps, forward rate agreements, futures, options and combinations of these instruments. Derivatives used for trading purposes are measured at fair value and any gains or losses are included in the income statement. The use of derivatives and their sale to customers as risk management products is an integral part of the Group's trading activities.

(10) Financial guarantee contracts

Other financial guarantees, in respect of intra-group funding and the pension deficit in respect of the former Britannia Pension Scheme, between the Group and its subsidiaries are treated as insurance contracts in accordance with IFRS 4 (Insurance Contracts (2004)). In accordance with the standard, the recognised insurance liability is assessed based on the current estimate of forecast future cash flows. If this highlights that the liability is inadequate, the liability is increased and the corresponding charge taken through the income statement.

(11) Property, plant and equipment

Items of property, plant and equipment are stated at cost less any accumulated depreciation and impairment losses. Depreciation is provided on a straight line basis at the following rates, which are estimated to write down the assets to realisable values at the end of their useful lives.

Freehold and long leasehold buildings 2% to 2.5% per annum

Short leasehold buildings life of lease

Equipment 10% to 33.3% per annum 25% per annum Vehicles

All items of property, plant and equipment are reviewed for indications of impairment on a regular basis and at each balance sheet date. Any impairment identified would be charged to the income statement.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2011

Significant accounting policies continued

(12) Intangible assets

(a) Computer software

Computer software is stated at cost less cumulative amortisation and impairment. All costs directly attributable in the development of computer software for internal use are capitalised and classified as intangible assets where they are not an integral part of the related hardware and amortised over their useful life up to a maximum of seven years.

(b) Other intangible assets

Other intangible assets are stated at cost less cumulative amortisation and impairment. Amortisation is charged over the useful life of the asset. For core systems, such as core deposit intangibles, a review of the asset's useful life is carried out and a maximum useful life of up to ten years is applied.

(13) Goodwill

All business combinations are accounted for by applying the purchase method. Goodwill represents amounts arising on acquisition of subsidiaries, associates and joint ventures and represents the difference between the cost of the acquisition and the fair value of the identifiable assets, liabilities and contingent liabilities acquired.

If a business combination is achieved without transfer of consideration, the amount of goodwill is calculated by reference to the fair value of the Group's interest in the acquiree using a valuation technique. The technique involves assessing the future net profit of the acquiree and then discounting using a rate that reflects current market assessment of the time value of money and risks specific to the acquiree.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is not amortised but is tested for impairment on an annual basis. Where impairment is required, the amount is recognised in the income statement and cannot be subsequently reversed.

(14) Leases

(a) Overview

The Group enters into leases for land and buildings and operating leases for vehicles.

Leases for land and buildings are split between leases for the land and leases for the buildings for accounting purposes only. The leases are separately assessed as to whether they are finance or operating leases.

The Group policy is to provide for the minimum future lease payments on buildings that it does not currently use, net of expected rental income from sub-leases.

(b) Assets leased to customers

All leases of assets to customers are finance leases. Income from assets leased to customers is credited to the income statement based on a pattern reflecting a constant periodic rate of return on the net investment in the lease.

(c) Assets leased from third parties

i) Finance leases

Finance lease assets are initially recorded at the lower of fair value and the present value of the minimum lease payments, and subsequently in accordance with the relevant policy for the underlying asset. An equal liability is recorded in other liabilities. Interest is allocated to the lease payments so as to record a constant periodic rate of charge on the outstanding liability.

ii) Operating leases

Operating lease payments are charged to the income statement on a straight line basis over the term of the lease and the asset is not recognised on the balance sheet.

(15) Cash and cash equivalents

Cash and cash equivalents comprises cash balances and balances with a maturity of three months or less from the acquisition date, which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(16) Income tax

(a) Overview

Tax on the income statement for the year comprises current and deferred tax, which is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in the statement of comprehensive income.

(b) Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(c) Deferred tax

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided for is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Significant accounting policies continued

(17) Pension costs

(a) Defined contribution basis

With effect from 6 April 2006, the Group, along with other businesses within The Co-operative Group, has participated in the Co-operative Group Pension (Average Career Earnings) Scheme (the PACE scheme) the assets of which are held in a separate fund administered by trustees. The Group's de facto participation level is on a defined contribution basis, as it pays fixed sums into the fund on a regular basis. This level of participation is required because the PACE defined benefit scheme exposes the participating businesses to actuarial risks associated with the current and former employees of other group companies, with the result that there is no consistent and reliable basis for allocating PACE's liabilities, assets and costs to individual companies participating in the scheme. Therefore pension costs in respect of the scheme are accounted for on a defined contribution basis and recognised as an expense in the income statement as incurred.

(b) Former Britannia Building Society pension scheme

Following the transfer of engagements of Britannia Building Society, the Britannia defined benefit pension scheme transferred to the Co-operative Financial Services Management Services Limited (CFSMS), a fellow subsidiary undertaking of The Co-operative Banking Group. In accordance with policy 17.a, the pension costs in respect of this scheme are accounted for on a defined contribution basis and recognised as an expense in the income statement as incurred.

(18) Foreign currency

The functional and presentational currency for the Group is sterling. Transactions in foreign currencies are translated at the foreign exchange rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to sterling at the foreign exchange rate ruling at that date. Foreign currency differences arising on retranslation are recognised in the income statement, except for foreign currency differences arising on retranslation of available for sale equity instruments or a qualifying cashflow hedge, which are recognised directly in the statement of comprehensive income. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair values are translated to sterling at the exchange rates prevailing at the dates the values were determined.

(19) Investments in Group undertakings

Investments in subsidiaries are initially measured at fair value which equates to cost and subsequently valued at cost less impairment.

(20) Provisions for liabilities and charges

A provision is recognised in the balance sheet if the Group has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(21) Profit based payments to members of The Co-operative Group

Members of The Co-operative Group receive a dividend based on their transactions with The Co-operative Group and its subsidiaries including the Bank. Once these profit based payments are approved by the Co-operative Group Limited, the Bank is recharged an amount which reflects its eligible products' contribution to the overall Co-operative Group member dividend.

Risk management

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

The Co-operative Banking Group (the Banking Group) companies, including Co-operative Insurance Society Limited, CIS General Insurance Limited and The Co-operative Bank plc, have a common Board composition.

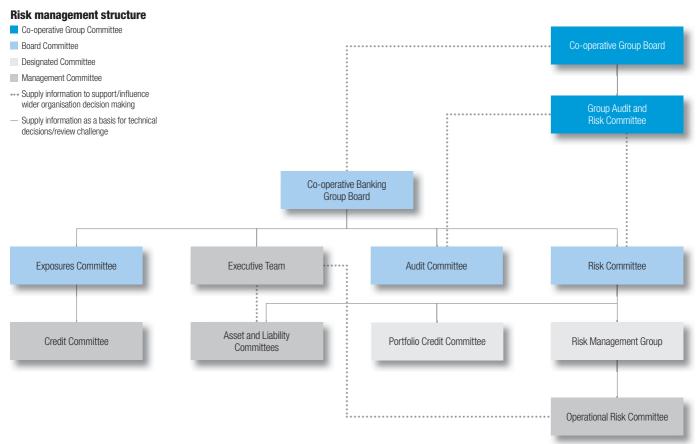

The Banking Group has developed and implemented a common governance and organisation structure, which supports all the Boards within the Banking Group.

The Banking Group Board is responsible for approving the Banking Group strategy, its principal markets and the level of acceptable risks articulated through its statement of risk appetite. It is also responsible for overall corporate governance which includes ensuring that there is an adequate system of risk management and that the level of capital and liquidity held is consistent with the risk profile of the business.

The Board has established Board committees and senior management committees to:

- oversee the risk management process;
- identify the key risks facing the business; and
- assess the effectiveness of planned management actions.

Specific Board authority has been delegated to Board committees and the Chief Executive who may, in turn, delegate elements of his discretions to appropriate executive directors and their senior line managers.

Risk management structure continued

Risk management committees

The Banking Group's Board delegates authority to the Banking Group's Risk Committee for monitoring compliance with the Board approved risk appetite statements. This includes:

- setting limits for individual types of risk; and
- approving (at least annually) and monitoring compliance with risk policies and delegated levels of authority.

Risk Committee (RC): this committee is responsible for the oversight of the adequacy of capital for all risks (technical, operational and business model and external) across the Banking Group. This includes:

- operation of mandates and limits and any breaches thereof:
- risk management policy approval:
- risk management information reporting and integrity of relevant data;
- identification and measurement of risk;
- risk and portfolio exposure management strategy:
- adequacy of the risk mitigation process:
- review and discussion of risk issues identified as a result of internal audit work; and
- review and challenge of the impact assessment of the strategic plan on the risk and capital profile.

Audit Committee (AC): this committee provides oversight on financial reporting, internal control, regulatory compliance, external and internal audit.

Exposures Committee: this committee ensures that non-executive directors are actively involved in major credit decisions (including sanctioning large counterparty transactions), monitors large exposures and problem loans as well as reviewing the adequacy of individual credit provisions.

Executive Team: the Executive Team manages the business in line with the Board risk appetite statement. It also maintains oversight of risk management processes and management information.

Risk and capital management sub-committees

Portfolio Credit Committee (PCC): this committee reports to RC and is chaired by the Banking Risk Officer. It is responsible for defining the Banking Group's credit risk appetite; providing oversight and timely action in relation to credit risk management; monitoring, challenging and approving changes to Basel rating systems; and reviewing lending and arrears policies.

Asset and Liability Committees (ALCO): these committees are management committees of the Board which are chaired by the Chief Financial Officer. They are primarily responsible for overseeing the management of market, liquidity and funding risks. They also advise on capital utilisation and the composition and sourcing of adequate capital.

Risk Management Group (RMG): this committee reports to RC and is chaired by the Chief Risk Officer. Its purpose is to provide a mechanism to ensure that the Banking Group's risk management is reviewed, challenged, approved (with escalation to RC where required) and embedded within the Banking Group. The committee also monitors all significant and emerging risks, and oversees the development and implementation of stress testing and risk appetite across the Banking Group.

Credit Committee: this committee is chaired by the Banking Risk Officer. The chair has delegated authority for approving credit facilities within approved strategies and delegated authorities.

Operational Risk Committee (ORC): this committee reports into RMG and is chaired by the Director of Specialist Risk Services. It monitors significant operational risks and controls as well as the management actions taken to mitigate them to an acceptable level or transfer them. This includes business continuity arrangements and insurance cover to protect the Banking Group's business. Capital requirements in relation to operational risk are monitored by the RC.

There is also a framework of sector specific management committees carrying out the following roles:

- supporting risk and capital management;
- implementing changes in business strategy;
- optimising performance;
- monitoring adherence to and setting of policy; and
- · developing management information and training.

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

Group significant risks

The Group's significant risks arise in five broad categories:

Ris	sk type	Definition	Page
1.	Credit risk	Credit risk is the current or prospective risk to earnings and capital arising from a borrower's failure to meet the terms of any contract with the Group or their failure to perform as agreed.	48
2.	Liquidity risk	Liquidity risk is the risk that the Group's resources will prove inadequate to meet its commitments. It arises from the mismatch of timings of cash flows generated from the Banking Group's assets and liabilities (including derivatives).	64
3.	Market risk	Market risk is the risk relating to changes in market prices of financial instruments, execution of customer and interbank business and proprietary trading. The majority of the Group's market risk arises from changes in interest rates.	67
4.	Operational risk	Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or external events. This encompasses the effectiveness of risk management techniques and controls to minimise these losses.	69
5.	Additional risks	Additional risks cover any non-operational risks as well as exposure to material loss due to the Banking Group being unable to meet its capital/liquidity/profit targets in line with approved risk appetite.	69

1. Credit risk

1.1 Overview

Credit risk is an integral part of our business activities and is inherent in both traditional banking products (loans, commitments to lend, and contingent liabilities such as letters of credit) and in 'traded products' (derivative contracts (such as forwards, swaps and options), repurchase agreements, securities borrowing and lending transactions).

All authority to take credit risk derives from the Banking Group's Board. This authority is delegated to the Chief Executive and then on to other individuals. The level of credit risk authority delegated depends on seniority and experience, and varies according to the quality of the counterparty, associated security or collateral held.

1.2 Credit risk policies

The credit risk policies are approved annually by the RC. The policies determine the criteria for the management of:

- credit risk associated with retail, corporate and wholesale segments (including securitisation, market exposures and credit management standards);
- · country, sector and counterparty limits;
- risk appetites; and
- · delegated authorities.

1.2.1 Retail credit risk

The Group's policy on retail secured and unsecured credit is to establish credit criteria that determine the balance between volume growth (generating higher income) and higher arrears and losses, so as to ensure the return is commensurate with the Group's risk appetite and strategic objectives. Retail credit risk related decisions are based on a combination of defined lending policies and the use of bespoke scorecards derived from historic data. Regular updates are provided to the PCC and RC on the performance of the portfolios.

1.2.2 Corporate credit risk

The Group's corporate sector policy is to maintain a broad spread of exposures across sectors which reflect the Group's areas of expertise. Credit exposures to corporate and business banking customers are assessed individually. The quality of the overall portfolio is monitored using a credit grading system calibrated to expected loss. The PCC and RC receive regular reports on the performance of the portfolio. The Exposures Committee receives regular reports on lending facilities, bad debt provisions and the management of problem loans.

1.2.3 Wholesale credit risk

The Group's credit risk framework for wholesale markets has, at its centre, a credit risk policy which governs the types of exposure the business can take and sets concentration parameters. To complement this, individual authority is delegated, dependent on Internal Rating Grade and associated Probability of Default (PD), to approve limits to individual counterparties within the parameters established by the credit risk policy. The RC receives regular reports on the performance of the portfolio. The Exposures Committee receives regular reports on changes in exposure limits, watchlist and problem counterparty information.

1.3 Credit exposure

1.3.1 Definitions

Impaired and past due but not impaired in the tables below are further defined in the following sections on retail and corporate credit risk and investment securities.

Within neither past due nor impaired, low risk has been defined as exposures where the PD is 1% or below over a one year time horizon for exposures on an internal ratings based (IRB) approach under Basel II, and strong/good/satisfactory categories for corporate exposures under the slotting approach. Medium to high risk has been defined as a PD of greater than 1% over a one year time horizon for exposure on IRB approach under Basel II and weak category for corporate exposures under the slotting approach.

Fair value adjustments represent lifetime expected credit losses on assets acquired on the merger of the Bank and Britannia Building Society on 1 August 2009 and are reviewed on a regular basis to ensure appropriate allocation and utilisation.

1. Credit risk continued

1.3.2 Analyses of credit exposure

The following analysis of credit exposure shows:

- carrying amounts by class of asset in the balance sheet;
- the gross credit exposure by class of asset (excluding allowance for losses and including credit commitments);
- the net credit exposure by class of asset (including both allowance for losses and credit commitments);
- an analysis of the net credit exposures by level of impairment or risk; and
- fair value adjustments.

Cash and balances at central banks are credit exposures with the Bank of England and have been excluded from the analysis.

The impairment analysis of loans and advances to customers has been restated to show a consistent comparison to 2011 following the inclusion of assets subject to forbearance in impairment definitions.

1.4 Analysis of impaired assets and associated collateral

The following sections provide further analysis and disclosure of the Group's credit risk associated with:

- loans and advances to customers;
- investment securities; and
- loans and advances to banks.

1. Credit risk continued

1.4.1 Loans and advances to customers

1.4.1.1 How we oversee and control credit risk

The Credit Risk Control Unit (CRCU) provides an independent view of credit risk in order to support the business' decision making. CRCU does not directly benefit from decisions to extend credit. The CRCU provides risk oversight by virtue of its independence from the business management functions. The CRCU function is in house and is not outsourced.

CRCU is responsible for procedures across both retail and corporate, and performs the following tasks and responsibilities related to its role:

- design and implementation of risk assessment and rating systems;
- testing, validating, documenting and monitoring of risk assessment and rating systems;
- production and analysis of summary reports of risk assessment and rating systems;
- maintenance of lending policy and procedures, and upkeep of various returns and reporting requirements;
- monitoring system decision overrides and exceptions;
- benchmarking against third party data and vendor model sources;
- reviewing the risk criteria to ensure they remain predictive of risk;
- · oversight of independent validation;
- · development and monitoring of risk appetites; and
- liaison with FSA regarding proposed changes to rating systems and forecast regulatory capital levels.

On pages 54 to 61 the management of credit risk by portfolio is described covering:

- acquisition and account management;
- collateral:
- impairment assessment: and
- forbearance.

1.4.1.2 Assessment for impairment

The loan portfolios are periodically reviewed, usually once a month, to assess impairment. A loan will be deemed to be impaired where there is objective evidence that a loss event has occurred after recognition of an asset and by 31 December 2011. Further detail is provided in the following credit risk sections.

Once a loan is defined as impaired the provision will be calculated as the difference between the current carrying value of the asset (including fair value adjustments) and the expected future recovery, discounted at the loan's effective interest rate, taking into account the expected charge off rate and any supporting collateral. (Full details are contained in the significant accounting policies on page 41 and in the following credit risk sections.)

The following table analyses the gross balance by impairment classification for the Retail (secured and unsecured) and CABB (corporate, Platform and Optimum) business segments. It includes credit commitments, impairment provisions and fair value adjustments.

1.4.1.3 Secured residential credit risk

Acquisition and account management

Secured loans are mortgages originated directly to customers via branches, telephone and the internet in the retail business and via intermediaries in the Platform business. In 2011 55% (2010: 79%) of mortgages were originated through the retail business and 45% (2010: 21%) through Platform. Completions of retail and Platform prime mortgages have fallen whilst completions of buy to let mortgages originated through Platform have substantially increased.

Retail mortgages are prime residential mortgages and include loans originated via both Britannia and Co-operative Bank branded sales channels.

Platform originates a combination of prime and 'almost prime' residential mortgages together with buy to let loans.

Loans originated by Platform prior to 2009 and those acquired by Britannia Treasury Services are managed as part of a closed portfolio, Optimum. These loans include a range of asset types, including prime residential (both income verified and self-certified), buy to let, and non-conforming mortgages.

Loan repayment methods may be capital and interest, where the loan is repaid over the term of the loan, or interest only, where the capital element of the loan is normally repaid at the end of the term.

The table below shows residential mortgage completions analysed by loan to value (LTV) and repayment method:

		2011			2010		
	Amount advanced	Average LTV %	% Interest only	Amount advanced	Average LTV %	% Interest only	
Retail prime	790.5	57.9	11.8	2,444.3	60.0	20.9	
Platform prime	182.1	66.1	22.1	526.4	66.4	25.7	
Total prime	972.6	59.3	13.0	2,970.7	61.0	21.5	
Buy to let	446.3	62.6	83.0	68.7	59.5	87.5	
Almost prime	10.3	52.9	13.4	39.2	54.5	23.9	
Self certified	_	_	_	0.5	54.3	100.0	
Total completions	1,429.2	60.4	30.4	3,079.1	60.9	22.9	

The risk in the portfolio is re-evaluated monthly using internally developed behavioural scorecards, to assess the probability of a borrower defaulting in the following 12 months and to reflect any changes in the value of collateral. The revaluation will determine the amount of capital required to be held for individual loans.

1. Credit risk continued

The table below shows the residential mortgages gross customer balances analysed by LTV banding:

	23,727.1	52.7	42.9	25,146.0	52.0	42.0	

Collateral

All mortgages are secured by a first charge over the property being purchased or remortgaged. Valuation of the property is normally assessed by a RICS certified valuer from the Group's approved panel of valuers. For low LTV remortgages, valuation may be assessed through the use of an automated valuation model (AVM). Performance of AVMs is monitored on a regular basis to ensure their ongoing accuracy.

It is not normal practice to reassess the valuation of collateral unless further lending is being considered, or the property has been repossessed, but on a quarterly basis the valuation will be restated using a regional property price index.

The table below analyses the fair value of property collateral held against mortgage portfolios:

	2011			2010		
	Impaired	Non-impaired	Total	Impaired	Non-impaired	Total
Exposure	1,853.6	21,873.5	23,727.1	2,025.8	23,120.2	25,146.0

Cover	96.3%	99.4%	99.2%	96.9%	99.5%	99.3%

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

1. Credit risk continued

Impairment

Loans and advances to customers are considered impaired where there is objective evidence of a loss event having occurred after the original advance. This indicates that the Group may be unable to collect all principal and interest outstanding according to the contractual terms of the agreements.

Objective evidence of a loss event is considered to have occurred when:

- arrears outstanding are equivalent to 90 days or more; or
- the loan is subject to litigation; or
- the loan has passed its due date for repayment but has not been repaid; or
- the value of the collateral on a roll up mortgage has reduced below the loan balance outstanding; or
- the loan is identified as being subject to forbearance.

In addition, a provision may be held when:

- the loan is in arrears by less than 90 days; or
- there has been a material deterioration in the borrower's external credit score in the last 12 months.

Loans meeting the latter criteria are collectively assessed for impairment when a loss is expected in the event of repossession.

Loans that have arrears of less than 90 days, but when a loss is not expected, are defined as past due but not impaired.

Impairment definitions were updated in the second half of 2011 to include mortgages subject to forbearance, or where collateral on roll up mortgages has reduced below the loan balance outstanding and mortgages which have past the due date for repayment but have not been repaid. These changes have resulted in a one off increase in impairment provisions of £2.8m.

The table below shows:

- impaired customer balances as a percentage of gross customer balances; and
- impairment coverage, ie impairment provisions and fair value adjustments as a percentage of impaired customer balances.

		2011			2010	
	Retail secured	Platform	Optimum	Retail secured	Platform	Optimum

Credit protection as a % of impaired customer balances	3.7%	0.8%	9.3%	4.5%	0.0%	11.9%

Forbearance

A number of options are available to borrowers in financial difficulty. Repossession of the property will only be considered when all other avenues have been explored. The precise treatment selected will depend on the borrower's individual circumstances, but may include:

- arrangements to repay outstanding arrears over a period of time, by making payments above the contractual amount. The loan will be deemed impaired, and arrears will continue to be reported, until the arrears have been cleared in full:
- short term concessions, where the borrower is allowed to make reduced repayments (or, in exceptional circumstances, no repayments) on a temporary basis to assist with a short term financial hardship. In these cases the shortfall on the repayments will accrue as arrears and the loan will be deemed to be impaired. Note that this treatment is distinct from a 'payment holiday', which is allowed as part of a customer's flexible mortgage contract. Payment holidays would not knowingly be allowed for customers experiencing financial hardship. However, in the absence of evidence to the contrary, loans that have had a payment holiday in the last two years have been treated as impaired within the year end accounts;
- temporary conversion of a mortgage to interest only repayments. This treatment has sometimes been used as an alternative to a concession for mortgage borrowers experiencing short term financial hardship. The capital repayments due in this period are added to the capital balance outstanding on the mortgage. These loans are identified as impaired:
- a permanent switch from capital and interest repayments to interest only repayments, provided the borrower declares they have an alternative means of repaying the capital at the end of the term. As the borrower is not required to prove they have an alternative repayment vehicle in place, there is a risk that borrowers have switched purely to reduce their repayments and may not in reality have a repayment vehicle. Consequently all loans that have switched to interest only after the origination of the loan are treated as impaired;
- an extension to the term of the mortgage to reduce the borrower's repayments. Term extensions may be offered proactively to a borrower experiencing financial hardship, or in response to a borrower's request. Loans that have had a term extension in the last two years are considered as impaired; and
- capitalisation, where outstanding arrears are added to the capital value of the loan to be repaid over the remaining term. This is only considered where it is appropriate for the borrower's circumstances, and where the borrower has been performing for at least six months. During 2011, 90 (2010: 605) loans had arrears capitalised of £0.3m (2010: £1.0m). These loans are not treated as impaired unless the borrower meets another impairment trigger (eg misses a mortgage payment).

1. Credit risk continued

The underlying basis for the calculation of residential mortgage impairment provisions remains unchanged. Mortgages subject to forbearance, once classified as impaired, are treated in the same way as all other impaired mortgages in the impairment provisions calculations.

The table below analyses retail mortgage forbearance by concession allowed:

	201	2011			
	Exposure	Impairment	Exposure	Impairment	
Arrangements	546.6	26.0	562.9	31.1	
Concessions	7.2	0.1	6.5	0.1	
Payment holidays	175.8	-	173.3	-	
Interest only switches	584.6	1.1	569.4	_	
Term extensions	147.3	0.1	176.7	_	
Capitalisations	9.8	-	19.0	-	
	1.471.3	27.3	1,507.8	31.2	

1.4.1.4 Unsecured retail credit risk

Acquisition and account management

The Group offers unsecured lending through fixed repayment loans, credit cards and overdrafts. Borrowers are assessed using a combination of credit scoring and policy rules to ensure that expected delinquency levels are within the risk appetite of the business and deliver an appropriate level of return. Credit cards and overdrafts are subject to ongoing account management to increase or decrease credit limits and manage over limit authorisations.

The risk in the portfolio is re-evaluated monthly using internally developed behavioural scorecards to determine the amount of capital required to be held for individual loans.

The following table shows unsecured lending gross customer balances (including commitments) by product type:

	2011	2010
Loans	751.0	833.0
Credit cards	2,841.4	3,042.8
Overdrafts	377.0	363.5
	3,969.4	4,239.3

Impairment

Credit cards are identified as impaired immediately if the borrower fails to make the minimum payment by the due date.

Loans are identified as impaired if a monthly payment has not been made 15 days after it was due.

An overdraft is defined as impaired if the account has been overdrawn in excess of any agreed limit for 15 days, or if the agreed overdraft has expired but the account remains overdrawn.

Accounts identified as impaired will be segmented according to the number of days that the loan has been impaired. The provision for each segment is based on the probability of charge off. An account is charged off when all economical avenues to recover the debt have been exhausted.

The table below shows:

- gross customer balances (excluding commitments);
- impaired customer balances as a percentage of gross customer balances; and
- impairment coverage, ie impairment provisions and fair value adjustments as a percentage of impaired customer balances.

2011	2010
Gross loans and advances to customers 1,518.1	1,613.1
Other accounting adjustments 17.5	41.2
Gross customer balances 1,535.6	1,654.3
Impaired customer balances 296.5	308.4
Impaired as a % of gross customer balances 19.3%	18.6%
Credit protection	
Impairment provisions 163.3	158.2
Credit protection as a % of impaired customer balances 55.1%	51.3%

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

1. Credit risk continued

Forbearance

Where a borrower is unable to clear their arrears in full, the Group will endeavour to agree an arrangement with the borrower to repay the outstanding arrears over a period of time, or may agree to accept payments of less than the contractual amount during a period of temporary financial hardship. In these instances the loan continues to be reported as impaired until the arrears are cleared in full. Arrangements can be made directly with the customer or through a third party who they have chosen to represent them.

A negative disposable income account is where the customer's current financial situation means they are unable to make any monthly payments to their unsecured creditors. In such circumstances the Group may refrain from further action during a period of financial hardship. The customer's circumstances will be reviewed on a regular basis, with a view to resolving the situation once those circumstances improve. These loans continue to be reported as impaired, and will have a higher dedicated provision rate than the standard provisioning rates.

'Regular payers' are defined as accounts that are greater than 90 days in arrears and are making regular payments (irrespective of whether they are on a formal arrangement or not). These accounts continue to be reported as impaired, but the provision rate will reflect the specific probability of charge off for these accounts.

In 2010, the provisioning methodology used re-ages, rather than the 'regular payers' treatment criteria used for 2011. Re-ages applied only to accounts with early stage arrears, as opposed to 'regular payers' which includes all arrears stages.

The table below shows current exposure and provision by treatment type:

	2011		2010		
	Current exposure	Impairment	Current exposure	Impairment	
Regular payers	93.5	70.2	_	_	
Re-ages	-	_	23.9	11.4	
Standard collections	41.5	23.1	117.1	88.3	
Negative disposable income	16.9	15.7	10.5	10.0	
Fraud	5.3	4.8	3.4	3.3	
Individual voluntary arrangements	55.5	49.5	50.8	45.2	
	212.7	163.3	205.7	158.2	

When all internal activities to rehabilitate the borrower have been exhausted, accounts are charged off and referred to Debt Collection Agencies (DCAs) to seek full recovery of the debt. The loan balance remaining on balance sheet reflects the amount expected to be recovered.

	2011			2010		
	Original balance	Charged off	Current exposure	Original balance	Charged off	Current exposure
DCAs	97.0	90.0	7.0	116.4	111.1	5.3

1.4.1.5 Corporate credit risk

Acquisition and account management

New lending is approved by experienced staff within the centrally based credit underwriting team, independent from income generation. Lending discretions are based on the risk profile of the customer and the amount of exposure. The lending discretions of the Banking Risk Officer, the Chief Executive and the Exposure Committee are operated to sanction the largest credit applications.

The credit underwriting team uses the relevant rating systems and other tools to analyse the underlying business and the counterparty's management to assess the risk of each lending proposition and its ability to repay the borrowing. Other factors considered include the potential impact of economic changes, the financial stability of the counterparty and its ability to withstand such change.

The Group's corporate sector policy is to maintain a broad sectoral spread of exposures which reflect the Group's areas of expertise. Credit exposures to corporate and business banking customers are assessed individually. The quality of the overall portfolio is monitored using a credit grading system calibrated to expected loss.

The PCC and the RC receive regular reports on the performance of the portfolio. The Exposures Committee receives regular reports on new facilities and changes in facilities, sector exposures, bad debt provisions and the management of problem loans.

The following table shows the distribution of the corporate and business banking gross customer balances (including commitments) by sector and risk grade, where PD grades have been mapped to regulatory slotting categories for ease of interpretation in this report.

1. Credit risk continued

Collateral

The Group uses guarantees and collateral to mitigate credit risk. Collateral is regularly revalued and guarantees are reviewed to ensure continuing effectiveness.

Property collateral for corporate lending is categorised as security for property development or investment customers (ie 'property' lending) or owner occupied premises to secure mainstream loan and overdraft facilities. For general lending, in addition to taking charges over property assets owned by the Company, other security is taken in modest proportion to the total portfolio. This includes debentures or floating charges (supported by tangible security, where appropriate, including property, life policies and stocks and shares) and cash cover.

Where exposures are agreed on a secured basis, security cover is recognised only where:

- the security is legally enforceable and is of a tangible nature and type;
- an appropriate, recent and reliable valuation is held; and
- a prudent margin is applied to the valuation, for the type of security involved.

The table below analyses the fair value of the property collateral held against assets in the property and construction sectors:

	2011	2011		
	Exposure	Collateral	Exposure	Collateral
Individually impaired	732.4	386.3	577.0	357.7
On watchlist	1,252.6	1,068.6	920.6	651.4
Neither individually impaired nor on watchlist	2,695.7	2,444.3	3,354.0	3,025.1
	4,680.7	3,899.2	4,851.6	4,034.2

Of the above, £48m is not held as first charge.

Impairment

Corporate customers are placed on a watchlist when they show signs of unsatisfactory performance and require close control, but are currently expected to continue trading and where no provision for bad debt is required.

The Group also reviews monthly all higher risk loans and considers the potential loss which might arise were the borrowers to fail (notwithstanding that continued trading remains the expectation). Events which may trigger higher risk status include a deteriorating balance sheet, material losses, trading difficulties (eg loss of material contracts or suppliers), breach of financial covenants, poor account conduct, arrears and material reduction in value of security. A collective impairment provision is raised against these loans based on the total estimated loss that may arise and the propensity for the borrower to fail. In such circumstances, the Group works with the customers to resolve their business problems and agree a clear strategy, often with the support of external, independent professional advisors.

Individual impairment provisions are raised at the point when business performance is assessed to have deteriorated to the extent that there is a real risk of loss of principal, interest or fees. Provisions will be required on some or all of the entire shortfall between the security held and the loan balance outstanding and represent a realistic assessment of the likely net loss after realisation of any security.

Objective evidence of impairment may include:

- an instalment on a loan account being overdue, or having been in excess of its limit (or being overdrawn without an agreed limit) for 90 days or more;
- an event likely to result in insolvency which may involve bankruptcy, or the appointment of an administrative receiver, liquidator or administrator; or
- if the Group considers that at some point (normally taken within the next 12 months) actions such as an issue of formal demand will be required in order to achieve full repayment.

For provisioning purposes, an up to date property valuation or selling agent's recommendation will be discounted to take into account selling and legal costs and also to build in a contingency to cover potential reductions in the selling price based upon the type of security and entity and the existence or otherwise of a contracted sale. In some cases, calculation of the provision will be based on an up to date assessment (often following an independent business review by a firm of accountants) of likely receivables from the business or a formal estimated outcome statement from an insolvency practitioner where the business has failed.

Provisioning adjustments are also recorded, as appropriate, against loans whose interest terms have changed such that revised future cash flows discounted at the original interest rate are less than the current carrying amount.

The table below shows:

- impaired customer balances as a percentage of gross customer balances; and
- credit protection, ie impairment provisions and fair value adjustments as a percentage of impaired customer balances.

	2011	2010
Gross loans and advances to customers	8,991.5	8,720.4
Fair value adjustments	251.5	265.4
Other accounting adjustments	(99.9)	(178.2)
Gross customer balances	9,143.1	8,807.6
Impaired customer balances	960.5	659.0
Impaired as a % of gross customer balances	10.5%	7.5%
Credit protection		
Impairment provisions	117.3	55.8
Fair value adjustments	251.5	265.4
	368.8	321.2
Credit protection as a % of impaired customer balances	38.4%	48.7%

Forhearance

If the Group is convinced of a customer's ability and commitment to address their financial difficulties, it may agree to grant concessions to the original contractual terms. Such concessions typically include:

- restructuring, waiving or reserving rights in the event of covenant breaches;
- postponement of principal payments;
- restructures of principal payments;
- · extension of loan maturities;
- partial or full capitalisation of interest payments; or
- swap restructures.

For those customers that benefit from ongoing concessions (such as postponement of principal payments), the Group retains the forbearance status for as long as the concession remains in place and does not remove them from the watchlist until at least six months later. In the event of one off concessions (such as capitalisation of interest payments), the Group removes the forbearance status 12 months after their occurrence, and retains the customers on the watchlist for at least the same period of time.

Customers who stop exhibiting higher risk traits are removed from the watchlist. This is dependent upon the Group's satisfaction that the triggers leading to inclusion on the watchlist no longer apply, such as:

- balance sheet improvements (eg cash injection, agreement with creditors or funders on revised terms);
- return to an acceptable level of profitability and cash flow;
- improved account conduct;
- the loan to security value is restored, or additional security taken; or
- covenant breach cured or revised covenants agreed.

Removal from the watchlist usually requires the customer's management information to show that trading is achieving the revised plan with a reasonable expectation for this to continue. The internal guideline is for at least six months' satisfactory trading to have been evidenced.

In addition to the above, other forbearance concessions the Group may grant are considered to be objective evidence of impairment and include:

- a partial write off of debt, following which the account continues to be classified as impaired for at least six months; or
- a material postponement or forgiveness of interest or 'soft' rates or waiver or reduction of normal fees and charges. The accounts must remain impaired while such favourable terms are being applied.

1.4.2 Investment securities

Policies are in place within Treasury with regard to the management and valuation of collateral, with daily monitoring undertaken. Repos and secured lending positions are revalued daily with margin calls on collateralised swaps predominantly made daily, save for several arrangements which permit calls on a weekly basis. Eligible financial collateral for Basel II reporting purposes includes gilts held under reverse repo agreements and cash held under both repo agreements and collaterised swap arrangements. The guarantees relied upon are either parental guarantees held against subsidiary exposures within bank groups or sovereign guarantees.

At the balance sheet date, the Group has a total investment securities portfolio of £4,616.2m (2010: £4,988.4m) of which £46.4m (2010: £97.3m) is considered impaired and against which £45.2m (2010: £85.3m) of provisions are held.

1.4.2.1 Impaired assets

Investment securities are considered impaired where it is determined that the Group will be unable to collect all principal and interest outstanding, according to the contractual terms of the agreements.

At the balance sheet date, the Group assesses its investment securities for objective evidence that an impairment loss has occurred, for example this may be indicated by the disappearance of an active market. For available for sale debt securities particular consideration is given to evidence of any significant difficulty of the issuer or measurable decrease in the estimated cash flows from the investments.

1.4.2.2 Past due but not impaired

Investment securities are considered past due where the contractual interest or principal payments are in arrears and it is determined that the Group will be able to collect all principal and interest outstanding according to the contractual terms of the agreements.

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

1. Credit risk continued

1.4.2.3 Neither past due nor impaired

The Group only invests in high quality treasury assets. Within the investment securities portfolio 89% (2010: 82%) of exposures have an external credit rating equivalent to Fitch A or above.

1.4.3 Loans and advances to banks

None of the Group's exposures to loans and advances to banks are impaired. The Group considers that its exposures to loans and advances to banks are all of low to medium risk.

1.5 Eurozone risk

The Group remains a low risk UK based operation. It has no sovereign exposure to 'peripheral' eurozone countries (Portugal, Ireland, Italy, Greece and Spain). As at 31 December 2011 the Group had a £90m (2010: £nil) exposure to the Government of Finland, repayable in over one year. It held no other European sovereign debt.

The Group has no direct exposure to Greek financial institutions or any other counterparties. Other peripheral eurozone country limits and counterparty limits have continued to be managed downwards. Higher risk eurozone exposures to financial institutions, namely those to the other peripheral eurozone countries and Belgium, continue to be closely monitored. Management action has been proactively taken and, where necessary, additional actions are taken in light of any downgradings.

1.5.1 Direct exposures

The analyses on the following pages set out the Group's exposures to financial institutions in European countries, both by asset maturity and by asset type.

The Group has exposures to financial institutions in the following European countries at 31 December 2011:

Country	Repayable within 30 days	Repayable within 1 year but more than 30 days	Repayable in over 1 year	Credit risk mitigation	Total exposure
2011					
Austria	-	44.2	_	(4.1)	40.1
Belgium	-	20.0	34.0	(34.0)	20.0
Denmark	7.8	-	-	-	7.8
Finland	-	-	-	-	-
France	174.7	5.3	135.3	-	315.3
Germany	39.2	104.5	38.4	(15.7)	166.4
Ireland	5.0	25.0	-	-	30.0
Italy	-	-	-	-	-
Netherlands	0.1	40.2	210.6	-	250.9
Portugal	-	33.5	-	-	33.5
Spain	59.0	84.2	33.6	(31.5)	145.3
Sweden	10.2	10.0	7.3	-	27.5
Switzerland	73.1	10.0	413.8	(263.6)	233.3
	369.1	376.9	873.0	(348.9)	1,270.1

		Repayable within 1 year			
Country	Repayable within 30 days	but more than 30 days	Repayable in over 1 year	Credit risk mitigation	Total exposure
2010					
Austria	_	_	40.1	-	40.1
Belgium	98.1	43.0	45.8	_	186.9
Denmark	_	5.2	0.4	_	5.6
Finland	_	25.0	-	-	25.0
France	365.8	491.7	227.8	(273.5)	811.8
Germany	238.5	_	157.9	-	396.4
Ireland	_	98.8	32.9		131.7
Italy	260.8	150.8	-	-	411.6
Netherlands	10.1	_	_	_	10.1
Portugal	_	_	34.4	_	34.4
Spain	226.7	91.2	198.7	(32.7)	483.9
Sweden	_	_	_		_
Switzerland	0.5	17.0	140.3	(73.6)	84.2
	1,200.5	922.7	878.3	(379.8)	2,621.7

For the purposes of the above table, exposures to counterparties which comprise subsidiaries of larger banking groups have been aggregated at the group level with the associated risk country being that of the ultimate parent entity.

452

1. Credit risk continued

Credit risk mitigation takes the form of UK gilt collateral held in relation to reverse repo transactions, cash collateral held in relation to sold repo and derivative transactions, and Government guarantees (including £34.0m by the Belgian government) in relation to specific debt security holdings.

As at 31 December 2011, exposure to European multilateral development banks (not included in the above table given the supranational status associated with these institutions) stood at £529.0m (2010: £48.1m) before credit risk mitigation (£457.5m post-credit risk mitigation (2010: £48.1m)) of which £81.8m matures within a year.

Ongoing exposure to 'peripheral' eurozone counterparties is primarily restricted to short dated money market lending. Where investment assets are held for peripheral eurozone counterparties these are deemed to be in run-off, with associated counterparty and country limits reducing upon maturity or sale.

The table below shows the Group's exposure to financial institutions in European countries by asset type.

	Bank and money market				Total
Country	balances	Bonds	Derivatives	Other	exposure
2011					
Austria	-	40.1	-	-	40.1
Belgium	-	20.0	-	-	20.0

Switzerland	_	17.0	66.7	0.5	84.2
	1,481.0	945.4	174.0	21.3	2,621.7

In addition to the above exposures to financial institutions, in the overseas European Economic Area (EEA as defined by the European Banking Authority) and Switzerland, corporate customer exposures at 31 December 2011 totalled £184.4m (2010: £194.6m). There are no exposures to retail customers based outside of the UK and Channel Islands.

The Group continues to monitor developments daily across all countries as they affect the Treasury portfolio. A number of pro-active management actions have been taken to reduce the risk, stress the portfolio and anticipate future downward rating actions. These include significant tenor reductions to improve flexibility, active limit management and revised strategy to take on more secured trading and lower risk business. Regular stress testing of the entire credit limits portfolio is undertaken.

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

1. Credit risk continued

Treasury operates a risk based approach which monitors counterparty limits and exposure via a credit risk register. The counterparties or the assets held are monitored against a Board approved matrix of risk tolerance and associated RAG (Red, Amber, Green) indicators. The credit risk register is updated for rating actions, market events and financial results as they are announced which may influence a change in risk status and possible escalation requiring management actions and inclusion on the watchlist.

The Treasury risk team reviews the entire portfolio and watchlists monthly for appropriate risk status bandings. The Exposures Committee reviews the watchlist on a monthly basis and provide its observations and required management actions as appropriate.

Red watchlist exposures totalled £277m as at 31 December 2011, this comprised holdings in FRNs issued by German (£75m), Irish (£30m) and Portuguese (£34m) financial institutions. Of these, FRNs totalling £202m reached maturity and were repaid in full during January and February 2012, the remaining £75m Red watchlist exposures being to German (£25m) and Spanish (£50m) financial institutions with the latest maturity dates 1 June 2012 (Spain) and 24 August 2012 (Germany).

1.5.2 Indirect exposures

Treasury risk management monitoring extends beyond the direct risk incurred through counterparty trading, to the underlying exposures (eg to peripheral eurozone countries) which Treasury's counterparties may maintain on their own balance sheets. In analysing each counterparty's secondary exposure we assess the vulnerability and impact on that firm if it suffered different degrees of losses. We also perform stress testing to assess the impact of potential further downgrades on the credit risk of our exposure.

Where secondary sovereign exposure is deemed to undermine the performance of the counterparty, remedial management actions are taken in respect of Treasury's counterparty limits and exposure, often well ahead of any associated rating actions.

2. Liquidity risk

2.1 Capital and liquidity framework

The Group's capital and liquidity management framework comprises:

- an asset and liability management control programme:
- risk, capital and liquidity quantification and mitigation techniques and processes;
- management actions linked through to stress testing and capital and liquidity planning models, enabling a method of mitigating the effects of a severe but plausible economic stress:
- defined processes to invoke necessary management actions detailed in the Internal Capital Adequacy Assessment Process (ICAAP) submission document;
- articulation of how liquidity risk is identified, measured, monitored and managed in the Individual Liquidity Adequacy Assessment (ILAA) and procedures and governance in place to mitigate the risk;
- a defined risk appetite, controls and governance in the Group's capital and liquidity management policies; and
- · detailed and documented ongoing development and embedding plans for capital adequacy, capital allocation and risk appetite development.

Impacts on capital and liquidity of a severe economic downturn are stress tested to ensure sufficient and proactive management actions, triggers, systems and controls are in place.

The risk appetite reflects the amount and type of risk that the Group is prepared to seek, accept or tolerate as defined in the following four capital objectives:

- maintain capital quantity and quality adequate to cover existing and projected risks in the business;
- maintain capital adequate to be confident of weathering extreme but plausible market scenarios;
- maintain operations such that we are confident that our customer service and our reputation are sustained in extreme but plausible scenarios; and
- generate good, stable returns for members.

The Group is progressing towards implementation of Basel III and other UK and EU risk and capital legislative requirements. These include the Capital Requirements Directive IV and considerations resulting from the reports issued by the Independent Commission on Banking.

2.2 Liquidity risk

2.2.1 Overview

Liquidity risk arising from the structure of the balance sheet (structural liquidity) is managed in line with policies developed by ALCO. The Group's liquidity management policies are reviewed and approved annually by the RC (on behalf of the Board) and compliance reviewed monthly by ALCO. The Group's policy is to ensure that sufficient funds are available at all times to meet demands from depositors, to fund agreed advances, to meet other commitments as and when they fall due, and to ensure the Board's risk appetite is met.

The Group operates within a liquidity risk framework of stress testing combined with a number of strategic and tactical measures which feed into an overall liquidity status score. This is supported with detailed contingency funding plans which are tested and reviewed on a regular basis. The Group's liquidity management framework is designed in line with FSA BIPRU regulations and industry guidelines, including Institute of International Finance and Bank for International Settlements recommendations.

The Board's risk appetite for liquidity risk is defined as survival in a number of stress scenarios, adherence to specific ratios and compliance with all regulatory limits. The stress tests encompass survival across various timescales and a range of adverse liquidity events, both firm specific and market wide, which cover all aspects of the liquidity risk to which the Group is exposed.

The Group monitors its liquidity position on a daily basis against the Board approved liquidity risk appetite and stress scenario. It also monitors the adequacy of its controls to provide assurance that liquidity risk is being appropriately managed, and regularly assesses its funding position.

2. Liquidity continued

The Group manages liquidity risk by applying:

- a systematic control process embedded in the Group's operations; and
- · controlled end to end liquidity management with:
 - net outflows monitored to ensure they are within FSA limits;
 - maintenance of a diversified funding base;
 - management of liquid assets: high quality primary liquidity including cash and gilts, along with secondary liquidity including certificates of deposit;
 - target strategic ratios; and
 - stress testing.

The strategic measures approved by the Board and monitored monthly are:

- wholesale borrowing ratio, 17.8% (2010: 17.2%) the amount of wholesale borrowing compared to total liabilities;
- liquid asset ratio, 15.5% (2010: 9.8%) amount of total assets that are unencumbered high quality liquid assets as defined under BIPRU; and
- customer loan/deposit ratio, 93.9% (2010: 102.5%) the ratio of customer loans to customer deposits.

Day to day cash flow (tactical liquidity) is managed within quidelines laid down by ALCO and in accordance with the standards established for all banks by the FSA.

The Group has a high proportion of retail assets funded by retail deposits demonstrated by the loan/deposit ratio which averaged 99.3% during 2011, ensuring there is no over reliance on wholesale funding. There are customer funding and wholesale funding target ratios as described above which are set in line with the Board approved strategic plan. The Group's structural liquidity risk management is therefore retail based and is dependent on behavioural analysis of both customer demand and deposit and loan drawdown profiles by product category, based on experience over the last ten years. The behaviour of retail products is reviewed by ALCO and, in addition, the Group has maturity mismatch limits to control the exposure to longer term mismatches.

The Group continually reviews its structural funding position and is confident that current funding plans will ensure that it will meet the requirements of the net stable funding ratio proposed by Basel III.

Marketable assets are maintained as a liquidity pool against potential retail outflows. The liquidity pool is the highest quality debt and consists of government issued debt and cash at the Bank of England. Liquid assets increased at the end of 2011 as demonstrated by a liquid asset ratio of 15.5%, having averaged 12.1% during 2011 as a whole.

The table below shows the market value and composition of the liquid asset buffer:

	2011	2010
Qualifying stock		
Operational balances with central banks (note 13)	6,378.3	1,443.7
Treasury bills	-	1,997.6
Gilts	1,085.5	903.3
Multilateral development banks	162.1	50.9
	7,625.9	4,395.5

The Group has access to a variety of medium term wholesale funding sources: securitisation, regulated covered bond and Euro Medium Term Notes. The Group will issue from the programmes as funding requirements and market conditions permit.

ALCO discusses the actual liquidity position and projected position incorporating business plans. More frequent meetings are held if necessary, when the markets have a heightened period of stress or liquidity shortage. The meetings ensure that the business plans are accurate and can be flexed as required.

The Group's primary objective in respect of secured funding is to raise longer term funds (over one year in duration) and to diversify the source of funds from wholesale means to support the business plan of the Group. The Group ensures that sufficient eliqible and unencumbered assets are available at all times to meet the needs of its secured funding programmes. For further details of encumbered assets see note 15 and note 35 regarding assets pledged.

2.2.2 Liquidity gap

The Group's liquidity position is monitored on a daily basis and reported to ALCO. Treasury holds a pool of liquid assets on behalf of the Group, and management actions are in place to provide additional liquidity when required. These sources of liquidity are held in order to be available to meet unexpected liquidity requirements.

The Group manages liquidity on a behavioural rather than contractual basis, reflecting where actual behaviour differs from contractual maturity:

- retail and corporate deposit bases are very stable, with deposits being attracted to the Group by good customer service and its ethical policy. As a result, the deposit base remains stable although the contractual maturity is immediate for instant access deposits; and
- personal loan and visa balances are repaid earlier than their contractual maturity date.

2.2.3 Gross cashflow maturity analysis

Gross cash flows include interest and other revenue cash flows. The following table is an analysis of:

- gross undiscounted contractual cash flows of financial liabilities held at the balance sheet date; and
- behavioural adjustments that reflect the actual behaviour of customers based on historic cashflow profiles over a period of ten years.

For the year ended 31 December 2011 All the amounts are stated in £m unless otherwise indicated

The Bank's gross cashflow maturity analysis has not been disclosed as it is not materially different from the above Group disclosure.

3. Market risk

The Group's market risk includes interest rate risk, interest basis risk and currency risk. The majority of the Group's market risk arises from changes in interest rates.

3.1 Interest rate risk

Interest rate risk policy statements, approved by the RC on behalf of the Board, specify the scope of the Group's wholesale market activity, market risk limits and delegated authorities. The policy is managed by ALCO. Its prime task is to assess the interest rate risk inherent in the maturity and repricing characteristics of the Group's assets and liabilities. The Group seeks to minimise the volatility of future earnings from interest rate changes and all interest rate risk exposure is removed. from the retail and CABB divisions and consolidated at the centre where it is managed from the core balance sheet within agreed limits. Treasury is responsible for interest rate risk management for the Group. The principal analytical techniques involve assessing the impact of different interest rate scenarios and changes in balances over various time periods.

The Board receives reports on the management of balance sheet risk and ALCO reviews the balance sheet risk position and the utilisation of wholesale market risk limits

3.1.1 Non-treasury interest rate risk

The Group (excluding wholesale) uses a gap report and earnings approach for managing interest rate risk, focusing in detail on the sensitivity of assumed changes in interest rates on net interest income for one year. Higher level analysis is performed for subsequent years.

ALCO monitors the non-trading interest rate risk which is split between certain wholesale portfolios, banking and investment books, and the rest of the Group's balance sheet. The following describes the Group non-trading portfolios excluding these certain wholesale portfolios. These positions are managed by Treasury. All interest rate risk is centralised into Treasury using appropriate transfer pricing rates.

Gap reports are based on defined time periods. ALCO sets guidance limits around the gap, principally that the sum of positions maturing in greater than 12 months and non-sensitive balances (including non-maturity deposits) is no more than a set limit.

Risk limits are formally calculated at each month end. Interest rate risk and effectiveness of hedging is monitored daily using gap positions, incorporating new business requirements, Drawdown risk, in particular for fixed rate mortgages, is managed through weekly balance sheet meetings. The balance sheet management team undertakes hedges for interest rate risk using derivative instruments and investment securities which are executed via the Treasury markets team to external wholesale markets, and loans and deposits which are executed internally with the Treasury markets team.

Basis risk is the risk that different assets and liabilities reprice with reference to different indices and at different times. This exposes the Group to income volatility if indices do not move in a ratio of one to one. This risk is managed by performing a future simulation of the balance sheet to establish what the Group's income volatility would be if the rates do not move in a one for one ratio. Cash placements are then undertaken with the Treasury markets team to reduce the income volatility. The Treasury markets team executes external trades as required.

The table below illustrates the sensitivity analysis relating to the Group, a primary measure in the approach to managing interest rate risk.

The table illustrates the greater than 12 month net gap position at the end of the year on the Group's balances excluding wholesale treasury and customer currency balances, which are managed within the treasury risk framework. The gap is driven by product pricing and product mix. The gap is calculated by placing all assets and liabilities at the earliest of their repricing or maturity date and then summing by time band. The aim is to have assets evenly spread so that the Group is not exposed to sudden rate movement. The net position shows the amount that the Group is either over or under invested in the month. A £100m gap position would equate to the Group being exposed to income variation of £1m per annum if rates moved by 1%, so the maximum position equates to approximately £8m income exposure if rates moved by 1%.

	Net great 12 month	
	2011	2010
At the year end	(279)	(204)
Average for the period	(330)	(69)
Maximum sensitivity for the period	806	(876)
Minimum sensitivity for the period	(51)	56

3.1.2 Treasury interest rate risk

Treasury executes short term funding and hedging transactions with the wholesale markets on behalf of the Group and its customers. It also generates incremental income from proprietary trading within strict risk limits. There are two prime measures of risk supplemented by additional controls such as maturity and stop loss limits.

3.1.2.1 Value at risk (VaR)

VaR measures the daily maximum potential gain or loss due to market volatility within a statistical confidence level of 95% and a one day holding period. The VaR methodology used is historical simulation using a time series of one year to latest day and was £0.35m at 31 December 2011 for the Treasury traded portfolios. The VaR methodology has inherent limitations in that market volatility in the past may not be a reliable predictor of the future, and may not reflect the time required to hedge or dispose of the position. Hence VaR is not used as the sole measure of risk.

3.1.2.2 PV100

This illustrates the change in valuation on a fixed income portfolio experienced given a 1% increase and decrease in interest rates for Treasury, representing Treasury banking book and trading book combined. PV100 is the effect on the net present value (NPV) of the Treasury portfolio to a parallel shift of 100 basis points upon the base yield curve. The effects of a 1% increase in interest rates are £15.1m (2010: (£11.0m)) and a 1% decrease (£16.0m) (2010: £9.1m).

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

3. Market risk continued

3.2 Currency risk

The Group's treasury foreign exchange activities primarily:

- provide a service in meeting the foreign exchange requirements of customers;
- maintain liquidity in euros and US dollars by raising funds and investing these to generate a return; and
- perform limited intraday trading and overnight positioning in major currencies to generate incremental income.

The table below provides an analysis of the Group's assets and liabilities by currency:

		31 D	ecember 2011				31	December 2010		
Group	£	\$	€	Other	Total	£	\$	€	Other	Total

The Bank's currency analysis has not been disclosed as it is not materially different from the above Group disclosure.

At 31 December 2011 the Group and Bank's open position was £0.4m (2010: £0.4m) representing a potential loss of £nil given a 3% depreciation in sterling (2010: £nil). The open position is monitored against limits in addition to limits in place on individual currencies. All figures are in £ sterling equivalent.

Unaudited risk management disclosures

The following risk management disclosures, operational risk and additional risks, do not form part of the audited accounts and are not audited.

4. Operational risk

Operational risk includes internal and external fraud, loss or theft of confidential customer information, loss of key personnel, system capacity issues or programme failure and external events over which the Banking Group has limited controls such as terrorist attack.

In order to meet the Banking Group's appetite for operational risk, it ensures appropriate controls are in place to minimise the chance of any significant disruption and to protect our reputation.

Operational risks are identified, managed and mitigated through ongoing risk management practices including risk assessments, formal control procedures and contingency planning. Operational risks and key controls are formally reviewed on a regular basis. Significant operational risks and the associated capital requirements are regularly reported to the ORC, and the RC. These meet regularly to monitor the suitability of the risk management framework and management of significant risks within the Banking Group.

Business continuity is managed by the Operational Risk function and sets out to minimise the risk of disruption in the event of a sudden, unplanned occurrence that could seriously disrupt business operations. This includes developing and exercising crisis and incident management teams to maintain appropriate preparedness in the event of a major operational disruption.

The Banking Group also has a corporate insurance programme to transfer specific risks to insurers as part of its risk management approach.

The Banking Group has a significant change agenda to transform the business. To support this agenda, a transformation risk category has been created to ensure that the management of risks around the design, development and implementation of change is in line with risk appetite.

5. Additional risks

In addition to the significant risks covered above, the following risks are also reported and managed in the Banking Group's risk management framework:

- Co-operative group-wide risks, to include pension, reputation and contagion risk;
- business model and external risk;
- securitisation risk; and
- conduct risk.

5.1 Co-operative group-wide risks

5.1.1 Pension risk

Pension risk is the risk of the Group being unable to meet its pension scheme commitments. Risks are identified at The Co-operative Group level, with the impact of any potential changes to contribution assessed under the Group's risk management framework.

The combined entity is exposed to two distinct areas of pension risk:

- PACE CFS Management Services Ltd (CFSMS) and the Bank are participating members of The Co-operative Group Pension (Average Career Earnings) defined benefit scheme; and
- Britannia Pension Scheme the Group is a participating member of the Britannia Pension Scheme defined benefit and contribution sections (defined benefit section closed to new members since 2001).

The Co-operative Group, alongside the scheme trustee, is responsible for the risk management arrangements for PACE, agreeing suitable contribution rates, investment strategies and for taking professional advice as appropriate.

CFSMS, alongside the scheme trustee, is responsible for the risk management arrangements for the Britannia Pension Scheme, agreeing suitable contribution rates, investment strategies and for taking professional advice as appropriate.

The Group is therefore exposed to potential future increases in required contributions.

5.1.2 Reputation risk

We define reputation risk as a failure to proactively develop, protect and optimise the value of the brands of The Co-operative Banking Group of companies through inappropriate strategic decisions, poor business performance, operational failure or negative external perception.

As part of the assessment and control of this risk, our business performance and risk profile across all of our risk themes are closely monitored and reviewed. We also proactively monitor and manage media coverage and public and customer opinion, and work closely with external rating agencies to ensure a fair and balanced representation. We believe this approach helps maintain member, customer and market confidence.

5.1.3 Contagion risk

Contagion risks are those risks that could originate from elsewhere in the Group impacting upon entities within the Banking Group.

The Banking Risk Officer for the Group reports directly to the Chief Risk Officer (CRO) for The Co-operative Banking Group, who also acts as the Group Risk Director for the wider Co-operative Group. In addition to attending the Banking Group Risk Committee, the CRO also attends The Co-operative Group Risk and Audit Committee. This allows the CRO to have an independent and holistic view of the risk profile across The Co-operative Group.

5.2 Business model and external risk

Business model and external risk arises from changes to the Banking Group's business and the environment in which it operates, specifically the risk of not being able to carry out the Banking Group's business plan and desired strategy.

The Group's strategy is to grow our business in order to achieve the Banking Group's vision of becoming the compelling, co-operative alternative in the markets in which we compete.

The main challenges to the business plan and strategy are the uncertain economic environment, the changing regulatory environment and the significant internal change programme being managed within the Group and the wider Co-operative Group.

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

5. Additional risks continued

The Board and Executive set and monitor the strategic plan in light of this background having considered the stresses that extreme but plausible scenarios could have upon it.

5.3 Securitisation risk

Securitisation is the process by which a group of assets, usually loans, are aggregated into a pool, and sold to bankruptcy remote special purpose entities (SPEs). The pool of mortgage loans is used to back the issuance of new securities, allowing the credit rating of the securities to be separated from the credit rating of the original company. The Group has established securitisation structures as part of its funding activities, using residential mortgage loans as the underlying asset pool. Securitisations provide a diverse source of funding for the Group.

Asset based securitisation investment is assessed using the ratings based approach, under foundation IRB, where risk weight percentages are applied to each deal depending on the external rating, seniority and granularity of the instrument.

Securitisation risk is the residual credit risk arising from retaining an interest in the Group's securitisation companies through the provision of subordinated debt or start up expense loans and liquidity facilities where applicable. However, the majority of the risk and rewards in respect of the underlying mortgage loan pools are retained by the Group. SPEs are included as subsidiaries in the consolidated financial statements with the Group continuing to recognise securitised assets as loans and advances to customers on the balance sheet, and income from the securitised assets being recognised as income.

The Group has only acted as mortgage originator, servicing agent, and liquidity facility provider in respect of its own securitisations. The Group does not provide bridging loans, nor does it act as underwriter or dealer in its securitisations. All transactions are approved at Board level and benefit from relevant accounting and legal advice to ensure compliance with regulatory/statutory rules.

The Group had previously claimed regulatory capital relief in relation to Leek Finance Number Eighteen plc (Leek 18) and Leek Finance Number Nineteen plc (Leek 19) in accordance with the terms of the Prudential Sourcebook for Banks, Building Societies and Investment Firms (BIPRU9). Following the restructuring of these transactions, initially announced in March 2011, the Group was regarded as providing non-contractual support to Leek 18 and Leek 19. Regulatory capital relief for Leek 18 and Leek 19 was therefore discontinued from June 2011 and in respect of future securitisations for the foreseeable future. No outstanding securitisations afford the Group regulatory capital relief.

5.4 Conduct risk

Conduct risk is the failure to ensure the fair treatment of customers leading to poor outcomes for customers.

The environment could create new risks in different ways. New risks could arise through neglecting post sales service and in not properly considering the intended audience in complex new product design, development and sales processes.

The Banking Group mitigates and prevents emerging conduct risk through the application of appropriate risk management, controls and ongoing oversight and monitoring provided by established Risk and Compliance functions.

Significant conduct risks are regularly monitored and reported up to and challenged by the Risk Committee.

Capital management

For the year ended 31 December 2011 All the amounts are stated in £m unless otherwise indicated

Capital resources

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. However, the Group still recognises the need to maintain a balance between the potential higher returns that might be achieved with greater gearing, and the advantages and security afforded by a sound capital position.

Our submissions to the FSA in the period have shown that the Bank and its individually regulated operations have complied with all externally imposed capital requirements.

The Group's capital position remains resilient with a year end core tier one position of 9.6% (2010: 9.6%).

Adequate capitalisation can be maintained at all times even under the most severe stress scenarios including the revised FSA 'anchor' stress scenario.

A capital buffer above Individual Capital Guidance (ICG) is being maintained, demonstrating that there is currently more than sufficient surplus capital to cover the Group's PPI risk.

During the year a number of management actions have been implemented to maintain a sufficient level of capital. These include a £87.0m capital contribution from The Co-operative Banking Group, the restructuring of certain securities issued under a securitisation programme (Leeks 17, 18 and 19) and the exchange and issuance of subordinated debt.

The Group's regulatory capital is analysed into two tiers:

Tier one capital

Tier one capital includes share capital, retained earnings, and non-cumulative irredeemable preference shares. Retained earnings exclude gains or losses on cashflow hedges and available for sale assets.

Tier two capital

Revaluation reserves relating to net gains on equity held in the available for sale financial assets category are included in tier two capital.

The tier two capital includes six subordinated debt issues and two tranches of perpetual subordinated bonds (PSBs). The rights of payment to the holders of this debt are subordinated to the claims of depositors and other creditors of the Bank. More information on these can be found in note 29.

	2011	2010

Total capital resources	2,975.9	2,734.6

The capital ratios reported in the business and financial review are based on the Pillar 1 capital requirement.

Capital allocation

The allocation of capital among specific operations and activities is driven by optimisation of the return achieved on the capital allocated, and is based upon the regulatory capital. Capital allocation is undertaken independently of those responsible for capital management, and is reviewed by ALCO. Each new product must earn at least the Bank's minimum target return on equity.

Basel III

The Group is working towards compliance with the lastest banking accord, Basel III. It expects to be able to comply fully with the new requirements when they become applicable, including the minimum leverage ratio of 3%.

Critical judgments and estimates

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

1. Overview

The Group makes critical judgments and estimates which affect its reported assets, liabilities and profits. Estimates are calculated using various assumptions. Critical judgments and the assumptions used in calculating estimates are continually assessed and reviewed, and are based on historical experience and reasonable expectations of future events. Actual results may differ from these judgments and estimates.

2. Loans and advances

a. Overview

The loan portfolios are reviewed on a continual basis to assess impairment. In determining whether an impairment provision should be recorded, judgments are made as to whether there is objective evidence that a financial asset or portfolio of financial assets is impaired as a result of loss events that occurred after recognition of the asset and by the balance sheet date.

The calculation of impairment loss is based on both the likelihood of a loan or advance being written off and the estimated loss on such a write off.

Where loans are subject to forbearance they may be treated as impaired.

b. Collective provisions

i Retail

Personal advances are identified as impaired by taking account of the age of the debt's delinquency, the product type and the regularity of payments made whilst in arrears. The provision is calculated by applying a percentage rate to different categories and ages of impairment debt. The provision rates reflect the likelihood that the debt in that category/age will be written off or charged off at some point in the future. The rates are based on historical experience and current trends, incorporate the effects of discounting at the customer interest rate and are subject to regular review. The provision is the product of the rate and the balance for the relevant arrears band.

A key estimate within the provisioning model is the percentage of accounts that will be charged off. A 1% change would change the collective provision by £1.2m.

ii. Corporate

A new corporate collective provision, comprising $\mathfrak{L}10.4$ m for Group and $\mathfrak{L}4.7$ m for Bank, has been raised in 2011 reflecting the continuing difficulties and uncertainties currently being experienced in this sector. This provision is based upon a pool of accounts which have been identified as having higher levels of risk. These accounts have been assessed across a risk scale with risk factors of either 30% or 100% attached to each case depending on their position in the scale.

A key estimate within the corporate collective model is collateral valuation. A 10% movement in this estimate would change the provision by £3.0m.

c. Individual provisions

i. Retail

Mortgage accounts are identified as impaired and provided for on an individual basis by taking account of the age of the debt's delinquency on a case by case basis.

A total of $\mathfrak{L}5.3$ bn of impaired Britannia loans and advances to customers were acquired at a deep discount due to estimated future credit losses. This discount is realised on the actual redemptions of the associated mortgages (mainly in Optimum). A key assumption in the judgment of estimated future credit losses is our estimate of future HPI movements. If future HPI movements were to differ from expectations by 5%, the impact on the estimate would be $\mathfrak{L}7.6$ m.

A write back of $\mathfrak{L}20.0$ m of the deep discount has been recognised during 2011 (2010: $\mathfrak{L}15.0$ m) following a review of the other parameters of the model. Other parameters include forecasts of employment levels, interest rates and the number of accounts in arrears. Because of its steadily improving management of arrears levels, the Group believes there is potential for further write backs. However the level of write back recognised is prudent due to the remaining uncertainties in the exact timing of economic recovery.

ii. Corporate

Each corporate account is assessed and allocated a 'risk grade' to enable the Group to monitor the overall quality of its lending assets. Those of lesser quality, where the lending is potentially at risk and provisions for loss may be required, are centrally monitored with specific management actions taken at each stage within laid down procedures and specific provisioning criteria. Provisions represent the likely net loss after realisation of any security.

A key estimate within the corporate individual model is collateral valuation. A 10% movement in this estimate would change the provision by £7.0m.

For further information on credit risk and impairment see the risk management section on pages 48 to 64.

3. Effective interest rate

IAS 39 requires interest income to be recognised on an effective interest rate (EIR) basis, inclusive of directly attributable incremental transaction costs and fees, and discounts and premiums where appropriate.

The EIR basis spreads the interest income over the expected life of the instrument. The expected life of an instrument is the period from its inception up to its redemption or maturity date, ie for the mortgage portfolio it would be its redemption date, whilst for the non-mortgage portfolio it would be its maturity date.

On applying this approach to the mortgage portfolio, judgments are made in relation to estimating its average life. These judgments are made based on specific factors including product terms and historical repayment data. The estimates are updated in each reporting period to reflect actual performance. Key judgment areas, regularly reviewed for both current and expected levels of mortgage balance experience, are the average and total lives of the mortgage portfolio.

An increase or decrease in the average life by one year would increase or decrease gross interest income by 0.5% respectively.

During 2011, the Group's Optimum mortgage portfolio was remodelled to reflect current experience of rising average lives, ie higher mortgage balances than predicted. In updating for this trend, the Group expects a higher level of mortgage balances in the medium term but maintains its view that the total portfolio life will end by the year 2023. Extending the average mortgage lives also impacts on redemption rates of the debt securities in issue. The impact of increasing the mortgage redemptions by 10% per annum relating to debt securities in issue fair value adjustments is to decrease profits by a total of £5.7m in the years up to 2013 and to increase profits by the same amount in the following years up to 2017.

Critical judgments and estimates continued

For the year ended 31 December 2011

All the amounts are stated in £m unless otherwise indicated

4. Provisions for liabilities and charges

Provisions are carried in respect of certain known or forecast future expenditure, as described in note 32.

a. Financial Services Compensation Scheme levy

i. Background

The Financial Services Compensation Scheme (FSCS) provides compensation to customers of financial institutions in the event that an institution is unable to pay claims against it. As a result of a number of institutions' failures during 2008, the FSCS borrowed £19.7bn on an interest only basis initially until March 2012 from HM Treasury (HMT) in order to meet its obligations to the depositors. These borrowings are anticipated to be repaid wholly or substantially from the realisation of the assets of the failed institutions. The FSCS raises annual levies from the banking industry in order to meet its management expenses and compensation cost. The Group has provided £25.0m for its share of levies that will be raised by the FSCS including the interest on the loan from HMT in respect of the levy years to 31 March 2013. The provision includes estimates for the interest that the FSCS will pay on the loan and of the Group's market participation in the relevant periods.

ii. Current expectations of performance

The FSCS has announced new terms for the calculation of the interest being charged on the loan to the FSCS from HMT for the period commencing 1 April 2012 and thereafter. A rate of 12 month LIBOR plus 100bps will be charged.

For every 50bps that 12 month LIBOR is increased, the Group's year end provision for the FSCS levy would increase by £4.6m.

The FSCS has announced that it expects an additional capital levy totalling £802.0m will be charged in three roughly equal instalments beginning in 2013/14. We have complied with FSA guidance in not providing for such costs at this stage.

b. Payment protection insurance (PPI) provision

i. Background

In October 2010 a Judicial Review proceeding was brought by the British Bankers' Association against the FSA and the Financial Ombudsman Service with regard to the assessment and redress of PPI complaints. On 20 April 2011 the review concluded that cases of PPI complaints should be upheld. The Group subsequently announced it would not participate in any appeal against the UK High Court's judgment (note 32).

ii. Current position and expectations of PPI exposure

The Group has recognised a charge in 2011 of £90.0m (2010: £4.3m) for compensation relating to past sale of PPI policies. This provision represents management's best estimate of the anticipated costs of related customer contact and redress, including administration expenses. At 31 December 2011, after redress and operating costs paid during the year, the remaining provision was £61.7m.

The initial provision was based on the FSA's policy statement and industry claims experience. Its calculation required significant judgment by management in determining appropriate assumptions, which include the level of complaints, uphold rates, proactive contact and response rates and Financial Ombudsman Service referral and uphold rates. The remaining provision is currently management's best estimate of future settlements.

A 1% increase in the expected level of complaints would increase the provision by £0.4m.

5. Contingent consideration

At merger, a commitment was made to all former Britannia members that they would receive in their Co-operative dividend payment an amount equal to or above the amount they would have received in Britannia membership reward had Britannia remained a standalone entity. The Group accrued £47.8m for potential supplementary payments, which was treated as contingent purchase consideration, and paid out £9.4m in respect of 2010. The Group has reviewed the assumptions used to calculate the accrual and concluded that, in reasonably foreseeable circumstances, the expected Co-operative dividends are now more than sufficient to meet this commitment. As a consequence, the Group has released £37.3m of the accrual.

The remaining accrual of £1.1m will be used to pay dividends to former Britannia members under the age of 16 who cannot, legally, become members of The Co-operative Group.

6. Perpetual subordinated bonds

The Group's perpetual subordinated bonds are regularly reviewed for their most relevant effective life. The nature of perpetual bonds indicates an infinite life. However, judgment is required in order to fully amortise their associated fair value adjustments arising on merger.

The 2005 £200.0m issue includes an optional call date in 2015. The Group has made no determination as to whether this call date will be exercised. The Group will make any future call decision on an economic basis and with regards to prevailing market conditions subject to appropriate regulatory approval and in accordance with the terms and conditions of the notes. During 2011, given the Group's unconfirmed call intention, a change of effective life from 2029 to 2015 on the 2005 callable issue has been made. The impact of this change is to reduce profit to 2011 by £21.4m and to increase profit by the same amount in the subsequent periods to 2029. Consequently, as at 2011, the sensitivity of reamortising the 14 years between 2029 and 2015 is on average £1.5m per annum.

For the remaining bonds, the impact of a five year reduction in their effective lives as at 31 December 2011 would reduce profit to 2011 by £5.0m and increase profit by the same amount in the subsequent periods to 2029.

Notes to the financial statements

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

1. Segmental information

During 2010, the Group reported its operating segments as Retail, Corporate and Markets (CAM) and Other, with CAM being further split into Corporate, Wholesale, Optimum and Platform, and Business Services. This split was in line with the information presented to the Board, the chief operating decision making body of the Group. The Group's internal reporting structure and transfer pricing methodology has been revised in 2011. The Group is now split into Retail, Corporate and Business Banking (CABB) and Other, based on differences in products and services. This level of information is regularly presented to the Board. Revenues are attributed to the segment in which they are generated. Transactions between the reportable segments are on normal commercial terms. Internal charges and transfer pricing adjustments have been reflected in each segment. The comparative information as at 31 December 2010 has been restated as appropriate.

The Bank is comprised of the following main reportable segments:

- Retail customer focused products and services for individuals, sole traders and small businesses. This includes mortgages, credit cards, consumer loans, current accounts and savings products;
- CABB customer focused products and services for businesses and mortgage lending via intermediaries. This includes large corporate and commercial entities. It includes loans, asset finance, current accounts and savings products. It also includes the Optimum closed book of acquired mortgage portfolios and mortgages originated via intermediaries by Britannia prior to its merger with the Bank; and
- Other includes Treasury, other central costs and Unity Trust Bank. Treasury comprises asset and liability management across the balance sheet, including trading activities. Unity Trust is a subsidiary bank operating in the corporate banking and social economy sectors on behalf of trade unions.

Income tax								(4.4)
Profit for the financial year								49.8

The Board relies primarily on net interest revenue to assess the performance of each segment. As a result interest margin is reported on a net basis to the Board. The Group's activities are primarily in the UK.

3. Directors' emoluments

	2011 £'000	2010 £'000
Executive directors	1,645	4,002
Compensation for loss of office	926	_
	2,571	4,002

Directors' activities are undertaken across The Co-operative Banking Group. The figures above reflect the Group's share of these services.

Retirement benefits are accruing to one director (2010: five) under defined benefit schemes.

The aggregate of emoluments and amounts receivable under incentive schemes of the highest paid director was £549k (2010: £1,196k). Accrued pension under defined benefit pension schemes at the year end was £15k (2010: £140k).

All non-executive directors are appointed and their directors' fees are determined and paid by The Co-operative Group and therefore no amounts are shown above (2010: £nil). Further details of directors' emoluments are included in the remuneration report on pages 19 to 28. The remuneration report is unaudited.

4. Net interest income

	2011	2010
Interest receivable and similar income		
On financial assets not at fair value through income or expense:		
On loans and advances to customers	1,482.4	1,605.0
On loans and advances to banks	14.3	9.3
On investment securities	210.6	277.5
	1,707.3	1,891.8
On financial assets at fair value through income or expense:		
Net interest expense on financial instruments hedging assets	(128.1)	(168.9)
Net interest income/(expense) on financial instruments not in a hedging relationship	4.5	(9.6)
	1,583.7	1,713.3

Included within interest receivable is £9.9m (2010: £9.8m) relating to profit on sale of investment securities – available for sale.

Interest income accrued on impaired financial assets during the year was £32.3m (2010: £90.5m). Interest due to unwinding of discount on impairment provisions relating to impaired financial assets amounted to £2.4m (2010: £2.2m).

In the year, the Optimum credit fair value adjustment has been revalued resulting in additional income of £20.0m (2010: £15.0m).

	2011	2010
Interest expense and similar charges		
On financial liabilities not at fair value through income or expense:		
On customer accounts	524.4	471.9
On bank and other deposits	230.9	515.5
On subordinated liabilities	98.5	43.9
On perpetual subordinated bonds	42.0	17.2
	895.8	1,048.5
On financial liabilities at fair value through income or expense:		
Net interest expense on financial instruments hedging liabilities	52.0	56.4
Net interest expense on financial instruments not in a hedging relationship	0.9	_
	948.7	1,104.9

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

5. Net fee and commission income

	Before significant items 2011	Significant items 2011	After significant items 2011	Before significant items 2010	Significant items 2010	After significant items 2010
Fee and commission income						
On items not at fair value through income or expense	238.5	(90.0)	148.5	235.9	(13.1)	222.8
On trust or fiduciary activities that result from holding or investing in assets on behalf of others	1.1	_	1.1	1.3	_	1.3
	239.6	(90.0)	149.6	237.2	(13.1)	224.1
Fee and commission expense						
On items not at fair value through income or expense	46.0	_	46.0	52.2	_	52.2
On items at fair value through income or expense	8.4	_	8.4	8.1	_	8.1
	54.4	-	54.4	60.3	_	60.3

The significant item in 2011 of $\mathfrak{L}90.0$ m (2010: $\mathfrak{L}4.3$ m) is a provision for customer compensation relating to past sales of PPI in response to the FSA's policy statement published on 10 August 2010. The Bank stopped selling non-mortgage PPI at the beginning of 2009. The remaining significant item in 2010 of $\mathfrak{L}8.8$ m relates to provisions made for customer redress.

6. Net trading income

	2011	2010
Foreign exchange	3.7	6.5
Other interest rate instruments	0.8	(1.9)
	4.5	4.6

Foreign exchange net trading income includes gains less losses from spot forward and forward contracts, options, futures and translated foreign currency assets and liabilities.

Other interest rate instruments include the result of transacting in government securities, money market instruments, interest rate and currency swaps, options and other derivatives.

7. Other operating income

	2011	2010
Profit on sale of investment securities – loans and receivables	37.2	_
Rent receivable from investment properties (note 21)	7.9	6.5
Other rent receivable	1.3	1.7
Change in fair value of investment properties (note 21)	(0.1)	(0.1)
	46.3	8.1

The profit on sale of investment securities arose from the restructuring of a portfolio of assets. Profit on smaller disposals in the normal course of business is included in net interest income.

8. Operating expenses

	Before significant items 2011	Significant items 2011	After significant items 2011	Before significant items 2010	Significant items 2010	After significant items 2010
Staff costs (note 9)	294.7	34.8	329.5	292.6	29.6	322.2
Administrative expenses	175.6	18.5	194.1	224.9	17.1	242.0
Depreciation of property, plant and equipment (note 22)	19.6	-	19.6	24.8	-	24.8
Amortisation of intangible fixed assets (note 20)	6.4	-	6.4	4.1	_	4.1
Loss on sale of property, plant and equipment	0.3	-	0.3	0.8	_	0.8
Operating lease rentals	28.4	-	28.4	27.7	_	27.7
Property provisions for liabilities and charges provided in the year (note 32)	0.4	_	0.4	3.4	_	3.4
Property provisions for liabilities and charges released during the year (note 32)	(0.3)	_	(0.3)	(0.3)	_	(0.3)
Other provisions for liabilities and charges provided in the year (note 32)	0.1	_	0.1	3.5	_	3.5
Other provisions for liabilities and charges released during the year (note 32)	(0.1)	_	(0.1)	(12.3)	_	(12.3)
Direct expenses from investment properties that generated rental income in the year	3.5	_	3.5	2.6	_	2.6
Direct expenses from investment properties that did not generate rental income in the year	0.1	_	0.1	0.1	_	0.1
	528.7	53.3	582.0	571.9	46.7	618.6

The significant items in 2011 and 2010 relate to a programme of investment and integration.

No expenditure has been incurred in respect of the Government's Bank Levy since the relevant aggregate liabilities of the Group are below the qualifying threshold.

9. Staff costs

	Before significant items 2011	Significant items 2011	After significant items 2011	Before significant items 2010	Significant items 2010	After significant items 2010
Wages and salaries	210.8	14.1	224.9	221.0	16.5	237.5
Social security costs	20.9	0.7	21.6	20.6	0.3	20.9
Pension costs:						
Defined benefit plans (note 34)	0.2	-	0.2	0.2	-	0.2
Defined contribution plans (note 34)	29.0	0.8	29.8	28.2	0.5	28.7
Other staff costs	33.8	19.2	53.0	22.6	12.3	34.9
	294.7	34.8	329.5	292.6	29.6	322.2

The Bank staff costs included above are £262.5m before significant items and £297.4m after significant items (2010: £265.2m before significant items, £294.8m after significant items).

Average number of employees

The average number of persons working for the Group and the Bank during the year is as follows:

		Group		
	No. of employees 2011	No. of employees 2010	No. of employees 2011	No. of employees 2010
Full time	6,260	6,499	5,751	5,843
Part time	2,104	2,247	1,988	2,117
	8,364	8,746	7,739	7,960

Employee activities are undertaken across The Co-operative Banking Group and the figures above reflect the Group and Bank's share of these services.

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

10. Income tax

	Before significant items 2011	Significant items 2011	After significant items 2011	Before significant items 2010	Significant items 2010	After significant items 2010
Current tax – current year	(3.4)	(38.0)	(41.4)	28.6	(16.7)	11.9
Current tax – prior year	(6.2)	-	(6.2)	0.8	_	8.0
Deferred tax – current year (note 33)	61.7	-	61.7	2.5	_	2.5
Deferred tax – prior year (note 33)	(9.7)	-	(9.7)	(2.1)	_	(2.1)
	42.4	(38.0)	4.4	29.8	(16.7)	13.1

Further information about deferred income tax is presented in note 33. The tax on the Group's profit before taxation differs from the theoretical amount that would arise using the corporation tax rate in the UK as follows:

	2011	2010
Profit before taxation	54.2	48.9
Tax calculated at a rate of 26.49% (2010: 28%)	14.4	13.7
Effects of:		
Preference share interest not deductible for tax purposes	1.5	1.6
Expenses not deductible for tax purposes	0.1	(2.3)
Depreciation of expenditure not qualifying for capital allowances	1.2	2.2
Profits taxed at lower rates	(1.2)	(3.7)
Non-taxable income	(0.1)	(1.2)
Adjustments to tax charge in respect of prior periods	(15.9)	(1.3)
Change in rate of deferred tax (note 33)	4.7	4.3
Other differences	(0.3)	(0.2)
	4.4	13.1

The adjustments to tax charge in respect of prior periods of £15.9m includes £13.0m relating to the taxation of contingent consideration (page 74).

11. Group profit attributable to equity shareholders dealt with in the accounts of The Co-operative Bank plc

	Before significant items 2011	Significant items 2011	After significant items 2011	Before significant items 2010	Significant items 2010	After significant items 2010
Net profit/(loss) attributable to equity shareholders						
of the Bank	11.9	(105.2)	(93.3)	108.1	(35.0)	73.1

As permitted by Section 408 of the Companies Act 2006, the income statement of The Co-operative Bank plc has not been presented separately.

12. Earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to equity shareholders of the Bank by the weighted average number of ordinary shares in issue during the year.

	Before significant items 2011	Significant items 2011	After significant items 2011	Before significant items 2010	Significant items 2010	After significant items 2010
Profit attributable to equity shareholders of the Bank	153.3	(105.3)	48.0	79.5	(43.1)	36.4
Ordinary shares in issue (millions)						
At the beginning of the year	8,200.0	8,200.0	8,200.0	4,600.0	4,600.0	4,600.0
Issued in the year (note 38)	_	_	_	3,600.0	3,600.0	3,600.0
At the end of the year	8,200.0	8,200.0	8,200.0	8,200.0	8,200.0	8,200.0
Weighted average number of ordinary shares in issue (millions)	8,200.0	8,200.0	8,200.0	4,767.7	4,767.7	4,767.7
Basic earnings per share (expressed in pence per share)	1.87	(1.28)	0.59	1.67	(0.90)	0.77

13. Cash and balances at central banks

	Group		Bank	
	2011	2010	2011	2010
Cash in hand	280.3	255.8	280.3	255.8
Balances with the Bank of England other than mandatory reserve deposits	6,378.3	1,443.7	6,378.3	1,443.7
Included in cash and cash equivalents	6,658.6	1,699.5	6,658.6	1,699.5
Mandatory reserve deposits with the Bank of England (note 35)	38.0	36.1	38.0	36.1
	6,696.6	1,735.6	6,696.6	1,735.6

Mandatory reserve deposits are not available for use in the Group and Bank's day to day operations, are non-interest bearing and are not included in cash and cash equivalents.

14. Loans and advances to banks

		Group		Bank	
	2011	2010	2011	2010	
Items in course of collection from other banks	123.2	139.9	123.2	139.7	
Placements with other banks	896.6	1,338.8	885.1	1,326.8	
Included in cash and cash equivalents	1,019.8	1,478.7	1,008.3	1,466.5	
Other loans and advances to banks	986.7	915.4	291.8	262.1	
	2,006.5	2,394.1	1,300.1	1,728.6	

15. Loans and advances to customers

	Group		Bank	
	2011	2010	2011	2010
Gross loans and advances	34,058.0	35,199.9	22,993.1	24,055.4
Less: allowance for losses on loans and advances to customers	(292.0)	(222.6)	(258.1)	(210.5)
	33,766.0	34,977.3	22,735.0	23,844.9

Group and Bank loans and advances to customers include £114.1m (2010: £74.1m) of financial assets at fair value through income or expense designated at initial recognition to eliminate or significantly reduce a measurement or recognition inconsistency. Of these, £36.7m (2010: £20.0m) are secured by real estate collateral.

Loans and advances to customers include £9,099.8m (2010: £10,611.1m) securitised under the Group's securitisation and covered bond programmes. The Group remains exposed to substantially all of the risks and rewards of ownership of these assets. Included within Group deposits by banks (note 25) are £61.9m (2010: £67.2m) of loans from external third parties and within Group debt securities in issue (note 28) are £3,989.4m (2010: £3,099.8m) of fixed and floating rate notes, all secured on these mortgage assets. Included within the Bank amounts owed by other Co-operative Group undertakings are £4,749.5m (2010: £4,368.4m) of floating rate notes issued to the Bank and £1,000.3m (2010: £2,796.7m) of other loans, secured on these mortgage assets.

Concentration of exposure

The Group's exposure is virtually all within the UK. The following industry concentrations of gross advances before provisions are considered significant:

	•	•	-	
		Group		Bank
	2011	2010	2011	2010
Property and construction	4,247.1	4,544.6	4,273.2	2,606.9
Retail distribution and services	391.6	500.1	268.6	357.0
Business and other services	4,445.1	3,808.1	2,541.2	3,683.5
Personal – unsecured	1,518.1	1,613.1	1,518.1	1,613.1
Personal – secured	23,456.1	24,734.0	14,392.0	15,794.9
	34,058.0	35,199.9	22,993.1	24,055.4

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

15. Loans and advances to customers continued Allowance for losses on loans and advances

Group	Individual retail	Individual corporate	Collective retail	Collective corporate	Total

At the end of the year	2.9	49.4	157.8	0.4	210.5

A new corporate collective provision for Group of $\mathfrak{L}10.4$ m and for Bank of $\mathfrak{L}4.7$ m has been recognised in 2011 reflecting the continuing difficulties and uncertainties currently being experienced in this sector (refer to page 7).

The net impairment charge in the Group income statement is £120.5m (2010: £97.3m). This includes amounts recovered by the Group of £10.0m (2010: £9.3m) against amounts previously written off. The recoveries have been made from the mortgagors and from other parties involved in the origination or acquisition of the mortgages.

15. Loans and advances to customers continued

Loans and advances to customers include finance lease receivables:

	Group		Bank	
	2011	2010	2011	2010
Gross investment in finance leases may be analysed as follows:				
No later than one year	26.1	28.4	20.2	22.4
Later than one year and no later than five years	62.8	66.2	41.9	44.8

Later than one year and no later than five years	40.9	44.9	27.5	32.0
Later than five years	63.4	63.0	49.2	44.6
·	123.4	129.1	92.3	94.6

There are no unguaranteed residual values for any of the finance leases. The Group enters into finance lease and hire purchase arrangements with customers in a wide range of sectors including transport, retail and utilities. The accumulated allowance for uncollectible minimum lease payments receivable is £0.1m (2010: £0.8m).

Fair value adjustments for hedged risk

The Group has entered into interest rate swaps that protect it from changes in interest rates on the floating rate liabilities that fund its portfolio of fixed rate mortgages. Changes in the fair values of these swaps are offset by changes in the fair values of the fixed rate mortgages. The changes in fair value of fixed rate mortgages are disclosed on the balance sheet as fair value adjustments for hedged risk immediately below the loans and advances to customers.

Fair value adjustments to loans and advances to customers attributable to portfolio hedged risk in the Group are £366.3m (2010: £166.8m) and in the Bank are £365.8m (2010: £164.6m).

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

17. Derivative financial instruments

The Bank, as principal, has entered into various derivatives either as a trading activity, which includes proprietary transactions and customer facilitation, or as a hedging activity for the management of interest rate risk, equity risk and foreign exchange rate risk. Positive and negative fair values have not been netted as the Group does not have a legal right of offset.

Derivatives held for trading purposes

The trading transactions are wholly interest rate related contracts including swaps, caps and floors, forward rate agreements and exchange traded futures.

Trading transactions include derivatives where the Bank enters into a transaction to accommodate a customer together with the corresponding hedge transaction.

Non-trading derivatives

Non-trading transactions comprise derivatives held for hedging purposes to manage the asset and liability positions of the Group. Derivatives used to manage interest rate related positions include swaps, caps and floors, forward rate agreements and exchange traded futures. The foreign exchange rate positions are managed using forward currency transactions and swaps. Equity risk is managed using equity swaps.

During the year the Bank has entered into fair value hedges to mitigate price movements due to interest rate sensitivities.

Total recognised derivative assets/(liabilities)	975.6	(702.4)	704.7	(697.4)

The derivatives designated as cashflow hedges are interest rate swaps used to hedge interest rate risk in the Bank's retail lending operations. Cash flows are hedged by quarterly time periods for durations up to ten years. During the year there were no forecast transactions for which hedge accounting had previously been used but are no longer expected to occur.

The number of non-margin exchange traded contracts held by the Bank as at 31 December 2011 was nil (2010: nil).

During 2011, in line with industry best practice, the Bank moved from using LIBOR yield curves to using overnight indexed swap (OIS) yield curves in the valuation of cash collateralised derivatives. The net loss in the year relating to this change was £6.0m.

The 2010 comparatives for the Group and Bank reflect a reclassification of £43.7m to derivatives from other assets.

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

19. Goodwill

	Gro	oup and Bank
	2011	2010
Net book amount		
At the beginning of the year and end of the year	0.6	0.6

The Bank's goodwill was recognised in 2009 and relates to the transfer of engagements of Britannia Building Society.

In accordance with IAS 38, the goodwill has been assessed as having an indefinite useful life. The Group tests the asset for impairment by comparing its recoverable amount, determined in accordance with IAS 36, with its carrying amount. The key assumptions used in the calculation are:

- forecast Co-operative Bank operating profits, excluding fair value amortisations, into perpetuity;
- a tax rate of 26% for 2012, falling to and remaining at 25% per annum thereafter; and
- a discount rate of 11% applied to the net operating profit after tax cash flows.

The calculations have been flexed to assess the sensitivities to reasonable changes in the already conservative assumptions. This sensitivity analysis did not indicate any likely impairment of the goodwill.

At the beginning of the year	4.1	39.7	43.8	2.6	42.3	44.9

Internally generated intangible assets consist of software development costs.

Other intangible assets consist of a core deposit intangible of $\pounds 44.0m$ and a brand intangible of $\pounds 2.0m$. The brand intangible has an indefinite useful life and is not amortised but is subject to an annual impairment review, using the same assumptions as those used for goodwill (note 19). On the basis of this review the brand is considered to be unimpaired.

21. Investment properties

	Gro	oup
	2011	2010
Fair value		
At the beginning of the year	162.3	137.7
Additions – acquisitions	9.2	21.6
Additions – subsequent expenditure	2.1	3.6
Disposals	(0.8)	(0.5)
Changes in fair value (note 7)	(0.1)	(0.1)
At the end of the year	172.7	162.3

All investment properties are held to generate rental income until such time that the Group considers it appropriate to realise its investment. Investment properties are carried at fair value.

The range of yields applied to the net annual rental income to determine the fair value of property is 3% to 8%.

The Group lets investment properties on Assured Shorthold Tenancy agreements, most of which are for contract periods of no more than 12 months. The future minimum lease receipts under non-cancellable operating leases are £3.0m (2010: £2.4m). The Group has not recognised any contingent rent in the year (2010: £nil). None of the lease agreements are individually significant.

Included in Group other operating income for the year is £7.9m (2010: £6.5m) of rental income relating to investment properties (note 7).

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

	2011	2010	2011	2010
Items in course of collection	48.7	45.3	48.7	45.3
Deposits from other banks	3,254.0	2,893.3	3,191.1	2,825.5
	3,302.7	2,938.6	3,239.8	2,870.8

Included within deposits from other banks are liabilities of £1,703.2m (2010: £1,349.1m) secured on investment securities with a carrying value of £2,114.4m (2010: £1,550.9m) which have been sold under sale and repurchase agreements (note 35).

26. Customer accounts

		Group		Bank
	2011	2010	2011	2010
Retail	26,429.2	25,993.6	25,631.2	25,228.9
CABB	7,648.4	5,146.6	6,684.1	4,076.6
Other	913.0	1,179.8	354.8	606.5
	34,990.6	32,320.0	32,670.1	29,912.0

The Group has entered into interest rate swaps that protect it from changes in interest rates on the floating rate assets that are funded by its fixed rate customer accounts. Changes in the fair values of these swaps are offset by changes in the fair values of the fixed rate customer accounts. Included within customer accounts are 'fair value hedged' fixed rate accounts with a total nominal value of £3.0m (2010: £84.7m) against which there are fair value adjustments for hedged risk of £(0.4)m (2010: £0.2m), giving a total carrying value of £2.6m (2010: £84.9m).

27. Customer accounts – capital bonds

		Group		Bank
	2011	2010	2011	2010
Retail	1,429.8	1,794.7	1,397.3	1,744.0

The capital bonds are fixed term customer accounts with returns based on the movement in an index (eg FTSE 100) over the term of the bond.

The capital bonds have been designated on initial recognition at fair value through income and expense and are carried at fair value.

The fair values for the capital bonds are obtained on a monthly basis from the swap counterparties. These external valuations are reviewed independently using valuation software to ensure the fair values are priced on a consistent basis.

None of the change in the fair value of the capital bonds is attributable to changes in the liability's credit risk.

The maximum amount the Group would contractually be required to pay at maturity for all the capital bonds is £1,429.6m (2010: £1,756.0m).

The Group uses swaps to create economic hedges against all of its capital bonds. The gain on capital bonds in the income statement for the year is £24.8m (2010: £28.5m). However, taking into account changes in fair value of the associated swaps, the net impact to the income statement for the year is a gain of £0.6m (2010: loss of £0.3m).

28. Deht securities in issue

	Group		Bank	
	2011	2010	2011	2010
Certificates of deposit	252.1	638.8	252.1	638.8
Commercial paper	-	20.1	_	20.1
Fixed and floating rate notes	3,912.7	3,553.3	1,178.9	1,197.9
	4,164.8	4,212.2	1,431.0	1,856.8

The Group has entered into cross currency interest rate swaps that protect it from changes in exchange rates and interest rates on its debt securities in issue. Changes in the fair values of these swaps are largely offset by changes in the sterling equivalent carrying value of the debt securities in issue.

Debt securities in issue include fixed and floating rate notes, the majority of which are secured on portfolios of variable and fixed rate mortgages. The notes are redeemable in part from time to time, such redemptions being limited to the net capital received from mortgagors in respect of the underlying assets. There is no requirement for the Group to make good any shortfall out of general funds. The maturity date of the notes matches the maturity date of the underlying assets.

	1,258.8	975.4

Step up callable subordinated notes 2019

The notes were issued on 1 April 2004 at a discount of 0.946%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an interest rate of 5.875% per annum to (but excluding) 2 April 2014, and thereafter the interest rate will be determined by reference to the gross redemption yield on the five year benchmark gilt, and a margin of 2.25%. Interest is payable annually in arrears on 2 April.

The Bank may redeem all, but not less than all, of the notes at their principal amount on 2 April 2014.

60,000,000 9.25% non-cumulative irredeemable preference shares of £1 each

The preference shares carry the right to a fixed non-cumulative preferential dividend on the capital for the time being paid up, at the rate of 9.25% per annum exclusive of any associated tax credit. The dividends are payable on 31 May and 30 November each year and take priority over dividends to any other class of share in the capital of the Bank.

On a return of capital on winding up, the assets of the Bank shall be applied in repaying the preference share capital in priority to any payments to the holders of any other class of shares in the capital of the Bank. The amount receivable by the holders of the preference shares shall be the greater of the capital paid up or the average guoted price during the three months immediately preceding the date of the notice convening the meeting to consider the resolution to wind up.

The holders of the preference shares shall have the right to vote at a general meeting of the Bank only if and when, at the date of the notice convening the meeting, the dividend due to them has been in arrears for six months or more or if a resolution is to be proposed at the meeting abrogating or varying their rights or privileges or for the winding up of the Bank or other return of capital and then only on that resolution.

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

29. Other borrowed funds continued

Floating rate subordinated notes 2016

The notes were issued on 18 May 2006 at a discount of 0.14%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes are denominated in euros and interest is calculated at three months EURIBOR plus a margin of 0.28%. From 18 May 2011 interest has been calculated at three months EURIBOR plus a margin of 0.78%. The first interest coupon was paid in August 2006.

The notes were hedged with a cross currency swap converting the exposure into sterling which paid a floating rate of three months LIBOR with a margin on interest coupon of 0.34125% and received a floating rate of three months EURIBOR plus a margin on interest coupon of 0.28%. The cross currency swap matured on 18 May 2011.

On 28 April 2011 the Bank redeemed €149.2m of the notes (representing 81% of the amount outstanding) leaving €34.9m outstanding. The Bank had the option to call the outstanding notes in whole but not in part on the interest payment date falling on or nearest to May 2011, and now at any interest payment date thereafter subject to prior consent of the Financial Services Authority.

5.625% fixed rate subordinated notes 2021

The notes were issued on 16 November 2006 at a discount of 0.189%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 5.625% up to and including the interest payment date on 16 November 2016, when the interest basis changes to floating rate. During the fixed rate period, interest is payable semi-annually in arrears on 16 May and 16 November.

From 17 November 2016, the notes carry a floating interest rate of three months LIBOR plus a margin of 1.75%. Interest is payable quarterly in arrears on 16 February, 16 May, 16 August and 16 November, commencing on the interest payment date falling in February 2017 up to and including the maturity date.

The Bank may redeem all, but not less than all, of the notes at the principal amount on 16 November 2016, and on any quarterly interest payment date thereafter.

9.25% fixed rate subordinated notes 2021

On 28 April 2011 the Bank issued £275.0m fixed rate subordinated notes due 2021, issued at par.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 9.25% up to (but excluding) 28 April 2021. Interest is payable annually in April.

There is no option to redeem the notes early.

Fixed rate subordinated notes 2024

The notes were issued on 17 March 2004 at a discount of 1.148%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 5.75% to 2 December 2019 (reset date). During this period the notes are hedged with interest rate swaps that convert the interest rate payable into floating rates at six months LIBOR plus a margin of 0.72%. The fixed receipt leg of the swap is received annually to match the payment to the noteholders. The floating payment leg of the swap is payable semi-annually in June and December. The interest rate swaps mature on 2 December 2019.

From the reset date the interest rate will be calculated based on the Five Year Benchmark Gilt rate plus a margin of 1.94%. The Five Year Benchmark Gilt rate being the Gross Redemption Yield determined by the UK government security having a maturity date falling on or nearest the fifth anniversary of the determination date (the determination date being two days prior to the reset date), converted to an annualised yield. The Gross Redemption Yield being calculated on the basis set out by the UK Debt Management Office in the publication 'Formulae for Calculating Gilt Prices from Yields'. From the reset date the interest will be paid annually in arrears until maturity or redemption.

The notes are callable in whole but not in part, at the principal amount, on 2 December 2019, subject to the prior consent of the Financial Services Authority.

Fixed rate subordinated notes 2033

The notes were issued on 28 March 2002 at a discount of 0.93%.

The notes are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of noteholders will be subordinated in right of payment to the claims of depositors and other creditors of the Bank.

The notes carry an annual interest rate of 5.875% to maturity. Interest is payable semi-annually in March and September.

Of the notes, £100m are hedged with interest rate swaps that have a floating payment leg at six months LIBOR payable in March and September. The fixed interest rate receivable legs on the swaps are £25m at 5.405% and £75m at 5.225%. The semi-annual interest receivable leg on the swap is matched to the dates on the notes.

29. Other borrowed funds continued

Perpetual subordinated bonds

Perpetual subordinated bonds (PSBs) with a par value of £110m were issued in 1992 at a discount of 0%. PSBs with a par value of £200m were issued in 2005

Both the £110m and £200m PSBs are an unsecured obligation of the Bank and in the event of the winding up of the Bank, the claims of the bondholders will be subordinated in right of payment of all creditors (including subordinated creditors) of the Bank.

The PSBs with a par value of £110m carry an annual interest rate of 13%. Interest is payable semi-annually in January and July.

The PSBs with a par value of £200m carry an annual interest rate of 5.5555% up until the reset date. This coupon is payable semi-annually in June and December. From the reset date of 14 December 2015 the interest rate will be amended to the rate for three month deposits in sterling plus a margin of 2.05% per annum. The interest payments will then be made quarterly in arrears in March, June, September and December, with the interest resetting at each interest payment date.

During the period up until the reset date the PSBs are hedged with an interest rate swap that converts the interest rate payable into floating rates at six months LIBOR plus a margin of 1.175%. The semi-annual interest receivable and payable on the swap is aligned to the interest payment dates of the notes. The interest rate swap matures on 14 December 2015.

Given prior relevant supervisory consent, the Bank may elect to repay all, but not less than all, of these PSBs on 14 December 2015 or on any interest payment date thereafter at their principal amount.

30. Other liabilities

		Group		Bank

The Group has a number of leasehold properties available for rent. Provisions are made when either the sub-lease income does not cover the rental expense or the property is vacant. The provision is based on the expected outflows during the remaining periods of the leases using a discount rate of 11%.

FSCS levies

In common with other FSA authorised financial institutions doing business in the UK, the Group contributes to the Financial Services Compensation Scheme (FSCS). The FSCS covers financial institutions authorised to do business in the UK. When an institution is unlikely, or likely to be unable, to pay claims against it, its customers may be able to claim compensation from the FSCS. The FSCS raises funds to meet the known compensation claims through levies on other FSA authorised institutions

As a result of a number of institutions failing during 2008, the FSCS received funds from HM Treasury in order to meet its obligations to depositors. These borrowings are anticipated to be repaid wholly or substantially from the realisation of the assets of the failed institutions.

The FSCS raises annual levies from the banking industry in order to meet its management expenses and compensation costs. The annual levies are based upon each individual institution's proportion of the total market protected deposits at 31 December each year.

The Group has provided £25.0m (2010: £20.9m) for its share of the levies that will be raised by the FSCS, including the interest on the loan from the HM Treasury, in respect of the levy years ended 31 March 2012 and 31 March 2013.

At the date of these financial statements, it is not possible to estimate whether there will ultimately be additional levies on the industry, the level of the Group's market participation or other factors that may affect amounts or the timing of amounts that may ultimately become payable, nor the effect that such levies may have upon operating results in any particular year.

The Financial Services Commission in the Isle of Man operates a similar scheme. Britannia International Limited has provided £nil for the year ended 31 December 2011 in respect of this scheme (2010: £0.3m).

Provisions have been made in respect of potential customer compensation claims relating to past sales of PPI. Claims are investigated on an individual basis and, where appropriate, compensation payments are made. For a number of years until January 2009, the Bank, along with many other financial services providers, sold PPI alongside non-mortgage credit products.

The FSA issued a policy statement in August 2010 which amended the 'Disputes Resolution: Complaints' section of the FSA Handbook, setting out new rules for handling complaints, including complaints of PPI mis-selling. The new rules were challenged by the BBA which launched a judicial review heard in January 2011. The results of the review were announced on 20 April 2011 and the High Court dismissed the BBA arguments. Consequently the Bank must comply with the policy statement which requires complainants to receive adequate redress and the Bank to complete a proactive review of all past business to identify mis-sold policies where no complaint has been made. An additional provision of £90.0m has been recognised in the year (note 5), in respect of the expected cost to the Bank of carrying out this work and paying compensation.

The release of other provisions during 2010 relates to a disputed claim which was resolved during the year.

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

33. Deferred tax

Deferred taxes are calculated on all temporary differences under the liability method using an effective tax rate of 25% (2010: 27%).

The movements on the deferred tax accounts are as follows:

	Gr	oup	В	ank
	2011	2010	2011	2010
Net deferred tax at the beginning of the year	87.0	86.1	154.0	210.3
Income statement charge	(61.7)	(2.5)	(44.5)	(57.8)
Prior year adjustments	9.7	2.1	9.4	0.2
Charged to equity:				
Unrealised appreciation on investments	0.4	_	0.4	_
Pensions and other post-retirement benefits	(0.1)	0.1	(0.1)	0.1
Cashflow hedges	(8.9)	1.2	(8.9)	1.2
Net deferred tax at the end of the year	26.4	87.0	110.3	154.0
Components of net deferred tax:				
Deferred tax asset	137.5	203.3	110.3	154.0
Deferred tax liability	(111.1)	(116.3)	_	_
	26.4	87.0	110.3	154.0
Net deferred tax comprises:				
Cashflow hedges	(22.4)	(13.4)	(22.4)	(13.4)
Unrealised appreciation on investments	(0.7)	(1.1)	(0.7)	(1.1)
Capital allowances on fixed assets	28.5	32.6	29.4	33.6
Capital allowances on assets leased to customers	(2.7)	(3.5)	0.6	0.2
Pensions and other post-retirement benefits	0.9	1.0	0.9	1.0
Fair value adjustments	(3.4)	34.5	98.9	129.0
Other temporary differences	26.2	36.9	3.6	4.7
	26.4	87.0	110.3	154.0

Other temporary differences for the Group of £26.2m (2010: £36.9m) include deferred tax assets/liabilities as a result of loss provisions on mortgage assets held by Special Purpose Entities (SPEs), taxation of SPEs under the securitisation regime and spreading of the tax effect of IFRS transitional adjustments.

The deferred tax charge in the income statement comprises the following temporary differences:

	Gro	Group		Bank	
	2011	2010	2011	2010	
Capital allowances on fixed assets	4.0	4.2	4.1	4.3	
Capital allowances on assets leased to customers	(0.7)	(0.5)	(0.2)	(0.2)	
Fair value adjustments	35.7	(44.3)	27.8	33.4	
Other temporary differences	13.0	41.0	3.4	20.1	
	52.0	0.4	35.1	57.6	

The Budget on 23 March 2011 announced that the UK corporation tax rate would reduce from 28% to 23% over a period of four years. The first reduction in the UK corporation tax rate from 28% to 26% was substantively enacted on 29 March 2011 and was effective from 1 April 2011. The budget on 21 March 2012 announced that the UK corporation tax rate would reduce by an additional one percent to 24% from April 2012 with further reductions to 23% in 2013 and 22% in 2014. These rate changes will reduce the Group's future current tax charge accordingly. The reduction in the UK corporation tax rate from 26% to 25% with effect from 1 April 2012 was substantively enacted on 5 July 2011. The tax disclosures for the period reflect deferred tax at the 25% substantively enacted rate at the balance sheet date. It has not yet been possible to quantify the full anticipated effect of the further rate reduction, although this will further reduce the Group's future tax charge and reduce the Group's deferred tax assets/liabilities.

The Group has traded profitably and expects that the deferred tax asset will be recoverable against future profits.

34. Pensions

Defined contribution basis

The Group participates in The Co-operative Group Pension (Average Career Earnings) Scheme (the PACE scheme). This scheme is a defined benefit scheme, the assets of which are held in a separate fund administered by trustees. As a group-wide pension scheme, the PACE scheme exposes the participating businesses to actuarial risks associated with the current and former employees of other Group companies, with the result that there is no consistent and reliable basis for allocating liabilities, assets and costs to individual companies participating in the scheme. Therefore, pension costs in respect of the scheme are accounted for on a defined contribution basis and recognised as an expense in the income statement as incurred, based on a fixed percentage as agreed with the trustees.

Key assumptions of the Group pension scheme

The key aspects of the PACE scheme are as follows:

	2011	2010
The principal assumptions used to determine the liabilities of the PACE scheme are:		
Discount rate	4.60%	5.20%
Rate of increase in salaries	4.80%	5.20%
Future pension increases where capped at 5.0% per annum	3.30%	3.70%
Future pension increases where capped at 2.5% per annum	2.50%	2.50%
Assumptions used to determine net pension cost for the PACE scheme are:		
Discount rate	5.20%	5.60%
Expected long term return on scheme assets	6.20%	6.50%
Rate of increase in salaries	5.20%	5.30%
The average life expectancy (in years) for mortality tables used to determine scheme liabilities for the PACE scheme a	at the 2011 year end is:	
	Male	Female
Life expectancy:		
Member currently aged 65 (current life expectancy)	21.9	23.4
Member currently aged 45 (life expectancy at age 65)	23.3	25.0
The amounts recognised in the balance sheet of The Co-operative Group are as follows:		
	2011	2010
Present value of funded obligations	(6,242.6)	(5,794.2)
Present value of unfunded obligations	(4.4)	(4.1)
Fair value of plan assets	6,610.5	6,071.3
	363.5	273.0
The weighted average asset allocations at the year end were as follows:		
	2011	2010
Equities	29 %	31%
Liability driven investments	51%	54%
Alternative growth	14%	9%
Property	5%	4%
Cash	1%	2%

To develop the expected long term rate of return on assets assumption, The Co-operative Group considered the current level of expected returns on risk free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected return for each asset class was then weighted based on the target asset allocation to develop the expected long term rate of return on assets assumption for the portfolio. This resulted in the selection of the 6.2% assumption for the year ended 31 December 2011 (2010: 6.5%).

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

34. Pensions continued

Former Britannia Building Society pension scheme

Following the transfer of engagements of Britannia Building Society, the Britannia pension scheme transferred to the Co-operative Financial Services Management Services Limited (CFSMS). The pension cost shown in these accounts in respect of the Britannia defined benefit scheme for the period after 31 July 2009 is the actual contribution paid by the Bank.

The key aspects of the Britannia defined benefit scheme are as follows:

	2011	2010
The principal assumptions used to determine the liabilities of the Britannia defined benefit scheme are:		
Discount rate	4.60%	5.20%
Rate of increase in salaries	4.80%	5.20%
Future pension increases where capped at 5.0% per annum	3.30%	3.70%
Future pension increases where capped at 2.5% per annum	2.50%	2.50%
Assumptions used to determine net pension cost for the Britannia defined benefit scheme are:		
Discount rate	5.20%	5.60%
Expected long term return on scheme assets	6.00%	6.20%
Rate of increase in salaries	5.20%	5.30%

The average life expectancy (in years) for mortality tables used to determine defined benefit scheme liabilities for the former Britannia Building Society scheme at the 2011 year end is:

	Male	Female
Life expectancy:		
Member currently aged 65 (current life expectancy)	23.5	25.8
Member currently aged 40 (life expectancy at age 60)	25.0	27.4
The amounts recognised in the balance sheet of The Co-operative Group are as follows:		
	2011	2010
Present value of funded obligations	(608.4)	(549.4)
Present value of unfunded obligations	(2.9)	(5.6)
Fair value of plan assets	569.9	509.2
	(41.4)	(45.8)
The weighted average asset allocations at the year end were as follows:		
	2011	2010
Equities	25%	28%
Diversified growth	15%	17%
Liability driven investments	57%	54%
Property	3%	1%

To develop the expected long term rate of return on assets assumption, The Co-operative Group considered the current level of expected returns on risk free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected return for each asset class was then weighted based on the target asset allocation to develop the expected long term rate of return on assets assumption for the portfolio. This resulted in the selection of the 6.0% assumption for the year ended 31 December 2011 (2010: 6.2%).

Bank (unfunded) pension scheme

The Bank also operates a small unfunded pension scheme.

	2011	2010	2009	2008	2007
Expected return on scheme assets	N/A	N/A	N/A	N/A	N/A
Rate of increase of pensions in payment	3.3%	3.7%	3.8%	3.3%	3.4%
Rate of increase in salaries	4.8%	5.2%	5.3%	4.8%	4.9%
Discount rate	4.6%	5.2%	5.6%	5.7%	5.7%

The values of the assets and liabilities of the unfunded pension scheme were:

	Group and Ban	
	2011	2010
Present value of unfunded obligations	(3.9)	(3.8)
Deficit in scheme	(3.9)	(3.8)
Related deferred tax asset	0.9	1.0
Net pension liability	(3.0)	(2.8)
Analysis of amount charged to income statement:		
Current service cost	-	-
Interest on pension scheme liabilities	0.2	0.2
	0.2	0.2

Changes in the present value of the scheme liabilities are as follows:

	Group a	nd Bank
	2011	2010
Opening defined benefit liabilities	3.8	3.5
Current service cost	-	_
Interest on liabilities	0.2	0.2
Actuarial losses	-	0.4
Benefits paid	(0.1)	(0.3)

Amounts recognised in the statement of comprehensive income:

	Group and	d Bank
	2011	2010
Actuarial losses on scheme liabilities during the year	-	(0.4)
Actuarial gains on scheme assets during the year	-	_
Total scheme losses during the year	-	(0.4)

The amounts for the current year are as follows:

	Group a	nd Bank
	2011	2010
Defined benefit obligation	(3.9)	(3.8)
Scheme assets	-	-
Deficit in scheme	(3.9)	(3.8)
Experience adjustment on scheme liabilities	-	_
Experience adjustment on scheme assets	-	-

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

35. Contingent liabilities and commitments

The tables below give, for the Group and the Bank, the contract amounts and risk weighted amounts of contingent liabilities and commitments. The contract principal amounts indicate the volume of business outstanding at the balance sheet date and do not represent amounts at risk. The risk weighted amounts have been calculated in accordance with the FSA guidelines implementing the Capital Requirements Directive (CRD).

The contingent liabilities of the Group and the Bank as detailed below arise in the normal course of banking business and it is not practical to quantify their future financial effect.

	Contract	Risk weighted	Contract	Risk weighted
	amount 2011	amount 2011	amount 2010	amount 2010
Group				
Contingent liabilities:				
Guarantees and irrevocable letters of credit	167.6	131.8	134.2	99.1
Bank				
Contingent liabilities:				
Guarantees and irrevocable letters of credit	166.6	131.3	132.8	98.4
Group				
Other commitments:				
Documentary credits and short term trade related transactions	7.7	1.5	2.8	0.5
Forward asset purchases and forward deposits placed	44.9	0.9	165.8	14.6
Undrawn formal standby facilities, credit lines and other commitments to lend				
(includes revocable and irrevocable commitments) ⁽ⁱ⁾	4,700.1	1,148.1	4,590.9	1,089.3
	4,752.7	1,150.5	4,759.5	1,104.4
Bank				
Other commitments:				
Documentary credits and short term trade related transactions	7.7	1.5	2.8	0.5
Forward asset purchases and forward deposits placed	44.9	0.9	165.8	14.6
Undrawn formal standby facilities, credit lines and other commitments to lend				
(includes revocable and irrevocable commitments) ⁽ⁱ⁾	4,504.2	1,138.7	4,450.9	1,081.5
	4,556.8	1,141.1	4,619.5	1,096.6

Notes

(i) Undrawn loan commitments include revocable commitments which are unused credit card limits of £2,181.6m (2010: £2,344.9m).

Assets pledged

Assets are pledged as collateral under repurchase agreements with other banks. These deposits are not available to finance the Group's day to day operations. Mandatory reserve deposits are also held with the Bank of England in accordance with statutory requirements.

At 31 December 2011, the mandatory reserve deposits held with the Bank of England were £38.0m (2010: £36.1m) (note 13).

Within the Group and Bank, investment securities with a carrying value of £2,114.4m (2010: £1,550.9m) have been sold under sale and repurchase agreements. These assets have not been derecognised as the Group and Bank have retained substantially all the risks and rewards of ownership. Included within deposits by banks are the related liabilities of £1,703.2m (2010: £1,349.1m).

In addition, within the Bank, amounts owed by other Co-operative Group undertakings with a carrying value of £777.1m (2010: £988.6m) have been sold under sale and repurchase agreements. These assets have not been derecognised as the Bank has retained substantially all the risks and rewards of ownership. Included within deposits by banks are the related liabilities of £613.9m (2010: £778.6m).

The Group and Bank have loans and advances to banks of £255.7m (2010: £70.0m) under reverse sale and repurchase agreements and against which it holds gilts with a fair value of £267.8m (2010: £70.0m). These transactions are conducted under terms that are usual and customary to standard stock lending, securities borrowing and reverse purchase agreements. The Group is permitted to sell or repledge the assets received as collateral in the absence of their default. The Group is obliged to return equivalent securities. At 31 December 2011 the fair value of collateral repledged amounted to £267.8m (2010: £70.0m). The Group and Bank do not adjust for the fair value of securities received under reverse sale and repurchase agreements.

35. Contingent liabilities and commitments continued

Commitments under operating leases

The Group leases various properties and equipment under non-cancellable operating lease arrangements. The leases have various terms, ranging from six months to 999 years. None of these leases are individually material and none have any material clauses. The table below discloses the minimum operating lease payments the Group and the Bank will be required to make over the remaining lives of the leases.

	Land and buildings 2011	Equipment 2011	Land and buildings 2010	Equipment 2010
Group				
Falling due:				
Within one year	26.1	0.3	24.4	0.4
Between one and five years	76.5	0.4	78.6	0.4
In five years or more	87.3	0.1	103.5	-
	189.9	8.0	206.5	0.8
Bank				
Falling due:				
Within one year	25.4	0.3	24.0	0.4
Between one and five years	78.7	0.4	75.9	0.4
In five years or more	73.7	0.1	84.5	_
	177.8	0.8	184.4	0.8

The Group leases a number of branch and office premises under operating leases. The leases typically run for a period of up to 25 years, with an option to renew the lease after that period. Lease payments are generally reviewed every three to five years to reflect market rentals.

The total value of future minimum sub-lease payments expected to be received under non-cancellable sub-leases for the Group was £12.8m (2010: £13.4m) and for the Bank was £12.8m (2010: £12.2m).

Former Britannia Building Society pension scheme guarantee

Following the transfer of engagements of Britannia Building Society, the Britannia pension scheme transferred to CFSMS. Under the terms of this transfer the Bank entered into a deed of guarantee to provide assurance to the trustees of the pension scheme to support CFSMS in meeting its funding obligations to the scheme should CFSMS be unable to pay its obligations as they fall due.

Intra-group guarantee

The Bank has an indemnification agreement, accounted for as an intra-group guarantee under IFRS 4, with CFSMS in which the Bank has agreed to indemnify CFSMS against all and any liability, loss, damage, costs and expense arising from the agreement.

36. Investments in Group undertakings

Investments in equity shares and loans of subsidiary undertakings are financial assets.

Repayments At the end of the year	(0.3) 569.7	(944.0) 1,003.7	(944.3) 1,573.4	569.0	(492.1) 889.9	(492.1) 1.458.9

Subsidiary undertakings

The Bank has, except in the case of Unity Trust Bank plc, a direct interest in the ordinary share capital of the following principal subsidiary undertakings trading in the businesses indicated. All subsidiary undertakings are included in the consolidated Group results.

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

36. Investments in Group undertakings continued

Principal subsidiary undertakings which are registered in England and operating in the UK:

		Group interest 2011	Group interest 2010
Unity Trust Bank plc			
(held through subsidiary undertaking)	Banking	27%	27%
Co-operative Commercial Limited	Investment company	100%	100%
First Roodhill Leasing Limited	Leasing	100%	100%
Second Roodhill Leasing Limited	Leasing	100%	100%
Third Roodhill Leasing Limited	Leasing	100%	100%
Fourth Roodhill Leasing Limited	Leasing	100%	100%
The Covered Bond LLP	Mortgage acquisition and guarantor of covered bonds	100%	100%
Britannia Treasury Services Limited	Holding company	100%	100%
Britannia Asset Management Limited	Holding company	100%	100%
Britannia Development and Management Compa	ny		
Limited	Property investment	100%	100%
Illius Properties Limited	Property investment	100%	100%
Moorland Covered Bonds LLP	Mortgage acquisition and guarantor of covered bonds	100%	100%

The Covered Bond LLP was established as a result of a $\mathfrak{L}1.0$ bn covered bond retained issuance by the Bank during 2008. Loans and advances to customers of $\mathfrak{L}2.3$ bn were transferred to the LLP. The transfer was funded by a loan of $\mathfrak{L}1.0$ bn and capital contribution of $\mathfrak{L}1.3$ bn. This issuance was redeemed during the year.

Moorland Covered Bonds LLP was established as a result of a £1.4bn covered bond retained issuance. Loans and advances to customers of £1.9bn were transferred to Moorland Covered Bonds LLP. The transfer was funded by a loan of £1.4bn and capital contribution of £0.5bn. During October 2011 the £1.4bn loan was repaid. Following additional capital contribution repayment and on achieving Regulated Covered Bond status there was a public issuance of notes in November 2011 totalling £0.6bn. As a result of these changes at the year end the Bank held a loan of £0.6bn and a capital contribution of £1.0bn with Moorland Covered Bonds LLP.

The loans issued by the Bank are included within amounts owed by other Co-operative Group undertakings. The associated capital contribution invested by the Bank is included within investments in Group undertakings. The notes issued by the Bank in November 2011 are included within debt securities in issue.

The Covered Bond LLP and Moorland Covered Bonds LLP do not have ordinary share capital. The Bank's interest in The Covered Bond LLP and Moorland Covered Bonds LLP is in substance no different from a wholly owned subsidiary and consequently they are fully consolidated in the Group accounts.

The accounting policy for Special Purpose Entities (SPEs) is disclosed on page 39.

Unity Trust Bank plc is considered to be a subsidiary undertaking of The Co-operative Bank plc as The Co-operative Bank plc elects a majority of the directors and appoints the chair and managing director. This provides the power to control.

Investments in equity shares and loans with subsidiary undertakings are shown net of impairments.

Britannia Treasury Services Limited has the following principal wholly owned subsidiary undertakings, registered in England, operating in the UK and trading in the businesses indicated:

Mortgage Agency Services Number One Limited Mortgage and syndicated lending

Income	1.3	2.5
Expenses	(1.1)	(1.5)
Profit before tax	0.2	1.0
Taxation	_	(0.3)
Profit after tax	0.2	0.7

Joint ventures are accounted for using the equity method.

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

37. Related party transactions

Parent, subsidiary and ultimate controlling party

The Co-operative Banking Group Limited (previously the Co-operative Financial Services Limited) owns 100% of the issued ordinary share capital of the Bank and is the Bank's immediate holding company. The Co-operative Banking Group Limited is incorporated in England and is registered under the Industrial and Provident Societies Acts. The ultimate holding organisation is the Co-operative Group Limited, which is incorporated in England and registered under the Industrial and Provident Societies Acts. The financial statements of the immediate and ultimate holding organisations are available from New Century House, Manchester, M60 4ES.

Further details of subsidiary undertakings and joint ventures are disclosed in note 36.

A number of banking transactions are entered into, with related parties in the normal course of business on normal commercial terms. These include loans and deposits. Key management as defined by IAS 24 (Related Party Disclosures) are considered to be Board and executive members of the Group, and Board and executive members of the Group's immediate and ultimate holding organisations. The volume of related party transactions, outstanding balances at the year end, and related income and expense for the year are as follows:

a. Use of financial instruments

The use of financial instruments is essential to the Bank's business activities, and financial instruments constitute a significant proportion of the Bank's assets and liabilities. The main financial instruments used by the Group, and the purposes for which they are held, are outlined below.

Loans and advances to customers and customer accounts

The provision of banking facilities to customers is the prime activity of the Bank, and loans and advances to customers and customer accounts are major constituents of the balance sheet. Loans and advances to customers include retail mortgages, corporate loans, credit cards, unsecured retail lending and overdrafts. Customer accounts include retail and corporate current and savings accounts. The Bank has detailed policies and procedures to manage risks. Retail mortgage lending and much of the lending to corporate and business banking customers is secured.

Loans and advances to banks and investment securities

Loans and advances to banks and investment securities underpin the Bank's liquidity requirements and generate incremental net interest and trading income.

Deposits by banks and debt securities in issue

The Bank issues medium term notes within an established euro medium term note programme and also issues certificates of deposit and commercial paper as part of its normal treasury activities. These sources of funds alongside wholesale market loans are invested in marketable, investment grade debt securities, short term wholesale market placements and used to fund customer loans.

Other borrowed funds

The Bank has a policy of maintaining prudent capital ratios and utilises a broad spread of capital funds. In addition to ordinary share capital and retained earnings, when appropriate, the Bank issues preference shares and perpetual and fixed term subordinated notes.

Derivatives

A derivative is a financial instrument that derives its value from an underlying rate or price such as interest rates, exchange rates and other market prices. Derivatives are an efficient means of managing market risk and limiting counterparty exposure. The Bank uses them mainly for hedging purposes and to meet the needs of customers.

The most frequently used derivative contracts are interest rate swaps, exchange traded futures and options, caps and floors, forward rate agreements, currency swaps and forward currency transactions. Terms and conditions are determined by using standard industry documentation. Derivatives are subject to the same market and credit risk control procedures as are applied to other wholesale market instruments and are aggregated with other exposures to monitor total counterparty exposure which is managed within approved limits for each counterparty.

Foreign exchange

The Bank undertakes foreign exchange dealing to facilitate customer requirements and to generate incremental income from short term trading in the major currencies. Structured risk and trading related risk are managed formally within position limits approved by the Board.

b. Valuation of financial instruments carried at fair value

The following tables analyse financial assets and liabilities carried at fair value by the three level fair value hierarchy as defined within IFRS 7 (Financial Instruments: Disclosure):

Certain derivative financial instruments in Group and Bank have been reclassified between level 2 and level 3 in 2010 following a reassessment of the inputs used in the valuation models.

679.9

2,423.9

17.5

5,866.2

The carrying values of financial instruments measured at fair value are determined in compliance with the accounting policies on pages 37 to 45 and according to the following hierarchy:

Level 1 – Quoted market prices in active markets

Derivative financial instruments

Total liabilities carried at fair value

Financial instruments with quoted prices for identical instruments in active markets. The best evidence of fair value is a quoted market price in an actively traded market.

Level 2 - Valuation techniques using observable inputs

Financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

The valuation techniques used to value these instruments employ only observable market data and relate to the following assets and liabilities:

697.4

8,290.1

39. Fair values of financial assets and liabilities continued

Loans and advances to customers

Loans and advances to customers include corporate loans of £101.7m (2010: £62.3m) which are fair valued through income or expense using observable inputs. Loans held at fair value are valued at the sum of all future expected cash flows, discounted using a yield curve based on observable market inputs.

Investment securities - available for sale

Fair value is based on available market prices. Where this information is not available, fair value has been estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

Derivative financial instruments

OTC (ie non-exchange traded) derivatives are valued using valuation models which are based on observable market data. Valuation models calculate the present value of expected future cash flows, based upon 'no arbitrage' principles. The Bank enters into vanilla foreign exchange and interest rate swap derivatives, for which modelling techniques are standard across the industry. Examples of inputs that are generally observable include foreign exchange spot and forward rates, and benchmark interest rate curves.

During 2011 the Group moved to using Overnight Indexed Swap (OIS) rates to value cash collateralised swaps, resulting in a one off charge to the income statement of £6m.

Customer accounts - capital bonds

The estimated fair value of customer accounts - capital bonds is based on independent third party valuations using forecast future movements in the appropriate indices.

Level 3 – Valuation techniques using unobservable inputs

This is used for financial instruments valued using models where one or more significant inputs are not observable.

The small proportion of financial assets valued based on significant unobservable inputs are analysed as follows:

Loans and advances to customers

Loans and advances to customers include 25 year fixed rate mortgages of £12.4m (2010: £11.8m) which are fair valued through income or expense using unobservable inputs. These mortgages are valued using future interest cash flows at the fixed customer rate and estimated schedule of customer repayments. Cash flows are discounted at a credit adjusted discount rate; the credit adjustment is based on the average margin of new long dated (five years or greater) fixed rate business written in the last six months, and subject to quarterly review. The eventual timing of future cash flows may be different from that forecast due to unpredictable customer behaviour, particularly on a 25 year product. The valuation methodology takes account of credit risk and has decreased the valuation by £0.5m in 2011 (2010: £0.1m). A reasonable change in the assumptions would not result in any material change in the valuation.

Equity shares

Equity shares primarily relate to investments held in Vocalink Limited which are unquoted shares. The valuation of these shares is based on the Group's percentage shareholding and the net asset value of the company according to its most recently published financial statements.

Amounts owed to other Co-operative Group undertakings

Deposits from customers includes deposits by Moorland Covered Bond LLP (the LLP), Silk Road Finance Number One plc (Silk Rd 1) and Silk Road Finance Number Two plc (Silk Rd 2) subsidiaries relating to the legal transfer of loans and advances on issue of the Bank's covered bonds and securitisations. The deposits are fair valued to eliminate an accounting mismatch of the swap derivative as discussed below.

Revaluation of the £4.5bn (2010: £5.9bn) mortgage pool from carrying to fair value is based on assumed timing of future mortgage capital and revenue receipts, discounted to present value using a credit adjusted discount rate.

The amortisation profile is as per the swap's valuation methodology, assuming some annual prepayment, but is extended beyond any bond maturity, until all the mortgages themselves mature, which is circa 25 years. Similarly, the revenue receipts are calculated as per the swap valuation methodology, but extended until all the mortgages mature. For fixed rate mortgages, revenue receipts are based on fixed customer rates within the assumed amortisation profile. For tracker, SVR and discount products, revenue receipts are assumed to be based on forward LIBOR rates plus the product margins. Fixed and tracker mortgages are assumed to revert to SVR at the end of any offer period.

Derivative financial instruments

Derivative financial instruments including internal interest rate swaps have been entered into between the Bank and the LLP, the Bank and Silk Rd 1 and the Bank and Silk Rd 2.

The purpose of the swap is to convert the fixed and base rate linked revenue receipts of the pool of mortgage assets to the same LIBOR linked basis as the intercompany loan. Under this swap arrangement the LLP or Silk Rd 1 or Silk Rd 2 pays to the swap counterparty the monthly mortgage revenue receipts of the pool of assets and receives from the swap counterparty LIBOR plus a contractual spread on the same notional balance; the spread being sufficient to cover the intercompany loan and any expenses.

The swap is valued based on an assumed amortisation profile of the pool of assets to the bond maturity date (assuming some annual prepayment), an assumed profile of customer receipts over this period, and LIBOR prediction using forward rates. Swap cash flows are discounted to present value using mid-yield curve zero coupon rates, ie no adjustment is made for credit losses, nor for transaction or any other costs.

The fair value of the swap is based on a valuation model that reflects the mortgage cash flows over a three year period using a discount rate based on LIBOR spreads. This derivative eliminates on consolidation.

Notes to the financial statements continued

For the year ended 31 December 2011 All amounts are stated in £m unless otherwise indicated

39. Fair values of financial assets and liabilities continued

39. Fair values of financial assets and liabilities continued

c. Fair values of financial instruments not carried at fair value

The carrying values of financial instruments measured at amortised cost are determined in compliance with the accounting policies on pages 37 to 45.

The table below sets out a summary of the carrying and fair values of:

- financial assets classified as loans and receivables; and
- financial liabilities classified as held at amortised cost,

unless there is no significant difference between carrying and fair values.

	Group		Bank	
	Carrying value	Fair value	Carrying value	Fair value
2011				
Financial assets				
Loans and receivables				
Loans and advances to banks	2,006.5	2,004.2	1,300.1	1,297.8
Loans and advances to customers	34,018.2	34,236.4	22,986.7	22,988.4
Investment securities	804.9	798.5	866.1	859.7
Financial liabilities				
Financial liabilities at amortised cost				
Deposits by banks	3,302.7	3,305.1	3,239.8	3,242.2
Customer accounts	34,990.6	35,138.9	32,670.1	32,812.2
Debt securities in issue	4,164.8	4,008.1	1,431.0	1,434.5
Other borrowed funds	1,258.8	1,092.6	1,258.8	1,092.6

	Group		Bank	
	Carrying value	Fair value	Carrying value	Fair value
2010				
Financial assets				
Loans and receivables				
Loans and advances to banks	2,394.1	2,391.8	1,728.6	1,726.3
Loans and advances to customers	35,070.0	35,696.9	23,935.4	24,436.0
Investment securities	1,917.3	2,036.4	1,986.8	2,119.6
Financial liabilities				
Financial liabilities at amortised cost				
Deposits by banks	2,938.6	2,971.1	2,870.8	2,903.3
Customer accounts	32,320.0	32,400.8	29,912.0	29,985.7
Debt securities in issue	4,212.2	4,831.7	1,856.8	1,898.6
Other borrowed funds	975.4	1,107.4	975.4	1,107.4

Key considerations in the calculation of fair values for loans and receivables and financial liabilities at amortised cost are as follows:

Loans and advances to banks/deposits by banks

Loans and advances to banks include interbank placements and items in the course of collection.

The fair value of floating rate placements and overnight deposits is their carrying amount. The estimated fair value of fixed interest bearing deposits is based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity. A credit loss adjustment has been applied based on expected loss amounts derived from the Bank's regulatory capital calculations.

Notes to the financial statements continued

For the year ended 31 December 2011

All amounts are stated in £m unless otherwise indicated

39. Fair values of financial assets and liabilities continued

Loans and advances to customers

Fixed rate loans and advances to customers are revalued to fair value based on future interest cash flows (at funding rates) and principal cash flows discounted using the zero coupon rate. Forecast principal repayments are based on redemption at the earlier of maturity or repricing date with some overlay for historical behavioural experience where relevant. The eventual timing of future cash flows may be different from the forecast due to unpredictable customer behaviour. It is assumed there is no fair value adjustment required in respect of interest rate movement on variable rate assets. A credit loss adjustment has been applied based on expected loss amounts derived from the Bank's regulatory capital calculations.

Investment securities

Fair value is based on available market prices. Where this information is not available, fair value has been estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

Customer accounts

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The estimated fair value of fixed interest bearing deposits and other borrowings without quoted market prices is based on discounted cash flows using interest rates for new debts with similar remaining maturity.

Debt securities in issue and other borrowed funds

The aggregate fair values are calculated based on quoted market prices. For those notes where quoted market prices are not available, a discounted cashflow model is used based on a current yield curve appropriate for the remaining term to maturity.

Responsibility statement

For the year ended 31 December 2011

We confirm that to the best of our knowledge:

- the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included in the consolidation taken as a whole; and
- the directors' report includes a fair review of the development and performance of the business and the position of the issuer and the undertakings included in the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

By Order of the Board **Barry Tootell**, Acting Chief Executive

28 March 2012

Notice of Annual General Meeting 2012

NOTICE IS HEREBY GIVEN that the Annual General Meeting of The Co-operative Bank plc will be held on the 24th Floor, CIS Building, Miller Street, Manchester, M60 0AL at 10am on Wednesday, 16 May 2012 for the following purposes:

Ordinary Business

- 1. To receive the notice convening the meeting.
- 2. To receive the annual reports and adopt the financial statements for the year ended 31 December 2011, together with the auditor's report.
- 3. To approve the remuneration report for the year ended 31 December 2011.
- 4. To accept the following recommendations of the Board in respect of the non-cumulative irredeemable preference shares:
 - (i) that the payment of the dividend of 4.625p per £1 share on 30 November 2011 be confirmed.
 - (ii) that a dividend of 4.625p per £1 share be declared and paid on 31 May 2012 to the registered holders as at 3 May 2012 providing a dividend rate of 9.25 per cent per annum and making a total distribution of £5,550,000.
- 5. To re-elect the following directors who retire by rotation, in accordance with the provisions of Articles 105 and 105A:
 - (i) Paul Flowers, non-executive director (Chair)
 - (ii) Peter Marks, non-executive director
 - (iii) Paul Hewitt, non-executive director
- 6. To re-appoint the following directors who were appointed to the Board since the last Annual General Meeting of the Company:
 - (i) Anne Gunther, non-executive director
 - (ii) Merlyn Lowther, non-executive director
- 7. To re-appoint KPMG Audit Plc as auditor of the Company, to hold office from the conclusion of this meeting until the conclusion of the next Annual General Meeting at which accounts are laid before the Company, at a remuneration to be fixed by the directors.

Registered Office

1 Balloon Street Manchester M60 4EP Reg. No. 990937 (England) Tel: 0161 832 3456 Fax: 0161 829 4475 Tel: 0870 702 0003

Registra

Computershare Investor Services PLC PO Box 82 The Pavilions Bridgwater Road Bristol BS99 7NH

By Order of the Board **Moira Lees**, Secretary

28 March 2012

A member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote on his/her behalf. A proxy need not also be a member. Further information on preference shareholders' voting rights is given below.

Members should note that to attend the meeting their shareholding must be registered on the register of the Company not later than 9am on 14 May 2012. This applies to shares held in uncertified forms in CREST and to shares held in certified form.

Notes:

1. Director Information

The biographies of the directors up for re-election and re-appointment at the Annual General Meeting can be found on page 10 of the financial statements.

Preference Shareholders – Extract from Articles of Association 4 (B)(c) Voting and General Meetings

- (i) The holders of the preference shares shall be entitled to receive notice of and attend (either in person or by proxy) all General Meetings of the Company. The holders of the preference shares shall have a right to speak and vote at a General Meeting of the Company only if and when, at the date of the notice convening such meeting, the fixed preferential dividend payable to them respectively has been in arrears for six months or more after any date fixed for payment thereof, or if a resolution is to be proposed at such meeting abrogating or varying any of the respective rights or privileges attaching to their shareholding or for the winding-up of the Company or other return of capital and then on such resolution only.
- (ii) Whenever the holders of the preference shares are entitled to vote at a General Meeting of the Company upon any resolution proposed at such meeting, on a show of hands every holder who (being an individual) is present in person or (being a corporation) is present by a representative or by proxy shall have one vote and, on a poll, shall have one vote in respect of each preference share registered in the name of such holder.

Glossary

For the year ended 31 December 2011

The following glossary defines terminology used within the Group's Financial Statements to assist the reader and to facilitate comparison with publications by other financial institutions:

Terminology	Definition
Almost prime	Almost prime lending is lending to borrowers with very low levels of adverse credit history.
Arrears	Customers are said to be in arrears or non-performing when they are behind in fulfilling their obligations with the result that an outstanding loan is unpaid or overdue. Corporate customers may also be considered non-performing prior to being behind in fulfilling their obligations. This can happen when a significant restructuring exercise begins.
Asset & Liability Committees (ALCO)	These committees are management committees of the Board which are chaired by the Chief Financial Officer. They are primarily responsible for overseeing the management of interest rate, market, liquidity and funding risks and to advise on capital utilisation, in addition to the composition and sourcing of adequate capital.
Audit Committee (AC)	The committee which provides oversight in relation to financial reporting, internal control, regulatory compliance, external and internal audit across the Banking Group.
Automated Valuation Model (AVM)	A valuation model used specifically for low loan to value (LTV) remortgages. Performance of AVMs is monitored on a regular basis to ensure their ongoing accuracy.
Bank for International Settlements (BIS)	An international organisation which fosters international monetary and financial co-operation and serves as a bank for central banks. Based in Basel, Switzerland.
Basel II	A statement of best practice issued by the Basel Committee on Banking Supervision, that defines the methods by which firms should calculate their regulatory capital requirements to retain enough capital to protect the financial system against unexpected losses. Basel II became law in the EU Capital Requirements Directive, and was implemented in the UK via the FSA Handbook.
Basel III	A strengthening of the requirements laid out in Basel II, to be phased into the Bank gradually between 2013 and 2019 ahead of full implementation by 2023.
Basis points (bps)	One hundredth of a per cent (0.01%), so 100 basis points is 1%. Used in quoting movements in interest rates or yields on securities.
BIPRU	The prudential sourcebook for banks, building societies and investment firms which sets out the FSA's capital requirements.
Britannia membership reward (BMR)	This was designed to reward customers for the contribution they made to the continued success of Britannia's business. After an initial qualifying period, certain customers of Britannia were able to earn points each year. Each year, the Board decided the amount to be paid out as the reward pool, and distributed this to the customers in proportion to the number of points earned.
Business model and external risk	Risk arising from changes to the Bank's business and the environment in which it operates, specifically the risk of not being able to carry out the Bank's business plan and desired strategy.
Buy to let	A commercial practice of buying a property to let to tenants, rather than to live in.
Capital bonds	Fixed term customer accounts with returns based on the movement in an index (eg FTSE 100) over the term of the bond.
Capital ratio	Total of tier one capital plus tier two capital, all divided by risk weighted assets.
Capital Requirements Directive (CRD)	The common framework for the implementation of Basel II in the EU.
Carrying value	The value of an asset or liability as it appears in the balance sheet. For each asset or liability, the value is based on either of the amortised cost or fair value principles.
Certificates of deposit (CDs)	Debt issued by banks, savings and loan associations to individual investors with terms ranging from a few months to several years. Longer term CDs tend to bear a higher interest rate. At the expiration of the term, investors may (subject to penalties) withdraw both the principal and the accrued interest.
Charged off	When all economical avenues to recover an unsecured debt have been exhausted, the Bank permanently closes the loan account, ie it is charged off. This final step sits at the end of a time frame within which the Bank attempts to manage the debt's recovery and differs from a 'write down' in terms of its fixed position in time (see 'Write down').
Collateral	A borrower's pledge, usually a property, which acts as security for repayment of the loan (see 'Secured lending').
Collateralised swap	A swap, whose volatility is secured (collateralised) by way of exchanging cash deposits (see 'Swaps').
Colleague engagement	An internal survey, measuring the level of the Bank's employees' engagement.
Collectively assessed for impairment	Impairment is measured collectively where a portfolio comprises assets with a homogenous risk and where appropriate statistical techniques are available.
Commercial Paper	An unsecured promissory note issued to finance short term credit needs. It specifies the face amount paid to investors on the maturity date.

Glossary continued For the year ended 31 December 2011

Terminology	Definition
Contagion risk	An international financial market term which describes a corrupting or harmful influence, spreading effects of shocks from one counterparty to another.
Corporate and Business Banking (CABB)	The Group's operating segment which includes Corporate, Optimum and Platform. This includes lending to large corporate and commercial entities, acquired mortgage books and a specialist mortgage team dealing with intermediary lending.
Cost to income ratio	Operating expenses compared with operating income.
Council of Mortgage Lenders (CML)	A financial services industry body representing mortgage lenders in the United Kingdom.
Counterparty	In any financial contract, the person or institution entering the contract on the opposite side of the transaction is called a counterparty.
Covered bonds	Debt securities backed by a portfolio of mortgages that are segregated from the issuer's other assets solely for the benefit of the holders of the covered bonds. The Bank issues covered bonds as part of its funding activities.
Credit Committee	A committee, chaired by the Banking Risk Officer, which has delegated authority for approving credit facilities within approved strategies and delegated authorities.
Credit conversion factors	The portion of an off balance sheet commitment drawn in the event of a future default. The conversion factor is expressed as a percentage. The conversion factor is used to calculate the exposure at default (EAD).
Credit default swap	An arrangement whereby the credit risk of an asset (the reference asset) is transferred from the buyer to the seller of protection. A credit default swap is a contract where the protection seller receives premium or interest related payments in return for contracting to make payments to the protection buyer upon a defined credit event. Credit events normally include bankruptcy, payment default on a reference asset or assets, or downgrades by a credit rating agency.
Credit risk	The current or prospective risk to earnings and capital arising from a borrower's failure to meet the terms of any contract with the Bank or its failure to perform as agreed.
Credit Risk Control Unit (CRCU)	This function provides an independent view of credit risk in order to support the business management functions' decision making. CRCU does not directly benefit from decisions to extend credit. The CRCU provides risk oversight by virtue of its independence from the business management functions. The CRCU function is in house and is not outsourced.
Customer advocacy	An external survey, measuring the level of the Bank's customers who would personally recommend the Bank to other potential new customers as their primary financial services provider.
Customer deposits	Money deposited by all individuals and companies that are not credit institutions. Such funds are recorded as liabilities in the Bank's balance sheet under customer accounts or financial liabilities designated at fair value.
Customer funding ratio	The ratio of customer loans funded by customer deposits. This is the reverse equation of the customer loan to deposit ratio (see 'Customer loan to deposit ratio').
Customer loan to deposit ratio	Customer loans divided by customer deposits. This is the reverse equation of the customer funding ratio (see 'Customer funding ratio').
Debt for equity swaps	The act whereby a creditor exchanges a loan asset for a stake in its relevant debtor company's equity share capital.
Delinquency	A customer in arrears is also said to be in a state of delinquency. When a customer is in arrears, his entire outstanding balance is said to be delinquent, meaning that delinquent balances are the total outstanding loans on which payments are overdue (see 'Arrears').
Derivative	A financial instrument that has a value, based on the expected future price movements of the instrument to which it is linked, such as a share or a currency.
Effective interest rate method (EIR)	The method used to measure the carrying value of certain financial assets or liabilities and to allocate associated interest income or expense over the relevant period.
Eurozone	The geographical area containing countries whose economies function using the European single currency.
Executive Team	The team which manages the business in line with the Board risk appetite statement. It also maintains oversight of risk management processes and management information.
Expected charge off rate	The expected level of a portfolio's loans that may be written off as bad debt.
Expected loss	A measure of anticipated loss for exposures captured under an internal ratings based credit risk approach. The expected loss amount is the exposure from a potential default of a counterparty or dilution over a one year period to the amount outstanding at default.
Exposure at default (EAD)	A Basel II parameter used in internal ratings based approaches to estimate the amount outstanding at the time of default.
Exposures Committee	The committee which monitors and controls the Banking Group's major credit exposures. Decision making responsibilities include the sanctioning of large counterparty transactions.
External audit	The independent review of the financial statements of the company, by an external firm. 516

Terminology	Definition
External credit rating	A financial indicator of risk, assigned by credit rating agencies, to potential investors in the Group.
Fair value adjustments	Fair value adjustments are the remaining balance sheet adjustments for the assets/liabilities acquired on the merger of the Bank and Britannia Building Society on 1 August 2009.
Fair value amortisation	The amortisation of the remaining interest risk related, fair value adjustments for the assets/liabilities acquired on the merger of the Bank and Britannia Building Society on 1 August 2009 (see 'Interest rate risk').
Financial instruments	Any document with monetary value. Examples include cash and cash equivalents, but also securities such as bonds and stocks which have value and may be traded in exchange for money.
Financial Services Authority (FSA)	An independent non-governmental body, given statutory powers by the Financial Services and Markets Act 2000, which regulates the financial services industry in the best interests of its stakeholders. It is a company limited by guarantee and financed by the financial services industry.
Financial Services Compensation Scheme (FSCS)	The UK's compensation fund of last resort for customers of authorised financial services firms. The FSCS may pay compensation to customers if a firm is unable, or likely to be unable, to pay claims against it, usually because it has stopped trading or has been declared in default. The FSCS is funded by the financial services industry. Every firm authorised by the FSA is obliged to pay an annual levy, which goes towards its running costs and compensation payments.
Floating rate notes (FRNs)	Investments with a variable interest rate. The adjustments to the interest rate are usually made every six months and are tied (or 'float') to a certain money market index.
Forbearance	The act of preventing a secured loan's counterparty from defaulting by relaxing and/or changing the borrower's repayment terms.
Foreclosure	The legal process by which a lender, eg the Bank, obtains a court order in order to terminate a borrower's equitable right of redemption. This legal action is required when a borrower has materially failed to comply with the agreed terms and conditions of the loan, eg by defaulting (see 'Forbearance').
Forward rate agreement	A legal contract, governing the terms and conditions of a forward or future, in which the buyer pays a fixed rate of interest to the seller in return for the seller's floating rate (see 'Forwards', 'Futures' and 'Swaps').
Forwards	Non-standardised contracts, traded over the counter, between two parties to buy or sell financial instruments at a specified future time at a price agreed today (see 'Over The Counter').
Futures	Standardised contracts, traded on an exchange, between two parties to buy or sell financial instruments at a specified future time at a price agreed today.
Gap	The Bank's net exposure to variable elements being managed within its market risk, eg interest rate movements (see 'Market risk').
Hedging	A technique used by the Bank to offset risks on one instrument by purchasing a second instrument that is expected to perform in the opposite way.
Her Majesty's Treasury (HMT)	Informally The Treasury, is the United Kingdom government department responsible for developing and executing the government's public finance policy and economic policy.
Impaired loans	Loans where the Bank does not expect to collect all the contractual cash flows or expects to collect them later than they are contractually due.
Individual Liquidity Adequacy Assessment (ILAA)	The Bank's assessment of its liquidity risks, controls and quantification of liquid assets required to survive severe financial shocks through the use of stress tests prescribed by the FSA (see 'Liquidity risk').
Individual Liquidity Guidance (ILG)	A FSA guidance on the required amount and composition of the liquid assets buffer that should be held by a firm. This guidance arises once the firm's Individual Liquidity Adequacy Assessment (ILAA) has been conducted.
Individually assessed for impairment	Impairment is measured individually for assets that are individually significant.
Institute of International Finance (IIF)	A global association of financial institutions which provides industry guidelines on areas such as liquidity management.
Interest rate risk	The variability in value borne by an interest bearing asset, such as a loan or a bond, due to variability of interest rates. In general, as rates rise, the price of a fixed rate bond will fall, and vice versa.
Internal audit	The examination of the company's records and reports by its employees. Internal audits are usually intended to prevent fraud and to ensure compliance with Board directives and management policies.
Internal Capital Adequacy Assessment Process (ICAAP)	The Bank's own assessment, as part of Basel II requirements, of the levels of capital that it needs to hold in respect of its regulatory capital requirements (for credit, market and operational risks) and for other risks including stress events.
Internal rating grade (IRG)	The grading of credit risk resulting from the internal ratings based approach (IRB).
Internal ratings based approach (IRB)	A Basel II approach for measuring exposure to credit risks. IRB approaches are more sophisticated and risk sensitive than the Standardised Approach and may be Foundation or Advanced. IRB approaches may only be used with FSA permission.
Investment grade	A debt security, treasury bill or similar instrument with a credit rating measured by external agencies of AAA to BBB.

Glossary continued For the year ended 31 December 2011

Terminology	Definition
LIBOR (London Interbank Offered Rate)	The interest rate participating banks offer to other banks for loans on the London market.
Lifetime expected loss	The losses that the Bank expects to incur over the lifetime of portfolios of mortgage assets which were acquired on merger with Britannia Building Society. This is different from expected loss (see 'Expected loss') which is based on assets expected to default in the next 12 months.
Limited Liability Partnership (LLP)	An LLP provides each of its individual partners protection against personal liability for certain partnership liabilities.
Liquidity risk	The risk that the Bank's resources will prove inadequate to meet its commitments. It arises from the timing of cash flows generated from the Group's assets and liabilities (including derivatives).
Loan to value (LTV)	A ratio which expresses the amount of a mortgage as a percentage of the value of the property. The Bank calculates residential mortgage LTV on an indexed basis (the value of the property is updated on a quarterly basis to reflect changes in the house price index (HPI)).
Loss provisions	Provisions held against assets on the balance sheet as a result of the raising of a charge against profit for the incurred loss inherent in the lending book. The allowance represents management's best estimate of losses incurred in the loan portfolio at the balance sheet date.
Low risk	Within neither past due nor impaired, low risk has been defined as exposures where the probability of deficit (PD) is 1% or below over a one year time horizon for exposures on an internal ratings based (IRB) approach under Basel II, and slotting category strong/good/satisfactory for specialised lending exposures under the slotting approach (see 'Slotting').
Lower tier two	Lower tier two capital comprises the Bank's long term subordinated debt.
Malus	A facility whereby the Remuneration Committee may reduce the amount of any deferred bonus payable in the event that any of the underpins to the incentive plans are not met or where business and/or individual performance otherwise requires.
Management expenses and compensation cost	The specific elements of both operating and financing cost which form the basis of the Financial Services Compensation Scheme (see 'Financial Services Compensation Scheme (FSCS)').
Mandatory reserve deposits	Mandatory reserve deposits are deposited with the Bank of England and are not available for use in the Group's day to day operations. They are non-interest bearing and are not included in cash and cash equivalents.
Market risk	The risk arising from the effect of changes in market prices of financial instruments, execution of customer and interbank business and proprietary trading. The majority of the Bank's market risk arises from changes in interest rates.
Medium term notes (MTN)	Flexible medium term corporate debt instruments, offered by the Bank to investors through a dealer. Investors can choose from differing maturities, ranging from nine months to 30 years.
Medium to high credit risk	Within neither past due nor impaired, medium to high risk has been defined as a probability of deficit (PD) of greater than 1% over a one year time horizon for exposure on internal ratings based (IRB) approach under Basel II, and slotting category weak for specialised lending exposures under the slotting approach (see 'Slotting').
Member	A person who has a share investment or a mortgage loan with the Bank.
Merger	Any combination of two or more business enterprises into a single enterprise. In the Group, this specifically refers to the merger of the Bank with Britannia Building Society on 1 August 2009 (see 'Transfer of engagements').
Mortgage backed securities	Securities that represent interests in a group of mortgages. Investors in these securities have the right to cash received from future interest and/or principal mortgage payments.
Multilateral Development Banks (MDBs)	Supranational institutions which provide financial support and professional advice for economic and social development activities in developing countries. The term MDBs typically refers to the World Bank Group and Regional Development Banks.
Net interest income	The difference between interest received on assets and interest paid on liabilities after taking into account the effect of derivatives.
Net present value (NPV)	The present value of the expected future cash in and out flows on an asset or liability.
Non-conforming	Loans originated by Platform prior to 2009 and those acquired by Britannia Treasury Services, with similar risk profiles to 'Almost prime' (see 'Almost prime').
Operational risk	The risk of loss resulting from inadequate or failed internal processes, people and systems or external events. This encompasses the effectiveness of risk management techniques and controls to minimise these losses.
Operational Risk Committee (ORC)	This committee reports into the Risk Management Group and is chaired by the Director of Specialist Risk Services. It monitors significant operational risks and controls as well as the management actions taken to mitigate them to an acceptable level and/or transfer them. This includes business continuity arrangements and insurance cover to protect the Banking Group's business. Capital requirements in relation to operational risk are monitored by the RC.

Terminology	Definition
Optimum	A sub-segment within Corporate and Business Banking which includes acquired mortgage books and a specialist mortgage team dealing with intermediary lending.
Options	Instruments which convey the rights, but not the obligations, to engage in future transactions.
Over The Counter (OTC)	Contracts that are traded (and privately negotiated) directly between two parties, without going through an exchange or other intermediary. They offer flexibility because, unlike standardised exchange traded products, they can be tailored to fit specific needs.
Overnight Indexed Swap (OIS)	A rate reflecting the overnight interest typically earned or paid on the Bank's collateralised swaps. The OIS rate is used for valuing the discounted cash flows of collateralised swaps.
Past due	When a counterparty has failed to make a payment when contractually due.
Payments Hub	The Bank's proposal, as part of its transformation programme, to centralise payment mechanisms into a single model in order to maximise internal process efficiencies.
Portfolio Credit Committee (PCC)	A designated committee, reporting to the Risk Committee, that is responsible for defining the Banking Group's credit risk appetite; providing oversight and timely action in relation to credit risk management; monitoring, challenging and approving changes to Basel rating systems; and reviewing lending and arrears policies.
Preference shares	Preferred shares of the Group that are paid to a fixed non-cumulative preferential dividend. The dividends take priority over dividends to any other class of share in the capital of the Group.
Prime	Prime mortgages are mainstream residential loans, which typically have a higher credit quality and fit standard underwriting processes. As such, they are likely to have a good credit history and pass a standard affordability assessment at the point of origination.
Probability of default (PD)	The likelihood that a loan will not be repaid and will fall into default. PD may be calculated for each customer who has a loan (normally applicable to wholesale customers) or for a portfolio of customers with similar attributes (normally applicable to retail customers). To calculate PD, the Bank assesses the credit quality of borrowers and other counterparties and assigns them an internal risk rating.
Project Unity	The process enabling The Co-operative Group's combined family of companies to become fully integrated, delivering synergies, putting the customer at the heart of all that it does.
Re-age/Re-ages	A process whereby unsecured delinquent debt is moved to a less delinquent time band, upon the settlement of a percentage of the existing debt (see 'Delinquency').
Renegotiated loans	A permanent change to the terms and conditions of the customer's mortgage contract.
Repo/Reverse repo	A repurchase agreement that allows a borrower to use a financial security as collateral for a cash loan at a fixed rate of interest. In a repo, the borrower agrees to sell a security to the lender subject to a commitment to repurchase the asset at a specified price on a given date. For the party selling the security (and agreeing to repurchase it in the future) it is a repo; for the party on the other end of the transaction (buying the security and agreeing to sell in the future) it is a reverse repurchase agreement or reverse repo.
Retail segment	The segment that comprises customer focused products and services for individuals, sole traders and small partnerships. This includes mortgages, credit cards, consumer loans, current accounts and savings products.
Risk Committee (RC)	The committee responsible for the oversight, review and challenge of the adequacy of capital for all risks across the Banking Group.
Risk Management Group (RMG)	A designated committee, reporting to the Risk Committee, chaired by the Chief Risk Officer. Its purpose is to provide a mechanism to ensure that the Banking Group-wide risk management requirements, developments and processes are reviewed, challenged and approved (with escalation to RC where required) and embedded within and across the Banking Group. The committee also monitors all significant and emerging risks, and oversees the development and implementation of stress testing and risk appetite across the Banking Group.
Risk weighted amount	Risk weightings are established in accordance with Basel II as implemented by the FSA. Risk weighted amounts are the carrying value of the Bank's assets, adjusted by the risk weightings, to reflect the degrees of risk they represent.
Roll up mortgage	A mortgage, whose accrued interest is added to its principal amount and settled at the end of its repayment term.
Secured lending	Lending in which the borrower pledges retail or commercial property as collateral for the loan, which then becomes a secured debt owed to the Bank. In the event that the borrower defaults, the Bank may take possession of the asset used as collateral and may sell it to regain some or the entire amount originally lent to the borrower.
Securitisation	A process by which a portfolio of retail mortgages is used to back the issuance of new securities by an SPE. The Group has established securitisation structures as part of its funding and capital management activities (see 'Special purpose entities (SPEs)').
Significant items	Items which are material by both size and nature (ie outside of the normal operating activities of the Group) are treated as significant items and disclosed separately on the face of the income statement. 519

Glossary continued For the year ended 31 December 2011

Terminology	Definition
Slotting	 The regulatory defined approach used for rating the risk level of Corporate lending using a broad scope of financial, political and transactional factors. The regulatory slotting categories are listed as follows: 'Unrated' businesses lack sufficient information upon which detailed credit analysis can be undertaken for which models have yet to be developed; 'Strong' businesses have little competition, high demand, significant governmental support and enforceable collateral; 'Good' businesses have limited competition, stable demand, good governmental support and
	enforceable collateral; - 'Satisfactory' businesses have a broad competition base with limited levels of demand, governmental support and collateral;
	 - 'Weak' businesses operate at a disadvantage to competition, display a declining trend of demand, with no governmental support and no clear collateral; and - 'Default' businesses are considered unlikely to repay their credit obligations (see 'Impaired loans').
Sovereign exposure	The Bank's exposure to the total financial obligations incurred by all governmental bodies of any nation.
Special purpose entities (SPEs)	Entities that are created to accomplish a narrow and well defined objective. For the Bank this includes: - various securitisation transactions in which mortgages were sold to SPEs. The equity of these SPEs is not owned by the Bank. - Covered Bond Limited Liability Partnerships created in order to act as guarantors for issues of covered bonds.
Specialised lending	Lending in which the primary source of repayment of the obligation is the income generated by the assets being financed, rather than the independent capacity of a broader commercial enterprise.
Standard Variable Rate (SVR)	A variable and basic rate of interest charged on a mortgage. This may change in reaction to market conditions resulting in monthly repayments going up or down.
Subordinated debt/liabilities	Liabilities which, in the event of insolvency or liquidation of the Group, are subordinated to the claims of depositors and other creditors of the Group.
Swaps	An agreement between the Bank and a counterparty in which one stream of future payments is exchanged for another stream, based on a specified principal amount. For example, interest rate swaps often involve exchanging a fixed receipt for a floating receipt, which is linked to an interest rate (most often LIBOR). The Bank's use of swaps helps to manage periodic market risk on its financial instruments.
Technical risk	The (non-operational) risk and exposure to material loss of The Co-operative Banking Group being unable to meet its capital/liquidity/profit targets in line with approved risk appetite.
Tenor	The length of time until a loan is due. For example, a loan is taken out with a two year tenor. After one year passes, the tenor of the loan is one year.
Term deposit	A deposit balance that cannot be withdrawn before a date specified at the time of deposit.
the Bank	The Co-operative Bank as a standalone entity.
the Banking Group	See 'The Co-operative Banking Group'.
the Board	The Board of Directors. They manage the Banking Group's business performance in line with its purpose, givens, vision and values.
The Co-operative Banking Group	An internal brand, which is a consolidation of the following entities: CFS Management Services Ltd, CFS Services Ltd, CIS General Insurance Ltd, Co-operative Insurance Society Ltd, Co-operative Asset Management Ltd and Co-operative Bank plc.
The Co-operative Group	The ultimate holding company.
the Group	The Co-operative Bank consolidated with its subsidiaries.
Tier one	A regulatory measure of financial (capital) strength. Tier one is divided into core tier one and other tier one capital. Core tier one capital comprises general reserves from retained profits. The book values of goodwill and intangible assets are deducted from core tier one capital and other regulatory adjustments may be made for the purposes of capital adequacy. Qualifying capital instruments such as perpetual subordinated bonds are included in other tier one capital.
Tier one ratio	Tier one capital divided by risk weighted assets.
Tier two	Tier two capital comprises the Bank's property valuation reserve, preference shares, qualifying subordinated notes and collective impairment allowance (for exposures treated on a Basel II standardised basis). Certain regulatory deductions may be made for the purposes of assessing capital adequacy (see 'Upper tier two' and 'Lower tier two').
Transfer of engagements	On 1 August 2009, Britannia Building Society merged with The Co-operative Bank plc by a transfer of engagements between the building society and the bank under the Building Societies (Funding) and Mutual Societies (Transfers) Act 2007 (see 'Merger').
Transformation risk	The design, development and implementation risk associated with the Banking Group's significant change agenda that will transform the combined business into the 'compelling co-operative alternative'. This change is being managed in line with the Banking Group's risk appetite.
	520

Terminology	Definition
Treasury segment	The treasury segment's responsibilities usually include capital management, risk management, strategic planning and investor relations.
Unencumbered	Those Bank assets which are not subject to any form of claim against them.
Unsecured lending	Lending for which there is no collateral for the loan.
Upper tier two	Upper tier two capital comprises the Group's preference shares, perpetual subordinated bonds and revaluation reserves.
Value at risk (VaR)	An estimate of the potential loss which might arise from market movements under normal market conditions, if the current positions were to be held unchanged for one business day, measured to a defined confidence level. The Bank uses a confidence level of 95%.
Watchlist	A list of counterparties, drawn up by the Bank once it has elected to closely monitor the performance of loans subject to significant credit risk.
Wholesale	Wholesale banking is the provision of loans to corporate customers and institutional customers and services to other banks and financial institutions.
Write down	After an advance has been identified as impaired and is subject to an impairment allowance, the stage may be reached whereby it is concluded that there is no realistic prospect of further recovery. Write downs will occur when, and to the extent that, the whole or part of a debt is considered irrecoverable. This action can occur at any time in the debt's life (see 'Charge off').

Chair's statement

This is my first report as Chair of The Co-operative Bank. I have been lucky enough to take the helm at one of the most exciting points in our history, one that will establish us in the world of financial services as a 'compelling, co-operative alternative'.

Many businesses talk about putting customers first and reducing their impact on the environment, but at The Co-operative Bank we have been 'walking the walk' since long before social responsibility was fashionable. As part of the UK's most diversified financial services mutual, we pride ourselves on being member owned, sharing the fruits of our business with our members and customers, rather than with external shareholders.

For many years some commentators have seen this as a limitation, given that it denies us one of the more common sources of generating capital; but we believe it allows us to focus more sharply on the interests of our members, our customers and the communities within which we operate. As the last of the demutualisers disappear into government or plc ownership, we are proud of the alternative we offer the increasingly beleaguered UK consumer.

That alternative is partly based on our well known ethical approach to our business. That ethical stance sees us continue to decline investment opportunities in businesses or governments that do not meet our customers' ethical expectations, but it also manifests itself in our positive engagement as investors ourselves, and as members of the wider co-operative movement.

That engagement encompasses support for the British credit union movement through pioneering initiatives such as the Credit Union Current Account and The Co-operative Enterprise Hub. It also manifests itself in support for local communities, with both financial support and over 47,000 hours of colleagues' own time invested in projects from conserving woodland to redecorating community centres. We are also actively inspiring young people to change their world, through schemes such as Fit4Finance, Number Partners and Enterprise4Education. This year saw the opening of the Co-operative Academy, while a planned Co-operative Apprenticeship Academy will deliver some 2,000 new apprenticeships by 2013. (You can learn more about these programmes in our Sustainability report on page 9.)

But the compelling, co-operative alternative is not just a matter of ethical leadership; it is firmly grounded in sound, commercial sense. In a mortgage market marked by retrenchment we have increased our lending portfolio, while focusing on lending to customers only what they can actually afford to repay. More generally, as a business moving from post merger stabilisation into ambitious transformation, we have taken great care to minimise the impact on our customers while maximising the benefits.

This year we were recognised by the Financial Times as the 'World's Most Sustainable Bank' ahead of an international field. The term 'sustainable' refers both to our determination to enrich rather than exploit our environment, and to the long term, commercial sustainability of our business model. Financial prudence and customer focus may sound like rather traditional ideas, but as the award demonstrates they are the hallmark of a business with its eye on the future.

Another hallmark of our forward looking approach is our increasingly close relationship with The Co-operative Group. The power of a shared brand has already enabled us to increase our profile with people who are not yet customers, and I note with pride that both The Co-operative Group and The Co-operative Bank featured in the top ten most influential brands in this year's survey of industry leaders and commentators. Not only had we risen to our highest ever position, but we were respectively the top placed retailer and financial services company in the survey.

Beyond the power of brand lies commercial opportunity, particularly the cross selling opportunities offered by the Group's diverse customer base. This year we have been working closely with the Co-operative Food business to pilot a number of in-store banking facilities. The pilot has provided some invaluable learning on what customers do and don't want, and we are planning to increase the number of in-store outlets in the coming year.

As active members of a unified, profitable 'superbrand' The Co-operative Bank can now look forward to even closer co-operation in the coming years, signalled by the appointment of our Chief Executive Neville Richardson, as one of two Deputy Group Chief Executives. Brought together already by our shared tradition and values, the next step in our evolution will be to focus on developing a truly joined up customer service proposition.

For the Bank in particular, this involves the replacement of our entire banking systems platform. We are the first UK bank to undertake such an ambitious programme, and we believe it will put us in an outstanding position to offer our customers the service they truly deserve, while attracting those who don't yet have a relationship with us through the advocacy of those who have.

As we look forward to the next chapter in our evolution I would like to express my thanks to the outgoing Chair, Bob Burlton. In his six year term Bob guided our business safely through both the credit crunch and our successful merger with Britannia Building Society. He can justly look back on his time as a period of successful change grounded in stability and a strong ethical compass.

I would also like to thank departing director John Reizenstein for shaping our corporate banking operations into a respected, competitive force.

Keith Alderson has joined the executive with responsibility for corporate and business banking. Keith has a wealth of corporate banking experience and has played a leading role in improving our corporate customer experience. I would like to congratulate him on a well deserved promotion.

At the end of my first few months in post, I feel a great sense of pride and excitement. Pride in the continued success and increasing recognition of The Co-operative Bank as a viable alternative to a discredited financial services model; and excitement at the journey ahead of us and the opportunities it offers. I would like to invite you to share that journey, whether as a member, an investor or a customer. As a group we have targeted a membership of 20 million by 2020; it is an ambitious figure but one that we believe we can achieve. As a new era dawns for the financial services market, we believe we offer something unique, democratic, forward thinking and on the verge of greatness. Come and join us, and be part of the *real* 'Big Society'.

Jad De

Paul Flowers, Chair

Chief Executive's overview

Welcome to The Co-operative Bank's report and accounts for 2010. As I write, continued uncertainty hovers over the UK and wider economy, with the Government's austerity measures occupying the front pages and a 'double dip' recession still a possibility. Money remains in short supply, customer confidence is fragile, caution reigns and with the Bank of England base rate at an all time low, margins remain very tight.

Others (in Spain, Portugal and Ireland for instance) have been even less fortunate — and in a global market we share their pain. Economies that have been 'surfing the wave' of global expansion and cheap credit are now obliged to get themselves out of deep water. And as governments attempt to balance the books, the public inevitably gets the bill.

Customers are beset by financial woes for which by and large they bear little or no responsibility. Long held faith in the strength and trustworthiness of the banking sector has all but vanished, and as money becomes harder and more expensive to access, this distrust is fuelled by a real sense of anger and helplessness.

A compelling, co-operative alternative

In this climate, The Co-operative Bank is uniquely placed to deliver a compelling, co-operative alternative. Our business model is not driven by the needs of shareholders but by a long held belief in putting our customers' interests first. We have maintained a prudent approach, driven by our vision and values, trading within our means and focusing on sustainable customer service.

As a result we have not had to take government handouts to recapitalise or recover our commercial viability. Indeed, while many competitors retrench we have embarked on a pioneering transformation programme that will deliver an even better customer experience within the next three years. Moreover we are doing so without jeopardising either short term service levels or long term stability, which means that at no point will our customers be expected to underwrite our ambition at the expense of their financial security.

A year of stability and success

Our 2009 merger with Britannia Building Society launched us on a journey to become the UK's most admired financial services business. Eighteen months into that journey our financial results demonstrate the prudence that has made us an increasingly popular alternative to shareholder owned providers. In a year of low interest rates, cautious customer behaviour and tighter regulatory oversight we have maintained our profitability with an underlying operating result, excluding the cost of reinvesting in strategic change, of £170.5m (34.3% higher than in 2009).

Recognising the importance of overheads in the current financial climate, we have continued to manage our 'business as usual' operating cost closely, while the diversity of our business model enables us to offset limitations in one sector with opportunities in another.

The relationship of trust we enjoy with our customers has continued to yield dividends through excellent retention of funds (including a 97% retention of maturing cash ISA balances) while our willingness in a cautious mortgage market to lend to homebuyers within their means, has seen our mortgage book hold its value while those of many competitors are shrinking.

Our corporate sector continues to offer the same personal service to a wide range of business and corporate customers. In a difficult year for the industry, our operating result of £69.9m (an increase of £14.5m on 2009) reflects sustained demand, which has enabled our corporate banking team to be selective in its new business opportunities while significantly growing our term deposit base.

A key priority this year has been to grow our numbers of primary account holders — customers who are proud to say, "I bank with the Co-operative". Our focus on relationship banking is aimed at building a lasting, mutually rewarding relationship that will allow us to offer more and more customers both our own comprehensive range of products, and those of our parent company The Co-operative Financial Services (CFS). The high levels of service that underpin these products will help to strengthen the core relationship and make our customers powerful advocates for The Co-operative Bank in the wider community.

One key outcome of this strategic focus was a 79% increase in customers switching current accounts to us in 2010. This is testimony to the strength of our brand and reputation, particularly when one considers that the UK continues to have one of the lowest switching rates for primary bank accounts in the ELI.

Current accounts play a key role in retail banking and yet are a major barrier to greater competition in the sector. We want to find a solution that makes switching a current account as easy as changing your utility provider or porting your mobile phone number. Our submission to the Treasury Select Committee on competition and choice in retail banking includes the recommendation that a dedicated working group be set up to consider how to make switching easier.

Meanwhile our balance sheet continues to reflect our underlying strength. We have maintained a robust capital position without resorting to the defensive recapitalisation seen elsewhere, itself the result of high risk strategies to which we did not expose ourselves. Our core tier 1 capitalisation reflects the requirements of our business model, but as a forward looking, competitive business we are actively exploring capitalisation options that will allow us to grow without impairing the mutual status that is so fundamental to our ethos.

Our liquidity remains stable — a fact highlighted by the strong customer funding profile underpinning our retail lending. We also benefit from a strong risk management strategy, with potential threats to the business understood and robust mitigants in place.

Our unique position as a prudent, trusted provider in a credibility challenged market has been underscored by a range of industry and customer voted accolades, and we were named the 'World's Most Sustainable Bank' by the Financial Times, ahead of an international field.

Chief Executive's overview continued

Transformation with the customer at its core

Sustainability is not merely a question of prudence or trust. To maintain and strengthen our place in the market we recognise that we must continue to offer our customers the best experience possible — we are aiming not just for satisfied customers but for customer advocates.

Last year the CFS Board agreed an investment of over £700m in the next three years to enable a business wide transformation into a truly compelling, co-operative alternative. A significant proportion of that investment is funding the replacement of The Co-operative Bank's core systems platform; we are the first UK bank to undertake such an ambitious project and we believe it will move us significantly closer to our vision of being the UK's most admired financial services provider.

Our corporate customers have already benefited from the launch of two new business banking platforms and over the next three years retail customers will also reap the benefits, as we develop a holistic view of customer holdings, faster and more efficient processing of customer transactions and the ability to bring new, customer focused products to market in days rather than months.

The journey continues

In 2009 with the creation of the UK's most diversified financial services mutual, The Co-operative Bank embarked on a new chapter in its history. Eighteen months on we have already laid the foundations with a unified leadership, organisational structure, vision and business strategy. Over the next year we will take further significant strides towards our vision of becoming the UK's most admired financial services business.

We have moved from stabilisation to transformation without disturbing our excellent customer relationships, and in many cases without customers noticing anything had changed (although we are confident they will as our transformation yields increasing customer benefits).

We have been able to achieve this, primarily through the dedication and engagement of colleagues throughout the business. 2010 has been a year of uncertainty in our markets and extensive change within the business itself; I would like to express my thanks to all my colleagues for remaining committed to the transformation process while refusing to compromise on our customer promise or our core values. This commitment, more than any other single factor, defines the 'compelling co-operative alternative'.

During 2011, in common with our colleagues within CFS, we intend to build on these firm foundations, with an ambitious strategy focusing on:

- active management of risk in accordance with our risk appetite, to deliver targeted rewards;
- implementation of a single employee terms and conditions package;
- embedding our target leadership model and culture across the business;
- support by all areas of the business for our game changing, banking transformation programme;
- consistent understanding of and delivery against our customer promise;
- maintenance of a dynamic balance between profit, capital and liquidity; and
- · embedding a culture of cost control and efficiency.

Our target outcomes for 2012 reflect the same ambition grounded on firm foundations. Here is our vision of CFS in 2012:

We are clearly seen as the financial services arm of The Co-operative Group and customers repeatedly choose us for their primary financial services relationship and recommend us to others.

Our people are proud to work for us and advocate CFS as an employer and service provider, reflected in UK leading employee advocacy scores.

We operate within a clearly defined risk appetite. We are seen as a highly efficient business and we are recognised as a source of financial strength.

We stand at the threshold of a new era in financial services. We are uniquely placed to make it an 'era of co-operation'. The journey continues.

eille Kichardson

Neville Richardson. Chief Executive

Business and financial review

Overview

As the UK financial services market continues to suffer from the current, unprecedented, global economic challenges, The Co-operative Bank (the Bank), as part of The Co-operative Financial Services (CFS), has continued to offer a member owned, customer led and ethically guided alternative business model; one that has been endorsed this year, with the naming of the CFS as 'The World's Most Sustainable Bank'. As the award implies, CFS is forging a business model focused on long term, sustainable success. CFS was also named a 'recommended provider' by Which? Magazine and was the highest placed high street bank in the influential JD Power survey.

The Bank has maintained and enhanced its financial strength, while delivering benefits for customers and members. The operating result of $\mathfrak{L}144.5m$ for 2010 was 25.4% higher than 2009. Excluding the costs of reinvesting in strategic change, the underlying operating result was up 34.3% to $\mathfrak{L}170.5m$. The excellent levels of customer funding in the Bank of 107% at December 2010, and the continued reduction in arrears (with a 22% reduction in late mortgage arrears during 2010) attest to our principle of being financially prudent and strong.

Meanwhile, the Bank's values based approach to all aspects of the business seeks to balance financial strength with the needs of our customers and our people. Our continuing focus on an easy, fair, personal and responsible service, during a time of deep uncertainty for many of our customers, remains a key distinguishing factor.

CFS customer advocacy figures remain 7.5 percentage points ahead of our competitors, while the business has also continued to deliver industry leading levels of employee engagement, with 89% of our people proud to work for us.

CFS saw a 79% increase in current account switchers in 2010. While this is testimony to the strength of, and trust in, our brand, the fact remains that the UK continues to have one of the lowest switching rates for primary bank accounts in the EU. Current accounts play a cornerstone role in retail banking and yet are a major barrier to greater competition in the sector. We want to find a solution that enables consumers to switch their current accounts and retain their current account number as easily as they can switch mobile phone providers whilst retaining their mobile phone number. In our submission to the Treasury Select Committee

on competition and choice in retail banking, we recommended that a dedicated working group was set up to find a way to make switching easier. One issue it should consider is the introduction, longer term, of a portable bank account and sort code for personal customers.

By combining a unique business model, ongoing financial stability and strong customer advocacy, CFS and the Bank continue to offer the financial services customer a compelling, co-operative alternative.

Over the last 18 months, since the merger with Britannia Building Society, CFS has continued to make excellent progress, completing the integration of two complementary operations. The fundamental transformation of the combined business is now well underway, with its focus on delivering an enhanced customer experience. As the first release of our Banking Transformation Programme (the replacement of our core banking systems), Business Online Banking is now offered to our Small and Medium Enterprise customers and FD Online to our corporate customers. Both services offer enhanced functionality, improved security and have a more durable and responsive systems infrastructure. Co-operative current accounts are now available in all Britannia branches, and the core product range is aligned across Co-operative and Britannia channels.

The integration programme in relation to the merger with Britannia has built on the strengths of both heritage businesses and has so far delivered significant annual cost synergies within CFS of £48m, which predominantly relate to the Bank, and are ahead of expectations. Meanwhile, a comprehensive organisation design process has been completed, giving colleagues the focus, support structures and 'line of sight' to deliver the CFS customer promise.

Looking to the longer term, significant further investment is planned to extend the Banking Transformation Programme to all customers over the next three years. This will further transform the customer experience, through easier account opening processes, integrated product offerings and improved multi-channel capability. The business is also forging greater ties more widely across The Co-operative Group, which will enable the Bank to achieve its commitment to be part of the UK's most admired financial services business.

Business and financial review continued

Highlights

The Co-operative Bank operating result and profit before taxation	2010 £m	2009 £m	Change £m	Change %
Income	821.8	652.9	168.9	25.9
Operating costs – steady state	(555.5)	(413.8)	(141.7)	(34.2)
Operating costs – strategic initiatives	(26.0)	(11.8)	(14.2)	(120.3)
Impairment losses	(95.8)	(112.1)	16.3	14.5
Operating result	144.5	115.2	29.3	25.4
Significant items	(55.5)	(38.1)	(17.4)	(45.7)
Payment Protection Insurance (PPI) provision Share of post tax profits/(losses) from	(4.3)	_	(4.3)	_
joint ventures Financial Services Compensation Scheme	0.7	(0.1)	0.8	800.0
(FSCS) levies	(11.5)	(3.7)	(7.8)	(210.8)
Profit before taxation, distributions				
and fair value amortisation	73.9	73.3	0.6	0.8
Fair value amortisation	(14.2)	99.1	(113.3)	(114.3)
Profit before taxation and				
distributions	59.7	172.4	(112.7)	(65.4)
Membership dividend	(10.8)	(7.8)	(3.0)	(38.5)
Profit before taxation	48.9	164.6	(115.7)	(70.3)

Profit before taxation of £48.9m was lower than in 2009. This was predominantly due to amortisation of fair values created at the time of the merger; the apparent volatility of these initial adjustments is evident in the swing from a substantial benefit of £99.1m in 2009 to a charge of £14.2m in 2010. However, it should be noted that these adjustments are designed to unwind over future periods, are broadly profit neutral over time and have no cashflow impact.

Profit before taxation, distributions and fair value amortisation was 1% higher than 2009, at £73.9m. Higher significant items were incurred as a result of investment in the Banking Transformation Programme and a provision for pension mis-selling arising within the independent financial advisory business. In addition, the FSCS levy was £7.8m higher than 2009, and a £4.3m provision for Payment Protection Insurance (PPI) was incurred.

The operating result of £144.5m was 25.4% higher than 2009, reflecting both the increased scale of the combined business (with the result for 2009 including the Britannia business from August 2009) and notable organic growth in developing business areas. The operating profit reported within the consolidated income statement of £118.8m is stated after the deduction of the FSCS levy of £11.5m and the impact of fair value amortisation of £14.2m.

The operating result is stated after the significant costs of reinvesting in strategic change initiatives; these amounted to £26.0m in 2010 (2009: £11.8m). Excluding these change costs, the underlying operating result was up 34.3% to £170.5m, despite the challenges of the current economic environment and the ongoing weakness in the financial services sector in particular. On a like for like basis (including the pre-merger performance of Britannia for 2009), the underlying result excluding change costs was up by 10.8%.

Like for like income remained resilient (although down slightly in 2010 against 2009), a great achievement when taking into account the pressures on margin from low interest rates.

A policy of tight control and governance of the underlying cost base has continued in 2010 and is a key focus for the business going forward. Like for like costs fell by 2% in 2010, once the impact of inflation is excluded. Cost synergies of £41m, ahead of target, have helped to offset inflationary increases in costs.

Like for like impairment charges are significantly reduced from prior year levels, at 38.0% lower. This reflects a combination of improved arrears collection processes, the continued tightening of credit risk in the unsecured lending business and the cautious approach taken by both heritage businesses.

In 2010 a distribution of profit of £10.8m has been made to individual members of The Co-operative Group based on their account holdings with the Bank.

While total shareholder assets reduced slightly, from £46.1bn to £45.6bn, customer lending and deposits both grew, by 2.7% and 4.6% respectively.

Despite a difficult mortgage market, the Bank has increased its lending, with gross advances of £4.7bn, which illustrates the business's continued support to families and small businesses during these difficult times. The Bank is also sensitive to the depressed nature of the savings market and is doing what it can to balance savers' interests with those of borrowers.

While the credit risk on the residential mortgage portfolio is substantially mitigated by the fair value adjustments made at merger for any latent default risk in the Britannia assets, it is extremely pleasing to note the considerable reduction in arrears during 2010 (with a 22% reduction in late mortgage arrears during 2010), resulting from the tight credit control and focus on debt management.

The underlying strength of the business is evident in its stable capital and liquidity profile. The Bank core tier 1 ratio was 9.6% (2009: 8.7%), while the capital ratio was 14.0% (2009: 13.5%), and the tier 1 ratio, 9.9% (2009: 9.0%). These ratios reflect the strong capital base of the business, yet it is notable that the Bank has not taken, or needed, government capital support. This capital position has been more than sufficient to fund ambitious transformation projects while delivering outstanding service to our customers.

The Bank has maintained an excellent liquidity position, attracting and retaining high levels of customer funding. The customer funding ratio (excluding securitised assets) remains robust, at 107% (2009: 104%).

Our businesses

The Bank consists of two main segments – Retail, and Corporate and Markets (CAM).

The Co-operative Bank operating result	2010 £m	2009 £m	Change £m	Change %
Retail	(3.2)	(13.8)	10.6	76.8
CAM	147.7	123.7	24.0	19.4
Other	-	5.3	(5.3)	_
Operating result	144.5	115.2	29.3	25.4

The Retail business offers a range of financial products and services to individuals, households and small businesses throughout the UK, trading as The Co-operative Bank, Britannia and Smile.

Corporate and Markets (CAM) comprises a range of business to business services including corporate

banking, treasury, intermediary mortgage lending and a number of fee for service businesses such as customer foreign exchange.

The other area of the Bank includes Unity Trust Bank, the result for which has decreased year on year.

Retail

Retail operating result	2010 £m	2009 £m	Change £m	Change %
Net interest income Non-interest income	351.8 149.7	262.2 134.5	89.6 15.2	34.2 11.3
Net income	501.5	396.7	104.8	26.4
Operating costs – steady state Operating costs – strategic initiatives Impairment losses	(421.0) (19.9) (63.8)	(318.6) (9.2) (82.7)	(102.4) (10.7) 18.9	(32.1) (116.3) 22.9
Operating result	(3.2)	(13.8)	10.6	76.8

There was a significant improvement in the performance of the Retail Bank, reflecting stronger underlying profitability, despite the challenges of continuing low interest rates and uncertainty in the general economic environment. Underlying profitability, which excludes the cost of strategic change initiatives, was substantially improved at a profit of £16.7m (2009: loss of £4.6m). The strength of the CFS franchise, evidenced by continued growth in both current account balances and customer lending, combined with tight cost control and lower impairment charges have been at the heart of a strong 2010 performance. This places CFS in a great position for the future.

The improvement in profitability is complemented by high customer advocacy, 8.8% ahead of the 'top 5' in CFS's peer group.

The number of primary current accounts held by customers has increased by 17% in 2010; primary current accounts reflect those which a customer treats as their main bank account. In addition, the number of customers switching current account has increased by 79% during 2010.

Customer lending has increased, such that loans and advances now stand at £17.3bn (up 3.4%), reflecting the Bank's commitment to its retail customers, with

gross advances of £3.1bn in 2010, at a time when many competitors were reducing their lending. The quality of the mortgage book remains high with a combined average loan to value of 41.8%. The growth in lending has been successfully self funded through the increase in customer deposits to £28.6bn and has contributed strongly to the Bank's overall customer funding ratio at 107%, reducing its dependency on funding from the wholesale markets.

Retail impairment of £63.8m was 22.9% better than 2009 reflecting a combination of improved arrears collection processes, strong quality of the mortgage book, declining credit card exposures and the continued tightening of credit risk scorecards in the unsecured lending business. These figures represent a considerable improvement given the current economic climate.

The strength of the retail customer proposition has again been recognised by a range of awards. CFS was named a 'recommended provider' by Which? Magazine, and won multiple categories at the Moneywise Customer Service awards. The Bank achieved the highest rating in the Forrester UK bank website benchmarking survey (beating NatWest, Santander, Barclays, Lloyds TSB and Halifax), and was the highest placed high street bank in the influential JD Power survey.

Business and financial review continued

Corporate and Markets (CAM)

CAM operating result	2010	2009	Change	Change
	£m	£m	£m	%
Net interest income	271.3	199.4	71.9	36.1
Non-interest income	38.2	42.9	(4.7)	(11.0)
Net income	309.5	242.3	67.2	27.7
Operating costs – steady state Operating costs – strategic initiatives Impairment losses	(128.2)	(87.7)	(40.5)	(46.2)
	(6.1)	(2.6)	(3.5)	(134.6)
	(27.5)	(28.3)	0.8	2.8
Operating result	147.7	123.7	24.0	19.4

The CAM operating result for 2010 of £147.7m was 19.4% up on 2009.

Corporate banking

Corporate banking has delivered an operating result of $\pounds 69.9m$ during 2010, an increase of $\pounds 14.5m$ on 2009. This demonstrates a sustained performance in another difficult year for the industry, driven by measured growth on the corporate banking asset book through selected high quality new business, combined with significant liability growth through term deposits (54% growth in corporate deposits during 2010, evidencing the appeal of our proposition to the market). The increase in operating result is largely a result of a $\pounds 13.0m$ increase in net interest income, due to the increased size of the newly combined business. Impairment losses have remained under control, falling from $\pounds 32.3m$ to $\pounds 30.4m$.

Corporate will seek to drive further balance sheet growth through a dedicated customer deposits team and the roll out of a further two corporate banking centres during 2011, taking the total number to 22.

Platform

The Platform intermediary mortgage business, refocused on the prime mortgage market, has continued to grow its presence in this marketplace throughout 2010. The focus for Platform has been on good quality, prudent lending; advances of $\mathfrak{L}0.6$ bn have been extended during 2010 with strong margins being achieved, and minimal arrears (0.71% of accounts in late arrears at the end of 2010).

Optimum

In 2010 the Optimum portfolio, a closed book of intermediary and acquired mortgage book assets, reduced in size, as planned, by 5% to £8.1bn, with the book performing strongly and in line with expectations.

Throughout the year, the business has delivered major improvements in the arrears management process with a focus on both existing arrears cases and pre-arrears cases. As a result, arrears in Optimum have improved steadily during the year. The merger related fair value provisions against the portfolio continue to provide a high degree of cover against credit losses.

Treasury

Treasury has delivered effectively on its core responsibilities of ensuring a strong and stable liquidity base, providing diverse sources of wholesale funding to the Bank, managing market risk within risk appetite and delivering a strong financial performance on the investment portfolio. The Treasury result was impacted by a challenging funding environment, with margins continuing to be under pressure during the year. Net interest income was negatively impacted due to increased investment in highly liquid, low risk assets in order to further strengthen our liquidity position as well as the reduction in higher risk, higher earning investment assets.

The Bank has been able to fund competitively in the wholesale markets, completing a $\mathfrak{L}2.5$ bn prime mortgage securitisation transaction early in the year. This was followed towards the end of 2010 with an unsecured issuance of $\mathfrak{L}400$ m, evidencing a considerable vote of confidence in the business from the market.

Summary and outlook

Notwithstanding the considerable challenges of the current economic environment and the integration of two businesses, the Bank has delivered a resilient performance for the year. Underlying profitability remains robust, supported by strong cost control and the complementary nature of the two heritage businesses. The Bank remains the compelling co-operative provider of a wide range of financial services, including our commitment to making switching current accounts an easier process, thanks to a strong balance sheet, responsible strategy and financial prudence, as evidenced by our strong capital and liquidity profile.

The excellent progress made in integrating the two businesses leaves the Bank, and its parent, CFS, well positioned to deliver market leading customer service. The benefits already provided to corporate customers through the Banking Transformation Programme will be extended to all customers over the next three years. We recognise the challenges ahead but are confident that our unique position within the industry, and the support of our people and customers, mean that we are favourably placed to achieve our vision.

Sustainability report

Sustainability is a key element of The Co-operative Financial Services' business strategy. The 'compelling co-operative alternative' means measuring our success, not just in financial terms but in how we impact on our community. It is one of the CFS 'givens' that we will champion co-operative values, principles and ethics. In furtherance of this we commit ourselves to taking personal and social responsibility. The following pages outline how we set out to honour these commitments.

2010 proved to be much more than a year of consolidation for The Co-operative Financial Services (CFS), following our merger with Britannia. With ethical and environmental considerations remaining key to our strategy, it was extremely pleasing to see our work recognised by the public and opinion leaders alike. From over 100 entrants in the global financial services industry, we became the Financial Times 'World's Most Sustainable Bank'. This award recognises our ethical and environmental leadership and the hard work of our colleagues. Together with our sector leading performance in the Sunday Times Best Green Companies List and our number one sector ranking amongst the general public for our social responsibility performance, the accolade attests to the absolute embeddedness of sustainability in our business.

We believe our future aspirations should surpass our previous accomplishments. That's why, in 2011, to consolidate its position as the most responsible UK business, The Co-operative has launched its boldest ethical campaign to date — Project Revolution — calling on millions of customers and members to help build a fairer world.

Strategy, materiality and governance

CFS' approach focuses on the issues of greatest relevance to our core business activities and stakeholders: the provision of ethical financial products and services; community investment and inclusion; and responsible environmental management.

As a co-operative business, our values and principles remain as relevant today as when they were conceived in the nineteenth century. Such values are reflected in The Co-operative's unique democratic structure, and in the ethical policies that underpin all banking and investments activity. This approach ensures that The Co-operative is held accountable via a Values and Principles Committee, drawn from the membership that own the business, and enables it to mobilise members and customers in innovative campaigning activity.

Leadership in social responsibility is taken into consideration in the remuneration of the CFS Executive Team, and performance is transparently reported in the award winning annual Sustainability Report of The Co-operative. 2011 sees a new milestone in our pursuit of sustainability, in the form of a three year Ethical Operating Plan, which sets ambitious new targets across our family of businesses.

Performance overview

Ethical finance

Our Co-operative Bank Ethical Policy acknowledges that the most significant sustainability impact we have is in who we lend money to -a principle that many of our competitors are slow to recognise. We have declined over £1bn of finance to businesses, in line with our customers' ethical concerns, whilst continuing to grow our commercial lending overall – its value is now 16 times that of 1992, when the policy was launched. We have extended our ethical screening approach to the £1bn of investments that underpin our insurance products, whilst continuing to ensure that we remain an active and responsible institutional investor. Our Ethical Engagement Policy, a world first, sets out a commitment to use our power as an institutional investor to push for improvements in the ethical and environmental performance of investee companies. In support of this policy, in 2010, we voted on over 4,000 UK shareholder resolutions, taking a stand against management in 10% of instances. This included challenging oil companies, such as BP and Shell, to be more transparent about tar sands developments, which risk dangerous levels of climate change and local ecological disaster.

Last year saw the launch of our Social Banking Unit, which ensures that businesses and organisations with a distinctly ethical or social purpose — such as charities or co-operatives — benefit from the services of a dedicated expert team. One early success story of this new service is the £1.2m loan provided for a wind turbine on the island of Tiree in the Inner Hebrides, where the majority of adults are Co-operative members. Moving forward, our commitment to fund energy efficiency and renewable solutions will increase to £1bn. During 2010, we also promoted awareness of ethical banking and investment amongst the general public, through our continued support for National Ethical Investment Week.

We continue to make finance accessible to all and not the few. Our provision of basic bank accounts is up nearly 30% from 2009, and we maintain our support to the pioneering bank accounts for prisoners project, through which over 5,000 prisoners have now been provided with an account – and, therein, a better opportunity to secure housing and employment; factors considered key to reducing reoffending.

Keeping communities thriving

In 2010, The Co-operative family of businesses invested £12.4m in the community. CFS colleagues contributed to the total of over 90,000 hours volunteered by Co-operative colleagues, taking part in community team challenges, which ranged from conserving woodland to redecorating community centres. Next year, we will encourage our colleagues, customers and members to help raise £5m for Mencap, our 2011 Charity of the Year, to enable their fantastic work improving the lives of young people with learning disabilities.

Our new Ethical Operating Plan has set an ambitious new target for our community investment — by 2013, 10% of The Co-operative's profits available for distribution will be invested in the community, with at least £5m being targeted at tackling poverty in the neighbourhoods around Co-operative branches and stores.

Sustainability report continued

Supporting co-operatives

We hold a strong belief in the principle of 'co-operation amongst co-operatives', and The Co-operative was proud to support the very first 'Co-operatives Fortnight' — a series of events aiming to raise the profile of co-operatives in the UK. We continue to be the largest provider of banking to the British Credit Union movement and support the Co-operative sector's further development through pioneering initiatives, such as the Credit Union Current Account.

The Co-operative Enterprise Hub, which is funded by The Co-operative, is committing some £7.5m over the next three years to provide the advice, training and finance needed to ensure that the sector continues to thrive. This further enhances CFS' support for renewable energy projects. For example, the Hub has provided funding to Energy4All Ltd, a development company born of the UK's first community owned wind farm, Baywind Energy Co-operative. Baywind was partly financed by The Co-operative Bank when it was established in 1996, and recent Hub funding has led to the creation of further co-operatives around the UK. The creation of an additional £20m International Co-operative Development Loan Fund promises to ensure that our investment in the co-operative sector can have similarly positive impacts in developing communities overseas.

Inspiring young people

The initiatives undertaken by The Co-operative with the aim of 'Inspiring Young People' are helping over 250,000 young people change their world. Our Skills4Schools programme, delivered by colleague volunteers, promotes three initiatives - Fit4Finance, Number Partners and Enterprise4Education – which aim to improve the financial literacy, numeracy and employability of schoolchildren. In 2010, 6,800 hours of Company time and expertise were invested in the programme. We are the main sponsor of The Co-operative Academy in Manchester, which was launched in 2010. Specialising in business and finance, this school benefits from our business expertise and receives funding for community work. Furthermore, work is currently underway on the creation of The Co-operative Apprenticeship Academy, which, by 2013, will have created 2,000 new apprenticeships.

Tackling global poverty

The Co-operative continues to strive for a fairer world, where basic human needs are met and rights are respected. At CFS, we have supported microfinance institutions in 27 countries across the globe, through a \$50m fund to provide small loans to people in the world's poorest countries. To date, a staggering £6m has been raised by charity credit card customers for organisations that tackle global poverty or protect human rights, such as Oxfam or Amnesty International.

The Co-operative also continues to work directly with communities in the developing world — with significant water, sanitation and green energy solutions being funded and delivered in 2010. Our conviction that we can and should be doing more to tackle global poverty will see us launch, in 2011, a renewed third world debt campaign — 'Unfinished Business'.

Protecting the environment

CFS continues to offset all $\mathrm{CO_2}$ emissions, together with an additional 10% to compensate for our carbon legacy. Most ambitiously, The Co-operative is now seeking to reduce, by 35%, operational greenhouse gas emissions across the family of businesses by 2017; a stretching target for a business that has already made considerable headway in addressing this impact.

Last year, CFS completed the roll out of our environmental management systems across the Britannia estate and were extremely proud to achieve recertification to the ISO14001 standard. We remain the only financial services organisation in the world to achieve this leading standard across all business activities and products.

Our pioneering 'Think' credit card not only rewards ethical consumerism, but has helped save over 2,000 acres of Indonesian rainforest through donations made by CFS on our customers' behalf. We've also worked to shape the wider debate on ecological sustainability. As part of our Toxic Fuels campaign, The Co-operative has called for a ban on UK shale gas developments until related human and environmental risks have been assessed.

The conviction that a profitable business must also be a principled one has remained integral to our business throughout a period of considerable change. 2011 promises to be another exciting year, as the launch of The Co-operative's new Ethical Operating Plan will not only bolster our own performance, but also challenge others in the UK financial services industry to raise their game in the pursuit of sustainable development.

The BoardThe Co-operative Bank plc

Non-executive directors:

Paul Flowers (BA (Hons))

Age 60. Joined the Board in 2009 and appointed Chair in 2010. Deputy Chair of The Co-operative Group Limited. Superintendent Methodist Minister/ Bradford city councillor. Member of The Co-operative Group North Regional Board. Non-executive director of Co-operative Financial Services Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Rodney Baker-Bates (MA, FCA, AIMC, FCIB)

Age 66. Joined the Board in 2009 and appointed Deputy Chair in 2010. Directorships also held at Assura Group plc, AtlasFram Group Limited, Bedlam Asset Management plc, Dolphin Square Trust Limited, EG Solutions plc, G's Group Holding Limited and Stobart Group plc. Barry Tootell (BA (Hons), FCA)

Age 49. Joined the Board in 2008. Chief Financial Officer. Qualified accountant with over 20 years of finance and control experience. Chair of CFS Management Services Limited. Executive director of Co-operative Financial Services Limited, Co-operative Insurance Society Limited and CIS General Insurance Limited.

Report of the Board of Directors

The directors submit their report, together with the audited financial statements, for the period to 31 December 2010. The full financial statements 2010 contain the corporate governance statement on pages 17 to 22 and the risk management section on pages 45 to 77, which are deemed to form part of the report of the Board of Directors. As set out more fully in the Basis of preparation and accounting policies, these financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU. All financial information given in this report is taken solely from the statutory results prepared on this basis. Unaudited, like for like results which allow business segment comparison between 2010 and 2009 are given in the business and financial review on pages 5 to 8.

Principal activities

The Co-operative Bank plc (the Bank) and its subsidiary undertakings provide an extensive range of banking and financial services in the UK.

Business review

A review of the development and performance of the Bank and its operating subsidiaries during the financial year and any significant events since the year end are set out in the business and financial review on pages 5 to 8. The principal risks and uncertainties facing the Bank are set out in the risk management section on pages 45 to 77. Note 36 of the financial statements provides details of the Bank's principal subsidiaries and the nature of each organisation's business.

The Bank changed its accounting reference date in 2009 to 31 December. Where these financial statements refer to 'year ended 31 December 2010' this represents the 52 week period for 1 January 2010 to 31 December 2010. The 2009 comparatives are stated for the 51 week period from 11 January 2009 to 31 December 2009.

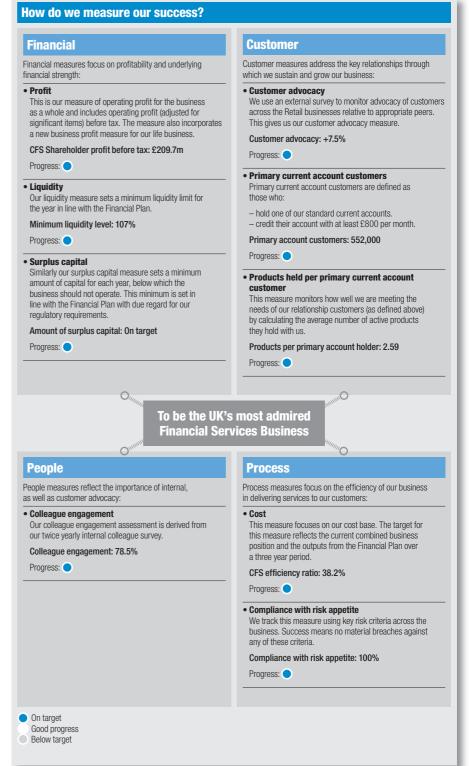

On 15 December 2010 the Bank allotted £180m of share capital to its parent company, Co-operative Financial Services Limited (CFS), to reinforce its capital strength.

Key performance indicators

The CFS Group has introduced a balanced scorecard that reflects its goals as a business over its three year corporate plan.

How do we measure our success?

The CFS business strategy measures success in four key areas: financial, customer, people and process. This 'balanced scorecard' approach is a key reflection of our co-operative difference. The balanced scorecard helps us ensure that, in all decisions we make as a business, we focus on the financial, customer, people and process implications of the decision. It also helps us to take a broad view of our progress towards our strategic vision.

Report of the Board of Directors continued

Financial measures specific to the Bank are discussed in the business and financial review, on pages 5 to 8.

Results and dividends

Profit before taxation and significant items was £108.7m. Profit attributable to the ordinary shareholders amounted to £36.4m (2009: £110.3m). No dividends were paid during 2010. The directors recommend that no final dividend is paid in respect of 2010.

Changes to the Board

The names of the present members of the Board and their biographies and details of length of service are set out on pages 11 and 12.

The directors of the Bank during the financial year are listed below. They were appointed for the full period unless otherwise indicated:

Non-executive directors:

Paul Flowers (Chair)

Rodney Baker-Bates

Duncan Bowdler

Bob Burlton (resigned 15 April 2010)

David Davies

Peter Harvey

Paul Hewitt

Chris Jones

Stephen Kingsley

Peter Marks

Bob Newton

Ben Reid

Len Wardle

Martyn Wates

Steve Watts

Piers Williamson

Executive directors:

Neville Richardson (Chief Executive)

Rod Bulmer

Tim Franklin

Phil Lee

John Reizenstein (resigned 7 December 2010) Barry Tootell

Reappointment of directors

Under the Articles of Association, one third of the Board are required to retire by rotation at the conclusion of the Annual General Meeting (AGM). In accordance with the Articles of Association, therefore, Len Wardle, Martyn Wates and Steve Watts retire by rotation and all offer themselves for re-election at the 2011 AGM. No directors have been appointed since the conclusion of the last AGM on 12 May 2010 which would make them eligible for re-appointment at the 2011 AGM. The notice of the AGM can be found on page 125. All directors up for re-election continue to demonstrate commitment to their roles (see schedule of attendance on page 20).

On 15 April 2010, Bob Burlton, Chair, retired from the Bank Board, and Paul Flowers was appointed Chair in his place. Paul Flowers has served on the Board since 2009 and on the Board of The Co-operative Group since 2008. Rodney Baker-Bates and David Davies were appointed Deputy Chairs on 21 April 2010. Rodney Baker-Bates had previously served on the Board of Britannia Building Society since 2006. David Davies joined the Board in 2003 and was appointed senior independent director in 2005. John Reizenstein, Managing Director Corporate and Markets, left the Bank Board on 7 December 2010.

Directors' and officers' liability insurance and indemnity

The Bank maintains appropriate directors' and officers' liability insurance cover, through the ultimate parent organisation, in respect of legal action against its directors and officers. This constitutes a 'qualifying third party indemnity provision' for the purposes of the Companies Act 2006 and applied to all of the Bank's directors serving during the financial year. The insurance cover was reviewed and renewed in 2010. A 'qualifying pension scheme indemnity provision' was also in place for one or more of the directors who served during the financial year.

Directors and their interests

No director had a material interest at any time during the year in any contract of significance, other than a service contract, with the Bank or any of its subsidiary undertakings.

No director had a beneficial interest in any shares in the Bank or in The Co-operative Group Limited, which is the ultimate holding organisation, or in any other entity controlled by The Co-operative Group Limited.

Going concern

The financial statements are prepared on a going concern basis as the directors are satisfied that the Group and parent company have the resources to continue in business for the foreseeable future. In making this assessment, the directors have considered a wide range of information relating to present and future conditions including future projections of profitability, cash flows and capital resources. Further information relevant to the assessment is provided within the basis of preparation of the financial statements on page 38.

Corporate governance

The Bank is committed to high standards of corporate governance. The Bank believes it has, with the exception of the level of independent Board representation, fully complied throughout the year with the principles and provisions of the Combined Code on Corporate Governance appropriate to the structure of the Bank and its parent organisation, Co-operative Financial Services Limited (CFS) and The Co-operative Group Limited (The Co-operative Group). Further information is provided within the corporate governance report on pages 17 to 22.

Information and communication

Communication takes place with all key stakeholders through a variety of media including the sustainability report produced by The Co-operative Group. Employees receive and provide information on strategy and objectives through their reporting lines and a formal performance measurement process. Newsletters, bulletins and electronic media communicate other information.

Employees

The Bank and its subsidiary undertakings employed 8,583 persons at 31 December 2010 (2009: 8,705). The weekly average number of people was 8,746 (2009: 5,993) and their aggregate remuneration, before significant items, for the year was £221.1m (2009: £151.0m). The Bank, as part of CFS operates learning and development initiatives across the organisation as part of a continuous improvement programme, supporting its approach to performance management, personal development, talent and succession planning.

CFS, in Bank orientated activities, continues to consult and communicate with colleagues on customer, organisation and business performance issues, using colleague publications, surveys, conferences, videos and both informal and formal consultations with Unite and other unions, which continue to be fully involved where organisational change and other issues affect colleagues.

Diversity

The Bank, as part of CFS, welcomes diversity and actively promotes a policy and practice of equality of opportunity in employment for all colleagues, regardless of age, disability, ethnicity, gender, religion or belief, or sexual orientation.

The Bank, as part of CFS, is a member of the following diversity advisory bodies:

- Employers Forum on Disability
- Employers Forum on Age
- Race for Opportunity
- Opportunity Now
- Stonewall

Employees with disabilities

CFS is a holder of the 'Positive about Disabled People' symbol, a recognition given by Jobcentre Plus to employers who have agreed to meet five commitments regarding the recruitment, employment, retention and career development of disabled people. CFS has policies and processes in place to support disabled colleagues in the workplace.

Further guidance and information for colleagues on disability issues is available through human resources and on the colleagues' intranet. CFS recognises its responsibility for making reasonable adjustments for new colleagues with disabilities and for those individuals who develop disabilities whilst in employment.

Employees' wellbeing

The Bank, as part of CFS, recognises that health and wellbeing at work play a vital part in delivering its core values. Wellbeing services include an occupational health scheme, physiotherapy services and seasonal wellbeing initiatives such as discounted allergy testing and flu jabs.

In addition to this, colleagues and their immediate families have access to an external employee assistance programme, providing free expert advice on a wide range of medical, legal and family issues.

Corporate responsibility

The Bank's corporate responsibility activities are outlined on pages 17 to 22. In addition, The Co-operative Group Sustainability Report, which will be published in the first half of 2011, describes how The Co-operative Group Limited, CFS, the Bank, Co-operative Insurance Society Limited and CIS General Insurance Limited manage their social, ethical and environmental impacts.

Political and charitable donations

During the year, CFS Management Services Limited, a fellow subsidiary of CFS, made donations (which exclude affinity card payments) of $\mathfrak{L}0.4m$ to charitable organisations on behalf of the Bank (2009: $\mathfrak{L}0.4m$). A further $\mathfrak{L}0.5m$ of donations were made directly by the Bank with $\mathfrak{L}0.4m$ allocated through the Britannia Foundation. Additional costs associated with the Bank's community involvement are provided within The Co-operative Group Sustainability Report. It is the Bank's policy that no donations are made for political purposes.

Outlets

At 31 December 2010 the Bank had 370 outlets (2009: 368 outlets).

Market value of land and buildings

Freehold and leasehold land and buildings held by the Bank are held on the balance sheet at historic cost and have not been revalued. Based on valuations carried out by The Co-operative Group's internal property valuers, their market value at the balance sheet date is $\mathfrak{L}75.2$ m which is $\mathfrak{L}8.0$ m higher than carrying value.

Supplier payment policy and practice

With the exception of the Britannia business area detailed below, the Bank does not pay suppliers directly as all supplies and services are sourced through CFS Management Services Limited, a fellow subsidiary of CFS. A management charge is payable to cover the cost of these services.

Suppliers are paid directly by the former Britannia business where the policy is to agree the terms of payment at the start of trading with the supplier, ensure that suppliers are aware of the terms of payment and pay in accordance with its contractual and other obligations. Creditor days at 31 December were 16 (2009: 11 days).

Report of the Board of Directors continued

Post balance sheet events

The directors consider that there has been no event since the year end that has had a significant effect on the Bank's position or that of any of its connected undertakings.

Significant contracts

The Bank maintains a number of significant contracts with IT providers, cash handling entities and mailing service companies as well as with a CFS Group company, CFS Management Services Limited which provides facilities and services for all CFS Group companies.

Financial statements

So far as the directors are aware, there is no relevant audit information of which the Bank's auditors are unaware, and the directors have taken all steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Bank's auditors are aware of that information.

Statement of directors' responsibilities in respect of the report of the Board of Directors and the financial statements

The directors are responsible for preparing the financial statements and the Group and parent company financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare Group and parent company financial statements for each financial year. Under that law they are required to prepare the Group financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and applicable law and have elected to prepare the parent company financial statements on the same basis.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and parent company and of their profit or loss for that period. In preparing each of the Group and parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with IFRS as adopted by the EU; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the parent company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the directors are also responsible for preparing a remuneration report, a directors' report and a corporate governance report that comply with that law and those regulations.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Auditors

In accordance with Section 489 of the Companies Act 2006, resolutions for the appointment and remuneration of the auditors are proposed at the next AGM and set out on page 125. Further detail in relation to the appointment of the auditors is set out on page 22.

By Order of the Board **Moira Lees**, Secretary

29 March 2011

Corporate governance report

UK Combined Code on Corporate Governance

For the period ended 31 December 2010, The Co-operative Bank plc (the Bank) believes it has, with the exception of the level of independent representation on the Board and CFS Audit and Regulatory Compliance Committee (which is commented upon later), fully complied with the principles and provisions of the Combined Code on Corporate Governance (the Code) appropriate to the structure of the Bank and its parent organisation, Co-operative Financial Services Limited (CFS) and The Co-operative Group Limited (The Co-operative Group).

The Bank will, for the period ended 31 December 2011, report against the new UK Corporate Governance Code. A gap analysis has been completed and work is underway to ensure compliance with the UK Corporate Governance Code.

Board composition and independence

The Board currently comprises 15 non-executive directors and five executive directors.

The Code requires at least half of the Board, excluding the Chair, to be independent non-executive directors. In accordance with the Code, it is for the Board to consider whether a director is independent in character and judgment and whether there are any relationships or circumstances which are likely to affect, or could appear to affect, the director's judgment. The size and composition of the Board is currently under review and increasing the proportion of independent directors on the Board will be considered as part of this review.

The Board has concluded that, looking across the wider Co-operative Group, the individual members elected by and from The Co-operative Group's seven regions to stand as directors (unless employees within the last five years) should be defined as independent, while those appointed directors representing independent society members of The Co-operative Group could not be so categorised in the co-operative context. This is because the latter represent significant shareholders with material business relationships.

Included within the Board members are seven independent professional non-executive directors, Rodney Baker-Bates, David Davies, Peter Harvey, Chris Jones, Bob Newton, Stephen Kingsley and Piers Williamson. David Davies is the senior independent director. In addition, there are two independent non-executive directors elected by and from the members of The Co-operative Group that the Board have determined to be independent as described above. These are Len Wardle and Steve Watts.

Ben Reid represents independent society members of The Co-operative Group. Peter Marks and Martyn Wates hold executive appointments in The Co-operative Group (Peter Marks is the Chief Executive and Martyn Wates is a Deputy Chief Executive). Duncan Bowdler is an employee of The Co-operative Group. Paul Hewitt was, until 28 July 2007, Deputy Chief Executive of The Co-operative Group. These directors cannot therefore be considered to be independent.

The Board believes it has sufficient independent representation having nine independent non-executive directors (excluding the Chair). The Board believes that all the non-executives have considerable experience and make valuable contributions to the operation of the Bank.

The non-executive directors constructively challenge and help develop proposals on strategy and bring strong, independent judgment, knowledge and experience to the Board's deliberations. The non-executive directors are of sufficient calibre and number that their views carry significant weight in the Board's decision making.

The directors that serve on the CFS Board (the Bank's parent) also sit on the Bank Board to provide a common understanding of objectives. Appointments to the CFS Board are made by The Co-operative Group Board. Under the CFS rules, each non-executive director is appointed for a term of three years commencing on the day following the Annual General Meeting for the year in which the director is appointed.

All non-executive directors are eligible for re-appointment at the end of each term of office. The Co-operative Group Board, being party to agreements with the independent professional non-executive directors for services to CFS and its subsidiaries, including the Bank, may resolve to re-appoint at or before the date their contracts expire for a further three year term. It is the normal policy of the Board not to allow an independent professional non-executive director to serve for more than nine years in aggregate.

For the recruitment of non-executive directors, external recruitment consultants are retained.

Roles and responsibilities of the Bank Board

The directors are committed to leading and controlling the Bank effectively. The Board is responsible for the success of the Bank within a framework of controls, which enables risk to be assessed and managed. It is responsible for setting strategy, maintaining the policy and decision making framework in which this strategy is implemented, ensuring that the necessary financial and human resources are in place to meet strategic aims, monitoring performance against key financial and non-financial indicators, overseeing the system of risk management and for setting values and standards in governance matters.

The responsibility of the Board is to direct the business of the Bank and in particular to:

- ensure that the Bank's affairs are conducted and managed in accordance with its Articles of Association and the best interests of its stakeholders and in accordance with co-operative values and principles;
- agree objectives, policies and strategies, and monitor the performance of executive management;
- approve the annual budget and business plan;
- approve the reported financial statements and dividends;
- monitor, through various committees, the key significant risks facing the Bank;
- establish Board committees and agree their terms of reference; and
- approve the delegated financial authorities.

Corporate governance report continued

The Board manages these matters at its regular Board and strategy meetings and details of attendance at Board meetings are noted on page 20. The Board meets on a monthly basis and it met 12 times in 2010. There were also two strategy meetings, attended by senior executives, devoted to consideration of performance and longer term planning. The Board is scheduled to meet for 11 Board meetings and to hold two strategy meetings in 2011.

Board procedures

Board and committee papers are distributed at least one week in advance of meetings. This provides the opportunity for directors to prepare fully for meetings. The minutes of all meetings are circulated to all directors. As well as circulating papers as hard copies, the Board has access to its own secure website where papers are available together with additional supporting material (and which acts as a library of papers for directors).

There is regular communication between the directors, the Chair, the Deputy Chairs and the Secretary between meetings.

When a director is unable to attend Board or committee meetings, issues can be raised with the Chair or the Deputy Chairs. Written questions for management on papers are encouraged from directors between meetings. A rolling schedule of matters arising from Board and committee meetings is followed through.

The roles of the Chair, Deputy Chairs and Chief Executive

The division of responsibilities between the Chair of the Board and the Chief Executive is clearly defined and has been approved by the Board.

The Bank Chair is a non-executive director. He leads the Board in the determination of its strategy and in the achievement of its objectives. The Chair is responsible for organising the business of the Board, ensuring its effectiveness and setting its agenda. He has no involvement in the running of the day to day business of the Bank. The Chair facilitates the effective contribution of directors and constructive relations between the executive and non-executive directors, and ensures directors receive accurate, timely and clear information and ensures that there is effective communication with members. During 2010 the Chair undertook one to one discussions with all directors regarding the performance of the Board. On 21 April 2010 two Deputy Chairs were appointed to support the Chair.

Details of the Chair's and Deputy Chairs' professional commitments are included in the biographies on page 11. The Board is satisfied that these responsibilities do not interfere with the performance of the Chair or Deputy Chairs' duties for the Bank.

The Chief Executive, appointed by The Co-operative Group Board, has direct charge of the Bank on a day to day basis and is accountable to the Board for the financial and operational performance of the Bank.

Board committees

With the agreement of the Financial Services Authority (FSA), the Board has delegated certain responsibilities to the following committees, all of which have written terms of reference covering the authority delegated to it by the Board. Each of these committees has a role in ensuring the effectiveness of the Bank and its subsidiaries. A provision of the Code is that the terms of reference for the Remuneration and Appointments Committee and the Audit and Regulatory Compliance Committee are available on the Bank's website, and the Bank complies with this.

Remuneration and Appointments Committee

The CFS Remuneration and Appointments Committee meets as a joint committee for CFS, Co-operative Insurance Society Limited (CIS), CIS General Insurance Limited (CISGIL) and the Bank. Information on the Remuneration and Appointments Committee is found on page 23.

CFS Audit and Regulatory Compliance Committee

The CFS Audit and Regulatory Compliance Committee meets as a joint committee for CFS, CIS, CISGIL and the Bank. The committee comprises five members and is chaired by Paul Hewitt. During the year the committee comprised:

(Chair)

(resigned 12 May 2010)

Paul Hewitt
Paul Flowers
Chris Jones
Bob Newton
Ben Reid
Martyn Wates

Paul Hewitt, Ben Reid and Martyn Wates bring recent and relevant financial experience and in addition Ben Reid is the Chair of The Co-operative Group's Audit and Risk Committee. Paul Flowers stood down from the committee following his appointment as Chair of the Board. Chris Jones and Bob Newton are considered to be independent members of the committee. The committee's terms of reference and constitution are currently under review. Please see page 20 for further detail.

The committee met four times during the financial year. The main responsibilities of the committee are to:

- review and discuss with management and auditors the preliminary results, interim information and annual financial statements of the Bank before submission to the Board;
- review, prior to its consideration by the Board, the external auditor's reports to the directors and management's response;
- receive reports on activities and note the minutes of the CFS Risk Management Committee;
- consider any necessary disclosure implications from the process that has been applied by the Board to deal with material internal control aspects of any significant problems disclosed in the financial statements;
- obtain assurance that the Bank is compliant with relevant regulation;
- review and discuss issues identified as a result of compliance work and how management is addressing these issues;
- monitor regulatory relationships, in particular, with the FSA;
- assess the qualification, expertise, resources, effectiveness and independence of the external auditors and approve the terms of engagement and remuneration paid to the external auditors in respect of the audit services provided;
- review co-ordination between the internal and external auditors and, where relevant, the risk management functions;
- review and discuss with the relevant business leaders any issues identified as a result of internal audit work and how management is addressing these issues as well as reviewing reports on management response to audit recommendations;
- monitor and assess the role and effectiveness of the internal audit function; and
- approve policies and review the adequacy of risk management activities in relation to operational risk.

CFS Risk Management Committee

The CFS Risk Management Committee meets as a joint committee for CFS, CIS, CISGIL and the Bank. The committee comprises six members and is chaired by Piers Williamson. During the year the committee comprised:

Piers Williamson (Chair) **David Davies**

Mike Fairbairn (Director of Risk)
(who is not a Board director)

Paul Flowers (resigned 7 July 2010)

Paul Flowers
Paul Hewitt
Stephen Kingsley
Barry Tootell

Paul Flowers stood down from the committee following his appointment as Chair of the Board although he may attend any committee meeting as an observer at his discretion. The committee's terms of reference and constitution are currently under review. Please see page 46 for further detail.

The committee met six times during the financial year. The main responsibilities of the committee are to:

- review and challenge the impact assessment of the strategic plan on the risk and capital profile of the Bank;
- review and challenge the risk appetite process with a focus on the overall organisational view of risk appetite:
- monitor compliance with Board approved risk appetite;
- approve mandates and portfolio limits in line with risk appetite, and monitor and review any breaches thereof:
- assess the robustness of Individual Capital Adequacy Assessment Processes (ICAAP);
- review and challenge the executive's recommendations on level of capital held in relation to how adequately it reflects the Bank's risk profile;
- review and challenge the adequacy of risk management activities across the Bank managed by the executive, including risk mitigation;
- review and challenge the adequacy of the risk management process and systems in operation;
- set standards for risk management processes and techniques, and benchmark against industry best practice on a regular basis; and
- monitor the credit risk performance of new and existing portfolios against limits, and ensure any appropriate risk mitigation action or review of risk policies or limits is taken.

CFS Exposures Committee

The CFS Exposures Committee meets as a joint committee for CFS, CIS, CISGIL and the Bank. The committee comprises five members and is chaired by Peter Harvey. During the year the committee comprised:

Peter Harvey
Kevin Blake
(Business Leader, Banking Risk)
(who is not a Board director)

(resigned 15 April 2010)

Bob Burlton Neville Richardson Steve Watts Piers Williamson

The Bank Chair may attend any committee meeting as an observer at his discretion.

The committee met 11 times during the financial year. The main responsibilities of the committee are to:

- approve all Bank advances in excess of the delegated lending authority of the Chief Executive;
- review all decisions taken within the delegated authority of the Chief Executive or any individual executive by way of Noting Returns;
- review and approve management actions on excess positions on lending exposures which exceed the Chief Executive's discretion;
- review and approve management actions on excess positions on investment exposures which exceed the Chief Executive's discretion;
- review and approve management actions on individual counterparty positions on the corporate banking credit risk watchlist, the Bank's market credit risk watchlist, and The Co-operative Asset Management credit risk watchlist:
- review and approve management actions on any other positions which the Credit Committee or the Business Leader, Actuarial Risk, determine should be brought to its attention; and
- review minutes of the Risk Management Committee and note any actions to be taken as relevant to the remit of the committee.

During the year the committee reviewed its own effectiveness.

Corporate governance report continued

CFS Banking Transformation Programme Sub-Committee

In addition to the main Board committees detailed above, the CFS Banking Transformation Programme Sub-Committee was constituted by the CFS Board at its meeting on 17 February 2010. The sub-committee's purpose is to provide oversight of CFS's Banking Transformation Programme in order to give assurance to the Board on the progress of the work in the programme. The work of the Banking Transformation Programme includes replacing the existing retail and corporate banking systems with new technology systems, redesigning processes and interaction with customers.

Attendance

The table below sets out the frequency of, and attendance at, the Board and Board committee meetings for the period under review by directors.

The number in brackets indicates the total number of meetings the director was eligible to attend during the year. In the case of a director being unable to attend a meeting, the Chair has received a satisfactory reason for their absence.

Provision of advice to directors

A number of external consultants provide professional advice to the Boards of the constituent parts of the wider Co-operative Group. There is an agreed procedure by which directors may take independent professional advice at the Bank's expense in furtherance of their duties.

Training and professional development

In 2010, a new Board Learning and Development Policy was introduced to support all non-executive directors.

Following meetings with non-executive directors to review individual and collective training and development, thematic learning and development sessions for the whole Board have taken place each month.

Specific training has been organised for Board committees including the CFS Remuneration and Appointments Committee, the CFS Audit and Regulatory Compliance Committee and the Risk Management Committee. In addition, one to one support has been provided to a number of directors.

The directors' website has been used as a resource bank to enable directors to access, revisit and review copies of presentations and materials from the development sessions.

At the end of 2010 individual learning and development records were issued to all non-executive directors summarising activity through the year and individual learning plans were being progressed with a view to constructing the framework for individual and collective learning and development going forwards.

Performance evaluation

The Code requires the Board to undertake a formal and rigorous annual evaluation of its own performance and that of its committees and individual directors.

During the year an external evaluation of the CFS Board, also sitting as the Bank Board, was completed in order to provide independent and informed advice on the effectiveness and impact of the Board and its committees. The review included observation of Board and committee meetings, review of constitutional documents and one to one confidential interviews with directors. The findings of the review were reported back to the Board at a strategy meeting in November 2010. A small number of recommendations were made and these are being implemented during 2011.

In addition to the Board review, an external review of the Bank risk management framework was conducted during 2010 which included a review of the responsibilities and terms of reference for the CFS Audit and Regulatory Compliance Committee and the CFS Risk Management Committee. The results of the review, which were reported to the Board, confirmed that the Bank risk management framework was coherent. The review made a number of recommendations in light of new regulations and evolving best practice and these are to be considered during 2011 alongside a detailed review of the terms of reference and composition of both the CFS Audit and Regulatory Compliance Committee and the CFS Risk Management Committee.

Due to the extent of the external reviews which took place in 2010, with the exception of CFS Exposures Committee, internal Board and committee evaluations were not required. The internal evaluation process will recommence in 2011.

The Secretary to the Board

The Secretary is professionally qualified and is responsible for advising the Board through the Chair on all governance matters. The directors have access to the advice and services of the Secretary. The Articles of Association and the schedule of matters reserved to the Board for decision provide that the appointment and removal of the Secretary is a matter for the full Board.

The executive

It is the responsibility of the executive to implement the strategic objectives as agreed by the Board. The executive, under the leadership of the Chief Executive is responsible for the day to day management of the Bank.

Effective from 1 January 2011 the Chief Executive reports directly to the Chief Executive of The Co-operative Group in order for CFS and its subsidiaries, including the Bank, to become more closely integrated into The Co-operative Group.

Relations with members

The Bank has two equity shareholders. The majority of the shares are held by CFS, which is a wholly owned subsidiary of The Co-operative Group. The remainder of the shares are held directly by The Co-operative Group.

The Bank has approximately 2,500 preference shareholders. The preference shares are fixed-interest shares and are non-cumulative and irredeemable. The preference shareholders are entitled to attend the Annual General Meetings, but the shares only hold speaking or voting rights if and when the dividend has been in arrears for six months or more, or if a resolution is to be proposed at general meeting abrogating or varying any of their respective rights or privileges, or for the winding up of the Bank or other return of capital and then only on such resolution.

Risk management

The Board and executive management have the primary responsibility for identifying the key business risks facing the organisation. The CFS risk management framework, which is approved and reviewed by the Bank Board, outlines the approach taken to ensure a robust risk management process is in place throughout the organisation and is regularly reviewed. The framework includes an ongoing process for identifying, evaluating and managing significant risks and has been in place for the year under review and up to the date of the approval of the annual financial statements.

An independent review of the Bank risk management framework has recently been completed.

The objective of the review was to consider whether the current framework is capable of enabling good risk governance and to make recommendations for

the current framework is capable of enabling good risk governance and to make recommendations for improvement. The review considered the current framework to be suitable for an organisation of the Bank's size and complexity.

The Board accepts that there are risks which could impact on the achievement of the Bank's business objectives, but endeavours through positive risk management strategies as outlined in the risk management framework, to manage these in a manner that optimises returns within the confines of the business' risk appetite, whilst protecting members' interests and reserves.

For further information on the Bank's approach to risk management see pages 45 to 77.

Internal control

Internal controls are the activities undertaken by management, the Board and other parties to enhance risk management and increase the probability that established objectives and goals will be achieved. The Board has overall responsibility for the Bank's system of internal controls which aim to ensure effective and efficient operations, quality of internal and external reporting, safeguarding of the Bank's assets and compliance with laws and regulations. Whilst recognising that the system is designed to manage rather than eliminate risk of failure to achieve business objectives, it can only provide reasonable and not absolute assurance against material misstatement or loss.

Corporate governance report continued

The Bank's internal control framework is designed to create an attitude of taking acceptable business risk within clearly defined limits. The control environment includes:

- an organisational governance structure with clear lines of responsibility, delegation of authority and reporting requirements;
- checks and balances to ensure that business processes operate efficiently reducing the risk posed to the organisation whilst adhering to organisational values;
- comprehensive systems of financial reporting. The annual budget and long term plan of the Bank and of each division are reviewed and approved by the Board:
- a code of business conduct covering relations with customers, shareholders, colleagues, suppliers, community and competitors;
- a whistleblowing policy and procedure which provides for any employee to report, in confidence, suspected serious malpractice;
- internal audit, risk and compliance functions that review the system of internal control; and
- a control self assessment process designed to fully support the annual review of the effectiveness of the system of internal control and enable continual monitoring and improvement of the internal control environment.

External audit

One of the duties of the CFS Audit and Regulatory Compliance Committee is to make recommendations to The Co-operative Group Audit and Risk Committee in relation to the appointment of the external auditors. In 2003 The Co-operative Group Board approved the re-appointment of KPMG Audit plc as the external auditor following a competitive tender exercise. A repeat tender exercise is currently underway and it is intended that a resolution to appoint the external auditor be put to the next Annual General Meeting of The Co-operative Group on 21 May 2011. It is proposed that KPMG Audit plc remain as external auditors of the Bank until this date. A resolution to re-appoint KPMG Audit plc as external auditor at the Bank's next Annual General Meeting on 12 May 2011 is contained in the Notice of the Annual General Meeting on page 125.

The CFS Audit and Regulatory Compliance Committee has put in place safeguards to ensure that the independence of the audit is not compromised including a policy on the conduct of non-audit services from the external auditors. The external auditors are permitted to provide some non-audit services that are not, and are not perceived to be, in conflict with their independence. The Co-operative Group Audit and Risk Committee receives at each meeting a report providing details of assignments (and related financial fees) carried out by the external auditor of the Bank in addition to their statutory audit work. The pre-approval of the committee is required for services above certain thresholds determined by the committee.

In addition, the following assignments are prohibited from being performed by the external auditors:

- bookkeeping or other services related to the accounting records or financial statements;
- financial information systems design and implementation;
- · actuarial services;
- internal audit outsourcing services;
- management functions or human resources; and
- any other services that the CFS Audit and Regulatory Compliance Committee may determine.

The performance of the external auditors is regularly monitored to ensure it meets the needs of the Bank and the results are reported to the committee.

Internal audit

The internal audit function is an independent function, which reports to the CFS Audit and Regulatory Compliance Committee. Its primary role is to provide assurance over the adequacy and effectiveness of the internal control framework including risk management practices.

Internal audit seeks to discharge the responsibilities set down in its charter by completing a risk based internal audit plan, reviewing the processes which ensure that the key business risks are effectively managed by key controls.

Internal audit also acts as a source of constructive advice and best practice, assisting senior management with its responsibility to improve the processes by which business risks are identified and managed.

Internal audit reports are submitted to, and significant issues discussed at, the CFS Audit and Regulatory Compliance Committee. Full details of the operation of this committee can be found on page 18.

By Order of the Board **Moira Lees**, Secretary

29 March 2011

Remuneration report

The Co-operative Bank (the Bank) uses, as a guideline for its disclosure in relation to remuneration, the requirements applicable to Listed Companies, as set out in schedule 8 of the Large and Medium sized Companies and Groups (Accounts and Reports) Regulations 2008 (incorporated into the Companies Act 2006) and will be subject to an advisory vote of shareholders of the Company at its Annual General Meeting to be held on 12 May 2011.

This report provides details of the remuneration of both the executive directors and the non-executive directors. The details, also shown in the report of Co-operative Financial Services (CFS), do not represent additional payments.

The key issues this year are:

- extensive dialogue with the Financial Services
 Authority (FSA) in connection with our current and
 future remuneration practices. All remuneration
 arrangements and practices in place are compliant
 with the FSA Code of Practice;
- compliance with the new disclosure requirements
 of the FSA in respect of those colleagues who
 are designated as code staff but who are not
 executives. The relevant information in respect of
 those colleagues is to be found in section 9 of this
 report;
- the introduction of a new annual incentive plan with effect from 1 January 2010; and
- the introduction of a new long term incentive plan with effect from 1 January 2010.

These issues are covered in detail in the body of the report.

Introduction

The remuneration report is presented by the Board and contains the following information:

- a description of the role of the CFS Remuneration and Appointments Committee (the committee), in respect of the Bank;
- a summary of the Bank's remuneration policy, including a statement of policy on executive directors and non-executive directors; and
- details of the terms of the service contracts and the remuneration of the executive directors and non-executive directors for the 2010 financial year.

The CFS Remuneration and Appointments
Committee meets as a combined committee for CFS
and the Bank. Its role is described below.

Role of the Remuneration and Appointments Committee

The committee's terms of reference were last revised and approved by the CFS Board on 12 May 2010.

The committee's principal terms of reference are to:

- determine the policy on remuneration and other main terms and conditions of employment in respect of Bank executives;
- oversee contractual arrangements for the executives and approve the principal terms and conditions of employment of such executives;
- review remuneration using comparisons against the agreed market policy for the executive;
- make recommendations on executive appointments and the terms and conditions relating to these;
- review and agree the remuneration policy and outcomes in respect of all code staff;
- approve any relevant incentive schemes, ensure that they are in line with current market practice and the FSA Code of Practice, and authorise payments under any incentive schemes in line with their rules; and
- receive, review and decide on issues raised in relation to the Co-operative Group Pension (Average Career Earnings) Scheme and any other retirement benefit scheme within the Group and advise the Board on them as appropriate.

The Co-operative Group Remuneration and Appointments Committee oversees these arrangements in respect of the CFS Chief Executive.

The terms of reference for the committee are available on the CFS website.

Members of the committee during 2010 were Rodney Baker-Bates (Deputy Chair CFS) as Chair, together with Len Wardle (Group Chair), Peter Marks (Co-operative Group Chief Executive), Paul Flowers (Bank Chair) and David Davies (Deputy Chair, CFS). Bob Burlton sat on the committee until his retirement from the Board on 15 April 2010. The Board believes that all members of the committee are independent for the purpose of reviewing remuneration matters.

The CFS Chief Executive and the Director of Organisational Development also attended the meetings of the committee during the year except when their own remuneration was being discussed. The Chief Risk Officer provided an annual report to the committee and attended and provided advice on specific risk adjustments in relation to remuneration issues as required by the FSA. Other individuals were invited to attend for specific agenda items when necessary. The committee worked with the Co-operative Group Remuneration and Appointments Committee in ensuring consistency, where appropriate, across the wider Co-operative Group.

The committee members are all non-executive directors. They have no personal financial interests in the committee's decisions, and they have no involvement in the day to day management of the Bank

The committee met six times in the year to 31 December 2010.

To ensure that it receives independent advice on remuneration matters, the committee retained Hewitt New Bridge Street (a trading name of Aon Hewitt Limited, part of the Aon Corporation) as its advisers during 2010 to provide advice solely on remuneration matters. Hewitt New Bridge Street has supplied survey data and advised on market trends and other general remuneration issues. Other than specialist advice in relation to remuneration matters, Hewitt New Bridge Street does not provide other services to CFS. Addleshaw Goddard was also retained to provide legal advice to the committee with respect to executives' service contracts.

Policy on directors' remuneration Executive directors

In determining the remuneration policy for executive directors, the committee consider a number of factors including:

- the importance of attracting, retaining and motivating senior executives of the appropriate calibre to further the success of the Bank;
- the linking of reward to business and individual performance and the strengthening of co-operative values which include a strong belief in stewardship of all the Bank's resources and, therefore, ensures that executives are not rewarded for the assumption of undue risk;
- ensuring that the interests and pay practices of the executive directors are aligned across the Bank, taking into account also the pay levels and employment conditions of colleagues within the business:
- in conjunction with the Group Remuneration and Appointments Committee ensuring that pay practices are coherent with those in the Society as a whole; and
- ensuring appropriate compliance with the FSA Code of Practice.

Remuneration report continued

The current policy is to pay executive directors, who also sit on the CFS Board, basic salaries around the market median, when compared with other organisations of comparable size and complexity, and also organisations in the same business sector. The committee supports the principle of performance related pay and operates an annual incentive plan and a long term incentive plan which, together, mean that over 50% of the remuneration package is performance related. The committee does not consider it appropriate to follow the quantum available in some publicly traded companies. Accordingly, the amounts payable under these plans are lower than in comparable publicly traded companies. Together, the annual incentive plan and long term incentive plan represent total variable remuneration, with awards under the long term incentive plan comprising the deferred element of variable remuneration as required by the FSA.

The committee considers that a successful remuneration policy needs to be sufficiently flexible to take account of future changes in the Bank's business environment, and in comparative remuneration practice. Accordingly, the committee continuously keeps the Bank's remuneration policy under review.

Whilst the business climate in financial services remains challenging, the Bank has remained resilient through the period, having a robust model based on sound co-operative principles (which avoid undue risk taking or reliance on a single business stream). In particular, the absence of highly leveraged incentive plans (when compared with some practices in the quoted sector) has ensured that executives have not been encouraged to accept undue risk as a means of securing personal reward.

The committee notes that the remuneration practices already adopted at the Bank, in addition to being right for the business, have been endorsed by the FSA through its Code of Practice on remuneration policies. However, the committee continues to strive for further improvements in its executive remuneration arrangements as best practice evolves.

The main components of executive directors' remuneration are:

1. Basic salary

It is the committee's policy to ensure that the basic salary for each executive director is appropriate and competitive for the responsibilities involved. Basic salaries for executive directors are reviewed by the committee, normally annually, having regard to competitive market practice (in particular, salary levels for similar positions in comparable companies), and business and individual performance during the financial year. The normal month for salary review is January. Basic salary is the only element of remuneration that is pensionable. Salaries received by executive directors in respect of 2010 are set out in table 1.

2. Annual incentive plan

Each executive director is eligible to participate in an annual performance related incentive plan. The committee reviews and sets incentive targets and levels of eligibility annually.

The design and terms of the 2010 plan are as follows:

- target payment levels for all of the executive team are 35% of base salary with a maximum opportunity of 60%; and
- all measures used in the plan are derived from the corporate balanced scorecard.

Such an approach, in addition to being right for the business, represents best practice as set out in the FSA Code of Practice.

The measures and weightings in the balanced scorecard are as set out below:

- financial (30%): shareholder profit before tax;
- process (30%): cost v budget;
- customer (20%): customer advocacy; and
- people (20%): colleague engagement score.

In addition to achieving performance against the balanced scorecard measures and weightings, four further underpins must be achieved before any payment is made. These are as follows:

- 1. The budget profit must be achieved before any element becomes payable.
- 2. CFS must stay within its required liquidity range as agreed by the CFS Board.
- 3. CFS must stay within its required minimum capital level as agreed by the CFS Board.
- 4. There should be no material breaches of risk in accordance with the risk appetite as agreed by the CFS Board. The Chief Risk Officer is required to provide an annual report to the committee before bonus payments are signed off.

Additionally in accordance with the FSA Code of Practice, deferral provisions, clawback facility and malus adjustment (bonus reduction facility) are built into the plan.

3. Long term incentive plan

A new long term incentive plan (LTIP), compliant with the FSA Code of Practice and representing deferred remuneration, was introduced with effect from 1 January 2010. The plan is designed to focus and align the leadership team with the long term strategy of the business. The plan measures performance over a three year period. The first three year period is 2010 to 2012 with potential payment in 2013. It is intended that awards will be made annually thereafter.

The level of award under the LTIP is 75% of base salary for executives and 100% of base salary for the Chief Executive. These awards represent the maximum amount payable in respect of each three year performance period. The actual amount of award vesting is subject to the achievement of the performance measures.

The performance measures are based on the performance of the business over a three year period as set out in the balanced scorecard, the measures being designed to ensure delivery of CFS's strategic targets. The specific measures for 2010 to 2012 are shareholder profit, cost management, customer satisfaction, and colleague engagement. Additionally, the underpins applicable to the annual incentive plans also apply to the LTIP. Any breach thereof will result in the committee considering a reduction in any payment that may otherwise be calculated as due. These underpins are to provide appropriate risk adjustment and to be compliant with the FSA Code of Practice.

4. Service agreements

It is the Bank's policy for the notice period in executive directors' service contracts not to exceed one year. Executive directors have consistent contracts that are terminable by up to one year's notice by the organisation and six months' notice by the individual. In the event of termination, any payments due to an executive director would be based on this. The committee may make a discretionary award of bonus earned up to the date of termination of employment. Any such award would be subject to deferral in accordance with the FSA code of practice.

All the Bank executive directors had similar contracts during 2010. The dates of existing contracts or dates of appointment are shown in table 1.

In normal circumstances, it is the committee's policy to apply service contracts for any newly recruited executive directors in a similar form to the model that has been developed for existing executive directors.

5. Share options

As a co-operative, CFS does not operate a share or share option plan.

6. Non-executive directorships

The committee has determined that, subject to the committee's approval, executive directors may accept one non-executive directorship, or similar, with an external organisation believing that this represents an important opportunity for professional development. Any fees received from such a role will normally be paid to the Bank, CFS or The Co-operative Group.

At this time, with the exception of Neville Richardson who is a director of Communicate Mutuality Limited, none of the executives hold any non-executive directorships with companies outside of The Co-operative Group.

7. Pensions

The financial services businesses participate in the Co-operative Group Pension (Average Career Earnings) Scheme (the PACE Scheme). However, following the merger with Britannia Building Society on 1 August 2009, colleagues who at that date were members of the Britannia Pension Scheme (the Britannia Scheme) continue in membership of the Britannia Scheme. From 1 August 2009, for the interim, only the defined contribution section of the Britannia Scheme is available to new colleagues of the financial services businesses.

The PACE Scheme, which is a registered occupational pension scheme, provides defined benefit pensions based on 1/60th of average pensionable earnings, re-valued for inflation for each year of pensionable service from 6 April 2006 (the date the PACE Scheme was implemented). Benefits accrued as at 5 April 2006, in respect of membership of the scheme preceding the PACE Scheme, continue to be linked to final pensionable salary at a member's date of leaving or retirement, whichever is earlier. Pensions are also payable to dependants on death and a lump sum is payable if death occurs in service.

The Britannia Scheme, which is also a registered occupational pension scheme, provides benefits under two sections:

- a defined benefit (DB) section (closed to new colleagues), which provides pensions based on an accrual of 1/60th, 1/60th or up to 1/30th for executives, of final pensionable salary for each year of pensionable service; and
- a defined contribution (DC) section (open to new colleagues) with an employer contribution rate of 4%, 6% or 8% depending on the level of member contribution.

Under both sections pensions are also payable to dependants on death and a lump sum is payable if death occurs in service.

Members of the PACE Scheme currently contribute 6% of their pensionable salary whilst members of the Britannia Scheme contribute either 6% or 8% of their pensionable salary if they are in the DB section. The employer pays the balance of cost of providing DB benefits. Members of the Britannia Scheme DC section pay 2%, 3% or 4% of their pensionable salary. All members have the choice of making pension contributions by salary sacrifice.

Prior to the merger on 1 August 2009, Neville Richardson, Tim Franklin and Phil Lee had contractual arrangements under which they accrued pension benefits in an unfunded employer financed retirement scheme (EFRBS).

Remuneration report continued

These contractual arrangements were revised from 1 August 2009 and the rate of benefit aligned more closely to Group executive pension policy. The EFRBS is in place to provide pension benefits that exceed the lifetime allowance. Benefits up to the lifetime allowance will be provided from the Britannia Scheme. The revised pension arrangements are subject to further review in 2011.

Executives have the facility of opting out of future pension accrual under the relevant registered scheme when the value of their accrued pension benefits reaches the lifetime allowance under the tax rules in favour of a pension allowance of 16% of basic salary in lieu of pension provision. John Reizenstein had previously opted out of the PACE Scheme on this basis and is entitled to a deferred pension. He received a pension allowance of 16% of basic salary.

Supplementary life cover is provided to executives in order to provide total life cover of four times salary when aggregated with benefits from the PACE Scheme or Britannia Scheme, as appropriate.

Additional details are available in table 2.

Non-executive directors

All the non-executive directors are appointed, and their directors' fees are determined and paid, by The Co-operative Group.

The basic fee for a non-executive director elected to sit on The Co-operative Group Board who is also appointed to serve on the CFS Board and its principal subsidiaries (including the Bank) is £15,555 per annum, and these same non-executive directors receive additional fees for serving on the various CFS Board committees (which also have responsibility for Bank business). The Chair's fee is £107,848 per annum.

During the year under review, Hewitt New Bridge Street conducted a benchmarking exercise of fee levels for the independent professional non-executive directors serving on the CFS Board and its committees, and, as a result, recommendations from the CFS Remuneration and Appointments Committee were approved by the Board of The Co-operative Group in September 2010.

Following this benchmarking exercise the seven independent professional non-executive directors and the professional non-executive director receive a fee of $\mathfrak{L}57,002$ per annum. Directors serving on the various committees also receive additional fees, as do the Deputy Chairs, to reflect their additional responsibilities.

Fees are increased in line with RPI every year. The increase in fees in 2010 was 3.7%, effective from 1 June 2010.

The independent professional non-executive directors and the professional non-executive director are party to agreements with The Co-operative Group governing the terms on which their services are made available to the Bank. These service agreements all expire on 31 July 2012, with the exception of Bob Newton, Piers Williamson and Paul Hewitt whose service agreements expire on 31 July 2011.

The Co-operative Group Board may resolve to re-appoint any of the independent professional non-executive directors at or before the date their service agreements expire for a further three year term. It is the normal policy of the Board not to allow an independent professional non-executive director to serve for more than nine years in aggregate.

The non-executive directors' service agreements contain no specific provision for liquidated damages on early termination of an agreement.

None of the independent professional non-executive directors are directors of The Co-operative Group or members of any Co-operative Group pension scheme or incentive plan.

Details of the directors' year of appointment and fees are shown in table 3.

Code staff remuneration

Code staff is defined by the FSA as staff having a material impact on a firm's risk profile, including a person who performs a significant influence function for a firm, a senior manager and risk takers. The information provided within this section is supplementary to the qualitative and quantitative information provided herein with respect to the executive and non-executive directors, all of whom are code staff.

Remuneration policy and outcomes for code staff are determined by the committee. The design of the component parts of remuneration is as set out for the executives. However, the overall remuneration levels and incentive opportunities are lower than for executives. For all code staff, performance related pay is risk adjusted through the use of the underpins to the incentive plans together with the application of deferrals, clawback and malus adjustments in accordance with the FSA Code of Practice.

Details of the aggregate remuneration information required by the FSA are shown in table 4 and are in respect of all CFS code staff. The amounts shown in respect of executive and non-executive directors do not represent additional remuneration.

By Order of the Board **Rodney Baker-Bates**, Chair CFS Remuneration and Appointments Committee

29 March 2011

Table 1 – Emoluments of executive directors for the year ending 31 December 2010

Total		2,521	285	1,142	22	3,970	497	4,467	2,464
Former directors who ser Compensation for loss of									1,014 1,750
									5,228

The table above represents total emoluments for executive directors in relation to their services for the CFS Group.

- (1) Other supplements include car allowance, pension (in lieu), and medical insurance (in lieu). These elements are non-pensionable.
- (2) Performance related pay (annual) refers to amounts earned in respect of 2010.
- (3) Performance related pay (medium/long term) refers to compensatory amounts paid in respect of the lost opportunity as a result of the early vesting of the 2008–2010 plan.
- (4) Benefits in kind for Neville Richardson and Phil Lee are in respect of company car and medical insurance and for Tim Franklin in respect of medical insurance only. These benefits were provided under the terms of their contract with Britannia.
- (5) The other supplements figure for John Reizenstein includes a salary supplement in lieu of pension provision.
- (6) John Reizenstein resigned as executive director on 7 December 2010.
- (7) The other supplements figure for Rod Bulmer includes a compensatory payment in respect of a lost long term incentive opportunity arising from his previous employment.
- (8) In accordance with the FSA Code of Practice, payment of 60% of 2010 variable pay is deferred over a three year period. Variable pay comprises annual bonus in respect of 2010 plan plus long term incentive awarded in 2011 in respect of the 2010 year.
- (9) 2009 total emoluments were in respect of a part year only for Neville Richardson, Tim Franklin and Phil Lee.
- (10) Compensation for loss of office in 2009 was in respect of David Anderson £1,022,000 and Dick Parkhouse £728,000.

Table 2 - Pension details of executive directors

	Years of service ⁽¹⁾	Total accrued pension at 31 December 2010 ⁽¹⁾ £000	Increase in accrued pension during the year £000	Increase in accrued pension during the year (net of inflation)	column at 31 December 2010 net of members'	Transfer value of total accrued pension at 31 December 2009 £000	of total accrued pension at 31 December	Increase in transfer values net of members' contributions® £000
Neville Richardson	12	140	18	13	174	2,423	2,903	433
Rod Bulmer ⁽²⁾	3	13	6	6	20	53	99	25
Tim Franklin	10	87	11	7	77	1,310	1,536	199
Phil Lee	8	78	11	8	125	1,409	1,717	280
John Reizenstein ⁽⁴⁾	7	5	_	_	_	89	99	10
Barry Tootell ⁽²⁾	2	17	7	6	37	97	166	45

⁽¹⁾ Years of service include, where appropriate, pre-merger service with Britannia. The total accrued pension is that which would be paid annually on retirement at normal retirement age based on service to 31 December 2010 and includes any transferred-in benefits as appropriate.

⁽²⁾ Members have the option of paying additional voluntary contributions to their respective pension scheme. Neither these contributions nor the benefits arising from them are shown in the above table.

⁽³⁾ All transfer values have been calculated in accordance with the current transfer value method and basis in force for the scheme applicable to the executive director. This is set by the Trustee(s), after taking actuarial advice, to be consistent with the requirements of legislation and the rules of the scheme.

⁽⁴⁾ John Reizenstein opted out of joining the PACE Scheme on 6 April 2006 and became entitled to a deferred pension. He is paid a pension allowance of 16% of basic salary in lieu of pension provision.

Deferred pensions are revalued under the PACE Scheme rules but no account has been taken of this in the above table. He resigned as an executive director on 7 December 2010. The details on the table are calculated at that date.

Remuneration report continued

Table 3 - Non-executive directors' remuneration

Professional non-executive director (PNED)			
Paul Hewitt [®] (13)	2003	66	62

- (1) Fees for the year are based on 52 weeks compared to 51 weeks in 2009.
- (2) Bob Burlton resigned with effect from 15 April 2010.
- (3) Paul Flowers was appointed Chair with effect from 15 April 2010. His annual fee is £107,848.
- (4) Peter Marks, Chief Executive of The Co-operative Group and Martyn Wates, Chief Executive of Food and Specialist Businesses are both employees and remunerated by The Co-operative Group and do not receive fees for serving on the CFS Board.
- (5) The non-executive directors that also serve on the Group Board receive a fee of £15,555 per annum for serving on the CFS Board.
- (6) Ben Reid, as a non-executive director who is a member of the CFS Audit and Regulatory Compliance Committee and who is not an IPNED, receives an additional £3,111 per annum.
- (7) Stephen Watts, as a non-executive director who is a member of the CFS Exposures Committee and who is not an IPNED, receives an additional £2,074 per annum.
- (8) Under their service contracts, the IPNEDs receive a fee of £57,002 per annum.
- (9) The Deputy Chairs receive an additional fee of £15,000 per annum.
- (10) The Chair of the CFS Exposures Committee receives an additional £5,000 per annum.
- (11) The Chair of the CFS Banking Transformation Programme sub-committee receives an additional £7,000 per annum.
- (12) The Chair of the CFS Risk Management Committee receives an additional £10,500 per annum.
- (13) The Chair of the CFS Audit and Regulatory Compliance Committee receives an additional £10,500 per annum.
- (14) The Chair of Illius Properties Limited receives a fee of £15,000 per annum.

Table 4 – Aggregate information in respect of code staff

Number of code staff	Total remuneration ⁽¹⁾ £000	Total fixed remuneration [©] £000	Total variable remuneration [©] £000	Annual incentive plan ⁽⁴⁾ £000	Long term incentive plan [©] £000	Outstanding deferred remuneration [®] £000	Deferred reduced and paid £000	Sign on and severance payments £000	Severance payments made in year £000
Senior Management 25 ⁽⁷⁾ Other code staff	8,306	4,395	3,911	1,482	2,429	5	-	-	-
40	12,550	7,510	5,040	2,529	2,511	194	_	_	_

The table above represents the emoluments of code staff in relation to their services for the CFS Group.

- (1) Total remuneration consists of base salary as at 31 December 2010, allowances, employer pension contributions and incentive payments relating to the 2010 financial year together with future earnings opportunity comprised in the 2011–13 long term incentive awards.
- (2) Total fixed remuneration is base salary as at 31 December 2010 plus allowances and employer pension contributions.
- (3) Total variable remuneration is the sum of the annual incentive plan payments in respect of the 2010 financial year and the awards made under the 2011–13 long term incentive plan. The awards under the 2011–13 long term plan are performance related and, to the extent achieved will be payable in 2014. All payments as and when due are made in cash.
- (4) Payments made under the annual incentive plan are in respect of the 2010 financial year.
- (5) Awards made under the 2011–13 long term incentive plan are all unvested and represent deferred remuneration in respect of the 2010 financial year, in accordance with the FSA code.
- (6) The outstanding deferred remuneration is deferred cash where no long term incentive award is made or the award is insufficient to satisfy the deferral percentage required by the FSA.
- (7) Senior management consists of executive directors, members of the executive committee and non-executive directors.

Independent auditor's report

We have audited the financial statements of The Co-operative Bank plc for the year ended 31 December 2010 set out on pages 30 to 75 and pages 78 to 123. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the EU and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and reporting on corporate governance, on terms that have been agreed. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and reporting on corporate governance, those matters that we have agreed to state to them in our report, and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the directors' responsibilities statement set out on page 16, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the APB's website at www.frc.org.uk/apb/scope/private.cfm.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent company's affairs as at 31 December 2010 and of the Group's profit for the year then ended;
- the Group financial statements have been properly prepared in accordance with IFRSs as adopted by the FLI:
- the parent company financial statements have been properly prepared in accordance with IFRSs as adopted by the EU and as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006 and, as regards the Group financial statements, Article 4 of the IAS Regulation.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the information given in the corporate governance statement set out on pages 17 to 22 with respect to internal control and risk management systems in relation to financial reporting processes and about share capital structures is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following:

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Under the Listing Rules we are required to review the directors' statement, set out on page 15, in relation to going concern.

In addition to our audit of the financial statements, the directors have engaged us to review their corporate governance statement as if the company were required to comply with the Listing Rules and the Disclosure Rules and Transparency Rules of the Financial Services Authority in relation to those matters. Under the terms of our engagement, we are required to review the part of the corporate governance statement on pages 17 and 18 relating to the company's compliance with the nine provisions of the June 2008 Combined Code specified for our review.

Andrew Walker, Senior Statutory Auditor for and on behalf of KPMG Audit Plc, Statutory Auditor Chartered Accountants St James Square Manchester M2 6DS

Basis of preparation and significant accounting policies

For the year ended 31 December 2010

The Co-operative Bank plc is registered in England and Wales under the Companies Act 2006.

Basis of preparation

Both the parent company financial statements and the Group financial statements have been prepared and approved by the directors in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), and IFRS Interpretations Committee (IFRIC) guidance as adopted by the European Union (EU). On including the parent company financial statements here together with the Group financial statements, the Company is taking advantage of the exemption in s408 of the Companies Act 2006 not to present its individual income statement and related notes that form a part of these approved financial statements. Information in respect of the Company alone is labelled throughout as 'Bank'.

The financial information has been prepared on the basis of recognition and measurement requirements of IFRS in issue that are endorsed by the EU and are effective for accounting periods beginning on or after 1 January 2010.

Standards and interpretations issued and effective

In preparing these consolidated financial statements, the Bank has adopted the following pronouncements during the year that are new or revised but have no material impact on the financial statements:

• Revised IFRS 3 Business Combinations (2008)

This standard incorporates the following changes which will be applied prospectively:

- The definition of a business has been broadened, which may result in more acquisitions being treated as business combinations.
- Contingent consideration will be measured at fair value, with subsequent changes in fair value recognised in profit or loss.
- Transaction costs, other than share and debt issue costs, will be expensed as incurred.
- Any pre-existing interest in an acquiree will be measured at fair value, with the related gain or loss recognised in profit or loss.
- Any non-controlling (minority) interest will be measured at either fair value, or at its proportionate interest in the identifiable assets and liabilities of an acquiree, on a transaction by transaction basis.
- Amended IAS 27 Consolidated and Separate Financial Statements (2008)

This standard requires accounting for changes in ownership interests in a subsidiary that occur without loss of control, to be recognised as an equity transaction. When the Bank loses control of a subsidiary, any interest retained in the former subsidiary will be measured at fair value with the gain or loss recognised in profit or loss.

• Amended IAS 39 Financial Instruments: Recognition and Measurement – Eligible Hedged Items (2008)

The standard was amended to clarify how the principles that determine whether a hedged risk or portion of cash flows is eligible for designation should be applied in particular situations.

• IFRIC 17 Distributions of Non-cash Assets to Owners

This interpretation was issued to address when an entity should recognise, measure and account for any differences arising on dividends payable from non-cash assets.

Standards and interpretations issued but not yet effective

• IFRS 9 Financial Instruments: Classification and Measurement

This new standard's objective is to gradually phase out IAS 39 Financial Instruments: Recognition and Measurement. Phase one of this process specifically requires financial assets to be classified as at amortised cost or at fair value. Consequently, the available for sale (AFS) category currently used by the Bank will become void.

Early adoption is permitted, once endorsed by the EU. The impact of IFRS 9 is likely to be material to the Bank once it becomes effective as of 1 January 2013.

• IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

This interpretation addresses the accounting by an entity when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor of the entity to extinguish all or part of the financial liability. It does not address the accounting by the creditor.

The impact of this interpretation is considered to be immaterial to the Bank.

• Revised IAS 24 Related Party Disclosures

IAS 24 requires entities to disclose in their financial statements information about transactions with related parties. In broad terms, two parties are related to each other if one party controls, or significantly influences, the other party.

The standard simplifies the disclosure requirements for government related entities and clarifies the definition of a related party. The revised standard is effective for annual periods beginning on or after 1 January 2011, with earlier application permitted.

The impact of this revision is considered to be immaterial to the Bank.

Other standards and interpretations have been issued but these are not considered to be relevant to the Bank's operations.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2010

Basis of preparation continued

Going concern

The Group's business activities together with its financial position, and the factors likely to affect its future development and performance are set out in the business and financial review on pages 5 to 8. In addition, the risk management section on pages 45 to 77 includes the Group's objectives, policies and processes for managing its liquidity risk, details of financial instruments and hedging activities, and its exposure to credit risk and liquidity risk. The capital management section provides information on the Bank's capital policies and capital resources.

In common with many financial institutions, the Group meets its day to day liquidity requirements through managing both its retail and wholesale funding sources, and is required to maintain a sufficient buffer over regulatory capital requirements in order to continue to be authorised to carry on its business. The Group's forecasts and objectives, taking into account a number of potential changes in trading performance and funding retention, show that the Group should be able to operate at adequate levels of both liquidity and capital, for the foreseeable future. The Group has also considered a number of stress tests on capital and liquidity and these provide assurance that the Bank is sufficiently capitalised and adequately positioned in excess of liquidity stress tests.

Consequently, after making enquiries, the directors are satisfied that the Group has sufficient resources to continue in business for the foreseeable future and have therefore continued to adopt the going concern basis in preparing the financial statements.

Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are described within the risk management section on pages 45 to 77 and the critical judgments section on pages 79 to 81.

Prior year restatements

In accordance with IFRS 3, the Bank has 12 months from the date of the merger with Britannia in which to complete the initial accounting for the merger. The Bank has reassessed the carrying values of the Britannia assets and liabilities acquired and made the following adjustments:

The carrying value of loans and advances to customers has been increased following a review of the probabilities of default of assets that were neither past due nor impaired at the merger date. Based on further information that has become available, the Bank has reassessed the fair value of provisions for liabilities and charges.

The impact of this adjustment is not material to the overall level of adjustments to the carrying values of Britannia assets and liabilities that were made on merger and there is no change to the amount of goodwill arising.

Change in accounting reference date

Following the transfer of engagements of Britannia Building Society, the Bank changed its accounting reference date to 31 December. Where these financial statements refer to 'year ended 31 December 2009' this represents the 51 week period from 11 January to 31 December 2009.

Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Business combinations

On 1 August 2009 The Co-operative Bank plc merged with Britannia Building Society, with Britannia transferring their engagements to the Company.

This business combination has been accounted for applying the requirements of IFRS 3: Business Combinations (2004).

The consideration transferred was valued by reference to the members' interests acquired. Financial assets and liabilities which, following the Group's accounting policies, would be carried at amortised cost, were brought on to the balance sheet at their fair value at acquisition and were subsequently carried at amortised cost using the effective interest rate method. The income statement includes the results of the engagements transferred from Britannia since the date of acquisition. Details of the combination are given in note 39.

(b) Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Bank. Control exists when the Bank has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The financial statements have been prepared using uniform accounting policies and are based on the same accounting period as the Bank.

Intra-group balances and transactions, and any unrealised gains and losses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Special purpose entities

Special purpose entities (SPEs) are entities that are created to accomplish a narrow and well defined objective, for the Bank this includes:

- various securitisation transactions in which mortgages were sold to SPEs. The equity of these SPEs is not owned by the Bank.
- Covered Bond Limited Liability Partnerships created in order to act as a guarantor for the issue of covered bonds (refer to note 36 for further information).

An SPE is consolidated if, based on an evaluation of the substance of its relationship with the Bank and the SPE's risks and rewards, the Bank concludes that it controls the SPE

Significant accounting policies continued

The following circumstances may indicate a relationship in which, in substance, the Bank controls and consequently consolidates an SPE:

- the activities of the SPE are being conducted on behalf of the Bank according to its specific business needs so that the Bank obtains benefits from the SPE's operation.
- the Bank has the decision making powers to obtain the majority of the benefits of the activities of the SPE.
- the Bank has the rights to obtain the majority of the benefits of the SPE and therefore may be exposed to the risks incidental to the activities of the SPE.
- the Bank retains the majority of the residual or ownership risks related to the SPE or its assets in order to obtain benefits from its activities.

The assessment of whether the Bank has control over an SPE is carried out at inception. No further assessment of control is carried out unless changes in the structure or terms of the SPE or additional transactions between the Bank and the SPE occur.

Interests in joint ventures

The Bank's interests in joint ventures are accounted for using the equity method. The consolidated financial statements include the Bank's share of the income and expenses and equity movements of equity accounted investees, after adjustments to align the accounting policies with those of the Bank.

(c) Revenue recognition

Interest income and expense

Interest income and expense is recognised on an effective interest rate (EIR) basis, inclusive of directly attributable incremental transaction costs and fees including arrangement and broker fees, valuation and solicitor costs, discounts and premiums where appropriate and loan closure based transactions ie early redemption and late notice fees.

The EIR basis spreads the interest income and expense over the expected life of each instrument. The EIR is the rate that, at the inception of the instrument, exactly discounts expected future cash payments and receipts through the expected life of the instrument back to the initial carrying amount. When calculating the EIR, the Group estimates cash flows considering all contractual terms of the instrument (for example, prepayment options) but does not consider assets' future credit losses except for assets acquired at a deep discount.

For assets acquired at a value significantly below the carrying value in the acquiree's financial statements because they have incurred loss, expectations of future loss are higher than at origination, and interest spreads have widened because of deteriorating market conditions, the calculation of EIR is the same as shown above with the exception that the estimates of future cash flows include anticipated credit losses.

Fees and commissions

Fee and commission income is predominantly made up of arrangement and other fees relating to loans and advances to customers that are included in the effective interest calculation. Commitment fees received are deferred and included in the effective interest calculation upon completion or taken in full at the date the commitment period expires and completion does not occur.

Fees and commissions payable to introducers in respect of obtaining lending business, where these are direct and incremental costs related to the issue of a financial instrument, are included in interest income as part of the effective interest rate. Other fees are taken to the income statement.

All other fee and commission income that is not included in the effective interest calculation is recognised on an accruals basis as the service is provided.

(d) Significant items

Items which are material by both size and nature (ie outside of the normal operating activities of the Bank) are treated as significant items and disclosed separately on the face of the income statement.

The separate reporting of significant items helps provide an indication of the Bank's underlying business performance. Events which may give rise to the classification of items as significant include individually significant restructuring costs.

(e) Financial instruments (excluding derivatives)

Recognition

The Group initially recognises loans and advances, deposits, debt securities issued and other borrowed funds on the date at which they are originated.

Regular way purchases and sales of financial assets are recognised on the trade date at which the Group commits to purchase or sell the asset. All other financial assets and liabilities are initially recognised on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

Financial assets

The Bank classifies its financial assets (excluding derivatives) as either:

- Loans and receivables;
- · Available for sale; or
- Financial assets at fair value through income statement.

i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and the Group does not intend to sell immediately or in the near term. These are initially measured at fair value plus transaction costs that are directly attributable to the financial asset. Subsequently, these are measured at amortised cost using the effective interest method. The amortised cost is the amount advanced less principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the amount advanced and the maturity amount less impairment provisions for incurred losses.

Loans and receivables mainly comprise loans and advances to banks and customers (except where the Group has elected to carry the loans and advances to customers at fair value through income or expense as described in accounting policy (e) iii) below) and assets reclassified from available for sales see below).

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2010

Significant accounting policies continued

ii) Available for sale

Available for sale financial assets are debt securities that are not held for trading and are intended to be held for an indefinite period of time. These are measured at fair value based on current bid prices where quoted in an active market. Where the securities are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques. Movements in fair value are recorded in equity as they occur. On disposal, gains and losses recognised previously in equity are transferred to the income statement. In exceptional circumstances, for instance where the market in the securities has become inactive, the Group has reclassified such assets as loans and receivables.

Any transfer back from loans and receivables, upon reclassification, would be measured at fair value based on current bid prices where quoted in an active market. Where there is no active market or the securities are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques.

iii) Financial assets at fair value through income or expense

These are either:

- acquired or incurred principally for the purpose of selling or repurchasing in the near term;
- part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit taking; or
- upon initial recognition designated at fair value through income or expense to eliminate or significantly reduce a measurement and recognition
 inconsistency or where management specifically manages an asset or liability on that basis ie capital bonds.

These are measured at fair value based on current bid prices where quoted in an active market. Where there is no active market or the securities are unlisted the fair values are based on valuation techniques including discounted cashflow analysis, with reference to relevant market rates, and other commonly used valuation techniques. Gains and losses arising from changes in the fair value are brought into the income statement within trading income as they arise.

iv) Impairment provision

At the balance sheet date, the Bank assesses its financial assets not at fair value through income or expense for objective evidence that an impairment loss has been incurred.

Objective evidence that financial assets are impaired can include default or delinquency by a borrower, restructuring of a loan or advance on terms that the Group would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, or the disappearance of an active market for a security.

The Group considers evidence for impairment for loans and advances at both a specific asset and collective level. All individually significant loans and advances are assessed specifically for impairment. Loans and advances not individually significant are collectively assessed for impairment by grouping together loans and advances by similar risk characteristics.

In assessing collective impairment the Group uses statistical modelling of historical trends of probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that actual losses are likely to be greater or less than suggested by historical modelling. Default rates, loss rates and future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

The amount of the loss is the difference between:

- the asset's carrying amount; and
- the present value of estimated future cash flows (discounted at the asset's original or variable effective interest rate for amortised cost assets and at the current market rate for available for sale assets).

Impairment of financial assets carried at amortised cost

The amount of the impairment loss on assets carried at amortised cost is recognised immediately through the income statement and a corresponding reduction in the value of the financial asset is recognised through the use of an allowance account.

A write off is made when all or part of a claim is deemed uncollectible or forgiven after all the possible collection procedures have been completed and the amount of loss has been determined. Write offs are charged against previously established provisions for impairment or directly to the income statement. Any additional recoveries from borrowers, counterparties or other third parties made in future periods are offset against the write off charge in the income statement once they are received.

Provisions are released at the point when it is deemed that following a subsequent event the risk of loss has reduced to the extent that a provision is no longer required.

Impairment of financial assets classified as available for sale

Available for sale assets are assessed at each balance sheet date to see whether there is objective evidence of impairment. In such cases, any impairment losses are recognised by transferring the cumulative loss that has been recognised directly in equity to income or expense.

When a subsequent event causes the amount of impaired loss on available for sale investment securities to decrease and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the income statement. However any further recovery in fair value of an impaired available for sale equity security is recognised directly in equity.

Significant accounting policies continued

v) Derecognition of financial assets

Financial assets are derecognised when:

- the rights to receive cash flows from the asset have ceased; or
- the Bank has transferred substantially all the risks and rewards of ownership of the assets.

When available for sale financial assets are derecognised the cumulative gain or loss, including that previously recognised in reserves, is recognised in the income statement.

vi) Financial liabilities

Financial liabilities are contractual obligations to deliver cash or another financial asset. Financial liabilities are recognised initially at fair value, net of directly attributable transaction costs.

Financial liabilities, other than derivatives and capital bonds, are subsequently measured at amortised cost.

Certain non-derivative financial liabilities included within customer accounts (capital bonds) have been designated at fair value upon initial recognition in the balance sheet. Changes in fair value are recognised through the income statement. The capital bonds are economically matched using equity linked derivatives, which do not meet the requirements for hedge accounting. Recording changes in fair value of both the derivatives and the related liabilities through the income statement most closely reflects the economic reality of the transactions. In doing so this accounting treatment eliminates a measurement inconsistency that would otherwise arise from valuing the capital bonds at amortised cost and the derivatives at fair value.

A financial liability is derecognised when the obligation is discharged, cancelled or expires. Any difference between the carrying amount of a financial liability derecognised and the consideration paid is recognised through the income statement.

Borrowed funds

Borrowings are recognised initially at issue proceeds net of transaction costs incurred, equating to their fair value. Borrowings are subsequently stated at amortised cost; any difference between proceeds net of transaction costs and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

The Bank classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. The Bank's preference shares are classified as financial liabilities as they carry the right to a fixed non-cumulative preferential dividend (further information is provided in note 29) and are subsequently presented in other borrowed funds. The dividends on these preference shares are recognised in the income statement as interest expense on an amortised cost basis using the effective interest method.

Subscribed capital

Subscribed capital is carried at the nominal value plus any share premium and a fair value adjustment for hedged risk where items are designated as part of a fair value hedge relationship.

Interest payable on perpetual subordinated bonds recognised in the income statement using the EIR method.

(f) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(g) Sale and repurchase agreements

Securities sold subject to repurchase agreements (repos) are reclassified on the balance sheet as pledged assets when the transferee has the right by contract or custom to sell or repledge the assets. The liability to the transferee is also included on the balance sheet, in deposits from banks, other deposits or shares, as appropriate. The difference between sale and repurchase price is accrued over the life of the agreements using the EIR method.

Securities purchased under agreements to re-sell (reverse repos) are classified as loans and advances to banks on the balance sheet, as appropriate.

Securities lent to counterparties are retained on the balance sheet.

Securities borrowed are not recognised on the balance sheet, unless they are sold to third parties, in which case the purchase and sale are recorded. The obligation to return them is recorded at fair value as a trading liability.

(h) Derivative financial instruments and hedge accounting

Derivatives used for asset and liability management purposes

Derivatives are used to hedge interest and exchange rate exposures related to non-trading positions. Instruments used for hedging purposes include swaps, forward rate agreements, futures, options and combinations of these instruments. The Bank also uses equity derivatives to hedge the equity risks within its capital bonds.

Derivative financial instruments are stated at fair value based on quoted market prices in active markets, and where these are not available, using valuation techniques such as discounted cashflow models. Further information is provided on page 74. All derivatives are carried as assets when the fair value is positive and liabilities when the fair value is negative. The gain or loss on re-measurement to fair value is recognised immediately in the income statement except where derivatives qualify for cashflow hedge accounting.

On initial designation of derivatives and qualifying hedged items as a hedge, the Bank formally documents the relationship between the hedging instrument(s) and hedged item(s) including the risk management objective and strategy in undertaking the hedge transaction together with the method used to assess effectiveness of the hedging relationship.

The Bank makes an assessment, both at the inception of the hedge relationship as well as on an ongoing basis, whether the hedging instruments are expected to be 'highly effective' on offsetting the changes in fair value or cash flows of the respective hedged items during the period for which the hedge is designated, and whether the actual results of each hedge are within a range of 80%–125%.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2010

Significant accounting policies continued

Cashflow hedges

Where derivatives are designated as hedges of the exposure to variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, the portion of the fair value gain or loss on the derivative that is determined to be an effective hedge is recognised directly in equity. The ineffective part of any gain or loss is recognised in the income statement immediately.

Cumulative amounts recognised through equity are recycled to the income statement in the period in which the underlying hedged item matures and its associated gain or loss affects the income statement. When a hedging relationship is designated, or the hedge becomes ineffective, hedge accounting is discontinued. The cumulative unrealised gain or loss remaining in equity continues to be held in equity, and is transferred to the income statement when the forecast transaction is recognised.

Where the gain or loss in equity relates to a forecast transaction is no longer expected to occur, the cumulative unrealised gain or loss remaining in equity is amortised to the income statement over the remaining life of the asset or liability as part of the item's effective interest rate, or all transferred to the income statement when a forecast transaction is recognised.

Fair value hedges

Where a derivative is designated as the hedging instrument to hedge the change in fair value of a recognised asset or liability or a firm commitment that could affect income or expense, changes in the value of the derivative are recognised immediately in the income statement together with changes in the fair value of the hedged item that are attributable to the hedged risk.

Fair values are based on quoted market prices in active markets, and where these are not available, using valuation techniques such as discounted cashflow models.

If the derivative expires or is sold, terminated, or exercised, or no longer meets the criteria for fair value hedge accounting, or the designation is revoked, then hedge accounting is prospectively discontinued. Any adjustment up to that point, to a hedged item for which the effective interest method is used, is amortised to income or expense as part of the recalculated effective interest rate of the item over its remaining life.

Fair value hedge accounting for a portfolio hedge of interest rate risk

As part of its risk management process the Bank identifies portfolios whose interest rate risk it wishes to hedge. The portfolios may comprise only assets, only liabilities or both assets and liabilities. The Bank analyses each portfolio into repricing time periods based on expected repricing dates, by scheduling cash flows into the periods in which they are expected to occur. Using this analysis, the Bank decides the amount it wishes to hedge and designates as the hedged item an amount of assets or liabilities from each portfolio equal to this.

The Bank measures monthly the change in fair value of the portfolio relating to the risk that is being hedged. Provided that the hedge has been highly effective the Bank recognises the change in fair value of each hedged item in the income statement with the cumulative movement in its value being shown on the balance sheet as a separate item, fair value adjustment for hedged risk, either within assets or liabilities as appropriate. If the hedge no longer meets the criteria for hedge accounting, this amount is amortised to the income statement over the remaining average useful life of the hedge relationship.

The Bank measures the fair value of each hedging instrument monthly. The value is included in derivative financial instruments in either assets or liabilities as appropriate, with the change in value recorded in the income statement.

Any hedge ineffectiveness is recognised in the income statement as the difference between the change in fair value of the hedged item and the change in fair value of the hedging instrument.

Embedded derivatives

A derivative may be embedded in another instrument, known as the host contract. Where the economic characteristics and risks of an embedded derivative are not closely related to those of the host contract (and the host contract is not carried at fair value through income or expense), the embedded derivative is separated from the host and held on balance sheet at fair value.

Movements in fair value are posted to the income statement, whilst the host contract is accounted for according to the relevant accounting policy for that particular asset or liability.

Derivatives used for trading purposes

Derivatives entered into for trading purposes include swaps, forward rate agreements, futures, options and combinations of these instruments. Derivatives used for trading purposes are measured at fair value and any gains or losses are included in the income statement. The use of derivatives and their sale to customers as risk management products is an integral part of the Bank's trading activities.

Mortgage commitments

The Bank enters into derivative contracts to reduce the exposure to risk on mortgage commitments made (for example, where the Bank has made an irrevocable offer of a loan to a customer). Mortgage commitments are designated at fair value through income or expense, the corresponding derivative contracts are recorded at fair value and movements are recognised in the income statement.

Financial guarantee contracts

Other financial guarantees, in respect of intra group funding and the pension deficit in respect of the former Britannia Pension Scheme, between the Bank and its subsidiaries are treated as insurance contracts in accordance with IFRS 4. In accordance with the standard the recognised insurance liability is assessed based on the current estimate of forecast future cash flows. If this highlights that the liability is inadequate the liability is increased and the corresponding charge taken through income statement.

Significant accounting policies continued

(i) Property, plant and equipment

Items of property, plant and equipment are stated at cost less any accumulated depreciation and impairment losses. Depreciation is provided on a straight line basis at the following rates, which are estimated to write down the assets to realisable values at the end of their useful lives.

Freehold and long leasehold buildings 2% to 2.5% per annum

Short leasehold buildings life of lease

Equipment 10% to 33.3% per annum Vehicles 25% per annum

All items of property, plant and equipment are reviewed for indications of impairment on a regular basis and at each balance sheet date. Any impairment identified would be charged to the income statement.

(j) Intangible assets

Computer software

Computer software is stated at cost less cumulative amortisation and impairment. All costs directly attributable in the development of computer software for internal use are capitalised and classified as intangible assets where they are not an integral part of the related hardware and amortised over their useful life up to a maximum of seven years. For core systems, a review of the asset's useful life is carried out and a maximum useful life of up to ten years may be applied.

Goodwill

All business combinations are accounted for by applying the purchase method. Goodwill represents amounts arising on acquisition of subsidiaries, associates and joint ventures and represents the difference between the cost of the acquisition and the fair value of the identifiable assets, liabilities and contingent liabilities acquired.

If a business combination is achieved without transfer of consideration, the amount of goodwill is calculated by reference to the fair value of the Group's interest in the aquiree using a valuation technique. The technique involves assessing the future net profit of the acquiree and then discounting using a rate that reflects current market assessment of the time value of money and risks specific to the acquiree.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is not amortised but is tested for impairment on an annual basis. Where impairment is required the amount is recognised in the income statement and cannot be written back.

(k) Assets leased to customers

Finance leases

Income from assets leased to customers is credited to the income statement based on a pattern reflecting a constant periodic rate of return on the net investment in the lease.

(I) Assets leased from third parties

The Bank enters into leases for land and buildings and operating leases for vehicles.

Leases for land and buildings are split between leases for the land and leases for the buildings for accounting purposes only. The leases are separately assessed as to whether they are finance or operating leases.

Finance lease assets are initially recorded at the lower of fair value and the present value of the minimum lease payments, and subsequently in accordance with the relevant policy for the underlying asset. An equal liability is recorded in other liabilities. Interest is allocated to the lease payments so as to record a constant periodic rate of charge on the outstanding liability.

Operating lease payments are charged to the income statement on a straight line basis over the term of the lease and the asset is not recognised on the balance sheet.

The Bank policy is to provide for the minimum future lease payments on buildings that it does not currently use.

(m) Investment property

Property held for long term rental yields that is not occupied by the Bank or property held for capital appreciation is classified as investment property.

Investment property comprises freehold land and buildings. It is carried at fair value. Fair value is based on discounted expected future cashflows and is representative of current prices in an active market for similar properties in the same location and condition. No depreciation is provided on these properties. Any gain or loss arising from a change in fair value is recognised in the income statement.

If the Bank takes occupancy of an investment property it is reclassified as property, plant and equipment and its fair value at the date of reclassification becomes its cost for subsequent accounting purposes. Similarly, transfers to the investment property portfolio are made when occupancy by the Bank ceases and the property meets the criteria of an investment property under IAS 40. Prior to such a transfer the property is measured at fair value with any gain or loss recognised in the income statement.

(n) Cash and cash equivalents

Cash and cash equivalents comprises cash balances and balances with a maturity of three months or less from the acquisition date, which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Basis of preparation and significant accounting policies continued

For the year ended 31 December 2010

Significant accounting policies continued

(o) Income tax

Tax on the income statement for the year comprises current and deferred tax, which is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in the statement of comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided for is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(p) Pension costs

Defined contribution basis

With effect from 6 April 2006, the Bank, along with other businesses within The Co-operative Group, has participated in the Co-operative Group Pension (Average Career Earnings) Scheme (the PACE scheme). This scheme is a defined benefit scheme, the assets of which are held in a separate fund administered by trustees. As a group wide pension scheme, the PACE scheme exposes the participating businesses to actuarial risks associated with the current and former employees of other group companies, with the result that there is no consistent and reliable basis for allocating liabilities, assets and costs to individual companies participating in the scheme. Therefore pension costs in respect of the scheme are accounted for on a defined contribution basis and recognised as an expense in the income statement as incurred.

Former Britannia Building Society pension scheme

Following the transfer of engagements of Britannia Building Society (note 39), the Britannia defined benefit pension scheme transferred to The Co-operative Financial Services Management Services Limited (CFSMS), a fellow subsidiary undertaking of Co-operative Financial Services Limited. As this pension fund is not maintained by the Bank, pension costs in respect of the scheme are accounted for on a defined contribution basis and recognised as an expense in the income statement as incurred.

(g) Foreign currency

The functional and presentational currency for the Bank is sterling. Transactions in foreign currencies are translated at the foreign exchange rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to sterling at the foreign exchange rate ruling at that date. Foreign currency differences arising on retranslation are recognised in the income statement, except for foreign currency differences arising on retranslation of available for sale equity instruments or a qualifying cashflow hedge, which are recognised directly in the statement of comprehensive income. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair values are translated to sterling at the exchange rates prevailing at the dates the values were determined.

(r) Investments in group undertakings

Investments in subsidiaries are initially measured at fair value which equates to cost and subsequently valued at cost less impairment.

(s) Provisions for liabilities and charges

A provision is recognised in the balance sheet if the Bank has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(t) Profit based payments to members of The Co-operative Group

Members of The Co-operative Group receive a dividend based on their transactions with the Group and its subsidiaries including the Bank. The profit based payments to members of The Co-operative Group represent a recharge of the proportion of the dividend payable to the ultimate parent company, Co-operative Group Limited, where the underlying transaction is a Bank product. The recharge is recognised when the profit based payments are approved by The Co-operative Group Limited.

Risk management

For the year ended 31 December 2010

All amounts are stated in £m unless otherwise indicated

The CFS group of companies including The Co-operative Financial Services Limited, Co-operative Insurance Society Limited (Life & Savings business), CIS General Insurance Limited, and The Co-operative Bank plc have a common Board composition.

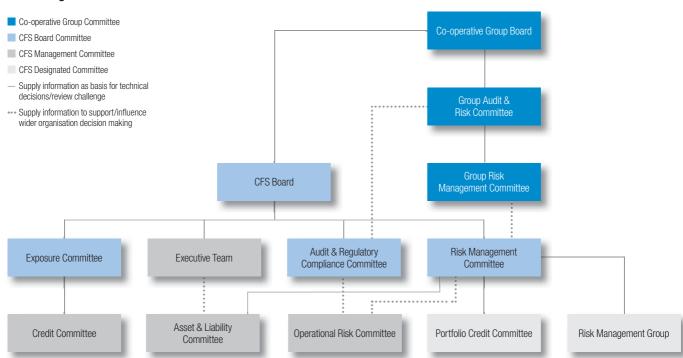

CFS has developed and implemented a common governance and organisation structure, with the same committee structure supporting each Board within the CFS Group.

The Board is responsible for approving the CFS strategy, its principal markets and the level of acceptable risks articulated through its statement of risk appetite. It is also responsible for overall corporate governance which includes ensuring that there is an adequate system of risk management and that the level of capital and liquidity held is consistent with the risk profile of the business.

The Board has established Board committees and senior management committees to administer, oversee and challenge the risk management process, identifying the key risks facing the business and assessing the effectiveness of planned management actions.

Specific Board authority has been delegated to Board committees and the Chief Executive who may, in turn, delegate elements of his discretions to appropriate executive directors and their senior line managers.

Risk management structure

The CFS Board delegates authority to the CFS Risk Management Committee (RMC) for monitoring compliance with the Board approved risk appetite statements. This includes:

- setting limits for individual types of risk; and
- approving (at least annually) and monitoring compliance with risk policies and delegated levels of authority.

Risk management continued

For the year ended 31 December 2010

All amounts are stated in £m unless otherwise indicated

Risk management structure continued

CFS Risk Management Committee (RMC): this committee is responsible for the review and challenge of the adequacy of capital for all risks (including operational risk), and for technical risk management activities (including liiquidity) and portfolio exposures across CFS including:

- operation of mandates and limits and any breaches thereof;
- technical risk management policy approval:
- risk management information reporting and integrity of relevant data;
- risks adequately identified and measured;
- risk and portfolio exposure management strategy;
- adequacy of the risk mitigation process;
- review and discussion of technical risk issues identified as a result of internal audit work; and
- review and challenge the impact assessment of the strategic plan on the risk and capital profile of CFS.

CFS Audit & Regulatory Compliance Committee (ARCC): this committee provides oversight in relation to financial reporting, internal control, regulatory compliance, external and internal audit. It is responsible for approval of policies and review of adequacy of risk management activities in relation to operational risk.

CFS Exposures Committee: this committee ensures that non-executive directors are actively involved in major credit decisions (including sanctioning large counterparty transactions), monitors large exposures and problem loans and reviews the adequacy of individual credit provisions.

CFS Executive Team: the Executive Team manage the business in line with the Board risk appetite statement. It also maintains oversight of risk management processes and management information.

CFS risk and capital management sub committees

CFS Portfolio Credit Committee (PCC): this committee is a designated committee reporting to RMC and chaired by the Business Leader Banking Risk. It is responsible for defining Bank Group credit risk appetite; providing oversight and timely action in relation to credit risk management; monitoring, challenging and approving changes to Basel rating systems; and reviewing lending and arrears policies.

CFS Asset & Liability Committees (ALCO): these committees are management committees of the Board which are chaired by the Chief Financial Officer. They are primarily responsible for overseeing the management of interest rate, market, liquidity and funding risks and to advise on capital utilisation, in addition to, the composition and sourcing of adequate capital.

CFS Risk Management Group (RMG): this committee is a designated committee reporting to RMC and chaired by the Chief Risk Officer. Its purpose is to provide a mechanism to ensure that CFS wide technical risk management requirements, developments and processes are reviewed, challenged and approved (with escalation to RMC where required) and embedded within and across CFS. The committee also monitors all significant and emerging technical risks, and oversees the development and implementation of stress testing and risk appetite across CFS.

CFS Credit Committee: this committee is chaired by the Business Leader Banking Risk. The chair has delegated authority for approving credit facilities within approved strategies and delegated authorities.

CFS Operational Risk Committee (ORC): this committee interfaces with both the Executive Team and ARCC and is chaired by the Business Leader Regulatory Compliance and Operational Risk. It monitors significant operational risks and controls as well as the management actions taken to mitigate them to an acceptable level and/or transfer them. This includes business continuity arrangements and insurance cover to protect the CFS business. Capital requirements in relation to operational risk are monitored by the RMC.

There is also a framework of sector specific management committees supporting risk and capital management, implementing changes in business strategy, optimising performance, adherence to and setting of policy, and development of management information and training.

Bank significant risks

The Bank's significant risks arise in four broad categories:

- · credit risk;
- · market risk;
- liquidity risk; and
- · operational risk.

Credit risk

Credit risk is the current or prospective risk to earnings and capital arising from a borrower's failure to meet the terms of any contract with the Bank or its failure to perform as agreed.

Credit risk is an integral part of many of our business activities and is inherent in traditional banking products (loans, commitments to lend and contingent liabilities, such as letters of credit) and in 'traded products' (derivative contracts such as forwards, swaps, options, repurchase agreements and securities borrowing and lending transactions).

The credit risk policies are approved by RMC (delegated authority from the Board) annually and are the responsibility of the Business Leader Banking Risk. The policies determine the criteria for the management of retail, corporate and wholesale risk, including securitisation, market exposures and credit management standards, country, sector and counterparty limits, along with risk appetites and delegated authorities.

All authority to take credit risk derives from the CFS Board. This is delegated through authorities to individuals or committees via the Chief Executive. The level of credit risk authority delegated depends on seniority and experience, varying according to the quality of the counterparty or any associated security or collateral held.

Credit risk continued

The Bank's retail secured and unsecured credit policy is to establish credit criteria which determine the optimum balance between volume growth (generating higher income) and higher bad debts, so as to maximise overall profitability within the Bank's risk appetite. The majority of retail credit risk related decisions are based on well founded and robust decision mechanisms designed to segregate customers into risk categories. There is a suite of bespoke, externally and internally developed application and behavioural scorecards derived from sound historic data. It is the responsibility of the Credit Risk Control Unit to design, select, implement, maintain and monitor these systems. The PCC and RMC receive regular reports on the performance of the portfolios.

The Bank's corporate sector policy is to maintain a broad sectoral spread of exposures which reflect the Bank's areas of expertise. Credit exposures to corporate and business banking customers are assessed individually. The quality of the overall portfolio is monitored using a credit grading system calibrated to expected loss. All aspects of credit management are controlled centrally. The PCC and RMC receive regular reports on the performance of the portfolio. The Exposures Committee receives regular reports on new facilities, bad debt provisions and the management of problem loans.

The Bank's wholesale market credit risk framework takes a holistic approach to risk management with, at its centre, a credit risk policy which governs the types of exposure the business can take and sets concentration parameters. To complement this, individual authority is delegated in terms of Internal Rating Grade (IRG) and associated Probability of Default (PD) to approve limits to individual counterparties within the parameters established by the credit risk policy. The PCC and RMC receive regular reports on the performance of the portfolio. The exposures committee receives regular reports on changes in exposure limits, watchlist and problem counterparty information.

Cash and balances at central banks are considered to be risk free and have been excluded from the following analysis of credit exposure.

Analysis of impaired assets and associated collateral Impaired assets

Loans and securities are considered impaired where it is determined that the Bank will be unable to collect all principal and interest outstanding, according to the contractual terms of the agreements.

The loan portfolios are reviewed on a periodic basis, usually once a month, to assess impairment. A loan will be deemed to be impaired where there is objective evidence that a loss event has occurred after recognition of an asset and prior to the balance sheet date.

Objective evidence of impairment on the loan portfolios includes:

Portfolio

Impairment definition

Corporate

- an instalment on a loan account is overdue, or has been in excess of its limit (or is overdrawn without an agreed limit) for 90 days or more;
- if, as a result of lending being (either now or previously) at risk in distress, the Bank has agreed to a material postponement or forgiveness of interest and/or 'soft' rates or to a waiver and/or reduction of normal fees and charges, the accounts must be considered impaired while such favourable terms are being applied;
- there has been a full or partial write off of debt, following which the account must remain impaired for at least six months;
- there has been an event likely to result in insolvency which may involve bankruptcy, or the appointment of an administrative receiver, liquidator or administrator; or
- if the Bank considers that at some point (normally taken as within the next 12 months) actions such as an issue of formal demand will be required in order to achieve full repayment.

Mortgages

- arrears outstanding are equivalent to three or more monthly instalments; or
- we have commenced litigation against the borrower for repossession of the property against which the loan is secured.

Unsecured

loans with any amount of arrears are treated as impaired.

For all portfolios the actual provision will depend on the expected roll rate to charge off or anticipated cash flow, and the estimated value of any supporting collateral.

Once a loan is defined as impaired the provision will be calculated as the difference between the current carrying value of the asset and the expected future recovery, discounted at the loan's effective interest rate, taking into account the expected charge-off rate and any supporting collateral. The table below shows the impairment rates of the various portfolios, shown by customer balance outstanding:

	2010 Customer			Customer	2009			
	balance	%	Impaired	%	balance	%	Impaired	%
Corporate	10,456.0	28.1	664.0	6.4	10,188.0	28.1	648.0	6.4
Mortgages	25,222.0	68.0	1,838.8	7.3	24,571.0	67.7	1,976.2	8.0
Unsecured:								
Credit cards	606.0	1.6	96.2	15.9	661.0	1.8	99.8	15.1
Loans	810.0	2.2	43.0	5.3	783.0	2.2	37.3	4.8
Overdrafts	52.0	0.1	13.1	25.2	56.0	0.2	14.5	25.9
	37,146.0	100.0	2,655.1	7.1	36,259.0	100.0	2,775.8	7.7

At the balance sheet date, the Bank assesses its debt securities for objective evidence that an impairment loss has occurred. For a debt security this may be the disappearance of an active market. For available for sale debt securities particular consideration is given to evidence of any significant difficulty of the issuer or measurable decrease in the estimated cash flows from the investments.

Renegotiation of retail lending

The Bank is committed to supporting borrowers who are in financial difficulties and will consider a range of treatments to help a borrower meet their loan commitments and clear any outstanding arrears. On secured lending, repossession of the property is always considered a last resort.

Alternative treatments for borrowers include arrangements to repay arrears over an extended period, or temporary concessions where arrears are allowed to increase for a temporary period. Such arrangements may be negotiated directly with the borrower or via a third party. Where such arrangement is made the loan will continue to be treated as impaired until such time as the arrears have been cleared in full.

In certain circumstances, as defined in the Bank's policy, we may agree to renegotiate a loan to repay outstanding arrears over the remaining term of the loan.

- On mortgages where such a renegotiation takes place, known as capitalisation, the loan will be classified as neither past due nor impaired, for so long as the mortgagors comply with the terms of their renegotiated contracts. During 2010, 541 secured loans (2009: 534) in the Group were renegotiated, including 86 (2009: eight) in the Bank. The balance of these loans as at 31 December 2010 in the Group was £63.2m (2009: £95.2m), including £5.8m (2009: £28.1m) in the Bank.
- On unsecured lending renegotiated loans, known as re-aged loans, will continue to be treated as impaired for a period of 12 months, or until three payments have been missed on the re-aged loans. The expected charge off rate will be based on the performance of other re-aged loans. At the end of 2010 there were £23.9m of re-aged loans.

Credit risk continued

Past due but not impaired

Loans and securities are considered past due where the contractual interest or principal payment are in arrears, however there are certain mitigating circumstances that may deem it necessary not to raise a provision for past due accounts (eg amount/days past due are immaterial). Provisions can be raised where accounts are not past due, this could be the stage of collection of amounts owed to the Bank or a specific event such as bankruptcy.

In the table past due but not impaired represents the outstanding balances on mortgages and unsecured retail lending where borrowers have failed to make payments when contractually due and the Bank expects that all contractual payments will be collected. This includes credit card exposures less than 30 days and 45 days for other retail unsecured lending. For mortgages, accounts up to 90 days in arrears but with no provision are classed as past due but not impaired.

Within the credit risk analysis table, low to medium risk has been defined as exposures where the PD is 1% or below over a one year time horizon for exposures on IRB approach under Basel II and slotting category strong/good/satisfactory for specialised lending exposures under the slotting approach. Medium to high risk has been defined as a PD of greater than 1% over a one year time horizon for exposure on IRB approach under Basel II and slotting category weak for specialised lending exposures under the slotting approach.

Within the treasury debt security portfolio 82% (2009: 82%) of exposures have an external credit rating equivalent to Fitch A or above.

The factors considered in determining if financial assets are individually impaired are stated above and within critical judgments on pages 79 to 81.

Fair value adjustments and provisions held against impaired exposures

When Britannia merged with The Co-operative Bank, the Britannia lending portfolios were carried into the newly merged entity at their fair value, taking account of future lifetime expected loss on the lending portfolios at 31 July 2009. The lifetime expected loss adjustment is offset against the Britannia gross lending balances in the combined entity's financial statements. The utilisation and allocation of the fair value adjustment is reviewed on a regular basis.

Description of collateral

The Bank uses collateral and guarantees to mitigate credit risk. Collateral is regularly revalued and guarantees reviewed to ensure continuing effectiveness.

The majority of collateral held is not eligible financial collateral, it is residential real estate collateral for retail mortgages or either residential or commercial real estate collateral held against corporate lending.

When calculating the value of collateral for regulatory capital risk mitigation purposes, the appropriate valuation criteria contained within BIPRU is applied. When assessing the collateral valuations for corporate lending policy purposes, a more conservative written down value is used, stepped according to the risk level of the asset.

Where exposures are agreed on a secured basis, security cover is taken into account only where:

- the security is legally enforceable and is of a tangible nature and type;
- an appropriate, recent and reliable valuation is held; and
- a prudent margin is applied to the valuation, for the type of security involved.

Eligible financial collateral includes gilts held as part of reverse repo agreements, and cash as part of collateralised swaps or against corporate lending. The guarantees include parental guarantees held against subsidiary exposures.

At the reporting date the value of collateral held as security against financial assets was as follows:

	2010	2009
Fair value of collateral on financial assets which are past due but not impaired	895.4	966.9
Fair value of collateral on individually impaired financial assets	1,956.1	2,037.3
Carrying value of assets obtained by taking possession of collateral or calling on guarantees	186.6	229.0

Eurozone risk

All Eurozone exposures continue to be closely monitored especially those to financial institutions in Portugal, Ireland, Italy, Spain and Belgium. The Bank has no exposure to Greece.

Underlying term assets are deemed to be in run off, with associated counterparty and country limits reducing as assets mature and there is no new term exposure. All of the residual direct wholesale term exposure to these countries matures by mid 2012.

The Bank's exposure to these Eurozone countries (as valued for credit risk purposes) represented 2.4% of total Bank exposures.

Market risk

Market risk arises from the effect of changes in market prices of financial instruments, on income derived from the structure of the balance sheet, execution of customer and interbank business and proprietary trading. The majority of the risk arises from changes in interest rates.

Interest rate risk

Interest rate risk policy statements, approved by the RMC on behalf of the Board, specify the scope of the Bank's wholesale market activity, market risk limits and delegated authorities. The policy is managed by the Bank's ALCO which meets monthly and its prime task is to assess the interest rate risk inherent in the maturity and repricing characteristics of the Bank's assets and liabilities. It sets limits within which treasury and balance sheet management manage the effect of interest rate changes on the Bank's overall net interest income. Treasury is responsible for interest rate risk management for the Bank. The principal analytical techniques involve assessing the impact of different interest rate scenarios and changes in balances over various time periods.

For the year ended 31 December 2010

All amounts are stated in £m unless otherwise indicated

Market risk continued

The Board receives reports on the management of balance sheet risk and, each month, ALCO reviews the balance sheet risk position and the utilisation of wholesale market risk limits.

Non-treasury interest rate risk

The Bank (excluding wholesale) uses a gap report and earnings approach to managing interest rate risk, focusing in detail on the sensitivity of assumed changes in interest rates on net interest income for one year. Higher level analysis is performed for subsequent years.

ALCO monitors the non-trading interest rate risk which is split between certain wholesale portfolios, banking and investment books, and the rest of the Bank's balance sheet. The following describes the Bank non-trading portfolios excluding these certain wholesale portfolios. These positions are managed by treasury. All interest rate risk is centralised into treasury using appropriate transfer pricing rates.

Gap reports are based on defined time periods. ALCO set guidance limits around the gap, principally that the sum of positions maturing in greater than 12 months and non-sensitive balances (includes non-maturity deposits) is no more than a set limit.

Risk limits are formally calculated at each month end. Interest rate risk and effectiveness of hedging is monitored daily using gap positions, incorporating new business requirements. Draw down risk, in particular for fixed rate mortgages, is managed through weekly balance sheet meetings. Treasury undertake hedges for interest rate risk using derivative instruments and investment securities which are executed via the dealing room to wholesale markets, and loans and deposits which are executed internally with treasury.

The table below illustrates the sensitivity analysis relating to the 'core' Bank, a primary measure in the approach to managing interest rate risk.

The table illustrates the Present Value (PV) change based on a 1% shock in interest rates at the end of the year across the yield curve on the Bank's balances excluding wholesale treasury and customer currency balances (subject to a 0% floor), which are managed within the treasury risk framework. The shock results are driven by product pricing and product mix. The extent of rate movements and low rate environment have impacted the repricing of liability products resulting in larger exposure to rate shocks.

	100bp increase	100bp decrease
2010		
At the year end	(9.0)	10.7
Average for the period	(12.8)	13.5
Maximum sensitivity for the period	(35.3)	37.3
Minimum sensitivity for the period	(0.2)	0.4
2009		
At the year end	(0.2)	1.9
Average for the period	(4.4)	5.7
Maximum sensitivity for the period	(23.3)	25.6
Minimum sensitivity for the period	3.4	(3.7)

Treasury interest rate risk

Treasury executes short term funding and hedging transactions with the wholesale markets on behalf of the Bank and its customers. It also generates incremental income from proprietary trading within strict risk limits. There are two prime measures of risk supplemented by additional controls such as maturity and stop loss limits. Risk units express the various repricing and maturity mismatches as a common unit of measurement. Value at Risk (VaR) measures the daily maximum potential gain or loss due to market volatility within a statistical confidence level of 95% and a one day holding period. Simulation is being developed to provide VaR calculations to cover the combined core banking book positions. The VaR methodology has inherent limitations in that market volatility in the past, may not be a reliable predictor of the future, and may not reflect the time required to hedge or dispose of the position, hence VaR is not used as the sole measure of risk.

PV100

This illustrates the change in valuation on a fixed income portfolio experienced given a 1% increase and decrease in interest rates for treasury, representing treasury banking book and trading book combined. PV100 is the effect on the net present value (NPV) of the treasury portfolio to a parallel shift of 100 basis points upon the base yield curve. The effects of a 1% increase in interest rates are (£11.0m) (2009: £0.4m) and a 1% decrease £9.1m (2009: £0.2m)).

Currency risk

The Bank's treasury foreign exchange activities are primarily:

- providing a service in meeting the foreign exchange requirements of customers;
- maintaining liquidity in euros and US dollars by raising funds and investing these to generate a return; and
- performing limited intraday trading and overnight positioning in major currencies to generate incremental income.

The table below provides an analysis of the Group's and Bank's assets and liabilities by currency.

At 31 December 2010 the Group and Bank's open position was $\mathfrak{L}0.4$ m (2009: $\mathfrak{L}0.7$ m) representing a potential loss of \mathfrak{L} nil given a 3% depreciation in sterling (2009: \mathfrak{L} nil). The open position is monitored against limits in addition to limits in place on individual currencies. All figures are in \mathfrak{L} sterling equivalent.

Liquidity risk

Liquidity risk arises from the timing of cash flows generated from the Group's assets and liabilities (including derivatives). The Group's liquidity management policies are reviewed and approved annually by the RMC and compliance reviewed monthly by ALCO.

Liquidity risk arising from the structure of the balance sheet (structural liquidity) is managed to policies developed by ALCO. Liquidity risk is defined as the Board approved survival period under stress scenarios. The Bank undertakes various stress tests on a weekly basis.

The Bank has enhanced its liquidity management by introducing a liquidity risk framework which has a number of strategic and tactical measures that feed into an overall liquidity status score. The Bank's liquidity management framework is designed in line with FSA BIPRU regulations and industry guidelines, including Institute of International Finance and Bank for International Settlements recommendations.

The Bank manages liquidity risk by applying:

- a systematic control process embedded in the Bank's operations; and
- controlled end to end liquidity management with:
- net outflows monitored to ensure they are within FSA limits;
- maintenance of a well diversified deposit base;
- management of stocks: high quality primary liquidity including cash, and secondary liquidity including certificates of deposit;
- target strategic ratios; and
- stress testing.

The strategic measures set by ALCO and monitored monthly are:

- wholesale borrowing ratio the amount of wholesale borrowing compared to total liabilities;
- liquid asset ratio amount of total assets that are liquid assets; and
- customer loan/deposit ratio amount of customer loans funded by customer deposits.

Day to day cash flow (tactical liquidity) is managed by treasury within guidelines laid down by ALCO and in accordance with the standards established for all banks by the FSA.

The Bank has a high proportion of retail assets funded by retail deposits, ensuring there is no over reliance on wholesale funding. There are customer funding and wholesale funding ratios as described above which are set in line with the Board approved strategic plan. The Group's structural liquidity risk management is therefore retail based and is dependent on behavioural analysis of both customer demand and deposit and loan drawdown profiles by product category based on experience over the last ten years. The behaviour of retail products is reviewed by ALCO and in addition the Group has maturity mismatch limits to control the exposure to longer term mismatches.

The Bank's liquidity position is monitored on a daily basis and reported to ALCO each month. Treasury holds a pool of liquid assets on behalf of the Bank, and management actions are in place to provide additional liquidity when required. These sources of liquidity are held in order to be available to meet unexpected liquidity requirements.

Marketable assets are maintained as a liquidity pool against potential retail outflows; the liquidity pool is the highest quality debt and consists of high quality government issued debt, and cash at the Bank of England.

The Bank has access to a variety of medium term wholesale funding sources: securitisation, covered bond and Euro Medium Term Notes. The Bank will issue from the programmes as funding requirements and market conditions permit.

ALCO meets monthly and discusses the actual liquidity position and projected position incorporating business plans. As required a more regular meeting is held, this is typically when the markets have a heightened period of stress or liquidity shortage. The meetings ensure that the business plans are accurate and can be flexed as required.

Liquidity gap

The following table analyses assets and liabilities into relevant maturity groupings based on the remaining period of the balance sheet date to the contractual maturity date.

The Bank manages liquidity on a behavioural rather than contractual basis, reflecting where actual behaviour differs from contractual maturity:

- retail and corporate deposit bases are very stable, with deposits being attracted to the Bank by good customer service and its ethical policy. As a result, the deposit base remains stable whereas the contractual maturity is immediate for instant access deposits; and
- personal loan and visa balances are repaid earlier than their contractual maturity date.

These behavioural adjustments are based on historical experience of customer behaviour over a period of up to ten years.

For the year ended 31 December 2010 All amounts are stated in £m unless otherwise indicated

	Other borrowed funds	946.5	787.0	946.5	787.0	

Key considerations in the calculation of fair values are as follows:

(a) Loans and advances to banks/deposits by banks

Loans and advances to banks include interbank placements and items in the course of collection.

The fair value of floating rate placements and overnight deposits is their carrying amount. The estimated fair value of fixed interest bearing deposits is based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity. A credit loss adjustment has been applied based on expected loss amounts derived from the Bank's regulatory capital calculations.

(b) Loans and advances to customers

Fixed rate loans and advances to customers are revalued to fair value based on future interest cash flows (at funding rates) and principal cash flows discounted using the zero coupon rate. Forecast principal repayments are based on redemption at the earlier of maturity or repricing date with some overlay for historic behavioural experience where relevant. The eventual timing of future cash flows may be different from the forecast due to unpredictable customer behaviour. It is assumed there is no fair value adjustment required in respect of interest rate movement on variable rate assets. A credit loss adjustment has been applied based on expected loss amounts derived from the Bank's regulatory capital calculations.

(c) Customer accounts

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The estimated fair value of fixed interest bearing deposits and other borrowings without quoted market price is based on discounted cash flows using interest rates for new debts with similar remaining maturity.

(d) Customer accounts - capital bonds

The estimated fair value of customer accounts - capital bonds is based on independent third party valuations using forecast future movements in the appropriate indices.

Fair values of financial assets and liabilities continued

(e) Debt securities in issue and other borrowed funds

The aggregate fair values are calculated based on quoted market prices. For those notes where quoted market prices are not available, a discounted cash flow model is used based on a current yield curve appropriate for the remaining term to maturity.

(f) Investment securities

Fair value is based on market prices. Where this information is not available, fair value has been estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

(g) Derivatives

Futures and options are marked to market using listed market prices. For interest rate swaps, the estimated fair value is based on discounted cash flows using prevailing money market interest rates for instruments with similar remaining maturity.

Use of financial instruments

The use of financial instruments is essential to the Bank's business activities and financial instruments constitute a significant proportion of the Bank's assets and liabilities. Risk management procedures are described earlier in this report, and analysis of the financial instruments is provided in the notes to the financial statements.

The table below analyses financial instruments by measurement basis as defined by IAS 39.

Balance sheet categories	Held for Trading	Designated at fair value	Loans and receivables	Available for sale	Other amortised cost	Cash flow hedges	Total

Valuation techniques

Fair values are determined according to the following hierarchy:

(a) Level 1 – Quoted market prices in active markets

Financial instruments with quoted prices for identical instruments in active markets. The best evidence of fair value is a quoted market price in an actively traded market.

(b) Level 2 – Valuation techniques using observable inputs

Financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

The valuation techniques used to value these instruments employ only observable market data and relate to the following assets and liabilities:

For the year ended 31 December 2010

All amounts are stated in £m unless otherwise indicated

Fair values of financial assets and liabilities continued

Loans and advances to customers

Loans and advances to customers include corporate loans of £62.3m (2009: £36.4m) which are fair valued through income or expense using observable inputs. Loans held at fair value are valued at the sum of all future expected cash flows, discounted using a yield curve based on observable market inputs.

Investment securities - available for sale

Debt securities classified under valuation techniques using observable inputs are described in the critical judgments section on page 79.

Derivative financial instruments

OTC (ie non-exchange traded) derivatives are valued using valuation models which are based on observable market data. Valuation models calculate the present value of expected future cash flows, based upon 'no arbitrage' principles. The Bank enters into vanilla foreign exchange and interest rate swap derivatives, for which modelling techniques are standard across the industry. Examples of inputs that are generally observable include foreign exchange spot and forward rates, and benchmark interest rate curves.

(c) Level 3 – Valuation techniques using unobservable inputs

This is used for financial instruments valued using models where one or more significant inputs are not observable.

The small proportion of financial assets valued based on significant unobservable inputs are analysed as follows:

Loans and advances to customers

Loans and advances to customers include 25 year fixed rate mortgages £11.8m (2009: £11.8m) which are fair valued through income or expense using unobservable inputs. 25 year fixed rate mortgages are valued using future interest cash flows at the fixed customer rate and estimated schedule of customer repayments. Cash flows are discounted at a credit adjusted discount rate; the credit adjustment is based on the average margin of new long dated (5 years or greater) fixed rate business written in the last six months, and subject to quarterly review. The eventual timing of future cash flows may be different from that forecast due to unpredictable customer behaviour, particularly on a 25 year product. The valuation methodology takes account of credit risk and has decreased the valuation by £0.1m in 2010 (2009: increase of £0.2m). A reasonable change in the assumptions would not result in any material change in the valuation.

Equity shares

Primarily, equity shares relate to investments held in Vocalink Limited which are unquoted shares. The valuation of such shares is based on our percentage shareholding of the most recent public information valuation issued by the company.

Derivative financial instruments

Derivative financial instruments including internal interest rate swaps have been entered into during the year between the Bank and The Covered Bond LLP (LLP) and the Bank and Silk Road Finance Number One (Silk Rd 1).

The purpose of the swap is to convert the fixed and base rate linked revenue receipts of the pool of mortgage assets to the same LIBOR linked basis as the intercompany loan. Under this swap arrangement the LLP or Silk Rd 1 pays to the swap counterparty, the monthly mortgage revenue receipts of the pool of assets and receives from the swap counterparty LIBOR plus a contractual spread on the same notional balance; the spread being sufficient to cover the intercompany loan and any expenses.

The swap is valued based on an assumed amortisation profile of the pool of assets to the bond maturity date (assuming some annual prepayment), an assumed profile of customer receipts over this period, and LIBOR prediction using forward rates. Swap cash flows are discounted to present value using mid-yield curve zero coupon rates, ie no adjustment is made for credit losses, nor for transaction or any other costs.

The fair value of the swap is based on a valuation model that reflects the mortgage cash flows over a three year period using a discount rate based on LIBOR spreads. This derivative eliminates on consolidation.

Amounts owed to other Co-operative Group undertakings

Deposits from customers includes deposits by the LLP and Silk Rd 1 subsidiaries relating to the legal transfer of loans and advances on issue of the Bank's covered bonds and securitisation. The deposit is fair valued to eliminate an accounting mismatch of the swap derivative as discussed above.

Revaluation of the £5.9bn (2009: £3.4bn) mortgage pool from carrying to fair value is based on assumed timing of future mortgage capital and revenue receipts, discounted to present value using a credit adjusted discount rate.

The amortisation profile is as per the swaps valuation methodology, assuming some annual prepayment, but is extended beyond any bond maturity, until all the mortgages themselves mature, which is circa 25 years. Similarly, the revenue receipts are calculated as per the swap valuation methodology, but extended until all the mortgages mature. For fixed rate mortgages, revenue receipts are based on fixed customer rates within the assumed amortisation profile. For tracker, SVR and discount products, revenue receipts are assumed to be based on forward LIBOR rates plus the product margins. Fixed and tracker mortgages are assumed to revert to SVR at the end of any offer period. All mortgages in the covered bond pool were originated pre 31 December 2007.

The fair value of the swap is based on a valuation model that reflects the mortgage cash flows over a three year period using a discount rate based on LIBOR spreads. This derivative eliminates on consolidation.

Primary financial instruments used by the Bank

The main financial instruments used by the Bank, and the purposes for which they are held, are outlined below:

Customer loans and deposits

The provision of banking facilities to customers is the prime activity of the Bank and customer loans and deposits are major constituents of the balance sheet. Customer loans include retail mortgages, corporate loans, credit cards, unsecured retail lending and overdrafts. Customer deposits include retail and corporate current and saving accounts. The Bank has detailed policies and procedures to manage risks. In addition to mortgage lending, much of the lending to corporate and business banking customers is secured.

Debt securities, wholesale market loans and deposits

Debt securities include structured investments and credit trading vehicles. Further details are provided in critical judgments on page 79. Debt securities also underpin the Bank's liquidity requirements and generate incremental net interest and trading income.

The Bank issues medium term notes within an established euro medium term note programme and also issues certificates of deposit and commercial paper as part of its normal treasury activities. These sources of funds alongside wholesale market loans are invested in marketable, investment grade debt securities, short term wholesale market placements and used to fund customer loans.

Capital funds – subordinated note issues and preference shares

The Bank has a policy of maintaining prudent capital ratios and utilises a broad spread of capital funds. In addition to ordinary share capital and retained earnings, the Bank has issued £60m preference shares and, when appropriate, also issues perpetual and fixed term subordinated notes.

Foreign exchange

The Bank undertakes foreign exchange dealing to facilitate customer requirements and to generate incremental income from short term trading in the major currencies. Structured risk and trading related risk are managed formally within position limits approved by the Board.

Derivatives

A derivative is a financial instrument that derives its value from an underlying rate or price such as interest rates, exchange rates and other market prices. Derivatives are an efficient means of managing market risk and limiting counterparty exposure. The Bank uses them mainly for hedging purposes and to meet the needs of customers.
